(c) (*A*) *classification.*—The styles of halves and whole canned apricots that are practically uniform in size and symmetry may be given a score of 18 to 20 points. "Practically uniform in size and symmetry" means that the units are very symmetrical; and that the number of units that exceed the maximum weight variation, the number of detached or partially detached pieces in the style of halves, and/or the number of units of halves that possess off-suture cuts do not exceed the applicable number specified in § 52.2655.

(d) (*B*) *classification.*—The styles of halves and whole canned apricots that are reasonably uniform in size and symmetry may be given a score of 16 or 17 points. A sample unit of the style of halves that possess more than 5 units which have off-suture cuts shall not be graded above U.S. Grade B, regardless of

V 38 163 AUG 23 73 XUM

the total score for the product (this is a partial limiting rule). "Reasonably uniform in size and symmetry" means that the units are reasonably symmetrical; and that the number of units that exceed the maximum weight variation, the number of detached or partially detached pieces, and/or the number of units of halves that possess off-suture cuts do not exceed the applicable number specified in § 52.2655.

(e) (*C*) *classification.*—The styles of halves and whole canned apricots that are fairly uniform in size and symmetry may be given a score of 14 or 15 points. Except for off-suture cuts in the style of halves, canned apricots that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product; a sample unit of halves style that possesses more than 8 units that have off-suture cuts shall not be graded above U.S. Grade C, regardless of the total score for the product (this is a limiting rule). "Fairly uniform in size and symmetry" means that the units may vary in size, thickness, and symmetry; and that the number of units that exceed the maximum weight variation, the number of detached or partially detached pieces, and/or the number of units of halves style that possess off-suture cuts do not exceed the applicable number specified in § 52.2655.

(f) (*SStd*) *classification.*—Canned apricots that fail to meet the uniformity of size and symmetry requirements for Grade C may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.2653 Defects.

(a) *General.*—The factor of defects refers to the degree of freedom from pit material, loose pits, harmless extraneous material, short stems, peel, minor blemishes, major blemishes, and crushed or broken units.

Canned whole apricots shall be considered as halved along the suture and each half therefrom is considered a separate unit in evaluating the factor of defects with respect to minor blemishes only. Each whole apricot shall be considered as a separate unit in ascertaining compliance with allowances for major blemishes.

(b) *Definitions.*—(1) *Harmless extraneous material.*—"Harmless extraneous material" means any harmless vegetable substance (such as, but not limited to, a leaf or portion thereof, or a large stem) that is harmless.

(2) *Short stem.*—A "short stem means the short, thick, woody, stem which attaches the apricot to the twig of the tree or other stem material of equivalent woodiness and shortness.

(3) *Pit material.*—"Pit material" means any whole pit in all styles other than whole styles or any portion of an apricot pit, regardless of size, except when whole apricot pits or apricot kernels are permitted as seasoning ingredients in other than whole styles.

(4) *Loose pit.*—A "loose pit" means a whole, unbroken pit not adhering to the flesh of a unit in the styles of whole apricots.

(5) *Minor blemish.*—"Minor blemish" in unpeeled styles includes "freckles" and also means:

(i) Light brown to brown surface areas which, singly or in combination on a unit, exceed in the aggregate the area of a circle ⅛ inch in diameter but do not exceed in the aggregate the area of a circle ¼ inch in diameter; or

(ii) Single dark brown surface areas that do not exceed the area of a circle ⅛ inch in diameter but which, singly or in combination with other "minor blemishes" on a unit, affect materially but not seriously the appearance of the unit. Light brown to brown surface areas and "freckles" that are insignificant and less than the area of a circle ⅛ inch in diameter and which do not affect materially the appearance of the unit are not considered "defects."

(6) *Major blemish.*—"Major blemish" in canned apricots includes units affected by scab, hail injury, discoloration, or other abnormalities in the following degree:

(i) Light brown to brown surface areas in unpeeled styles which, singly or in combination on a unit, exceed in the aggregate the area of a circle ¼ inch in diameter;

(ii) Blemishes that extend into the fruit tissue regardless of area or depth;

(iii) Single dark brown surface areas in unpeeled styles that exceed the area of a circle ⅛ inch in diameter, whether or not the unit is affected by minor blemishes; or

(iv) Any blemish whether or not specifically defined or mentioned in this subparagraph which affects seriously the appearance of the unit but is not a filthy or decomposed substance.

(7) *Crushed or broken.*—"Crushed or broken" means that:

(i) A unit in halves or whole style of canned apricots is "crushed" if the unit has definitely lost its normal shape and is crushed not due to ripeness; and

(ii) A unit in halves or whole style of canned apricots is "broken" if severed into definite parts; halves of canned apricots that are slightly or partially split or mashed from the edge to the pit cavity are not considered broken, or units in the style of peeled whole apricots that are mashed or very soft due to ripeness to the extent that the pit cavity is exposed or a seed missing therefrom is not crushed or broken. Portions equivalent to a full-size unit that has been broken are considered as one unit in determining compliance with the allowances for this defect.

(c) (*A*) *classification.*—Halves, slices, and whole canned apricots that are practically free from defects may be given a score of 27 to 30 points. "Practically free from defects" means that:

(1) The amount of peel that may be present in peeled styles does not exceed the amount specified in § 52.2655; and

(2) The number of other defects that may be present does not exceed the number specified for the applicable style in § 52.2655.

(d) (*B*) *classification.*—Halves, slices, and whole canned apricots that are reasonably free from defects may be given a score of 24 to 26 points. Canned apricots of mixed pieces that are at least reasonably free from defects may be given a score of 32 to 40 points. Canned apricots of any style that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that:

(1) The amount of peel that may be present in peeled styles does not exceed the amount specified in § 52.2655;

(2) With respect to all styles, the number of other defects that may be present does not exceed the number specified for the applicable style in § 52.2655.

(e) (*C*) *classification.*—Halves, slices, and whole canned apricots that are fairly free from defects may be given a score of 21 to 23 points. Canned apricots of mixed pieces and irregular sizes and shapes that are fairly free from defects may be given a score of 28 to 31 points. Canned apricots of any style that fall into this classification shall not be graded above U.S. Grade C, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means that:

(1) The amount of peel that may be present in peeled styles does not exceed the amount specified in § 52.2655; or

(2) With respect to all styles, the number of other defects that may be present does not exceed the number specified for the applicable style in § 52.2655.

(f) (*SStd*) *classification.*—Canned apricots that fail to meet the defect requirements for Grade C may be given a score of 0 to 20 points for the styles of halves, slices, and whole and 0 to 27 points for mixed pieces of irregular sizes and shapes, and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.2654 Character.

(a) *General.*—The factor of character refers to the degree of ripeness, the texture, and condition of the flesh, the firmness and tenderness of the canned apricots and their tendency to retain their apparent original conformation and size without disintegration.

(b) *Definitions.*—(1) *Good character.*—"Good character" means that the units have a practically uniform tender, fleshy texture, typical of well-ripened, properly prepared and properly processed canned apricots; the units may be soft but hold their original conformation and size without material disintegration.

(2) *Reasonably good character.*—"Reasonably good character" means that the units have a reasonably uniform, reasonably tender texture typical of properly ripened canned apricots that

are properly processed; the texture is reasonably fleshy, and the units are reasonably thick but the tenderness may be variable within the unit or among the units; the units may be soft to slightly firm or slightly ragged but are not mushy.

(3) *Fairly good character.*—"Fairly good character" means that the units have a texture of properly processed apricots which may be variable in fleshiness but the texture is fairly fleshy; the units may be lacking uniformity of tenderness; the units may be very soft to moderately firm or markedly ragged with frayed edges.

(4) *Poor character.*—"Poor character" means the units may be lacking in fleshiness; may be not tender or may be very firm or may be mushy.

(c) (*A*) *classification.*—Halves, slices, and whole canned apricots that have a good character may be given a score of 27 to 30 points. To score in this classification, the number of units that possess reasonably good character does not exceed the number specified for the style in § 52.2655.

(d) (*B*) *classification.*—Halves, slices, and whole canned apricots that possess a reasonably good character may be given a score of 24 to 26 points. Canned apricots of mixed pieces of irregular sizes and shapes that possess at least a reasonably good character may be given a score of 32 to 40 points and shall not be graded above U.S. Grade B, regardless of the total score for the product. To score in this classification, the number of units that possess fairly good character does not exceed the number specified for the style in § 52.2655.

(e) (*C*) *classification.*—Halves, slices, whole canned apricots that possess a fairly good character may be given a score of 21 to 23 points. Canned apricots of mixed pieces of irregular sizes and shapes that possess a fairly good character may be given a score of 28 to 31 points. Canned apricots that fall into this classification shall not be graded above U.S. Grade C, regardless of the total score for the product (this is a limiting rule). To score in this classification, the number of units that possess poor character does not exceed the number specified for the style in § 52.2655.

(f) (*SStd*) *classification.*—Canned apricots that fail to meet the character requirements for Grade C may be given a score of 0 to 20 points for the styles of halves, slices and whole, and 0 to 27 points for mixed pieces of irregular sizes and shapes, and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

ALLOWANCES FOR QUALITY FACTORS

§ 52.2655 Allowances for quality factors.

TABLE IV.—STYLES: HALVES AND WHOLE

Factors	Maximum allowances permitted					
	A		B		C	
	Individual[1]	Average[2]	Individual	Average	Individual	Average
Color (Number of units):						
Reasonably good	2		No limit		No limit	
Fairly good	0		5		No limit

[1] Individual—means individual sample unit.
[2] Average—means average of all the sample units in the sample.

LOT INSPECTION AND CERTIFICATION

§ 52.2636 Ascertaining the grade of a lot.

The grade of a lot of canned apricots covered by these standards is determined by the procedures set forth in the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables, Processed Products Thereof, and Certain Other Processed Food Products (§§ 52.1 through 52.87).

APPENDIX

PROPOSED UNITED STATES STANDARDS FOR GRADES OF CANNED SOLID-PACK APRICOTS

The proposed standard is as follows:

PRODUCT DESCRIPTION, STYLES, AND GRADES

Sec.
52.6241 Product description.
52.6242 Styles.
52.6243 Grades.

FILL OF CONTAINER, DRAINED WEIGHTS

52.6244 Recommended fill of container.
52.6245 Recommended minimum drained weights.

SAMPLE UNIT SIZE

52.6246 Sample unit size.

FACTORS OF QUALITY

52.6247 Ascertaining the grade of a sample unit.
52.6248 Ascertaining the rating for the factors which are scored.
52.6249 Color.
52.6250 Defects.
52.6251 Character.

LOT INSPECTION AND CERTIFICATION

52.6252 Ascertaining the grade of a lot.

SCORE SHEET

52.6253 Score sheet.

AUTHORITY: §§ 52.6241 to 52.6253 issued under Sec. 205, 60 Stat. 1090, as amended, 7 U.S.C. 1624.

PRODUCT DESCRIPTION, STYLES, AND GRADES

§ 52.6241 Product description.

Canned solid-pack apricots are prepared from mature, sound apricots (Prunus armeniaca), pitted and peeled or unpeeled or any combination of peeled and unpeeled. The product is packed with or without dry nutritive sweetening ingredients, and is sufficiently processed by heat in hermetically sealed containers to assure its preservation.

§ 52.6242 Styles.

(a) "Halves" are apricots cut approximately in half along the suture from stem to apex.

(b) "Slices" are apricots cut into thin sectors or strips.

(c) "Mixed pieces of irregular sizes and shapes" are apricot units that are predominantly irregular in size and shape which do not conform to a single style or which are a mixture of halves and slices.

§ 52.6243 Grades.

(a) "U.S. Grade C" or "U.S. Standard" is the quality of the product that:

(1) Has normal flavor and odor;

(2) Has at least a fairly good color;

(3) Has at least a fairly good character;

(4) Is at least fairly free from defects; and

(5) Scores not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(b) "Substandard" is the quality that fails to meet the requirements of "U.S. Grade C".

FILL OF CONTAINER, DRAINED WEIGHTS

§ 52.6244 Recommended fill of container.

The recommended fill of container for canned solid-pack apricots is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purposes of these grades. It is recommended that each container be as full of apricots as practicable without impairment of quality and that the product occupy not less than 90 percent of the volume of the container.

§ 52.6245 Recommended minimum drained weight.

(a) *General.*—The minimum drained weight recommendations in Table I are not incorporated in the grades of the finished product since drained weight, as such, is not a factor of quality for the purpose of these grades.

(b) *Definitions of symbols.*—(1) LL—Lower limit for individual drained weights.

(2) $\bar{X}_d$—Minimum sample average drained weight value.

(c) *Method for ascertaining drained weight.*—The drained weight is determined by emptying the contents of the container upon a U.S. Standard No. 8 circular sieve of proper diameter containing 8 meshes to the inch (0.0937±3 percent, square openings) so as to distribute the product evenly, including the sieve to approximately a 17- to 20-degree angle to facilitate drainage, and allowing the product to drain for two minutes.

The drained weight is the weight of the sieve and apricots less the weight of the dry sieve. A sieve 12 inches in diameter is used.

(d) *Compliance with recommended minimum drained weights.*—A lot of canned solid-pack apricots is considered as meeting the minimum drained weight recommendations if the following criteria are met:

(1) The average of the drained weights from all the sample units in the sample meets the recommended average drained weight (designated as $\bar{X}_d$) in Table I; and

(2) The number of sample units which fail to meet the recommended minimum drained weight for individuals (designated as LL) in Table does not exceed the applicable acceptance number specified in Table II.

TABLE I—RECOMMENDED DRAINED WEIGHTS FOR CANNED SOLID-PACK APRICOTS

Container designation	Dimensions	LL	$\bar{X}_d$
No. 10	603 x 700	*Ounces* 80.5	*Ounces* 92.0

TABLE II—ACCEPTANCE NUMBERS FOR RECOMMENDED DRAINED WEIGHT

Sample size (number of sample units)	3	6	13	21	29	38	48	60
Acceptance number	0	1	2	3	4	5	6	7

SAMPLE UNIT SIZE

§ 52.6246 Sample unit size.

For purposes of evaluating quality factors, the sample unit size shall be the entire contents of a No. 10 container or equivalent.

FACTORS OF QUALITY

§ 52.6247 Ascertaining the grade of a sample unit.

In addition to considering other requirements outlined in the standards, the following quality factors are evaluated:

(a) *Factors not rated by score points.*—(1) Flavor and odor.

(b) *Factors rated by score points.*—The relative importance of each factor which is scored is expressed numerically on the scale of 100. Score points are assigned the various quality factors in accordance with the scoring guide in Table III. The maximum number of points that may be given such factors are:

	Points
Color	20
Defects	40
Character	40
Total score	100

(c) *Definition of flavor and odor.*—"Normal flavor and odor" means that the product is free from objectionable flavors and objectionable odors of any kind.

§ 52.6248 Ascertaining the rating for the factors which are scored.

The essential variations within each factor which are scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "14 to 20 points" means 14, 15, 16, 17, 18, 19, or 20 points).

§ 52.6249 Color.

(a) *General.*—The color of canned solid-pack apricots refers to the characteristic color of the outer, uncut surfaces of the units, the varying degrees of "pale yellow areas", "light-greenish yellow areas", and "light green areas"; and the uniformity of the individual sample unit when viewed in mass.

(b) *Definitions.*—(1) *Well colored.*—"Well colored" means that the units have a typical color characteristic of well-matured apricots. The units may have pale yellow areas not exceeding one-fourth of the outer surface area and are free from brown color due to oxidation, improper processing, or other causes.

(2) *Reasonably well-colored.*—"Reasonably well colored" means that the units may possess pale yellow areas not exceeding one-half of the outer surface area, or may possess light greenish-yellow areas not exceeding one-fourth of the outer surface area. The units may possess a light brown color due to oxidation, or other causes.

(3) *Fairly well-colored.*—"Fairly well-colored" means that the units may be pale yellow or may possess light greenish-yellow areas not exceeding one-half of the outer surface area, or greenish areas not exceeding one-fourth of the outer surface and/or may possess more than a slight brown color due to oxidation, or other causes, but not off-color.

(4) *Poorly colored.*—"Poorly colored" means that the units may possess light greenish-yellow areas exceeding one-half of the outer surface area, or green areas exceeding one-fourth of the outer surface area, or are off-color for any reason.

(c) *(C) classification.*—Canned solid-pack apricots that possess a fairly good color may be given a score of 14 to 20 points. "Fairly good color" means that (1) the sample unit, in mass, may be variable in color; and (2) the apricots are at least fairly well colored, *except* that the weight of the units that are poorly colored does not exceed the weight specified in Table III.

(e) *(SStd) classification.*—Canned solid-pack apricots that fail to meet the requirements of U.S. Grade C may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.6250 Defects.

(a) *General.*—The factor of defects refers to the degree of freedom from pit material, harmless extraneous material, short stems, minor blemishes and major blemishes, and from any other defect not specifically mentioned.

(b) *Definitions and explanations of defects.*—(1) *Harmless extraneous material.*—Any vegetable substance (such as, but not limited to, a leaf or portion thereof or a large stem) that is harmless.

(2) *Short stem.*—The short, thick, woody stem which attaches the apricot to the twig of the tree or other stem material of equivalent woodiness and shortness.

(3) *Pit material.*—Any whole pit or any hard portion of an apricot pit, regardless of size.

(4) *Minor blemish.*—(i) Light brown or brown surface areas, including "freckles" which singly or in combination on a unit, exceed in aggregate the area of a circle ⅛ inch in diameter but do not exceed in the aggregate the area of a circle ¼ inch in diameter.

(ii) Any blemish or abnormality whether or not specifically defined which materially but not seriously affects the appearance or eating quality of the product.

(5) *Major blemish.*—(i) Light brown to brown surface areas which, singly or in the aggregate on a unit, exceed the area of a circle ¼ inch diameter.

(ii) Blemishes that extend into the fruit tissue regardless of the area or depth.

(iii) Single dark brown surface areas that exceed the area of a circle ⅛ inch in diameter, whether or not the unit is affected by minor blemishes; or

(iv) Any blemish whether or not specifically defined which seriously affects the appearance and/or eating quality of the unit but is not a filthy or decomposed substance.

(c) *(C) classification.*—Canned solid-pack apricots that are at least fairly free from defects may be given a score of 28 to 40 points. "Fairly free" from defects means that the defects present do not exceed the allowances specified in Table III.

(e) *(SStd) classification.*—Canned solid-pack apricots that fail to meet the defect requirements of U.S. Grade C may be given a score of 0 to 27 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.6251 Character.

(a) *General.*—The factor of character refers to the degree of ripeness, the texture and condition of the flesh, the firmness, and tenderness of the canned solid-pack apricots.

(b) *Definitions.*—(1) *Good character.*—"Good character" means that the units have a practically uniform tender, fleshy texture typical of well-ripened, properly prepared, and properly processed canned solid-pack apricots; the units may be soft but hold their original conformation and size without material disintegration.

(2) *Reasonably good character.*—"Reasonably good character" means that the units possess at least a reasonable uniform, reasonably tender texture typical of properly ripened apricots that are properly processed; the texture is at least reasonably fleshy, and the units are at least reasonably thick but the tenderness may be variable within the unit or among the units; the units may be soft to slightly firm or ragged, but are not mushy.

(3) *Fairly good character.*—"Fairly good character" means that the units possess a texture of properly processed apricots which may be variable in fleshiness but the texture is fairly fleshy and the units may be lacking uniformity of tenderness or may be markedly ragged with frayed edges or may be very soft or mushy, or may be moderately firm.

(4) *Poor character.*—"Poor character" means that the units may be very mushy or may be very firm.

(d) *(C) classification.*—Canned solid-pack apricots that possess a fairly good character may be given a score 28 to 40

V 38 163 AUG 23 73 XUM

points. To score in this classification, the weight of units that possess poor character does not exceed the weight specified in Table III.

(e) *(SStd) classification.*—Canned solid-pack apricots which fail to meet the requirements of U.S. Grade C may be given a score of 0 to 27 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

TABLE III

Allowances for Quality Factors

Quality Factors	Maximum Allowances			
	Grade C			Substandard
Score points	18-20	16-17	14-15	0-13[1]
Color. Ounces of apricots that are: Well colored.	All	Unlimited	Unlimited	Unlimited.
Reasonably well colored	5	All	do	Do.
Fairly well colored	2	9	All	Do.
Poorly colored	0	2	14	All.
Score points	36-40	32-35	28-31	0-27[1]
Defects (numbers of defects) Harmless extraneous material.	0	1	3	More than 3.
Short stems	1	3	6	More than 6.
Pit material	1	3	6	Do.
Units affected by minor and major blemishes.	9	18	36	More than 36.
Major blemishes	1	9	18	More than 18.
Score points	36-40	32-35	28-31	0-27[1]
Character. Ounces of apricot units that possess: Good character.	All	Unlimited	Unlimited	Unlimited.
Reasonably good character	5	All	do	Do.
Fairly good character	3	9	All	Do.
Poor character	0	2	9	Do.

SCORE SHEET

[Dept. Circ. 570, 1973 Rev., Supp. No. 1]

FREMONT INDEMNITY CO.

Surety Company Acceptable on Federal Bonds

A Certificate of Authority as an acceptable surety on Federal bonds has been issued by the Secretary of the Treasury to the following company under Sections 6 to 13 of Title 6 of the United States Code. An underwriting limitation of $242,000.00 has been established for the company.

Name of company, location of principal executive office, and State in which incorporated:

Fremont Indemity Co.
Los Angeles, California
CALIFORNIA

Certificates of Authority expire on June 30 each year, unless sooner revoked, and new Certificates are issued on July 1 so long as the companies remain qualified (31 CFR, Part 223). A list of qualified companies is published annually as of July 1 in Department Circular 570, with details as to underwriting limitations, areas in which licensed to transact fidelity and surety business and other information. Copies of the Circular, when issued, may be obtained from the Treasury Department, Bureau of Accounts, Audit Staff, Washington, D.C. 20226.

Dated August 17, 1973.

[SEAL] DAVID MOSSO,
Deputy Fiscal Assistant Secretary.

ADVISORY COMMITTEE ON REFORM OF THE INTERNATIONAL MONETARY SYSTEM

Notice of Meeting

Notice is hereby given that the Advisory Committee on Reform of the International Monetary System will meet at the Treasury Department in Washington, D.C., on August 29, 1973.

The meeting is called for the purpose of considering the basic issues involved in the current international negotiations for the reform of the international monetary system.

A determination as required by section 10(d) of the Federal Advisory Committee Act (Public Law 92-463) has been made that this meeting is for the purpose of considering matters falling within one or more of the exemptions to public disclosure set forth in 5 U.S.C. 552(b) and that the public interest requires such meeting be closed to public participation.

[SEAL] PAUL A. VOLCKER,
Under Secretary for Monetary Affairs.

[Public Debt Series No. 7-73]

TREASURY NOTES OF SERIES G-1975

Notice of Offering

AUGUST 20, 1973.

Dated and bearing interest from September 4, 1973. Due September 30, 1975.

I. OFFERING OF NOTES

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites tenders at a price not less than 99.51 percent of their face value for $2,000,000,000, or thereabouts, of notes of the United States, designated Treasury Notes of Series G-1975. The interest rate for the notes will be publicly announced by the Secretary of the Treasury on August 22, 1973. Tenders will be received up to 1:30 p.m., Eastern Daylight Saving time, Friday, August 24, 1973, under competitive and noncompetitive bidding, as set forth in Section III hereof.

II. DESCRIPTION OF NOTES

1. The notes will be dated September 4, 1973, and will bear interest from that date, payable on a semiannual basis on March 31 and September 30, 1974, and March 31 and September 30, 1975. They will mature September 30, 1975, and will not be subject to call for redemption prior to maturity.

2. The income derived from the notes is subject to all taxes imposed under the Internal Revenue Code of 1954. The notes are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The notes will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer notes with interest coupons attached, and notes registered as to principal and interest, will be issued in denominations of $1,000, $5,000, $10,000, $100,000, and $1,000,000. Provision will be made for the interchange of notes of different denominations and of coupon and registered notes, and for the transfer of registered notes, under rules and regulations prescribed by the Secretary of the Treasury.

5. The notes will be subject to the general regulations of the Department of the Treasury, now or hereafter prescribed, governing United States notes.

III. TENDERS AND ALLOTMENTS

1. Tenders will be received at Federal Reserve Banks and Branches and at the Office of the Treasurer of the United States, Washington, D.C. 20222, up to the closing hour, 1:30 p.m., Eastern Daylight Saving time, Friday, August 24, 1973. Each tender must state the face amount of notes bid for, which must be $1,000 or a multiple thereof, and the price offered, except that in the case of noncompetitive tenders the term "noncompetitive" should be used in lieu of a price. In the case of competitive tenders, the price must be expressed on the basis of 100, with two decimals, e.g., 100.00. Tenders at a price less than 99.51 will not be accepted. Fractions may not be used. Noncompetitive tenders from any one bidder may not exceed $500,000.

2. Commercial banks, which for this purpose are defined as banks accepting demand deposits, may submit tenders for account of customers provided the names of the customers are set forth in such tenders. Others than commercial banks will not be permitted to submit tenders except for their own account. Tenders will be received without deposit from banking institutions for their own account, Federally-insured savings and loan associations, States, political subdivisions or instrumentalities thereof, public pension and retirement and other public funds, international organizations in which the United States holds membership, foreign central banks and foreign States, dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, and Government accounts. Tenders from others must be accompanied by payment of 5 percent of the face amount of notes applied for.

3. Immediately after the closing hour tenders will be opened, following which public announcement will be made by the Department of the Treasury of the amount and price range of accepted bids. Those submitting tenders will be advised of the acceptance or rejection thereof. In considering the acceptance of tenders, those at the highest prices will be accepted to the extent required to attain the amount offered. Tenders at the lowest accepted price will be prorated if necessary. The Secretary of the Treasury expressly reserves the right to accept or

V 38-163 AUG 23 73 XUM

reject any or all tenders, in whole or in part, and his action in any such respect shall be final. Subject to these reservations, noncompetitive tenders for $500,000 or less without stated price from any one bidder will be accepted in full at the average price[1] (in two decimals) of accepted competitive tenders.

4. All bidders are required to agree not to purchase or to sell, or to make any agreements with respect to the purchase or sale or other disposition of any notes of this issue at a specific rate or price, until after 1:30 p.m., Eastern Daylight Saving time, Friday, August 24, 1973.

5. Commercial banks in submitting tenders will be required to certify that they have no beneficial interest in any of the tenders they enter for the account of their customers, and that their customers have no beneficial interest in the banks' tenders for their own account.

IV. PAYMENT

1. Settlement for accepted tenders in accordance with the bids must be made or completed on or before September 4, 1973, at the Federal Reserve Bank or Branch or at the Office of the Treasurer of the United States, Washington, D.C. 20222, in cash or other funds immediately available by that date. Payment will not be deemed to have been completed where registered notes are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. In every case where full payment is not completed, the payment with the tender up to 5 percent of the amount of notes allotted shall, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States.

V. GENERAL PROVISIONS

1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make such allotments as may be prescribed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of notes on full-paid tenders allotted, and they may issue interim receipts pending delivery of the definitive notes.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

[SEAL] GEORGE P. SHULTZ,
Secretary of the Treasury.

U.S. Customs Service

FOREIGN CURRENCIES

Certification of Rates

AUGUST 15, 1973.

The Federal Reserve Bank of New York, pursuant to section 522(c), Tariff Act of 1930, as amended (31 U.S.C. 372(c)), has certified the following rates of exchange which varied by 5 per centum or more from the quarterly rate published in Treasury Decision 73-190 for the Malaysian dollar. Therefore, as to entries covering merchandise exported on the dates listed, whenever it is necessary for Customs purposes to convert such currency into currency of the United States, conversion shall be at the following daily rates:

Malaysian dollar:	
August 6, 1973	$0.4440
August 9, 1973	.4440

[SEAL] JAMES D. COLEMAN,
Acting Director, Appraisement and Collections Division.

Bureau of Land Management

CRAIG (NO. 1) GRAZING DISTRICT ADVISORY BOARD

Notice of Tour

AUGUST 17, 1973.

Notice is hereby given that the Craig (No. 1) Grazing District Advisory Board, Bureau of Land Management will tour the south segment of Piceance Creek Unit on August 29, 1973. The tour will commence 8 a.m., August 29, 1973, at Kilowatt Korner meeting room in Meeker, Colorado.

The agenda for the tour includes discussion of proposed programs for Fiscal Year 1974 that reflect on grazing problems in the oil shale area of the Piceance Creek Unit.

The tour is open to the public, but interested persons must provide their own transportation, food, and lodging. Those wishing to attend the tour should contact the District Manager at the Bureau of Land Management, 455 Emerson Street, Craig, Colo., prior to August 29 for information regarding the tour route and schedule.

Those wishing to make an oral statement concerning agenda items must so inform the Advisory Board Chairman in writing prior to August 29, 1973. Written statements will be accepted, but must also be submitted to the advisory Board Chairman prior to August 29. Statements should be mailed to: Chairman, Craig District Advisory Board, c/o District Manager, Bureau of Land Management, 455 Emerson Street, Craig, Colo. 81625.

DALE R. ANDRUS,
State Director.

National Park Service

CONSULTING COMMITTEE TO THE NATIONAL SURVEY OF HISTORIC SITES AND BUILDINGS

Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Consulting Committee to the National Survey of Historic Sites and Buildings will be held at 9:00 a.m., e.d.t., on September 6 and 7, 1973, in conference room 3446 in the Department of the Interior Building, Washington, D.C.

The purpose of the Consulting Committee is to review and evaluate studies of potential national historic landmarks prepared by the National Survey. The Committee's evaluation is the initial screening of potential historic landmarks. Their recommendations are forwarded to the Secretary of the Interior's Advisory Board on National Parks, Historic Sites, Buildings, and Monuments for a final review.

The members of the Consulting Committee are:

Dr. Richard H. Howland (Chairman), Washington, D.C.
Dr. John O. Brew, Cambridge, Massachusetts.
Mr. Herbert E. Kahler, Alexandria, Virginia.
Dr. Walter L. Creese, Urbana, Illinois.
Professor Frederick D. Nichols, Charottesville, Virginia.
Dr. Henry A. Millon, Cambridge, Massachusetts.
Mr. James Biddle, Washington, D.C.
Mr. Charles E. Lee, Columbia, South Carolina.
Dr. Dorothy B. Porter, Washington, D.C.
Dr. John W. Huston, Annapolis, Maryland.

The subjects that are to be evaluated are:

1. A portion of the subtheme "The War for Independence" presenting studies of potential landmark properties in the States of Florida, Georgia, Kentucky, Maryland, North Carolina, South Carolina, Virginia, and West Virginia.

2. A portion of the subtheme "Political and Military Affairs, 1828-1860" in the States of Alabama, Florida, Georgia, Maine, Maryland, Massachusetts, Mississippi, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, and the District of Columbia.

3. A study of potential landmark properties for "Signers of the Constitution" in the States of Delaware, New Hampshire, and New York.

4. A study of the Central Synagogue in New York City to be considered under the subtheme "Architecture."

5. Studies in the field of Black history.

The meeting will be open to the public. However, facilities and space for accommodating the public are limited. It is expected that not more than 15 persons will be able to attend the sessions. Any member of the public may file with the Consulting Committee a written statement on the subjects to be discussed.

Persons wishing further information concerning this meeting, or who wish to submit written statements, may contact Mr. Robert M. Utley, Director, Office of Archeology and Historic Preservation, 202-343-7550. Minutes of the meeting will be available for public inspection six weeks after the meeting at the Office of Archeology and Historic Preservation, National Park Service, Department of the Interior, Washington, D.C.

Dated: August 13, 1973.

STANLEY W. HULETT,
Associate Director, National Park Service.

[FR Doc.73-17874 Filed 8-22-73;8:45 am]

GEORGE WASHNGTON MEMORIAL PARKWAY, MOUNT VERNON, VA.

Notice of IntentionTo Negotiate Concession Contract

Pursuant to the provisions of section 5, of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20) public notice was given in the FEDERAL REGISTER, Vol. 38, Number 127 on Tuesday, July 3, 1973, Page 17743, advising that thirty (30) days after the date of publication of that notice, the Department of the Interior, through the Director of the National Park Service, proposed to negotiate a concession contract with Almours Securities, Inc., authorizing it to provide concession facilities and services for the public on the George Washington Memorial Parkway at Mount Vernon, Virginia, for a period of 20 years from January 1, 1974, through December 31, 1993.

The aforementioned publication advised that the foregoing concessioner has performed its obligations under the expiring contract to the satisfaction of the National Park Service, and therefore, pursuant to the Act cited above, is entitled to be given preference in the renewal of the contract and in the negotiation of a new contract. Further, under the Act cited above, the Secretary is also required to consider and evaluate all proposals received as a result of such public notices. Any proposal to be considered and evaluated was to be submitted within thirty (30) days after the publication date of that notice, which was August 2, 1973. Subsequent to the July 3, 1973, publication, however, it has been determined that the public interest would be best served if an additional 30-day period of time is provided so that interested parties could have reasonable opportunity to submit proposals. Therefore, any offers submitted on or before September 24, 1973, will be considered and evaluated. Interested parties may obtain information as to the requirements of the proposed contract from, and submit their proposals to the Chief of Concessions Management, National Park Service, Washington, D.C. 20240.

Dated: August 8, 1973.

LAWRENCE C. HADLEY,
Assistant Director, National Park Service.

INDEPENDENCE NATIONAL HISTORICAL PARK ADVISORY COMMISSION

Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Independence National Historical Park Advisory Commission will be held at 10:30 a.m. on September 27, 1973, at 313 Walnut Street, Philadelphia, Pennsylvania.

The Commission was established by Public Law 80-795 to render advice on such matters relating to the park as may from time to time be referred to them for consideration.

The members of the Commission are as follows:

Mr. Arthur C. Kaufmann (Chairman), Philadelphia, Pa.
Mr. John P. Bracken, Philadelphia, Pa.
Hon. Michael J. Bradley, Philadelphia, Pa.
Hon. James A. Byrne, Philadelphia, Pa.
Mr. William L. Day, Philadelphia, Pa.
Hon. Edwin O. Lewis, Philadelphia, Pa.
Mr. Filindo B. Masino, Philadelphia, Pa.
Mr. Frank C. P. McGlinn, Philadelphia, Pa.
Mr. John B. O'Hara, Philadelphia, Pa.
Mr. Howard D. Rosengarten, Villanova, Pa.
Mr. Charles R. Tyson, Philadelphia, Pa.

Matters to be considered at this meeting include the following:

1. Review of Graff House Plan
2. Progress Report on Development

The meeting will be open to the public. Any person may file with the Commission a written statement concerning the matters to be discussed. Persons desiring further information concerning this meeting, or who wish to submit written statements, may contact Hobart G. Cawood, Superintendent, Independence National Historical Park, Philadelphia, Pennsylvania at 215-597-7120.

Minutes of the meeting shall be available for inspection two weeks after the meeting at the office of the Independence National Historical Park, 313 Walnut Street, Philadelphia, Pennsylvania.

Dated: August 10, 1973.

STANLEY W. HULETT,
Associate Director, National Park Service.

[FR Doc.73-17877 Filed 8-22-73;8:45 am]

MIDWEST REGIONAL ADVISORY COMMITTEE

Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Midwest Regional Advisory Committee will be held at 9 a.m. m.d.t., on September 11, 12, and 13 at the Beaver Creek Recreation Building near Moose, Wyoming, in Grand Teton National Park.

The committee was established pursuant to Public Law 91-383 to provide for the free exchange of ideas between the National Park Service and the public and to facilitate the solicitation of advice or other counsel from members of the public on programs and problems pertinent to the Midwest Region of the National Park Service.

Members of the committee are:

Honorable Robert W. Berrey III (Chairman); Mrs. Harold Fryslie (Secretary); Mr. Harry Barker, Jr.; Mr. Ralph M. Clark; Mr. John J. Franke, Jr.; Dr. John D. Hunt; Mr. William W. Robinson; Mr. Erwin D. Sias; and Mr. Webster A. Two Hawk.

The matters to be discussed at this meeting include:

1. The environmental impact statement for the Grand Teton Airport. (The Committee will adjourn to the Virginian Motel in Jackson on September 11 so that members may attend the public hearing on the airport environmental impact statement.)
2. Concessions policies.
3. Park signing.
4. Problems relating to the management of river use.
5. Recent NPS developments about which the committee should be informed.

The meeting will be open to the public. However, facilities and space for accommodating members of the public are limited, and persons will be accommodated on a first-come first-served basis. Any member of the public may file with the committee a written statement concerning the matters to be discussed.

Persons wishing further information concerning this meeting, or who wish to submit written statements, may contact Bill W. Dean, Assistant Regional Director, Cooperative Activities, Midwest Regional Office, at Area Code 402-221-3481. Minutes of the meeting will be available for public inspection four weeks after the meeting at the office of the Midwest Region, 1709 Jackson Street, Omaha, Nebraska 68102.

Dated August 14, 1973.

STANLEY W. HULETT,
Associate Director, National Park Service.

U.S. TERRITORIAL EXPANSION MEMORIAL COMMISSION

Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the U.S. Territorial Expansion Memorial Commission will be held at 9:30 a.m., on Friday, September 21, at the Old Courthouse, 11 North Fourth Street, St. Louis, Missouri.

The Commission was established by the Act of June 15, 1934, for the purpose of considering and formulating plans for the design and construction of a permanent memorial on the Mississippi River at St. Louis, Missouri.

Members of the Commission are as follows:

Hon. Leonor K. Sullivan, House of Representatives (Chairman); Hon. Thomas B. Curtis, St. Louis, Missouri (Vice Chairman); Mr. Ronald J. Foulis, Washington, D.C. (Secretary); Hon. John N. Camp, House of Representatives; Dr. Eldon G. Chuinard, Portland, Oregon; Hon. Frank Church, United States Senate; Mr. William W. Crowdus, St. Louis, Missouri; Mr. Chester C. Davis, Laguna Hills, California; Dr. Harold W. Dodds, Princeton, New Jersey; Hon. James M. Douglas, St. Louis, Missouri; Hon. Roman L. Hruska, United States Senate; Hon. Walter Huddleston, United States Senate; Mr. Morton D. May, St. Louis, Missouri; Hon. William R. Roy, House of Representatives.

The Commission will consider the projects, and the funds for them, which are necessary to complete the Memorial, and will prepare recommendations concerning those matters.

The meeting will be open to the public. Any member of the public may file with the Commission a written statement concerning the matters to be discussed.

Persons desiring further information concerning this meeting, or who wish to file written statements, may contact Ivan

[Order No. 3, Amdt. 1]

SUPERINTENDENTS ET AL., PACIFIC NORTHWEST REGION

Delegation of Authority

Pacific Northwest Region Order No. 3, approved March 6, 1972, and published in the FEDERAL REGISTER of March 28, 1972 (37 FR 6325), is amended as follows:

Section 1 is hereby amended by adding paragraph (n) to read as follows:

(n) Authority to conduct archeological investigations and salvage activities.

Section 2, paragraphs (e) and (f) are hereby added as follows:

(e) *Procurement Agent.*—The Regional Procurement Agent may execute and approve purchase orders not in excess of $2,000.

(f) *State Director, Alaska.*—The State Director, Alaska, is authorized to execute, approve, and administer contracts for supplies, equipment, and services, including construction, not in excess of $100,000.

Section 3 is amended as follows:

Section 3. *Redelegation.*—The authority delegated in this Order No. 3 may not be redelegated, except that a Superintendent and the State Director, Alaska, may, in writing, redelegate to any officer or employee the authority delegated to him by this order and may authorize written redelegation of such authority. Each redelegation shall be published in the FEDERAL REGISTER.

(National Park Service Order No. 77, 38 FR 7478, published March 22, 1973, as amended, 38 FR 16789, published June 26, 1973.)

Dated July 20, 1973.

Office of Hearings and Appeals

[Docket No. M 74-12]

INDIAN CREEK COAL COMPANY

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), Indian Creek Coal Company, located at Ten Mile, Tennessee, has filed a petition to modify the application of 30 CFR 77.1605(k) to its Mine No. 1.

Section 77.1605(k) reads as follows:

(k) Berms or guards shall be provided on the outer bank of elevated roadways.

In support of its petition, petitioner states that the addition of berms or guardrails would make it impossible to maintain proper drainage and would hamper snow removal. The road would ice over during winter months and the grader now used for maintenance could no longer be used. Petitioner also states that additional man-hours and equipment would be needed for road maintenance which would result in an increased accident potential during snow and ice conditions. The installation of guardrails would not be effective because they would have to be built on fill material.

As an alternative method petitioner wishes to continue maintaining its roads by its currently existing methods. Petitioner states that by using its current methods of maintenance, its roads, are as safe as possible.

Petitioner contends that the application of the mandatory standard will result in a diminution of safety to miners in the affected area. Petitioner contends that berms and guardrails would create a drainage hazard by creating improper drainage which would cause washouts and hazardous conditions in wet weather. The road is too narrow to build berms, therefore, solid rock would have to be blasted, resulting in a highwall which would be a new hazard.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before September 22, 1973. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

GILBERT O. LOCKWOOD,
Acting Director, Office of
Hearings and Appeals.

[FR Doc.73-17851 Filed 8-22-73;8:45 am]

[Docket No. M 73-72]

P & M COAL COMPANY

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), P & M Coal Company, located at Muir, Pennsylvania, has filed a petition to modify the application of 30 CFR 75.900 to its Orchard Slope Mine.

Section 75.900 reads as follows:

§ 75.900 Low- and medium-voltage circuits serving three-phase alternating current equipment; circuit breakers. Low- and medium-voltage power circuits serving three-phase alternating current equipment shall be protected by suitable circuit breakers of adequate interrupting capacity which are properly tested and maintained as prescribed by the Secretary. Such breakers shall be equipped with devices to provide protection against undervoltage, grounded phase, short circuit, and overcurrent.

In support of its petition, petitioner states that the only electrical equipment operating underground consists of 3 low-voltage, 440 AC, three-phase motors which operate stationary water pumps. The power to these motors is supplied by a small motor-generator set located on the surface.

As an alternative method, petitioner requests that the mandatory standard be modified to permit the use of fused magnetic switches on the low voltage motors.

Petitioner contends that the alternative method will at all times guarantee no less than the same protection afforded the miners by the mandatory standards due to the fact that the motors are stationary, the voltage is low and the pumps which the motors operate are not used in mining, but only in pumping. Petitioner also contends that the mine has no history of methane ever being recorded and that the mine is located above the water table.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before September 22, 1973. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

GILBERT O. LOCKWOOD,
Acting Director, Office of
Hearings and Appeals.

[FR Doc.73-17853 Filed 8-22-73;8:45 am]

[Docket No. M 73-73]

P & M COAL COMPANY

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), P & M Coal Company, located at Muir, Pennsylvania, has filed a petition to modify the application of 30 CFR 75.901 to its Orchard Slope Mine.

Section 75.901 reads as follows:

§ 75.901 Protection of low- and medium-voltage three-phase circuits used underground. (a) Low- and medium-voltage three-phase alternating-current circuits used underground shall contain either a direct or derived neutral which shall be grounded through a suitable resistor at the power center, and a grounding circuit, originating at the grounded side of the grounding resistor, shall extend along with the power conductors and serve as a grounding conductor for the frames of all the electrical equipment supplied power from that circuit, except that the Secretary or his authorized representative may permit ungrounded low- and medium-voltage circuits to be used underground to feed such stationary electrical equipment if such circuits are either steel armored or installed in grounded rigid steel conduit throughout their entire length. The grounding resistor, where required, shall be of the proper ohmic value to limit the ground fault current to 25 amperes. The grounding resistor shall be rated for maximum fault current continuously and insulated from ground for a voltage equal to the prase-to-phase voltage of the system.

In support of its petition, petitioner states that the only electrical equipment operating underground consists of 3 low-voltage, 440 AC, three-phase motors which operate stationary water pumps. The power to these motors is supplied by a small motor-generator set located on the surface.

As an alternative method, petitioner requests that the mandatory standard be modified to permit the use of a direct ground from the equipment to the surface by well insulated wires as required on an interconnected and continuous grounding. All of the switchboxes, motors and other equipment are grounded underground and tied to the surface.

Petitioner contends that the alternative method will, at all times, guarantee no less than the same measure of protection afforded the miners at the affected mine by the application of the mandatory standard. Petitioner avers that all of the equipment is stationary and there is no moving equipment whatsoever, therefore the ground is safe from exposure. Petitioner also states that there is no cable used inside the mine and the alternative system is approved by the Commonwealth of Pennsylvania as being safe.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before September 22, 1973. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

GILBERT O. LOCKWOOD,
Acting Director, Office of
Hearings and Appeals.

DEPARTMENT OF COMMERCE

Maritime Administration

[Docket No. S-383]

WATERMAN STEAMSHIP CORP.

Notice of Application

Notice is hereby given that Waterman Steamship Corporation has applied for amendment of its Operating-Differential Subsidy Agreement, Contract No. MA/MSB-253, which contract is effective for at least calendar years 1973 and 1974 but not in excess of 3 years, to include the following areas in its service description applicable to its subsidized service on Trade Route No. 21 between U.S. Gulf ports and ports in the United Kingdom, Republic of Ireland, and Continental Europe from the northern border of Portugal to the southern border of Denmark,

"Scandinavia and the Baltic countries (including ports in the U.S.S.R.) and U.S.S.R. ports East of the border with Finland in the Barents Sea."

Waterman Steamship Corporation has also requested that if, in accordance with its request of June 25, 1973 (designated Docket S-396), published in the FEDERAL REGISTER of July 23, 1973 (38 FR 19706), permission is granted to make annually twelve (12) calls inbound and outbound at U.S. Atlantic ports with its subsidized ships operating on its Trade Route No. 21 service, permission also be granted to include service between U.S. Atlantic ports and ports in Scandinavia and Baltic countries (including ports in the U.S.S.R.) and U.S.S.R. ports east of Finland in the Barents Sea.

Any person, firm, or corporation having any interest in such application and desiring a hearing on issues pertinent to section 605(c) of the Merchant Marine Act, 1936, as amended (46 U.S.C. 1175), should by the close of business on September 4, 1973, notify the Secretary, Maritime Subsidy Board in writing, in triplicate, and file petition for leave to intervene in accordance with the Rules of Practice and Procedure of the Maritime Subsidy Board.

In the event a section 605(c) hearing is ordered to be held, the purpose thereof will be to receive evidence relevant to (1) whether the application is one with respect to vessels to be operated in an essential service, served by citizens of the United States which would be in addition to the existing service, or services, and if so, whether the service already provided by vessels of United States registry in such essential service is inadequate, and (2) whether in the accomplishment of the purpose and policy of the Act additional vessels should be operated thereon.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Maritime Subsidy Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Maritime Subsidy Board will take such action as may be deemed appropriate.

By Order of the Maritime Subsidy Board/Maritime Administration.

Dated August 20, 1973.

JAMES S. DAWSON, Jr.,
Secretary.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Assistant Secretary for Health

CONTROLLED—ENVIRONMENT CULTURE CHAMBER FOR HIGH RESOLUTION LIGHT MICROSCOPY

Notice of Proposed Issuance of Exclusive License

Pursuant to § 6.3, 45 CFR, Part 6, notice is hereby given of intent to issue a limited-term, revocable, exclusive patent license in and to an invention of James A Dvorak and Woodrow F. Stotler entitled "A Controlled-Environment Culture Chamber for High Resolution Light Microscopy."

Any objection thereto together with request for opportunity to be heard, if desired, should be directed to the Assistant Secretary for Health, Department of Health, Education, and Welfare, 330 Independence Avenue SW., Washington, D.C. 20201, on or before September 24, 1973. Interested parties may obtain a copy of the patent application directed to this invention upon request in writing to the party hereinabove named.

(45 CFR 6.3.)

Dated July 28, 1973.

CHARLES C. EDWARDS,
Assistant Secretary for Health.

Office of the Secretary

OFFICE OF THE GENERAL COUNSEL

Statement of Organization, Functions, and Delegations of Authority

Paragraph A.6 entitled "Public Health Division" of sec. 1S-22 of the Department's statement of organization, functions, and delegations of authority published at 38 FR 10732 is revised to read as follows:

6. *Public Health Division.*—The Public Health Division shall provide legal services for programs administered by the Office of the Assistant Secretary for Health (except to the extent such programs involve the Food and Drug Administration) which include programs administered by the Center for Disease Control, the Health Resources Administration, the Health Services Administration, and the National Institutes of Health.

Dated August 13, 1970.

THOMAS S. MCFEE,
Acting Assistant Secretary for
Administration and Management.

[FR Doc.73-17898 Filed 8-22-73;8:45 am]

OFFICE OF BUDGET

Statement of Organization, Functions and Delegations of Authority

Part I of the Statement of Organization, Functions and Delegations of Authority of the Department of Health, Education, and Welfare is hereby amended to revise the statement for the Office of the Deputy Assistant Secretary, Budget, Office of the Assistant Secretary, Comptroller. The revisions include modifications to update the statement and to revise names of the Divisions as follows:

a. The former Division of Budget becomes the Division of Budget Formulation;

b. The former Division of Operations Analysis becomes the Division of Budget Operations.

c. The former Division of Financial Management becomes the Division of OS Budget Services.

The FEDERAL REGISTER statement (37 FR 5264, Mar. 11, 1972) of the Division of Consolidated Funding is revised to include a Mission statement and to remove the second sentence under E: "Approves or disapproves changes and reprogramming subject to the grantmaking authority of agency heads."

V 38 163 AUG 23 73 XUM

SECTION 1W10–00 *Mission.*—The Deputy Assistant Secretary, Budget, is the principal advisor to the Assistant Secretary, Comptroller on matters pertaining to formulation, analysis, presentation, and execution of budgets, apportionments, reprogrammings, and other mechanisms relating to the optimum direction and coordination of the financial resources of the Department.

SEC. 1W10–10 *Organization.*—The Deputy Assistant Secretary, Budget, reports to the Assistant Secretary, Comptroller, and his Office consists of:

1. Division of Budget Formulation.
2. Division of Budget Operations.
3. Division of Consolidated Funding.
4. Division of OS Budget Services.

SEC. 1W10–20 *Functions.*—The following functions are the principal responsibilities of the Deputy Assistant Secretary, Budget:

A. The encouragement of sound budgetary practices throughout the Department, including the provision of technical guidance and training to agency budget staffs.

B. The preparation and issuance of Department-wide budgetary policies.

C. The promulgation of uniform budgetary standards, classifications, and terminologies.

D. The evaluation of budgetary proposals, including the identification of major issues, and the formulation, where appropriate, of alternative budgetary strategies.

E. The development of the annual budget, and other budgetary and financial documents as required.

F. The explanation and interpretation of the budget and other appropriations matters to the Office of Management and Budget, committees of the Congress, and other interested parties.

G. The maintenance of the Department-wide systems for budget execution, expenditure reporting, and administration of employment ceilings.

H. The conduct of special studies and analyses of the budgetary and related processes.

I. The review and approval of requests for Treasury warrants, apportionments, reprogrammings, transfers of funds, and other mechanisms relating to the funding of approved programs.

J. The planning and implementation for a Department-wide system of consolidated funding designed to provide a single funding source for the support of integrated social services projects.

K. The formulation, preparation and execution of the budget and grade employment ceilings for the Office of the Secretary.

SEC. 1W10.30 *Delegations of authority.*—In the absence of the Assistant Secretary, Comptroller, the Deputy Assistant Secretary, Budget is designated the Acting Assistant Secretary, Comptroller, with all the powers normally accruing to that position.

CHAPTER 1W1002—DIVISION OF BUDGET FORMULATION

SECTION 1W1002–00 *Mission.*—The Division of Budget Formulation directs and coordinates the development and preparation of budgets, estimates, and forecasts of resources required to support programs and activities of the Department. The Division provides staff assistance to the Secretary, the Under Secretary, the Comptroller and the appropriate program-oriented Assistant Secretaries in evaluating and acting upon program and budget proposals. The Division assists the Secretary in the presentation and justification of budgets submitted to the Office of Management and Budget and the Committees on Appropriations of the Congress.

SEC. 1W1002–10 *Organization.* The Division of Budget Formulation is headed by a Director who reports directly to the Deputy Assistant Secretary, Budget. The Director is assisted by a staff of budget analysts and supporting personnel organized into several branches, each of which is responsible for coordinating the budgeting activities of designated operating agencies. A separate branch exists for the coordination and presentation of the total Department budget.

SEC. 1W1002–20 *Functions.*—A. The Division of Budget Formulation provides staff assistance to the Secretary, the Under Secretary, the Comptroller and the appropriate program-oriented Assistant Secretaries in the budgetary management of the Department; and in the performance of this function:

1. Directs and coordinates: (a) The preparation of budgets, estimates, and forecasts of resources required to support programs and activities of the Department. (b) The planning and development of policies and procedures relating to budgeting. (c) The establishment of uniform terminology, classifications, and standards to be used throughout the Department in budgeting activities. (d) The development of the regular annual budget, and, in conjunction with the Office of the Assistant Secretary for Program Coordination, the five-year program and financial plan, and other long-range financial plans and revisions.

2. Assists the Deputy Assistant Secretary, Budget, the Assistant Secretary, Comptroller, the appropriate program-oriented Assistant Secretaries, the Under Secretary and the Secretary in the evaluation of programs and budgetary proposals with emphasis given to the identification of issues, the development of alternative proposals, and the appraisal of proposals in terms of their relative cost and their consistency with approved plans and policies.

3. Develops a uniform system for the formulation and presentation of budgets and program estimates, forecasts and proposals to be followed by staff offices and by operating agencies.

4. Encourages sound financial planning and budgetary management in the staff offices and operating agencies.

5. Advises and assists agency heads in the establishment and organization of budget staffs.

6. Provides technical guidance, advice, asistance and training to budget management staffs in the staff offices and operating agencies.

7. Prepares special budget analyses.

8. Keeps staff offices and operating agencies currently informed on developments in the field of budgetary management.

B. Coordinates and consolidates, for the Department, the budget estimates of the operating agencies and serves as the primary liaison for the Department in the presentation and interpretation of the estimates and other appropriation matters to the Office of Management and Budget and the Congressional Committees on Appropriations.

C. Assists the Secretary and operating agency heads in the oral presentation of budget and program estimates to the Office of Management and Budget and the Congressional Committees on Appropriations.

CHAPTER 1W1003—DIVISION OF BUDGET OPERATIONS

SECTION 1W1003.00 *Mission.*—The Division of Budget Operations has Department-wide responsibility for the review, analysis and appraisal of the financial elements of program execution, and for the development and execution of policies related to the efficient and effective allocation, expenditure, and control of funds.

SEC. 1W1003.10 *Organization.*—The Division of Budget Operations is headed by a Director who operates under the general direction of the Deputy Assistant Secretary, Budget. The Director is assisted by a staff of analysts and supporting secretarial staff organized into two major functional areas: Expenditure and manpower control, and special projects.

SEC. 1W1003.20 *Functions.*—The Division of Budget Operations

A. Develops and executes Department-wide policies for efficient and effective allocation and expenditure of funds administered by the Department. Performs special studies of organizations and processes for the purpose of improving methods and procedures, from the standpoint of better financial management and of more effective HEW operations.

B. Establishes and maintains a Department-wide budget execution system. Develops and issues uniform standards, classifications, and procedures which will (1) distribute and apply resources consistent with Departmental policy and with the budget as approved by the Congress; (2) assure adequate controls of such resources at the operating agency level; and (3) provide adequate opportunity for shifts in direction or scope and for financing needs not anticipated at the time the original budget was presented to the Congress.

C. Establishes and maintains a system of cost estimates and projections. Develops and maintains a Department-wide system of controls over outlays to assure adherence to Congressional and Presidential ceilings and cutbacks on outlays. Prepares cutback plans, as required, which minimize adverse impact on the Department's programs and the Secretary's priorities.

D. Develops and administers policies and procedures for Departmental operations under Continuing Resolutions pending enactment of regular appropriations.

E. Reviews agency Treasury warrant requests and apportionment and reapportionment schedules and develops recommendations to the Deputy Assistant Secretary, Budget before their submission to the Department of the Treasury and the Office of Management and Budget, respectively. Reviews and recommends action on agency requests for reprogramming and/or redistribution of funds.

F. Plans, organizes, and directs intense studies of program operations, needs and objectives in order to identify alternative bases for long-range financial planning. Conducts special studies and analyses in support of the budget process as the need arises and in the interest of sound financial management. Coordinates and stimulates the development of recommendations for improved program operation, efficient and economical performance and effective program coordination.

G. Prepares periodic and special reports on the status of Departmental budget execution. Develops sound reporting practices.

H. Develops and administers policies and procedures for interagency and interdepartmental arrangements and agreements for transfer of funds.

I. Establishes agency employment ceilings, monitors agency staffing levels, reviews, and recommends action on proposed changes in agency staffing levels, and monitors agency progress in conducting management studies to identify manpower savings.

J. Responds to inquiries from the Congress, the Executive Branch, and the public for information concerning funds expended by the Department, the status of programs or projects, etc.

CHAPTER 1W1004—DIVISION OF CONSOLIDATED FUNDING

SECTION 1W1004–00 *Mission.*—The Division of Consolidated Funding is responsible for developing and maintaining a Department-wide system which will allow a prospective grantee seeking support for a project requiring funding from several DHEW sources to submit one application, obtain approval and funding through one system, and be subject to one set of reporting and monitoring requirements.

SEC. 1W1004–10 *Organization.*—The Director, Division of Consolidated Funding, is under the supervision of the Deputy Assistant Secretary, Budget, who reports to the Assistant Secretary, Comptroller.

SEC. 1W1004–20 *Functions.*—The Division of Consolidated Funding:

A. Plans and implements a Department-wide system of consolidated funding designed to provide a single funding source for the support of integrated social services projects.

B. Develops policy and procedures for application, reporting, management, and appraisal of projects funded through this system.

C. Reviews and evaluates consolidated funding applications; assures that consultation is provided to prospective grantees; identifies programs with interest in the proposal; develops funding matrix; and assigns applications to appropriate agencies and staff elements for review.

D. Administers a formal departmental review and approval process for consolidated funding projects, including establishment of priorities for the types of projects to be funded. Approves or disapproves applications subject to the grantmaking authorities of the agency heads.

E. Assigns management responsibilities for approved grants and oversees execution of award documents.

F. Establishes liaison with various components of the Department as well as other Federal agencies.

CHAPTER 1W1005—DIVISION OF OS BUDGET SERVICES

SECTION 1W1005.00 *Mission.*—The Division of OS Budget Services is responsible for the formulation, presentation, and execution of the Office of the Secretary budget and is the focal point for all budget and fiscal matters for the various offices that comprise the Office of the Secretary.

SEC. 1W1005.10 *Organization.*—The Director, Division of OS Budget Services, reports directly to the Deputy Assistant Secretary, Budget.

SEC. 1W1005.20 *Functions.*—A. The Director, Division of OS Budget Services, serves as budget officer and principal financial management advisor to Office and Division Chiefs within the Office of the Secretary.

B. In the performance of its function the Division:

1. Participates in the planning, directing and coordinating of financial and budgetary programs of the Office of the Secretary.

2. Directs and provides technical guidance to the administrative officers in preparing budgets. Coordinates individual budgets for preparation of a single budget document for presentation to the Department Review Committee, the Office of Management and Budget and the Congress.

3. Assists in the planning and presentation of the budget before the Office of Management and Budget and the Congress and develops materials for key members of the Office of the Secretary in testimony at hearings before these bodies.

4. Reviews the budget as approved by Congress and recommends a financial plan for its execution. Makes allocations to constituent offices within the guidelines of the approved financial plan.

5. Allocates employment ceilings for OS components and develops and monitors the Office of the Secretary average grade plan.

6. Develops and maintains budgetary controls to insure the observance of established ceilings on both funds and personnel.

7. Prepares requests for apportionment of appropriated funds. Maintains control of allotted funds against current obligations. Maintains and monitors subsidiary expenditure controls for appropriations in the Office of the Secretary, including separate plans for each of the Regional Offices.

8. Provides analysis and coordination of accounting reports of the various accounting points in the Office of the Secretary.

9. Develops financial operating procedures and manuals. Assures implementation within the Office of the Secretary of Departmental and Federal fiscal policies and procedures.

Dated August 14, 1973.

S. H. CLARKE,
Acting Assistant Secretary for Administration and Management.

[FR Doc.73-17900 Filed 8-22-73;8:45 am]

OFFICE OF HUMAN DEVELOPMENT AND OFFICE OF YOUTH DEVELOPMENT

Statement of Organization and Functions

1R20.00 *Mission.* The mission of the Office of Youth Development is to provide leadership in the planning, development, and coordination of those Federal programs that provide services to youth in danger of becoming delinquent. The Office coordinates its activities with other concerned Federal organizations to assure unified approach to common target groups and to afford comprehensive services to the individual.

Within the authorities delegated to it, the Office of Youth Development administers, under the Juvenile Delinquency Prevention Act, Public Law 92–381, Federal grants and contracts designed to help States and local communities in providing community based preventive services, including diagnosis and treatment to youths who are in danger of becoming delinquent, to provide assistance in the training of personnel employed or preparing for employment in fields related to the provision of such services, and to provide technical assistance in such field.

1R20.10 *Organization.* The Office of Youth Development consists of the following organizational elements which report to the Office of the Commissioner:

1. Division of Youth Services System, 2. Division of Youth Activities, 3. Division of Program Coordination, 4. Office of Planning, Research and Development.

1R20.20 *Functions*—A. *Office of the Commissioner.*—The Commissioner and his deputy would have primary responsibility for maintaining overall coordination of the elements of OYD. The Commissioner reports directly to the Assistant Secretary for Human Development. He is responsible for determining OYD priorities including research, and establishing and guiding youth development teams. The Public Affairs and Legislative Affairs functions reside in this Office, and placement of these functions in the Office of the Commissioner ensures the

V 38-163 AUG 23 73 XUM

assessability of this expertise in these areas.

B. *Division of Youth Service Systems.*—This Division is concerned with juvenile delinquency prevention through the implementation of the Youth Services Systems concept. Their specific mission is to prevent juvenile delinquency through the Youth Services Systems which coordinate all services available to young people at the local level. In addition, DYSS seeks proper rehabilitation of youthful offenders through discouraging inappropriate institutionalization and labeling of youth. The DYSS develops policy, procedures and regulations and priorities for funds appropriated under Title I of the Juvenile Delinquency Prevention Act.

C. *Division of Youth Activities.*—The Division of Youth Activities is concerned with problems in the general youth population which adversely affect or concern young people. It will facilitate a reciprocal communication flow between youth and youth-servicing organizations including the Department as well as other major institutions inside and outside of the Federal Government. Their function is to involve youth in major government, public and private institutional policy-making, and in program designs which affect their daily lives. This Office provides technical assistance to youth groups organized to deal with institutions affecting them. In addition it will strive to create new roles for youth. It will arrange meetings between key HEW offices and youth and brief Departmental executives on youth attitudes. It will act as a clearinghouse for youth organization inquiring with the Department about funding and other HEW activities. It will work closely with State agencies and youth groups to encourage youth in the decision-making and funding process. It will advocate funding of youth initiated proposals, and it will ensure Department responsiveness in needs and concerns of young people.

D. *Division of Program Coordination.*—Functions of the Division of Program Coordination include: maintaining a library of information on DHEW programs for youth; providing the Department with a center for information on youth; catalyzing and institutionalizing, throughout the Department, a concern for how DHEW's policies and programs affect the development and socialization of youth; chairing the Interagency Youth Liaison Committee; establishing a network of communications with agencies that can react to new problems with respect to youth or new priorities affecting youth as set by the Administration, and monitoring the progress of the agencies, ensuring that the Department's planning process (i.e., policy development, long range planning, operational planning, legislative developments, budgeting) take into account the concerns of youth; and examining the feasibility of formulating a Department-wide youth development strategy.

E. *Office of Planning, Research and Development.*—This Office reports directly to the Office of the Commissioner. The Office operates at the discretion of the Commissioner and has responsibility for all research and development activities conducted in OYD. Under his preview the Office will investigate, design and modify programs which would motivate action to remove barriers affecting the development of youth. It will study disturbances in the socialization of young people which result in delinquent behavior. In addition the Office will be responsible for the planning activities including OPS and will serve as the liaison office with OHD in this area. The Office will be responsible for providing technical assistance in the areas of research and development.

Dated: August 14, 1973.

S. H. CLARKE,
Acting Assistant Secretary for Administration and Management.

[FR Doc.73-17899 Filed 8-22-73;8:45 am]

SOCIAL SECURITY ADMINISTRATION

Statement of Organization, Functions, and Delegations of Authority

Part 8 (Social Security Administration) of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health, Education, and Welfare (33 FR 5834-35 dated April 16, 1968) is hereby amended as follows:

8-B "Bureau of Hearings and Appeals" (BHA), "Appeals Council" (BHA), and "Office of the Regional Hearings Representative" (BHA) are superseded by the following:

8-B *Bureau of Hearings and Appeals* (BHA). Provides broad direction to the SSA hearings and appeals process. Directs a nationwide organization of Administrative Law Judges who conduct independent, impartial hearings and make decisions on appealed determinations involving retirement, survivors, disability, health and supplemental security income benefits under the Social Security Act, as amended; and disability and survivors benefits under the Federal Coal Mine Health and Safety Act of 1969, as amended. Considers and reviews orders and decisions of Administrative Law Judges and renders the Secretary's final action or decision through the Bureau's Appeals Council. Reviews appeals filed in federal courts from such action or decision and recommends whether to defend or to request remand for further action. Provides medical and vocational specialist services to Administrative Law Judges and Appeals Council members. Develops substantive and administrative operating instructions to assure uniform and fair appellate review. Conducts liaison with other components of SSA, DHEW, and other governmental, professional, and private organizations.

8-B *Appeals Council* (BHA). Reviews decisions of Administrative Law Judges involving retirement, survivors, disability, health insurance, and supplemental security income benefits under the Social Security Act, as amended, and disability and survivors benefits under the Federal Coal Mine Health and Safety Act of 1969, as amended, on motion of appellants or on its own motion. Examines case records, obtains additional evidence and renders a written decision or order which is the Secretary's final decision or order, or may remand the case to an Administrative Law Judge. Determines and recommends action in relation to the decisions appealed to the courts. Obtains additional evidence and prepares supplemental decisions on remanded cases. Recommends whether appeals should be taken to higher courts on judicial reversals of the Secretary's decisions.

8-B *Office of the Regional Chief Administrative Law Judge* (BHA). Represents the Director of the Bureau of Hearings in the region in all matters pertaining to the hearings process. Plans, organizes, and administers a regional program for scheduling and conducting independent and impartial hearings on appealed determinations involving retirement, survivors, disability, health and supplemental security income benefits under the Social Security Act, as amended; and disability and survivors benefits under the Federal Coal Mine Health and Safety Act of 1969, as amended. Provides substantive guidance and administrative direction and leadership to the Regional Development Center and to Administrative Law Judges and their staffs. Coordinates operations and administrative activities with the DHEW Regional Office, other SSA components, State agencies, and other parties, as required. Exercises general administrative supervision over Administrative Law Judges and their supporting staff within the region and provides administrative support to the Regional Appeals Center.

(Sec. 6, Reorganization Plan No. 1 of 1953)

Dated: August 14, 1973.

S. H. CLARKE,
Acting Assistant Secretary for Administration and Management.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Interstate Land Sales Registration

[Docket No. N-73-188; OILSR 0-485-60-16]

KAREN DEVELOPMENT

Order of Suspension

Notice is hereby given that on June 21, 1973, the Department of Housing and Urban Development, Office of Interstate Land Sales Registration, published in the FEDERAL REGISTER a notice of Proceedings and Opportunity for Hearing, pursuant to 44 U.S.C. 1508, informing the Developer of alleged untrue statements or omissions of material facts in the Developer's Statement of Record. The Developer has failed to request a hearing pursuant to 24 CFR 1720.160 within 15 days of said notice. Accordingly, pursuant to 15 U.S.C. 1706(d) and 24 CFR 1710.45(b)(1), the Order of Suspension is being issued as follows:

ORDER OF SUSPENSION

1. Overseas Investors and Developers Corporation, hereinafter referred to as the Developer, being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701, et seq.) and the Rules and Regulations lawfully promulgated thereto pursuant to 15 U.S.C. 1718, has filed its Statement of Record covering its subdivision, located in Canada (OILSR No. 0-0485-60-16), which became effective September 5, 1969, pursuant to 24 CFR 1710.21 of the Interstate Land Sales Regulations. Said Statement is still in effect.

2. Pursuant to lawful delegation, as authorized by 15 U.S.C. 1715, the authority and responsibility for Administration of the Interstate Land Sales Full Disclosure Act has been vested in the Interstate Land Sales Administrator.

3. Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1710.45(b)(1), if it appears to the Interstate Land Sales Administrator at any time that a Statement of Record, which is in effect, includes any untrue statement of a material fact or omits to state any material fact required to be stated therein or necessary to make the statement therein not misleading, the Administrator may, after notice, and after an opportunity for a hearing requested within 15 days of receipt of such notice, issue an order suspending the Statement of Record.

4. A notice of Proceedings and Opportunity for Hearing was published in the FEDERAL REGISTER on June 21, 1973, pursuant to 44 U.S.C. 1508 informing the Developer of information obtained by the Office of Interstate Land Sales Registration showing an untrue statement of a material fact or an omission of a material fact required to be stated therein or necessary to make the statements therein not misleading in the above-specified Statement of Record. The Developer was notified of his right to request a hearing and that if he failed to request a hearing he would be deemed in default and the proceedings would be determined against him, the allegations of which would be determined to be true. The Developer has failed to request a hearing pursuant to 24 CFR 1720.160 within 15 days of publication of said notice of Proceedings and Opportunity for Hearing.

Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1710.45(b)(1), the Statement of Record filed by the Developer covering its subdivision is hereby suspended, effective as of August 23, 1973. This Order of Suspension shall remain in full force and effect until the Statement of Record has been properly amended as required by the Interstate Land Sales Full Disclosure Act and the implementing Regulations.

Any sales or offers to sell made by the Developer or its agents, successors, or assigns while this Order of Suspension is in effect will be in violation of the provisions of said Act.

Issued in Washington, D.C., August 20, 1973.

By the Secretary.

GEORGE K. BERNSTEIN,
Interstate Land Sales Administrator.

[FR Doc.73-17915 Filed 8-22-73;8:45 am]

DEPARTMENT OF TRANSPORTATION

Office of Pipeline Safety

[Waiver No. 4A; Docket No. OPS-19]

TENNESSEE GAS PIPELINE CO.

Amendment To Grant of Waiver

By letters dated April 23, 1973, and May 1, 1973, the Tennessee Gas Pipeline Company (Tennessee) of Houston, Texas, petitioned for an amendment to Waiver No. 4 to permit the use of certain pipe in addition to, and transported under the same conditions as, the pipe covered in the original grant of waiver.

Waiver No. 4, issued July 11, 1972 (37 FR 14246) authorized the petitioner to use, subject to certain stated conditions, approximately 99 miles of 36-inch pipe that had been transported by railroad but not in compliance with § 192.65 of the Federal gas pipeline safety standards.

The two letters constituting the current petition request amendment of the waiver to cover an additional 53.6 miles of 36-inch pipe and 14.4 miles of 42-inch pipe. With respect to the 36-inch pipe, Tennessee asserts that the same situation exists as with the pipe involved in the original grant of waiver, while for the 42-inch pipe the rail car loading will be in accordance with API RP 5L1 (1972 edition) and the loading diagram submitted with the petition. In addition, the petitioner has reported that the pipe previously shipped pursuant to Waiver No. 4 experienced no damage during shipment and that no failures occurred on that pipe during hydrostatic testing.

A public hearing on Waiver No. 4 was held at the Office of Pipeline Safety on June 22, 1972. The safety issues involved in the present petition are identical with those addressed at that hearing in connection with the original petition.

Based on all the information available to the Department, it appears that the pipe identified by the petitioner in his letters of April 23, 1973, and May 1, 1973, will be shipped by rail in the same manner as the pipe specified in Waiver No. 4 and will involve the same type of loading conditions.

In consideration of the foregoing, I have determined that a further waiver of compliance with § 192.65, as requested by Tennessee, is not inconsistent with gas pipeline safety. Waiver No. 4 is therefore amended to grant a waiver from § 192.65 of the Federal gas pipeline safety standards to the extent necessary to permit the use of an additional 53.6 miles of 36-inch pipe and 14.4 miles of 42-inch pipe shipped in approximately 80-foot lengths by rail with an overhang from the end bearing strips in excess of that permitted under API RP 5L1 (1967 edition), subject to the conditions of Waiver No. 4 which are as follows:

1. Each rail carload of pipe shall be loaded in accordance with API RP 5L1, 1972 edition. An inspection must be made after loading to assure it has been accomplished in this manner.

2. During car unloading, each length of pipe must be inspected for visible damage. A detailed report of any damage discovered, other than damage to pipe bevels, must be made promptly to the Office of Pipeline Safety.

3. Each length of pipe used must be strength tested after installation to at least 90 percent of specified minimum yield strength and each failure that may have been related to transportation damage must be separately reported in a detailed supplementary statement, in addition to furnishing Form DOT-F-7100.2.

4. Tennessee shall notify the Office of Pipeline Safety upon completion of the testing of the pipeline for which the shipment is intended and shall furnish that Office with any additional information which it secures related to the safety of this manner of shipment.

Issued in Washington, D.C., on August 16, 1973.

JOSEPH C. CALDWELL,
Director,
Office of Pipeline Safety.

ATOMIC ENERGY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS, WESTINGHOUSE SUBCOMMITTEE

Notice of Meeting

Correction

In FR Doc. 73-17172 appearing in the issue of Thursday, August 16, 1973, 3rd paragraph, 3rd line, the first word "boiling" should read "pressurized".

[Dockets Nos. 50-443 and 50-444]

PUBLIC SERVICE COMPANY OF NEW NEW HAMPSHIRE ET AL.

Seabrook Station, Units 1 and 2

Notice of Receipt of Application for Construction Permits and Facility Licenses and Availability of Applicants' Environmental Report; Time for Submission of Views on Antitrust Matter

Public Service Company of New Hampshire, The United Illuminating Company, Central Maine Power Company, The Connecticut Light and Power Company, Fitchburg Gas and Electric Light Company, Montaup Electric Company, New Bedford Gas and Edison Light Company, New England Power Company, Vermont Electric Power Company, Inc., Ashburnham Municipal Light Plant, Burlington Electric Light Department, Eastern

V 38-163 AUG 23 73 XUM

Maine Electric Cooperative, Inc., Holyoke Gas and Electric Department, Hudson Light and Power Department, Hull Municipal Light Plant, Marblehead Municipal Light Department, Middleborough Gas and Electric Cooperative, Inc., North Attleborough Electric Department, South Norwalk Electric Works, and Templeton Municipal Light Plant (the applicants), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, have filed an application dated June 29, 1973, which was docketed on July 9, 1973, for authorization to construct and operate two electric generating units utilizing pressurized water reactors. The application was initially tendered on March 25, 1973. Following a preliminary review for completeness, it was rejected on May 7, 1973 for lack of sufficient information. The applicants submitted additional information on June 15, 1973 and the application was found acceptable for docketing.

The proposed nuclear facilities, designated by the applicants as the Seabrook Station, Units 1 and 2, are to be located at the applicants' site in Rockingham County, in the township of Seabrook, New Hampshire. Each unit is to be designed for initial operation at approximately 3411 megawatts thermal, with a net electrical output of approximately 1194 megawatts.

A Notice of Hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust aspects of the application presented to the Attorney General for consideration shall submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before October 8, 1973. The submittal should reference Docket Nos. 50-443-A and 50-444-A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20545, and at the Exeter Public Library, Front Street, Exeter, New Hampshire 03833.

The applicant has also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in Appendix D to 10 CFR Part 50, an environmental report dated June 29, 1973. The report has been made available for public inspection at the aforementioned locations. The report, which discusses environmental considerations related to the proposed construction of the Seabrook Station is also being made available at the Office of Comprehensive Planning, Office of the Governor, State House, Concord, New Hampshire 03301, and at the Southeastern New Hampshire Regional Planning Commission, 10 Front Street, Exeter, New Hampshire 03833.

After the report has been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement will be prepared by the Commission. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement, requesting comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials thereon will be made available when received.

Dated at Bethesda, Maryland, this 26th day of July 1973.

For the Atomic Energy Commission.

KARL R. GOLLER, CHIEF,
Pressurized Water Reactors Branch No. 3, Directorate of Licensing.

CIVIL AERONAUTICS BOARD

[Docket 25567; Order 73-8-84]

AIR PANAMA INTERNATIONAL, S.A.

Order Dismissing Complaint

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 17th day of August 1973.

By tariffs filed May 2, 1973, for June 1, 1973, effectiveness, Air Panama International, S.A. (Air Panama) established fares to implement its newly authorized service between New York and Panama. The filings included, inter alia, a 150-day round-trip excursion fare of $268.00, and round-trip group inclusive-tour fares of $185.00, $150.00, and $130.00 for groups of 2-39, 40-79, and 80 or more passengers, respectively,[1] as well as an adult tourist passenger fare of $186.00 one way. The group inclusive-tour fares provide for a 21-day maximum duration of travel and require a minimum purchase of $42.00 in ground accommodations.

A complaint requesting suspension and investigation of Air Panama's round-trip excursion and GIT fares has been filed by Pan American World Airways, Inc. (Pan American).[3] In support of its complaint, Pan American alleges that the GIT fares proposed for groups of 40 and 80 passengers ($185.00 and $150.00, respectively) are uneconomically low in that they cover only one-half of Pan American's operating costs,[3] and are in fact at or below existing charter rates. Since the proposed round-trip excursion fare is limited only by a return within 150 days of departure and is not subject to a minimum stay, it is allegedly nothing more than an attempt to subvert the normal economy round-trip fare in the market. The normal economy fare is $372.00, more than $100.00 above Air Panama's virtually "unrestricted" excursion fare, which is itself lower than Pan American's present excursion fare.

Pan American alleges that the proposed group inclusive-tour fare of $185.00 available to groups of from 2-39 passengers is likewise nothing more than a blatant attempt to divert traffic from existing fares in the market since the proposed fare, which would be available to as small groups as two, would undercut Pan American's existing fare for groups of ten by $15.00. When it is recognized that a vast amount of travel is by persons traveling as couples, the high potential for diversion allegedly becomes obvious. Pan American further contends that a fare for groups of two, where there is no clear distinction from standard-fare service, constitutes an unjust discrimination against individual passengers and has been so found by the Board, citing Group Excursion Fares Investigation, 25 CAB 41 (1957).

An answer to Pan American's complaint was filed by Air Panama on June 1, 1973. Air Panama points out that the tariffs at issue were filed for the purpose of establishing fares between New York and Panama pursuant to a recent amendment to its permit; that several of the fares complained against were previously effective without complaint or action by the Board; that the fare for the groups of two was changed by subsequent tariff filing to establish a minimum group size of six passengers; that the other GIT fares alleged to be uneconomically low are, in fact, profitable to Air Panama; and that imposition of a minimum-stay requirement on an excursion fare is not a prerequisite to the establishment of such a fare.

In support of the inclusive-tour fares for groups in excess of 40 passengers, Air Panama states that its operating costs are significantly lower than those of Pan American and that it estimates its total operating expense per passenger to be $128.00 round trip. Air Panama points out that, if Pan American's operating cost is $294.00 per round trip at a 55 percent load factor as alleged, it is difficult to understand how Pan American can justify its round-trip excursion fare of $282.00. Air Panama further contends that the proposed GIT fares are not out of line with similar fares in other markets served by United States carriers, whose operating costs exceed Air Panama's.

The GIT fares proposed for the carriage of groups of two or more passengers have subsequently been revised to increase the minimum group size to six passengers, and to this extent Pan American's complaint is moot. The balance of the complaint is directed to the

[1] Local Passenger Tariff No. 1, CAB No. 1, 7th Revised Page 44 with respect to the 150-day round-trip excursion fare, and 1st Revised Page 46, issued May 2, 1973 for effectiveness June 1, 1973, with respect to the GIT fares.

[3] Pan American states that its round-trip the 8th Revised Page 44 issued May 16 and marked for effect June 15 which made changes in certain minimum fares and the 2nd Revised Page 46 which made certain language changes. On May 24 Air Panama filed a 3rd Revised Page 46 for effectiveness June 23 which, inter alia, changed the minimum group size from 2 to 6.

[3] Pan American states that it round-trip operating cost per passenger on scheduled service in the New York-Panama market in 1972 was $294.00, assuming a 55-percent load factor.

alleged unreasonableness of the other GIT fares and the fact that the proposed excursion fare, by not requiring a minimum stay, is nothing more than an attempt to subvert the normal economy-fare structure in the market.

Air Panama's fares, based on a routing over Miami, range from 8.3 cents per revenue passenger mile (adult tourist) to 2.9 cents per revenue passenger mile (for groups of 80). The $268.00 excursion fare, which is expected to be that most heavily used, would produce a yield of 6.0 cents per revenue passenger mile.

Air Panama is providing service with B-727 equipment, configured with 108 seats operating over average stage lengths in excess of 1,100 miles.[4] From data available to the Board,[5] B-727 aircraft operating expense per available seat mile for U.S. domestic trunkline carriers was 1,687 cents, for the year ended June 30, 1972. The average stage length was 532 miles, with a configuration of 107 seats and an average load factor of 53 percent. Assuming for present purposes that direct aircraft operating costs represent 50 percent of total costs, the total cost would be in the neighborhood of 3.4 cents per available seat mile at an average stage length one-half that of the service here in question. Even assuming some higher costs for international service, the 3.4 cents is overstated in terms of Air Panama's operations. Considering the range of the proposed fares offered by Air Panama, it would appear that the fare structure is compensatory for that carrier and not *per se* uneconomic or unreasonable as Pan American contends.[6]

Upon consideration of the tariffs, the complaint and answer thereto, and other relevant matters, the Board concludes that the complaint does not state facts which warrant suspension or investigation and the request will be denied and the complaint dismissed.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof,

It is ordered, That:

The complaint of Pan American World Airways, Inc. in Docket 25567 is dismissed.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.73-17907 Filed 8-22-73;8:45 am]

[4] Pan American, on the other hand, provides service in this market with B-707 and B-747 aircraft, the operating costs of which cannot be considered representative for purposes of evaluating the fares at issue.

[5] Aircraft Operating Cost and Performance Report for Fiscal Year 1971 and 1972, CAB, March 1973.

[6] Only the group-of-80 fares fall below this total cost, although they exceed direct operating costs. In any event, we do not see this particular fare as a significant factor in the market.

[Docket No. 25700, Order 73-8-85]

BRANIFF AIRWAYS, INC. AND PAN AMERICAN WORLD AIRWAYS, INC.

Order Disapproving Fare Discussions

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 17th day of August, 1973.

By an application filed July 13, 1973, Braniff Airways, Inc. (Braniff) and Pan American World Airways, Inc. (Pan American) request that the Board permit limited fare discussions among air carriers operating in the United States-Panama/Colombia/Ecuador/Peru markets.

The applicants point out that although fares, rates and attendant conditions in these markets are generally determined through agreement among the members of Traffic Conference 1 of the International Air Transport Association (IATA), the proliferation of individual tariff filings by non-IATA carriers has seriously undermined the overall rate structure in the areas described. Any competitive advantage gained through these low, non-IATA fares has been shortlived due to the application of IATA Resolution 115, which permits IATA members to match non-IATA tariff filings. Braniff and Pan American cite particular difficulties with inclusive-tour fares for groups as small as six persons, and 150-day excursion fares with no minimum-stay requirement. The two carriers contend that these fares, in the absence of meaningful restrictions, will tend to become the regular fare, and cite yields to demonstrate that the result is a clearly unacceptable dilution of revenue for all carriers, IATA and non-IATA alike. The failure of the non-IATA Peruvian carriers APSA is given as an illustration of the marginal economics of operations in these markets. Finally, the applicants note that, in 1959 (Order E-13608), the Board approved an agreement among Pan American, Panagra and Braniff to participate in discussions with other Western Hemisphere carriers to resolve similar difficulties in the U.S.-South America markets.[1]

Three answers have been filed in reply to the petition. LAN Chile, an IATA carrier, supports the joint request; Air Panama urges neither approval nor disapproval but indicates that it is willing to engage in discussions in Panama and that the discussions should be expanded to include scheduling practices and capacity; and Aerocondor opposes the application.

Aerocondor alleges that the application is basically concerned with two factors, (1) group fares for small groups of passengers and (2) the 150-day excursion fares, both of which are at variance with most IATA fares and were initiated by Air Panama, a non-IATA carrier; that Aerocondor, the only other interested non-IATA carrier in this proceeding, does not utilize either of the practices complained of; and that its yields are compensatory and its fares competitive considering the nature of its equipment and operations. This carrier alleges that its flights depart from Miami in the early morning (5 a.m. and 6 a.m.), and therefore represent night operations at lower fares which conform to common industry practice; that it provides only one class of service without the luxuries normally offered by its IATA competitors; and that its one B-720B aircraft may be removed for maintenance or technical reasons, thus requiring substitution of piston aircraft. Finally, Aerocondor alleges that traditional procedures and remedies are available to deal with these matters, and that antitrust considerations require denial of the application.

Upon consideration of the application and all the relevant facts, we are not persuaded that the requested discussions are necessary or that the public interest will ultimately benefit from such discussions. Accordingly, the application will be denied.

A careful reading of the petition indicates that although authority is requested to engage in discussions with all carriers operating in the United States-Colombia/Panama/Ecuador/Peru markets, the essential thrust is directed toward the fares filed by Air Panama, not Aerocondor. Furthermore, although Air Panama's fares to/from Miami are cited, it appears that the petitioners' primary interest centers around the fares to/from New York, a point not served by Aerocondor.

By Order 73-8-84, issued concurrently, we are dismissing a complaint filed by Pan American against various tariffs filed by Air Panama. The Board's order concludes that the fare structure advanced by Air Panama appears compensatory for that carrier and that the complaint does not state facts which would warrant suspension or investigation. For this reason, we are not convinced that continuation of the fares and practices at issue would impose such a significant adverse economic effect on the IATA carriers as to warrant the granting of the petition.

Although lower Air Panama fares have existed in the past, both Pan American and Braniff have resisted meeting them in spite of the possible risk of resulting competitive disadvantage. Since the inauguration of services by Air Panama at New York, however, and the subsequent introduction of non-IATA fares in this market, matched by other IATA carriers providing similar service, the competition which was previously considered acceptable by both Pan American and Braniff is now such that these carriers believe they must likewise reduce their fares or suffer a loss of traffic. In other words, the request for relief suggested by Pan American and Braniff in their petition stems primarily not from the action of Air Panama whose fares appear reasonable to the Board, but rather from the actions of various IATA carriers which have chosen to meet those

[1] Braniff and Pan American also believe the Board should impose the same conditions as it did in that order.

V 38 - 163 AUG 23 73 XUM

fares. Accordingly, it would appear that the best solution to any existing problem rests within the confines of IATA and not through the discussions herein sought.[2]

An evaluation of current schedules from New York/Miami to Panama tends to corroborate this conclusion. In August 1973, a total of 36 non-stop flights are being offered weekly from Miami to Panama. Of these, all but three of which are with jet equipment, only seven are operated by Air Panama, and entirely with B–727 equipment. The other 29 flights are operated by IATA carriers, whose equipment includes B–747, DC8 and B–707 aircraft. As to schedules from New York to Panama, a total of 25 flights are currently offered, of which only four (again entirely B–727) are by the non-IATA carrier, Air Panama. All Air Panama's service is one-stop. Only Braniff offers non-stop services, in DC8 equipment; Pan American requires a change of plane at Miami, from a B–707 aircraft to a B–747 aircraft. It is apparent that the IATA carriers are by far the dominant carriers in the market, offering more frequencies with more modern aircraft. Thus it would appear that if there is in fact any serious problem it is one among the IATA carriers and one that could be resolved among them without resort to extraordinary relief from the Board.

The petitioners also contend that precedent for similar meetings has previously been established by Board Order E–13608 dated March 12, 1959. We disagree. The conditions which existed at the time of issuance of Order E–13608 were significantly different in terms of the magnitude, nature and scope of the problems than those which exist in the instant case.

For the reasons set forth above, the Board finds that the grant of the subject petition would not be in the public interest and it will therefore be denied.

Accordingly, It is ordered, That:

The application of Braniff Airways, Inc., and Pan American World Airways, Inc., for authority to engage in joint discussions in Docket 25700 is denied.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.73–17906 Filed 8–22–73;8:45 am]

[Docket No. 24717, Order 73–8–88]

U.S. CERTIFICATED CARRIERS

Order Regarding Amenities and Services for Delayed Passengers

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 17th day of August, 1973.

In response to our Order of Investigation [1] and in light of our subsequent dismissal of Wien Air Alaska, Inc. (Wien), and United Air Lines, Inc. (United) as parties herein,[2] Hughes Air Corp. d/b/a Air West (Air West), Aloha Airlines, Inc. (Aloha), American Airlines, Inc. (American), Continental Air Lines, Inc. (Continental), Delta Air Lines, Inc. (Delta), Eastern Air Lines, Inc. (Eastern), Frontier Airlines, Inc. (Frontier), National Airlines, Inc. (National), North Central Airlines, Inc. (North Central), Northwest Airlines, Inc. (Northwest), Ozark Air Lines, Inc. (Ozark), Piedmont Aviation, Inc. (Piedmont), Southern Airways, Inc. (Southern), Texas International Airlines, Inc. (Texas International), Trans World Airlines, Inc. (TWA), and Western Air Lines, Inc. (Western), have filed motions to be dismissed as parties to this proceeding.

In support of the motions, the petitioners state that they have amended their respective tariff provisions to conform with the policy announced by the Board in its order of investigation, and see no need for their continued participation in the proceeding. The carriers contend that they now provide identical amenities for all interrupted-trip passengers regardless of class of travel, and undertake the initiative in informing passengers as to the amenities available to them.

With the exception of Texas International, the motions will be granted. Each of the carriers specifically provides that the amenities will be identical for all passengers, and will be provided to standby passengers cleared for boarding, and that the carrier will notify passengers as to the amenities available to them. Our action herein is consistent with that previously taken in the case of United and Wien. While Texas International has similarly revised its tariff provisions [3] the carrier continues to specify certain circumstances under which amenities and services will not be offered, which we believe is inconsistent with the public interest.[4]

Several carriers continue to maintain tariff provisions which are not compatible with the Board's stated policy in this area. Alaska Airlines, Inc. (Alaska), and Pan American World Airways, Inc. (Pan American), do not make provision for standby passengers who have been cleared to board the aircraft. Alaska, and Allegheny Airlines, Inc. (Allegheny), do not provide that passengers will be advised by the carrier of the amenities available. Braniff Airways, Inc. (Braniff), continues to offer different treatment to passengers, depending upon class of service and/or type of fare. Accordingly, we intend to press forward with the investigation of all remaining infirmities in the carriers' governing rules.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered, That:

1. The motions of Hughes Air Corp., d/b/a Air West, Aloha Airlines, Inc., American Airlines, Inc., Continental Air Lines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., Frontier Airlines, Inc., National Airlines, Inc., North Central Airlines, Inc., Northwest Airlines, Inc., Ozark Air Lines, Inc., Piedmont Aviation, Inc., Southern Airways, Inc., Trans World Airlines, Inc., and Western Air Lines, Inc., to be dismissed as parties to Docket 24717 are hereby granted;

2. The motion of Texas International Airlines, Inc., to be dismissed as a party to Docket 24717 is hereby denied; and

3. Copies of this order will be served upon Hughes Air Corp., d/b/a Air West, Aloha Airlines, Inc., American Airlines, Inc., Continental Air Lines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., Frontier Airlines, Inc., National Airlines, Inc., North Central Airlines, Inc., Northwest Airlines, Inc., Ozark Air Lines, Inc., Piedmont Aviation, Inc., Southern Airways, Inc., Texas International Airlines, Inc., Trans World Airlines, Inc., Western Air Lines, Inc.,

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.73–17907 Filed 8–22–73;8:45 am]

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 19801 and 19802; File Nos. 1970–C2–P–72 and 3443–C2–P–72; FCC 73–858]

AIRSIGNAL INTERNATIONAL, INC. AND MAHAFFEY MESSAGE RELAY, INC.

Memorandum Opinion and Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Airsignal International, Inc. for a construction permit to establish new facilities in the Domestic Public Land Mobile Radio Service at Memphis, Tennesse; and Mahaffey Message Relay, Inc., for a construction permit to establish additional facilities for Station KRS 656 in the Domestic Public Land Mobile Radio Service at Memphis, Tenn.:

1. The Commission has before it for consideration an application filed October 6, 1971, by Airsignal International, Inc. (Airsignal), and an application filed December 9, 1971, by Mahaffey Message Relay, Inc. (Mahaffey). Airsignal's application is for a construction permit to establish a new one way signalling (paging) service in the Domestic Public Land Mobile Radio Service (DPLMRS) at Memphis, Tenn., which would operate on 158.70 MHz. Mahaffey's application is for a construction permit to establish an additional one-way signalling service at Memphis, Tenn., in the DPLMRS using the same frequency of 158.70 MHz.

2. The applicants are each seeking to provide communications service on the same frequency in the same geographical area, and since a grant of both applications would result in harmful electrical interference, the applications are mutually exclusive. Moreover, since both applicants appear to be legally, financially, and otherwise qualified to construct and operate the proposed facilities a comparative hearing is necessary to determine which of the two applicants is better qualified to operate the proposed facilities in the public interest.

3. It appears from the application of Airsignal that it is a Delaware corporation, with its principal office located at 201 E. Ogden Avenue, Hinsdale, Illinois. Airsignal is the licensee of one station in Memphis operating in the DPLMRS. The station, KIF 653, is a low-band paging station operating on 35.22 MHz. Airsignal is a subsidiary of Western Union International, Inc. (WUI). While the 1972 Form L for Airsignal has yet to be received by the Commission it appears the company, as a subsidiary of WUI, is more than capable of meeting the $38,850 cost that will be incurred in carrying out its proposed construction.

4. Mahaffey is a Tennessee corporation, with its principal office located at 2972 Sandbrook Avenue, Memphis, Tenn., and is the licensee of one station in Memphis, operating in the DPLMRS. The station, KRS 656, is a VHF paging station operating on 152.24 MHz. Mahaffey's combined Annual Report (Form L) for its station indicates that its total assets are $112,005 with a net income of $28,262.26. Modification cost as stated in the instant application is $2,500.00. Mahaffey, therefore, appears to be financially qualified to complete this proposed modification. The stockholders of Mahaffey owning 10% or more, of the stock are Bell S. Mahaffey (50 percent) and John W. Mahaffey (50%). Both of the foregoing reside in Memphis, Tenn.

5. Technically, Airsignal proposes a General Electric Model ET–70–C base station transmitter with both 16F3 and 15F2 emissions, to be located in Memphis. Input/Output powers will be 375 and 250 watts, respectively; and the antenna will be at a height of 300 feet above ground. Regular and emergency maintenance of the system will be provided on a full time basis by Logan and Lesh Communications of Memphis, which employs at least one person with a Second Class Radiotelephone license. Mahaffey proposes a General Electric Model ET–9–C–5 base station transmitter with 16F3 and 15F2 emissions to be located in Memphis. Input/Output powers will be 500 and 250 watts respectively, and the antenna will be at a height of 336.5 feet above the ground. Regular and emergency maintenance will be provided by Mahaffey.

6. Both applicants allege that there is presently a growing need for signalling service in Memphis, and while the justifications of each are dissimilar in basis they are compatible in kind. Airsignal, in response to a Commission letter of April 19, 1973, indicates that a telephone survey of the Memphis area resulted in no less than 681 potential subscribers to its proposed new service.

7. Mahaffey bases its justification on what it alleges to be the basic incompatibility of tone-only and tone-plus-voice paging. In other words, Mahaffey proposes to devote one channel to tone-only paging and the other channel to tone-plus-voice paging only. Mahaffey proposes this arrangement as a solution to frequency congestion problems which it says are the result of an ever-increasing load of customers and the non-compatibility of its two services. Since the Commission has found that tone-only paging is compatible with tone-plus-voice paging, the alleged incompatibility of the two modes does not provide justification for the grant of an additional radio channel. Empire Communications Co., 31 F.C.C. 2d 477 (1971). Therefore, there is a question of whether the traffic load study and other data submitted by Mahaffey, sans any consideration of mode incompatibility, will support its request for an additional channel.

8. The applicants have been unable to agree on a time sharing arrangement for use of the radio channel applied for.

9. In view of the foregoing, *It is ordered,* That pursuant to sections 309(d) and (e) of the Communications Act of 1934, as amended, (47 U.S.C. §§ 309(d) and (e)) that the captioned applications of Airsignal International, Inc. and Mahaffey Message Relay, Inc. are designated for hearing in a consolidated proceeding upon the following issues:

1. To determine the nature and extent of services proposed by each applicant, including the rates, charges, personnel, practices, classifications, regulations, and facilities pertaining thereto.

2. To determine the total area and population to be served by Airsignal International, Inc., within the 43 dBu contour of its proposed station, based upon the standards set forth in § 21.504 of the FCC rules and regulations and to determine the need for its proposed service in that area.[1]

3. To determine the total area and population to be served by Mahaffey Message Relay, Inc., within the 43 dBu contour of its proposed station, based upon the standards set forth in § 21.504 of the FCC Rules and Regulations; and to determine the need for the proposed service in that area.[1]

4. To determine, in light of the evidence, adduced pursuant to the foregoing issues, which, if either, of the above-captioned applicants would better serve the public interest, convenience, and necessity.

10. *It is further ordered,* That the hearing shall be held at the Commission offices in Washington, D.C., at a time and place, and before an Administrative Law Judge, to be specified in a subsequent order.

11. *It is further ordered,* That the burden of proof upon Issue 2 is upon Airsignal Inc.; the burden of proof upon Issue 3 is upon Mahaffey Message Relay, Inc.; and the burden of proof upon Issues 1 and 4 is upon both applicants.

12. *It is further ordered,* That the Chief, Common Carrier Bureau, is made a party to the proceeding.

13. *It is further ordered,* That applicants and party respondent may avail themselves an opportunity to be heard by filing with the Commission pursuant to § 1.221(c) of the Commission's rules within twenty days of the release date hereof, a written notice stating an intention to appear on the date set for the hearing and present evidence on the issues specified in this Memorandum Opinion and Order.

Adopted August 8, 1973.

Released August 15, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[2]

[SEAL] VINCENT J. MULLINS,
Acting Secretary.

FEDERAL POWER COMMISSION

[Docket No. E–7674]

ALABAMA POWER CO.

Notice of Change in Rate

AUGUST 20, 1973.

Take notice that on August 6, 1973, Alabama Power Company filed: (1) An unsigned service agreement dated July 16, 1973, with the City of Luverne, Alabama, pursuant to the Company's Rate Schedule Mun–1, currently under review in this proceeding, and (2) a Fourth Revised Sheet No. 35 to its Tariff which reflects a change in the applicable rate schedule to the City of Luverne. Alabama Power Company requests an effective date of September 2, 1973, for both the unexecuted service agreement and revised tariff sheet.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with the requirements of sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR

---

[1] Order 72–9–1, September 1, 1972.

[2] Order 72–11–17, dated November 3, 1972, and Order 73–2–49, dated February 12, 1973, respectively.

[3] We will not require Texas International to file provisions for standby passengers as the carrier does not provide standby services.

[4] Texas International's tariff provides that "none of the amenities or services shall be allowed for passengers whose flight cancellation, delay or interruption is caused by weather conditions, air traffic, interline misconnections, acts or omissions of the passengers or other third parties or other reasons outside of the control of TT • • •" We note that Allegheny, Braniff, and Pan American have similar conditions in their tariffs.

[2] We might add that grant of the instant petition to hold discussions could establish a precedent for similar discussions in other troubled areas.

[1] Section 21.504(a) of the Commission's rules and regulations describes a field strength contour of 43 decibels above one microvolt per meter as the limit of the reliable service area for base stations engaged in the one-way communications service. Propagation data set forth in § 21.504(b) are a proper basis for establishing both the location of the service contours and the areas of harmful interference for the facilities involved in this proceeding.

[2] By the Commission, Commissioners H. Rex Lee, Reid, and Hooks absent.

V 38-163 AUG 23 73 XUM

1.8, 1.10). All such petitions or protests should be filed on or before August 23, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the tender are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

ASB INVESTMENT COMPANY

Order Approving Acquisition of Banks

ASB Investment Company, Flint, Michigan, a bank holding company within the meaning of the Bank Holding Company Act, has applied in separate applications for the Board's approval under § 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire between 10.9 and 12.2 percent of the voting shares of Great Lakes Bancorp., Inc., Kalamazoo, Michigan, and thereby acquire, indirectly, 90 percent or more of the voting shares of Industrial State Bank & Trust Company, Kalamazoo (Industrial Bank), The Owosso Savings Bank, Owosso (Owosso Bank), and Alpena Savings Bank, Alpena (Alpena Bank), all located in Michigan.

Notice of the applications, affording opportunity for interested persons to submit comments and views, has been given in accordance with § 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the applications and all comments received in light of the factors set forth in § 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, a registered one bank holding company presently controlling 40.2 percent of the voting shares of Alpena Bank, proposes to exchange these shares for shares of Great Lakes Bancorp., Inc., a bank holding company whose formation has been approved by the Board as of this date. As a result of this exchange of shares, Applicant would relinquish its direct share ownership of Alpena Bank and would obtain indirect ownership of the voting shares of Industrial Bank, Owosso Bank, and Alpena Bank.

On the basis of the record, the applications are approved for the reasons summarized in the Order approving the formation of Great Lakes Bancorp, Inc. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By order of the Board of Governors,[1] effective August 14, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-17842 Filed 8-22-73;8:45 am]

CENTRAL TEXAS FINANCIAL CORPORATION

Order Approving Formation of Bank Holding Company

The Central Texas Financial Corporation, Brownwood, Texas, has applied for the Board's approval under § 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through the acquisition of 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to the First National Bank in Brownwood, Brownwood, Texas (Bank). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with § 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application in light of the factors set forth in § 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is a newly organized corporation. Bank, with deposits of $32.4 million,[2] controls 53.4 pecent of commercial bank deposits in the Brownwood banking market, and is the largest of four banks in the market. Consummation of the proposal herein would neither alter existing banking competition nor significantly affect potential competition and would not result in an increase in the concentration of banking resources in any relevant area.

The financial and managerial resources of Applicant and Bank are consistent with approval, particularly in view of Applicant's commitment to strengthen Bank's capital position.

Considerations relating to the convenience and needs of the community to be served, although consistent with approval, are not a major factor in this case since the proposal is essentially a corporate reorganization. It is the Board's judgment that the proposed transaction is in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above, provided that the transaction shall not be consummated (a) before the thirtieth calendar day after the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Dallas pursuant to delegated authority, and provided further that the transaction shall be in compliance with the provisions of § 3(e) of the Act (12 U.S.C. 1842(e)) regarding status as an insured bank as defined in § 3(h) of the Federal Deposit Insurance Act (12 U.S.C. 1813(h)).

By order of the Board of Governors,[3] effective August 16, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-17843 Filed 8-22-73;8:45 am]

CHEMICAL NEW YORK CORPORATION

Acquisition of Bank

Chemical New York Corporation, New York, New York, has applied for the Board's approval under § 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares of Chemical Bank-Buffalo, Buffalo, New York. The factors that are considered in acting on the application are set forth in § 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of New York. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank to be received not later than September 4, 1973.

Board of Governors of the Federal Reserve System, August 16, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.73-17844 Filed 8-22-73;8:45 am]

FEDERAL OPEN MARKET COMMITTEE

Domestic Policy Directive of May 15, 1973

In accordance with § 271.5 of its rules regarding availability of information, there is set forth below the Committee's Domestic Policy Directive issued at its meeting held on May 15, 1973.[1]

The information reviewed at this meeting suggests that growth in real output of goods and services is likely to moderate somewhat in the current quarter from an exceptionally rapid pace in the two preceding quarters. Over the first 4 months of this year, employment rose considerably but the unemployment rate remained about 5 percent. Retail prices of foods continued upward at an extraordinary pace in March, and in April average wholesale prices of consumer foods rose further. Increases in wholesale prices of industrial commodities were large and widespread in April, as in the two preceding months. In foreign exchange markets, which had been relatively quiet since mid-March, speculative pressures have developed in recent days and exchange rates for major European currencies have appreciated against the dollar. The U.S. merchandise trade balance improved considerably in the first quarter, reflecting in part an especially large increase in agricultural exports.

In April, growth in the narrowly defined money stock picked up from its low first-quarter rate, and growth in the broadly defined money stock also increased. Growth in business loans at banks slowed, and banks reduced the pace at which they issued large-denomination CD's; consequently, the bank credit proxy expanded somewhat less than in other recent months. In recent weeks Federal Reserve Bank discount rates have been increased in two steps of one-quarter point to 6 percent by May 11. Most short-term market interest rates, which had risen sharply earlier, have advanced slightly further. Interest rates on long-term market securities have been relatively stable.

In light of the foregoing developments, it is the policy of the Federal Open Market Committee to foster financial conditions conducive to abatement of inflationary pressures, a more sustainable rate of advance in economic activity, and progress toward equilibrium in the country's balance of payments.

To implement this policy, while taking account of international and domestic financial market developments, the Committee seeks to achieve bank reserve and money market conditions consistent with somewhat slower growth in monetary aggregates over the months immediately ahead than occurred on average in the past 6 months.

By order of the Federal Open Market Committee, August 14, 1973.

ARTHUR L. BROIDA,
Secretary.

[FR Doc.73-17845 Filed 8-22-73;8:45 am]

GREAT LAKES BANCORP, INC.

Order Approving Formation of Bank Holding Company

Great Lakes Bancorp, Inc., Kalamazoo, Michigan, has applied for the Board's approval under § 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 90 percent or more of the voting shares (and 90 percent or more of the nonvoting shares) of Industrial State Bank & Trust Company, Kalamazoo (Industrial Bank), and 90 percent or more of the voting shares of both the Owosso Savings Bank, Owosso (Owosso Bank), and Alpena Savings Bank, Alpena (Alpena Bank), all located in Michigan. As an incident to the formation proposed herein, two bank holding companies, Great Lakes Holding Company, Kalamazoo, Michigan (Holding Company), and ASB Investment Company, Flint, Michigan (ASB), which hold shares of Industrial Bank and Alpena Bank, respectively, will exchange those shares for shares of Applicant. Both of these holding companies were organized and are controlled by principals of Applicant.[1] Accordingly, Holding Company and ASB have each filed separate applications under § 3(a)(3) of the Act for permission to acquire shares of Applicant and thereby acquire, indirectly, ownership of Applicant's three proposed subsidiary banks. The Board's Orders approving these related applications have been issued concurrently with this order as of this date.

Notice of this application, affording opportunity for interested persons to submit comments and views, has been given in accordance with § 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in § 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, a recently organized corporation, was formed at the direction of the present management of its three proposed subsidiary banks for the purpose of becoming a bank holding company. Upon consummation of the proposal herein, Applicant would directly control three banks with aggregate deposits of $236 million, representing less than 1 percent of total commercial bank deposits in Michigan.[2]

Industrial Bank (deposits of $104.5 million) is the third largest of five banks in the Kalamazoo County banking market with 22 percent of deposits therein. Owosso Bank (deposits of $81.2 million) is the largest of six banking organizations in the Shiawassee County banking market with 56 percent of market deposits. Alpena Bank (deposits of $50.3 million) is the largest of two banks in its banking market[3] controlling 55 percent of deposits. The record indicates that none of the proposed subsidiary banks competes with each other due to the distances separating them as well as their existing common shareholder control. This transaction together with those referred to above represent a corporate reorganization of the existing ownership of the proposed subsidiary banks under a new bank holding company structure. Consequently, the Board concludes that the proposed formation of Applicant as a bank holding company would have no adverse effects on competition in any area of the State.

The financial condition of Applicant, its proposed subsidiary banks, Holding Company and ASB is considered to be generally satisfactory, their common managerial resources appear satisfactory and future prospects for all seem favorable. The financial condition of Industrial Bank will be enhanced in light of Applicant's commitment to inject an additional $2 million of equity capital. Consummation of the transaction would provide the proposed subsidiary banks with better access to capital and would provide additional expertise in trust services at Owosso Bank and Alpena Bank. Considerations relating to the convenience and needs of the communities to be served are consistent with, and lend some weight toward, approval. It is the Board's judgment that the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By order of the Board of Governors,[4] effective August 14, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-17849 Filed 8-22-73;8:45 am]

GREAT LAKES HOLDING COMPANY

Order Approving Acquisition of Banks

Great Lakes Holding Company, Kalamazoo, Michigan, a bank holding company within the meaning of the Bank Holding Company Act, has applied in separate applications for the Board's approval under § 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire between 28.6 and 31.8 percent of the voting shares of Great Lakes Bancorp, Inc., Kalamazoo, Michigan, and thereby acquire, indirectly, 90 percent or more of the voting shares of Industrial State Bank & Trust Company, Kalamazoo (Industrial Bank), The Owosso Savings Bank, Owosso (Owosso Bank), and Alpena Savings Bank, Alpena (Alpena Bank), all located in Michigan.

Notice of the applications, affording opportunity for interested persons to submit comments and views, has been given in accordance with § 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the applications and all comments received in light of the factors set forth in § 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, a registered one bank holding company presently controlling 91.3 percent of the voting shares of Industrial Bank, proposes to exchange these shares for shares of Great Lakes Bancorp, Inc.,

[1] Voting for this action: Chairman Burns and Governors Brimmer, Sheehan, Bucher, and Holland. Absent and not voting: Governors Mitchell and Daane.

[2] Banking data are as of December 31, 1972.

[3] Voting for this action: Chairman Burns and Governors Brimmer, Sheehan, Bucher, and Holland. Absent and not voting: Governors Mitchell and Daane.

[1] The Record of Policy Actions of the Committee for the meeting of May 15, 1973, is filed as part of the original document. Copies are available on request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

[1] Three individuals own 75 percent of the voting shares of Holding Company which in turn owns more than 90 percent of the voting shares of Industrial Bank. These individuals also control ASB, a partnership, controlling approximately 40 percent the voting shares of Alpena Bank. In addition, these individuals each owns approximately 14 percent of the voting shares of Owosso Bank.

[2] All banking data are as of December 31, 1972; all market data are as of June 30, 1972.

[3] The relevant banking market consists of Alpena county, Alcona county, and approximately the southern five mile portion of Presque Isle county.

[4] Voting for this action: Chairman Burns and Governors Brimmer, Sheehan, Bucher, and Holland. Absent and not voting: Governors Mitchell and Daane.

V 38 163 AUG 23 73 XUM

a bank holding company whose formation has been approved by the Board as of this date. As a result of this exchange of shares, Applicant would relinquish its direct control of Industrial Bank and would obtain indirect ownership of the voting shares of Industrial Bank, Owosso Bank, and Alpena Bank.

On the basis of the record, the applications are approved for the reasons summarized in the Order approving the formation of Great Lakes Bancorp, Inc. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By order of the Board of Governors,[1] effective August 14, 1973.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 73-64]

ESTABLISHMENT OF ADVISORY COMMITTEE

Notice of Determination

Pursuant to section 9(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), and after consultation with the Office of Management and Budget, I have determined that the establishment of the following advisory committee is in the public interest in connection with the performance of duties imposed upon NASA by law:

Lunar Planning Committee.

The functions of this committee will include the review of the objectives and strategy of NASA's Lunar Exploration Program and the development of guidelines for the continuing acquisition, handling, analysis and synthesis of lunar data. The reason for establishing this Committee is to obtain advice for NASA in connection with conducting a scientifically balanced lunar program and assuring optimal use of the Apollo and automated spacecraft data.

Dated August 17, 1973.

JAMES C. FLETCHER,
Administrator.

[Notice 73-63]

NASA RESEARCH AND TECHNOLOGY ADVISORY COUNCIL, COMMITTEE ON SPACE VEHICLES

Notice of Meeting

The NASA Research and Technology Advisory Council, Committee on Space Vehicles will meet on August 30 and 31, 1973, at NASA Headquarters, Washington, D.C. 20546. The meeting will be held in Room 625, Federal Office Building 10B, 600 Independence Avenue SW., Washington, D.C. Members of the public will be admitted to the meeting with the exception of the closed session described below. The meeting will begin at 8:30 a.m. as indicated on the agenda below and admission is on a first come first served basis up to the seating capacity of the room, which is about 40 persons. All visitors may proceed directly to the meeting location.

The NASA Research and Technology Advisory Council, Committee on Space Vehicles serves in an advisory capacity only. In this capacity, the Committee's principal function is the overall consideration and assessment of those technologies applicable to space vehicles—both launch and spacecraft—with emphasis on their integration into the total space vehicle system. In this context, the purview of the Committee encompasses some areas of technology considered in programmatic detail by other Research and Technology Advisory Council Committees. Among the technological areas of concern to the Committee are launch vehicle and spacecraft aerothermodynamics; structures, materials and dynamics; propulsion and power; space environmental effects, their control and alleviation; electrical and electronic systems; and environmental control, life support and protection systems. Also of concern to the Committee are those aspects of operations that affect integration of or interfaces among the launch vehicle, spacecraft, equipment, and experiments during all phases of mission performance from launch to completion.

The current Chairman is Dr. Ronald Smelt. There are 14 members. The following list sets forth the approved agenda and schedule for the August 30–31, 1973, meeting of the Space Vehicles Committee. For further information please contact Mr. William C. Hayes, Jr., area code 202-755-2243.

Time	Topic
	Thursday, August 30
8:30 A.M.	*Chairman's and Executive Secretary's Reports.*—(The Chairman will review results of the last Research and Technology Advisory Council meeting and intercommittee joint actions as they pertain to the Committee's area of cognizance. The Executive Secretary will review Committee responsibilities and operations.)
9:00 A.M.	*Space Shuttle Program Update.*—(Purpose: The status of design and development activity on the major Shuttle system elements and the performance and operational characteristics of the current configuration will be reviewed and evaluated.)
10:00 A.M.	*Space Tug Status and Technology Requirements.*—(Purpose: Phase A and B Tug studies will be reviewed, with consideration of alternative configurations and identification of technology requirements for Committee assessment.)
1:30 P.M.	*Cryogenic Engine.*—(Purpose: Technology for a reusable high-pressure staged-combustion oxygen/hydrogen rocket engine, suitable for future applications such as the Space Tug, has been under development for the past several years. Plans for an experimental engine project to demonstrate the performance and operation of a 20,000-pound thrust class engine based on this technology will be discussed and Committee recommendations obtained.)
2:30 P.M.	*Cryogenic Storage.*—(Purpose: Lewis Research Center activities related to space storage and use of cryogenic propellants, with emphasis on their utilization in the Space Tug, will be reviewed to obtain recommendations on the continuing technology program and any needed program changes.)
	Friday, August 31
9:30 A.M.	*Sortie Lab Program Update.*—(Purpose: The status and plans of the Sortie Lab program, including both the NASA activity and the ESRO (European Space Research Organization) Spacelab efforts, will be reviewed for Committee recommendations.
10:30 A.M.	*Report on Joint Ad Hoc Panel on Aerospace Vehicle Dynamics and Control.*—(Purpose: This Panel was established by four Research and Technology Advisory Council Committees—Aeronautics; Guidance, Control and Information Systems; Materials and Structures; and Space Vehicles—to determine technology needs for the integration of structural dynamic behavior and control system characteristics. The Committee will review Panel activities, and will evaluate the efforts.)
1:00 P.M.	*Executive Session.*—(Purpose: The Space Transportation Systems Technology steering organization and operations will be outlined for the Committee as related to inter-office and contractor planning, operations and management decisions. Members' discussion of current NASA efforts will be considered and any related Committee recommendations formulated.) (Closed session to discuss management operations, including personnel qualifications, proposed funding levels, programmatic detail and classified data relative to inter-Agency planning.)

Dated August 17, 1973.

HOMER E. NEWELL,
Associate Administrator, National Aeronautics and Space Administration.

SECURITIES AND EXCHANGE COMMISSION

BROKER-DEALER MODEL COMPLIANCE PROGRAM ADVISORY COMMITTEE

Notice of Public Meetings

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Public Law 92-463, 86 Stat. 770, the Securities and Exchange Commission announces the following public advisory committee meetings.

The Commission's Advisory Committee on a Model Compliance Program for Broker-Dealers, established on October 25, 1972 (Securities Exchange Act Release No. 9835), will hold meetings on August 28–30, 1973, at the office of the National Association of Securities Dealers, Inc., 75 Federal Street, Boston, Massachusetts. The meetings will commence at 9:00 a.m., local time.

This Advisory Committee was formed to assist the Commission in developing a model compliance program to serve as an industry guide for the broker-dealer community. Assisted by this Committee's work, the Commission plans to publish a guide to broker-dealer compliance under the securities acts in order to advise broker-dealers of the standards to which they should adhere if investor confidence in the fairness of the market place is to be warranted and sustained. The Committee's recommendations are not intended to result in the expansion of Commission rules governing broker-dealers, but to inform broker-dealers as to the existing requirements and how they may comply with them.

The Committee's scheduled meetings will be for the purpose of reviewing drafts and proposals concerning the Committee's proposed report to the Commission on these compliance guidelines for broker-dealers.

These meetings are open to the public. Any interested person may attend and appear before or file statements with the Advisory Committee—which statements, if in written form, may be filed before or after the meeting or, if oral, at the time and in the manner and extent permitted by the Advisory Committee.

EASTERN UTILITIES ASSOCIATES ET AL.

Post-Effective Amendment Regarding Proposed Issuance and Sale of Debentures and Common Stock by Subsidiary to Stockholder Companies

In the matter of Eastern Utilities Associates, P.O. Box 2333, Boston, Massachusetts 02107; Blackstone Valley Electric Company, P.O. Box 1111, Lincoln, Rhode Island 02865; Brockton Edison Company, 36 Main Street, Brockton, Massachusetts 02403; Fall River Electric Light Company, 85 North Main Street, Fall River, Massachusetts 02722, and Montaup Electric Company, P.O. Box 391, Fall River, Massachusetts 02722.

Notice is hereby given that Eastern Utilities Associates (EUA), a registered holding company, and its four electric utility subsidiary companies, Blackstone Valley Electric Company (Blackstone), Brockton Edison Company (Brockton), Fall River Electric Light Company (Fall River), and Montaup Electric Company (Montaup), have filed with this Commission a post-effective amendment to the application-declaration in this proceeding pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6(a), 6(b), 7, 9(a), 10, and 12(f) of the Act and Rule 43(a) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the amended application-declaration, which is summarized below, for a complete statement of the proposed transactions.

By order in this proceeding dated June 29, 1973 (Holding Company Act Release No. 18012), the Commission authorized that, during the period ending January 21, 1974, EUA, Blackstone, Brockton, Fall River, and Montaup could issue and sell short-term, unsecured promissory notes to banks, and in the cases of Blackstone, Brockton, and Fall River to also receive certain open-account advances from EUA, in the maximum aggregate amounts to be outstanding at any one time as follows: EUA—$35,930,000; Blackstone—$26,870,000; Brockton—$33,090,000; Fall River—$7,990,000; and Montaup—$33,900,000. The filing stated that some of the proceeds of said notes and advances were to be used to make investments in permanent securities of Montaup by Blackstone, Brockton, and Fall River.

Montaup now proposes to increase its common stock by 82,000 shares with an aggregate par value of $8,200,000 and to issue and sell such additional shares together with $12,800,000 principal amount of — percent Debenture Bonds to be dated October 1, 1973, and maturing October 1, 2003. Montaup's sole common stockholders, Brockton, Blackstone, and Fall River, propose to acquire such common stock and Debenture Bonds at prices equal, respectively, to the par value and principal amount thereof, and in proportions conforming with the terms of an agreement dated as of September 11, 1923, as amended, among Montaup and its stockholder companies. Pursuant to said agreement, and reflecting an assignment by Blackstone and Fall River to Brockton of a portion of their preemptive rights to subscribe to their proportionate shares of the 82,000 additional Montaup shares, Brockton will acquire 59,340 shares and $8,556,000 principal amount of Debenture Bonds; Blackstone will acquire 22,620 shares and $3,688,000 principal amount of Debenture Bonds; and Fall River will acquire 40 shares and $556,000 principal amount of Debenture Bonds. As a result of the foregoing transactions, the proportions of Montaup's total outstanding securities held by Brockton, Blackstone, and Fall River will become 48 percent, 33 percent, and 19 percent, respectively. The interest rate of the Debenture Bonds is to be supplied by further amendment. Brockton, Blackstone, and Fall River will deposit and pledge the acquired common stock and Debenture Bonds with their respective indenture trustees. The proceeds to Montaup from the sale of the common stock and Debenture Bonds will be used to reduce its short-term bank indebtedness incurred for the construction of additions and improvements to its plant and system or for investments in the capital stock of nuclear generating companies (or to repay borrowings so incurred).

It is stated that the proposed issue and sale of the Debenture Bonds and common stock by Montaup and the acquisition thereof by Brockton and Fall River are subject to the jurisdiction of the Department of Public Utilities of the Commonwealth of Massachusetts and that no other state commission or federal commission, other than this Commission, has jurisdiction over the proposed transactions. The fees and expenses to be incurred in connection with the proposed transactions are to be filed by further amendment.

Notice is further given that any interested person may, not later than September 12, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment to the application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. And any time after said date, the application-declaration, as now amended or as it may be further amended, may be granted and permitted to become effective as provided in rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS,
Acting Secretary.

VETERANS ADMINISTRATION

CENTRAL OFFICE EDUCATION AND REVIEW PANEL

Notice of Meeting

The Veterans Administration gives notice pursuant to PL 92-463 that a meeting of the Central Office Education and Review Panel, authorized by section 1790(b), Title 38, United States Code, will be held in Room 139, at the Veterans Administration Central Office, 810 Vermont Avenue NW, Washington, D.C., on September 11, 1973 at 9:00 a.m. The meeting will be held for the purpose of reviewing the June 19, 1973 decision of the Director, Veterans Administration Regional Office, Manila, Republic of Philippines, that no further applications for benefits be approved for attendance by VA beneficiaries in the Excella Academy of Fashion and Arts, Dagupan City, C-318, Republic of Philippines.

The meeting will be open to the public up to the seating capacity of the conference room. Because of the limited seating capacity, it will be necessary for those wishing to attend to contact Mr. Halsey A. Dean, Chief, Appraisal and Compliance, Education and Rehabilitation Service, VA Central Office (phone 202-389-2850), prior to September 11, 1973.

Dated: August 17, 1973.

By direction of the Administrator.

[SEAL] RUFUS H. WILSON,
Associate Deputy Administrator.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[V-73-19]

BEAR BRAND HOSIERY COMPANY ET AL.

Notice of Applications for Variances

I. *Bear Brand Hosiery Company*—(a) *Notice of Application.*—Notice is hereby given that Bear Brand Hosiery Co., 205 W. Monroe Street, Chicago, Ill. 60606, has made application, pursuant to section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655) and 29 CFR 1905.11, for a permanent variance from the standard prescribed in 29 CFR 1910, 219(f)(3), concerning sprockets and chains.

The addresses of the places of employment affected by the application are as follows:

Bear Brand Hosiery Company, Fayetteville, Arkansas.
Bear Brand Hosiery Company, Bentonville, Arkansas.
Bear Brand Hosiery Company, Rogers, Arkansas.
Bear Brand Hosiery Company, Siloam Springs, Arkansas.

The applicant certifies that employees who would be affected by the variance have been notified by posting a copy of the application where notices to employees are normally posted. In addition, it has informed its employees of their

V 38-163 AUG 23 73 XUM

right to petition the Assistant Secretary for a hearing.

Regarding the merits of the application, the applicant states that it is providing a place of employment as safe as this would be if it complied with 29 CFR 1910.219(f)(3), which requires that all sprocket wheels and chains shall be enclosed unless they are at least seven feet above the floor or platform.

The applicant states that it has in operation several Zodiac Knitting Machines that utilize a chain and sprocket arrangement which is not enclosed. The exposed portion of the chain is located on the side of the machine opposite the normal working position of the employee. The employee normally works at the front of the machine while the chain is in motion, but on occasion, also while the chain is in motion, he must work at the rear of the machine.

The applicant contends that there is no safety hazard to his employees because of the configuration and speed of the chain and sprocket. The applicant states that the sprocket and chain links are constructed of plastic; the tension at each chain sprocket is less than 10 pounds; the running speed of the chain is 1⅜ inch per second (or two links per second); it has been demonstrated that employees' fingers may become lodged between the chain and sprocket without harmful effects; and that from the date of installation of the machinery, in April of 1965, to the date of application there had been no employee injury resulting from this chain arrangement.

A copy of the application will be made available for inspection and copying upon request at the Office of Standards, U.S. Department of Labor, Railway Labor Building, 400 First Street NW., Room 508, Washington, D.C. 20210, at the following regional and area offices:

Occupational Safety and Health Administration, U.S. Department of Labor, 7th Floor, Texaco Bldg., 1512 Commerce Street, Dallas, Texas 75201.

Occupational Safety and Health Administration, U.S. Department of Labor, 546 Carondelet Street, 4th Floor, New Orleans, Louisiana 70130.

II. *The Crom Corporation*—(a) *Notice of Application.*—Notice is hereby given that The Crom Corporation, 250 SW. 36th Terrace, Office Park West, Gainesville, Florida 32601, has made application pursuant to section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655) and 29 CFR 1905.11, for a permanent variance from the standards prescribed in 29 CFR 1926.451(e)(1), with respect to height-base dimension limits for manually propelled mobile scaffolds; in 29 CFR 1926.451(e)(7)(ii), with respect to minimum base-dimension to height ratios for mobile scaffolds on which employees are allowed to ride; and in 29 CFR 1926.451(a)(4), with respect to the installation of toeboards on scaffold platforms more than ten feet above ground.

The places of employment affected by this application may be any construction site on which the applicant's employees work.

The applicant certifies that all affected employees have been notified, by posting summaries of the application for the variance on bulletin boards, and by giving a copy of the application to the authorized employee representative. The applicant also certifies that it has informed its employees of their right to petition the Assistant Secretary for a hearing.

Regarding the merits of the application, the applicant states that it is a constructor of prestressed circular concrete structures, principally tanks, and uses mobile scaffolds to move employees around the structure for various duties, such as installation of load-bearing wire and supports thereof, and for application of concrete by pneumatic means.

The applicant proposes to use a special manually propelled scaffold, with a height to minimum base dimension ratio not exceeding five (5), instead of the maximum ratio of four (4) required by 29 CFR 1926.451(e)(1). The applicant states that the proposed scaffolds would have an over-turning moment of approximately 30,000 foot-pounds along an axis perpendicular to the scaffold wheel axis and horizontal to the ground. This is stated to be the only direction in which the scaffold could overturn. The applicant also states that lateral tipping about an axis parallel to the scaffold wheel axis cannot occur because of the large size of the wheels and the wide spacing of the axles.

The applicant also proposes alternatives to the § 1926.451(e)(7)(ii) requirement that a scaffold height be not more than twice the minimum dimension of the scaffold base when ready for rolling and when moved with men aboard. One proposed alternative is to counter-balance the scaffold in such a way that the overturning moment would not exceed that of a scaffold with a base ratio of one-half the height. Another proposed alternate method is to secure the scaffold at the top of the tank wall, by means of hooks over the wall or by cables hooked to a center pin, to prevent tipping of the scaffold. Additionally, it proposes that where a scaffold is prevented from overturning by either adjacent tank walls or adequately braced formwork, no height to base ratio be required.

With respect to 29 CFR 1926.451(a)(4), which requires that toeboards be placed on scaffold platforms more than ten feet above the ground, the applicant proposes to substitute a tool basket suitably anchored to the scaffolding to prevent falling of the basket and its contents. The applicant states that due to the nature of the work done while on the scaffold, neither full width regular scaffolds or toeboards are practicable. The applicant states that the provision of a tool basket is a safe and suitable alternative to toeboards.

A copy of the application will be made available for inspection and copying upon request at the Office of Standards, U.S. Department of Labor, Railway Labor Building, Room 508, 400 First Street NW., Washington, D.C. 20210, and the following regional and area offices:

U.S. Department of Labor, Occupational Safety and Health Administration, 1375 Peachtree Street NE., Suite 587, Atlanta, Georgia 30309.

U.S. Department of Labor, Occupational Safety and Health Administration, Room 561-600, Federal Place, Louisville, Kentucky 40202.

U.S. Department of Labor, Occupational Safety and Health Administration, Room 204, Bridge Building, 3200 E. Oakland Park Boulevard, Ft. Lauderdale, Florida 33308.

U.S. Department of Labor, Occupational Safety and Health Administration, 7th Floor, Texaco Building, 1512 Commerce Street, Dallas, Texas 75201.

U.S. Department of Labor, Occupational Safety and Health Administration, 1515 Broadway (1 Astor Place), Room 3445, New York, New York 10036.

U.S. Department of Labor, Occupational Safety and Health Administration, 1361 East Morehead Street, Charlotte, North Carolina 28204.

U.S. Department of Labor, Occupational Safety and Health Administration, Enterprise Building, Suite 201, 6605 Abercorn Street, Savannah, Georgia 31405.

U.S. Department of Labor, Occupational Safety and Health Administration, 400 West Bay Street, Box 35063, Jacksonville, Florida 32202.

U.S. Department of Labor, Occupational Safety and Health Administration, 1371 Peachtree Street NE., Room 723, Atlanta, Georgia 30309.

U.S. Department of Labor, Occupational Safety and Health Administration, Commerce building, Room 801, 118 North Royal Street, Mobile, Alabama 35502.

U.S. Department of Labor, Occupational Safety and Health Administration, Todd Mall, 2047 Canyon Road, Birmingham, Alabama 35216.

U.S. Department of Labor, Occupational Safety and Health Administration, 546 Carondelet Street, 4th Floor, New Orleans, Louisiana 70130.

U.S. Department of Labor, Occupational Safety and Health Administration, Condiminium San Alberto Building, 605 Condado Avenue, Room 328, Santurce, Puerto Rico 00907.

Interested persons, including employers and employees who believe they would be affected by the grant or denial of either of the above applications for variances, are invited to submit written data, views, and arguments regarding the relative application by September 24, 1973. In addition, employers and employees who believe they would be affected by a grant or denial of either application may request a hearing on the application by September 24, 1973, in conformity with the requirements of 29 CFR 1905.15. Submissions of written comments and requests for a hearing should be in quadruplicate, and must be addressed to the Office of Standards, U.S. Department of Labor, Railway Labor Building, Room 508, 400 First Street NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 17th day of August, 1973.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.73-17911 Filed 8-22-73;8:45 am]

[V-73-17]

PRINEVILLE MOULDINGS, INC. ET AL.

Notice of Applications for Variances and Interim Orders; Grants of Interim Orders

I. *Prineville Mouldings, Inc. and Consolidated Pine, Inc.*—(a) *Notice of applications.*—Notice is hereby given that Prineville Mouldings, Incorporated, 215 Metuchen Road, South Plainfield, New Jersey 07080, and Consolidated Pine, Incorporated, Post Office Box 428, Prineville, Oregon 97754, have made applications pursuant to section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655) and 29 CFR 1905.11 for permanent variances, and for interim orders pending decisions upon the applications for variances, from the requirements prescribed in 29 CFR 1910.213 (d)(1) concerning the guarding of circular crosscut table saws.

The addresses of the places of employment affected by these applications are:

Prineville Moulding Plant, Post Office Box 548, Lamonta Road, Prineville, Oregon 97754.

Consolidated Pine Sawmill and Moulding Plant, Post Office Box 428, Lamonta Road, Prineville, Oregon 97754.

The applicants certify that all employees who would be affected by the variances have been notified of the applications, by posting copies in conspicuous places at their places of employment. Employees have also been informed of their right to petition for a hearing.

Regarding the merits of the applications, the applicants contend they are providing a place of employment as safe as it would be if they complied with the requirements of 29 CFR 1910.213(d)(1), that circular crosscut table saws must be guarded by a specified kind of hood.

The applicants state that the end trim saws are used to trim linear moulding to various lengths. The operator of a trim saw stands several feet from the saw, with a working table between him and the blade. There are marks on the table in front of him showing various distances from the saw. Using the marks on the table as a guide, the operator trims the ends off the moulding by bringing the mould down onto the saw. Consolidated Pine, Inc., states that its method of guarding consists in placing a metal guard on each side of the cutting blade of the saw and over a portion of the top of the saw, and in placing a barrier 50 inches by 60 inches and 50 inches high of one inch steel pipe around the saw, so that it is impossible for a workman passing by to accidentally come in contact with the saw.

The operator of the saw stands several feet from the blade. This guarding mechanism, it is contended, is as safe as the guarding required by the applicable regulation, without materially reducing production. Prineville Mouldings, Inc., states its method of guarding consists in placing a metal guard on each side of the cutting blade of the saw, and in placing a barrier 36 inches by 72 inches and 59 inches high in places, of ½-inch steel reinforcing bar, around the saw so that it is impossible for a workman passing by to accidentally come into contact with the saw. The operator of the saw stands several feet from the blade. This guarding mechanism, it is contended, is as safe as the guarding required by the applicable regulation, without materially reducing production.

Copies of the applications will be made available for inspection and copying upon request at the Office of Standards, U.S. Department of Labor, Railway Labor Building, Room 508, 400 First Street NW., Washington, D.C. 20210, and at the following regional and area offices:

U.S. Department of Labor, Occupational Safety and Health Administration, 506 Second Avenue, 1808 Smith Tower Building, Seattle, Washington 98104.

U.S. Department of Labor, Occupational Safety and Health Administration, Room 526, Pittock Block, 921 SW. Washington Street, Portland, Oregon 97205.

The application by Prineville Mouldings, Inc., will also be available at the following regional and area offices:

U.S. Department of Labor, Occupational Safety and Health Administration, 1515 Broadway (1 Astor Plaza), Room 3445, New York, New York 10036.

U.S. Department of Labor, Occupational Safety and Health Administration, Federal Office Building, 970 Broad Street, Room 635, Newark, New Jersey 07102.

(b) *Interim orders.*—It appears from the applications for variances and interim orders, and supporting data, filed by Consolidated Pine, Inc., and Prineville Mouldings, Inc., that the saw arrangements presently in use at the Consolidated Pine Sawmill and Moulding Plant, Lamonta Road, Prineville, Oregon, and Prineville Moulding Plant, Lamonta Road, Prineville, Oregon, provide employments and places of employment as safe as those which would prevail if the applicants were to comply with the requirements of 29 CFR 1910.213(d)(1). Therefore, in order to prevent undue hardships:

It is ordered, Pursuant to authority in section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 and 29 CFR 1905.11(c), That Consolidated Pine, Inc., and Prineville Moulding, Inc., be, and they are hereby, authorized to use at their Consolidated Pine Sawmill Moulding Plant, Lamonta Road, Prineville, Oregon, and Prineville Moulding Plant, Lamonta Road, Prineville, Oregon, the guarding arrangements described above and in their respective applications.

As soon as possible, each of the applicants shall give notice to its affected employees of the terms of these interim orders by the same means required to inform them of the application for variance.

II. *Western Wood Products Association*—(a) *Notice of application.*—Notice is hereby given that Western Wood Products Association, 1500 Yeon Building, Portland, Oreg. 97204, has on behalf of its members listed below, made application pursuant to section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655) and 29 CFR 1905.11 for a variance, and for an interim order pending a decision on the application for a variance, from the requirement prescribed in 29 CFR 1910.265(d)(1)(ii)(b), that lifting cylinders of all hydraulically operated log handling machines shall be equipped with a positive device for preventing the uncontrolled lowering of the load or forks in case of a failure in the hydraulic system.

The addresses of the places of employment affected by this application are:

The applicant states that all affected employees of its members have been notified of the application by posting a summary of the application where notices to employees are normally posted and by giving a copy of the application to the employees' authorized representatives. The applicant also states that all affected employees have been advised of their right to petition for a hearing.

Regarding the merits of the application, the applicant contends that either of the procedures described below, one of which is adhered to in every place of employment, provides a place of employment as safe as that would be if its members complied with the requirements of 29 CFR 1910.265(d)(1)(ii)(b). The procedures allegedly used by the association members are as follows:

PROCEDURE 1

(1) When a log truck arrives at a dry-deck storage area from the woods, it is parked adjacent to a set of safety stanchions (or rack). By prior determination the log truck driver knows on which sides of his load the binder releases should be placed so that he will be afforded maximum safety when releasing them. He releases his bindings by reaching through the openings between the uprights. If a log should become dislodged when the binding pressure is released the log truck driver is protected by the stanchions.

(2) At the end of the rack, instructions are posted for the truck drivers. State codes as well as company rules cover the subject in detail.

(3) After the binders are released, the driver pulls his truck into a predetermined unloading position where a stacker awaits.

(4) The stacker clamps the load, lifts it vertically and away (90 degrees to the longitudinal axis of the truck). The driver is in the cab out of the line of danger. After the stacker removes the load, the truck departs for another trip to the woods.

(5) The load that the stacker removed is positioned on the ground, or, in some cases on skids, for subsequent scaling by a scaler.

(6) Working at the far end of the yard a small stacker repositions the scaled logs into stacks by species.

(7) There is no foot or vehicular traffic in the yard. There are only workers operating stackers, normally one scaler, and individual truck drivers bringing in loads of logs. None of these workers are under or near a load where they would be in jeopardy if a malfunction should occur.

PROCEDURE 2

(1) This procedure differs from the previous one in that no rack is used. When a log truck arrives at the storage area, it parks at a predetermined unloading spot and waits until a stacker comes to secure the load. Instructions to truck drivers are posted, which direct the driver not to loosen the binders until the stacker has the load secured.

(2) When the load is secured, the driver loosens the binders. The binder releases are placed on the side of the load that will afford maximum safety and work room.

(3) When the binders are free, the driver moves clear and signals the stacker operator to remove the load from the truck.

(4) The stacker deposits the load on the ground for subsequent scaling.

(5) After scaling, a smaller stacker moves the logs to stacks arranged by species. There is no foot or vehicular traffic aside from that which is absolutely necessary to perform the function, and again, there are no workers under or near a load where their safety might be jeopardized.

A copy of the application will be made available for inspection and copying upon request at the Office of Standards, U.S. Department of Labor, Railway Labor Building, Room 508, 400 First Street NW., Washington, D.C. 20210, and at the following offices:

U.S. Department of Labor, Occupational Safety and Health Administration, 506 Second Avenue, 1906 Smith Tower Building, Seattle, Washington 98104.
U.S. Department of Labor, Occupational Safety and Health Administration, Room 526, Pittock Block, 921 SW. Washington Street, Portland, Oregon 97205.
U.S. Department of Labor, Occupational Safety and Health Administration, 100 McAllister Street, Room 1706, San Francisco, California 90802.
U.S. Department of Labor, Occupational Safety and Health Administration, Hartwell Building, Room 514, 19 Pine Avenue, Long Beach, California 90802.
U.S. Department of Labor, Occupational Safety and Health Administration, Suite 910-Amerco Towers, 2721 North Central Avenue, Phoenix, Arizona 85004.
U.S. Department of Labor, Occupational Safety and Health Administration, Squire Plaza Building, 8527 W. Colfax Avenue, Lakewood, Colorado 80202.
U.S. Department of Labor, Occupational Safety and Health Administration, Suite 525, Petroleum Building, 2812 First Avenue North, Billings, Montana 59101.
U.S. Department of Labor, Occupational Safety and Health Administration, Suite 309, Executive Building, 455 East Fourth South, Salt Lake City, Utah 59101.
U.S. Department of Labor, Occupational Safety and Health Administration, Room 421, Federal Building, 1205 Texas Avenue, Lubbock, Texas 79401.

(b) *Interim Order.*—It appears from the application for a variance and interim order, and supporting data filed by Western Wood Products Association, that either of the procedures used by Western Wood Products Association members would provide employments and places of employment as safe as those which would prevail if the members were to make the changes necessary in order to comply with the requirements of 29 CFR 1910.265(d)(1)(ii)(b).

Therefore, in order to prevent undue hardships:

It is ordered, Pursuant to authority in section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 and 29 CFR 1905.11(c), that each member of the Western Wood Products Association, listed above, be, and it is hereby, authorized to use either of the two outlined procedures, in lieu of complying with the requirement prescribed in 29 CFR 1910.265(d)(1)(ii)(b).

As soon as possible each member of the Western Wood Product Association shall give notice to all its affected employees of the terms of this interim order by the same means required to inform them of the application for variance.

III. Interested persons, including employers or employees who believe they would be affected by the grant or denial of any of the above applications for variances, are invited to submit written data, views, and arguments regarding the relative application by September 24, 1973. In addition, employers and employees who believe they would be affected by a grant or denial of any of the variances may request a hearing on the relative application by September 24, 1973, in conformity with the requirements of 29 CFR 1905.15. Submissions of written comments and requests for a hearing should be in quadruplicate, and shall be addressed to the Office of Standards, U.S. Department of Labor, Railway Labor Building, Room 508, 400 First Street NW., Washington, D.C. 20210.

IV. *Effective date.*—The above interim orders shall be effective as of August 23, 1973, and shall remain in effect until decisions are rendered on the respective applications for variances.

Signed at Washington, D.C., this 17th day of August 1973.

JOHN STENDER,
Assistant Secretary of Labor.

The applicant, on behalf of its members, certifies that employees who would be affected by the variance have been notified by posting a copy of the application where notices to employees are normally posted. The applicant also states that all affected employees have been advised of their right to petition for a hearing.

Regarding the merits of the application, the applicant, on behalf of its members, states that additional time, until December 31, 1973, is necessary for them to comply with the requirements of the monitoring and medical examination provisions of 29 CFR 1910.93a(f) and (j).

The applicant states that the majority of its members are small business organizations without technical personnel to guide them or the knowledge of how to avail themselves of technical assistance. When 29 CFR 1910.93a was promulgated on June 7, 1972, the applicant established a special OSHA Task Force to facilitate compliance for its members on a national basis.

The applicant states that this OSHA Task Force has concluded that the only practical way of enabling insulation contractors to comply with the monitoring and medical examination requirements was for the applicant Association: (1) To identify or train persons who would be competent and available in all parts of the country to do monitoring for the contractors; (2) to identify or train persons who would be qualified and available to make the examination of the filter samples and identify and count the asbestos fibers; (3) to identify and arrange for the availability in all parts of the country of medical personnel who are qualified to make the necessary medical examinations and properly take and interpret the necessary roentgenograms; and (4) to employ a technical director or directors who would establish, coordinate and supervise these programs, check the validity of the results, review the opinions of the different medical examiners and provide for the retention and availability of the records.

The applicant further states that its OSHA Task Force has reported that certain conditions make it impossible to establish the above-mentioned program within the time limits imposed by the standard, and that by the time any such program could be established, the need therefor would no longer exist. The applicant contends that (1) trained professional and technical personnel are not available in all parts of the country to perform the required monitoring; (2) construction materials containing asbestos are being phased out with the result that by the end of 1973 contractors will be using asbestos-free materials; (3) the expected elimination of asbestos makes it impractical, if not impossible, to interest new people in the necessary training; (4) it is impossible to arrange a program for making available in all parts of the country medical personnel qualified to make the required medical examinations; and (5) the rapid elimination of asbestos materials from the market makes a medical examination program of limited use.

A copy of the application will be made available for inspection and copying upon request at the Office of Standards, U.S. Department of Labor, Railway Labor Building, 400 First Street NW., Room 508, Washington, D.C. 20210, and at the following Regional and Area Offices:

U.S. Department of Labor, Occupational Safety and Health Administration, Suite 309, Executive Building, 455 East 4th South, Salt Lake City, Utah 84111.

Interested persons, including employers and employees who believe they would be affected by the grant or denial of the above application for temporary variance, are invited to submit written data, views, and arguments regarding the application by September 24, 1973. In addition, employers and employees who believe they would be affected by a grant or denial of the variance may request a hearing on the application by September 24, 1973, in conformity with the requirements of 29 CFR 1905.15. Submissions of written comments and requests for a hearing should be in quadruplicate, and must be addressed to the Office of Standards, U.S. Department of Labor, Railway Labor Building, Room 508, 400 First Street NW., Washington, D.C. 20210.

II. *Denial of interim order.*—The applicant has also requested, on behalf of all its members listed above, an interim order deferring the monitoring and medical examination requirements until a decision is made on the application for a variance.

Paragraph (f)(1) of § 1910.93a requires every employer to cause every place of employment where asbestos fibers are released to be monitored so as to determine whether every employee's exposure is below the prescribed limits. If the limits are exceeded the employer is required to undertake immediately the prescribed compliance program.

Paragraph (j) requires that preemployment, annual, and postemployment medical examinations be provided for each employee engaged in an occupation exposed to airborne concentrations of asbestos fibers. Records of the examinations are required to be kept.

The applicant contends that the supply of trained personnel available to the contracting industry to do the monitoring and analysis of samples is inadequate; that training programs are necessary to make available trained personnel in all parts of the country; that such programs are impossible because of the anticipated elimination of asbestos from insulation materials; and that a program to arrange for the availability in all parts of the country of medical personnel qualified to make the required medical examination is impossible and, if it were possible, it would serve its purpose only for a limited period of time.

It seems to us that the justification for the relief requested must be substantially as broad as the relief. The fact that an employer may find it impossible to comply with a standard would not warrant a variance for another employer who, for all that appears, may be able to comply.

The request for an interim order is made on behalf of hundreds of employers located all over the country, some in large metropolitan areas. There is no clear allegation in the application that none of the listed employers is able to comply. Moreover, even if such allegation were made, it does not seem probable that the petitioner would prove it.

In addition, monitoring and medical examinations are an essential part of an effective compliance program. In many cases, monitoring is necessary to determine whether any compliance program is to be implemented. A medical examination may reveal, not only a condition which would be aggravated by continued exposure to absestos fibers, but also conditions which would preclude normal functioning with the use of a respirator. To issue an interim order deferring the requirements for monitoring and medical examinations would be to the detriment of affected employees.

Accordingly, the petition for an interim order is denied, without prejudice to the application for a temporary variance.

Signed at Washington, D.C., this 17th day of August 1973.

JOHN STENDER,
Assistant Secretary of Labor.

INTERSTATE COMMERCE COMMISSION

[Notice 326]

ASSIGNMENT OF HEARINGS

AUGUST 20, 1973.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC 19105 Sub 37, Forbes Transfer Company, Inc., now assigned September 18, 1973, at Raleigh, N.C., will be held in Room 209, Federal Building, 310 Newbern Avenue.
MC 56553 Subs 15 and 24, Pulaski Highway Express, Inc., now being assigned hearing October 9, 1973 (2 weeks), at Columbia, Tenn., in a hearing room to be later designated.
MC-C-8039, P. C. White Truck Line, Inc., et al v. Ross Neely Express, Inc., now assigned September 18, 1973, will be held in G. S. A., Conference Room, 8th Floor, Aronov Bldg., 474 South Court Street, Montgomery, Ala.
MC-C-8075, Absco, Inc., The Collins Packing Company, the Selected Meat Company, The

V 38-163 AUG 23 73 XUM

Waldock Company, and Thomas Industries, Inc.—Investigation of Operations and Practices and Revocation of Permit, now assigned September 24, 1973 will be held in Room 2, State Office Bldg., 65 South Front Street, Columbus, Ohio.

MC–116763 Sub 233, Carl Subler Trucking, Inc., now assigned September 25, 1973, will be held in Room 4, State Office Bldg., 65 South Front Street, Columbus, Ohio.

MC–C–8088, Point Express, Inc.—Investigation and Revocation of Certificates—now assigned September 27, 1973, will be held in Room 255, Federal Office Bldg., 85 Marconi Boulevard, Columbus, Ohio.

MC–F–11804, Dallas & Mavis, Inc.—Control and Merger—Dallas & Mavis Forwarding Co., Inc., now assigned October 1, 1973, will be held in Room 1743, Tax Court, Everett McKinley Dirksen Bldg., 219 South Dearborn Street, Chicago, Ill.

MC–F–11813, Brown Transport Corp—Control—Harper Motor Lines, Inc., FD 27338, Harper Motor Lines, Inc. Notes, now assigned September 24, 1973, at Atlanta, Ga., will be held in Room 305, 1252 West Peachtree Street NW.

MC 114290 Sub 64, Exley Express, Inc., now assigned October 9, 1973, at Olympia, Washington, is canceled and the application is dismissed.

MC–F–11885, United Truck Service—Control—Ephraim Freightways, Inc., now being assigned October 24, 1973 (3 days), at Denver, Colo., in a hearing room to be later designated.

MC 17094 Sub 1, Nate's Truck Line, Inc. Conversion Proceeding now reentitled: Nebraska Illinois Colorado Express, Inc. Conversion Proceeding, MC 113678 Sub 63, Curtis, Inc., now being assigned October 29, 1973 (1 week), at Denver, Colo., in a hearing room to be later designated.

MC 138100, Mellow Truck Express, Inc., now being assigned November 5, 1973 (1 week), in Portland, Oreg., in a hearing room to be later designated.

No. 35400, Increased Charges for Perishable Protective Service—1971, now being assigned hearing October 2, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

No. 35839, Chelsea Milling Company v. The Baltimore and Ohio Railroad Company, Et Al, now assigned September 18, 1973, at Washington, D.C., is canceled and transferred to modified procedure.

No. 35791, General Increase, February 1973, Bulk Carrier Conference, now assigned August 21, 1973, at Washington, D.C., is postponed to October 9, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

[Notice 339]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before September 12, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–74603. By order of August 17, 1973, the Motor Carrier Board approved the transfer to Tiona Truck Line, Inc., Butler, Mo., of Certificates Nos. MC–118535 and numerous subs thereunder issued to Jim Tiona, Jr., Butler, Mo., authorizing the transportation of fertilizer, feed grade urea, animal and poultry feeds, chemicals, and similar commodities from and to points in 25 States. Mr. David E. Kinton, Attorney at Law, 1111 United Missouri Bank Building, Kansas City, Mo. 64106.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Rev. S.O. 994; I.C.C. Order 108, Amdt. 2]

CANADIAN RAILROADS

Rerouting or Diversion of Traffic

Upon further consideration of ICC Order No. 108 (Canadian Railroads) and good cause appearing therefor:

It is ordered, That:

ICC Order No. 108 be, and it is hereby, amended by substituting the following paragraph (g) for paragraph (g) thereof:

(g) *Expiration date.*—This order shall expire at 11:59 p.m., August 31, 1973, unless otherwise modified, changed, or suspended.

It is further ordered, That this amendment shall become effective at 11:59 p.m., August 15, 1973, and that this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., August 15, 1973.

INTERSTATE COMMERCE COMMISSION,
[SEAL] R. D. PFAHLER,
Agent.

[Notice No. 66]

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

AUGUST 17, 1973.

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application) are governed by Special Rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended) published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. *Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the* FEDERAL REGISTER of a notice that the proceeding has *been assigned for oral hearing.*

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

No. MC 808 (Sub-No 47), filed July 16, 1973. Applicant: ANCHOR MOTOR FREIGHT, INC., 21111 Chagrin Boulevard, Cleveland, Ohio 44122. Applicant's representative: J. A. Kundtz, 1100 National City Bank Building, Cleveland, Ohio 44114. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *New automobiles, new trucks, new chassis, automobile parts, and automobile show equipment* in initial movements, in truckaway and driveaway service from points of manufacture and assembly at Norwood, Ohio, to points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont, under continuing contract or contracts with General Motors Corporation.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 2202 (Sub-No. 452), filed June 22, 1973. Applicant: ROADWAY EXPRESS, INC., 1077 Gorge Blvd., P.O. Box 471, Akron, Ohio 44309. Applicant's representative: William Slabaugh (Same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving points in Rhea and Hamilton Counties, Tenn., as off-route points in connection with applicant's regular route operations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either Chattanooga, Tenn., Knoxville, Tenn., or Washington, D.C.

No. MC 2230 (Sub-No. 17) (AMENDMENT), filed April 26, 1973, and published in the FEDERAL REGISTER issue of June 28, 1973, and republished and amended, this issue. Applicant: MACK'S TRANSPORT SERVICE, INC., 1215 No. 17th, Lincoln, Nebr. 68501. Applicant's representative: Earl Stewart (Same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Motor vehicles* (except trailers), in secondary movements, in truckaway service, between Omaha, Nebr., and points in South Dakota (except Lawrence, Custer, Mead, Pennington, Butte, and Falls River Counties, S. Dak.) RESTRICTION: Service is restricted against traffic having had an immediately prior movement from the plant site of the Ford Motor Company.

NOTE.—Applicant indicates that tacking is not intended, and requests that the grant of authority be restricted against tacking. The purpose of this republication is: (1) to further restrict the requested operations against all traffic having a prior movement, in lieu of the restriction of prior movement "by rail" only; and (2) to indicate tacking information. If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich., or Lincoln, Nebr.

No. MC 10345 (Sub-No. 93), filed July 3, 1973. Applicant: C & J COMMERCIAL DRIVEAWAY, INC., 1905 West Mt. Hope Avenue, P.O. Box 689, Lansing, Mich. 48903. Applicant's representative: Walter N. Bieneman, Suite 1700, One Woodward Avenue, Detroit, Mich. 48226. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Automobiles, trucks, and buses*, as described in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, in initial movements in truckaway service, from Janesville, Wis., to points in the lower peninsula of Michigan.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Detroit, Mich.

No. MC 11220 (Sub-No. 132), filed June 27, 1973. Applicant: GORDONS TRANSPORT, INC., 185 W. McLemore Avenue, P.O. Box 59, Memphis, Tenn. 38101. Applicant's representative: W. F. Goodwin (Same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment) Between Cincinnati, Ohio, and Toledo, Ohio, serving the intermediate point of Dayton: From Cincinnati over Interstate Highway 75 to Toledo and, return over the same route. RESTRICTION: Service at Toledo, Ohio, is restricted to traffic moving to or from Louisville, Ky., or points beyond Louisville, and at Dayton, Ohio, service is restricted to traffic moving to or from Cincinnati, Ohio, or points beyond Cincinnati.

NOTE.—Common control may be involved. The purpose of this application is to eliminate the necessity of serving the gateway of Hamersville, Ohio, and to provide through service between Cincinnati and Toledo, Ohio. If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn, Washington, D.C., or Columbus, Ohio.

No. MC 11722 (Sub-No. 36), filed July 13, 1973. Applicant: BRADER HAULING SERVICE, INC., P.O. Box 655, Zillah, Wash. 98953. Applicant's representative: Douglas A. Wilson, 303 East D Street, Yakima, Wash. 98901. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper containers*, not corrugated, from Renton, Wash., to Patterson, Modesto, Turlock, Santa Clara, and Watsonville, Calif.

NOTE.—Applicant also holds contract carrier authority in MC 124658 and subs thereunder, therefore dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash., or Portland, Oreg.

No. MC 19105 (Sub-No. 42), filed July 2, 1973. Applicant: FORBES TRANSFER COMPANY, INC., P.O. Box 3544, S. Goldsboro St. Ext., Wilson, N.C. 27893. Applicant's representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products, and articles* distributed by meat packinghouses as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 706, in vehicles equipped with mechanical refrigeration, (1) between points in North Carolina on and east of North Carolina Highway 18, on the one hand, and, on the other, Wilson, N.C., and Kinston, N.C., restricted to shipments having a continuing or subsequent movement via this carrier, and (2) from points in North Carolina on and east of North Carolina Highway 18, to points in Virginia.

NOTE.—Applicant states that the requested authority can be tacked in (1) above with its present authority in MC 19105 (Sub-Nos. 19, 23, and 24) at Wilston and Kinston, N.C., to serve points in Maryland, Delaware, Pennsylvania, New Jersey, New York, Connecticut, West Virginia, Massachusetts, Virginia, and the District of Columbia. If a hearing is deemed necessary, applicant requests it be held at Raleigh, N.C.

No. MC 29120 (Sub-No. 164), filed July 6, 1973. Applicant: ALL-AMERICAN, INC., 900 West Delaware, P.O. Box 769, Sioux Falls, S. Dak. 57101. Applicant's representative: Michael J. Ogborn (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles* as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 (except commodities which by reason of size or weight require the use of special equipment or special handling), between Broomfield, Colo., and Aberdeen, S. Dak.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Sioux Falls or Aberdeen, S. Dak.

No. MC 32166 (Sub-No. 8), filed August 6, 1973. Applicant: BRONAUGH MOTOR EXPRESS, INC., 1025 Nandino Blvd., Lexington, Ky. 40511. Applicant's representative: Robert M. Pearce, P.O. Box E, Bowling Green, Ky. 42101. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: (1) *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Corbin, Ky., and Knoxville, Tenn., serving no intermediate points: (a) From Corbin over U.S. Highway 25–E to Tazewell, Tenn., thence over Tennesee Highway 33 to Knoxville, Tenn,. and return over the same route; and (b) From Corbin over U.S. Highway 25–W to Knoxville, and return over the

V 38-163 AUG 23 73 XUM

same route, with service at Knoxville, Tenn., and points in its respective commercial zone restricted against the transportation of traffic originating at, destined to, or interchanged at Lexington and Louisville, Ky., and Cincinnati, Ohio, and points in their respective commerical zones; and (2) *used pallets*, from Berea, Ky., to Lynchburg, Va., Sunbury, Pa., and Plattsburgh, N.Y.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Lexington or Louisville, Ky.

No. MC 35807 (Sub-No. 40), filed July 16, 1973. Applicant: WELLS FARGO ARMORED SERVICE CORPORATION, P.O. Box 4313, Atlanta, Ga. 30302. Applicant's representative: Melvin E. Ballet, P.O. Box 4313, Atlanta, Ga. 30302. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Coin, currency, negotiable and non-negotiable items, checks, deposit tickets, reports, and computer data*, between Denver, Colo., and Laramie and Cheyenne, Wyo., under a continuing contract or contracts with banks or banking institutions.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 52460 (Sub-No. 124), filed June 21, 1973. Applicant: HUGH BREEDING, INC., 1420 West 35th Street, P.O. Box 9637, Tulsa, Okla. 74107. Applicant's representative: Steve B. McCommas (same address as applicant).

NOTE.—The Notice in the above-referenced application was previously published in the FEDERAL REGISTER issue of August 9, 1973, under Docket No. MC-52460 (Sub-No. 122). This notice serves to advise all interested parties that this application has been reassigned No. MC-52460 (Sub-No. 124).

No. MC 59856 (Sub-No. 54), filed May 17, 1973. Applicant: SALT CREEK FREIGHTWAYS, a Corporation, 3333 West Yellowstone, Casper, Wyo. 82601. Applicant's representative: John R. Davidson, Rm. 805, Midland Bank Building, Billings, Mont. 59101. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except commodities in bulk, household goods as defined by the Commission, commodities which because of size or weight require special equipment, and articles of unusual value) between Newcastle, Wyo., and Rapid City, S. Dak.: From Newcastle over U.S. Highway 16 to Rapid City, and return over the same route, serving all intermediate points.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Rapid City, S. Dak.

No. MC 78040 (Sub-No. 9), filed July 9, 1973. Applicant: BOYD TRANSFER COMPANY, a Corporation, 4600 E. Fayette Street, Baltimore, Md. 21224. Applicant's representative: William J. Augello, 120 Main Street, P.O. Box Z, Huntington, N.Y. 11743. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Copying and duplicating equipment, and materials and supplies*, necessary for operation and maintenance of such equipment, crated and uncrated, from Pennsauken and Moorestown, N.J., to points in Maryland, Virginia, and the District of Columbia.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 78092 (Sub-No. 4), filed June 18, 1973. Applicant: TAYLOR FREIGHT SYSTEM, INC., H & Lycoming Streets, Philadelphia, Pa. 19124. Applicant's representative: Ronald N. Cobert, Suite 501, 1730 M Street NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tires and tubes*, and *materials, equipment, and supplies* used in the manufacture and distribution of tires and tubes (except in bulk), between points in Chester and Montgomery Counties, Pa., on the one hand, and, on the other, Philadelphia, Pa., restricted to traffic having a prior or subsequent movement by rail, and moving from or to the plants or facilities of Lee Tire & Rubber Co. and its affiliated companies.

NOTE.—Applicant states that the requested authority can be tacked with applicant's existing authority at Philadelphia, Pa., and points in Montgomery County, Pa., to serve Camden and Trenton, N.J., Wilmington, Del., and points in Delaware, Montgomery, and Bucks Counties, Pa., on and east of U.S. Highway 202. Applicant indicates it does not intend to tack. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa.

No. MC 83539 (Sub-No. 374) (AMENDMENT), filed July 1, 1973, published in the FEDERAL REGISTER issue August 16, 1973, and republished as amended, this issue. Applicant: C & H TRANSPORTATION CO., INC., 1936-2010 West Commerce Street, P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: Thomas E. James (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled commodities*, weighing less than 15,000 pounds, from Nunda, N.Y., to points in the United States including Alaska (and excluding Hawaii), restricted to traffic originating at Nunda, N.Y.

NOTE.—The purpose of this republication is to add a restriction to the point or origin. This application is further restricted against tacking with any existing authority held. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. MC 88300 (Sub-No. 33), filed July 16, 1973. Applicant: DIXIE TRANSPORT COMPANY, a Corporation, P.O. Box 395, Chicago Heights, Ill. 60411. Applicant's representative: Charles W. Singer, 2440 E. Commercial Blvd., Ft. Lauderdale, Fla. 33308. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Automobiles*, in initial movement, in truck-a-way service, from West Palm Beach, Fla., to points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Miami, Fla., or Chicago, Ill.

No. MC 104430 (Sub-No. 38), filed July 9, 1973. Applicant: CAPITAL TRANSPORT COMPANY, INC., P.O. Box 408, Highway 24 West, McComb, Miss. 39648. Applicant's representative: Donald B. Morrison, 717 Deposit Guaranty Bank Building, P.O. Box 22628, Jackson, Miss. 39205. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid animal feed and liquid animal feed ingredients*, in bulk, in tank vehicles, from McComb, Miss., to points in Alabama, Arkansas, Florida, Georgia, Mississippi, Louisiana, Tennessee, and Texas.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Jackson, Miss.

No. MC 105045 (sub-No. 42) (CORRECTION), filed May 4, 1973, published in the FEDERAL REGISTER issue July 26, 1973, and republished as corrected, this issue. Applicant: R. L. JEFFRIES TRUCKING CO., INC., 1020 Pennsylvania Street, Evansville, Ind. 47701. Applicant's representative: Ernest A. Brooks II, 1301 Ambassador Building, St. Louis, Mo. 63101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Material handling equipment, winches, compaction and road making equipment, rollers, mobile cranes, and highway freight trailers;* and (2) *parts, attachments, and accessories* of the commodities named in (1) above, between the plantsites of Hyster Company at or near Crawfordsville, Ind., on the one hand, and, on the other, points in the District of Columbia, Alabama, Arkansas, Florida, Georgia, Iowa, Kansas, Kentucky, Louisiana, Maryland, Michigan, Mississippi, Missouri, Nebraska, Ohio, Oklahoma, Pennsylvania, Tennessee, Texas, Virginia, West Virginia, and Wisconsin, restricted to shipments originating at or destined to the above named plantsites.

NOTE.—The purpose of this republication is to add the destination States of Louisiana, Maryland, Michigan, Mississippi, Missouri, and Nebraska which were inadvertently omitted in the original notice. Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 105813 (Sub-No. 188), filed July 12, 1973. Applicant: BELFORD TRUCKING CO., INC., 3500 N.W. 79th Avenue, Miami, Fla. 33148. Applicant's representative: Arnold L. Burke, 127 North Dearborn Street, Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from Pana, Ill., to points in Georgia and Florida.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 105813 (Sub-No. 189), filed July 13, 1973. Applicant: BELFORD TRUCKING CO., INC., 3500 NW. 79th Avenue, Miami, Fla. 33148. Applicant's representative: Arnold L. Burke, 127 North Dearborn Street, Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from South Edmeston and Walton, N.Y., Hagerstown, Md., and Elizabeth, N.J., to points in North Carolina, South Carolina, Georgia, Florida, Tennessee, and Alabama.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 106674 (Sub-No. 111), filed July 11, 1973. Applicant: SCHILLI MOTOR LINES, INC., P.O. Box 122, Delphi, Ind. 46923. Applicant's representative: Carl L. Steiner, 39 So. LaSalle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Anhydrous ammonia*, in bulk, from Tuscola, Ill., to points in Indiana; and (2) *dry fertilizer* in bags, and *pesticides* in containers, from the facilities and warehouses of W. R. Grace & Co., at Henry, Ill., to points in Indiana.

NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 107012 (Sub-No. 170) (Amendment), filed December 8, 1972, published in the FEDERAL REGISTER issue of February 15, 1973, and republished, as amended this issue. Applicant: NORTH AMERICAN VAN LINES, INC., P.O. Box 988, Lincoln Highway East & Meyer Rd., Fort Wayne, Ind. 46801. Applicant's representative: Donald C. Lewis (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture* from points in North Carolina, Georgia, Mississippi, South Carolina, Virginia, and Morristown, Tenn., to points in Alabama, Louisiana, Florida, Virginia, North Carolina, South Carolina, Mississippi, Tennessee, and Georgia.

NOTE: The purpose of this republication is to indicate applicant's request to serve additional destination points in Georgia. Common control may be involved. Applicant states that the requested authority can be tacked with portions of its existing authority as follows: In No. MC 107012 it would be able to transport (a) *New Furniture*, uncrated, from Oklahoma City, Okla., to points in Alabama, Virginia, Georgia, North Carolina, and South Carolina via North Carolina and Mississippi; (b) *New Furniture*, from points in Mississippi, to points in Maine and New Hampshire via points within 150 miles of High Point, North Carolina, and West Virginia; (c) *New furniture*, from Galax, Roanoke, Damascus, Stanleytown, Bassett, Martinsville, and Pulaski, Va., and points in North Carolina and South Carolina, to points in Illinois, Indiana, Michigan, and Ohio via Tennessee; in MC-107012 (Sub-No. 61), *New furniture*, from points in Virginia, North Carolina, South Carolina, Georgia, and Mississippi, to points in the United States via Tennessee; and in MC 107012 (Sub-No. 90), *New furniture*, from Monroe, La., to points in Florida, South Carolina, North Carolina, and Virginia via Mississippi. The hearing originally scheduled for September 17, 1973, has been postponed indefinitely.

No. MC 107515 (Sub-No. 857), filed June 15, 1973. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 30050. Applicant's representative: Paul M. Daniell, P.O. Box 872, Atlanta, Ga. 30301. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs, meat, meat products, meat byproducts, and articles distributed by meatpacking houses*, (1) from points in North Carolina, to points in the United States (except Alaska and Hawaii); and (2) from points in Virginia, to points in the United States (except Virginia, Kentucky, North Carolina, Tennessee, South Carolina, Georgia, Florida, Alabama, Mississippi, Arkansas, Louisiana, Oklahoma, Texas, Alaska, and Hawaii), restricted to traffic originating at the named origins.

NOTE.—Common control was approved in MC-F-11600. Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Charlotte, N.C.

No. MC 109478 (Sub-No. 127), filed June 26, 1973. Applicant: WORSTER MOTOR LINES, INC., Gay Road, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 West Tenth Street, Erie, Pa. 16501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fruit and vegetable juices*, from Sodus and Lawton, Mich., to points in New York, New Jersey, and Pennsylvania.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or New York, N.Y.

No. MC 109478 (Sub-No. 128), filed June 26, 1973. Applicant: WORSTER MOTOR LINES, INC., Gay Road, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 West Tenth Street, Erie, Pa. 16501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from the plantsite and storage facilities of Banquet Foods Corporation at or near Wellston, Ohio, to points in Illinois, Indiana, Iowa, Minnesota, Missouri, and Wisconsin.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or New York, N.Y.

No. MC 109533 (Sub-No. 53) (AMENDMENT), filed June 12, 1973, published in the FEDERAL REGISTER issue of August 9, 1973, and republished as amended, this issue. Applicant: OVERNITE TRANSPORTATION COMPANY, a Corporation, 1100 Commerce Road, Richmond, Va. 23224. Applicant's representative: Eugene T. Liipfert, Suite 1100, 1660 L Street NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Charleston, W. Va., and Lexington, Ky.: (a) From Charleston over U.S. Highway 60 to Lexington, Ky.; and (b) From Charleston over U.S. Highway 60 to Huntington, W. Va., thence over Interstate Highway 64 to Lexington, Ky.; and return over the same routes in (a) and (b) above, serving all intermediate points and the off-route points of Campton, Clay City, and Stanton, Ky.

NOTE.—The purpose of this republication is to eliminate the request for authority to operate over Interstate Highway 64 between Charleston and Huntington, W. Va., as stated in previous notice. If a hearing is deemed necessary, applicant requests it be held at either Lexington, Ky., Charleston, W. Va., or Washington, D.C.

No. MC-109584 (Sub-No. 151), filed July 19, 1973. Applicant: ARIZONA-PACIFIC TANK LINES, a Corporation, 5773 South Prince Street, P.O. Box 192, Littleton, Colo. 80120. Applicant's representative: Kenneth E. Stolz (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chocolate*, in bulk, in tank vehicles, from Salinas, Calif., to Salt Lake City, Utah.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo. or San Francisco, Calif.

No. MC-111476 (Sub-No. 3), filed June 28, 1973. Applicant: JOHN S. WISNESKI, 39 Avenue C, Bayonne, N.J. 07002. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, between points in New York, New Jersey, Connecticut, Massachusetts, Pennsylvania, Delaware, Maryland, District of Columbia, Virginia, West Virginia, Maine, Vermont, New Hampshire, and Rhode Island.

NOTE.—Applicant states that the requested authority can be tacked with its existing authority at New York, N.Y., to serve additional points in Connecticut, and the destination states named above. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

V 38-163 AUG 23 73 XUM

No. MC–112223 (Sub-No. 91), filed June 27, 1973. Applicant: QUICKIE TRANSPORT COMPANY, a Corporation, 501 11th Avenue South, Minneapolis, Minn. 55415. Applicant's representative: Earl Hacking, 503 11th Avenue South, Minneapolis, Minn. 55415. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coke*, in bulk, from points in Dakota, Ramsey, and Hennepin Counties, Minn., to points in Illinois and Michigan.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Minneapolis or St. Paul, Minn.

No. MC–112822 (Sub-No. 282), filed July 12, 1973. Applicant: BRAY LINES INCORPORATED, P.O. Box 1191, 1401 N. Little St., Cushing, Okla. 74023. Applicant's representative: Jim R. Gardner (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from points in Wisconsin to points in Arizona, California, Idaho, Montana, Nevada, Oregon, Utah, and Washington.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Milwaukee, Wis., or Chicago, Ill.

No. MC 113908 (Sub-No. 271), filed May 20, 1973. Applicant: ERICKSON TRANSPORT CORPORATION, 2105 East Dale Street, Springfield, Mo. 65804. Applicant's representative: B. B. Whitehead (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Flour and blends of flour*, in bulk, in tank and hopper vehicles, from Millstadt, Ill., to Portsmouth, N.H.; (2) *alkaline etching compounds, cleaning compounds and chemicals*, in bulk, in tank and hopper vehicles, from Dallas, Tex., to Colorado Springs and Loveland, Colo.; Joplin and Springfield, Mo., and Salt Lake City, Utah (except (a) liquid silicate of soda, from Dallas, Tex., to Colorado Springs and Loveland, Colo. and (b) etchants, from Garland, Tex., to Joplin and Springfield, Mo.); (3) *spent commodities* in (2) above, from the destinations in (2) above, to Dallas and Houston, Tex. (except (c) spent dry chemicals, to Houston, Tex. and points within 50 miles thereof and (d) spent etchants, from Joplin and Springfield, Mo., to Garland, Tex.); (4) *liquid soap, cleaning commodities, and ingredients*, in bulk, in tank and hopper vehicles, from Denver, Colo., to points in Ohio on a line beginning at Kenton, Ohio, and extending easterly on U.S. Highway 30–S to its intersection with Ohio Highway 95, thence easterly along Ohio Highway 95 to its intersection with Ohio Highway 13, thence southeasterly along Ohio Highway 13 to its intersection with U.S. Highway 36, thence southerly along U.S. Highway 36 to its intersection with Ohio Highway 206, thence southerly along Ohio Highway 206 to its intersection with Ohio Highway 60, thence southerly along Ohio Highway 60 to its intersection with Ohio Highway 93, thence southerly along Ohio Highway 93 to its intersection with U.S. Highway 50, thence westerly along U.S. Highway 50 to Ohio Highway 72, thence northerly along Ohio Highway 72 to its intersection with U.S. Highway 68, thence northerly along U.S. Highway 68 to the point of beginning, including those points in the commercial zones of Marion, Mount Vernon, Zanesville, Chillicothe, Springfield, Urbana, and Bellefontaine, Ohio (except chemical and petroleum product ingredients, and soap and cleaning commodities classified as chemical or petroleum products); and (5) *distilled spirits*, in bulk, in tank and hopper vehicles, from Bardstown, Ky., to Lakeland, Fla.

NOTE.—Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Springfield or St. Louis, Mo.

No. MC–114004 (Sub-No. 134), filed July 10, 1973. Applicant: CHANDLER TRAILER CONVOY, INC., 8828 New Benton Highway, Little Rock, Ark, 72209. Applicant's representative: Harold G. Hernly, Jr., 118 N. St. Asaph Street, Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Water craft*, exceeding 23 feet in length, from points in Arkansas, to points in the United States, including Alaska (but excluding Hawaii).

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Little Rock, Ark.

No. MC 114290 (Sub-No. 69), filed June 7, 1973. Applicant: EXLEY EXPRESS, INC., 2610 SE. 8th Avenue, Portland, Oreg. 97202. Applicant's representative: James T. Johnson, 1610 IBM Building, Seattle, Wash. 98101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods*, (1) from points in Oregon and Washington, to points in Arizona and Nevada; and (2) from points in Yakima County, Wash., to points in Arizona, California, Nevada, and Oregon.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at either (1) Portland, Oreg.; (2) Seattle, Wash.; or (3) Spokane, Wash.

No. MC 115036 (Sub-No. 23), filed July 9, 1973. Applicant: VAN TASSEL, INCORPORATED, 5th and Grand, Pittsburg, Kans. 66762. Applicant's representative: Dean Williamson, 280 National Foundation Life Bldg., 3535 NW. 58th, Oklahoma City, Okla. 73112. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Materials* used in the manufacture of urethane and (2) *equipment* used in the mixture and distribution of the commodities described in (1) above, between Pittsburg, Kans., on the one hand, and, on the other points in the United States (except Alaska and Hawaii), under a continuing contract or contracts with W. S. Dickey Clay Manufacturing Company, Pittsburg, Kans.

NOTE.—Applicant also holds common carrier authority in MC 119630 and subs thereunder, therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Okla., or Kansas City, Mo.

No. MC 115273 (Sub-No. 13), filed July 17, 1973. Applicant: ACME CARRIERS, INC., 216 Third Street, Brooklyn, N.Y. 11215. Applicant's representative: George A. Olsen, 69 Tonnele Ave., Jersey City, N.J. 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bomb bodies*, from Garden City, N.Y., to the Naval Ammunition Depot at McAlester, Okla.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 115841 (Sub-No. 455), filed July 5, 1973. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., 1215 Bankhead Highway West, Birmingham, Ala. 35202. Applicant's representative: Roger M. Shaner, P.O. Box 10327, Birmingham, Ala. 35202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Candy and confectionery and related products* (except in bulk), and (2) *advertising matter, premium and display materials* when shipped in the same vehicle with commodities described in (1) above, in vehicles equipped with mechanical refrigeration, from the plant site and warehouse facilities of M&M/Mars, Division of Mars, Incorporated, located at Doraville, Decatur, Atlanta, and Albany, Ga., to points in Alabama, Arkansas, Arizona, California, Connecticut, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Mississippi, Missouri, Nebraska, Nevada, New Jersey, New Mexico, New York, Ohio, Oklahoma, Oregon, Tennessee, Texas, Utah, Washington, and Wisconsin, restricted to the transportation of traffic originating at the plant site and warehouse facilities of M&M/Mars, Division of Mars, Incorporated.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa., or Washington, D.C.

No. MC 116073 (Sub-No. 281), filed July 9, 1973. Applicant: BARRETT MOBILE HOME TRANSPORT, INC., 1825 Main Ave., P.O. Box 919, Moorhead, Minn. 56560. Applicant's representative: Robert G. Tessar, 1819 4th Avenue South, Moorhead, Minn. 56560. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Trailers*, designed to be drawn by passenger automobiles, in initial movements, and (2) *buildings*, complete and in sections, transported on wheeled undercarriages, from points in Crawford, Huron, Williams, and Wood Counties, Ohio, to points in Illinois, Indiana, Kentucky, Michigan, Pennsylvania, New York, and West Virginia.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 116073 (Sub-No. 282), filed July 5, 1973. Applicant: BARRETT MOBILE HOME TRANSPORT, INC., 1825 Main Ave., P.O. Box 919, Moorhead, Minn. 56560. Applicant's representative: Robert G. Tessar, 1819 4th Avenue South, Moorhead, Minn. 56560. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Trailers*, designed to be drawn by passenger automobiles, in initial movements and (2) *buildings*, complete or in sections, transported on wheeled undercarriages, from points in Burt County, Nebr., to points in Iowa, Kansas, Minnesota, Missouri, Montana, North Dakota, South Dakota, and Wyoming.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Lincoln, Nebr.

No. MC 116073 (Sub-No. 283), filed July 27, 1973. Applicant: BARRETT MOBILE HOME TRANSPORT, INC., 1825 Main Avenue, P.O. Box 919, Moorhead, Minn. 56560. Applicant's representative: Robert G. Tessar, 1819 4th Avenue South, Moorhead, Minn. 56560. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Trailers*, designed to be drawn by passenger automobiles, in initial movements, and (2) *buildings*, complete or in sections, transported on wheeled undercarriages, from points in Dakota County, Minn., to points in the United States (except Alaska and Hawaii).

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 116073 (Sub-No. 285), filed July 27, 1973. Applicant: BARRETT MOBILE HOME TRANSPORT, INC., 1825 Main Ave., P.O. Box 919, Moorhead, Minn. 56560. Applicant's representative: Robert G. Tessar, 1819 4th Avenue South, Moorhead, Minn. 56560. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger automobiles, in initial movements, and *buildings*, complete or in sections, transported on wheeled undercarriages, from points in Vance County, N.C., to points in the United States (except Alaska and Hawaii).

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Raleigh, N.C.

No. MC 117088 (Sub-No. 3), filed June 11, 1973. Applicant: ASPHALT TRANSPORT, INC., 3600 France Road, P.O. Box 26204, New Orleans, La. 70126. Applicant's representative: Henry F. O'Connor, Jr., 1440 Oil & Gas Building, New Orleans, La. 70112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Blasting sand and mineral fillers*, in bulk and in bag, from Sun, La., to points in Mississippi on and south of U.S. Highway 82 and points in Mobile, Baldwin, and Escambia Counties, Ala.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New Orleans, La.

No. MC 118159 (Sub-No. 134), filed June 14, 1973. Applicant: NATIONAL REFRIGERATED TRANSPORT, INC., 1925 National Plaza, Tulsa, Okla. 74151. Applicant's representative: Jack R. Anderson (Same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products, and articles distributed by meat packing houses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates* 61 M.C.C. 209 and 766, from Emporia, Kans., to points in Alabama, Florida, Georgia, North Carolina, South Carolina, and Tennessee, restricted to traffic originating at the plantsite and storage facilities utilized by Iowa Beef Processors, Inc., and destined to the named destination states.

NOTE.—Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., or Tulsa, Okla.

No. MC 119441 (Sub-No. 37), filed July 12, 1973. Applicant: BAKER HIWAY EXPRESS, INC., Box 484, Dover, Ohio 44622. Applicant's representative: Richard H. Brandon, 79 East State Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Rubbish and trash compactors and containers* for compacted rubbish and trash, from Sugar Creek, Ohio, to points in the United States (except Alaska and Hawaii).

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 119489 (Sub-No. 31), filed July 6, 1973. Applicant: PAUL ABLER, doing business as CENTRAL TRANSPORT COMPANY, P.O. Box 249, Norfolk, Nebr. 68701. Applicant's representative: Gailyn L. Larsen, 521 South 14th St., P.O. Box 81849, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fertilizer*, in bulk, in tank vehicles, from Kansas City, Mo., and the Williams Brothers Pipe Line Company, at or near Doniphan, Nebr., to points in Kansas, restricted to traffic originating at the named origins points.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at either Lincoln or Omaha, Nebr., or Chicago, Ill.

No. MC 119789 (Sub-No. 169), filed July 2, 1973. Applicant: CARAVAN REFRIGERATED CARGO, INC., P.O. Box 6188, 1612 E. Irving Blvd., Dallas, Tex. 75222. Applicant's representative: James K. Newbold, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Furniture* (other than uncrated), *furniture parts, and materials and supplies*, used in the production and distribution of furniture, between Little Rock, Ark., on the one hand, and, on the other, points in the United States (except Alaska, Arkansas, and Hawaii).

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Little Rock, Ark., or Dallas, Tex.

No. MC 119789 (Sub-No. 170), filed July 5, 1973. Applicant: CARAVAN REFRIGERATED CARGO, INC. P.O. Box 6188, 1612 E. Irving Blvd., Dallas, Tex. 75222. Applicant's representative: James Q. Newbold, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in drums, in mechanically refrigerated equipment, from LaPorte, Tex., to points in New Jersey.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Houston or Dallas, Tex.

No. MC 119789 (Sub-No. 173), filed July 25, 1973. Applicant: CARAVAN REFRIGERATED CARGO, INC., P.O. Box 6188, 1612 E. Irving Blvd., Dallas, Tex. 75222. Applicant's representative: Ralph W. Pulley, Jr., 4555 First National Bank Bldg., Dallas, Tex. 75202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: *Electrical appliances, equipment and parts, tools, paints, stains and varnish, solvents and compounds, wire, magnets and parts thereof*, (except commodities requiring special equipment), between Columbus, Ohio, on the one hand, and, on the other, points in Washington, California, Oregon, Idaho, Nevada, Utah, Arizona, Montana, Wyoming, Colorado, New Mexico, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Iowa, Missouri, Arkansas, Louisiana, Georgia, and Florida.

V 38-163 AUG 23 73 XUM

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, or Washington, D.C.

No. MC 119917 (Sub-No. 35), filed July 13, 1973. Applicant: DUDLEY TRUCKING COMPANY, INC., 717 Memorial Drive SE., Atlanta, Ga. 30316. Applicant's representative: Theodore Polydoroff, 1250 Connecticut Ave. NW., Suite 600, Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from the plantsite and shipping facilites of Nabisco, Inc., located in Henrico County, Va., to points in Florida, Georgia, Alabama, Mississippi, Louisiana, Tennessee, North Carolina, South Carolina, Virginia, and the District of Columbia, restricted to traffic originating at the plantsite and shipping Facilities of Nabisco, Inc., located in Henrico County, Va., and destined to points in the above-described destination territory.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 121060 (Sub-No. 25), filed June 28, 1973. Applicant: ARROW TRUCK LINES, INC., P.O. Box 5568, Birmingham, Ala. 32507. Applicant's representative: William P. Jackson, Jr., 919 18th Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ceiling systems, parts and accessories; paint; plastic light diffusers; adhesive; furring; fasteners; lighting systems, parts and supplies; moldings; channels, steel, applicators and roofing caps; and materials and supplies* useful in the installation of any commodity named above, from the facilities of Litecraft-Luminous Ceilings, Division of The Celotex Corporation at or near Scottsboro, Ala. to points in the United States in and east of Minnesota, Iowa, Missouri, Kansas, Oklahoma, and Texas.

NOTE.—Applicant states that the requested authority can be tacked with its existing authority in Sub-No. 6 at Scottsboro, Ala., but no new service will be rendered by tacking the authority requested herein, and therefore applicant has no present intention to tack. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., Tampa, Fla., or Birmingham, Ala.

No. MC 123048 (Sub-No. 273), filed July 25, 1973. Applicant: DIAMOND TRANSPORTATION SYSTEM, INC., 1919 Hamilton Avenue, Racine, Wis. 53401. Applicant's representative: Paul C. Gartzke, 121 W. Doty Street, Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic pipe and plastic fittings*, from Grinnell, Iowa, to points in Illinois, Indiana, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 123407 (Sub-No. 131), filed July 2, 1973. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Highway #6, Valparaiso, Ind. 46383. Applicant's representative: Richard L. Loftus (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pipe, couplings, connections, valves and materials and supplies* for the installation thereof, from the plantsites of the Clow Corporation, at or near Bensenville, Ill., to points in Minnesota, Wisconsin, North Dakota, South Dakota, Iowa, Missouri, Nebraska, and the Upper Peninsula of Michigan.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 123685 (Sub-No. 18), filed June 4, 1973. Applicant: PEOPLES CARTAGE, INC., 8045 Navarre Road SW., Massillon, Ohio 44646. Applicant's representative: James W. Muldoon, Suite 1022, 50 West Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt and salt products, and products used in agriculture, water treatment, food processing, wholesale grocery, and institutional supply industries*, when shipped in mixed shipments with salt and salt products, (1) from St. Clair, Mich., to points in Virginia, Maryland, New York, Pennsylvania, and the District of Columbia, and (2) from Akron, Ohio to points in Virginia, Maryland, Michigan, Pennsylvania, New York, and the District of Columbia.

NOTE.—Applicant states that the requested authority can be tacked with its existing authority under part (2) above, to provide a through service from points in Stark, Wayne, Franklin, Cuyahoga, and Richland Counties, Ohio, to destination points named in (2) above, via Akron, Ohio gateway. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 124174 (Sub-No. 97), filed June 13, 1973. Applicant: MOMSEN TRUCKING CO., a Corporation, 2405 Hiway Boulevard, Spencer, Iowa 51301. Applicant's representative: Marshall D. Becker, 530 Univac Bldg., 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from the plant site of Bethlehem Steel Corporation at Lackawanna, N.Y., to Ft. Smith and Little Rock, Ark., Beatrice, Grand Island and Omaha, Nebr., and points in Illinois, Indiana, Iowa, Minnesota, Missouri, and Wisconsin.

NOTE.—Common control may be involved. Applicant states that the requested authority can be tacked with its existing authority at Auburn, Nebr., and points in Missouri and Iowa which are within 60 miles of Auburn, to serve points in Kansas within 60 miles of Auburn, and tack at Portage, Ind., to serve additional territory in Nebraska, but indicates that it has no *present* intention to tack. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Philadelphia, Pa.

No. MC 124328 (Sub-No. 55), filed June 26, 1973. Applicant: BRINK'S, INCORPORATED, 234 East 24th Street, Chicago, Ill. 60616. Applicant's representative: John G. O'Keefe, O'Hara Plaza, Suite 650, 5725 East River Road, Chicago, Ill. 60631. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Silver bullion, precious metals, coin and rare earths*, between points in the Chicago, Ill., Commercial Zone and Indiana, on the one hand, and, on the other, New York City and West Point, N.Y., Newark, N.J., and points in Essex, Middlesex, and Union Counties, N.J.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 126154 (Sub-No. 11), filed June 6, 1973. Applicant: HERMAN SCHOMER, doing business as SCHOMER TRUCKING, P.O. Box 111, Iron Mountain, Mich. 49801. Applicant's representative: Robert W. Hansley, 120 North Sixth Street, Escanaba, Mich. 49829. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages*, from Minneapolis, and St. Paul, Minn., to points in Alger County, Mich.

NOTE.—Applicant indicates that the requested authority could be tacked at Minneapolis-St. Paul, Minn., and points in Alger County, Minn., but no new service could be performed. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at either Lansing, or Detroit, Mich., or Chicago, Ill., or Milwaukee, Wis.

No. MC 127042 (Sub-No. 117) (AMENDMENT), filed May 3, 1973, published in the FEDERAL REGISTER issue of June 14, 1973, and republished, as amended, this issue. Applicant: HAGEN, INC., 4120 Floyd Blvd., P.O. Box 98, Leeds Station, Sioux City, Iowa 51108. Applicant's representative: Joseph W. Harvey (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cleaning, scouring, washing, buffing and polishing compounds, sodium hypoclorite solution*, and *soap base lubricants* (except commodities in bulk), from Joliet and Chicago, Ill., to points in Washington, Oregon, California, Montana, Idaho, Utah, Nevada, New Mexico, Arizona, Colorado, Iowa, North

Dakota, South Dakota, Nebraska, Missouri, Kansas, Minnesota, and Wyoming.

NOTE.—**The purpose of this republication is to: (1) Indicate applicant's request for a restriction against the transportation of bulk commodities; and (2) indicate the tacking possibilities. Applicant states that the requested authority can be tacked at Eldora, Iowa, with its Sub-64 to serve points in the instant application on cleaning compounds.** If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 128215 (Sub-No. 15), filed July 9, 1973. Applicant: MARTIN TRAILER TOTERS, INC., P.O. Box 39, Bogalusa, La. 70427. Applicant's representative: Fred W. Johnson, Jr., 717 Deposit Guaranty Bank Building, P.O. Box 22628, Jackson, Miss. 39205. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger vehicles, in secondary movements, between points in Mississippi, Texas, Arkansas, Alabama, Louisiana, and Florida.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at either Jackson, Miss., Shreveport, La.; or Birmingham, Ala.

No. MC 128685 (Sub-No. 15), filed July 5, 1973. Applicant: DIXON BROS., INC., P.O. Box 636, Newcastle, Wyo. 82701. Applicant's representative: Robert S. Stauffer, 3539 Boston Road, Cheyenne, Wyo. 82001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Feldspar ore, rock and stone*, from points in Natrona and Converse Counties, Wyo. to points in Custer and Pennington Counties, S. Dak.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing auhority. If a hearing is deemed necessary, applicant requests it be held at Rapid City, S. Dak., or Cheyenne, Wyo.

No. MC 128988 (Sub-No. 25), filed July 9, 1973. Applicant: JO/KEL, INC., P.O. Box 1249, 159 South Seventh Avenue, City of Industry, Calif. 91749. Applicant's representative: Patrick E. Quinn, 605 South 14th Street, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission and commodities in bulk), from the warehouse and distribution center of Westinghouse Electric Corporation at or near Irwin, Pa., to points in Arizona, California, Nevada, Oregon, and Washington, under a continuing contract or contracts with Westinghouse Electric Corporation of Pittsburgh, Pa.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 129282 (Sub-No. 18), filed June 11, 1973. Applicant: BERRY TRANSPORTATION, INC., P.O. Box 1824, Longview, Tex. 75601. Applicant's representative: Hugh T. Matthews, 630 Fidelity Union Tower, Dallas, Tex. 75201. Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Malt beverages and materials and supplies* necessary in the manufacture, sales and distribution thereof, between Galveston and Houston, Tex. and points in Louisiana.

NOTE.—Applicant states that the requested authority can be tacked with its existing authority (1) at New Orleans, La., to serve Blytheville and Paragould, Ark., and (2) at points in Louisiana to provide a through service from Memphis, Tenn., to Galveston and Houston, Tex., But has no *present* intention to tack. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. MC 129631 (Sub-No. 37), filed April 19, 1973. Applicant: PACK TRANSPORT, INC., 3795 S. 300 West Street, Salt Lake City, Utah 84107. Applicant's representative: Max D. Eliason, P.O. Box 2602, Salt Lake City, Utah 84110. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Sea coal*, from points in Summit County, Utah, to points in Idaho, Montana, Oregon, and Washington; and (2) *stone, cast stone, brick, clay, and masonry products*, between points in Utah, Idaho, Montana, Oregon, and Washington.

NOTE.—Applicant currently holds contract carrier authority in MC 101741, therefore dual operations may be involved. Common control was approved in MC-F-74248. Applicant states that the requested authority can be tacked with its existing authority at points in Idaho and Utah to serve points in Wyoming as specified in the base certificate and Sub-No. 4, but has no present intention to tack. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Salt Lake City, Utah.

No. MC 129784 (Sub-No. 6), filed July 10, 1973. Applicant: DAVISON TRANSPORT, INC., Farmerville Highway, P.O. Box 23, Ruston, La. 71270. Applicant's representative: James E. Davison (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Residual fuel oil*, from Monroe, La.; Greenville and Vicksburg, Miss.; to the plantsites of International Paper Company, located at Pine Bluff and Camden, Ark.; Bastrop and Springhill, La.; Natchez and Vicksburg, Miss.; and Atlanta, Tex.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at either Shreveport or Monroe, La.

No. MC 134922 (Sub-No. 47) (AMENDMENT), filed July 2, 1973, published in the FEDERAL REGISTER issue of August 16, 1973, and republished as amended, this issue. Applicant: B. J. McADAMS, INC., Route 6, Box 15, North Little Rock, Ark. 72118. Applicant's representative: L. C. Cypert (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Candy and confectionery and related products* (except in bulk) and (2) *advertising matter, premium and display materials* when shipped in the same vehicle with commodities described in (1) above, in vehicles equipped with mechanical refrigeration, from the plantsite and warehouse facilities of M&M/Mars, Division of Mars, Incorporated, at or near Atlanta, Decatur, Albany, and Doraville, Ga., to points in Alabama, Arizona, Arkansas, California, Illinois, Indiana, Iowa, Kansas, Louisiana, Mississippi, Missouri, Nebraska, Nevada, New Mexico, Oklahoma, Oregon, Texas, Utah, and Washington, restricted to the transportation of traffic originating at the plantsite and warehouse facilities of M&M/Mars, Division of Mars, Incorporated.

NOTE.—The purpose of this republication is to indicate the specific locations in Georgia of the origin plantsite and warehouse facilities of M&M/Mars, Division of Mars, Incorporated. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Newark, N.J., or Little Rock, Ark.

No. MC 135124 (Sub-No. 4), filed April 26, 1973. Applicant: DRESSING TRANSPORT, INC., Lake Street, Wilson, N.Y. 14172. Applicant's representative: Ronald W. Maline, Bankers Trust of Jamestown Building, Jamestown, N.Y. 14172. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Salad dressing, sauces and loganberry juice concentrates* (except in bulk) from Wilson, N.Y. and Paramount, Calif. to points in the United States (except Alaska and Hawaii); (2) *materials, supplies and equipment* used in the manufacture or distribution of the commodities named in (1) above, from points in the United States (except Alaska and Hawaii) to Wilson, N.Y. and Paramount, Calif., in (1) and (2) above under a continuing contract with Pfeiffer's Foods Inc.; (3) *canned goods*, from Gorham, N.Y., to points in the United States (except Alaska and Hawaii); and (4) *materials, supplies and equipment* used in the manufacture or distribution of canned goods, from points in the United States (except Alaska and Hawaii) to Gorham, N.Y., in (3) and (4) above under a contract with Lohmann Foods, Inc.

NOTE.—Applicant states that MC-135124 Sub 1 may duplicate the requested authority, and will, therefore, submit that portion of the Sub 1 Certificate for revocation if the instant authority is granted. If a hearing is deemed necessary, applicant requests it be held at Buffalo, N.Y.

No. MC 136640 (Sub-No. 4) (AMENDMENT), filed June 19, 1973, published in the FEDERAL REGISTER issue of August 9, 1973, and republished in part as amended, this issue. Applicant: ROBERT L. ALLEN, doing business as R. ALLEN TRANSPORT, P.O. Box 321, Pocomoke

V 38-163 AUG 23 73 XUM

City, Md. 21851. Applicant's representative: S. Michael Richards, 44 North Avenue, Webster, N.Y. 14580. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Frozen onion rings*, made from diced, fresh onions, when moving in mixed shipments with agricultural commodities otherwise exempt from economic regulations under section 203 (b)(6) of the Act, from Boston, Mass., to points in Alabama, Arkansas, Delaware, Florida, Georgia, Indiana, Kentucky, Louisiana, Maryland, Michigan, North Carolina, New York, Ohio, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, and West Virginia, and part (2) of the application will remain the same as previously published.

NOTE.—The purpose of this republication is to reflect the addition of 14 distination states to be served under part (1) of the notice. If a hearing is deemed necessary, applicant requests it be held at Boston, Mass., or Washington, D.C.

No. MC 136987 (Sub-No. 5), filed July 11, 1973. Applicant: REMINGTON FREIGHT LINES, INC., 604 North Main Street, Remington, Ind. 47977. Applicant's representative: Warren C. Moberly, 777 Chamber of Commerce Bldg., Indianapolis, Ind. 46204. APPLICATION FOR FILING BROKERAGER LICENSES

No. MC 130205, filed June 25, 1973. Applicant: MAUPINTOUR, INCORPORATED, doing business as MAUPINTOUR, 900 Massachusetts Street, Lawrence, Kans. 66044. Applicant's representative: John W. Lungstrum, 502 1st National Bank Tower, Lawrence, Kans. 66044. Authority sought to engage in operation, in interstate or foreign commerce as a *broker* at Lawrence and Topeka, Kans.; and Kansas City, Mo., to sell or offer to sell the transportation of *groups of passengers and their baggage* in roundtrip pleasure and sightseeing tours in passenger vehicles, in special and charter operations, from points in Kansas and points in Jackson, Clay, and Platte Counties, Mo., to points in the United States (including Alaska but excluding Hawaii) and points of entry on the international boundary lines.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Lawrence, Topeka, or Kansas City, Kans., or Kansas City, Mo.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary*.

Approval and Promulgation of Compliance Schedules

No. 163—Pt. II——1

V 38 - 163 AUG 23 73 XUM

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Approval and Promulgation of Compliance Schedules

Section 110 of the Clean Air Act, as amended, and the implementing regulations in 40 CFR Part 51, require each State to submit plans which provide for the implementation, maintenance, and enforcement of national ambient air quality standards throughout the State. These implementation plans are required to contain compliance schedules meeting the requirements of § 51.15, including the requirement that any compliance schedule extending over a period of more than 1 year and extending beyond January 31, 1974, contain legally enforceable increments of progress (37 FR 26310, December 9, 1972). A compliance schedule consists of dates by which specified actions are to be taken by an air pollution source toward meeting applicable emission limiting regulations.

Pursuant to § 51.15(a)(2), States were required to submit compliance schedules including increments of progress by no later than February 15, 1973. The Clean Air Act provides for a period of 4 months for review and approval or disapproval by the Administrator of any submission by a State of any portion of an implementation plan. If the Administrator disapproves a portion of an implementation plan, the Administrator is directed to promptly prepare and propose a substitute portion.

On June 20, 1973, the Administrator published approvals and disapprovals of compliance schedules submitted by the States (38 FR 16144). At the same time, he proposed substitute compliance schedules where the State submissions did not fully satisfy the requirements of § 51.15 (38 FR 16171). After a review of all relevant comments on the proposed compliance schedules, those submitted in writing as well as testimony at public hearings, the final regulations, with modifications based on the comments, are promulgated below.

Much of the comment on the proposed regulations related to the schedules applicable to fuel-burning sources of sulfur oxides emissions. There was conflicting testimony as to the availability of control equipment and the possibilities of meeting the regulations in all States by the final compliance dates, generally mid-1975. While these concerns are recognized by this agency, no major changes have been made to the proposed regulations for the following reasons.

In these regulations, the Administrator is authorized only to promulgate incremental steps towards final compliance where State regulations did not contain such steps. Under section 110 of the Act, the Administrator may not on his own initiative change an emission limiting regulation, either as to the limitation prescribed or the final compliance date, if such regulation is adequate for attainment and maintenance of the national ambient air quality standards. Thus, as a legal matter, the Administrator cannot delay final compliance dates as some companies requested merely because compliance by the date specified in the State regulations presents a hardship.

However, it is apparent that there is not enough low sulfur coal and stack gas cleaning equipment available to meet the regulations in all areas of all States in 1975. In recognition of this, the Administrator, on December 18, 1972, in a letter to the governors of the States in the areas where this fuels deficit exists, recommended that the States consider deferral of the effective dates of regulations affecting coal-burning sources of sulfur oxides where such deferral can be made without affecting attainment of the primary standards by the date required by the Act. Analysis shows that if this is done, adequate fuels and control equipment will be available for meeting all regulations necessary for attainment of the national primary ambient air quality standards by mid-1975, or mid-1977 where two-year extensions have been granted.

States are encouraged again to consider the alternatives available to them within the framework of the Clean Air Act. Modification of unnecessarily restrictive emission regulations, relaxation of final compliance dates for sources which need not be controlled to meet the primary standards, and requests for postponements under section 110(f) are all mechanisms to alleviate the short-term fuels problem. Any State needing further information on this subject is urged to contact this agency through the appropriate Regional Office.

Some changes were made in the sulfur oxides compliance schedules, however. The language "any facility" was changed to any "boiler or furnace" for greater clarity. In response to comments, some additional time was allowed for submission of plans for any boiler modifications and for the contracting for such modifications; the final compliance date is not affected, however.

One question of significance with respect to the proposed sulfur oxides schedule was the minimum length of the contract for fuels required. While each company affected obviously has to comply with the emission limitations as long as they remain applicable, it is recognized that a fuels contract will be for some finite period of time. It has been determined that one year is a reasonable period of time to specify as a minimum length of a contract, i.e., the contract must be sufficient to guarantee that the source will have available substantially all the low sulfur fuel necessary to enable compliance with the applicable regulation for at least one year past the final compliance date. The term "substantially" is used in recognition of the fact that while it is reasonable to require a substantial commitment by a company towards insuring at this time that it will have an adequate supply of low sulfur fuel when it is required, some flexibility should be allowed to companies to contract for the minimum reasonable projection of fuel needs and to supplement it later, as necessary, through spot orders.

In a few instances, States have revised or are expected to revise the State regulations which are presently part of the implementation plan. In these instances, noted specifically in the summary below, additional time has been allowed for meeting the first increment to allow the State to make the necessary changes to the applicable implementation plan before sources need to take any action based on the present plan. It should be noted, however, that until the State revises the implementation plan in accordance with 40 CFR 51.6, the regulation in the present plan remains in effect and enforceable as part of the plan, and sources will be required to comply with the promulgated schedule until it is revoked.

Various changes were made to schedules proposed for other classes of sources in certain States. Major changes, indicated by State, are as follows.

In Rhode Island, an opinion issued by the State attorney general now indicates that the compliance schedules submitted for the cities of Providence, Pawtucket, and Newport are legally enforceable. The agency concurs in this opinion. Since the only reason for their prior disapproval by the Administrator was the question of legal enforceability, these schedules are now being approved. No acceptable schedule for the city of Woonsocket has been submitted, however, and so the proposed schedule is being promulgated for Woonsocket at this time.

The schedule for coke ovens in New York has been modified slightly to change the final compliance date from October 31, 1974 to December 31, 1974. Testimony at the hearing indicated that even this date may be unrealistic but that is the date in the State regulation and, as indicated earlier, EPA cannot unilaterally change a final compliance date to extend it past the date approved in the implementation plan.

In West Virginia, the schedule has been modified to clarify that the recommended percentage fuel levels in section 9.02 of Regulation X are inapplicable to sections 3.01 and 3.03 of the regulation. In addition, the date for election between the alternative methods to be used to meet the 1978 requirements has been delayed to July 31, 1975, since the proposed date of September 15, 1973 required an election much earlier than was reasonably necessary. In addition, four sources for which a request for a one-year postponement has been submitted by the Governor pursuant to section 110(f) of the Act have been exempted from the sulfur oxides compliance schedule pending a decision on the approval of the request. At that time, an appropriate compliance schedule will be established.

Preliminary data indicates that air quality in the State of Maryland may already be better than the national secondary sulfur oxides standards. However, additional data is required to establish this with sufficient certainty to allow for a revision of the State regulation. To prevent the requiring of possibly unnecessary commitments by sources in the State before this issue is resolved, the first incremental date in the Maryland schedule has been delayed until January 1, 1974. Suggestions that no schedule be promulgated at this time were rejected as being incompatible with the Administrator's obligation to establish compliance schedules for all regulations presently in the plan for which increments of progress are required and for which the State has not submitted approval compliance schedules.

Since the proposal of the compliance schedule for Kentucky, the United States Court of Appeals for the Sixth Circuit, in the case of Buckeye Power, Inc., et al. v. Environmental Protection Agency (No. 72-1628), vacated the Administrator's approval of the Kentucky implementation plan. Although the Administrator has petitioned for a rehearing in this case, promulgation of the proposed schedule for Kentucky would not be appropriate in light of this decision and further action on the Kentucky plan is being deferred.

The State of Florida has submitted compliance schedules for some, but not all, sources for which they are required. Many of these schedules may be approvable and approval of such schedules will be promulgated shortly. Since schedules have not been submitted for all sources, and EPA has not completed its review of the schedules submitted, the proposed schedules are being promulgated. Under the terms of the Federal compliance schedules, they are inapplicable to any source for which the Administrator has approved a State schedule.

The Tennessee proposal of May 10, 1973 (38 FR 12238) covered fuel-burning particulate sources, incinerators, sulfuric acid plants, and fuel-burning sulfur oxides sources. A revised State regulation (Chapter IX, Section 5 of the Tennessee air pollution control regulations) establishing acceptable increments of progress for the first three of these categories has been submitted and is approved by the Administrator in the regulations set forth below. Therefore, the Administrator is promulgating a schedule only for the State sulfur oxides regulation. In recognition of the fact that the State has repealed the sulfur oxides regulation presently in the applicable implementation plan and adopted a substitute regulation, the date for the first increment has been delayed until January 1, 1974, to allow time for the Administrator to complete his review of the revised regulation to determine its approvability as a plan revision. As to compliance schedules for local regulations, they are being promulgated essentially as proposed with certain corrections, most significantly a change in the final compliance date from July 1, 1975 to July 1, 1974 in Hamilton County to reflect the proper date in the approved local regulations.

In South Carolina, the sulfur oxides compliance schedule as proposed for sources outside the Charleston Intrastate Air Quality Control Region had a final compliance date of July 31, 1975, although the State regulation had a final compliance date of July 1, 1977. This was necessary for certain air quality control regions because the plan implied that the regulation was necessary for attainment of the secondary standards and the attainment date for secondary standards in those regions is July, 1975. State officials have now presented data indicating that the regulation may not be necessary for attainment of the secondary standards outside the Charleston Air Quality Control Region and that sources outside that region can therefore be allowed the full period under the State regulation. To permit the State to make necessary changes in the implementation plan before sources must submit control plans based upon the 1975 date, the date for the first requirement under the Federal schedule has been set back to January 1, 1974. In addition, for those regions where the original plan shows that air quality levels are presently below the secondary standards, the use of the July, 1975, date was in error since there is no attainment date limiting the final compliance date. Therefore, the July 1, 1977, date has been used in the promulgated regulation instead. Finally, the final compliance date for the regulation applicable to asphalt batch plants has also been changed to 1977 to properly reflect the final compliance date in the State regulation and the State's intent in submitting this regulation for purposes of maintenance of the standards only.

The proposed regulation for hydrocarbons in Wisconsin did not specifically recognize that one of the methods for meeting the requirements, and the one that testimony at the hearing seems to indicate is the option most sources will elect, is the switching of solvents. Therefore, the schedule as it is being promulgated today requires the source to notify the Administrator of his election to meet the regulations through either installation of control equipment or solvent switching and establishes a compliance schedule for each option.

The compliance schedule being promulgated for Colorado reflects the regulation which is presently part of the State's implementation plan for attainment and maintenance of the national secondary ambient air quality standards for sulfur oxides. However, the State has now promulgated a revised sulfur oxides regulation with a final compliance date of January 1, 1978 instead of January 1, 1975. The date for the first increment in the compliance schedule has been set back to January 1, 1974 to allow the State to formally revise the implementation plan requirements before any source is compelled to take any action based upon the 1975 date presently in the plan.

The Administrator proposed schedules for sources in Oregon in the following categories: Kraft pulp mill recovery furnaces, Kraft pulp mill lime kilns, sulfite pulp mills, primary aluminum plants, ferronickel plants, and gasoline tanks. The State has now submitted an acceptable compliance schedule for ferronickel plants and this schedule is being approved and the Federal proposal withdrawn. No schedules were submitted by the State for the regulations for primary aluminum plants and gasoline tanks. The regulation relating to gasoline tanks was not submitted as part of the State's implementation plan and, therefore, no compliance schedule is being promulgated for sources subject to that regulation. The schedule for primary aluminum plants is being promulgated essentially as proposed.

Permits submitted by the State of Oregon for sulfite and Kraft mills may adequately regulate some, but not all, point sources for which compliance schedules are required. In some instances, where the State has communicated to EPA its belief that a point source within a mill is in compliance with the applicable emission regulation, the permit in fact does not contain a requirement for immediate compliance by that point source, and thus does not satisfy the requirements of 40 CFR § 15.15. To meet the statutory deadline, EPA is today promulgating regulations broad enough to cover all point sources within the mill. It is expected that changes to the regulations promulgated below will be made following additional evaluation.

In Washington, regulations relating to combustion and incineration sources, general process sources and sources of sulfur oxides have been determined not to be part of the implementation plan and therefore no compliance schedule is being promulgated for sources subject to those regulations. Approvable compliance schedules have now been received for Kraft pulp mill recovery furnaces, Kraft pulp mill lime kilns, sulfite pulp mills and primary aluminum plants and these State schedules are being approved and the Federal proposal withdrawn. Prior disapprovals for schedules which have now been corrected are being revoked.

The State of Idaho has submitted an approvable compliance schedule for Kraft pulp mill lime kilns thereby obviating the need for a Federal compliance schedule for this source category. Schedules have not been submitted for all Kraft pulp mill recovery furnaces and sulfuric acid plants. The Federal compliance schedules are being promulgated substantially as proposed and are applicable to all sources for which no State schedule has been approved.

Based upon the testimony at the public hearing, certain modifications have been made to the proposed schedule for pulp mills in Alaska which utilize a recovery system to control particulate emissions. An additional four months has been allowed to complete testing of a new control system before a final control plan is required to be submitted. In addition, because of the submission of certain acceptable State schedules and the general applicability of the schedule being promulgated for industrial process and fuel-burning equipment, no separate schedule for wood-waste burners is being

V 38 163 AUG 23 73 XUM

promulgated. Other compliance schedules proposed for Alaska are being promulgated as proposed.

In addition, compliance schedules for the States of New Hampshire, the District of Columbia, Illinois, and Michigan, are being promulgated without significant changes, although there are some clarifications, corrections, and minor changes to the dates as they were proposed for certain increments, based upon comments received.

A more detailed analysis of comments and an explanation of the changes made to the proposals, as well as copies of all written comments received and transcripts of the public hearings held, are available for public inspection during normal business hours at the appropriate Regional Office.

Addresses of the Regional Offices, and the States covered by these regulations in each Region, are as follows:

Region	Address	States covered by regulation
I	JFK Federal Bldg., Boston, Mass. 02203.	New Hampshire and Rhode Island.
II	26 Federal Plaza, New York, N.Y. 10007.	New York.
III	6th and Walnut Sts., Curtis Bldg., Philadelphia, Pa. 19106.	District of Columbia, Maryland, and West Virginia.
IV	1421 Peachtree St. NE., Atlanta, Ga. 30309.	Florida, South Carolina, and Tennessee.
V	1 North Wacker Dr., Chicago, Ill. 60606.	Illinois, Wisconsin, and Michigan.
VIII	Lincoln Tower, 1860 Lincoln St., Denver, Colo. 80203.	Colorado.
X	1200 Sixth Ave., Seattle, Wash. 98101.	Alaska, Oregon, Idaho, and Washington.

Promulgation of these compliance schedules does not affect the ability of States to develop schedules for any or all sources covered by the schedules promulgated herein and States are encouraged to do so. Any schedule submitted by the State and approved by the Administrator will supersede the Federal schedule for the affected source or sources.

These regulations are effective September 24, 1973.

(42 U.S.C. 1857c-5)

Dated August 15, 1973.

JOHN QUARLES,
Acting Administrator.

Part 52 of chapter I, title 40 of the Code of Federal Regulations is amended as follows:

Subpart C—Alaska

1. In § 52.70, paragraph (c) is revised to read as follows:

§ 52.70 Identification of plan.

* * * * *

(c) Supplemental information was submitted on:

(1) June 22, 1972, and

(2) August 2, 1973, by the State of Alaska Department of Environmental Conservation.

2. In § 52.84, paragraph (b) is revised and paragraphs (c) and (d) are added as follows:

§ 52.84 Compliance schedules.

* * * * *

(b) The compliance schedules for the sources identified below are approved as meeting the requirements of § 51.15 of this chapter. All regulations cited are contained in the Alaska Administrative Code, Title 18, unless otherwise noted.

Source	Location	Regulation involved	Date of adoption	Effective date	Final compliance
Golden Valley Electric Association, Inc.	Fairbanks	18AAC 50.030 50.040 50.050 50.120	June 18, 1973	Immediately	July 1, 1975
Municipal Utilities System	do	18AAC 50.030 50.040 50.050 50.120	do	do	Do.
University of Alaska	College	18AAC 50.030 50.040 50.050 50.120	do	do	Do.

(c) The compliance schedules for the sources identified below are disapproved as not meeting the requirements of § 51.15 of this chapter. All regulations cited are contained in the Alaska Administrative Code, Title 18, unless otherwise noted.

Source	Location	Regulation involved	Date of adoption
Alaska Lumber & Pulp Co.	Sitka	18AAC 50.060(a)(1) (2)	June 18, 1973
Ketchikan Pulp Co.	Ketchikan	do	Do.

(d) *Federal compliance schedules.* (1) Except as provided in subparagraph (9) of this paragraph, the owner or operator of any incinerator subject to the following emission-limiting regulation shall comply with the compliance schedule in subparagraph (2) of this paragraph: Alaska Administrative Code, Title 18, § 50.040 (appendix 1, section III of the Alaska Implementation Plan).

(2) Compliance schedule for incinerators, defined as any furnace used in the process of burning solid waste for the primary purpose of reducing the volume of the waste by removing combustible matter:

(i) Within 30 days' after promulgation of the compliance schedule, submit to the Administrator a final control plan, which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulations.

(ii) October 29, 1973—Negotiate and sign all necessary contracts for emission-control systems or process modifications, or issue orders for the purchase of component parts to accomplish emission control or process modification.

(iii) August 5, 1974—Complete on-site construction or installation of emission-control equipment or process modification.

(iv) September 2, 1974—Achieve compliance with applicable regulations, and certify such compliance to the Administrator.

(v) If a performance test is necessary for a determination as to whether compliance has been achieved, such a test must be completed by September 2, 1974. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(vi) Within five days after the deadline for completing increments in subdivisions (ii) and (iii) in this subparagraph, certify to the Administrator whether the increment has been met.

(3) Except as provided in subparagraph (9) of this paragraph, the owner or operator of any pulp mill subject to the following emission-limiting regulation and permit regulation in the Alaska Implementation Plan shall comply with the applicable compliance schedule in subparagraph (4), (5), or (6) of this paragraph; Alaska Administrative Code, Title 18, § 50.060(a)(1) (Sulfur oxides) and (2) (Particulate matter), § 50.120(a) (permits) (appendix III, 1 of the Alaska Implementation Plan).

(4) Any owner or operator of a recovery system or other source within a pulpmill subject to the sulfur oxide emission limitation of subparagraph (3) who elects to utilize a process modification not requiring installation of additional control equipment shall be subject to the following compliance schedule:

(i) October 1, 1973—Notify the Administrator of the intent to utilize a process modification.

(ii) November 30, 1973—Negotiate contract for achieving desired modification.

(iii) July 1, 1974—Achieve compliance with the applicable regulations and certify such compliance to the Administrator.

(iv) If a performance test is necessary for a determination as to whether compliance has been achieved, such a test must be completed by July 1, 1974. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(5) Any owner or operator of a recovery system or other source within a pulp mill subject to the sulfur oxide emission limitation of subparagraph (3) who elects to utilize a control system requiring installation of additional control

equipment shall be subject to the following compliance schedule:

(i) October 1, 1973—Submit to the Administrator a final control plan which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulations.

(ii) January 20, 1974—Negotiate and sign all necessary contracts for emission-control systems, or issue orders for the purchase of component parts to accomplish emission control.

(iii) December 31, 1974—Complete on-site construction or installation of emission control equipment.

(iv) July 1, 1975—Achieve compliance with the applicable regulations.

(v) If a performance test is necessary for a determination as to whether compliance has been achieved, such a test must be completed by July 1, 1975. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(vi) Five days after the deadline for completing increments in subdivisions (ii), (iii), and (iv) in this subparagraph, certify to the Administrator whether the increment has been met.

(6) Compliance schedule for recovery system particulate matter emissions:

(i) January 1, 1974—Submit to the Administrator a final control plan which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulations.

(ii) March 1, 1974—Negotiate and sign all necessary contracts for emission-control systems or process modifications, or issue orders for the purchase of component parts to accomplish emission control or process modification.

(iii) April 1, 1975—Complete onsite construction or installation of emission-control equipment or process modification.

(iv) July 1, 1975—Achieve compliance with the applicable regulations and certify such compliance to the Administrator.

(v) If a performance test is necessary for a determination as to whether compliance has been achieved, such a test must be completed by July 1, 1975. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(vi) Within five days after the deadline for completing increments in subdivisions (ii) and (iii) in this subparagraph, certify to the Administrator whether the increment has been met.

(7) Except as provided in subparagraph (9) of this paragraph, the owner or operator of any industrial process or fuel-burning equipment subject to the following emission-limiting regulation and permit regulation in the Alaska Implementation Plan shall comply with the compliance schedule in subparagraph (8) of this paragraph: Alaska Administrative Code, Title 18, § 50.050 (industrial processes and fuel-burning equipment) and § 50.120 (a) and (e) (permits), (appendix, section III, 1 of the Alaska Implementation Plan).

(8) Compliance schedule for industrial process for fuel-burning equipment:

(i) Within 30 days after promulgation of the compliance schedule submit to the Administrator a final control plan, which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulations.

(ii) December 18, 1973—Negotiate and sign all necessary contracts for emission-control systems or process modifications, or issue orders for the purchase of component parts to accomplish emission control or process modification.

(iii) May 31, 1975—Complete onsite construction or installation of emission-control equipment or process modification.

(iv) July 1, 1975—Achieve compliance with the applicable regulations and certify such compliance to the Administrator.

(v) If a performance test is necessary for a determination as to whether compliance has been achieved, such a test must be completed by July 1, 1975. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(vi) Within five days after the deadline for completing increments in subdivisions (ii) and (iii) in this subparagraph, certify to the Administrator whether the increment has been met.

(9) (i) The requirements of subparagraphs (1) through (8) of this paragraph shall not apply to any source which is presently in compliance with the applicable regulations and which has certified such compliance to the Administrator within thirty days of the effective date of this paragraph. The Administrator may request whatever supporting information he considers necessary for proper certification.

(ii) Any compliance schedule adopted by the State and approved by the Administrator shall satisfy the requirements of this paragraph for the affected source.

(iii) Any owner or operator subject to a compliance schedule above may submit to the Administrator, no later than thirty days after the effective date of this paragraph, a proposed alternative compliance schedule. No such compliance schedule may provide for final compliance after the final date of compliance in the applicable regulation. If promulgated by the Administrator, such schedule shall satisfy the requirements of this paragraph for the affected source.

(10) Nothing in this paragraph shall preclude the Administrator from promulgating a separate schedule for any source to which the application of a compliance schedule in this paragraph fails to satisfy the requirements of § 51.15 (b) and (c) of this chapter.

Subpart G—Colorado

3. Section 52.327 is amended by adding a new paragraph (b), as follows:

§ 52.327 Compliance schedules.

* * * * *

(b) *Federal compliance schedules.*

(1) The owner or operator of any boiler or furnace of more than 250 million Btu per hour heat input subject to the requirements of Regulation 1, III.B.3., shall notify the Administrator, no later than January 1, 1974, of his intent to utilize either low-sulfur fuel or stack gas desulfurization to meet the requirements of said regulation.

(2) Any owner or operator of a stationary source subject to subparagraph (1) of this paragraph who elects low-sulfur fuel shall be subject to the following compliance schedule:

(i) January 31, 1974—Submit to the Administrator a projection of the amount of fuel, by types, that will be substantially adequate to enable compliance with Regulation 1, III.B.3 on January 1, 1975, and for at least one year thereafter.

(ii) March 31, 1974—Sign contracts with fuel suppliers for fuel requirements as projected above.

(iii) April 30, 1974—Submit a statement as to whether boiler modifications will be required. If modifications will be required, submit plans for such modifications.

(iv) May 31, 1974—Let contracts for necessary boiler modifications, if applicable.

(v) December 1, 1974—Complete on-site modifications, if applicable.

(vi) January 1, 1975—Final compliance with the low-sulfur fuel requirements of Regulation 1, III.B.3.

(3) Any owner or operator of a stationary source subject to paragraph (1) of this section who elects to utilize stack gas desulfurization or any owner or operator of a stationary source subject to subparagraph (2) of this paragraph shall be subject to the following compliance schedule:

(i) January 31, 1974—Let necessary contracts for construction.

(ii) March 31, 1974—Initiate onsite construction.

(iii) December 1, 1974—Complete construction.

(iv) January 1, 1975—Final compliance with the requirements of Regulation 1, III.B.3.

(v) If a performance test is necessary for a determination as to whether compliance has been achieved, such a test must be completed by January 1, 1975. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(4) Any owner or operator subject to a compliance schedule above shall certify to the Administrator, within five days after the deadline for each increment of progress in that schedule, whether or not the increment has been met.

(5) (i) The requirements of subparagraphs (1) through (4) of this paragraph shall not apply to any source which is presently in compliance with the requirements of Regulation 1, III.B.3 and which has certified such compliance to the Administrator within thirty days of the effective date of this paragraph. The Administrator may request whatever supporting information he considers necessary for proper certification.

V 38 163 AUG 23 73 XUM

(ii) Any compliance schedule adopted by the State and approved by the Administrator shall satisfy the requirements of this paragraph for the affected source.

(iii) Any owner or operator subject to a compliance schedule above may submit to the Administrator, no later than thirty days after the effective date of this paragraph, a proposed alternative compliance schedule. No such compliance schedule may provide for final compliance after January 1, 1975. If promulgated by the Administrator, such schedule shall satisfy the requirements of this paragraph for the affected source.

(6) Nothing in this paragraph shall preclude the Administrator from promulgating a separate schedule for any source to which the application of a compliance schedule in this paragraph fails to satisfy the requirements of § 51.15 (b) and (c) of this chapter.

Subpart J—District of Columbia

4. Section 52.476 is amended by adding a new paragraph (b), as follows:

§ 52.476 Compliance schedules.

* * * * *

(b) *Federal compliance schedules.*—(1) The owner or operator of any boiler or furnace of more than 250 million Btu per hour heat input subject to the requirements of section 8-2:705 of the Air Quality Control Regulations of the District of Columbia shall notify the Administrator, no later than October 1, 1973, of his intent to utilize either low-sulfur fuel or stack gas desulfurization to meet the requirements of said regulation.

(2) Any owner or operator of a stationary source subject to subparagraph (1) of this paragraph who elects low-sulfur fuel and the owner or operator of any boiler or furnace of more than 250 million Btu per hour heat input subject to the requirements of section 8-2:704 of the Air Quality Control Regulations of the District of Columbia shall be subject to the following compliance schedule:

(i) November 1, 1973—Submit to the Administrator a projection of the amount of fuel, by types, that will be substantially adequate to enable compliance with sections 8-2:704 and 8-2:705 of the Air Quality Control Regulations of the District of Columbia on July 1, 1975, and for at least one year thereafter.

(ii) December 31, 1973—Sign contracts with fuel suppliers for fuel requirements as projected above.

(iii) January 31, 1974—Submit a statement as to whether boiler modifications will be required. If modifications will be required, submit plans for such modifications.

(iv) March 15, 1974—Let contracts for necessary boiler modifications, if applicable.

(v) May 15, 1974—Initiate onsite construction, if applicable.

(vi) March 1, 1975—Complete onsite construction, if applicable.

(vii) July 1, 1975—Final compliance with the low-sulfur fuel requirements of either section 8-2:704 or section 8-2:705 of the Air Quality Control Regulations of the District of Columbia.

(3) Any owner or operator of a stationary source subject to subparagraph (2) of this paragraph who elects stack gas desulfurization shall be subject to the following compliance schedule:

(i) November 1, 1973—Let necessary contracts for construction.

(ii) March 1, 1974—Initiate onsite construction.

(iii) March 1, 1975—Complete onsite construction.

(iv) July 1, 1975—Final compliance with the requirements of section 8-2:705 of the Air Quality Control Regulations of the District of Columbia.

(v) If a performance test is necessary for a determination as to whether compliance has been achieved, such a test must be completed by July 1, 1975. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(4) Any owner or operator subject to the compliance schedule in either subparagraph (2) or (3) of this paragraph shall certify to the Administrator within five days after the deadline for each increment of progress, whether or not the required increment of progress has been met.

(5) (i) The requirements of subparagraphs (1) through (4) of this paragraph shall not apply to any source which is presently in compliance with the requirements of section 8-2:704 or section 8-2:705 of the Air Quality Control Regulations of the District of Columbia and which has certified such compliance to the Administrator within thirty days of the effective date of this paragraph. The Administrator may request whatever supporting information he considers necessary for proper certification.

(ii) Any compliance schedule adopted by the State and approved by the Administrator shall satisfy the requirements of this paragraph for the affected source.

(iii) Any owner or operator subject to the compliance schedule in either subparagraph (2) or (3) of this paragraph may submit to the Administrator, no later than thirty days after the effective date of this paragraph, a proposed alternative compliance schedule. No such compliance schedule may provide for final compliance after July 1, 1975. If promulgated by the Administrator, such schedule shall satisfy the requirement of this paragraph for the affected source.

(6) Nothing in this paragraph shall preclude the Administrator from promulgating a separate schedule for any source to which the application of the compliance schedule in subparagraph (2) or (3) of this paragraph fails to satisfy the requirements of § 51.15 (b) and (c) of this chapter.

Subpart K—Florida

5. In § 52.520 paragraph (c) is revised as follows:

§ 52.520 Identification of plan.

* * * * *

(c) Supplemental information was submitted on April 10 and May 5, 1972, and on June 1 and August 6, 1973, by the State of Florida Department of Pollution Control.

6. Section 52.524 is amended by adding a new paragraph (b), as follows:

§ 52.524 Compliance schedules.

* * * * *

(b) *Federal compliance schedules.*—(1) Except as provided in subparagraph (6) of this paragraph, the owner or operator of any stationary source subject to the following emission limiting regulations in the Florida implementation plan shall comply with the compliance schedule in subparagraph (2) of this paragraph: Rules of the State of Florida, Department of Pollution Control, Air Pollution, subsections 17-2.04 (2); 17-2.04(3); 17-204(6)(a); 17-204 (6)(b); 17-2.04(6)(d); 17-2.04(6)(e) 2.a; 17-2.04(6)(e)3.b; 17-2.04(6)(f); and 17-2.04(6)(h).

(2) Compliance schedule.

(i) November 1, 1973—Submit to the Administrator a final control plan, which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulations.

(ii) January 1, 1974—Negotiate and sign all necessary contracts for emission control systems or process modifications, or issue orders for the purchase of component parts to accomplish emission control or process modification.

(iii) February 1, 1974—Initiate onsite construction or installation of emission control equipment or process modification.

(iv) May 1, 1975—Complete onsite construction or installation of emission control equipment or process modification.

(v) July 1, 1975—Achieve compliance with the applicable regulations, and certify such compliance to the Administrator.

(vi) If a performance test is necessary for a determination as to whether compliance has been achieved, such a test must be completed by July 1, 1975. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(vii) Five days after the deadline for completing increments (ii) through (iv) in this subparagraph, certify to the Administrator whether the increment has been met.

(3) Except as provided in subparagraph (6) of this paragraph, the owner or operator of any boiler or furnace of more than 250 million Btu per hour heat input subject to the requirements of Rules of the State of Florida, Department of Pollution Control, Air Pollution, subsections 17-2.04(6)(e)2.c. and d. contained as part of the Florida Implementation Plan shall notify the Administrator, no later than October 1, 1973, of his intent to utilize either low-sulfur fuel or stack gas desulfurization to meet these requirements.

(4) Any owner or operator of a stationary source subject to subparagraph (3) of this paragraph who elects to utilize low-sulfur fuel shall be subject to the following compliance schedule:

(i) November 1, 1973—Submit to the Administrator a projection of the amount of fuel, by types, that will be substantially adequate to enable compliance with the applicable regulation on July 1, 1975, and for at least one year thereafter.

(ii) December 31, 1973—Sign contracts with fuel suppliers for fuel requirements as projected above.

(iii) January 31, 1974—Submit a statement as to whether boiler modifications will be required. If modifications will be required, submit plans for such modifications.

(iv) March 15, 1974—Let contracts for necessary boiler modifications, if applicable.

(v) June 15, 1974—Initiate onsite modifications, if applicable.

(vi) March 31, 1975—Complete onsite modifications, if applicable.

(vii) July 1, 1975—Achieve compliance with the requirements of Florida Air Pollution Rules subsections 17-2.04 (6)(e)2. c. and d. and certify such compliance to the Administrator.

(viii) If a performance test is necessary for a determination as to whether compliance has been achieved, such a test must be completed by July 1, 1975. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(ix) Five days after the deadline for completing increments (ii) through (vi) of this subparagraph, certify to the Administrator whether the increment has been met.

(5) Any owner or operator subject to subparagraph (3) of this paragraph who elects to utilize stack gas desulfurization shall be subject to the compliance schedule in subparagraph (2) of this paragraph.

(6) (i) None of the above subparagraphs shall apply to a source which is presently in compliance with applicable regulations and which has certified such compliance to the Administrator within thirty days of the effective date of this paragraph. The Administrator may request whatever supporting information he considers necessary for proper certification.

(ii) Any compliance schedule adopted by the State and approved by the Administrator shall satisfy the requirements of this paragraph for the affected source.

(iii) Any owner or operator subject to a compliance schedule in this paragraph may submit to the Administrator, no later than thirty days after the effective date of this paragraph, a proposed alternative compliance schedule. No such compliance schedule may provide for final compliance after the final compliance date in the applicable regulation. If promulgated by the Administrator, such schedule shall satisfy the requirements of this paragraph for the affected source.

(7) Nothing in this paragraph shall preclude the Administrator from promulgating a separate schedule for any source to which the application of the compliance schedule in subparagraph (2) or (4) of this paragraph fails to satisfy the requirements of § 51.15 (b) and (c) of this chapter.

Subpart N—Idaho

7. In § 52.670, paragraph (c) is revised to read as follows:

§ 52.670 Identification of plan.

* * * * *

(c) Supplemental information was submitted on:

(1) February 23 and April 12, 1972, by the Idaho Air Pollution Control Commission and

(2) March 2, May 5, and June 9, 1972, and February 15, and July 23, 1973.

8. Section 52.677 is revised to read as follows:

§ 52.677 Compliance schedules.

(a) The requirements of § 51.15(c) of this chapter are not met since the compliance schedules for the control of sulfur oxides from smelters are not legally enforceable. In addition, the requirements of § 51.15(c) of this chapter are not met since compliance schedules with adequate increments of progress have not been submitted for sulfuric acid plants and Kraft pulp mill recovery furnaces.

(b) The compliance schedule for the source identified below is approved as meeting the requirements of § 51.15 of this chapter. All regulations cited are contained in the "Rules and Regulations for the Control of Air Pollution in Idaho."

Source	Location	Regulation Involved	Date of Adoption	Effective Date	Final Compliance
Potlatch Forest, Inc.[1]	Lewiston	Reg. O, Sec. 3 F	June 28, 1973	Immediately	Jan. 1, 1974

[1] Compliance schedules for the recovery furnaces are disapproved and promulgated in (c) and (d) respectively, below.

(c) The compliance schedule for the source identified below is disapproved as not meeting the requirements of § 51.15 of this chapter. All regulations cited are contained in the "Rules and Regulations for the Control of Air Pollution in Idaho."

Source	Location	Regulation Involved	Date of Adoption
Potlatch Forest, Inc.[2]	Lewiston	Reg. O, Sec. 3 E.	June 28, 1973

[2] The compliance schedule for lime kilns is approved in (b) above.

(d) *Federal compliance schedules.*

(1) Except as provided in subparagraph (5) of this paragraph, the owner or operator of any Kraft pulp mill subject to the following emission limiting regulation in the Idaho Implementation Plan shall comply with the compliance schedule in subparagraph (2) of this paragraph: "Rules and Regulations for the Control of Air Pollution in Idaho," regulation O, section 3, subsection E (chapter VII of the Idaho implementation plan).

(2) Compliance schedule for recovery furnaces.

(i) January 1, 1974—Achieve compliance with the applicable regulations, and certify such compliance to the Administrator.

(ii) If a performance test is determined necessary by the Administrator to certify compliance, such a test must be completed by January 15, 1974. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(3) Except as provided in subparagraph (5) of this paragraph, the owner or operator of any sulfuric acid plant subject to the following emission limiting regulation in the Idaho implementation plan shall comply with the compliance schedule in subparagraph (4) of this paragraph: "Rules and Regulations for the Control of Air Pollution in Idaho," regulation R, section 2, subsection A (chapter VII of the Idaho implementation plan).

(4) Compliance schedule for sulfuric acid plants.

(i) January 1, 1974—Submit to the Administrator a final control plan, which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulations.

(ii) April 1, 1974—Negotiate and sign all necessary contracts for emission control systems or process modifications, or issue orders for the purchase of component parts to accomplish emission control or process modification.

(iii) June 1, 1975—Complete on-site construction or installation of emission control equipment or process modification.

(iv) July 31, 1975—Achieve compliance with the applicable regulations, and certify such compliance to the Administrator.

(v) If a performance test is necessary for a determination as to whether compliance has been achieved, such a test must be completed by July 31, 1975. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(vi) Within five days after the deadline for completing increments in subdivisions (ii) and (iii) in this subparagraph, certify to the Administrator whether the increment has been met.

(5) (i) The requirements of subparagraphs (1) through (4) of this paragraph shall not apply to any source which is presently in compliance with the applicable regulation and which has certified such compliance to the Adminis-

V 38-163 AUG 23 73 XUM

trator within thirty days of the effective date of this paragraph. The Administrator may request whatever supporting information he considers necessary for proper certification.

(ii) Any compliance schedule adopted by the State and approved by the Administrator shall satisfy the requirements of this paragraph for the affected source.

(iii) Any owner or operator subject to a compliance schedule above may submit to the Administrator, no later than thirty days after the effective date of this paragraph, a proposed alternative compliance schedule. No such compliance schedule may provide for final compliance after the final compliance date in the applicable regulation. If promulgated by the Administrator, such schedule shall satisfy the requirements of this paragraph for the affected source.

(6) Nothing in this paragraph shall preclude the Administrator from promulgating a separate schedule for any source to which the application of a compliance schedule in this paragraph fails to satisfy the requirements of §§ 51.15(b) and (c) of this chapter.

Subpart O—Illinois

9. Section 52.730 is amended by adding a new paragraph (b), as follows:

§ 52.730 Compliance schedules.

* * * * *

(b) *Federal compliance schedules.*—(1) Except as provided in subparagraph (3) of this paragraph, the owner or operator of any stationary source subject to the following emission limiting regulations in the Illinois implementation plan shall comply with the applicable compliance schedule in subparagraph (2) of this paragraph: Illinois Air Pollution Control Regulations Rule 203 (d)(4), 203(d)(6)(B)(ii)(bb), 203(g)(1)(B), 203(g)(2), 203(g)(3), 203(g)(4), 204(c)(1)(A), 204(c)(2), 204(d), and 204(e).

(2) *Compliance schedules.*—(i) The owner or operator of any stationary source subject to Illinois Air Pollution Control Regulation Rule 203(d)(4) shall take the following actions with respect to the source no later than the date specified.

(*a*) September 30, 1973—Advertise for bids for purchase and construction or installation of equipment, or for materials requisite for process modification sufficient to control particulate emissions from the source.

(*b*) November 15, 1973—Award contracts for emission control systems or process modification, or issue orders for the purchase of component parts to accomplish emission control or process modification.

(*c*) May 31, 1974—Initiate onsite construction or installation of emission control system or process modification.

(*d*) March 31, 1975—Complete onsite construction or installation of emission system or process modification.

(*e*) May 31, 1975—Complete shakedown operation and performance test on source, submit performance test results to the Administrator; achieve full compliance with State agency regulation.

(ii) The owner or operator of any stationary source subject to Illinois Air Pollution Control Regulation Rule 203(d)(6)(B)(ii)(bb) shall take the following actions with respect to the source no later than the date specified.

(*a*) September 30, 1973—Advertise for bids for purchase and construction or for modification of equipment sufficient to control particulate emissions from the source.

(*b*) November 15, 1973—Award contracts for emissions control systems or process modification, or issue orders for the purchase of component parts to accomplish emission control or process modification.

(*c*) March 31, 1974—Initiate onsite construction or installation of emission control system.

(*d*) October 31, 1974—Complete onsite construction or installation of emission control system.

(*e*) December 31, 1974—Achieve final compliance with Illinois Air Pollution Control Regulations Rule 203(d)(6)(B)(ii)(bb).

(iii) (*a*) The owner or operator of any boiler or furnace of more than 250 million BTU per hour heat input subject to Illinois Air Pollution Control Regulation Rule 204(c)(1)(A), 204(c)(2), 204(d), and 204(e) shall notify the Administrator, no later than October 1, 1973, of his intent to utilize either low-sulfur fuel or stack gas desulfurization to the requirements of said regulation.

(*b*) Any owner or operator of a stationary source subject to subparagraph (2)(iii)(*a*) of this paragraph who elects to utilize low sulfur fuel shall take the following actions with respect to the source no later than the date specified.

(*1*) November 1, 1973—Submit to the Administrator a projection of the amount of fuel, by types, that will be substantially adequate to enable compliance with Illinois Air Pollution Control Regulations Rule 204(c)(1)(A), 204(c)(2), 204(d), and 204(e) on May 31, 1975, and for at least one year thereafter.

(*2*) December 31, 1973—Sign contracts with fuel suppliers for fuel requirements as projected above.

(*3*) January 31, 1974—Submit a statement as to whether boiler modifications will be required. If modifications will be required, submit plans for such modifications.

(*4*) March 15, 1974—Let contracts for necessary boiler modifications, if applicable.

(*5*) June 15, 1974—Initiate onsite modifications, if applicable.

(*6*) March 31, 1975—Complete onsite modifications, if applicable.

(*7*) May 31, 1975—Final compliance with the emission limitation of Rules 204(c)(1)(A), 204(c)(2), 204(d), and 204(e).

(*c*) Any owner or operator of a fuel combustion source subject to subparagraph (2)(iii)(*a*) of this paragraph who elects to utilize stack gas desulfurization shall take the following actions with respect to the source no later than the date specified.

(*1*) November 1, 1973—Let necessary contracts for construction.

(*2*) March 31, 1974—Initiate onsite construction.

(*3*) March 31, 1975—Complete onsite construction.

(*4*) May 31, 1975—Complete shakedown operations and performance test on source, submit performance test results to the Administrator; achieve full compliance with Rule 204(c)(1)(A), 204(c)(2), 204(d), and 204(e).

(iv)(*a*) The owner or operator of any stationary source subject to Illinois Air Pollution Control Regulations Rule 203(g)(1)(B), 203(g)(2), 203(g)(3), and 203(g)(4) shall notify the Administrator, no later than October 1, 1973, of his intent to utilize either low ash fuel or a stack gas cleaning system to meet the requirements of said regulation.

(*b*) Any owner or operator of a stationary source subject to subparagraph (2)(iv)(*a*) of this paragraph who elects to utilize low ash fuel shall take the following actions with respect to the source no later than the date specified.

(*1*) November 1, 1973—Submit to the Administrator a projection of the amount of fuel, by types, that will be substantially adequate to enable compliance with Illinois Air Pollution Control Regulations Rule 203(g)(1)(B), 203(g)(2), 203(g)(3), and 203(g)(4) on May 31, 1975, and for at least one year thereafter.

(*2*) December 31, 1973—Sign contracts with fuel suppliers for fuel requirements as projected above.

(*3*) January 31, 1974—Submit a statement as to whether boiler modifications will be required. If modifications will be required, submit plans for such modifications.

(*4*) March 15, 1974—Let contracts for necessary boiler modifications, if applicable.

(*5*) June 15, 1974—Initiate onsite modifications, if applicable.

(*6*) March 31, 1975—Complete onsite modifications, if applicable.

(*7*) May 31, 1975—Final compliance with the emission limitation of Rule 203(g)(1)(B), 203(g)(2), 203(g)(3), and 203(g)(4).

(*c*) Any owner or operator of a stationary source subject to subparagraph (2)(iv)(*a*) of this paragraph who elects to utilize a stack gas cleaning system shall take the following actions with respect to the source no later than the date specified.

(*1*) January 15, 1974—Let necessary contracts for construction.

(*2*) April 1, 1974—Initiate onsite construction.

(*3*) April 1, 1975—Complete onsite construction.

(*4*) May 31, 1975—Complete shakedown operations and performance tests on source, submit performance test results to the Administrator; achieve full compliance with Rule 203(g)(1)(B), 203(g)(2), 203(g)(3), and 203(g)(4).

(v) Ten days prior to the conduct of any performance test required by this

paragraph, the owner or operator of the affected source shall give notice of such test to the Administrator to afford him the opportunity to have an observer present.

(vi) Any owner or operator subject to a compliance schedule above shall certify to the Administrator, within five days after the deadline for each increment of progress in that schedule, whether or not the increment has been met.

(3)(i) The requirements of subparagraphs (1) and (2) of this paragraph shall not apply to any source which is presently in compliance with applicable regulations and which has certified such compliance to the Administrator within thirty days of the effective date of this paragraph. The Administrator may request whatever supporting information he considers necessary for proper certification.

(ii) Any compliance schedule adopted by the State and approved by the Administrator shall satisfy the requirements of this paragraph for the affected source.

(iii) Any owner or operator subject to a compliance schedule above may submit to the Administrator, no later than thirty days after the effective date of this paragraph, a proposed alternative compliance schedule. No such compliance schedule may provide for final compliance date in the applicable regulation. If promulgated by the Administrator, such schedule shall satisfy the requirements of this paragraph for the affected source.

(4) Nothing in this paragraph shall preclude the Administrator from promulgating a separate schedule for any source to which the application of the compliance schedules in subparagraph (2) of this paragraph fail to satisfy the requirements of § 51.15(b) and (c) of this chapter.

Subpart V—Maryland

10. Section 52.1080 is amended by adding a new paragraph (b), as follows:

§ 52.1080 Compliance schedules.

* * * * *

(b) *Federal compliance schedules.*—(1) The owner or operator of any boiler or furnace of more than 250 million Btu per hour heat input subject to the requirements of regulation 10.03.36.04B(3) or 10.03.36.04D(1), 10.03.37.04B(3) or 10.03.37.04D(1), 10.03.38.04B(3) or 10.03.38.04D(1), 10.03.39.04B(3) or 10.03.39.04D(1), 10.03.40.04B(3) or 10.03.40.04D(1), or 10.03.41.04B(3) or 10.03.41.04D(1) of the Maryland State Department of Health and Mental Hygiene, whichever is applicable in the air quality control region in which the source is located, shall notify the Administrator, no later than January 1, 1974, of his intent to utilize either low-sulfur fuel or stack gas desulfurization to meet the requirements of said regulation.

(2) Any owner or operator of a stationary source subject to subparagraph (1) of this paragraph who elects low-sulfur fuel shall be subject to the following compliance schedule:

(i) January 31, 1974—Submit to the Administrator a projection of the amount of fuel, by types, that will be substantially adequate to enable compliance with the requirement of subsection .04B(3) of the applicable Maryland regulation referred to in subparagraph (1) of this paragraph on July 1, 1975, and for at least one year thereafter.

(ii) March 31, 1974—Sign contracts with fuel suppliers for fuel requirements as projected above.

(iii) April 30, 1974—Submit a statement as to whether boiler modifications will be required. If modifications will be required, submit plans for such modifications.

(iv) May 31, 1974—Let contracts for necessary boiler modifications, if applicable.

(v) October 31, 1974—Initiate onsite modifications, if applicable.

(vi) June 1, 1975—Complete onsite modifications, if applicable.

(vii) July 1, 1975—Final compliance with the low-sulfur fuel requirement of subsection .04B(3) of the applicable Maryland regulation referred to in subparagraph (1) of this paragraph.

(3) Any owner or operator of a stationary source subject to subparagraph (1) of this paragraph who elects to utilize stack gas desulfurization, as specified in subsection .04D(1) of the applicable Maryland regulation referred to in subparagraph (1) of this paragraph, shall be subject to the following compliance schedule:

(i) February 28, 1974—Let necessary contracts for construction.

(ii) May 1, 1974—Initiate onsite construction.

(iii) April 1, 1975—Complete onsite construction.

(iv) July 1, 1975—Final compliance with the requirements of subsections .04B(3) or .04D(1) of the applicable Maryland regulations referred to in subparagraph (1) of this paragraph.

(v) If a performance test is necessary for a determination as to whether compliance has been achieved, such a test must be completed by July 1, 1975. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(4) Any owner or operator subject to the compliance schedule in either subparagraph (2) or (3) of this paragraph shall certify to the Administrator, within five days after the deadline for each increment of progress, whether or not the required increment of progress has been met.

(5)(i) The requirements of subparagraphs (1) through (4) of this paragraph shall not apply to any source which is presently in compliance with the requirements of subsections .04B(3) or .04D(1) of the Maryland regulations referred to in subparagraph (1) of this paragraph and which has certified such compliance to the Administrator no later than thirty days after the effective date of this paragraph. The Administrator may request whatever supporting information he considers necessary for proper certification.

(ii) Any compliance schedule adopted by the State and approved by the Administrator shall satisfy the requirements of this paragraph for the affected source.

(iii) Any owner or operator subject to the compliance schedule in either subparagraph (2) or (3) of this paragraph may submit to the Administrator, no later than thirty days after the effective date of this paragraph, a proposed alternative compliance schedule. No such compliance schedule may provide for final compliance after July 1, 1975. If promulgated by the Administrator, such schedule shall satisfy the requirement of this paragraph for the affected source.

(6) Nothing in this paragraph shall preclude the Administrator from promulgating a separate schedule for any source to which the application of the compliance schedule in subparagraph (2) or (3) of this paragraph fails to satisfy the requirements of § 51.15(b) and (c) of this chapter.

Subpart X—Michigan

11. Section 52.1175 is amended by adding a new paragraph (d), as follows:

§ 52.1175 Compliance schedules.

* * * * *

(d) *Federal compliance schedules.*—(1) Except as provided in subparagraph (3) of this paragraph, the owner or operator of any stationary source subject to the following emission-limiting regulations in the Michigan implementation plan shall comply with the applicable compliance schedule in subparagraph (2) of this paragraph: Air Pollution Control Commission, Department of Public Health, Michigan Rule 336.49.

(2) *Compliance schedules.*—(i) The owner or operator of any boiler or furnace of more than 250 million Btu per hour heat input subject to Rule 336.49 and located in the Central Michigan Intrastate AQCR, South Bend-Elkhart-Benton Harbor Interstate AQCR, or Upper Michigan Intrastate AQCR (as defined in Part 81 of this title) shall notify the Administrator, no later than October 1, 1973, of his intent to utilize either low-sulfur fuel or stack gas desulfurization to comply with the limitations effective July 1, 1975, in Table 3 or Table 4 of Rule 336.49.

(ii) Any owner or operator of a stationary source subject to subparagraph (2)(i) of this paragraph who elects to utilize low-sulfur fuel shall take the following actions with respect to the source no later than the dates specified.

(*a*) November 1, 1973—Submit to the Administrator a projection of the amount of fuel, by types, that will be substantially adequate to enable compliance with Table 3 of Rule 336.49 on July 1, 1975, and for at least one year thereafter.

(*b*) December 31, 1973—Sign contracts with fuel suppliers for projected fuel requirements.

V 38-163 AUG 23 73 XUM

(c) January 31, 1974—Submit a statement as to whether boiler modifications will be required. If modifications will be required, submit plans for such modifications.

(d) March 15, 1974—Let contracts for necessary boiler modifications, if applicable.

(e) June 15, 1974—Initiate onsite modifications, if applicable.

(f) March 31, 1975—Complete onsite modifications, if applicable.

(g) July 1, 1975—Achieve final compliance with the applicable July 1, 1975, sulfur-in-fuel limitation listed in Table 3 of Rule 336.49.

(iii) Any owner or operator of a stationary source subject to subparagraph (2)(i) of this paragraph who elects to utilize stack gas desulfurization shall take the following actions with respect to the source no later than the dates specified.

(a) November 1, 1973—Let necessary contracts for construction.

(b) March 1, 1974—Initiate onsite construction.

(c) March 31, 1975—Complete onsite construction.

(d) July 1, 1975—Achieve final compliance with the applicable July 1, 1975, emission limitation listed in Table 4 of Rule 336.49.

(e) If a performance test is necessary for a determination as to whether compliance has been achieved, such a test must be completed by July 1, 1975. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(iv) The owner or operator of any boiler or furnace of more than 250 million Btu per hour heat input subject to Rule 336.49 and located in the Central Michigan Intrastate AQCR, South Bend-Elkhart-Benton Harbor Interstate AQCR, or Upper Michigan Intrastate AQCR shall notify the Administrator, no later than January 31, 1974, of his intent to utilize either low-sulfur fuel or stack gas desulfurization to comply with the limitation effective July 1, 1978, in Table 3 or Table 4 of Rule 336.49.

(v) Any owner or operator of a stationary source subject to subparagraph (2)(iv) of this paragraph who elects to utilize low-sulfur fuel shall take the following actions with respect to the source no later than the dates specified.

(a) October 15, 1976—Submit to the Administrator a projection of the amount of fuel, by types, that will be substantially adequate to enable compliance with Table 3 of Rule 336.49 on July 1, 1978, and for at least one year thereafter.

(b) December 31, 1976—Sign contracts with fuel suppliers for projected fuel requirements.

(c) January 31, 1977—Submit a statement as to whether boiler modifications will be required. If modifications will be required, submit plans for such modifications.

(d) March 15, 1977—Let contracts for necessary boiler modifications, if applicable.

(e) June 15, 1977—Initiate onsite modifications, if applicable.

(f) March 31, 1978—Complete onsite modifications, if applicable.

(g) July 1, 1978—Achieve final compliance with the applicable July 1, 1978, sulfur-in-fuel limitation listed in Table 3 of Rule 336.49.

(vi) Any owner or operator of a stationary source subject to subparagraph (2)(iv) of this paragraph who elects to utilize stack gas desulfurization shall take the following actions with regard to the source no later than the dates specified.

(a) November 1, 1976—Let necessary contracts for construction.

(b) March 1, 1977—Initiate onsite construction.

(c) March 31, 1978—Complete onsite construction.

(d) July 1, 1978—Achieve final compliance with the applicable July 1, 1978, emission limitation listed in Table 4 of Rule 336.49.

(e) If a performance test is necessary for a determination as to whether compliance has been achieved, such a test must be completed by July 1, 1978. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(vii) Any owner or operator subject to a compliance schedule above shall certify to the Administrator, within five days after the deadline for each increment of progress in that schedule, whether or not the increment has been met.

(3)(i) The requirements of subparagraphs (1) and (2) of this paragraph shall not apply to any source which is presently in compliance with Table 3 or Table 4 of Rule 336.49 and which has certified compliance to the Administrator within thirty days of the effective date of this paragraph. The Administrator may request whatever supporting information he considers necessary for proper certification.

(ii) Any compliance schedule adopted by the State and approved by the Administrator shall satisfy the requirements of this paragraph for the affected source.

(iii) Any owner or operator subject to a compliance schedule in subparagraph (2) of this paragraph may submit to the Administrator by no later than thirty days after the effective date of this paragraph, a proposed alternative compliance schedule. No such compliance schedule may provide for final compliance after the final compliance date in the applicable regulation. If promulgated by the Administrator, such schedule shall satisfy the requirements of this paragraph for the affected source.

(4) Nothing in this paragraph shall preclude the Administrator from promulgating a separate schedule for any source to which the application of the compliance schedule in subparagraph (2) of this paragraph fails to satisfy the requirements of § 51.15 (b) and (c) of this chapter.

Subpart EE—New Hampshire

12. Section 52.1524 is amended by adding a new paragraph (d), as follows:

§ 52.1524 Compliance schedules.

* * * * *

(d) *Federal compliance schedules.*—The compliance schedules for the sources identified below are promulgated herein in satisfaction of the requirements of § 51.15 of this chapter. All regulations cited are air pollution control regulations of the State, unless otherwise noted.

Source	Location	Regulation involved	Effective date	Final compliance date
Brown Co.:				
(a) No. 11 Kraft recovery	Berlin, N.H.	15	Immediately	January 1973.
(b) No. 11 Kraft recovery	do	15	do	January 1974.
(c) No. 8 Kraft recovery boiler main stack	do	15	do	July 1974.
(d) No. 8 Kraft recovery smelt tank vent	do	15	do	December 1974.
(e) Heavy black liquor oxidation	do	15	do	June 1974.
(f) No. 1 lime kiln stack	do	15	do	January 1973.
(g) No. 2 lime kiln stack	do	15	do	December 1974.

Subpart HH—New York

13. Section 52.1677 is amended by adding a new paragraph (d) as follows:

§ 52.1677 Compliance schedules.

* * * * *

(d) *Federal compliance schedules.*—(1) The owner or operator of any boiler or furnace of more than 250 million Btu per hour heat input subject to the requirements of §§ 225.3(c) and 230.2(c) of subchapter A, chapter III, title 6 of New York State's official compilation of codes, rules, and regulations shall notify the Administrator, no later than October 1, 1973, of his intent to utilize either low-sulfur fuel or stack gas desulfurization to meet the requirements of said regulation.

(2) Any owner or operator of a stationary source subject to subparagraph (1) of this paragraph who elects low-sulfur fuel shall be subject to the following compliance schedule:

(i) November 1, 1973—Submit to the Administrator a projection of the amount of fuel, by types, that will be substantially adequate to enable compliance with sections 225.3(c) and 230.2(c) of the codes, rules, and regulations cited in subparagraph (1) of this paragraph on June 30, 1975, and October 1, 1975, respectively, and for at least one year thereafter.

(ii) December 31, 1973—Sign contracts with fuel suppliers for fuel requirements as projected above.

(iii) January 31, 1974—Submit a statement as to whether boiler modifications will be required. If modifications will be required, submit plans for such modifications.

(iv) March 15, 1974—Let contracts for necessary boiler modifications, if applicable.

(v) June 15, 1974—Initiate onsite modifications, if applicable.

(vi) February 28, 1975—Complete onsite modifications, if applicable.

(vii)(a) June 30, 1975—Final compliance with the low-sulfur fuel requirements of section 225.3(c) of subchapter A, chapter III, title 6 of New York State's official compilation of codes, rules, and regulations.

(b) October 1, 1975—Final compliance with the low-sulfur fuel requirements of section 230.2(c) of subchapter A, chapter III, title 6 of New York State's official compilation of codes, rules, and regulations.

(3) Any owner or operator of a stationary source subject to subparagraph (1) of this paragraph who elects to utilize stack gas desulfurization shall be subject to the following compliance schedule:

(i) November 1, 1973—Let necessary contracts for construction.

(ii) March 31, 1974—Initiate onsite construction.

(iii) February 28, 1975—Complete onsite construction.

(iv)(a) June 30, 1975—Final compliance with the requirements of section 225.3(c) of subchapter A, chapter III, title 6 of New York State's official compilation of codes, rules, and regulations.

(b) October 1, 1975—Final compliance with the requirements of section 230.2(c) of subchapter A, title 6 of New York State's official compilation of codes, rules, and regulations.

(v) If a performance test is necessary for a determination as to whether compliance with subpart (3)(iv)(a) or (b) has been achieved, such a test must be completed by June 30, 1975, or October 1, 1975, respectively. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(4) The owner or operator of any boiler or furnace of more than 250 million Btu per hour heat input subject to the requirement of section 230.2(d) of subchapter A, chapter III, title 6 of the New York State's official compilation of codes, rules, and regulations shall notify the Administrator no later than October 1, 1973, of his intent to utilize either low-sulfur fuel or stack gas desulfurization to meet the requirements of said regulation.

(5) Any owner or operator of a stationary source subject to subparagraph (4) of this paragraph who elects low-sulfur fuel shall be subject to the following compliance schedule:

(i) November 1, 1973—Submit to the Administrator a projection of the amount of fuel, by types, that will be substantially adequate to enable compliance with section 230.2(d) of the codes, rules, and regulations cited in subparagraph (4) of this paragraph on October 1, 1974, and for at least one year thereafter.

(ii) December 31, 1973—Sign contracts with fuel suppliers for fuel requirements as projected above.

(iii) January 31, 1974—Submit a statement as to whether boiler modifications will be required. If modifications will be required, submit plans for such modifications.

(iv) March 15, 1974—Let contracts for necessary boiler modifications, if applicable.

(v) June 15, 1974—Initiate onsite modifications, if applicable.

(vi) September 3, 1974—Complete onsite modifications, if applicable.

(vii) October 1, 1974—Final compliance with the low-sulfur fuel requirements of section 230.2(d) of subchapter A, chapter III, title 6 of New York State's official compilation of codes, rules, and regulations.

(6) Any owner or operator of a stationary source subject to subparagraph (5) of this paragraph who elects to utilize stack gas desulfurization shall be subject to the following compliance schedule:

(i) November 1, 1973—Let necessary contracts for construction.

(ii) December 31, 1973—Initiate onsite construction.

(iii) September 1, 1974—Complete onsite construction.

(iv) October 1, 1974—Final compliance with the requirements of section 230.2(d) of subchapter A, chapter III, title 6 of New York State's official compilation of codes, rules, and regulations.

(v) If a performance test is necessary for a determination as to whether compliance has been achieved, such a test must be completed by October 1, 1974. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(7) The owner or operator of any petroleum refinery subject to the requirements of section 223.1(a) of subchapter A, chapter III, title 6 of New York State's official compilation of codes, rules, and regulations shall comply with the compliance schedule in subparagraph (8) of this paragraph.

(8) Any owner or operator of a petroleum refinery subject to subparagraph (7) of this paragraph shall be subject to the following compliance schedule:

(i) November 1, 1973—Submit final control plan to the Administrator.

(ii) February 28, 1974—Let necessary contracts for construction or installation of emission control equipment.

(iii) June 30, 1974—Initiate onsite construction or installation of emission control equipment.

(iv) November 30, 1974—Complete onsite construction or installation of emission control equipment.

(v) December 31, 1974—Final compliance with the requirements of § 223.1 (a) of subchapter A, chapter III, title 6 of New York State's official compilation of codes, rules, and regulations.

(9) The owner or operator of any coke oven battery subject to the requirements of part 214, sections 214.2 and 214.4, of subchapter A, chapter III, title 6 of the New York State's official compilation of codes, rules, and regulations for a facility with an environmental rating B as determined by part 212 of subchapter A, chapter III, title 6 of the New York State official compilation of codes, rules, and regulations, shall comply with the compliance schedule in subpargaraph (10) of this paragraph.

(10) Any owner or operator of a coke oven battery subject to subparagraph (9) of this paragraph shall be subject to the following compliance schedule:

(i) November 1, 1973—Submit final control plan to the Administrator.

(ii) February 1, 1974—Let necessary contract for construction or installation of control equipment.

(iii) April 15, 1974—Initiate onsite construction or installation of control equipment.

(iv) November 30, 1974—Complete onsite construction or installation of control equipment.

(v) December 31, 1974—Final compliance with the requirements of part 214, sections 214.2 and 214.4, of the subchapter A, chapter III, title 6 of the New York State's official compilation of codes, rules, and regulations.

(11) Any owner or operator subject to a compliance schedule above shall certify to the Administrator, within five days after the deadline for each increment of progress in that schedule, whether or not the increment has been met.

(12)(i) The requirements of subparagraphs (1) through (11) of this paragraph shall not apply to any source which is presently in compliance with the applicable regulations and which has certified such compliance to the Administrator within thirty days of the effective date of this paragraph. The Administrator may request whatever supporting information he considers necessary for proper certification.

(ii) Any compliance schedule adopted by the State and approved by the Administrator shall satisfy the requirements of this paragraph for the affected source.

(iii) Any owner or operator subject to a compliance schedule above may submit to the Administrator, no later than thirty days after the effective date of this paragraph, a proposed alternative compliance schedule. No such compliance schedule may provide for final compliance after the final compliance date in the applicable regulation. If promulgated by the Administrator, such schedule shall satisfy the requirements of this paragraph for the affected source.

(13) Nothing in this paragraph shall preclude the Administrator from promulgating a separate schedule for any source to which the application of the compliance schedule in subparagraphs (2), (3), (5), (6), (8), and (10) of this

V 38-163 AUG 23 73 XUM

paragraph fails to satisfy the requirements of § 51.15 (b) and (c) of this chapter.

Subpart MM—Oregon

14. In § 52.1970 paragraph (c) is revised to read as follows:

§ 52.1970 Identification of plan.

• • • • •

(c) Supplemental information was submitted on:

(1) May 3, and October 26, 1972, and February 9, April 13, May 30, June 8, June 22, June 25, July 17, and August 3, 1973.

15. Section 52.1975 is amended by adding new paragraphs (b) and (c), as follows:

§ 52.1975 Compliance schedules.

• • • • •

(b) The compliance schedules for the sources identified below are approved as meeting the requirements of § 51.15 of this chapter. All regulations cited are contained in the Oregon Administrative Rules, Chapter 340, unless otherwise indicated.

Source	Location	Regulation involved	Date of adoption	Effective date	Final compliance date
Crown Zellerbach Corp.	Wauna	OAR 340 Sec 25-170	Aug. 2, 1972	Immediately	May 1, 1975
Georgia Pacific Corp.	Toledo	do	do	do	Jan. 1, 1975
Hanna Nickel Co.	Riddle	OAR 340 Sec 25-415	Jan. 26, 1973	do	July 1, 1974

(c) *Federal compliance schedules.*—(1) Except as provided in subparagraph (11) of this paragraph the owner or operator of any primary aluminum plant subject to the following emission limiting regulation in the Oregon implementation plan shall comply with the compliance schedule in subparagraph (2) of this paragraph: Oregon Administrative Rules, chapter 340, section 25-265 (app. 2-A of the Oregon Implementation Plan).

(2) Compliance schedule for primary aluminum plants:

(i) December 1, 1973—Submit to the Administrator a final control plan which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulations.

(ii) January 31, 1974—Negotiate and sign all necessary contracts for emission control systems or process modifications or issue orders for the purchase of component parts to accomplish emission control or process modification.

(iii) December 9, 1974—Complete onsite construction or installation of emission control equipment or process modification.

(iv) January 1, 1975—Achieve compliance with the applicable regulations and certify such compliance to the Administrator.

(3) Except as provided in subparagraph (11) of this paragraph, the owner or operator of any Kraft pulp mill subject to the following emission limiting regulation in the Oregon Implementation Plan shall comply with the compliance schedules in subparagraphs (2) and (3) of this paragraph: Oregon Administrative Rules, chapter 340, section 25-170 (2)(a) (recovery furnaces) and (b) (lime kilns) (app. 2-A of the Oregon Implementation Plan).

(4) Compliance schedule for recovery furnaces:

(i) October 1, 1973—Submit to the Administrator a final control plan, which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulations.

(ii) December 17, 1973—Negotiate and sign all necessary contracts for emission control systems or process modifications, or issue orders for the purchase of component parts to accomplish emission control or process modification.

(iii) May 26, 1975—Complete onsite construction or installation of emission control equipment or process modification.

(iv) July 1, 1975—Achieve compliance with the applicable regulations, and certify such compliance to the Administrator.

(5) Compliance schedule for lime kilns:

(i) October 1, 1973—Submit to the Administrator a final control plan, which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulations.

(ii) November 1, 1973—Negotiate and sign all necessary contracts for emission control systems or process modifications, or issue orders for the purchase of component parts to accomplish emission control or process modification.

(iii) July 29, 1974—Complete onsite construction or installation of emission control equipment or process modification.

(iv) August 26, 1974—Achieve compliance with the applicable regulations, and certify such compliance to the Administrator.

(6) Except as provided in subparagraph (11) of this paragraph, the owner or operator of any sulfite pulp mill subject to the following emission-limiting regulation in the Oregon Implementation Plan shall comply with the compliance schedule in subparagraph (5) and (6), as applicable, of this paragraph: Oregon Administrative Rules, chapter, 340, section 25-36 (app. 2-A of the Oregon Implementation Plan).

(7) Compliance schedule for sulfite mills of 110 tons or greater of air dried unbleached pulp per day:

(i) October 1, 1973—Submit to the Administrator a final control plan, which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulations.

(ii) November 1, 1973—Negotiate and sign all necessary contracts for emission control systems or process modifications, or issue orders for the purchase of component parts to accomplish emission control or process modification.

(iii) May 20, 1974—Complete onsite construction or installation of emission control equipment or process modification.

(iv) July 1, 1974—Achieve compliance with the applicable regulations and certify such compliance to the Administrator.

(8) Compliance schedule for sulfite mills of less than 110 tons of air dried unbleached pulp per day:

(i) October 1, 1973—Submit to the Administrator a final control plan, which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulations.

(ii) February 1, 1974—Negotiate and sign all necessary contracts for emission control systems or process modifications, or issue orders for the purchase of component parts to accomplish emission control or process modification.

(iii) August 1, 1974—Complete onsite construction or installation of emission control equipment or process modification.

(iv) November 1, 1974—Achieve compliance with the applicable regulations, and certify such compliance to the Administrator.

(9) If a performance test is necessary for a determination as to whether compliance has been achieved, such a test must be completed by the final compliance date in the applicable compliance schedule. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(10) Within five days after the deadline for completing increments (ii) and (iii) in a compliance schedule above, certify to the Administrator whether the increment has been met.

(11)(i) The requirements of subparagraphs (1) through (10) of this paragraph shall not apply to any source which is presently in compliance with the applicable regulations and which has certified such compliance to the Administrator within thirty days of the effective date of this paragraph. The Administrator may request whatever supporting information he considers necessary for proper certification.

(ii) Any compliance schedule adopted by the State and approved by the Administrator shall satisfy the requirements of this paragraph for the affected source.

(iii) Any owner or operator subject to a compliance schedule above may submit to the Administrator, no later than thirty days after the effective date of this paragraph, a proposed alternative compliance schedule. No such compliance schedule may provide for final compliance after the final compliance date in the applicable regulation. If promulgated by the Administrator, such schedule shall satisfy the requirements of this paragraph for the affected source.

(12) Nothing in this paragraph shall preclude the Administrator from promulgating a separate schedule for any source to which the application of a compliance schedule in this paragraph fails to satisfy the requirements of § 51.15 (b) and (c) of this chapter.

Subpart OO—Rhode Island

16. In § 52.2077, paragraph (b) is amended by deleting from the table of sources the Providence, Pawtucket, and Newport Municipal Incinerators, and by adding new paragraphs (c) and (d) as follows:

§ 52.2077 Compliance schedules.

• • • • •

(c) The compliance schedules for the sources identified below are approved as meeting the requirements of § 51.15 of this chapter. All regulations cited are air pollution control regulations of the State, unless otherwise noted.

Source	Location	Regulation involved	Date of adoption	Effective date	Final compliance date
Providence Municipal Incinerator	Providence	12.2.2(c)	Apr. 24, 1973	Immediately	Jan. 31 1974
Pawtucket Municipal Incinerator	Pawtucket	12.2.2(c)	do	do	May 31, 1975
Newport Municipal Incinerator	Newport	12.2.2(c)	do	do	Dec. 31, 1973

(d) *Federal compliance schedules.*—The compliance schedules for the sources identified below are promulgated herein in satisfaction of the requirements of § 51.15 of this chapter. All regulations cited are air pollution control regulations of the State, unless otherwise noted.

Source	Location	Regulation involved	Effective date	Final compliance date
Woonsocket Municipal Incinerator	Woonsocket	12.2.2(c)	Immediately	May 31, 1975

Subpart PP—South Carolina

17. Section 52.2123 is amended by adding new lines to the table in paragraph (b), and by adding a new paragraph (c), as follows:

§ 52.2123 Compliance schedules.

• • • • • • •

(b) • • •

Source	Location	Regulation involved	Date of adoption	Effective date	Final compliance date
Duke Power Co., Lee Plant Unit 1.	Anderson County, S.C.	S2A-I R4A-II	Jan. 12, 1973	Immediately	Dec. 31, 1973
E. I. Dupont de Nemours and Co., May Plant.	Camden, S.C.	S1A S2A-I R4A-III	Jan. 11, 1973	do	July 1, 1974
W. R. Grace and Co.	Charleston, S.C.	S5A-I R4A	Oct. 19, 1973	do	July 1, 1973
J. P. Stevens and Co., Inc., Victor Plant.	Greer, S.C.	S2A-I S2A-II R4A	Jan. 11, 1973	do	July 12, 1973
U.S. Atomic Energy Commission, Savannah River Plant, Area 400-D Units 1, 2, 3, and 4.	Aiken County, S.C.	S2A-I R4A-II	Jan. 24, 1973	do	July 1, 1974

(c) *Federal compliance schedules.*—(1) Except as provided in subparagraph (14) of this paragraph, the owner or operator of any stationary source subject to emission limiting regulations of the South Carolina Implementation Plan shall comply with the applicable compliance schedule in subparagraphs (2) through (11) of this paragraph.

(2) The owner or operator of any boiler or furnace of more than 250 million Btu per hour heat input subject to the requirements of South Carolina standard 2A, section II B and C, and located in an AQCR listed at the end of this subparagraph, shall notify the Administrator, no later than October 1, 1973, of his intent to utilize either low-sulfur fuel or stack gas desulfurization to meet these requirements. Camden-Sumter AQCR; Charleston Intrastate AQCR; Columbia Intrastate AQCR; Florence Intrastate AQCR; Georgetown Intrastate AQCR; Greenville-Spartanburg Intrastate AQCR; Greenwood Intrastate AQCR.

(3) Any owner or operator of a stationary source subject to subparagraph (2) of this paragraph who elects to utilize low-sulfur fuel shall be subject to the following compliance schedule:

(i) November 1, 1973—Submit to the Administrator a projection of the amount of fuel, by types, that will be substantially adequate to enable compliance with the applicable regulation on July 1, 1977, and for at least one year thereafter, as well as a statement as to whether boiler modifications will be required. If so, final plans must be submitted for such modifications.

(ii) May 1, 1974—Sign contracts with fuel supplier for fuel requirements as projected above.

(iii) May 1, 1975—Let contracts for necessary boiler modifications, if applicable.

(iv) January 1, 1976—Initiate onsite modifications, if applicable.

(v) May 1, 1977—Complete onsite modifications, if applicable.

(vi) July 1, 1977—Achieve compliance with the requirements of South Carolina standard 2A, section II B and C, and certify such compliance to the Administrator.

(4) Any owner or operator of a stationary source subject to subparagraph (2) of this paragraph, who elects to utilize stack gas desulfurization shall be subject to the following compliance schedule:

(i) November 1, 1973—Submit to the Administrator a final control plan which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulation.

(ii) May 1, 1974—Negotiate and sign all necessary contracts for emission control systems or process modifications, or issue orders for the purchase of component parts to accomplish emission control or process modification.

(iii) May 1, 1975—Initiate onsite construction or installation of emission control equipment or process modification.

(iv) May 1, 1977—Complete onsite construction or installation of emission control equipment process modification.

(v) July 1, 1977—Achieve compliance with the applicable regulations and certify such compliance to the Administrator.

(5) The owner or operator of any boiler or furnace of more than 250 million Btu per hour heat input subject to the requirements of South Carolina standard 2A, section II B and C, and located in an AQCR listed at the end of this subparagraph, shall notify the Administrator, no later than January 1, 1974, of his intent to utilize either low-sulfur fuel or stack gas desulfurization to meet the requirements of said regulations: Augusta-Aiken Interstate AQCR; Metropolitan Charlotte Interstate AQCR; Savannah-Beaufort Interstate AQCR.

(6) Any ower or operator of a stationary source subject to subparagraph (5) of this paragraph who elects to utilize low-sulfur fuel shall be subject to the following compliance schedule:

(i) January 31, 1974—Submit to the Administrator a projection of the amount of fuel, by types, that will be substantially adequate to enable compliance with the applicable regulation on July 1, 1975, and for at least one year thereafter.

(ii) March 31, 1974—Sign contracts with fuel suppliers for fuel requirements as projected above.

(iii) April 30, 1974—Submit a statement as to whether boiler modifications will be required. If modifications will be required, submit plans for such modifications.

(iv) May 31, 1974—Let contracts for necessary boiler modifications, if applicable.

(v) October 31, 1974—Initiate onsite modifications, if applicable.

V38-163 AUG 23 73 XUM

(vi) June 1, 1975—Complete onsite modifications, if applicable.

(vii) July 1, 1975—Achieve compliance with the requirements of South Carolina standard 2A, section II B and C, and certify such compliance to the Administrator.

(7) Any owner or operator of a stationary source subject to subparagraph (5) of this paragraph, who elects to utilize stack gas desulfurization shall be subject to the following compliance schedule:

(i) January 31, 1974—Submit to the Administrator a final control plan, which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulations.

(ii) February 28, 1974—Negotiate and sign all necessary contracts for emission control systems or process modifications, or issue orders for the purchase of component parts to accomplish emission control or process modification.

(iii) May 1, 1974—Initiate onsite construction of emission control equipment or process modification.

(iv) May 1, 1975—Complete onsite construction or installation of emission control equipment or process modification.

(v) July 1, 1975—Achieve compliance with the applicable regulations and certify such compliance to the Administrator.

(8) Compliance schedule for sources subject to standard 5A, section II of the air pollution regulations and standards for the State of South Carolina.

(i) October 1, 1973—Submit to the Administrator a final control plan, which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulations.

(ii) December 1, 1973—Negotiate and sign all necessary contracts for emission control systems or process modifications, or issue order for the purchase of component parts to accomplish emission control or process modification.

(iii) January 1, 1974—Initiate onsite construction or installation of emission control equipment or process modification.

(iv) May 1, 1975—Complete onsite construction or installation of emission control equipment or process modification.

(v) July 31, 1975—Achieve compliance with the applicable regulations and certify such compliance to the Administrator.

(9) Any owner or operator of a stationary source subject to the requirements of standard 5A, sections I and VI B and C of the air pollution control regulations and standards for the State of South Carolina shall be subject to the compliance schedule in subparagraph (4) of this paragraph.

(10) Compliance schedule for primary and secondary metals plants subject to standard 5A, section VII of the air pollution control regulations and standards for the State of South Carolina:

(i) October 1, 1973—Submit to the Administrator a final control plan, which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulations.

(ii) December 1, 1973—Negotiate and sign all necessary contracts for emission control systems or process modifications, or issue orders for the purchase of component parts to accomplish emission control or process modification.

(iii) January 1, 1974—Initiate onsite construction or installation of emission control equipment or process modification.

(iv) March 1, 1975—Complete onsite construction or installation of emission control equipment or process modification.

(v) May 1, 1975—Achieve compliance with the applicable regulations and certify such compliance to the Administrator.

(11) Compliance schedule for sources subject to standard 2A, section I and standard 5A, sections III, IV, and V of the air pollution control regulations and standards for the State of South Carolina:

(i) September 15, 1973—Submit to the Administrator a final control plan, which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulations.

(ii) November 1, 1973—Negotiate and sign all necessary contracts for emission control systems or process modifications, or issue orders for the purchase of component part to accomplish emission control or process modification.

(iii) December 1, 1973—Initiate onsite construction or installation of emission control equipment or process modification.

(iv) June 1, 1974—Complete onsite construction or installation of emission control equipment or process modification.

(v) July 1, 1974—Achieve compliance with the applicable regulations and certify such compliance with the Administrator.

(12) If a performance test is necessary for a determination as to whether compliance has been achieved, such a test must be completed on or before the final compliance dates listed in each subparagraph (2) through (11) of this paragraph. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(13) Five days after the deadline for completing increments (ii) through (v) in subparagraph (3), increments (ii) through (vi) in subparagraph (6), and increments (ii) through (iv) in subparagraphs (4), (7), (8), (10), and (11) of this paragraph, certification as to whether the increments were met shall be made to the Administrator.

(14) (i) None of the above subparagraphs shall apply to a source which is presently in compliance with the applicable regulations and which has certified such compliance to the Administrator within thirty days of the effective date of this paragraph. The Administrator may request whatever supporting information he considers necessary for proper certification.

(ii) Any compliance schedule adopted by the State and approved by the Administrator shall satisfy the requirements of this paragraph for the affected source.

(iii) Any owner or operator subject to a compliance schedule in this paragraph may submit to the Administrator no later than thirty days after the effective date of this paragraph a proposed alternative compliance schedule. No such compliance schedule may provide final compliance after the final compliance date in the applicable compliance schedule of this paragraph. If promulgated by the Administrator, such schedule shall satisfy the requirements of this paragraph for the affected source.

(15) Nothing in this paragraph shall preclude the Administrator from promulgating a separate schedule for any source to which the application of a compliance schedule in this paragraph fails to satisfy the requirements of § 51.15 (b) and (c) of this chapter.

Subpart RR—Tennessee

18. Section 52.2220 is amended by adding a new paragraph (c)(4), as follows:

§ 52.2220 Identification of plan.

(see) • • •

• • • • • •

(4) June 27, 1973, from the Division of Air Pollution Control, Tennessee Department of Public Health.

19. Section 52.2223 is amended by adding new paragraphs (a) and (e), as follows:

§ 52.2223 Compliance schedules.

(a) *Federal compliance schedules—State program.*—(1) Except as provided in subparagraph (4) of this paragraph, the owner or operator of any boiler or furnace of more than 250 million Btu per hour heat input subject to the requirements of Tennessee air pollution control regulation chapter VI, section 4.B.1, as contained in the Tennessee implementation plan, shall notify the Administrator, no later than October 1, 1973, of his intent to utilize either low-sulfur fuel or stack gas desulfurization to meet these requirements.

(2) Any owner or operator of a stationary source subject to subparagraph (1) of this paragraph who elects to utilize low-sulfur fuel shall be subject to the following compliance schedule:

(i) November 1, 1973—Submit to the Administrator a projection of the amount of fuel, by types, that will be substantially adequate to enable compliance with the applicable regulation on July 1, 1975, and for at least one year thereafter.

(ii) December 31, 1973—Sign contracts with fuel suppliers for fuel requirements as projected above.

(iii) January 31, 1974—Submit a statement as to whether boiler modifications will be required. If modifications will be required, submit plans for such modifications.

(iv) May 31, 1974—Let contracts for necessary boiler modifications, if applicable.

(v) October 31, 1974—Initiate onsite modifications, if applicable.

(vi) June 1, 1975—Complete onsite modifications, if applicable.

(vii) July 1, 1975—Achieve compliance with the requirements of Tennessee air pollution control regulations chapter VI, section 4.B.1, and certify compliance to the Administrator.

(viii) If a performance test is necessary for a determination as to whether compliance has been achieved, such a test must be completed on or before July 1, 1975. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(ix) Five days after the deadline for completing increments (ii) through (vi) in this subparagraph certification as to whether the increments were met shall be made to the Administrator.

(3) Any owner or operator of a stationary source subject to subparagraph (1) of this paragraph who elects to utilize stack gas desulfurization shall be subject to the following compliance schedule:

(i) January 31, 1974—Submit to the Administrator a final control plan, which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulations.

(ii) February 28, 1974—Negotiate and sign all necessary contracts for emission-control systems or process modification, or issue orders for the purchase of component parts to accomplish emission control or process modification.

(iii) May 1, 1974—Initiate onsite construction or installation of emission-control equipment or process modification.

(iv) May 1, 1975—Complete onsite construction or installation of emission-control equipment or process modification.

(v) July 1, 1975—Achieve compliance with the requirements of Tennessee air pollution control regulation chapter VI, section 4.B.1, and certify compliance to the Administrator.

(vi) If a performance test is necessary for a determination as to whether compliance has been achieved, such a test must be completed on or before July 1, 1975. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(vii) Five days after the deadline for completing increments (ii) through (iv) in this subparagraph, certification as to whether the increments were met shall be made to the Administrator.

(4) (i) None of the above subparagraphs shall apply to a source which is presently in compliance with applicable regulations and which has certified such compliance to the Administrator within thirty days of the effective date of this paragraph. The Administrator may request whatever supporting information he considers necessary for proper certification.

(ii) Any compliance schedule adopted by the State and approved by the Administrator shall satisfy the requirements of this paragraph for the affected source.

(iii) Any owner or operator subject to a compliance schedule in this paragraph may submit to the Administrator no later than thirty days after the effective date of this paragraph a proposed alternative compliance schedule. No such compliance schedule may provide for final compliance after the final compliance date in the applicable compliance schedule of this paragraph. If promulgated by the Administrator, such schedule shall satisfy the requirements of this paragraph for the affected source.

(5) The compliance schedules in subparagraphs (2) and (3) of this paragraph shall not excuse a source from complying with any interim emission limitations on the date prescribed in the Tennessee air pollution control regulation listed in subparagraph (1) of this paragraph.

(6) Nothing in this paragraph shall preclude the Administrator from promulgating a separate schedule for any source to which the application of the compliance schedules in the above subparagraphs of this paragraph fail to satisfy the requirements of § 51.15(b) and (c) of this chapter.

• • • • • •

(e) *Federal compliance schedules—Local programs.*—(1) Except as provided in subparagraph (16) of this paragraph, the owner or operator of any stationary source subject to the following emission limiting regulations of the Knox County Air Pollution Control Regulations and the City of Memphis Air Pollution Control Code and Shelby County Air Pollution Control Code contained as part of the Tennessee implementation plan shall comply with the compliance schedule in subparagraph (2) of this paragraph: Knox County Air Pollution Control Regulations, Sections 18.2C; 19.4B; 20.1D; and 23.1; City of Memphis Air Pollution Control Code and Shelby County Air Pollution Control Code Section 3-24(d).

(2) *Compliance schedule.*—(i) October 1, 1973—Submit to the Administrator a final control plan, which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulations.

(ii) December 1, 1973—Negotiate and sign all necessary contracts for emission control systems or process modifications, or issue orders for the purchase of component parts to accomplish emission control or process modification.

(iii) January 1, 1974—Initiate onsite construction or installation of emission control equipment or process modification.

(iv) May 1, 1975—Complete onsite construction or installation of emission control equipment or process modification.

(v) June 1, 1975—Achieve compliance with the applicable regulations and certify such compliance to the Administrator.

(3) Except as provided in subparagraph (16) of this paragraph, the owner or operator of any stationary source subject to the following emission limiting regulation of the Knox County Air Pollution Control Regulations contained as part of the Tennessee implementation plan shall comply with the compliance schedule in subparagraph (4) of this paragraph: Knox County Air Pollution Control Regulations, Section 19.2C.

(4) *Compliance schedule.*—(i) October 1, 1973—Submit to the Administrator a final control plan, which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulations.

(ii) December 1, 1973—Negotiate and sign all necessary contracts for emission control systems or process modifications, or issue orders for the purchase of component parts to accomplish emission control or process modification.

(iii) January 1, 1974—Initiate onsite construction or installation of emission control equipment or process modification.

(iv) May 1, 1975—Complete onsite construction or installation of emission control equipment or process modification.

(v) June 1, 1975—Achieve compliance with the applicable regulations and certify such compliance to the Administrator.

(5) Except as provided in subparagraph (16) of this paragraph, the owner or operator of any boiler or furnace of more than 250 million Btu per hour heat input subject to the requirements of Knox County Air Pollution Control Regulations, section 18.4B; and City of Memphis Air Pollution Control Code and Shelby County Air Pollution Control Code, Section 3-24(b), contained as part of the Tennessee implementation plan shall notify the Administrator no later than October 1, 1973, of his intent to utilize either low-sulfur fuel or stack gas desulfurization to meet these requirements.

(6) Any owner or operator of a stationary source subject to subparagraph (5) of this paragraph who elects to utilize low-sulfur fuel shall be subject to the following compliance schedule:

(i) November 1, 1973—Submit to the Administrator a projection of the amount of fuel, by types, that will be substantially adequate to enable compliance with the applicable regulation on July 1, 1975, and for at least one year thereafter.

(ii) December 31, 1973—Sign contracts with fuel suppliers for fuel requirements as projected above.

(iii) January 31, 1974—Submit a statement as to whether boiler modifications will be required. If modifications will be required, submit plans for such modifications.

(iv) March 15, 1974—Let contracts for necessary boiler modifications, if applicable.

(v) June 15, 1974—Initiate onsite modifications, if applicable.

V38-163 AUG 23 73 XUM

(vi) March 31, 1975—Complete onsite modifications, if applicable.

(vii) July 1, 1975—Achieve compliance with the requirements of Knox County Air Pollution Control Regulations, section 18.4B, and City of Memphis Air Pollution Control Code and Shelby County Air Pollution Control Code Section 3-24 (b) and certify such compliance to the Administrator.

(7) Any owner or operator of a stationary source subject to subparagraph (5) of this paragraph who elects to utilize stack gas desulfurization shall be subject to the following compliance schedule:

(i) November 1, 1973—Submit to the Administrator a final control plan, which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulation.

(ii) January 1, 1974—Negotiate and sign all necessary contracts for emission control systems or process modification, or issue orders for the purchase of component parts to accomplish emission control or process modification.

(iii) February 1, 1974—Initiate onsite construction or installation of emission control equipment or process modification.

(iv) May 1, 1975—Complete onsite construction or installation of emission control equipment or process modification.

(v) July 1, 1975—Achieve compliance with the applicable regulation and certify such compliance to the Administrator.

(8) Except as provided in subparagraph (16) of this paragraph, the owner or operator of any stationary source subject to the following emission limiting regulation of the Hamilton County Air Pollution Control Regulations contained as part of the Tennessee implementation plan shall comply with the compliance schedule in subparagraph (9) of this paragraph: Hamilton County Air Pollution Control Regulations, rule 10 (particulate emissions from process operations).

(9) Compliance schedule. (i) September 15, 1973—Submit to the Administrator a final control plan, which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulations.

(ii) November 1, 1973—Negotiate and sign all necessary contracts for emission control systems or process modifications, or issue orders for the purchase of component parts to accomplish emission control or process modification.

(iii) December 1, 1973—Initiate onsite construction or installation of emission control equipment or process modification.

(iv) June 1, 1974—Complete onsite construction or installation of emission control equipment or process modification.

(v) July 1, 1974—Achieve compliance with the applicable regulations, and certify such compliance to the Administrator.

(10) Except as provided in subparagraph (16) of this paragraph, the owner or operator of any process (non-fuel burning) source of sulfur dioxide subject to the emission limiting requirements of the Hamilton County Air Pollution Control Regulations, rule 13, contained as part of the Tennessee implementation plan shall comply with the compliance schedule in subparagraph (9) of this paragraph.

(11) Except as provided in subparagraph (16) of this paragraph, the owner or operator of any boiler or furnace of more than 250 million Btu per hour heat input subject to the sulfur dioxide emission limiting requirements of the Hamilton County Air Pollution Control Regulations, rule 13, contained as part of the Tennessee implementation plan shall notify the Administrator, no later than October 1, 1973, of his intent to utilize either low-sulfur fuel or stack gas desulfurization to meet these requirements.

(12) Any owner or operator of a fuel burning facility subject to subparagraph (11) of this paragraph who elects to utilize low-sulfur fuel shall be subject to the following compliance schedule:

(i) November 1, 1973—Submit to the Administrator a projection of the amount of fuel, by types, that will be substantially adequate to enable compliance with the applicable regulation on July 1, 1974, and for at least one year thereafter.

(ii) December 1, 1973—Sign contracts with fuel suppliers for fuel requirements as projected above.

(iii) January 1, 1974—Submit a statement as to whether boiler modifications will be required. If modifications will be required, submit plans for such modifications.

(iv) February 1, 1974—Let contracts for necessary boiler modifications, if applicable.

(v) February 15, 1974—Initiate onsite modifications, if applicable.

(vi) June 15, 1974—Complete onsite modifications, if applicable.

(vii) July 1, 1974—Achieve compliance with the requirements of Hamilton County Air Pollution Control Regulations, rule 13, and certify such compliance to the Administrator.

(13) Any owner or operator of a fuel burning facility subject to subparagraph (11) of this paragraph who elects to utilize stack gas desulfurization shall be subject to the following compliance schedule:

(i) November 1, 1973—Submit to the Administrator a final control plan, which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulations.

(ii) December 1, 1973—Negotiate and sign all necessary contracts for emission control systems or process modifications, or issue orders for the purchase of component parts to accomplish emission control or process modification.

(iii) December 15, 1973—Initiate onsite construction or installation of emission control equipment or process modification.

(iv) June 15, 1974—Complete onsite construction or installation of emission control equipment or process modification.

(v) July 1, 1974—Achieve compliance with the applicable regulations, and certify such compliance to the Administrator.

(14) If a performance test is necessary for a determination as to whether compliance has been achieved, such a test must be completed by the final compliance date in the applicable regulation. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(15) Any owner or operator subject to a compliance schedule above shall certify to the Administrator, within five days after the deadline for each increment of progress in that schedule, whether or not the increment has been met.

(16) (i) None of the above subparagraphs shall apply to a source which is presently in compliance with applicable regulations and which has certified such compliance to the Administrator within thirty days of the effective date of this paragraph. The Administrator may request whatever supporting information he considers necessary for proper certification.

(ii) Any compliance schedule adopted by the State and approved by the Administrator shall satisfy the requirements of this paragraph for the affected source.

(iii) Any owner or operator subject to a compliance schedule in this paragraph may submit to the Administrator no later than thirty days of the effective date of this paragraph a proposed alternative compliance schedule. No such compliance may provide for final compliance after the final compliance date in the applicable compliance schedule of this paragraph. If promulgated by the Administrator, such schedule shall satisfy the requirements of this paragraph for the affected source.

(17) No compliance schedule in this paragraph shall excuse a source from complying with an interim emission limitation that is applicable to such source.

(18) Nothing in this paragraph shall preclude the Administrator from promulgating a separate schedule for any source to which the application of a compliance schedule in this paragraph fails to satisfy the requirements of § 51.15 (b) and (c) of this chapter.

Subpart WW—Washington

20. In section 52.2460, paragraph (c) is revised to read as follows:

§ 52.2460 Identification of plan.

* * * * * *

(c) Supplemental information was submitted on. (1) January 28, May 5, July 19, September 11, and December 12, 1972, February 15, April 13, and July 31, 1973, by the Department of Ecology.

21. Section 52.2481 is amended as follows: Paragraphs (a) and (b) are revised, paragraph (c) is revoked and reserved, and paragraph (d) is added. As amended, § 52.2481 reads as follows:

§ 52.2481 Compliance schedules.

(a) The requirements of § 51.15(c) of this chapter are not met since a compliance schedule for control of sulfur oxides from a petroleum refinery has not been formally adopted and submitted.

(b) The compliance schedules for the sources identified below are approved as meeting the requirements of § 51.15 of this chapter. All regulations cited are contained in the Washington Administrative Code (WAC) Title 18, unless otherwise noted.

Source	Location	Regulation involved	Date of adoption	Effective date	Final compliance
Crown Zellerbach Corp.	Port Townsend.	WAC 18-36-030	July 17, 1973	Immediately	June 30, 1975
Do	Camas	do	do	do	Do.
Weyerhaeuser Co	Longview	do	do	do	Mar. 1, 1975
Do	Everett	do	do	do	Jan. 31, 1976
St. Regis Paper Co	Tacoma	do	do	do	Jan. 1, 1976
Boise Cascade Papers	Wallula	do	do	do	Do.
Longview Fibre Co	Longview	do	do	do	Jan. 1, 1974
Georgia Pacific Corp	Bellingham	WAC 18-38-030	Dec. 18, 1972	do	Immediately
Crown Zellerbach, Co	Camas	do	July 17, 1973	do	July 1, 1974
ITT Rayonier, Inc	Port Angeles	do	do	do	July 17, 1973
Do	Hoquiam	do	do	do	July 1, 1974
Weyerhaeuser Co	Everett	do	Feb. 9, 1973	do	May 31, 1974
Do	Longview	do	July 17, 1973	do	Dec. 1, 1973
Do	Cosmopolis	do	do	do	July 1, 1974
Scott Paper Co	Everett	do	do	do	Do.
Kaiser Aluminum & Chemical Corp.	Tacoma	WAC 18-52-030	Dec. 18, 1972	do	Sept. 1, 1974
Do	Mead	do	Jan. 22, 1973	do	July 1, 1974
Intalco Aluminum	Ferndale	do	Dec. 18, 1972	do	May 1, 1973
Martin-Marietta Aluminum	Goldendale	do	Feb. 9, 1973	do	Sept. 30, 1973
Reynolds Metal Co	Longview	do	Dec. 18, 1972	do	Nov. 1, 1974
Aluminum Co. of America	Vancouver	do	July 17, 1973	do	Do.
Do	Wenatchee	do	do	do	July 17, 1973
Witco Chemical Corp	Quincy	WAC 18-04-060	Feb. 9, 1973	do	Feb. 28, 1974
Lehigh Cement Co	Metaline Falls	do	do	do	Dec. 31, 1974
Shell Oil Co	Anacortes	NWAPA 2.12	do	do	Sept. 1, 1973

(c) [Reserved]

(d) *Federal compliance schedules.*—(1) Except as provided in subparagraph (9) of this paragraph, the owner or operator of any petroleum refinery subject to the following emission limiting regulation in the Washington Implementation Plan shall comply with the compliance schedule in subparagraph (2) of this paragraph: Northwest Air Pollution Authority, Regulation II, section 2.12, Paragraph E, where applicable (appendix B of the Washington Implementation Plan).

(2) Compliance schedule for petroleum refineries.

(i) March 1, 1974—Complete onsite construction or installation of emission control equipment or process modification.

(ii) July 1, 1974—Achieve compliance with the applicable regulations, and certify such compliance to the Administrator.

(iii) If a performance test is necessary for a determination as to whether compliance has been achieved, such a test must be completed by July 1, 1974. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(iv) Within five days after the deadline for completing increments in subdivisions (ii) and (iii) in this subparagraph, certify to the Administrator whether the increment has been met.

(3) (i) The requirements of subparagraphs (1) and (2) of this paragraph shall not apply to any source which is presently in compliance with the applicable regulations and which has certified such compliance to the Administrator within thirty days of the effective date of this paragraph. The Administrator may request whatever supporting information he considers necessary for proper certification.

(ii) Any compliance schedule adopted by the State and approved by the Administrator shall satisfy the requirements of this paragraph for the affected source.

(iii) Any owner or operator subject to a compliance schedule above may submit to the Administrator, no later than thirty days after the effective date of this paragraph, a proposed alternative compliance schedule. No such compliance schedule may provide for final compliance after the final compliance date in the applicable regulations. If promulgated by the Administrator, such schedules shall satisfy the requirements of this paragraph for the affected source.

(4) Nothing in this paragraph shall preclude the Administrator from promulgating a separate schedule for any source to which the application of a compliance schedule in this paragraph fails to satisfy the requirements of § 51.15 (b) and (c) of this chapter.

Subpart XX—West Virginia

22. Section 52.2524 is amended by adding a new paragraph (b), as follows:

§ 52.2524 Compliance schedules.

* * * * * *

(b) *Federal compliance schedules.*—(1) The owner or operator of any boiler or furnace of more than 250 million Btu per hour heat input subject to the emission limitation requirements of West Virginia Administrative Regulations, Chapter 16-20, Series X (hereinafter regulation X), section 3.01(a) or section 3.03(a), shall notify the Administrator, no later than October 1, 1973, of his intent to meet the requirements of said regulation by utilizing low-sulfur fuel, stack gas desulfurization, or a combination of stack gas desulfurization and low-sulfur fuel.

(2) Any owner or operator of a stationary source subject to subparagraph (1) of this paragraph who elects to utilize low-sulfur fuel, either alone or in combination with stack gas desulfurization, shall be subject to the following compliance schedule:

(i) November 1, 1973—Submit to the Administrator a projection of the amount of fuel, by types, that will be substantially adequate to enable compliance with the applicable regulation on June 30, 1975, and for at least one year thereafter.

(ii) December 31, 1973—Sign contracts with fuel suppliers for fuel requirements as projected above.

(iii) January 31, 1974—Submit a statement as to whether boiler modifications will be required. If modifications will be required, submit plans for such modifications.

(iv) March 15, 1974—Let contracts for necessary boiler modifications, if applicable.

(v) May 15, 1974—Initiate onsite modifications, if applicable.

(vi) February 28, 1975—Complete onsite modifications, if applicable.

(vii) June 30, 1975—Final compliance with the requirements of regulation X, section 3.01(a) or section 3.03(a).

(3) Any owner or operator of a stationary source subject to subparagraph (1) of this paragraph who elects to utilize stack gas desulfurization, either alone or in combination with low-sulfur fuel, and any owner or operator of a stationary source subject to the emission limitation requirements of regulation X, section 3.05, shall be subject to the following compliance schedule:

(i) October 15, 1973—Let necessary contracts for construction.

(ii) February 28, 1974—Initiate onsite construction.

(iii) February 28, 1975—Complete onsite construction.

(iv) June 30, 1975—Final compliance with the requirements of regulation X, section 3.01(a), section 3.03(a), or section 3.05.

(4) The owner or operator of any boiler or furnace of more than 250 million Btu per hour heat input subject to the emission limitation requirements of regulation X, section 3.01(b) or section 3.03(b) shall notify the Administrator, no later than July 31, 1975, of his intent to meet the requirements of said regulation by utilizing low-sulfur fuel, stack gas desulfurization, or a combination of stack gas desulfurization and low-sulfur fuel.

(5) Any owner or operator of a stationary source subject to subparagraph (4) of this paragraph who elects to utilize low-sulfur fuel, either alone or in combination with stack gas desulfurization, shall be subject to the following compliance schedule:

V 38-163 AUG 23 73 XUM

(i) August 31, 1975—Submit to the Administrator a projection of the amount of fuel, by types, that will be substantially adequate to enable compliance with the applicable regulation on June 30, 1978, and for at least one year thereafter, as well as a statement as to whether boiler modifications will be required. Submit final plans for modifications if they will be required.

(ii) October 31, 1975—Sign contracts with fuel suppliers for fuel requirements as projected above.

(iii) December 31, 1975—Let contracts for necessary boiler modifications, if applicable.

(iv) April 30, 1976—Initiate onsite modifications, if applicable.

(v) April 30, 1977—Complete onsite modifications, if applicable.

(vi) June 30, 1978—Final compliance with the requirements of regulation X, section 3.01(b) or section 3.03(b).

(6) Any owner or operator of a stationary source subject to subparagraph (4) of this paragraph who elects to utilize stack gas desulfurization, either alone or in combination with low-sulfur fuel, shall be subject to the following compliance schedule:

(i) October 30, 1975—Submit to the Administrator a final control plan, which describes at a minimum the steps which will be taken by the source to achieve compliance with the applicable regulations.

(ii) February 28, 1976—Let necessary contracts for construction.

(iii) August 31, 1976—Initiate onsite construction.

(iv) December 31, 1977—Complete onsite construction.

(v) June 30, 1978—Final compliance with the requirements of regulation X, section 3.01(b) or section 3.03(b).

(7) Any owner or operator subject to the compliance schedule in subparagraph (2), (3), (5) or (6) of this paragraph shall certify to the Administrator within five days after the deadline for each increment of progress, whether or not the required increment of progress has been met.

(8) If a performance test is necessary for a determination as to whether compliance has been achieved, such a test must be completed by the final compliance date in the applicable regulation. Ten days prior to such a test, notice must be given to the Administrator to afford him the opportunity to have an observer present.

(9) (i) The requirements of subparagraphs (1) through (8) of this paragraph shall not apply to any source which is presently in compliance with the requirements of the applicable regulation and which has certified such compliance to the Administrator within thirty days of the effective date of this paragraph. The Administrator may request whatever supporting information he considers necessary for proper certification.

(ii) Any compliance schedule adopted by the State and approved by the Administrator shall satisfy the requirements of this paragraph for the affected source.

(iii) Any owner or operator subject to a compliance schedule above may submit to the Administrator, no later than thirty days after the effective date of this paragraph, a proposed alternative compliance schedule. No such compliance schedule may provide for final compliance after the final compliance date in the applicable regulation. If promulgated by the Administrator, such schedule shall satisfy the requirements of this paragraph for the affected source.

(iv) The requirements of this paragraph shall not apply to the following sources for which a request for a postponement of the applicability of regulation X had been submitted pursuant to section 110(f) of the Act prior to the date of publication of this regulation:

Source	*Location*
Kammer Station, Ohio Power Company.	Moundsville
Mitchell Station, Ohio Power Company.	Moundsville
Harrison Station, Monongahela Power Company.	Haywood
Fort Martin Station, Monongahela Power Company.	Maidsville

(10) Nothing in this paragraph shall preclude the Administrator from promulgating a separate schedule for any source to which the application of the compliance schedule in subparagraphs (2), (3), (5), or (6) of this paragraph fails to satisfy the requirements of § 51.15 (b) and (c) of this chapter.

Subpart YY—Wisconsin

23. Section 52.2578 is amended by relettering a paragraph and adding a new paragraph (c) as follows:

§ 52.2578 Compliance schedule.

* * * * *

(b) The document revising Part 52 of Chapter 1 of Title 40 of the Code of Federal Regulations, published in the FEDERAL REGISTER on June 20, 1973, at 38 FR 16170, is corrected by relettering the paragraph designation from "§ 52.2578 (a)" to "§ 52.2578(b)."

(c) *Federal compliance schedules.*—(1) Except as provided in subparagraph (3) of this paragraph, the owner or operator of any stationary source in the Southeast Wisconsin AQCR subject to the following emission limiting regulation in the Wisconsin implementation plan shall comply with the applicable compliance schedule in subparagraph (2) of this paragraph: Wisconsin Air Pollution Control Regulation NR 154.13.

(2) (i) Compliance schedules. The owner or operator of any stationary source in the Southeast Wisconsin AQCR subject to NR 154.13 shall notify the Administrator no later than October 1, 1973, of his intent either to install necessary control systems per Wisconsin Air Pollution Control Regulation NR 154.13(2) or to switch to an exempt solvent per Wisconsin Air Pollution Control Regulation NR 154.13(3) to comply with the requirements of Wisconsin Air Pollution Control Regulation NR 154.13.

(ii) Any owner or operator of a stationary source subject to subparagraph (c)(2)(i) of this paragraph who elects to comply with the requirements of NR 154.13 by installing a control system shall take the following actions with respect to the source no later than the specified dates.

(*a*) November 1, 1973—Advertise for bids for purchase and/or construction of control system or purchase of requisite material for process modification sufficient to control hydrocarbon emissions from the source.

(*b*) December 15, 1973—Award contracts or issued order for purchase and/or construction of control system or purchase of requisite material for process modification sufficient to control hydrocarbon emissions from the source.

(*c*) April 15, 1974—Initiate onsite construction or installation of control system or process modification.

(*d*) November 1, 1974—Complete onsite construction or installation of control system or process modification.

(*e*) January 1, 1975—Achieve final compliance with Wisconsin Air Poliution Control Regulation NR 154.13.

(iii) Any owner or operator of a stationary source subject to subparagraph (c)(2)(i) of this paragraph, who elects to comply with the requirements of Wisconsin Air Pollution Control Regulation NR 154.13 by switching to an exempt solvent, shall take the following actions with respect to the source no later than the dates specified.

(*a*) April 1, 1974—Begin testing exempt solvents.

(*b*) June 1, 1974—Issue purchase orders for exempt solvents.

(*c*) December 1, 1974—Convert to complete use of exempt solvent.

(*d*) January 1, 1975—Achieve full compliance with Wisconsin Air Pollution Control Regulation NR 154.13.

(iv) Any owner or operator subject to a compliance schedule above shall certify to the Administrator, within five days after the deadline for each increment of progress in that schedule, whether or not the increment has been met.

(3) (i) The requirements of subparagraphs (1) and (2) of this paragraph shall not apply to any source which is presently in compliance with applicable regulations and which has certified such compliance to the Administrator within thirty days of the effective date of this paragraph. The Administrator may request whatever supporting information he considers necessary for proper certification.

(ii) Any compliance schedule adopted by the State and approved by the Administrator shall satisfy the requirements of this paragraph for the affected source.

(iii) Any owner or operator subject to the compliance schedule in subparagraph (2) of this paragraph may submit to the Administrator no later than thirty days after the effective date of this paragraph, a proposed alternative compliance schedule. No such compliance schedule may provide for final compliance after January 1, 1975. If promulgated by the Administrator, such schedule shall satisfy the requirements of this paragraph for the affected source.

(4) Nothing in this paragraph shall preclude the Administrator from promulgating a separate schedule for any source to which the application of the compliance schedule in subparagraph (2) of this paragraph fails to satisfy the requirements of § 51.15 (b) and (c) of this chapter.

WATER PROGRAMS

Public Participation in Water Pollution Control

No. 163—Pt. III——1

V 38-163 AUG 23 73 XUM

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER D—WATER PROGRAMS

PART 105—PUBLIC PARTICIPATION IN WATER POLLUTION CONTROL

Minimum Guidelines

On February 23, 1973 (38 FR 5038), the Administrator of the Environmental Protection Agency proposed regulations specifying minimum guidelines for public participation in certain processes under the Federal Water Pollution Control Act, as amended. Section 101(e) of the Act requires the Administrator, in cooperation with the States, to develop and publish such regulations, and to provide for, encourage, and assist public participation in the development, revision, and enforcement of any regulation, standard effluent limitation, plan, or program established by the Administrator or by any State under the Act.

The regulations are a general statement of policy, setting forth objectives in public participation. They describe the provisions required in a minimum public participation program at State and Federal levels of governmental activity for water pollution control, call for a summary report on public participation efforts in relation to certain actions, and give minimum procedural guidelines for public hearings. Other regulations in Chapter 40 provide more explicit requirements for public hearings and other procedures related to particular programs under the Act (for examples, see Part 135 on Citizen Suit procedures, § 124.31 thru 124.37 and §§ 125.31 thru 125.35 on the National Pollutant Discharge Elimination System, § 35.556 on the State Program Grants, § 130.14 on the State Continuing Planning Process, among other provisions).

The regulations are based on the evident intent of Congress that public participation under the 1972 Act is to be accorded new significance, and that special attention and resources will be required. Emphasis for public involvement is placed at three levels: First, in development of statewide programs, including priority lists for allocation of resources; second, in preparation of basin and areawide plans involving selection among alternative systems and projects; and third, in the case-by-case consideration of local projects and permit applications.

The proposed regulations published had been developed with informal participation of and suggestions from numerous persons, including representatives of several citizen and conservation groups, trade organizations, governments, and other interests. The States had an opportunity to comment on the proposed regulations in draft form.

Further public and government comment was sought upon publication of the proposed rules. More than fifty sets of written comments, as well as a number of verbal comments, were received and reviewed. The Environmental Protection Agency has carefully considered all submitted comments. All written comments are on file with the Agency. Many suggestions have been adopted or substantially satisfied by editorial changes in, deletion from, or addition to, the guidelines. These and other principal comments are discussed below.

1. Several commenters expressed concern that the guidelines did not provide sufficient opportunity for public participation in establishment of the state program for public participation. The language of § 105.3, "Required Program and Reports", has been modified to clarify the concept that this is an integral part of the overall state program for water pollution control, subject to continuing public scrutiny and consideration, as well as to annual review and approval by the Regional Administrator.

2. In § 105.4, "Guidelines for Agency Programs", each of the §§ 105.4(a) through 105.4(c) has been edited in response to comment by citizens and conservation groups to describe more precisely the elements that should make up an agency public participation program.

3. In § 105.4(d), "Notification", some redundant language was deleted at the suggestion of several states.

4. In § 105.4(e), "Access to Information", the listing of specific material to be made available for public reference has been deleted. Specifying material increases the possibility that other relevant material might be overlooked or omitted. Certain information, such as grant applications, is more useful in final submission form than as working materials.

5. An industry group requested language protecting trade secrets be inserted in §§ 105.4(e) and 105.4(f), "Enforcement." This reference was not included since such safeguards are provided adequately in the Act and in Part 2 of this chapter, dealing with freedom of information.

6. Numerous commenters questioned the negative language originally proposed in § 105.4(f), "Enforcement." This has been changed to read: "Public efforts in reporting violations shall be encouraged * * *" Additional provision has been made to ensure followup to such reporting.

7. Conservation and citizen groups argued for stronger provision for prior public notice on out-of-court settlements under § 105.4(g) "Legal Proceedings." This provision has been modified to reflect the July 17, 1973, Statement of Policy by the Department of Justice providing for public comments on consent decrees involving discharge of pollutants in the environment.

8. An additional provision has been added to § 105.4(h), "Rulemaking," pertaining to the availability of information about proposed rulemaking.

9. Numerous comments, notably from State governments, called attention to the burden placed on their resources in efforts to meet the public participation requirements. These regulations have been prepared with full consideration for section 101(f) of the Act which focuses on the need for minimization of paperwork and the best use of available manpower and funds. The simple device of a public statement or "Summary of Public Participation" as called for in § 105.5, "Guidelines for Reporting," was strongly endorsed by many citizen groups as a means of encouraging agency efforts to improve public participation without generation of excessive paperwork.

10. Almost all citizen groups responding to publication of the proposed regulations called for stronger provision in § 105.6, "Guidelines for Evaluation," for action on the Summary of Public Participation. The opening paragraph has been revised to indicate clearly that a Regional Administrator may reject a plan or grant application if he finds inadequate public participation. Although many commenters wanted a separately published evaluation of the Summary of Public Participation, this was felt to be contrary to the objective of section 101 (f) of the Act. The findings on public participation, however, are to be incorporated into the action documents on a plan, grant application, or other matter.

11. Paragraphs (a) through (g) of the Evaluation section, § 105.6 have been omitted. To include these in the regulations would invite excessive legal interpretation, resulting in voluminous paperwork and records. These paragraphs proposed in the published guidelines as suggested measures of evaluation, will be incorporated into material for regional office guidance. The supplementary material, of less rigid format than regulations, will include additional points suggested in comments received.

12. Section 105.7(c), "Opportunity for Hearing," has been retitled and restated for consistency with language of the Act, and includes a provision responding to a number of comments calling for holding public hearings in cases of doubt.

13. In commenting on § 105.7(d), "Hearing Notices," numerous groups representing both industry and conservation interests stressed a need for more adequate time to prepare organizational response to proposed agency actions. Their comments recommended notice of 45 to 60 days in advance of hearings. The stated 30-day advance notice, however, is consistent with established practice.

14. A new § 105.9, "Applicability," has been added to make it clear that these guidelines cannot be retroactive, nor used to delay programs already under way.

15. Many commenters proposed funding support for state and local workshops similar to the previous effort under the Clean Air Act. This was felt to be inappropriate for coverage in these regulations since it is essentially a question of resources rather than procedures.

16. Several commenters raised questions on the right of appeal when citizen views had been ignored or not adequately provided for. This right is not separable from other aspects of the water pollution control programs in which normal channels of communication to administrators are open and provisions for citizen suit are available.

17. A few commenters representing varied interests requested specifically naming industrial groups or representatives of the urban poor and minorities in relation to certain provisions for access or participation. It was felt that naming such interests would imply exclusion of other interests and it would be unwise to attempt to narrow the definition of "public" in any way.

Accordingly, the regulations providing guidelines for public participation in water pollution control programs are hereby promulgated, to take effect upon publication.

Dated August 17, 1973.

JOHN QUARLES,
Acting Administrator.

A new Part 105 is added to Subchapter D, Chapter 1, CFR, Title 40, as follows:

PART 105—PUBLIC PARTICIPATION IN WATER POLLUTION CONTROL

Sec.
105.1 Scope.
105.2 Policy and objectives.
105.3 Required program and reports.
105.4 Guidelines for agency programs.
105.5 Guidelines for reporting.
105.6 Guidelines for evaluation.
105.7 Guidelines for public hearings.
105.8 Coordination and non-duplication.
105.9 Applicability.

AUTHORITY.—Sec. 101(e), Federal Water Pollution Control Act (Sec. 2, Federal Water Pollution Control Act Amendments of 1972, Public Law 92-500; 86 Stat. 816; 33 U.S.C.).

§ 105.1 Scope.

This part sets forth minimum guidelines for public participation in the processes of development, revision and enforcement of any regulation, standard, effluent limitation, plan or program under the Federal Water Pollution Control Act, as amended (Public Law 92-500; 86 Stat. 816; 33 U.S.C. 1251), in accordance with section 101(e) of the Act. This part is applicable to all Environmental Protection Agency (EPA) components concerned with the Federal Water Pollution Control Act, including EPA Headquarters program offices and divisions, and EPA Regional Offices, and to States and interstate agencies. These guidelines contain general requirements applicable to regulations, standards, effluent limitations, plans and programs. More specific requirements applicable in specific areas are contained in existing regulations on Public Information (Part 2 of this chapter) and in other regulations that have been or will be issued pertaining to various specific programs under the Act, as well as State and local laws pertinent to the subject.

§ 105.2 Policy and Objectives.

Participation of the public is to be provided for, encouraged, and assisted to the fullest extent practicable consistent with other requirements of the Act in Federal and State government water pollution control activities. The major objectives of such participation include greater responsiveness of governmental actions to public concerns and priorities, and improved popular understanding of official programs and actions. Although the primary responsibility for water quality decision-making is vested by law in public agencies at the various levels of government, active public involvement in and scrutiny of the intergovernmental decision-making process is desirable to accomplish these objectives. Conferring with the public after a final agency decision has been made will not meet the requirements of this part. The intent of these regulations is to foster a spirit of openness and a sense of mutual trust between the public and the State and Federal agencies in efforts to restore and maintain the integrity of the Nation's waters.

§ 105.3 Required Program and Reports.

Each agency cited in § 105.1 carrying out activities under the Act shall provide for and conduct a continuing program for public participation comprising substantially the elements listed in § 105.4. Staff responsibility and budgetary provisions shall be identified for such program in the administration element of the annual State program submission under Part 35 Subpart B of this chapter. Public participation activities shall be reported on annually and in relation to certain documents and actions as called for in § 105.5.

§ 105.4 Guidelines for Agency Programs.

The continuing agency program for public participation shall contain mechanisms or activity for each of the elements listed in this section. The exact mechanism and extent of activity may vary in relation to resources available, public response, and the nature of issues involved.

(a) *Informational Materials.*—Each agency shall provide continuing policy, program, and technical information at the earliest practicable times and at places easily accessible to interested or affected persons and organizations so that they can make informed and constructive contributions to governmental decision-making. News releases, newsletters and other publications may be used for this purpose. Special efforts shall be made to summarize complex technical materials for public and media use.

(b) *Assistance to Public.*—Each agency shall have an arrangement for providing technical and informational assistance to public groups for citizen education, community workshops, training, and dissemination of information to communities. Requests for information shall be promptly handled.

(c) *Consultation.*—Each agency shall have standing arrangements for early consultation and exchange of views with interested or affected persons and organizations on development or revision of plans, programs, or other significant actions prior to decision-making. Advisory groups, ad hoc committees, or workshop meetings may serve this purpose.

(d) *Notification.*—Each agency, for its appropriate geographic area, shall maintain a current list of interested persons and organizations, including any who ask to be on such list, for the periodic distribution of materials in paragraph (a) of this section. Each agency shall additionally comply, in connection with any public hearing or other proposed action, with any formal or specific requirements for public notice called for in the Act or in other regulations, to be supplemented wherever possible with informal notice to all interested persons or organizations having requested in advance such notice.

(e) *Access to Information.*—Each agency shall provide, either directly or through others, in an appropriate location or locations, one or more central public collections or depositories of water quality reports and data pertinent to the geographic area concerned. Examples of the materials available for public reference could include grant and permit applications, permits, effluent discharge information, compliance schedule reports, and materials specified in section 308(b) of the Act. Copying facilities at reasonable cost shall be available.

(f) *Enforcement.*—Each agency shall develop internal procedures for receiving and ensuring proper consideration of information and evidence submitted by citizens. Public effort in reporting violations of water pollution control laws shall be encouraged, and the procedures for such reporting shall be set forth by the agency. Alleged violations shall be promptly investigated by the agency.

(g) *Legal Proceedings.*—Each agency shall provide full and open information on legal proceedings under the Act, to the extent not inconsistent with court requirements, and where such disclosure would not prejudice the conduct of the litigation. Actions of the Environmental Protection Agency shall support and be consistent with the Statement of Policy issued by the Department of Justice with regard to affording opportunities for public comment before the Department of Justice consents to a proposed judgment in an action to enjoin dischargers of pollutants into the environment. (See Title 28, Code of Federal Regulations, Chapter 1, § 50.7.)

(h) *Rule Making.*—In addition to providing an opportunity for public hearings on proposed regulations, where appropriate or required under applicable statutes or regulations, agencies shall invite, receive, and consider comments in writing from any interested or affected persons and organizations. All such comments shall be part of the public record, and a single copy of each comment shall be routinely available for public inspection. Notices of proposed rule making, as well as final rules and regulations, shall be distributed to interested or affected persons as quickly as possible after publication. Each notice of proposed rule making shall include information as to the availability of the full texts of proposed rules and regulations (where these are not set forth in the notice itself) and as to the designated places where copying facilities shall be available at reasonable cost to the public.

(i) *Other Measures.*—The listing of specific measures in this section shall not preclude additional techniques for ob-

V38-163 AUG 23 73 XUM

taining, encouraging, or assisting public participation.

§ 105.5 Guidelines for Reporting.

The annual report of each EPA unit or office, and the annual State program submission under Section 106 of the Act as required under Part 35 of this Chapter, shall include a description of public participation provisions and activities. In addition, and in order that the public and reviewing or approving officials may be fully aware of the actual extent of public input and involvement, a Summary of Public Participation related to particular actions or documents shall be publicly presented as follows:

(a) In the case of regulations and standards required to be published by the Administrator in the FEDERAL REGISTER or required to be published by a State agency in an official form, the Summary of Public Participation shall be published as part of the introductory material.

(b) In the case of Statewide or areawide plans or portions thereof (including the continuing planning process under section 303(e) of the Act and plans developed under such process), or comparable matters required to be approved by the Administrator, the Summary of Public Participation shall be submitted as a part of the plan or of the public transmittal document.

(c) In the case of applications for grants for construction projects other than those under section 206 of the Act, or for planning or annual program grants (including grants under sections 102(c), 106, and 208 of the Act), the Summary of Public Participation shall be a part of the application.

(d) Each Summary of Public Participation shall describe the measures taken by the agency to provide for, encourage, and assist public participation in relation to the matter; the public response to such measures; and the disposition of significant points raised.

§ 105.6 Guidelines for Evaluation.

The Administrator, Regional Administrator, or other approving official shall review and evaluate each Summary of Public Participation in relation to the matter submitted. He may call for additional information, or for the records of meetings or hearings. If he finds that there has been inadequate opportunity for public participation on the matter, he may disapprove or suspend action; or alternatively take measures, or require the sponsoring agency to take measures, to obtain additional public participation, prior to final action. Such final action shall include a statement of findings in regard of public participation.

§ 105.7 Guidelines for Public Hearings.

Any public hearing, whether mandatory or discretionary, to be held under the Act shall be in conformity with this section. If conflict exists between the minimum guidelines of this section and requirements of State or Federal law or other regulations pertaining to a particular hearing, the more stringent requirements shall be observed.

(a) *Purpose.*—Generally, a public hearing gives persons and organizations a formal opportunity to be heard on a matter prior to decision-making. Although public hearing testimony may focus on the prospective action to be taken in the form of a tentative plan or decision, the final actions shall benefit from and reflect consideration of the public hearing content.

(b) *Public Meetings.*—Agencies are encouraged to hold public meetings or workshops, jointly where feasible, on significant matters or proposed actions. Such meetings shall not supplant public hearings when such are required, and shall be informational in nature with opportunity for public response.

(c) *Opportunity for Hearings.*—Where the opportunity for public hearing is called for in the Act, and in other appropriate instances, a public hearing shall be held if the hearing official finds significant public interest (including the filing of requests or petitions for such hearing) or pertinent information to be gained. Instances of doubt should be resolved in favor of holding the hearing, or if necessary, of providing alternative opportunity for public participation.

(d) *Hearing Notices.*—In addition to any other formal legal requirements, a notice of each hearing or public meeting shall be well publicized and be mailed to interested or affected persons and organizations as soon as the hearing or meeting is scheduled by the agency and in the case of a hearing, at least thirty calendar days before the hearing is to take place. If it should be necessary to allow less than thirty days' notice prior to a hearing, the hearing notice shall state the reasons for such shorter time period.

(e) *Location and Time.*—In determining the locations and times for hearings, consideration shall be given to easing travel hardship and to facilitating attendance and testimony by a cross-section of interested or affected persons and organizations. Accessibility of hearing sites by public transportation shall be considered.

(f) *Documents.*—Reports, documents, and data to be discussed at the public hearing shall be available to the public for a reasonable time prior to the hearing. For complex matters, a Fact Sheet outlining major issues, tentative staff determinations if appropriate, bibliography, and procedures for obtaining further information, for requesting a public hearing, and for other appropriate actions shall be prepared and its availability made known in the notice called for in paragraph (d) of this section.

(g) *Agenda.*—The elements of the public hearing, proposed time schedule, and any constraints on statements shall be specified in the notice of the hearing.

(h) *Scheduling.*—Witnesses at public hearings shall be scheduled in advance when necessary to ensure maximum participation and allotment of adequate time for testimony, provided that such scheduling is not used as a bar to unscheduled testimony. Blocks of time shall be considered for major categories of witnesses. Evening and weekend schedules shall be considered.

(i) *Statements.*—Public hearing procedures shall not inhibit free expression of views by requirements of more than one legible copy of any statement submitted, or for qualification of witnesses beyond that needed for identification.

(j) Records.—A record of public hearing proceedings shall be made promptly available to the public at cost.

§ 105.8 Coordination and Non-Duplication.

In accordance with the policy of section 101(f) of the Federal Water Pollution Control Act, public participation activities and materials required under the Act or these regulations may be combined with closely related programs or activities of the agencies concerned, wherever such combination will enhance the economy, the effectiveness, or the timeliness of the effort, enhance the clarity of the issue, and not be detrimental to participation by the widest possible public. Hearings and meetings may be held jointly by more than one agency on the same matter under the Act, where such procedure does not conflict with other provisions. Interstate agencies particularly are encouraged to develop combined proceedings on behalf of the States concerned.

§ 105.9 Applicability.

The provisions of this part shall apply only to actions taken after the effective date of this part.

Guide to Record Retention Requirements

[Revised as of January 1, 1973]

This useful reference tool is designed to keep businessmen and the general public informed concerning the many published requirements in Federal laws and regulations relating to record retention.

The 90-page "Guide" contains over 1,000 digests which tell the user (1) what type records must be kept, (2) who must keep them, and (3) how long they must be kept. Each digest carries a reference to the full text of the basic law or regulation providing for such retention.

The booklet's index, numbering over 2,200 items, lists for ready reference the categories of persons, companies, and products affected by Federal record retention requirements.

Price: $1.50

REMINDERS

NOTE: There were no items published after October 1, 1972, that are eligible for inclusion in the list of RULES GOING INTO EFFECT TODAY.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER XIV—FEDERAL LABOR RELATIONS COUNCIL AND FEDERAL SERVICE IMPASSES PANEL

SUBCHAPTER B—FEDERAL LABOR RELATIONS COUNCIL

PART 2410—COUNCIL INTERPRETATIONS OF THE ORDER AND STATEMENTS ON MAJOR POLICY ISSUES

On May 21, 1973, there was published in the FEDERAL REGISTER (38 FR 13390) a notice of proposed amendments of rules governing the Council's issuance of interpretations of the order and statements on major policy issues.

Interested persons were invited to submit their views and suggestions in writing on or before June 20, 1973. All relevant matter which was submitted has been carefully considered, and the Council has decided to adopt the proposed amendments, with changes, as set forth below.

Accordingly, the Council amends Title 5 of the Code of Federal Regulations, Chapter XIV, Subchapter B, Part 2410, to read as follows:

2410.1 Definitions.
2410.2 Scope.
2410.3 Considerations governing issuance of interpretations and policy statements.
2410.4 Requests for interpretations and policy statements.
2410.5 Content of request.
2410.6 Submissions from interested parties.
2410.7 Effect of interpretations and policy statements.
2410.8 Issuance and publication of interpretations and policy statements.

AUTHORITY: 5 U.S.C. 3301, 7301; 3 CFR, E.O. 11491, as amended.

§ 2410.1 Definitions.

(a) "Order" means Executive Order 11491 of October 29, 1969, entitled "Labor-Management Relations in the Federal Service," 34 FR 17605, as amended by Executive Order 11616 of August 26, 1971, 36 FR 17319, and by Executive Order 11636 of December 17, 1971, 36 FR 24901.

(b) "Executive Director" means the Executive Director of the Council.

(c) Terms defined in the order are used in this part with the meaning attached to them in the order.

§ 2410.2 Scope.

This part sets forth the procedures under which the Council, as provided in sec. 4(b) of the order, will issue interpretations of the order and statements on major policy issues.

§ 2410.3 Considerations governing issuance of interpretations and policy statements.

(a) The Council shall, in its discretion, issue interpretations of the order and statements on major policy issues which it deems to have general applicability to the overall program in assuring the effectuation of the purposes of the order. The Council may act on its own initiative or upon request as provided in § 2410.4.

(b) In deciding whether to issue an interpretation or a policy statement, the Council shall consider:

(1) Whether the question presented can more appropriately be resolved by other means available under law, other Executive orders, regulation or the order;

(2) Where other means are available, whether Council action would prevent the proliferation of cases involving the same or similar question of interpretation or major policy issue;

(3) Whether the resolution of the question presented would have general applicability to the overall program;

(4) Whether the issue currently confronts parties in the context of a labor-management relationship;

(5) Whether the question is presented jointly by the parties involved; and

(6) Whether Council resolution of the question of interpretation or major policy issue would promote constructive and cooperative labor-management relationships in the Federal service and would otherwise promote the purposes of the order.

§ 2410.4 Requests for interpretations and policy statements.

(a) The head of an agency (or his designee), the national president of a labor organization (or his designee), or the president of a labor organization not affiliated with a national organization (or his designee) may separately or jointly ask the Council for an interpretation of the order or a statement on a major policy issue. The head of any lawful association not qualified as a labor organization may also ask the Council for such an interpretation or statement, provided the request is consistent with the principles set forth in secs. 7(d) (2) and (3) of the order.

(b) The Council will not consider a request related to a pending petition, application, charge, or complaint which the Council is advised has been filed pursuant to the Assistant Secretary's regulations unless the party involved in the case filing the request with the Council has first secured the prior approval of the Assistant Secretary.

§ 2410.5 Content of request.

(a) A request for an interpretation or policy statement shall be in writing and must contain:

(1) A concise statement of the major policy issue to be determined or provision of the order to be interpreted together with background information necessary to an understanding of the issue;

(2) A statement of the considerations under § 2410.3 upon which the request is based;

(3) A full and detailed statement of the position or positions of the requesting party or parties;

(4) Identification of any cases or other proceedings known to bear on the issue which are pending under other provisions of the order; and

(5) Identification of other known interested parties.

(b) Unless otherwise provided by the Executive Director, any document filed with the Council under this part shall be submitted in an original and three copies. A copy of each document also shall be served on all known interested parties, the Assistant Secretary, the Federal Service Impasses Panel, and the Federal Mediation and Conciliation Service.

(c) A request shall be addressed to the Executive Director, Federal Labor Relations Council, 1900 E Street NW., Washington, D.C. 20415.

§ 2410.6 Submissions from interested parties.

Prior to issuance of an interpretation or major policy statement, the Council, as it deems appropriate, will afford an opportunity to interested parties to express their views at a formal hearing or in writing.

§ 2410.7 Effect of interpretations and policy statements.

Council interpretations and major policy statements issued under this part shall be binding on all parties under the order including those responsible for administering the order.

§ 2410.8 Issuance and publication of interpretations and policy statements.

Interpretations and statements on major policy issues provided under this part shall be distributed to agencies and labor organizations and made available

V 38-164 AUG 24 73 XUM

to other interested persons at the Office of the Council.

For the Council.

ROBERT E. HAMPTON,
Chairman.

[FR Doc.73-17878 Filed 8-23-73;8:45 am]

Title 7—Agriculture

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT, DEPARTMENT OF AGRICULTURE)

SUBCHAPTER C—SPECIAL PROGRAMS

[Amdt. 2]

PART 777—PROCESSOR WHEAT MARKETING CERTIFICATE REGULATIONS

Termination of the Program

The following amendment is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (see sections 379a to 379j, 52 Stat. 31, as amended, 7 U.S.C. 1379a to 1379j) to provide for the termination of requirements for the acquisition of domestic marketing certificates under the Processor Wheat Marketing Certificate Program as to wheat processed on and after July 1, 1973. It also provides for transition relief from these requirements with respect to wheat processed into food products prior to such date if the food product was still in inventory or in transit on such date as hereinafter described.

The authority to terminate the program and to facilitate the transition from the certificate program provided for under section 379d of the Agricultural Adjustment Act of 1938, as amended, to a program under which no certificates are required is contained in the Agriculture and Consumer Protection Act of 1973. The Act provides that "sections 379d, 379e, 379f, 379g, 379h, 379i, and 379j of the Agricultural Adjustment Act of 1938 (which deal with marketing certificate requirements for processors and exporters) shall not be applicable to wheat processed or exported during the period July 1, 1973, through June 30, 1978. It also amends section 379g by adding the following new subsection (c):

"(c) The Secretary is authorized to take such action as he determines to be necessary to facilitate the transition from the certificate program provided for under section 379d to a program under which no certificates are required. Notwithstanding any other provision of law, such authority shall include, but shall not be limited to the authority to exempt all or a portion of wheat or food products made therefrom in the channels of trade on July 1, 1973, from the marketing restrictions in subsection (b) of section 379d, or to sell certificates to persons owning such wheat or food products made therefrom at such price and under such terms and conditions as the Secretary may determine. Any such certificate shall be issued by the Commodity Credit Corporation. Nothing herein shall authorize the Secretary to require certificates on wheat processed after June 30, 1973."

This amendment also recognizes that industrial users and distributors of flour second clears may have a supply of such clears on hand as of the termination date of the program. Therefore industrial users shall be permitted to continue filing claims for refunds through September 30, 1973. Likewise distributors will be permitted to continue issuing distributor certifications on Form CCC–165–1 through September 15, 1973, for flour second clears for which certifications on Form CCC–165 have been obtained for flour second clears processed prior to July 1, 1973.

Since the provisions of this amendment are to the advantage of the participants under the program and certificate requirements under the program have been terminated by legislation retroactively as to wheat processed on and after July 1, 1973, it is hereby found and determined that compliance with the notice, public procedure and the 30-day effective date requirement of section 4 of the Administrative Procedure Act (60 Stat. 238, 5 U.S.C. 553) is unnecessary and contrary to the public interest and that this amendment shall be effective upon publication in the FEDERAL REGISTER.

The Processor Wheat Marketing Certificate Regulations, 7 CFR Part 777, as amended (36 FR 21256, 38 FR 14959) are amended as follows:

Section 777.5 is amended by changing the third sentence and inserting a new fourth sentence to read as follows:

§ 777.5 Applicability of certificate requirements.

(a) *General.*—* * * The cost of domestic certificates shall be 75 cents a bushel during the marketing years covered by the period July 1, 1965, through June 30, 1973. Domestic certificates shall not be required for wheat processed on and after July 1, 1973. * * *

* * * * *

A new § 777.21 is added to read as follows:

§ 777.21 Transition relief at termination of the program.

(a) *General.*—It has been determined necessary to facilitate the transition from a program requiring marketing certificates to be acquired by food processors to a program under which no certificates are required, by providing that no certificates need be acquired by food processors as to certain wheat processed into food products prior to July 1, 1973, as described in paragraph (b) of this section.

(b) *Type of relief.*—(1) Except as provided in paragraph (b) (2) of this section, transition relief shall be provided for wheat processed into food products, as follows:

(i) Flour or other food products in inventory as of 11:59 p.m. local time June 30, 1973, in the processor's plant and such food products which the processor owns and has in storage in a warehouse as of such time.

(ii) Flour or other food products in transit from the processor's plant as of 11:59 p.m. local time June 30, 1973, and not received until after such time at the destination indicated on the bill of lading, manifest, or other similar document issued on shipment from the plant. "Received" shall mean arrival at such destination or, in the case of rail cars, actual or constructive placement of the car at such destination.

(2) Relief under this paragraph (b) shall not apply to (i) flour second clears processed prior to July 1, 1973, for which a certification on Form CCC–165 has been issued; (ii) wheat processed into food products which are destined for export; (iii) wheat processed into food products sold to the United States Government or any agency thereof; and (iv) wheat processed into beverage distilled spirits.

(c) *Reports.*—To obtain relief as provided in paragraph (b) of this Section, corrected processing reports shall be filed as provided in the following subparagraphs on or before September 30, 1973 or such later date as may be approved by the Director, Prairie Village ASCS Commodity Office for good cause shown.

(1) *Reports on Form CCC–160, Processing Report, Weight of Wheat Basis.*—Processors reporting on the weight of wheat basis shall include in the remarks section of the form a schedule showing the respective quantities of food products claimed as a deduction under paragraph (b) of this section. (Use the reverse side of the form, if necessary.) Deductions claimed for food products in transit under paragraph (b) (2) of this section shall be supported with a certification on Form CCC 87, Wheat Food Product Transit Certification. The following conversion factors shall be used to determine the bushel equivalent of the food products which are claimed as deductions.

Type of Product	*Bushels per 100 pounds*
Wheat flour (including clears) derived from conventional milling practices which are generally accepted in the milling industry in the United States as representing a 72 percent extraction rate operation	2.218
Whole wheat flour or graham flour	1.700
Semolina and Farina	2.218
Bulgur (87 percent type of extraction operation)	1.838
Rolled Wheat (92.8 percent type of extraction operation)	1.796

For food products not listed above, the processor shall use his latest monthly conversion factor which may be determined by dividing the total bushels of wheat used to process such products by the hundredweights of products produced during the final reporting period. In the event the processor is unable to compute the applicable conversion factor for certain food products, he may use such other basis as may be approved by the Director.

(2) *Reports on Form CCC–159, Processing Report, Conversion Factor Basis.*—Processors reporting on the conversion factor basis shall include in the remarks section of the form a schedule showing the quantity of food products claimed as a deduction as provided in paragraph (b) of this section. (Use the reverse side of the form if necessary.) Deductions claimed for food products in transit under paragraph (b) (2) of this section shall be supported with a certification on Form CCC–87, Wheat Food Product Transit Certification. Conversion factors listed in § 777.14(c) shall apply.

(d) *Refunds.*—Refunds shall be made, if applicable, to processors submitting corrected processing reports as provided in paragraph (c) of this section.

(e) *Industrial users of flour second clears.*—All claims for refund shall be filed on or before September 30, 1973, or such later date as may be approved by the Director, Prairie Village ASCS Commodity Office for good cause shown. Flour second clears covered by certifications on Form CCC–165 which designate the marketing year in which processed as the marketing year beginning July 1, 1973, shall not qualify for refund.

(f) *Distributors of flour second clears.*—Distributors registered under § 777.20 may continue issuing certifications on Form CCC–165–1, Distributor Certification, Flour Second Clears, for flour second clears covered by a Form CCC–165, Processor Certification, Flour Second Clears, through September 15, 1973. Flour second clears covered by certifications on Form CCC–165 which designate the marketing year in which processed as the marketing year beginning July 1, 1973, shall not be included on any certifications on Form CCC–165–1.

Subparagraph 13 of Appendix II is amended by adding the following sentences:

APPENDIX II—INSTRUCTIONS FOR PREPARATION OF PROCESSING REPORT—WEIGHT OF WHEAT BASIS

* * * * * *

(13) * * * For purposes of the report to cover the final reporting period, the quantity of wheat reported may be reduced by the wheat equivalent of food products eligible for deduction under provisions of Section 777.21. Show in the remarks section, the quantity of wheat deducted under such provision.

* * * * * *

Subparagraph 5 of Appendix III is amended by adding the following sentence:

APPENDIX III—INSTRUCTIONS FOR PREPARATION OF PROCESSING REPORT—CONVERSION FACTOR BASIS

* * * * * *

(5) * * * For purposes of the report to cover the final reporting period, the quantity of food products processed may be reduced by the quantity of food products which may be deducted under provisions of Section 777.21. Processors reporting on the basis of sales or removals from the plant shall deduct only that quantity of food products which are in transit as provided in § 777.21(b)(2). Show in the remarks section, the total quantity of food products processed during the final reporting period.

* * * * * *

Signed at Washington, D.C. on August 20, 1973.

GLENN A. WEIR,
Acting Administrator, ASCS.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Regulation 600]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

PREAMBLE

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period August 26–Sept. 1, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.900 Lemon Regulation 600.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons continued strong last week, exceeding supplies for 165's and larger sizes but eased somewhat on 200's and cooler weather this week may cause demand to ease.

Average f.o.b. price was $7.30 per carton the week ended August 18, 1973, compared to $6.66 per carton the previous week.

Track and rolling supplies at 120 cars were down 33 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 21, 1973.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period August 26, 1973, through September 1, 1973, is hereby fixed at 250,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: August 22, 1973.

CHARLES R. BRADER,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

PART 1427—COTTON

Subpart—1973-Crop Supplement to Cotton Loan Program Regulations

Correction

In FR Doc. 73-14845 appearing at page 19381 in the issue of Friday, July 20, 1973, and corrected at page 20317 in the issue of Tuesday, July 31, 1973, and page 21995 in the issue of Wednesday, August 15, 1973, make the following changes:

1. In the table to § 1427.101, under Georgia the first entry reading "Sylvester ------ Worth ------ 25.40", should read "Sylvester ------ Screben ------ 21.40". Under Louisiana the figure for "Lake Providence ------ East Carroll", reading "20.95", should read "20.85".

2. In the table to § 1427.102 on page 19383, the sixth entry in the column headed 1⅜6 reading "—175" should read "+175". In the portion of that table on page 19384, the second entry in the column headed ⅞, reading "—460" should read "—480"; and the first entry in the column headed 1$^{7}/_{32}$, reading "+330" should read "+380".

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

PART 71—GENERAL PROVISIONS

Interstate Movement of Cattle; Identification

Statement of consideration.—On November 11, 1972, there was published in the FEDERAL REGISTER (37 FR 24040–24041), in accordance with the administrative procedure provisions in 5 U.S.C. 553, a notice of proposed rulemaking under the provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, and the Act of March 3, 1905 (21 U.S.C. 111–113, 114a, 114a–1, 115–117, 120–126), with respect to animal identification under the regulations contained in Part 71, Title 9, Code of Federal Regulations. The purpose of the proposal was to (1) require the identification by backtag or other approved means of all cattle 2 years of age or over moving interstate, except steers and spayed heifers (and certain cattle moving directly to slaughter); (2) permit cattle being moved interstate for dairy or breeding purposes to be identified by eartags in lieu of backtags; (3) exempt registered purebred animals being moved interstate for purposes other than slaughter from the backtagging or eartagging requirements; (4) exempt animals being moved interstate for any purpose other than slaughter, provided, they are branded and are moved with an official brand inspection certificate; and (5) minimize removal or tampering with an identification backtag or eartag as required by this Part. Interested persons were given 30 days in which to submit data, views or arguments regarding the proposed amendment.

Twenty-one letters of comment were received, 14 of which opposed the proposal with emphasis in opposition to the identification requirement for feeder and breeding cattle. Those favoring the amendment made recommendations that the age limit for requiring identification be lowered from "two years and over" to "six months and over."

After due consideration of all relevant material, including that submitted in connection with such notice, the amendment has been adopted as proposed, with the exception that in § 71.18(a) (1) (iii) the provision whereby eartags may be used in lieu of backtags for the identification of cattle, moving interstate for breeding or dairy purposes has been broadened to include cattle for any purpose other than slaughter.

Great progress has been made in the control and eradication of communicable diseases of livestock, such as brucellosis, scabies, and tuberculosis. However, it is known that the contagion of brucellosis still exists in domestic animals in most States and Puerto Rico and there is reason to believe that communicable diseases of livestock may exist throughout the United States. The threat of the introduction of foot-and-mouth disease or other exotic diseases is ever present. The rapid transportation of animals in commercial channels makes it essential to locate and suppress foci of infection in the most rapid manner possible. The most efficient way to do this is to identify livestock in marketing channels and to trace diseased animals directly to farms of origin. In this manner, continued progress in disease eradication programs can be achieved; the interstate spread of diseases can be minimized by isolation and eradication of infection where found; and the probability of rapidly tracing diseases of foreign origin will be greatly strengthened.

Section 71.18 is amended to read:

§ 71.18 Individual identification of certain cattle 2 years of age or over for interstate movement.

(a) No cattle 2 years of age or over, except steers and spayed heifers, shall be moved interstate other than in accordance with the requirements of this section. All interstate movements of any cattle shall also comply with the other applicable provisions in this part and other parts of this subchapter.

(1) When permitted under such other provisions, cattle subject to this section:

(i) May be moved interstate from any point to any destination, if such cattle, when moved interstate, are identified by a Department-approved backtag[1] affixed a few inches from the midline and just behind the shoulder of the animal, or by such other means approved by the Deputy Administrator, Veterinary Services, upon request in specific cases, and if such cattle are accompanied by a statement signed by the owner or shipper of the cattle, or other document[2] stating: (*a*) The point from which the animals are moved interstate; (*b*) the destination of the animals; (*c*) the number of animals covered by the statement, or other document; (*d*) the name and address of the owner or shipper, and (*e*) the identifying numbers of the backtags or other approved identification applied: *Provided,* That identification numbers are not required to be recorded on such statement or document for cattle moved from a stockyard posted under the provisions of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 *et seq.*),[3] directly to a slaughtering establishment operating under the provisions of the Federal Meat Inspection Act (21 U.S.C. 601 *et seq.*) or slaughtering establishment specifically approved under § 78.16(b) of this subchapter; or

(ii) May be moved interstate only from a farm, ranch, or feedlot to a slaughtering establishment operating under the provisions of the Federal Meat Inspection Act (21 U.S.C. 601 *et seq.*) or slaughtering establishment specifically approved under § 78.16(b) of this subchapter; or to a stockyard posted under the provisions of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 *et seq.*), for sale and shipment to such a slaughtering establishment, if such cattle are identified upon arrival at such slaughtering establishment or stockyard by the application of Department-approved backtags or by other approved identification as prescribed in subdivision (i), and when moved interstate, are accompanied by a statement signed by the owner or shipper of the cattle, or other document[2] stating: (*a*)

[1] Department-approved backtags are available at slaughtering establishments operating under the provisions of the Federal Meat Inspection Act (21 U.S.C. 601 *et seq.*), at stockyards and slaughtering establishments specifically approved under § 78.16(b) of this subchapter, and from Federal and State inspectors as defined in § 78.1 of this subchapter. Information with respect to the federally inspected slaughtering establishments, specifically approved slaughtering establishments, and specifically approved stockyards may be obtained as indicated in §§ 78.14 and 78.15 of this subchapter.

[2] Other document means a shipping permit, an official health certificate, an official brand inspection certificate, a bill of lading, a waybill, or an invoice on which is listed the required information.

[3] Posted stockyards are designated by posting notice at such stockyards and by publication in the FEDERAL REGISTER. Information concerning posted stockyards may also be obtained from the Washington office or the area offices of the Packers and Stockyards Administration.

the point from which the animals are moved interstate; (*b*) the destination of the animals; (*c*) the number of animals covered by the statement or other document; and (*d*) the name and address of the owner or shipper: *Provided,* That the application of backtags is not required if such cattle are moved interstate to a federally inspected or specifically approved slaughtering establishment and if, when moved interstate, such cattle are identified by a brand registered with an official brand inspection agency and are accompanied by an official brand inspection certificate: *And provided, further,* That the application of backtags is not required when such cattle are moved interstate to a federally inspected or specifically approved slaughtering establishment, which maintains records of ownership of cattle by slaughter lot number;[4] or

(iii) May be moved interstate for any purpose other than slaughter if such cattle, when moved interstate, are identified by Animal and Plant Health Inspection Service-approved eartags in lieu of backtags, and are accompanied by an owner's statement or other document[2] stating: (*a*) the point from which the animals are moved interstate, (*b*) the destination of the animals, (*c*) the number of animals covered by the statement or other document, (*d*) the identifying numbers of the eartags, and (*e*) the name and address of the owner or shipper: *Provided,* That identification by eartag is not required if such animals are registered purebred animals which are moved interstate for any purpose other than slaughter and are identified in a manner acceptable to the appropriate breed association for registration purposes; or are identified by a brand registered with an official brand inspection agency and are accompanied by an official brand inspection certificate as prescribed in paragraph (a)(1)(ii) of this section.

(2) The owner's or shipper's statement or other document[2] or registered purebred identification required by this section for cattle moved under paragraph (a)(1) (i) or (ii) of this section shall be delivered to the management of the stockyard or slaughtering establishment at the time of delivery of the cattle;[5] and documents accompanying animals moved under paragraph (a)(1)(iii) of this section for breeding or dairy purposes shall be delivered to the consignee. All such documents shall be made available for inspection on request by a State or Federal inspector or an accredited veterinarian, as defined in § 78.1, at any time within the year from the date of such delivery.

(3) Each person who ships, transports, or otherwise causes the movement of the cattle interstate is responsible for the identification of the animals as required by this section. No such person shall remove or tamper with or cause the removal of or tampering with an identification backtag or eartag required in this section for interstate movement of animals, except as be authorized by the Deputy Administrator, Veterinary Services, upon request in specific cases and under such conditions as he may impose to insure continuing identification.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791, as amended; secs. 1–4, 33 Stat. 1264, 41 Stat. 899, as amended; sec. 11, 58 Stat. 734, as amended; sec. 13, 65 Stat. 693, as amended; sec. 3, 76 Stat. 130; 21 U.S.C. 111–114, 114a, 114a–1, 115–117, 120, 121–126, 134b; 37 FR 28464, 28477.)

Effective date.—The foregoing amendment shall become effective October 23, 1973.

The amendment imposes certain further restrictions necessary to prevent the interstate spread of livestock diseases. It does not appear that further public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that further notice and other public procedure with respect to the amendment are impracticable and unnecessary.

Done at Washington, D.C., this 20th day of August 1973.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73-18010 Filed 8-23-73;8:45 am]

[4] It is the responsibility of the person who causes the interstate movement to determine whether the establishment maintains such records. As evidence that the establishment does maintain such records such person should obtain a statement to that effect from the management of the establishment and retain it for a period of five years from the date of shipment.

[5] The backtag or other identification numbers should be included on the receiving document of the stockyard or establishment for all such cattle identified by backtags or other identification after arrival at such stockyard or establishment.

Title 12—Banks and Banking

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER F—REGULATIONS FOR SAVINGS AND LOAN HOLDING COMPANIES

[No. 73–1157]

PART 584—REGULATED ACTIVITIES

Management Interlocks

AUGUST 15, 1973.

The Federal Home Loan Bank Board considers it desirable to amend § 584.9 (b)(1) of the Regulations for Savings and Loan Holding Companies (12 CFR 584.9(b)(1)) governing management interlocks under sec. 408(1)(2) of the National Housing Act, as amended.

Under sec. 408(1)(2) of the Act it is unlawful for any director, officer, or person owning, controlling, or holding with power to vote, or holding proxies representing more than 25 percent of the voting shares of a savings and loan holding company, except with prior approval of the Corporation, to serve at the same time as a director, officer, or employee of an insured institution or another savings and loan holding company not a subsidiary of such holding company. This provision is designed to be consistent with others in the Act which control further holding company acquisitions of insured institutions. This provision is implemented in § 584.9(b)(1).

Based upon the Board's experience in reviewing applications for prior approval under § 584.9(b)(1), the Board considers it desirable to set forth the standards upon which it may approve an application. Approval of an otherwise prohibited management interlock may be granted upon a showing that the service of the officer, director, or person in question would be consistent with the public interest, taking into account, among other factors: the degree of his involvement in the affairs of each insured institution and of other financial institutions, the degree of business relationship existing between or among the insured institutions involved, the physical proximity of the insured institutions involved, and the percentage of consolidated net income and assets of any applicant holding company represented by its subsidiary insured institutions.

Accordingly, the Board hereby amends Part 584 of the Regulations for Savings and Loan Holding Companies (12 CFR Part 584) by revising said § 584.9(b)(1) thereof to read as set forth below, effective August 24, 1973.

Since the above amendment states existing Board policy and is for the purpose of clarification, the Board hereby finds that notice and public procedure with respect to said amendment are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and since publication of said amendment for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of said amendment would in the opinion of the Board be unnecessary for the same reason, the Board hereby provides that said amendment shall become effective as hereinbefore set forth.

§ 584.9 Prohibited acts.

. . . . . .

(b) *Management interlocks.*—No director or officer of a savings and loan holding company, or any person owning, controlling, or holding with power to vote, or holding proxies representing more than 25 percent of the voting shares of such holding company may:

(1) Serve at the same time as a director, officer, or employee of an insured institution or of another savings and loan holding company, not a subsidiary of such holding company, except with the prior written approval of the Corporation. Such approval may be granted upon a showing that the service of such officer; director or person would be consistent with the public interest, taking into account, among other factors: the degree of involvement of the officer, director or person in the affairs of each insured institution and of other financial institutions, the degree of business relationship existing between or among the insured

V 38-164 AUG 24 73 XUM

institutions involved, the physical proximity of the insured institutions involved, and the percentage of consolidated net income and assets of any applicant holding company represented by its subsidiary insured institutions.

* * * * *

(Sec. 402, 48 Stat. 1256, as amended, sec. 408, 48 Stat. 1261, as added by 73 Stat. 691, as amended; 12 U.S.C. 1725, 1730a, Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] EUGENE M. HERRIN,
Assistant Secretary.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 73–WE–15–AD; Amdt. 39–1705]

PART 39—AIRWORTHINESS DIRECTIVES

General Dynamics 340/440/580/640 (Convair) Series, and All Model C–131E Airplanes

Pursuant to the authority delegated to me by the Administrator (31 FR 13697), an airworthiness directive was adopted July 27, 1973, and made effective immediately by airmail letter dated July 30, 1973, to all known operators or owners of General Dynamics 340/440/580/640 (Convair) Series and all Model C1–131E airplanes. The airworthiness directive requires external initial and repeat inspections of nose landing gear drag strut upper left hand segments for crack development, and replacement with new or reworked parts, as necessary. The directive provides for equivalent inspections and installations approved by the Chief, Aircraft Engineering Division, FAA Western Region.

Since it was found that immediate corrective action was required, notice and public procedure thereon was impracticable and contrary to the public interest and good cause existed for making the airworthiness directive effective immediately to all known operators of General Dynamics 340/440/580/640 (Convair) Series and Model C–131E airplanes. These conditions still exist and the airworthiness directive is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective as to all persons.

GENERAL DYNAMICS. Applies to General Dynamics 340/440/580/640 (Convair) Series and Model C–131E airplanes certificated in all categories.

Compliance required as indicated.

To prevent possible collapse of the nose landing gear due to fatigue cracks in the drag strut upper left hand segments, accomplish the following.

(a) Within ten landings after the effective date of this A.D., unless already accomplished within the last 590 landings prior to this A.D., and at one additional interval not to exceed 600 landings thereafter, perform an external visual inspection of all P/N 340–5210103, 340–5215103 or 340–7310231 nose landing gear drag strut upper left hand segments for crack development in the area depicted by Figure 1, View A–A, General Dynamics Service Bulletin 640(340D) No. 32–7 dated June 20, 1973, by dye penetrant, eddy current or ultrasonic methods, per the accomplishment instructions in S.B. 32–7, dated June 20, 1973, or later FAA-approved revisions. (Disassembly of strut is not required).

(1) If crack development is noted, replace the drag strut prior to further flight, with new P/N 340–7310231–1, or serviceable parts (Items 1 through 4, Convair Service Engineering Report No. 340–44A/440–44A, dated June 16, 1961).

(2) If crack development is not indicated after the accomplishment of the foregoing inspections, repeat the inspection thereafter at intervals not to exceed 2,400 landings. If cracks are discovered, replace the drag strut, prior to further flight per a(1) above.

(3) If new P/N 340–7310231–1 is used as a replacement, the inspections of this A.D. may be discontinued, and normal maintenance practices will be observed.

(4) If a reworked part (cf: Convair Service Engineering Report, No. 340–44A/440–44A) is used as a replacement, perform an inspection for crack development prior to an additional 600 landings after installation per a, above. Repeat the inspections per a and (2) above.

(5) Any parts removed for crack development per this A.D., or as a result of any other inspection indicating a like condition, may not be returned to service unless a specific rework procedure has been approved by the Chief, Aircraft Engineering Division, FAA Western Region, and accomplished as to said parts.

(6) Aircraft may be operated per FAR 21.197 to a base for accomplishment of maintenance per this A.D.

(b) Equivalent inspections and installations may be approved by the Chief, Aircraft Engineering Division, FAA Western Region.

(c) For the purpose of complying with this A.D., subject to acceptance by the assigned FAA maintenance inspector, the number of landings may be determined by dividing each airplane's hours' time in service by the operator's fleet average time from takeoff to landing for the airplane type.

This amendment is effective Aug. 27, 1973 except those to whom it was made effective immediately by airmail letter dated July 30, 1973.

(Secs. 313(a), 601 and 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, and 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Los Angeles, California on August 15, 1973.

ARVIN O. BASNIGHT,
Director, FAA Western Region.

[Airspace Docket No. 73–AL–18]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Amendments to Colored Federal Airways, Additional Control Areas, Control Zones, and Reporting Points

The purpose of this amendment to Part 71 of the Federal Aviation Regulations (FARs) is to redescribe, in part, Red Federal Airway 39, Green Federal Airway 9, Blue Federal Airway 27, Bethel, Alaska, control zone, low altitude reporting points, and additional control area 1483.

This action is based on the need to eliminate the duplication of navaid location names at Bethel, Alaska. The VOR TAC will retain the name "Bethel VOR TAC" with the identification "BET". The Bethel, Alaska, nondirectional radio beacon, formerly "BEA" was converted to an ILS middle marker compass locator, and assigned the identifier "ET". The ILS system was commissioned July 6, 1973. The Bethel, Alaska, nondirectional radio beacon "BET" is being renamed "Oscarville" with a new identifier "OSE" to become effective October 11, 1973.

Since these amendments are minor in nature and do not assign or reassign the use of domestic or off-shore navigable airspace presently coordinated under the Federal Action Act of 1958 and Executive Order 10854, notice and public procedure hereon are unnecessary. However, in order to allow sufficient time to make appropriate editorial changes to aeronautical charts, these amendments will become effective more than 30 days after publication.

In consideration of the foregoing Part 71 of the Federal Aviation Regulations is amended effective 0901 G.m.t., October 11, 1973, as hereinafter set forth.

1. Section 71.103 (38 FR 305) in G–9 * * * "Bethel, Alaska, RBN (BET)" is deleted and "Oscarville, Alaska, RBN" is substituted therefor.

2. Section 71.107 (38 FR 306) in R–39 * * * "Bethel, Alaska, RBN (BET)" is deleted and "Oscarville, Alaska, RBN" is substituted therefor.

3. Section 71.109 (38 FR 306) in B–27 * * * "Bethel, Alaska, (BET) RBN" is deleted and "Oscarville, Alaska, RBN" is substituted therefor.

4. Section 71.163 (38 FR 344) in Control 1483, "Bethel, Alaska, RBN" and "Bethel RBN" are deleted wherever they appear and "Oscarville, Alaska, RBN" is substituted therefor.

5. Section 71.171 (38 FR 351) in Bethel, Alaska, * * * "Bethel RBN (BEA)" is deleted and * * * "Bethel compass locator (ET)" is substituted therefore, and * * * "northeast of the RBN;" is deleted and * * * "northeast of the compass locator;" is substituted therefor.

6. Section 71.211 (38 FR 618), Alaskan low altitude reporting points, are amended as follows:

a. "Bethel, Alaska, RBN" is deleted and "Oscarville, Alaska, RBN" is substituted therefor.

b. In Fluke INT, "Bethel, Alaska, RBN" is deleted and "Oscarville, Alaska, RBN" is substituted therefor.

7. Section 71.213 (38 FR 620), Alaskan high altitude reporting points. In Fluke INT, "Bethel, Alaska, RBN" is deleted and "Oscarville, Alaska, RBN" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c); E.O. 10854)

Issued in Anchorage, Alaska, on August 17, 1973.

THOMAS J. CRESWELL,
Director, Alaskan Region.

[FR Doc.73–17936 Filed 8–23–73;8:45 am]

[Airspace Docket No. 73–NW–10]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On July 11, 1973 a notice of proposed rulemaking was published in the FEDERAL REGISTER (38 FR 18470) stating that the Federal Aviation Administration (FAA) was considering amendments to Part 71 of the Federal Aviation Regulations that would alter the description of the Burley, Idaho Control Zone and Transition Area.

Interested persons were given thirty days in which to submit written data, views, or arguments. No objections have been received, and the proposed amendments are hereby adopted without change.

Effective date.—These amendments shall be effective 0901 G.m.t., November 8, 1973.

(Sec. 307(a) of the Federal Aviation Act of 1958 as amended (49 U.S.C. 1348(a)); sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c))).

Issued in Seattle, Washington on August 17, 1973.

C. B. WALK, JR.,
Director.

In § 71.171 (38 FR 351) the description of the Burley, Idaho control zone is amended by adding the following: "* * * and within 1.5 miles each side of the 036 degree bearing from the Burley Municipal Airport extending from the 5-mile radius zone to 8 miles northeast of the airport."

In § 71.181 (38 FR 435) the description of the Burley, Idaho transition area is amended to read as follows:

BURLEY, IDAHO

That airspace extending upward from 700 feet above the surface within 5.5 miles each side of the Burley VORTAC 121 degree radial, extending from the VORTAC to 27 miles southeast of the VORTAC; within 5.5 miles each side of the Burley VORTAC 292 degree radial extending from the VORTAC to 17 miles west of the VORTAC; within 4.5 miles each side of the Burley VORTAC 344 degree radial extending to the north edge of V–500; and within 2.5 miles southeast and 6 miles northwest of the 036 degree bearing from the Burley Municipal Airport, extending to 9.5 miles north of the Burley Municipal Airport; and that airspace extending upward from 1200 feet above the surface within 8 miles south of the Burley VORTAC 074° radial extending from the VORTAC 19 miles east; within 10 miles southeast of the 223° radial extending from the VORTAC 19 miles southwest; that airspace southeast of Burley bounded on the north by V–4, on the southeast by a 33.5 mile arc centered on the Burley Airport, on the southwest by northeast edge V–101; that airspace northeast of Burley bounded on the north by V–500, on the east by an arc of a 23 mile radius circle centered on Pocatello, Idaho VORTAC, on the south by V–269 and on the west by V–365; and that airspace north of Burley bounded on the west by a line parallel to and 8 miles northwest of the centerline of V–365 extending from the Burley VORTAC to the south edge of V–500.

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER A—ECONOMIC REGULATION

[Reg. 815; Amdt. 3]

PART 207—CHARTER TRIPS AND SPECIAL SERVICES

Authority of Direct Air Carriers To Charter Aircraft to Foreign Air Freight Forwarders

Adopted by the Civil Aeronautics Board at its office in Washington, D.C.

In EDR–245 [1] the Board issued a notice of proposed rulemaking to amend Parts 207, 208 and 212 of the Board's Economic Regulations (14 CFR Parts 207, 208 and 212) so as to authorize certificate route air carriers, supplemental air carriers and foreign route air carriers, respectively, to charter aircraft to foreign air freight forwarders. The purpose of the proposed rule is to make the authority of these direct air carriers to charter to such forwarders correlative with the latter's section 402 permit chartering authority.

Pursuant to the notice, comments have been filed by Emery Air Freight, J. D. Kaye International Limited (New Zealand), The Flying Tiger Line Inc., Japan Air Lines, Pan American World Airways, Inc., and Saturn Airways, Inc. Upon consideration, the Board has determined to adopt the proposed rule with a modification. The tentative findings and conclusions set forth in EDR–245 are incorporated and made final, except as modified. Except to the extent indicated herein, all requests contained in the comment are denied.

In its comment Pan American requests the Board to defer action in this rulemaking proceeding until final decision is reached on "essentially the same subject" in the *Air Freight Forwarders' Charter Investigation*, Docket 23287.[2] Flying Tiger takes a similar position. These requests are denied.

[1] April 26, 1973, 38 FR 10816 (Docket 25473).

[2] The investigation referred to was instituted by Order 72–4–116 to determine what the Board's policy should be with respect to the chartering of aircraft by domestic and international air freight forwarders; what amendments, if any, should be made in Part 296 (classification and exemption of indirect air carriers) and Part 297 (classification and exemption of international air freight forwarders) of the Board's Economic Regulations to implement the chosen policy; and whether the Board should continue to permit joint loading on charters on an unrestricted basis by domestic and international air freight forwarders.

The Board's decision in the *Investigation* may have an impact on chartering by foreign air freight forwarders.[3] Nevertheless, the Board's ultimate decision in that case is far from imminent.[4] Furthermore, the rule herein does not expand the authority to charter aircraft, which is contained in the foreign forwarders' permits, but rather, implements that authority by granting correlative authority to direct air carriers. As indicated in EDR–245,[5] the absence of such authority for the direct air carriers appears to have resulted from inadvertence rather than design. Under these circumstances we shall not grant the requests for deferral.

In its comment, Japan Air Lines points out that by IATA Resolution 045a the IATA carriers may not charter to air freight forwarders, and it sets forth certain problems which would arise if cargo charters by freight forwarders were to be permitted the IATA carriers. The carrier further points out that the Japanese Government has long approved IATA Resolution 045a and has also prohibited air freight forwarders from chartering aircraft of non-IATA carriers.

Notwithstanding the impediment of the resolution to forwarder chartering by IATA carriers, we consider it most unlikely that this rule will materially affect the route carriers vis-a-vis the supplementals. While we take note of the effect of Resolution 045a, we shall no longer allow our own rules to impede implementation of the permit authority which we ourselves have granted to foreign air freight forwarders.

Kaye International and Saturn support the proposed rule. Emery does not object to it, but requests a modification. Emery takes note that permits to foreign air freight forwarders are made subject to §§ 297.21,[6] 297.22,[7] and 297.23 [8] of Part 297 (Classification and Exemption of In-

[3] The authority of U.S. international forwarders to charter aircraft, including the limitations of § 297.23, *infra*, are at issue in the *Investigation*, and the permits of the foreign air freight forwarders incorporate by reference these restrictions.

[4] The hearing is scheduled to commence on September 11, 1973.

[5] Mimeo, pp. 4–5.

[6] Section 297.21 limits shipments to aircraft operated by direct air carriers which have effective tariffs for the services on file with the Board and prohibits international air freight forwarders from shipping by air except in aircraft operated by a direct air carrier.

[7] Section 297.22 prohibits international air freight forwarders from directly engaging in the operation of aircraft in air transportation.

[8] Section 297.23 prohibits international air freight forwarders from chartering aircraft from a direct air carrier for overseas or foreign air transportation between points for which other direct air carriers are authorized to engage in scheduled air transportation unless the direct air carrier is similarly authorized or either (1) has the consent in writing of the authorized direct air carriers or (2) has specific Board authority granted upon a showing of hardship.

V 38-164 AUG 24 73 XUM

ternational Air Freight Forwarders). However, these provisions apply only to shipments outbound from the United States, since the Board has refrained from exercising jurisdiction over foreign forwarders with respect to inbound shipments.[3] The result is that while the inbound operations of U.S. international air freight forwarders are subject to these provisions, those of foreign forwarders are not. Emery requests that the Board overcome this competitive disadvantage by attaching to the proposed amendment a proviso requiring that on inbound charters, foreign forwarders must comply with § 297.23 and other appropriate limitations.

We shall modify the rule substantially as requested by Emery. As Emery points out, without this limitation inbound foreign forwarders are not subject to the first-refusal and veto rights of on-route scheduled carriers set forth in that section, whereas Emery and other U.S. forwarders are subject to those rights. Hence the inbound foreign forwarders may charter aircraft from U.S. supplemental carriers and other carriers, free of these restrictions, while U.S. international forwarders may not. To eliminate this disadvantage to U.S. forwarders, we are therefore revising the proposed amendment by providing that, with respect to flights to the United States in foreign air transportation, the authority to charter to foreign air freight forwarders is limited to those forwarders who have complied with the provisions of § 297.23.

Accordingly, the Civil Aeronautics Board hereby amends Part 207 of its Economic Regulations (14 CFR Part 207) effective September 24, 1973, as follows:

Amend § 207.11 to read in part as follows:

§ 207.11 Charter flight limitations.

* * * * *

(b) Air transportation performed * * *

(3) By an air freight forwarder or international air freight forwarder holding a currently effective operating authorization under Part 296 or Part 297 of this subchapter for the carriage of property in air transportation; by a person authorized by the Board to transport by air used household goods of personnel of the Department of Defense; or, with respect to flights from the United States in foreign air transportation, by a foreign air freight forwarder holding a currently effective foreign air carrier permit issued by the Board under section 402 of the Act, and, with respect to flights to the United States in foreign air transportation, by any foreign air freight forwarder who has complied with the provisions of § 297.23 of this chapter;

(4) [Reserved].

* * * * *

(Secs. 204(a) and 401 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 754, as amended by 76 Stat. 143, 82 Stat. 869; 49 U.S.C. 1324, 1371)

[Reg. ER-816; Amdt. 2]

PART 208—TERMS, CONDITIONS, AND LIMITATIONS OF CERTIFICATES TO ENGAGE IN SUPPLEMENTAL AIR TRANSPORTATION

Authority of Direct Air Carriers To Charter Aircraft to Foreign Air Freight Forwarders

Adopted by the Civil Aeronautics Board at its office in Washington, D.C.

In EDR-245 [1] the Board issued a Notice of Proposed Rulemaking to amend, *inter alia*, Part 208 of the Board's Economic Regulations (14 CFR Part 208) so as to authorize supplemental air carriers to charter aircraft to foreign air freight forwarders. For the reasons set forth in ER-815, issued simultaneously herewith, the Board has determined to adopt the proposed rule with a modification providing that, with respect to flights to the United States in foreign air transportation, the authority to charter to foreign air freight forwarders is limited to those forwarders who have complied with the provisions of § 297.23.

Accordingly, the Civil Aeronautics Board hereby amends Part 208 of its Economic Regulations (14 CFR Part 208) effective September 24, 1973, as follows:

Amend § 208.6 to read as follows:

§208.6 Charter flight limitations.

Charter flights in air transportation performed by supplemental air carriers shall be limited to the following:

* * * * *

(b) * * *

(3) By an air freight forwarder or international air freight forwarder holding a currently effective operating authorization under Part 296 or Part 297 of this subchapter for the carriage of property in air transportation; by a person authorized by the Board to transport by air used household goods of personnel of the Department of Defense; or, with respect to flights from the United States in foreign air transportation, by a foreign air freight forwarder holding a currently effective foreign air carrier permit issued by the Board under section 402 of the Act, and, with respect to flights to the United States in foreign air transportation, by any foreign air freight forwarder who has complied with the provisions of § 297.23 of this chapter;

* * * * *

(Secs. 204(a) and 401 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 754, as amended by 76 Stat. 143, 82 Stat. 867; 49 U.S.C. 1324, 1371.)

By the Civil Aeronautics Board.

[1] April 26, 1973, 38 FR 10616 (Docket 25473).

[Reg. R-817; Amdt. 14]

PART 212—CHARTER TRIPS BY FOREIGN AIR CARRIERS

Authority of Direct Air Carriers to Charter Aircraft to Foreign Air Freight Forwarders

Adopted by Civil Aeronautics Board at its office in Washington, D.C.

In EDR-245 [1] the Board issued a Notice of Proposed Rulemaking to amend, *inter alia*, Part 212 of the Board's Economic Regulations (14 CFR Part 212) so as to authorize foreign route air carriers to charter aircraft to foreign air freight forwarders. For the reasons set forth in ER-815, issued simultaneously herewith, the Board has determined to adopt the proposed rule with a modification providing that, with respect to flights to the United States in foreign air transportation, the authority to charter to foreign air freight forwarders is limited to those forwarders who have complied with the provisions of § 297.23.

Accordingly, the Civil Aeronautics Board hereby amends Part 212 of its Economic Regulations (14 CFR Part 212) effective September 24, 1973, as follows:

Amend § 212.8 to read as follows:

§212.8 Charter flight limitations.

* * * * *

(a) * * *

(3) By an international air freight forwarder holding a currently effective operating authorization under Part 297 of this subchapter for the carriage of property in foreign air transportation; by a person authorized by the Board to transport by air used household goods of personnel of the Department of Defense; or, with respect to flights from the United States in foreign air transportation, by a foreign air freight forwarder holding a currently effective foreign air carrier permit issued by the Board under section 402 of the Act, and, with respect to flights to the United States in foreign air transportation, by any foreign air freight forwarder who has complied with the provisions of § 297.23 of this chapter;

* * * * *

(Secs. 204(a) and 402 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 757; 49 U.S.C. 1324, 1372.)

By the Civil Aeronautics Board.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-195]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

V 38-164 AUG 24 73 XUM

[Docket No. FI-196]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

The Federal Insurance Administrator finds that comment and public procedure and the use of delayed effective dates in identifying the areas of communities which have special flood or mudslide hazards, in accordance with 24 CFR Part 1915, would be contrary to the public interest. The purpose of such identifications is to guide new development away from areas threatened by flooding, a purpose which is accomplished pursuant to statute by denying subsidized flood insurance to structures thereafter built within such areas. The practice of issuing proposed identifications for comment or of delaying effective dates would tend to frustrate this purpose by permitting imprudent or unscrupulous builders to start construction within such hazardous areas before the official identification became final, thus increasing the communities' aggregate exposure to loss of life and property and the agency's financial exposure to flood losses, both of which are contrary to the statutory purposes of the program. Accordingly, the Department is not providing for public comment in issuing this amendment and it will become effective on August 24, 1973. Section 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas.

State	County	Location	Map No.	State map repository	Local map repository	Effective date of identification of areas which have special flood hazards
New Jersey	Bergen	Northvale, Borough of.	H 34 003 2270 01 through H 34 003 2270 02	Bureau of Water Control, Department of Environmental Protection, P.O. Box 1390, Trenton, N.J. 08625. New Jersey Department of Insurance, State House Annex, Trenton, N.J. 08625.	Borough Clerk, Borough of Northvale, Borough Hall, Northvale, N.J. 07647.	Aug. 31, 1973.

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

[Order No. 534-73]

PART 17—REGULATIONS RELATING TO THE CLASSIFICATION AND DECLASSIFICATION OF NATIONAL SECURITY INFORMATION AND MATERIAL PURSUANT TO EXECUTIVE ORDER NO. 11652

Procedures for Review of Requests for Declassification of Documents

The following amendments to the regulations governing the classification and declassification of national security information and material originating in or coming under the jurisdiction or control of the Department of Justice (the "Department") prescribe, *inter alia*, procedures for the review of requests for the declassification of Department documents.

By virtue of the authority vested in me by Executive Order No. 11652 of March 8, 1972 (the "Order"), sections 509 and 510 of title 28, United States Code, Chapter I of title 28 of the Code of Federal Regulations is amended as follows:

§ 17.1 [Amended]

(1) In § 17.1(a) the word "require" is substituted for the word "requires" in line 5, the word "are" is substituted for the word "is" in line 6 and the word "are" is substituted for the word "is" in line 8.

§ 17.50 [Amended]

(2) § 17.50, the article "a" is substituted for the article "the" appearing before the title "Division Security Officer".

§ 17.56 [Amended]

(3) In § 17.56, the phrase "or of such of his subordinates as he may designate in writing", is inserted at the end of the first sentence.

§ 17.67 [Amended]

(4) In § 17.67, the word "category" is substituted for the word "categories" appearing in line 5 of the first sentence and the words "and Confidential" are deleted from lines 6, 9-10, and 15.

§ 17.75 [Amended]

(5) In § 17.75, the reference "§ 17.76" is substituted for the reference "section 1303".

(6) Paragraph (c) of § 17.36 is amended to read as follows:

§ 17.36 Mandatory review of material over 30 years old.

* * * * *

(c) Procedure: (1) Requests for classification review under this section for documents originating within the Department of Justice should be directed to the Office of the Deputy Attorney General, Washington, D.C. 20530. The Office of the Deputy Attorney General shall assign the request to the appropriate division within the Department for action, and the latter shall immediately acknowledge receipt of the request to the requester in writing. If the requester is a member of the public and the request calls for the rendering of services requiring the charging of fees pursuant to 31 U.S.C. § 483a (1970), the requester shall be so notified, and fees shall be charged in accordance with the schedule set forth in § 16.9 of this Chapter. The division shall thereafter make a determination within 30 days of receipt of the request by the Office of the Deputy Attorney General or shall give an explanation to the requester as to why further time is necessary, and provide a copy of the explanation to the Office of the Deputy Attorney General. If at the end of 60 days from receipt of the request for review no determination has been made, the requester may treat his request as having been denied as of that date and may appeal to the Department Review Committee for a determination in accordance with the procedures established by § 17.38.

(2) If the division determines that continued classification is required, the requester shall promptly be notified, and to the extent consistent with national security, provided with a brief statement as to why the requested information or material cannot be declassified. The notification shall also advise the requester that he has the right to appeal the determination and that if he wishes to exercise that right, he must submit his appeal to the Chairman, Department Review Committee, Department of Justice, Washington, D.C. 20530 within 30 days of the receipt by the requester of the determination. The procedures under which an appeal may be submitted are set forth in § 17.38(b).

(3) If the division determines that continued classification is not required, the information or material shall be declassified. If the requester is a member of the public, the division shall then determine whether the information or material is otherwise available for public release under the Freeedom of Information Act (5 U.S.C. 552) and Subpart A of Part 16 of this Chapter ("Production or Disclosure Under 5 U.S.C. 552(a)").

(i) If the division determines that the information or material is not exempt from disclosure under the Freedom of Information Act or that, even though exempt, it should be made available as a matter of discretion, the requester shall be advised that it has been declassified and is available. If the request involves the furnishing of copies and a fee is to be assessed the requester shall be so advised pursuant to § 16.9(c) of Part 16 of this Chapter and the schedule of fees in § 16.9(b) shall be controlling.

V 38-164 AUG 24 73 XUM

(ii) If the division determines that the information or material is exempt under the Freedom of Information Act and should not be disclosed, the requester shall be advised that it has been declassified but that it will not be disclosed. The requester shall also be advised that he may appeal to the Attorney General the denial of his request pursuant to § 16.7 of the Freedom of Information Act procedure, Part 16 of this Chapter.

(7) Section 17.38 is amended to read as follows:

§ 17.38 Department review committee.

(a) *Purpose.*—A Department Review Committee is hereby established. The Committee is responsible for the continuing review of the administration of these regulations with respect to classification and declassification of information or material originated within the Department. It shall have the authority and responsibility to—

(1) Review and act upon all appeals from denials of requests for declassification;

(2) Review all appeals of requests for information or material under the Freedom of Information Act, 5 U.S.C. 552, when the proposed denial is based on continued classification under the order;

(3) Overrule on behalf of the Attorney General classification determinations in whole or in part, when in its judgment, continued protection is not required;

(4) Recommend to the Attorney General appropriate administrative action to correct abuse or violation of any provision of the order, the directives or these regulations, including but not limited to notifications by warning letter, formal reprimand, and to the extent permitted by law, suspension without pay or removal.

(b) *Procedure for appeal.*—(1) When a division has determined that continued classification of information or material is necessary, the requester may, within 30 days of its receipt, appeal the determination to the Chairman, Department Review Committee, Department of Justice, Washington, D.C. 20530. The appeal shall be in writing, shall identify or describe the information or material for which declassification was requested, and, whenever possible, should state the reasons why the requester believes that it should be declassified.

(2) Upon receipt of an appeal, the Department Review Committee shall immediately acknowledge receipt and act on the matter within 30 days.

(3) If the Committee determines that continued classification is required it shall promptly so notify the requester and to the extent consistent with national security provide him with a brief statement as to why the requested information or material cannot be declassified. It shall also advise him that he may appeal the denial to the Interagency Classification Review Committee, Executive Office Building, Washington, D.C. 20506.

(4) If the Committee determines that continued classification is not required, it shall declassify the information or material and the requester shall be so notified. The Committee shall thereupon refer the request to the appropriate division within the Department to determine if the material is otherwise available for public release under the Freedom of Information Act (5 U.S.C. 552) and Part 16 of this Chapter ("Production or Disclosure of Material or Information") and the procedures set forth in § 17.36(c) (3) shall apply.

Dated: August 15, 1973.

ELLIOT RICHARDSON,
Attorney General.

Title 29—Labor

SUBTITLE A—OFFICE OF THE SECRETARY OF LABOR

PART 40—FARM LABOR CONTRACTOR REGISTRATION

Change of Officer to Represent Administrator at Hearings

The Farm Labor Contractor Registration Act of 1963 (78 Stat. 920) and regulations issued thereunder (29 CFR Part 40) provide that a farm labor contractor shall have an opportunity for a hearing before an administrative law judge in cases where it is proposed to refuse to issue or renew, or to suspend or revoke, a certificate of registration. The regulations provide that the Secretary of Labor will rule on exceptions to a decision of the administrative law judge.

It is deemed necessary to amend the rules governing these proceedings to change a present provision under which the Solicitor or his designee is specified as the officer to represent the Administrator in proceedings before the administrative law judge pursuant to 29 CFR 40.21. In the event exceptions are taken by either party to a decision of the administrative law judge in accordance with 29 CFR 40.25, it is desirable that the entire record, including such exceptions, be reviewed impartially by the Solicitor in his capacity as legal advisor to the Secretary, in preparation for the issuance of an order by the Secretary in the matter pending. To avoid a dual role of the Solicitor as advocate of the Administrator's position before the administrative law judge and as advisor to the Secretary in the same proceeding, it is deemed necessary to assign the legal representation of the Administrator to the Associate Solicitor, Division of General Legal Services, of the United States Department of Labor, or his designee.

Notice of proposed rulemaking is unnecessary in this instance since the revision merely involves a change in the rules of department organization and procedures. A delay in the effective date is not necessary because public business will be expedited by making it effective immediately and those persons who followed the former procedures will not be adversely affected thereby. The amendment made hereby shall accordingly be effective August 24, 1973.

Part 40 of Title 29 is amended by revising paragraph (a) of § 40.21 to read as follows:

§ 40.21 The hearing—appearances.

(a) Each party shall have the right to appear in person, through an authorized agent, or by or with counsel. The Associate Solicitor, Division of General Legal Services, of the United States Department of Labor or his designee shall represent the Administrator in each proceeding before the Administrative Law Judge.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 3-73-8R]

PART 127—SECURITY ZONES

Establishment of Security Zone at Christina River, Wilmington, Delaware

This amendment to the Coast Guard's Security Zone Regulations establishes the Christina River, Wilmington, Delaware, as a security zone. This security zone is established due to construction work on the highway bridge carrying Interstate Highway 495 across the Christina River.

This amendment is issued without publication of a notice of proposed rulemaking and this amendment is effective in less than 30 days from the date of publication because good cause exists and public procedures on this amendment are impracticable due to lack of advance notice of construction activity.

In consideration of the foregoing, Part 127 of Title 33 of the Code of Federal Regulations is amended by adding § 127.309 to read as follows:

§ 127.309 Christina River, Wilmington, Delaware.

The waters within an area extending 100 yards either side of the highway bridge carrying Interstate Highway 495 across the Christina River, which bridge is located at 39°43'30" North, 75°32'0" West.

(46 Stat. 220, as amended, § 8(b), 80 Stat. 937; 50 U.S.C. § 191, 49 U.S.C. § 1655(b); E.O. 10173, E.O. 10277, E.O. 10352, E.O. 11249; 3 CFR, 1949-1953 Comp. 356, 778, 873, 3 CFR, 1964-1965 Comp. 349, 33 CFR Part 6, 49 CFR 146(b).)

Effective date.—This amendment is effective at the following times and dates: From 8:00 a.m., e.d.t., until 5:30 p.m., e.d.t., Monday, 27 August 1973, through Friday, 31 August 1973, and Tuesday, 4 September 1973, through Friday, 7 September 1973.

Dated August 21, 1973.

B. F. ENGEL,
Vice-Admiral, United States Coast Guard, Commander, Third Coast Guard District, Governors Island, New York.

Title 31—Money and Finance: Treasury

CHAPTER II—FISCAL SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER A—BUREAU OF ACCOUNTS

PART 223—SURETY COMPANIES DOING BUSINESS WITH THE UNITED STATES

Adoption of Hearing Procedures

In the FEDERAL REGISTER of July 16, 1973, there was published at page 18897 a notice of proposed rulemaking to amend the regulations at 31 CFR Part 223 (Treasury Department Circular No. 297, Revised) governing surety companies doing business with the United States. The amendments were proposed to provide a surety company with an opportunity for a hearing to explain and justify its reasons for not settling claims made against it by Federal agencies prior to a determination by the Secretary of the Treasury to revoke its certificate of authority to do business with the United States for failure to perform its obligations to such agencies. Interested persons were given until August 15, 1973, to submit written comments on the proposed amendments and no such comments have been received.

Because the amendments to 31 CFR Part 223 establish a procedure for allowing surety companies to make their views known in disputed cases, the Department finds in accord with 5 U.S.C. 553 (d)(3), that there is good cause not to postpone the effective date of the amendments. Accordingly, the proposed amendments are hereby adopted, effective August 24, 1973.

Dated August 20, 1973.

[SEAL] DAVID MOSSO,
Deputy Fiscal Assistant Secretary.

---

(1) As amended, the table of contents for §§ 223.17 through 223.22, reads:

Sec.
223.17 Revocation.
223.18 Performance of agency obligations.
223.19 Informal hearing on agency complaints.
223.20 Final decisions.
223.21 Reinstatement.
223.22 Schedule of fees.

(2) As amended, § 223.6 reads:

§ 223.6 Requirements applicable to surety companies.

Every company now or hereafter authorized to do business under the act of Congress referred to in § 223.1 shall be subject to the regulations contained in this part.

§§ 223.17, 223.18 [Redesignated]

(3) Section 223.18 would be redesignated as § 223.17; § 223.17 would be redesignated as § 223.18 and the heading changed to read as follows: § 223.18 *Performance of agency obligations.*

(4) As newly added, §§ 223.19 through 223.21 reads:

§ 223.19 Informal hearing on agency complaints.

(a) *Request for informal hearing.* If a company determines that the opportunity to make known its views, as provided for under § 223.18(b), is inadequate, it may, within 20 business days of the date of the notice required by § 223.18(b), request, in writing, that the Secretary of the Treasury convene an informal hearing.

(b) *Purpose.* As soon as possible after a written request for an informal hearing is received, the Secretary of the Treasury shall convene an informal hearing, at such time and place as he deems appropriate, for the purpose of determining whether revocation of the company's certificate of authority is justified.

(c) *Notice.* The Company shall be advised, in writing, of the time and place of the informal hearing and shall be directed to bring all documents, records and other information as it may find necessary and relevant to substantiate its refusal to settle the claims made against it by the Federal agency making the report under § 223.18(a).

(d) *Conduct of hearings.* The hearing shall be conducted by a hearing officer appointed by the Secretary. The company may be represented by counsel and shall have a fair opportunity to present any relevant material and to examine the agency's evidence. Formal rules of evidence will not apply at the informal hearing.

(e) *Report.* Within 30 days after the informal hearing, the hearing officer shall make a written report to the Secretary setting forth his findings, the basis for his findings, and his recommendations. A copy of the report shall be sent to the company.

§ 223.20 Final decisions.

If, after review of the case file, it is the judgment of the Secretary that the complaint was unfounded, the Secretary shall dismiss the complaint by the Federal agency concerned and shall so notify the company. If, however, it is the judgment of the Secretary that the company has not fulfilled its obligations to the complainant agency, he shall notify the company of the facts or conduct which indicate such failure and allow the company 20 business days from the date of such notification to demonstrate or achieve compliance. If no showing of compliance is made within the period allowed, the Secretary shall either preclude renewal of a company's certificate of authority or revoke it.

§ 223.21 Reinstatement.

If, after one year from the date of the expiration or the revocation of the certificate of authority, as the case may be, a company can show that the basis for the non-renewal or revocation has been eliminated and that it can comply with the requirements of 6 U.S.C. 6–13 and the regulations in this part, a new certificate of authority shall be issued without prejudice.

(5 U.S.C. 301; 6 U.S.C. 8.)

Title 38—Pensions, Bonuses, and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART 25—RELOCATION ASSISTANCE AND LAND ACQUISITION UNDER FEDERAL AND FEDERALLY ASSISTED PROGRAMS

Implementation of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970

The Veterans Administration is adding a new Part 25 to implement the provisions of Public Law 91-646 (84 Stat. 1894), the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970. The purpose of the act is to provide uniform and equitable land acquisition policies and relocation assistance for displaced persons in connection with Federal or federally assisted programs. Section 213 of the act authorizes the heads of Federal agencies to establish regulations that are necessary to carry out the purpose of the act and directs them to consult together to insure uniform implementation and administration of the act.

Pursuant to sec. 213 of the act and a memorandum from the President to all agency heads, dated January 4, 1971, guidelines for the issuance of regulations were developed by interagency task force in conjunction with the Office of Management and Budget.

In consideration of the foregoing, Chapter I of Title 38, Code of Federal Regulations, is amended by adding a new Part 25, Relocation Assistance and Land Acquisition Under Federal and Federally Assisted Programs.

Effective date.—Since these regulations are in accord with those promulgated by other Federal agencies and consist of interpretative rules and statements of policy under Public Law 91-646, it has been determined that notice and public procedure thereon are impracticable, unnecessary and contrary to the public interest, therefore, the regulations of this part shall become effective August 24, 1973.

Subpart A—General

Sec.
25.1 Purpose and coverage.
25.2 General considerations.
25.3 Review of activities for compliance Titles II and III.
25.4 Public information.

Subpart B—Assurance of Adequate Replacement Housing Prior to Displacement

25.21 Assurance of availability.
25.22 Housing provided as a last resort.
25.23 Loans for planning and preliminary expenses.

V 38-164 AUG 24 73 XUM

Subpart C—Moving and Related Expenses

25.31 Eligibility.
25.32 Actual reasonable expenses in moving.
25.33 Exclusions.
25.34 Expenses in searching for replacement business or farm.
25.35 Actual direct losses by business or farm operation.

Subpart D—Payments in Lieu of Moving and Related Expenses

25.41 Dwellings; schedules.
25.42 Businesses; eligibility.
25.43 Farms; partial taking.
25.44 Nonprofit organizations.
25.45 Net earnings.
25.46 Amount of business fixed payment.

Subpart E—Replacement Housing Payment for Homeowners

25.51 Eligibility.
25.52 Comparable replacement dwelling.
25.53 Computation of replacement housing payment.

Subpart F—Replacement Housing Payments for Tenants and Certain Others

25.61 Eligibility.
25.62 Computation of replacement housing payments for displaced tenants.
25.63 Computation of replacement housing payments for certain others.

Subpart G—Relocation Assistance Advisory Services

25.71 Relocation assistance advisory program.
25.72 Coordination of planned relocation activities.
25.73 Contracting for relocation services.

Subpart H—Federally Assisted Programs

25.81 Assurances.
25.82 Administration; relocation assistance programs.

Subpart I—Uniform Real Property Acquisition Policy

25.101 Applicability.
25.102 Acquisition procedures.
25.103 Condemnation.
25.104 Improvements owned by tenants.
25.105 Expenses incidental to transfer of title to the United States.
25.106 Lease to former owner or occupant.
25.107 Litigation expenses.

Subpart J—Definitions

25.121 Applicability.
25.122 General.
25.123 Definitions.
25.124 Financial means.

Subpart K—Administrative Review

25.131 Administrative review.

AUTHORITY: Sec. 213, PL 91-646, 84 Stat 1900; 38 U.S.C. 210.

Subpart A—General

§ 25.1 Purpose and coverage.

(a) Part 25 prescribes the policies and procedures governing the implementation of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Public Law 91-646, 84 Stat. 1894, approved January 2, 1971) hereinafter referred to as the Act, to assure the fair, equitable, and uniform treatment of persons displaced by Federal and federally assisted programs. All references in this part to sections or subsections are references to sections or subsections of the Act. In the event of any conflict between this part and the provisions of the Act, or any other applicable law, the statutory provision shall prevail.

(b) Provisions of this part are applicable to projects which are part of a Federal or federally assisted program administered by the Veterans Administration and which after January 1, 1971, cause the displacement of persons or the acquisition of real property, including acquisition by a State agency without Federal financial assistance.

§ 25.2 General considerations.

(a) Consideration has been given to the following in the development of this part.

(1) House Report 91-1656 of December 2, 1970, A Report to Accompany S. 1, Committee on Public Works, House of Representatives, 91st Congress, 2nd Session, and

(2) Provisions of other applicable law, including Title VI of the Civil Rights Act of 1964 (Public Law 88-352), Title VIII of the Civil Rights Act of 1968 (Public Law 90-284), OMB Circular A-103, and good faith and reasonableness.

(b) The Act shall be applied and administered to promote its underlying purposes and policies.

(c) Veterans Administration officials responsible for programs under this Act will assure that;

(1) A written notice of displacement be given to each individual, family, business, or farm operation to be displaced. Such notice shall be served personally or by certified (or registered) first-class mail.

(2) In order to qualify for benefits under Title II of the Act as a displaced person, either of two conditions be fulfilled:

(i) The person must have moved (or moved his personal property) as a result of the receipt of a written notice to vacate which notice may have been given before or after initiation of negotiations for acquisition of the property as prescribed by this part. When negotiations are initiated prior to issuance of a written notice, all persons contacted by the negotiating agency should be advised that the benefits of the Act are available only when the person moves subsequent to receipt of a written notice; or

(ii) The subject real property must in fact have been acquired, and the person must have moved as a result of its acquisition (except in those instances covered by secs. 217 and 219).

(3) In addition, certain of the benefits provided by Title II of the Act are available as follows:

(i) Whenever the acquisition of, or notice to move from, real property used for a business or farm operation causes any person to move from other real property used for his dwelling, or to move the personal property from such other real property, such person may receive the benefits provided by secs. 202 (a) and (b) and 205.

(ii) If the Administrator determines that any person, occupying property immediately adjacent to the real property acquired, is caused substantial economic injury because of the acquisition, he may offer such person relocation advisory services under sec. 205(c).

(4) For real property acquisitions under Federal law, contracts or options to purchase real property shall not incorporate provisions for making payments for relocation costs and related items in Title II of the Act. Appraisers shall not give consideration to or include in their real property appraisals any allowances for the benefits provided by Title II. In the event of condemnation with a declaration of taking, the estimated compensation shall be determined solely on the basis of the appraised value of the real property with no consideration being given to or reference contained therein to the payments to be made under Title II of the Act.

(5) Applications for benefits under the Act are to be made within 18 months from the date on which the displaced person moves from the real property acquired or to be acquired; or the date on which the displacing agency makes final payment of all costs of that real property, whichever is the later date. The Administrator may extend this period upon a proper showing of good cause.

(6) The provisions of the Act apply to the acquisition of all real property for, and the relocation of all persons displaced by, Federal programs and projects and programs and projects undertaken by State agencies which receive Federal financial assistance for all or part of the cost. It is immaterial whether the real property is acquired by a Federal or State agency or whether Federal funds contribute to the cost of the real property.

§ 25.3 Review of activities for compliance with Titles II and III.

The Administrator shall provide for periodic review of all Federal and federally assisted programs to insure compliance with the provisions of Titles II and III of the Act.

§ 25.4 Public information.

The Administrator will make available to the public full information concerning the agency's relocation programs and he shall insure that persons to be displaced are fully informed, at the earliest possible time, of such matters as available relocation payments and assistance; the specific plans and procedures for assuring that suitable replacement housing will be available for homeowners and tenants, in advance of displacement; the eligibility requirements and procedures for obtaining such payments and assistance; and the right of administrative review by the head of the agency concerned as provided in § 25.131.

Subpart B—Assurance of Adequate Replacement Housing Prior to Displacement

§ 25.21 Assurance of availability.

(a) *Availability.*—The Veterans Administration may not proceed with any phase of a project or authorize a State agency to proceed with any phase of a project which will cause the displacement of any person until the Administrator has determined, or received satisfactory assurances from the displacing State agency, that within a reasonable period of time prior to displacement, there will be available on a basis consistent with the requirements of Title VIII of the Civil Rights Act of 1968 (Public Law 90-284), in areas not generally less desirable in regard to public utilities and public and commercial facilities and at rents or prices within the financial means of the families and individuals displaced, decent, safe, and sanitary dwellings, as described in paragraph (d) of this section, equal in number to the number of, and available to, such displaced persons who require such dwellings and reasonably accessible to their places of employment.

(b) *Support.*—The determination or assurances shall be based on a current survey and analysis of available replacement housing by the Veterans Administration or the displacing State agency. Such survey and analysis must take into account the competing demands on available housing.

(c) *Waiver.*—Pursuant to sec. 205(c)(3), the Administrator may waive the assurances prescribed by this section whenever, in his judgment, the immediate possession of real property is of overriding importance. Each waiver of assurance of replacement housing shall be supported by appropriate findings and a determination of the necessity for the waiver. Determinations so made shall be included in the annual report required by sec. 214.

(d) *Decent, safe, and sanitary housing.*—A decent, safe, and sanitary dwelling is one which is found to be in sound, clean, and weathertight condition, and which meets local housing codes. The Administrator shall consider the following criteria in determining if a dwelling unit is decent, safe, and sanitary. Adjustments may only be made in the cases of unusual circumstances or in unique geographical areas.

(1) *Housekeeping unit.*—A housekeeping unit must include a kitchen with fully usable sink; a cooking stove, or connections for same; a separate complete bathroom; hot and cold running water in both the bathroom and the kitchen; an adequate and safe wiring system for lighting and other electrical services; and heating as required by climatic conditions and local codes.

(2) *Nonhousekeeping units.*—A nonhousekeeping unit is one which meets local code standards for boarding houses, hotels, or other congregate living. If local codes do not include requirements relating to space and sanitary facilities, standards will be subject to the approval of the Administrator.

(3) *Occupancy standards.*—Occupancy standards for replacement housing shall comply with agency approved occupancy requirements or comply with local codes.

(4) *Absence or inadequacy of local standards.*—In those instances where there is no local housing code or a local housing code does not contain certain minimum standards or the standards are inadequate, the Administrator may establish the standards.

(5) *Facilities.*—A dwelling unit meeting the physical and occupancy standards stated in this section shall only be considered as suitable replacement housing when it is reasonably convenient to such community facilities as schools, stores, and public transportation.

§ 25.22 Housing provided as a last resort.

When it is determined under § 25.21 that adequate replacement housing is not available, and cannot otherwise be made available, the Administrator will take action or approve action by a State agency to develop replacement housing as authorized by sec. 206(a). The Administrator in taking or approving such action for replacement housing will be guided by the criteria and procedures issued by the Secretary of Housing and Urban Development. A State agency taking such action will comply with the requirements and procedures of the Veterans Administration.

§ 25.23 Loans for planning and preliminary expenses.

The Administrator will be guided by the criteria and procedures developed by the Secretary of Housing and Urban Development when providing loans to eligible borrowers for planning and other preliminary expenses authorized under sec. 215. A State agency providing such loans will comply with the requirements and procedures of the Federal agency providing the Federal financial assistance.

Subpart C—Moving and Related Expenses

§ 25.31 Eligibility.

(a) Any displaced person (including one who conducts a business or farm operation) is eligible to receive a payment for moving expenses. A person who lives on his business or farm property may be eligible for both moving and related expenses as a dwelling occupant in addition to being eligible for payments with respect to displacement from a business or farm operation.

(b) Any person who moves from real property or moves his personal property from real property, as a result of the acquisition of such real property in whole or part, or as a result of a written notice of the Veterans Administration to vacate real property, or solely for the purposes of secs. 202 (a) and (b) as a result of the acquisition of, or a written notice of the Veterans Administration to vacate, other real property on which such person conducts a farm or business, is eligible to receive a payment for moving expenses.

§ 25.32 Actual reasonable expenses in moving.

(a) *Allowable moving expenses.*—(1) Transportation of individuals, families and personal property from the acquired site to the replacement site, not to exceed a distance of 50 miles, except where the Administrator determines that relocation beyond the 50-mile area is justified.

(2) Packing and unpacking, crating and uncrating of personal property.

(3) Advertising for packing, crating, and transportation when the Administrator determines that it is necessary.

(4) Storage of personal property for a period generally not to exceed 12 months when the Administrator determines that storage is necessary in connection with relocation.

(5) Insurance premiums covering loss and damage of personal property while in storage or transit.

(6) Removal, reinstallation, reestablishment, including such modifications as deemed necessary by the Veterans Administration, of and reconnection of utilities for, machinery, equipment, appliances, and other items, not acquired as real property. Prior to payment of any expenses for removal and reinstallation of such property, the displaced person shall be required to agree in writing that the property is personalty and that the displacing agency is released from any payment for the property.

(7) Property lost, stolen or damaged (without the fault or negligence of the displaced person, his agent or employees) in the process of moving where insurance to cover such loss or damage is not available.

(8) Such other reasonable expenses determined to be allowable by the Administrator.

(b) *Limitations.*—(1) When the displaced person accomplishes the move himself, the amount of payment shall not exceed the estimated cost of moving commercially, unless the Administrator determines a greater amount is justified.

(2) When an item of personal property which is used in connection with any business or farm operation is not moved but sold and promptly replaced with a comparable item, reimbursement shall not exceed the replacement cost minus the proceeds received from the sale, or the estimated cost of moving, whichever is less.

(3) When personal property which is used in connection with any business or farm operation to be moved is of low value and high bulk, and the cost of moving would be disproportionate in relation to the value, in the judgment of the Administrator, the allowable reimbursement for the expense of moving the personal property shall not exceed the difference between the amount which would have been received for such item on liquidation and the cost of replacing the same with a comparable item available on the market. This provision will be applicable in the case of moving of junk yards, stock-piled sand, gravel, minerals, metals, and similar type items of personal property.

(4) If the cost of moving or relocating an outdoor advertising display or displays is determined to be equal to or in excess of the in-place value of the display, consideration should be given to acquiring such display or displays as a part

V 38-164 AUG 24 73 XUM

of the real property, unless such acquisition is prohibited by State law.

§ 25.33 Exclusions.

A displaced person is not entitled to be paid for

(a) Additional expenses incurred because of living in a new location.

(b) Cost of moving structures or other improvements in which the displaced person reserved ownership except as otherwise provided by law.

(c) Improvements to the replacement site, except when required by law.

(d) Interest on loans to cover moving expenses.

(e) Loss of good will.

(f) Loss of profits.

(g) Loss of trained employees.

(h) Personal injury.

(i) Cost of preparing the application for moving and related expenses.

(j) Payment for search cost in connection with locating a replacement dwelling.

(k) Such other items as the Administrator determines should be excluded.

§ 25.34 Expenses in searching for replacement business or farm.

(a) *Allowable.*—(1) Actual travel costs.

(2) Extra costs for meals and lodging.

(3) Time spent in searching at the rate of the displaced person's salary or earnings, but not to exceed $10 per hour.

(4) In the discretion of the Administrator, necessary broker, real estate, or other professional fees to locate a replacement business or farm operation.

(b) *Limitation.*—The total amount a displace person may be paid for searching expenses may not exceed $500, unless the Administrator determines that a greater amount is justified based on the circumstances involved. The justification for such an exception will be documented.

§ 25.35 Actual direct losses by business or farm operation.

When the displaced person does not move personal property, he should be required to make a bona fide effort to sell it, and should be reimbursed for the reasonable costs incurred.

(a) When the business or farm operation is discontinued, the displaced person is entitled to the difference between the fair market value of the personal property for continued use at its location prior to displacement and the sale proceeds, or the estimated costs of moving 50 miles, whichever is less.

(b) When the personal property is abandoned, the displaced person is entitled to payment for the fair market value of the property for continued use at its location prior to displacement or the estimated cost of moving 50 miles whichever is less.

(c) The cost of removal of the personal property shall not be considered as an offsetting charge against other payments to the displaced person.

Subpart D—Payments in Lieu of Moving and Related Expenses

§ 25.41 Dwellings; schedules.

(a) Any displaced person eligible for payments under sec. 202(b), who is displaced from a dwelling and who so elects, may receive a moving expense allowance determined according to the moving expense allowance schedules set forth in Appendix B, Part 25, Title 49, Code of Federal Regulations, not to exceed $300, and a dislocation allowance of $200.

(b) When said schedules are not applicable, the heads of Federal agencies undertaking or providing Federal financial assistance to a project causing displacement in such areas shall cooperate in the development of a single moving expense schedule for the use of all these displacing agencies.

(c) A displaced person, who elects to receive a payment based on a schedule, shall be paid under the schedule used in the jurisdiction in which the displacement occurs regardless of where he relocates.

§ 25.42 Businesses; eligibility.

(a) A person displaced from his business, as defined in sec. 101(7) (A), (B), and (C) is eligible under sec. 202(c) to receive a fixed payment in lieu of moving and related expenses. Care must be exercised, in each instance, however, to assure that such payments are made only in connection with a bona fide business. The Administrator will make a determination with respect to whether a given activity constitutes such a business.

(b) Those businesses described in sec. 101(7)(D) are not eligible under sec. 202(c) for a fixed payment in lieu of moving and related expenses.

(c) Where a displaced person is displaced from his place of business, no payment shall be made under sec. 202(c) until after the Administrator determines that the business is not part of a commercial enterprise having at least one other establishment not being acquired, which is engaged in the same or similar business, and that the business cannot be relocated without a substantial loss of existing patronage. The determination of loss of existing patronage shall be made by the Administrator only after consideration of all pertinent circumstances, including but not limited to the following factors:

(1) The type of business conducted by the displaced concern.

(2) The nature of the clientele of the displaced concern.

(3) The relative importance of the present and proposed location to the displaced business and the availability of a suitable replacement location for the displaced person.

§ 25.43 Farms; partial taking.

Where a displaced person is displaced from only a part of his farm operation, the fixed payment provided by sec. 202(c) shall be made only if the displacing agency determines that the farm met the definition of a farm operation prior to the acquisition and that the property remaining after the acquisition can no longer meet the definition of a farm operation.

§ 25.44 Nonprofit organizations.

Where a nonprofit organization is displaced, no payment shall be made under sec. 202(c) until after the Administrator determines:

(a) That the nonprofit organization cannot be relocated without a substantial loss of its existing patronage. The term "existing patronage" as used in connection with a nonprofit organization includes the persons, community or clientele served or affected by the activities of the nonprofit organization.

(b) That the nonprofit organization is not part of a commercial enterprise having at least one other establishment not being acquired which is engaged in the same or similar activity.

§ 25.45 Net earnings.

The term "average annual net earnings" as used in sec. 202(c) means one-half of any net earnings of the business or farm operation, before Federal, State, and local income taxes, during the 2 taxable years immediately preceding the taxable year in which such business or farm operation moves from the real property acquired for such project, or during such other period as the Administrator determines to be more equitable for establishing such earnings, and includes any compensation paid by the business or farm operation to the owner, his spouse or his dependents during such period. If a business or farm operation has no net earnings, or has suffered losses during the period used to compute "average annual net earnings" it may nevertheless receive the $2,500 minimum payment authorized by such sec. 202(c).

§ 25.46 Amount of business fixed payment.

The fixed payment to a person displaced from a farm operation, or from his place of business, including nonprofit organizations, shall be in an amount equal to the average annual net earnings of the business or farm operation, except that such payment shall not be less than $2,500 nor more than $10,000.

Subpart E—Replacement Housing Payment for Homeowners

§ 25.51 Eligibility.

(a) A displaced owner-occupant is eligible for a replacement housing payment authorized by sec. 203(a), not to exceed $15,000, if he meets both of the following requirements:

(1) Actually owned and occupied the acquired dwelling from which displaced for not less than 180 days prior to the initiation of negotiations for the property, or owned or occupied the property covered or qualified under sec. 217 for not less than 180 days prior to displacement. The term "initiation of negotiations" means the day on which the acquiring agency makes the first personal contact with the property owner or his representative and furnishes him with a written offer to purchase the real property.

(2) Purchases and occupies a replacement dwelling, which is decent, safe and sanitary, not later than the end of the 1-year period beginning on the date on which he receives from the displacing agency the final payment of all costs of the acquired dwelling, or on the date on which he moves from the acquired dwelling, whichever is the later date.

(b) A displaced owner-occupant of a dwelling who is determined to be ineligible under this section may be eligible for a replacement housing payment under § 25.61.

§ 25.52 Comparable replacement dwelling.

(a) For the purposes of rendering relocation assistance by making referrals for replacement housing and for computation of the replacement housing payment, a comparable replacement dwelling is one which is:

(1) Decent, safe, and sanitary.

(2) Functionally equivalent and substantially the same as the acquired dwelling, but not excluding newly constructed housing.

(3) Adequate in size to meet the needs of the displaced family or individual. However, at the option of the displaced person, a replacement dwelling may exceed his needs when the replacement dwelling has the same number of rooms or the equivalent square footage as the dwelling from which he was displaced.

(4) Open to all persons, regardless of race, color, religion, or national origin, consistent with the requirements of the Civil Rights Act of 1964 and Title VIII of the Civil Rights Act of 1968.

(5) Located in an area not generally less desirable than the one in which the acquired dwelling is located, with respect to:

(i) Neighborhood conditions, including but not limited to municipal services and other environmental factors,

(ii) Public utilities, and

(iii) Public and commercial facilities.

(6) Reasonably accessible to the displaced person's place of employment or potential place of employment.

(7) Within the financial means of the displaced family or individual.

(8) Available on the market to the displaced person.

(b) If housing meeting the requirements of this section is not available on the market, the Administrator shall, upon a proper finding of the necessity therefor, consider available housing exceeding these basic criteria.

§ 25.53 Computation of replacement housing payment.

The replacement housing payment of not more than $15,000 comprises the following:

(a) *Differential payment for replacement housing.*—The Administrator shall determine the amount, if any, which when added to the acquisition cost of the dwelling acquired by the displacing agency, is necessary to purchase a comparable replacement dwelling by either establishing a schedule or by using a comparative method.

(1) *Schedule method.*—The Veterans Administration shall establish a schedule of reasonable acquisition costs for comparable replacement dwellings of the various types of dwellings to be acquired and available on the private market. The schedule shall be based on a current market analysis sufficient to support determinations of the amount for each type of dwelling to be acquired. When more than one Federal agency is causing displacement in a community or an area, the heads of the agencies concerned shall coordinate the establishment of a schedule for replacement housing payments.

(2) *Comparative method.*—The Veterans Administration shall determine the price of a comparable replacement dwelling by selecting a dwelling or dwellings most representative of the dwelling unit acquired, available to the displaced person, and which meets the definition of comparable replacement dwelling. A single dwelling shall be used only when additional comparable dwellings are not available.

(3) *Alternate method.*—The Administrator may develop criteria for computing replacement housing payments when neither the schedule method nor the comparative method is feasible. An alternate method proposed by a State agency shall be subject to prior concurrence of the Veterans Administration.

(4) *Limitations.*—The amount established as the differential payment for the replacement housing sets the upper limit of this payment.

(i) If the displaced person voluntarily purchases and occupies a decent, safe, and sanitary dwelling at a price less than the upper limit set, the comparable replacement housing payment will be reduced to that amount required to pay the difference between the acquisition price of the acquired dwelling and the actual purchase price of the replacement dwelling.

(ii) If the displaced person voluntarily purchases and occupies a decent, safe, and sanitary dwelling at a price less than the acquisition price of the acquired dwelling, no differential payment shall be made.

(b) *Interest payment.*—The Administrator shall determine the amount, if any, necessary to compensate a displaced person for any increased interest costs, including points paid by the purchaser. Such amount shall be paid only if the acquired dwelling was encumbered by a bona fide mortgage. The following shall be considered:

(1) The payment shall be equal to the excess of the aggregate interest and other debt service costs of that amount of the principal of the mortgage on the replacement dwelling which is equal to the unpaid balance of the bona fide mortgage on the acquired dwelling, at the time of acquisition, over the remainder term of the mortgage on the acquired dwelling, reduced to discounted present value.

(2) The discount rate shall be the prevailing interest rate paid on savings deposits by commercial banks in the general area in which the replacement dwelling is located.

(3) A "bona fide mortgage" is one which was a valid lien on the acquired dwelling for not less than 180 days prior to the initiation of negotiations.

(4) The interest payment shall be based on the present value of the reasonable cost of the interest differential, including points paid by the purchaser, on the amount financed not to exceed the amount of the unpaid debt on the acquired dwelling for its remaining term.

(c) *Incidental expenses.*—(1) The Administrator shall determine the amount, if any, necessary to reimburse a displaced person for actual costs incurred by him incident to the purchase of the replacement dwelling (but not including prepaid expenses such as:

(i) Legal, closing and related costs including title search, preparing conveyance instruments, notary fees, surveys, preparing plats, and charges incident to recordation.

(ii) Lenders', FHA, or VA appraisal fees.

(iii) FHA application fee.

(iv) Certification of structural soundness when required by lender, FHA, or VA.

(v) Credit report.

(vi) Title policies or abstracts of title.

(vii) Escrow agent's fee.

(viii) State revenue stamps or sale or transfer taxes.

(2) No fee, cost, charge, or expense is reimbursable which is determined to be a part of the finance charge under the Truth in Lending Act, Title I, Public Law 90-321 (82 Stat. 146), and Regulation Z (12 CFR Part 226) issued pursuant thereto by the Board of Governors of the Federal Reserve System.

Subpart F—Replacement Housing Payments for Tenants and Certain Others

§ 25.61 Eligibility.

(a) A displaced tenant or owner-occupant of a dwelling for less than 180 days is eligible for a replacement housing payment not to exceed $4,000, as authorized by sec. 204, if he meets both of the following requirements:

(1) Actually occupied the dwelling for not less than 90 days prior to the initiation of negotiations for acquisition of the property or actually occupied the property covered or qualified under sec. 217 for not less than 90 days prior to displacement. The term "initiation of negotiations" means the date the acquiring agency makes the first personal contact with the property owner or his representative and furnishes him with a written offer to purchase the real property. The Administrator shall advise tenants and other persons occupying the property to be acquired when negotiations for the property are initiated with the owner thereof.

(2) Is not eligible to receive a payment under sec. 203.

(b) An owner-occupant of a dwelling for not less than 180 days prior to the initiation of negotiations is eligible for a replacement housing payment as a tenant, as authorized by sec. 204, when he rents a decent, safe and sanitary replacement dwelling instead of purchasing and occupying a replacement dwelling, which is decent, safe and sanitary

V 38-164 AUG 24 73 XUM

not later than the end of the 1-year period beginning on the date on which he receives from the displacing agency final payment for all costs for the acquired dwelling, or on the date on which he moves from the acquired dwelling, whichever is the later date.

§ 25.62 Computation of replacement housing payments for displaced tenants.

A displaced tenant is eligible for a rental replacement housing payment; or, if he purchases replacement housing within 1 year from displacement, he is eligible for a downpayment including expenses incidental to closing not to exceed $4,000.

(a) *Rental replacement housing payment.*—The Administrator shall determine the amount necessary to rent a comparable replacement dwelling by either establishing a schedule or by using a comparative method.

(1) *Schedule method.*—The Administrator may establish a rental schedule for renting comparable replacement dwellings as described in § 25.52 and which are available in the private market for the various types of dwellings to be acquired. The payment shall be computed by determining the amount necessary to rent a comparable replacement dwelling for 4 years (the average monthly cost from the schedule) and subtracting from such amount forty-eight times the average month's rent paid by the displaced tenant in the last 3 months prior to initiation of negotiation if such rent was reasonable, and, if not reasonable, forty-eight times the economic rent for the dwelling unit established by the displacing agency. Economic rent is defined as the amount of rent the displaced tenant would have had to pay for a comparable dwelling unit in an area similar to the neighborhood in which the dwelling unit to be acquired is located. The schedule will be based on current analysis of the market to determine an amount for each type of dwelling required. When more than one Federal agency is causing the displacement in a community or an area, the respective agency heads shall cooperate in choosing the method for computing the replacement housing payment and shall use uniform schedules of average rental housing in the community or area.

(2) *Comparative method.*—The Administrator may determine the average month's rent by selecting one or more dwellings most representative of the dwelling unit acquired which is available to the displaced person and meets the definition of a comparable replacement dwelling as described in § 25.52. The payment will be computed by determining the amount necessary to rent a comparable replacement dwelling for 4 years and subtracting from such amount forty-eight times the average month's rent paid by the displaced tenant in the last 3 months prior to initiation of negotiations, if such rent was reasonable.

(3) *Exceptions.*—The Administrator may establish the average month's rent paid by the displaced person by using more than 3 months, if he deems it advisable. If rent is being paid to the displacing agency, economic rent shall be used in determining the amount of the payment to which the displaced tenant is entitled.

(4) *Alternate to paragraphs (a)(1) and (a)(2) of this section.*—When neither the schedule nor the comparative method of computing the rental differential payment is feasible, the Administrator shall develop criteria for computing the payment.

(5) *Exception to lump-sum payment rule.*—As a general rule, payment of the rental replacement housing differential payment authorized by § 25.63(a) shall be made in a lump-sum payment. Exceptions to this general rule may be made only when deemed advisable in consideration of the displaced person's present status as to decent, safe, and sanitary conditions, income, and the wishes of the displacee.

(b) *Purchases; replacement housing payment.*—If the tenant elects to purchase instead of renting, the payment shall be computed by determining the amount necessary to enable him to make a downpayment and to cover incidental expenses on the purchase of replacement housing as follows:

(1) The downpayment shall be the amount necessary to make a downpayment on a comparable replacement dwelling. Determination of the amount necessary for such downpayment shall be based on the amount of downpayment that would be required for purchase of the dwelling using a conventional loan.

(2) Incidental expenses of closing the transaction are those as described in § 25.53(c).

(3) The maximum payment may not exceed $4,000, except that if more than $2,000 is required, the tenant must match any amount in excess of $2,000 by an equal amount in making the downpayment.

(4) The full amount of the replacement housing payment must be applied to the purchase price and incidental costs shown on the closing statement.

§ 25.63 Computation of replacement housing payments for certain others.

(a) A displaced owner-occupant who does not qualify for a replacement housing payment under § 25.51 because of the 180-day occupancy requirement and elects to rent is eligible for a rental replacement housing payment not to exceed $4,000. The payment will be computed in the same manner as shown in § 25.62(a) except that the present rental rate for the acquired dwelling shall be economic rent as determined by market data.

(b) A displaced owner-occupant who does not qualify for a replacement housing payment under § 25.51 because of the 180-day occupancy requirement and elects to purchase a replacement dwelling is eligible for a replacement housing downpayment and closing costs not to exceed $4,000. The payment will be computed in the same manner as shown in § 25.62(b).

Subpart G—Relocation Assistance Advisory Services

§ 25.71 Relocation assistance advisory program.

Whenever the acquisition of real property for a program or project undertaken by the Veterans Administration will result in the displacement of any person, the Administrator shall establish a relocation assistance advisory program for the displaced person or persons. If the Administrator determines that any person occupying property immediately adjacent to the real property acquired is caused substantial economic injury because of the acquisition, he may offer such person relocation advisory services under this program. Where a federally assisted project is involved in the displacement, the State agency shall provide the advisory services. Each relocation assistance advisory program shall include such measures, facilities, or services as may be necessary or appropriate to:

(a) Determine the need, if any, of displaced persons, for relocation assistance;

(b) Provide current continuing information on the availability, prices, and rentals of comparable decent, safe, and sanitary sales and rental housing and of comparable commercial properties and locations for displaced businesses;

(c) Insure the availability of adequate replacement housing prior to displacement as prescribed in § 25.21;

(d) Assist a person displaced from his business or farm operation in obtaining and becoming established in a suitable replacement location;

(e) Supply information concerning Federal and State housing programs, disaster loan programs, and other Federal or State programs offering assistance to displaced persons; and

(f) Provide other advisory services to displaced persons in order to minimize hardships to such persons in adjusting to relocation.

§ 25.72 Coordination of planned relocation activities.

(a) *Federal coordination.*—Whenever the Veterans Administration, in conjunction with one or more other Federal agencies, plans displacement activities in a given community or area, the heads of such agencies responsible for the planned activities shall arrange for appropriate channels of communication between each other for the purpose of planning relocation activities and coordinating available housing resources. The agencies involved shall:

(1) Consult with the appropriate Housing and Urban Development Regional or Area Office within the jurisdictional area concerning the availability of housing. (A directory of such Regional and Area Offices is maintained on a current basis by the Department of Housing and Urban Development and subsequent updated directories will be furnished upon request.);

(2) Provide the Housing and Urban Development Regional or Area Offices with information regarding the projects which will cause displacement; and

(3) Designate at least one representative who will meet periodically with the representatives of other Federal agencies causing displacement in the community to review the impact of their respective programs on the community or area.

(b) *Local coordination.*—To further insure maximum coordination of relocation activities in a given community or area, the Administrator shall consult with appropriate local officials prior to approving any proposed project in the community, consistent with the requirements of the procedures promulgated by the Office of Management and Budget Circular A–95 (Revised).

§ 25.73 Contracting for relocation services.

(a) *Contracting with central relocation agency.*—Whenever, in his judgment, the Administrator deems it advisable, he may consider contracting with the central relocation agency in a community or area for the purpose of carrying out the relocation activities described in this part. Such services will be performed in strict accordance with Public Law 91–646 and this part. The appropriate Housing and Urban Development Regional/Area Office shall be consulted for information and assistance concerning contracts for these services.

(b) *Contracting with others.*—When a centralized relocation agency is not available in a community or if the centralized agency does not have the capacity to provide the necessary services, within the time required by the Veterans Administration's program, the Veterans Administration may contract with another public agency or a private contractor who can provide the necessary relocation services. Such services will be performed in strict accordance with Public Law 91–646, and this part.

Subpart H—Federally Assisted Programs

§ 25.81 Assurances.

(a) *Information.*—The assurances required of State agencies by secs. 210 and 305 will include a statement that the affected persons will be adequately informed of the benefits, policies and procedures described in the assurances.

(b) *Inability to provide assurances for programs or projects causing displacement on or after July 1, 1972.*—If a State agency is unable to provide the assurances required by secs. 210 and 305 on or after July 1, 1972, with regard to any program or project that will result in the displacement of any person or the acquisition of any real property, the Administrator shall not approve any grant to, or contract or agreement with, such State agency under which Federal financial assistance will be available to pay all or part of the cost of such program or project, until such time as assurances applicable to all persons to be displaced and owners of real property to be acquired are provided.

(c) *Compliance with secs. 301 and 302.*—A State agency, as part of the assurances required by sec. 305, shall provide a statement indicating the extent to which it can comply with the provisions of secs. 301 and 302. If the State agency indicates that it is unable to comply fully with any of such policies, its statement shall be supported by an opinion of the chief legal officer of the State agency. The opinion shall contain a full discussion of the issues involved, and shall cite legal authority in support of the conclusion of legal inability to comply with any of the provisions set forth in secs. 301 and 302. State agencies will comply with secs. 301 and 302 if, under State law, compliance is legally possible.

(d) *Monitoring assurances.*—The Administrator shall take continuing action to insure that State agencies are acting in accordance with the asurances they have provided.

§ 25.82 Administration; relocation assistance programs.

(a) *Approval.*—A State agency electing to contract for services pursuant to sec. 212 will enter into a written contract consistent with this part. The Administrator shall take affirmative action to assure that the contract is administered so as to provide uniform and effective relocation for all displaced persons, consistent with this part.

(b) *Contract for services by State agencies.*—Contracts shall include, as a minimum, the following provisions:

(1) That payments and assistance shall be provided in accordance with this part.

(2) That records required by this part will be retained by the State agency for a period of at least 3 years and shall be available for inspection by representatives of the Veterans Administration.

(3) Clauses implementing Title VI of the Civil Rights Act of 1964 (Public Law 88–352); and any other provisions required by the Administrator to assure that the project is performed in a manner consistent with this part.

Subpart I—Uniform Real Property Acquisition Policy

§ 25.101 Applicability.

The provisions of Title III of the Act apply to the acquisition of real property for Federal and federally assisted programs or projects.

§ 25.102 Acquisition procedures.

(a) *Just compensation.*—Section 301(3) requires that, before initiation of negotiations for the acquisition of real property, the Administrator shall establish an amount which he believes to be just compensation therefor. In no event shall such amount be less than the Veterans Administration's approved appraisal of the fair market value of the property.

(b) *Appraisal standards.*—For the purpose of promoting uniformity under sec. 301(3), the Administrator shall establish, for all Federal or federally assisted programs under his jurisdiction, standards for appraisals used in such programs, criteria for determining the qualifications of appraisers, and a system of review by qualified appraisers, consistent with the Uniform Appraisal Standards for Federal Land Acquisition published in 1972 by the Interagency Land Acquisition Conference.

(c) *Initiation of negotiations.*—When negotiations for the acquisition of real property are initiated, the owner shall be provided with a written statement concerning the proposed acquisition. This statement shall include, as a minimum, the following:

(1) Identification of the real property and the estate or interest therein to be acquired including the buildings, structures, and other improvements on the land, as well as the fixtures considered to be a part of the real property, and

(2) The amount of the estimated just compensation for the property to be acquired, as determined by the Veterans Administration, and a statement of the basis therefor. In the case of a partial taking, damages, if any, to the remaining real property shall be separately stated.

(d) *Offer to purchase.*—The Administrator shall make a prompt offer to purchase the property for the amount contained in the statement.

(e) *Notice to move.*—Section 301(5) provides for a notice to move and is applicable only in those instances where actual displacement of persons, businesses or farm operations occurs. To the greatest extent practicable, no person lawfully occupying real property shall be required to move from a dwelling or to move his business or farm operation without at least 90 days' written notice from the Administrator of the date by which such move is required.

(f) *Federally assisted programs.*—In administering Federal financially assisted programs carried out by State agencies the Administrator shall require that State agencies reimburse owners for necessary expenses as specified in secs. 303 and 304. The Administrator also shall require that all State agencies comply with the provisions of secs. 301 and 302 if compliance is legally possible under State law.

§ 25.103 Condemnation.

(a) The time of condemnation will neither be advanced, nor negotiations or condemnation and the deposit of funds in court be deferred, nor any other action coercive in nature taken, in order to compel an agreement on price.

(b) If real property is to be acquired by condemnation, proceedings will be instituted promptly. No action will intentionally be taken which will make it necessary for an owner to institute legal proceedings to prove the fact of the taking of his real property.

§ 25.104 Improvements owned by tenants.

(a) Whenever any interest is acquired for a Federal or federally assisted program in any State, the agency will acquire at least an equal interest in all buildings, structures, or other improvements located upon the real property,

V 38-164 AUG 24 73 XUM

including advertising signs, unless they are excluded as personal property:

(1) Which the agency requires to be removed from the real property, or

(2) Which the agency determines will be adversely affected by the use to which such real property will be put.

(b) The following apply in determining the just compensation for any such buildings, structures, or other improvements:

(1) They will be deemed to be part of the real property to be acquired, notwithstanding the right or obligation of the tenant as against the owner of any other interest in the real property to remove them at the expiration of his term.

(2) The fair market value which such structures, buildings, or other improvements contribute to the fair market value of the real property to be acquired, or the fair market value of such buildings, structures or other improvements for removal from the real property, whichever is greater, will be paid the tenant.

(c) Payments under paragraphs (a) and (b) of this section will not be made:

(1) Which result in duplication of any payments otherwise authorized by law.

(2) Unless the owner of the land involved disclaims all interest in such buildings, structures, or other improvements.

(3) Unless the tenant agrees that in consideration of any such payment he will assign, transfer, and release to the acquiring agency all his right, title and interest in and to such buildings, structures and improvements.

(d) The tenant may reject payment under this section and obtain payment for the buildings, structures, or other improvements in accordance with any other applicable law.

§ 25.105 Expenses incidental to transfer of title to the United States.

As soon as practicable after the date of payment of the purchase price or the date of deposit in court of funds to satisfy the award in a condemnation to acquire real property, the owner will be reimbursed to the extent the Administrator determines fair and reasonable, for expenses he necessarily incurred for:

(a) Recording fees, transfer taxes, and similar expenses incidental to conveying the real property to the United States;

(b) Costs for prepayment of any preexisting recorded mortgage entered into in good faith encumbering such real property; and

(c) The prorated portion of real property taxes paid which are allowable to a period subsequent to the date of vesting title in the United States, or the effective date of possession of such real property by the United States, whichever is earlier.

§ 25.106 Lease to former owner or occupant.

If an owner or tenant is permitted to occupy the real property acquired on a rental basis for a short term, or for a period subject to termination by the Government on short notice, the amount of rent required will not exceed the fair market rental value of the property to a short term occupier.

§ 25.107 Litigation expenses.

In any condemnation proceeding brought by the Veterans Administration to acquire real property, it shall reimburse the owner of any right, title, or interest in the real property for his reasonable costs, disbursements, and expenses, including attorney, appraisal, and engineering fees actually incurred because of the condemnation proceeding if:

(a) The final judgment is that the Veterans Administration cannot acquire the real property by condemnation; or

(b) The proceeding is abandoned by the United States. The court rendering a judgment for the plaintiff in a proceeding brought under sec. 1346(a)(2) or 1491 of Title 28, United States Code awarding compensation for the taking of property by a Federal agency, or the Attorney General effecting a settlement of any such proceeding, will determine and award or allow to such plaintiff, as part of such judgment or settlement, such sum as will in the opinion of the court, or the Attorney General, reimburse such plaintiff for his reasonable costs, disbursements, and expenses, including reasonable attorney, appraisal, and engineering fees, actually incurred because of such proceeding.

Subpart J—Definitions

§ 25.121 Applicability.

The definitions set forth in § 25.123 are intended to implement the Act and the guidelines as set forth in OMB Circular No. A–103, dated May 1, 1972. In the event of any deviation the definitions set forth in the Act will be controlling.

§ 25.122 General.

The following definitions are contained in other sections of this part and shall be applied as indicated in § 25.121.

(a) Comparable replacement housing, § 25.52.

(b) Decent, safe, and sanitary housing, § 25.21(d).

(c) Economic rent, § 25.62(a)(1).

(d) Incidental expenses, § 25.53(c).

(e) Initiation of negotiations, §§ 25.51(a)(1) and 25.61(a)(1).

(f) Interest payment, § 25.53(b).

(g) Net earnings, § 25.45.

§ 25.123 Definitions.

(a) *The Act.*—The term "the Act" means the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Public Law 91–646), approved January 2, 1971.

(b) *Displacing agency.*—The term "displacing agency" means a Federal agency in the case of a direct Federal project or a State agency in the case of a project receiving Federal financial assistance.

(c) *Dwelling.*—The term "dwelling" means the place of permanent or customary and usual abode of a person. It includes a single family building; a one-family unit in a multifamily building; a unit of a condominium or cooperative housing project; or any other residential unit, including a mobile home, which is either considered to be real property under State law, or cannot be moved without substantial damage or unreasonable cost.

(d) *Family.*—The term "family" means two or more individuals who are related by blood, adoption, marriage or legal guardianship who live together as a family unit, or other individuals who consent to live together as a family unit for the purpose of determining benefits under Title II of the Act.

(e) *Owner.*—The term "owner" means a person who holds fee title, a life estate, a 99-year lease, or an interest in a cooperative housing project which includes the right of occupancy of a dwelling unit, or is the contract purchaser of any such estates or interests or who is possessed of such other proprietary interest in the property acquired as, in the judgment of the Administrator, warrants consideration as ownership. In the case of one who has succeeded to any of the foregoing interests by devise, bequest, inheritance or operation of law, the tenure of ownership, not occupancy, of the succeeding owner shall include the tenure of the preceding owner.

(f) *Federal agency.*—The term "Federal agency" means any department, agency, or instrumentality in the executive branch of the Government (except the National Capital Housing Authority), any wholly owned Government corporation (except the District of Columbia Redevelopment Land Agency), and the Architect of the Capitol, the Federal Reserve banks and branches thereof.

(g) *State.*—The term "State" means any of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, the Trust Territory of the Pacific Islands, and any political subdivision thereof.

(h) *State agency.*—The term "State agency" means the National Capital Housing Authority, the District of Columbia Redevelopment Land Agency, and any department, agency, or instrumentality of a State or of a political subdivision of a State, or any department, agency, or instrumentality of two or more States or of two or more political subdivisions of a State or States.

(i) *Federal financial assistance.*—The term "Federal financial assistance" means a grant, loan, or contribution provided by the United States, except any Federal guarantee or insurance and any annual payment or capital loan to the District of Columbia.

(j) *Person.*—The term "person" means any individual, partnership, corporation, or association.

(k) *Displaced person.*—The term "displaced person" means any person who, on or after January 2, 1971, moves from real property, or moves his personal property from real property, as a result of acquisition of such real property, in whole or in part, or as a result of the written order of the acquiring agency to vacate real property, for a program or project undertaken by a Federal agency, or with Federal financial assistance; and solely for the purposes of secs. 202(a) and (b) and 205 as a result of the acquisition of or as the result of the written order of the acquiring agency to vacate other real property, on which such person conducts a business or farm operation, for such program or project.

(l) *Business.*—(1) The term "business" means any lawful activity, excepting a farm operation, conducted primarily:

(i) For the purchase, sale, lease and rental of personal and real property, and for the manufacture, processing, or marketing of products, commodities, or any other personal property;

(ii) For the sale of services to the public;

(iii) By a nonprofit organization; or

(iv) Solely for the purposes of sec. 202(a) for assisting in the purchase, sale, resale, manufacture, processing, or marketing of products, commodities, personal property, or services by the erection and maintenance of an outdoor advertising display or displays, whether or not such display or displays are located on the premises on which any of the above activities are conducted.

(2) Occupations which do not contribute materially to the income of the displaced person are not considered to come within the definition of business.

(3) For the purpose of sec. 202(c), and § 25.31 where a warehouse or other storage facility which is acquired by the Government is operated in conjunction with a business, and the business is not so acquired, the warehouse or storage facility is not considered to be a business. An example is a warehouse owned by a furniture store. A lot for the storage of automobiles, which was acquired, and the related car sales business or garage which was not acquired would fall in the same category.

(m) *Farm operation.*—The term "farm operation" means any activity conducted solely or primarily for the production of one or more agricultural products or commodities, including timber, for sale or home use, and customarily producing such products or commodities in sufficient quantity to be capable of contributing materially to the operator's support.

(n) *Mortgage.*—The term "mortgage" means such classes of liens as are commonly given to secure advances on, or the unpaid purchase price of, real property, under the laws of the State in which the real property is located, together with the credit instruments, if any, secured thereby.

§ 25.124 Financial means.

For the purpose of determining financial means of families and individuals in accordance with sec. 205(c)(3), a "financial means" test (ability to pay) must be made to satisfy the requirement set forth in § 25.52(a)(7). In order to meet a financial means test a determination will be made as to the displaced person's ability to afford the replacement dwelling. In making this determination, the average monthly rental or housing cost (e.g., monthly mortgage payments, insurance for the dwelling unit, property taxes and other reasonable recurring related expenses) which the displaced person will be required to pay, in general, should not exceed 25 percent of the monthly gross income or the present ratio of housing payment to the income of the displaced family or individual, including supplemental payments made by public agencies. The Administrator may provide for determinations that 25 percent of monthly gross income for housing costs or the present ratio of housing payment to the individual income is or is not excessive to the other needs of the displaced family or individual, such as food, clothing, child care, medical expenses, etc. In these cases, the Administrator shall establish criteria for determining the financial means of the displaced family or individual.

Subpart K—Administrative Review

§ 25.131 Administrative review.

(a) Any applicant, whether in connection with a direct Federal program or project or with a State program or project receiving Federal financial assistance who is aggrieved by a determination as to eligibility for a payment authorized by the Act, or the amount of a payment, is entitled to have his application reviewed by the Administrator, or by the head of the State agency, respectively.

(b) The procedures pertaining to administrative review whether by the Administrator or the head of a State agency, shall insure:

(1) Prompt consideration of all requests for administrative review.

(2) Prompt written notice to a claimant of any determination made in connection with his application. This written notice must include a full explanation concerning any amount claimed which has been disallowed.

(3) Prompt payment of any amounts which are determined to be due the claimant.

These VA Regulations are effective August 24, 1973.

Approved: August 17, 1973.

By direction of the Administration.

[SEAL] FRED B. RHODES,
Deputy Administrator.

PART 175—GENERAL PROVISIONS

PART 176—INSPECTION AND CERTIFICATION

PART 187—LICENSING

PART 188—GENERAL PROVISIONS

PART 189—INSPECTION AND CERTIFICATION

Pollution Prevention Inspection of Vessels and Deck and Engineer Officers' Licenses; Change of Effective Date

FR Doc. 72–21817 published in the December 21, 1972 issue of the FEDERAL REGISTER (37 FR 28261) promulgated new regulations which included the requirement for more frequent hull inspection (drydocking) of tank barges operating in fresh water service.

It was the intent of the regulations that the tank barges which were affected would be on a 3-year drydocking cycle by July 1, 1974. Since promulgation of the regulations, it has become apparent to the Coast Guard that primarily due to the heavy flooding throughout the central part of the nation which has interfered with the operation and capabilities of drydocking and gas freeing facilities, the 3-year drydocking cycle will be physically impossible to universally attain by July 1, 1974. With the present energy shortage, a resultant lay up of a large number of barges due to insufficient drydocking and gas freeing facilities is not prudent.

Accordingly, an extension to the period allowed for existing equipment to be phased into the new drydocking schedule is appropriate. Such action would assure progress toward the 3-year cycle and provide first attention to barges that have operated the longest period since last drydocking.

By changing the effective date of § 31.10–20, all tank barges will be on a 3-year drydocking/internal examination cycle by July 1, 1975; however by July 1, 1974, a tank barge is required to be drydocked or, if appropriate, inspected internally if the vessel was constructed or drydocked before July 1, 1970.

V 38-164 AUG 24 73 XUM

In consideration of the foregoing, the effective date of the regulations is changed to read as follows: "These amendments shall become effective on July 1, 1974, except as follows: The amendments to Parts 10, 12, 105, and 187 shall become effective on July 30, 1973; The amendments to § 31.10–20 shall become effective on July 1, 1974 for all barges drydocked or constructed before July 1, 1970, and on July 1, 1975 for all barges drydocked or constructed after July 1, 1970."

[CGD 73–107R]

SUBCHAPTER B—MERCHANT MARINE OFFICERS AND SEAMEN

PART 10—LICENSING OF OFFICERS AND MOTORBOAT OPERATORS AND REGISTRATION OF STAFF OFFICERS

Registration of Staff Officers

The purpose of these amendments to the Coast Guard regulations governing the issuance of Certificates of Registry to Staff Officers is to change the endorsement of pharmacist's mate to marine physicians assistant and to provide for the endorsement of hospital corpsman.

During World War II, the endorsement "pharmacist's mate" was authorized, under 46 U.S.C. 242, on each Certificate of Registry issued in the several grades of purser to persons who had completed the U.S. Maritime Service Training Program. This rating was established in § 10.25–9 of Title 46, Code of Federal Regulations, in the June 1, 1967 issue of the FEDERAL REGISTER (32 FR 7915), following the institution of a nine month course of instruction at the United States Public Health Service Hospital, Staten Island, New York.

Responding to requests by pharmacologists, the Navy and the Coast Guard changed the name of the rate from "pharmacist's mate" to "hospital corpsman" after World War II. Under the same aegis and to provide a more descriptive title to the training program, the United States Public Health Service, starting with the class commencing September 8, 1969, used the title "marine physician assistant." Those persons successfully completing that and subsequent classes have been issued certificates by Public Health as Marine Physician Assistants.

The Coast Guard, in recognition of the special qualifications of persons completing this training and under authority of 46 CFR 10.25–9(d) which allows for the issuance of Certificates of Registry to applicants presenting such qualifications, has granted a supplemental Certificate of Registry to each person who has successfully completed the prescribed course of training at the United States Public Health Service Hospital, Staten Island, New York. The course of training offered there since January 1973 has been increased to 13 months and has been approved by the State of New York and the American Medical Association.

The purpose of this document is to grant formal recognition of the training program at the Staten Island Public Health Service Hospital. Ancillary purposes are to provide for the rating of "hospital corpsman" for persons with Armed Service experience to provide for the elimination of the term "pharmacist's mate" and to retitle § 10.25–9 to more fully explain the intent of that section.

Since the amendments in this document concern matters relating to agency management, they are excepted from notice of proposed rule making and may be made effective in less than 30 days from the publication date.

In consideration of the foregoing, Part 10 of Title 46, Code of Federal Regulations, is amended as follows:

1. By deleting § 10.25–9(a)(6) and revising the heading of § 10.25–9 to read as follows:

§ 10.25–9 Experience requirements for registry.

* * * * *

2. By adding a new § 10.25–11 to read as follows:

§ 10.25–11 Experience requirements for ratings endorsed on certificates of registry.

An applicant for a rating to be endorsed on a certificate of Registry must submit evidence of experience as follows:

(a) *Marine physician assistant.*—Successful completion of a course of training for the rating of marine physician assistant that is conducted by the United States Public Health Service at Staten Island Public Health Service Hospital.

(b) *Hospital corpsman.*—(1) A rating of at least hospitalman, first-class in the U.S. Navy, U.S. Coast Guard, U.S. Marine Corps, or an equivalent rating in the U.S. Army (not less than staff sergeant, Medical Department U.S.A.), or in the U.S. Air Force (not less than technical sergeant, Medical Department, U.S.A.F.), and a period of service of at least 1 month in a military or U.S. Public Health Service Hospital;

(2) Successful completion of a course of training for rating of hospital corpsman that is approved by the Commandant; or

(3) A Certificate of Registry with an endorsement as pharmacist's mate.

(Sec. 7, 53 Stat. 1147, as amended, Sec. 6(b)(1), 80 Stat. 937; 46 U.S.C. 247, 49 U.S.C. 1655(b)(1); 49 CFR 1.46(b))

Effective date.—These amendments are effective on August 27, 1973.

Dated: August 17, 1973.

C. R. BENDER,
Admiral, U.S. Coast Guard Commandant.

[FR Doc.73–17932 Filed 8–23–73;8:45 am]

SUBCHAPTER J—ELECTRICAL ENGINEERING

[CGD 73–6R]

PART 111—ELECTRICAL SYSTEM; GENERAL REQUIREMENTS

Wiring Methods and Materials for Hazardous Locations

The purpose of this amendment to Part 111, Subchapter J of Chapter I, Title 46, Code of Federal Regulations is to bring the list of certain air mixtures of hazardous gases, vapors, or dusts into conformity with the recently revised Article 500–2 of the National Electric Code.

A notice of proposed rulemaking was published in the FEDERAL REGISTER on February 14, 1973 (38 FR 4414) proposing the addition of several chemicals to table § 111.80–5(a)(7).

During the period of February 14, 1973 to March 16, 1973, written comments from interested persons were received. The Coast Guard has considered these comments in preparing the final rule.

One comment questioned the ommission of the footnote of table 500–2(c) of the National Electric Code in the proposed change. Footnotes (1), (2), and (4) will be included at the end of Table 111.80–5(a)(7), Hazardous Atmospheres, as these footnotes modify the group classification of some chemicals. The subject matter of footnote (3) does not relate to the group classification and is adequately addressed in other parts of this chapter.

Two comments supported the proposed rule while none opposed it. In consideration of the foregoing, § 111.80–5(a)(7) is revised to read as follows:

§ 111.80–5 Wiring methods and materials for hazardous locations.

(a) * * *

(7) Electrical equipment is approved for location and for specific hazardous atmospheres of gas, vapor, or dust, that are present. Hazardous air mixtures that are not oxygen enriched are grouped on the basis of their characteristics in Article 500 of the National Electric Code, which is reproduced in Table § 111.80–5(a)(7). Other chemicals and materials which generate hazardous atmospheres and are not listed in Table 111.80–5(a)(7) are listed in Table 151.05 of this chapter.

TABLE 111.80–5(a)(7) HAZARDOUS ATMOSPHERES

GROUP A

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19735, RM–1883; FCC 73–803]

PART 73—RADIO BROADCAST SERVICES

Table of Assignments, FM Broadcast Stations

Report and order. In the Matter of amendment of section 73.202(b), Table of Assignments, FM Broadcast Stations. (Lyons, Kansas).

1. On May 9, 1973, the Commission issued a Notice of Proposed Rulemaking (FCC 73–489, 38 Fed. Reg. 13386) in the above-entitled matter, proposing the substitution of Channel 291 for Channel 288A at Lyons, Kansas. The proceeding was instituted on the basis of a petition filed by Rice County Broadcasting Co., Inc., licensee of Station KLOQ(FM), Lyons, Kansas. Station KLOQ is presently operating on Channel 288A which is the sole assignment in Lyons. Interested parties were invited to comment on the proposal on or before June 22, 1973, and could reply to such comments on or before July 3, 1973. There were no oppositions to the proposal. Supporting comments were filed by petitioner.

2. Lyons, population 4,355, is the seat of Rice County, population 12,320.[1] There are no standard broadcast stations in Rice County.

3. Petitioner points out that it desires to switch from a Class A to a Class C assignment so that it may increase the power and antenna height of its station (KLOQ) to enlarge its present service area. It maintains that the increased coverage is necessary for competitive position in the market, and if the switch is made, it immediately intends to increase power to 25 Kw and tower height to 500 feet. It contends that based on the FCC method of prediction of service, this increase in facilities would bring a first FM service to 193 people and a second to 23,374. Preclusion areas occur in the cochannel and five of the six pertinent adjacent channels as a result of the assignment of Channel 291 to Lyons. However, most of the communities located within these areas either have or can be assigned FM broadcast channels. In supporting comments, petitioner states that through a number of carefully planned steps over a period of years as the audience responds to this new medium, he intends to build Station KLOQ to 100 Kw circular polarization with a tall tower.

4. The Commission would ordinarily assign a Class A channel to a community the size of Lyons, but under the above circumstances the proposal to substitute Channel 291 for Channel 288A at Lyons, has public interest value and is worthy of adoption, in our view, because it is a reasonable means to provide a first and second FM service to 193 and 23,374 persons, respectively. Since Channel 291 can be assigned to Lyons and used at the present site without any other changes in the Table and in full conformity with all spacing requirements, we believe it should be granted.

5. The authority for the action taken herein is contained in Sections 4(i), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended.

6. Accordingly, *it is ordered,* That effective September 7, 1973, the Table of FM Assignments (section 73.202(b) of the Rules) is amended with respect to the city listed below as follows:

City	*Channel No.*
Lyons, Kansas	291

7. *It is further ordered,* That effective September 7, 1973, and pursuant to section 316(a) of the Communications Act of 1934, as amended, the outstanding license held by Rice County Broadcasting Co., Inc., for Station KLOQ(FM), Lyons, Kansas, is modified to specify operation on Channel 291 in lieu of Channel 288A subject to the following conditions.

(a) The licensee shall inform the Commission in writing by no later than September 7, 1973, of its acceptance of this modification.

(b) The licensee shall submit to the Commission by September 27, 1973, all necessary information complying with the applicable technical rules for modification of authorization to cover the operation of Station KLOQ(FM) on Channel 291 at Lyons, Kansas.

(c) The licensee may continue to operate on Channel 288A under its outstanding authorization until it is ready to operate on the new frequency. Ten days prior to commencing operation on Channel 291, the licensee shall submit the same measurement data normally required in an application for an FM broadcast station license.

(d) The licensee shall not commence operation on Channel 291 until the Commission specifically authorizes it to do so.

8. *It is further ordered,* That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307)

Adopted: July 26, 1973.

Released: August 20, 1973.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

PART 1033—CAR SERVICE

[S.O. 1126; Amdt. 1]

Baltimore and Ohio Railroad Company Authorized To Operate Over Tracks of Penn Central Transportation Co. et al.

At a Session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 20th day of August 1973.

Upon further consideration of Service Order No. 1126 (38 FR 6999), and good cause appearing therefor:

It is ordered, That:

Service Order No. 1126 (*The Baltimore and Ohio Railroad Company authorized to operate over tracks of Penn Central Transportation Company, George P. Baker, Richard C. Bond, and Jervis Langdon, Jr., Trustees*) be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) *Expiration date.*—The provisions of this order shall expire at 11:59 p.m., February 28, 1974, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date.—This amendment shall become effective at 11:59 p.m., August 31, 1973.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2).)

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

Title 50—Wildlife and Fisheries

CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Certain National Wildlife Refuges in Alaska

The following regulations are issued and are effective on August 24, 1973. These regulations apply to public hunting on portions of certain national wildlife refuges in Alaska.

General conditions.—Hunting shall be in accordance with applicable State regulations. Information relative to hunting may be obtained from Refuge Managers addressed to respective refuges.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

Upland game may be hunted on the following refuge areas:

Aleutian Islands National Wildlife Refuge, Pouch 2, Cold Bay, Alaska 99571.

Special conditions.—(1) Exception Amchitka Island.

(2) Landing of aircraft on Unimak Island or taking aircraft off from Unimak Island, while transporting upland game or upland game hunters, is restricted to the following areas:

Area No. 1.—The airstrip situated at the village of False Pass.

Area No. 2.—The airstrip situated at Cape Sarichef.

Area No. 3.—The waters of all lakes, bays, and lagoons on or adjacent to Unimak Island.

Izembek National Wildlife Range, Pouch 2, Cold Bay, Alaska 99571.

Special conditions.—(1) The landing of aircraft is prohibited except in the event of emergency.

(2) The use of motorized vehicles is restricted to the established road system.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

Big game animals may be hunted on the following refuge areas:

Aleutian Islands National Wildlife Refuge, Pouch 2, Cold Bay, Alaska 99571.

Special conditions.—(1) Species permitted to be taken: Caribou on the islands of Atka, Unimak, and Adak; brown bear on the island of Unimak.

(2) A federal permit is required to take brown bear on Unimak Island. Permits may be obtained from the Refuge Manager, Aleutian Islands National Wildlife Refuge, Pouch 2, Cold Bay, Alaska 99571.

(3) Landing of aircraft on Unimak Island or taking aircraft off from Unimak Island, while transporting big game or big game hunters, is restricted to the following areas:

Area No. 1.—The airstrip situated at the village of False Pass.

Area No. 2.—The airstrip situated at Cape Sarichef.

Area No. 3.—The waters of all lakes, bays, and lagoons on or adjacent to Unimak Island.

Izembek National Wildlife Range, Pouch 2, Cold Bay, Alaska 99571.

Special conditions.—(1) The landing of aircraft is prohibited except in the event of emergency.

(2) The use of motorized vehicles is restricted to the established road system.

(3) The Cold Bay closed area, partly within the Izembek National Wildlife Range, beginning at the peak of Frosty Mountain running in a straight line approximately northwest to the tip of Cape Glazenap in Izembek Lagoon, thence north-eastward along the mean high tide line to the north end of Neumann Island (at app. 55°25'N, 162°41'W), thence on a straight line running approximately south to the tip of the spit at the western entrance to Kinzarof Lagoon in Cold Bay (at app. 55°76'N, 162°41'W), thence generally southward along mean high tide line to the head of Old Mans Lagoon in Cold Bay (at app. 55°04'N, 162°38'W), thence on a straight line to the point of beginning, is closed by State of Alaska regulation to the taking of brown and grizzly bear only.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally and which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through June 30, 1974.

ROBERT D. JONES, JR.,
Refuge Manager, Izembek NWR, Cold Bay, Alaska.

AUGUST 8, 1973.

[FR Doc.73–17957 Filed 8–23–73;8:45 am]

Title 6—Economic Stabilization

CHAPTER I—COST OF LIVING COUNCIL

PART 130—COST OF LIVING COUNCIL PHASE III REGULATIONS

PART 140—COST OF LIVING COUNCIL FREEZE REGULATIONS

Stage A Amendments

The purpose of these amendments is to make corrections and clarifications in the Phase IV Stage A food regulations.

Price adjustments for food items sold at a loss formerly were permitted only in situations where the freeze cost exceeded the freeze price and were restricted to increases only up to the freeze cost in the case of wholesalers and retailers purchasing directly from a producer of raw agricultural products sold for ultimate consumption in their original physical form and processors purchasing raw agricultural products. Section 140.93 (d)(1) which governs these adjustments is amended by substituting the term "average cost" for "freeze cost". Therefore, the price of these items may be increased to the average cost of the item if the average cost of the food item purchased during the freeze base period exceeded the freeze price. This amendment makes this treatment of this situation uniform for both adjustments for items sold at a loss and inventory price adjustments under § 140.93.

Section 140.14 governing imports is also amended to conform its provisions with the Stage A regulations. Sellers of imported food could previously pass on increases in the landed cost of a food item if the food item were not physically transformed or did not become a component of another item. Thus, sellers of any food item which did not go through further processiing after its arrival in the U.S. could pass on dollar-for-dollar increases in the landed cost of the food in the same manner as resellers of other imports without any certification requirement. Persons importing semi-processed food for further processing, however, could not take advantage of the dollar-for-dollar pass-through provisions of Subpart I because they could not obtain a certification of an increase in the raw agricultural costs of the food item as required in Subpart I nor did they meet the requirements of § 140.14. This amendment will now permit processors of semi-processed imported food to pass on increases in the cost of the imported food items in the same manner as processors using food of domestic origin, except that no certification will be required for these price increases.

The Stage A food regulations have previously been modified to eliminate the provision in 6 CFR 140.99 which limited the food recordkeeping requirements to those food firms with annual sales or revenues in excess of $50 million derived from sales of food. Section 130.129(c) of the meat ceiling regulation is now amended to conform the Stage A recordkeeping requirements for sellers of pork and lamb with the requirements which are now imposed on sellers of food under Subpart I of the freeze regulations.

Because the purpose of this amendment is to provide immediate guidance and information with respect to Cost of Living Council decisions, the Council finds that publication in accordance with normal rule making procedure is impracticable and that good cause exists for making this amendment effective in less than 30 days.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92–210, 85 Stat. 743; Pub. L. 93–28, 87 Stat. 27; E.O. 11695, 38 FR 1473, E.O. 11730, 38 FR 19345, Cost of Living Council Order No. 14, 38 FR 1489)

In consideration of the foregoing, Chapter I of Title 6 of the Code of Federal Regulations is amended as follows, effective August 22, 1973.

Issued in Washington, D.C., on August 22, 1973.

JAMES W. MCLANE,
Deputy Director, Cost of Living Council.

1. The first sentence of paragraph c of § 130.129 is amended to read as follows:

§ 130.129 Requirements for sellers of swine and sheep.

* * * * *

(c) *Recordkeeping requirements.* Each firm shall maintain comprehensive records of all price adjustments made pursuant to § 130.127 and § 130.128.

* * * * *

2. Section 140.14 is amended to read as follows:

§ 140.14 Imported commodities and services.

Notwithstanding the provisions of § 140.10, any person who imports and sells a commodity or service from outside the several States and the District of Columbia and each reseller of such a commodity or service may pass on increases in the landed cost for such imported commodity or service incurred after June 12, 1973, on a dollar-for-dollar basis so long as the commodity or service is neither physically transformed by the seller nor becomes a component of another product except that when the imported commodity is food, as defined in subpart I of this Part, increases in the landed cost of the commodity may be passed on without regard to the commodity's physical transformation or inclusion as a component of another product. However, this section shall not apply to commodities or services which were originally purchased in the United States but exported and subsequently imported in any form.

3. Section 140.93(d)(1) is amended to read as follows:

§ 140.93 Special price rules.

* * * * *

(d) *Adjustment for items sold at a loss.* * * *

(1) In the case of wholesalers and retailers which purchase directly from a producer for resale raw agricultural products sold for ultimate consumption in their original physical form and manufacturers and processors which purchase raw agricultural products for processing, if the average cost of a food item purchased during the freeze base period exceeds the freeze price of a food item, the seller may charge a price in excess of the freeze price for that food item to reflect on a dollar-for-dollar basis increases in raw agricultural product costs incurred between January 10, 1973, and the freeze base period with respect to that food item which are not otherwise reflected in the freeze price. However, a price charged pursuant to this paragraph may not exceed the average cost of the food item during the freeze base period except to the extent that it reflects allowable cost increases.

[FR Doc.73–18158 Filed 8–23–73;10:27 am]

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER A—GENERAL

PART 1—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT AND THE FAIR PACKAGING AND LABELING ACT

Nutrition Labeling; Notice of Extension of Effective Date

In the FEDERAL REGISTER of March 14, 1973 (38 FR 6951), the Commissioner of Food and Drugs promulgated a new regulation, § 1.17 (21 CFR 1.17). The regulation requires that all labeling ordered after December 31, 1973, must comply with its provisions. In paragraph 34 of the preamble of the March 14, 1973, order, the Commissioner gave notice that temporary extensions from the December 31, 1973, compliance date will be considered, upon a showing of good cause, based upon an ongoing program of nutrition research.

The Milk Industry Foundation, 910 Seventeenth St. NW., Washington, D.C. 20006, the American Dry Milk Institute, Inc., 130 North Franklin St., Chicago, Ill. 60606, and the Evaporated Milk Association, 910 Seventeenth St. NW., Washington, D.C. 20006 have joined in requesting an extension of the December 31, 1973, label printing requirement for the labeling of milk, lowfat milk, skim milk, evaporated milk, evaporated skim milk, nonfat dry milk, cottage cheese, lowfat cottage cheese, and dry curd cottage cheese. The extension is needed to allow time for completion of studies now being carried out to obtain nutritional data on which to base nutrition labeling for these foods. These studies will not be completed in time to permit manufacturers to develop labels to meet the December 31, 1973, effective date.

The Commissioner has reviewed this program and fully supports it. Notice is hereby given that the requested extension is granted until December 31, 1974, at which time all labeling used for products shipped in interstate commerce shall comply with § 1.17.

Dated August 16, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73–17928 Filed 8–23–73;8:45 am]

SUBCHAPTER C—DRUGS

PART 135b—NEW ANIMAL DRUGS FOR IMPLANTATION OR INJECTION

Sodium Thiopental, Sodium Pentobarbital

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (10–346V) filed by Amdal Co., Division of Abbott Laboratories, North Chicago, Ill. 60064, pro-

V 38-164 AUG 24 73 XUM

posing revised labeling regarding the safe and effective use of sodium thiopental with sodium pentobarbital as an anesthetic for use in cats and dogs. The supplemental application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), part 135b is amended by adding the following new section:

§ 135b.54 Sodium thiopental, sodium pentobarbital for injection, veterinary.

(a) *Specifications.*—Each gram of the drug contains 750 milligrams of sodium thiopental and 250 milligrams of sodium pentobarbital sterile powder for dilution with sterile water for injection.

(b) *Sponsor.*—See code No. 003 in § 135.501(c) of this chapter.

(c) *Conditions of use.*—(1) It is used as an anesthetic for intravenous administration to dogs and cats during short to moderately long surgical procedures.

(2) It is administered as follows:

(i) For total anesthesia, it is given at approximately 10 to 12 milligrams per pound of body weight over a period of 3.5 to 5 minutes.

(ii) When preanesthetic medication is used, it is important to wait at least an hour before administering thiopental and sodium pentobarbital for injection, and the dosage necessary for anesthesia is reduced. Usually ½ to ⅔ the normal amount is adequate.

(3) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Effective date.—This order shall be effective August 24, 1973.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i).)

Dated August 17, 1973.

FRED J. KINGMA,
Acting Director,
Bureau of Veterinary Medicine.

[FR Doc.73-17927 Filed 8-23-73;8:45 am]

CHLORAMPHENICOL INJECTION AND SOLUTION FOR VETERINARY USE

The Commissioner of Food and Drugs has evaluated supplemental new animal drug applications No. 55-002V and 55-003V filed by Tevcon Industries, Inc., 8904 J St., Omaha, Nebr. 68127, covering use of chloramphenicol for administration orally or by injection to dogs. The supplemental applications are approved.

Said drug was approved under section 507 of the Federal Food, Drug, and Cosmetic Act prior to the effective date of the New Animal Drug Amendments of 1968 and has been subject to batch release under sec. 507(a) of the act. Since the drug is now to be certified under the provisions of sec. 512(n) of the act, this order provides for an appropriate amendment to the antibiotic certification regulations.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i) and (n), 82 Stat. 347; 350–351; 21 U.S.C. 360b (i) and (n)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 135b, 135c, and 151c are amended as follows:

PART 135b—NEW ANIMAL DRUGS FOR IMPLANTATION OR INJECTION

1. Part 135b is amended by adding a new section as follows:

§ 135b.77 Chloramphenicol injection, veterinary.

(a) *Specifications.*—The product complies with the requirements of § 151c.19 of this chapter.

(b) *Sponsor.*—See code No. 076 in § 135.501(c) of this chapter.

(c) *Conditions of use.*—(1) It is used in dogs for the treatment of infections of the respiratory tract, the urinary tract, and enteritis and tonsillitis caused by organisms susceptible to chloramphenicol.

(2) It is administered intramuscularly or intravenously at a dosage level of 5 to 15 milligrams per pound of body weight every 6 hours. In severe infections, 4 to 6 hour treatment intervals may be desirable the first day of treatment. If no response to treatment is obtained in 3 to 5 days, use should be discontinued and the diagnosis reviewed.

(3) The label bears a statement that the product is not to be used in animals which are raised for food production.

(4) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

2. Part 135c is amended by adding a new section as follows:

§ 135c.99 Chloramphenicol oral solution, veterinary.

(a) *Specifications and special considerations.*—The product complies with the requirements of § 151c.20 of this chapter.

(b) *Sponsor.*—See code No. 076 in § 135.501(c) of this chapter.

(c) *Conditions of use.*—(1) It is used in dogs for the treatment of infections of the respiratory tract, the urinary tract, and enteritis and tonsillitis caused by organisms susceptible to chloramphenicol.

(2) It is administered orally to dogs at a dosage level of 25 milligrams per pound of body weight every 6 hours. In severe infections, 4 to 6 hour treatment intervals may be desirable the first day of treatment. If no response is obtained in 3 to 5 days, discontinue use of the drug and review the diagnosis.

(3) The label bears a statement that this produce is not to be used in animals which are raised for food production.

(4) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

PART 151c—CHLORAMPHENICOL

3. Part 151c is amended by adding two sections as follows:

Sec.
151c.19 Chloramphenicol injection, veterinary.
151c.20 Chloramphenicol oral solution, veterinary.

§ 151c.19 Chloramphenicol injection, veterinary.

(a) *Requirements for certification.*—(1) *Standards of identity, strength, quality, and purity.*—Chloramphenicol injection, veterinary is a solution containing chloramphenicol and one or more suitable and harmless buffers and preservatives in ethyl alcohol and propylene glycol base. Each milliliter contains 100 milligrams of chloramphenicol. The chloramphenicol content is satisfactory if it is not less than 90 percent and not more than 115 percent of the number of milligrams of chloramphenicol that it is represented to contain. It is sterile. It is nonpyrogenic. It passes the safety test. It contains no histamine or histaminelike substances. Its pH is not less than 6.5 and not more than 8.5. The chloramphenicol used conforms to the standards prescribed by § 151c.1(a)(1).

(2) *Packaging.*—It shall be packaged in accordance with the requirements of § 148.2 of this chapter.

(3) *Labeling.*—It shall be labeled in accordance with the requirements of § 148.3 and 135b.77 of this chapter.

(4) *Requests for certification; samples.*—In addition to the requirements of § 146.2 of this chapter, each such request shall contain:

(i) Results of tests and assays on:

(*a*) The chloramphenicol used in making the batch for potency, pH, specific rotation, melting point, absorptivity, and crystallinity.

(*b*) The batch for potency, sterility, pyrogens, safety, histamine content, and pH.

(ii) Samples required:

(*a*) The chloramphenicol used in making the batch: 10 packages each containing approximately 300 milligrams.

(*b*) The batch:

(*1*) For all tests except sterility: A minimum of 8 immediate containers.

(*2*) For sterility testing: 20 immediate containers collected at regular intervals throughout each filling operation.

(b) *Tests and methods of assay.*—(1) *Potency.*—Proceed as directed in § 141.111 of this chapter, preparing the sample for assay as follows: Transfer an accurately measured portion of the sample into a volumetric flask and dilute to volume with 1 percent potassium phosphate buffer, pH 6.0 (solution 1). Further dilute with solution 1 to the reference concentration of 2.5 micrograms of chloramphenicol per milliliter (estimated).

(2) *Sterility.*—Proceed as directed in § 141.2 of this chapter, using the method described in paragraph (e)(1) of that section, except transfer 1 milliliter from each container directly to the dry filter, thus eliminating the preliminary solubilization step.

(3) *Pyrogens.*—Proceed as directed in § 141.4(a) of this chapter.

(4) *Safety.*—Proceed as directed in § 141.5 of this chapter.

(5) *Histamine.*—Proceed as directed in § 141.7 of this chapter, omitting the application of heat.

(6) *pH.*—Proceed as directed in § 141.503 of this chapter, diluting the sample with an equal volume of distilled water.

§ 151c.20 Chloramphenicol oral solution, veterinary.

(a) *Requirements for certification.*—(1) *Standards of identity, strength, quality, and purity.*—Chloramphenicol oral solution, veterinary is a solution containing chloramphenicol and one or more suitable and harmless buffers and preservatives in a suitable and harmless solvent. Each milliliter contains 100 milligrams of chloramphenicol. The chloramphenicol content is satisfactory if it not less than 90 percent and not more than 120 percent of the number of milligrams of chloramphenicol that it is represented to contain. The pH is not less than 6.5 and not more than 8.5. The chloramphenicol used conforms to the standards prescribed in § 151c.2(a)(1) of this chapter.

(2) *Packaging.*—It shall be packaged in accordance with the requirements of § 148.2 of this chapter.

(3) *Labeling.*—It shall be labeled in accordance with the requirements of § 148.3 and 135c.99 of this chapter.

(4) *Requests for certification; samples.*—In addition to the requirements of § 146.2 of this chapter, each such request shall contain:

(i) Results of tests and assays on:

(*a*) The chloramphenicol used in making the batch for potency, safety, pH, specific rotation, melting point, absorptivity, and crystallinity.

(*b*) The batch for potency and pH.

(ii) Samples required:

(*a*) The chloramphenicol used in making the batch: 10 packages, each containing approximately 300 milligrams.

(*b*) The batch: A minimum of 6 immediate containers.

(5) *Tests and methods of assay.*—(1) *Potency.*—Proceed as directed in § 141.111 of this chapter, preparing the sample for assay as follows: Transfer an accurately measured portion of the sample into a volumetric flask and dilute to volume with 1 percent potassium phosphate buffer, pH 6.0 (solution 1). Further dilute with solution #1 to the reference concentration of 2.5 micrograms of chloramphenicol per milliliter (estimated).

(2) *pH.*—Proceed as directed in § 141.503 of this chapter, diluting the sample with an equal volume of distilled water.

Effective date.—This order shall be effective August 24, 1973.

(Sec. 512 (i) and (n), 82 Stat. 347, 350-351; 21 U.S.C. 360b (i) and (n).)

Dated August 17, 1973.

FRED J. KINGMA,
Acting Director,
Bureau of Veterinary Medicine.

[FR Doc.73-17926 Filed 8-23-73;8:45 am]

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

PART 151c—CHLORAMPHENICOL

Chloramphenicol Tablets, Veterinary

The Commissioner of Food and Drugs has evaluated a new animal drug application (55-052V) filed by EVSCO Pharmaceutical Corp., 3345 Royal Ave., Oceanside, N.Y. 11572, covering the use of chloramphenicol tablets for the oral treatment of dogs. The application is approved.

As said drug is subject to batch certification under the provisions of sec. 512 (n) of the Federal Food, Drug, and Cosmetic Act, this order provides for an appropriate amendment to the antibiotic certification regulations.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i) and (n), 82 Stat. 347; 350–351; 21 U.S.C. 360b(i) and (n)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 135c and 151c are amended as follows:

1. Part 135c is amended by adding a new section as follows:

§ 135c.102 Chloramphenicol tablets, veterinary.

(a) *Specifications.*—Chloramphenicol tablets, veterinary contain 100 milligrams of chloramphenicol and conform to the certification requirements of § 151c.21 of this chapter.

(b) *Sponsor.*—See code No. 053 in § 135.501(c) of this chapter.

(c) *Conditions of use.*—(1) The drug is administered to dogs for oral treatment of bacterial pulmonary infections, bacterial infections of the urinary tract, bacterial enteritis, and bacterial infections associated with canine distemper caused by susceptible organisms.

(2) The drug is administered at 25 milligrams per pound of body weight every 6 hours.

(3) Laboratory tests should be conducted including in-vitro culturing and susceptibility tests on samples collected prior to treatment. If no response to chloramphenicol therapy is obtained in 3 to 5 days, discontinue its use and review diagnosis.

(4) The label bears a statement that the product is not to be used in animals which are raised for food production.

(5) Chloramphenicol products must not be used in meat, egg, or milk-producing animals. The length of time that residues persist in milk or tissues has not been determined. Because of potential antagonism, chloramphenicol should not be administered simultaneously with penicillin or streptomycin.

(6) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

2. Part 151c is amended by adding a new section as follows:

§ 151c.21 Chloramphenicol tablets, veterinary.

(a) *Requirements for certification.*—(1) *Standards of identity, strength, quality, and purity.*—Chloramphenicol tablets, veterinary are composed of chloramphenicol with or without one or more suitable diluents, lubricants, binders, colorings and coating substances Each tablet contains 100 milligrams of chloramphenicol. Its potency is satisfactory if it is not less than 90 percent and not more than 120 percent of the number of milligrams of chloramphenicol that it is represented to contain. Tablets shall disintegrate within 1 hour. The chloramphenicol used conforms to the standards prescribed by § 151c.2(a)(1).

(2) *Labeling.*—It shall be labeled in accordance with the requirements of §§ 148.3 and 135c.102 of this chapter.

(3) *Requests for certification; samples.*—In addition to complying with the requirements of § 146.2 of this chapter, each such request shall contain:

(i) Results of tests and assays on:

(*a*) The chloramphenicol used in making the batch for potency, safety, pH, specific rotation, melting range, absorptivity, and crystallinity.

(*b*) The batch for potency and disintegration time.

(ii) Samples required.

(*a*) The chloramphenicol used in making the batch: 10 packages each containing approximately 300 milligrams.

(*b*) The batch: A minimum of 30 tablets.

(b) *Tests and methods of assay.*—(1) *Potency.*—Use either of the following methods; however, the results obtained from the microbiological turbidimetric assay shall be conclusive.

(i) *Microbiological turbidimetric assay.*—Proceed as directed in § 141.111 of this chapter, preparing the sample for assay as follows: Place a representative number of tablets into a high-speed glass blender jar containing 100 milliliters of 95 percent ethyl alcohol. Blend for 2 minutes. Add 400 milliliters of 1 percent potassium phosphate buffer, pH 6.0 (solution 1), and blend again for 2 minutes. Remove an aliquot and further dilute with solution 1 to the reference concentration of 2.5 micrograms of chloramphenicol per milliliter (estimated).

(ii) *Spectrophotometric assay.*—(*a*) *Preparation of working standard solution.*—Dissolve approximately 50 milligrams of the working standard in 100 milliliters of distilled water. Warm if necessary to hasten dissolution. Transfer 10 milliliters into a 250-milliliter volumetric flask and fill to volume with distilled water.

(*b*) *Procedure.*—Weigh accurately a counted number of not less than 10 tablets and determine the average weight per tablet. Reduce 10 tablets to a fine powder in a mortar and transfer an

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

PART 1033—CAR SERVICE

[S.O. 1126; Amdt. 1]

Baltimore and Ohio Railroad Company Authorized To Operate Over Tracks of Penn Central Transportation Co. et al.

At a Session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 20th day of August 1973.

Upon further consideration of Service Order No. 1126 (38 FR 6999), and good cause appearing therefor:

It is ordered, That:

Service Order No. 1126 (*The Baltimore and Ohio Railroad Company authorized to operate over tracks of Penn Central Transportation Company, George P. Baker, Richard C. Bond, and Jervis Langdon, Jr., Trustees*) be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) *Expiration date.*—The provisions of this order shall expire at 11:59 p.m., February 28, 1974, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date.—This amendment shall become effective at 11:59 p.m., August 31, 1973.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2).)

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

Title 50—Wildlife and Fisheries

CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Certain National Wildlife Refuges in Alaska

The following regulations are issued and are effective on August 24, 1973. These regulations apply to public hunting on portions of certain national wildlife refuges in Alaska.

General conditions.—Hunting shall be in accordance with applicable State regulations. Information relative to hunting may be obtained from Refuge Managers addressed to respective refuges.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

Upland game may be hunted on the following refuge areas:

Aleutian Islands National Wildlife Refuge, Pouch 2, Cold Bay, Alaska 99571.

Special conditions.—(1) Exception Amchitka Island.

(2) Landing of aircraft on Unimak Island or taking aircraft off from Unimak Island, while transporting upland game or upland game hunters, is restricted to the following areas:

Area No. 1.—The airstrip situated at the village of False Pass.

Area No. 2.—The airstrip situated at Cape Sarichef.

Area No. 3.—The waters of all lakes, bays, and lagoons on or adjacent to Unimak Island.

Izembek National Wildlife Range, Pouch 2, Cold Bay, Alaska 99571.

Special conditions.—(1) The landing of aircraft is prohibited except in the event of emergency.

(2) The use of motorized vehicles is restricted to the established road system.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

Big game animals may be hunted on the following refuge areas:

Aleutian Islands National Wildlife Refuge, Pouch 2, Cold Bay, Alaska 99571.

Special conditions.—(1) Species permitted to be taken: Caribou on the islands of Atka, Unimak, and Adak; brown bear on the island of Unimak.

(2) A federal permit is required to take brown bear on Unimak Island. Permits may be obtained from the Refuge Manager, Aleutian Islands National Wildlife Refuge, Pouch 2, Cold Bay, Alaska 99571.

(3) Landing of aircraft on Unimak Island or taking aircraft off from Unimak Island, while transporting big game or big game hunters, is restricted to the following areas:

Area No. 1.—The airstrip situated at the village of False Pass.

Area No. 2.—The airstrip situated at Cape Sarichef.

Area No. 3.—The waters of all lakes, bays, and lagoons on or adjacent to Unimak Island.

Izembek National Wildlife Range, Pouch 2, Cold Bay, Alaska 99571.

Special conditions.—(1) The landing of aircraft is prohibited except in the event of emergency.

(2) The use of motorized vehicles is restricted to the established road system.

(3) The Cold Bay closed area, partly within the Izembek National Wildlife Range, beginning at the peak of Frosty Mountain running in a straight line approximately northwest to the tip of Cape Glazenap in Izembek Lagoon, thence north-eastward along the mean high tide line to the north end of Neumann Island (at app. 55°25'N, 162°41'W), thence on a straight line running approximately south to the tip of the spit at the western entrance to Kinzarof Lagoon in Cold Bay (at app. 55°76'N, 162°41'W), thence generally southward along mean high tide line to the head of Old Mans Lagoon in Cold Bay (at app. 55°04'N, 162°38'W), thence on a straight line to the point of beginning, is closed by State of Alaska regulation to the taking of brown and grizzly bear only.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally and which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through June 30, 1974.

ROBERT D. JONES, Jr.,
Refuge Manager, Izembek NWR, Cold Bay, Alaska.

AUGUST 8, 1973.

[FR Doc.73–17957 Filed 8–23–73;8:45 am]

Title 6—Economic Stabilization

CHAPTER I—COST OF LIVING COUNCIL

PART 130—COST OF LIVING COUNCIL PHASE III REGULATIONS

PART 140—COST OF LIVING COUNCIL FREEZE REGULATIONS

Stage A Amendments

The purpose of these amendments is to make corrections and clarifications in the Phase IV Stage A food regulations.

Price adjustments for food items sold at a loss formerly were permitted only in situations where the freeze cost exceeded the freeze price and were restricted to increases only up to the freeze cost in the case of wholesalers and retailers purchasing directly from a producer of raw agricultural products sold for ultimate consumption in their original physical form and processors purchasing raw agricultural products. Section 140.93 (d) (1) which governs these adjustments is amended by substituting the term "average cost" for "freeze cost". Therefore, the price of these items may be increased to the average cost of the item if the average cost of the food item purchased during the freeze base period exceeded the freeze price. This amendment makes this treatment of this situation uniform for both adjustments for items sold at a loss and inventory price adjustments under § 140.93.

Section 140.14 governing imports is also amended to conform its provisions with the Stage A regulations. Sellers of imported food could previously pass on increases in the landed cost of a food item if the food item were not physically transformed or did not become a component of another item. Thus, sellers of any food item which did not go through further processing after its arrival in the U.S. could pass on dollar-for-dollar increases in the landed cost of the food in the same manner as resellers of other imports without any certification requirement. Persons importing semi-processed food for further processing, however, could not take advantage of the dollar-for-dollar pass-through provisions of Subpart I because they could not obtain a certification of an increase in the raw agricultural costs of the food item as required in Subpart I nor did they meet the requirements of § 140.14. This amendment will now permit processors of semi-processed imported food to pass on increases in the cost of the imported food items in the same manner as processors using food of domestic origin, except that no certification will be required for these price increases.

The Stage A food regulations have previously been modified to eliminate the provision in 6 CFR 140.99 which limited the food recordkeeping requirements to those food firms with annual sales or revenues in excess of $50 million derived from sales of food. Section 130.129(c) of the meat ceiling regulation is now amended to conform the Stage A recordkeeping requirements for sellers of pork and lamb with the requirements which are now imposed on sellers of food under Subpart I of the freeze regulations.

Because the purpose of this amendment is to provide immediate guidance and information with respect to Cost of Living Council decisions, the Council finds that publication in accordance with normal rule making procedure is impracticable and that good cause exists for making this amendment effective in less than 30 days.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92–210, 85 Stat. 743; Pub. L. 93–28, 87 Stat. 27; E.O. 11695, 38 FR 1473, E.O. 11730, 38 FR 19345, Cost of Living Council Order No. 14, 38 FR 1489)

In consideration of the foregoing, Chapter I of Title 6 of the Code of Federal Regulations is amended as follows, effective August 22, 1973.

Issued in Washington, D.C., on August 22, 1973.

JAMES W. MCLANE,
Deputy Director, Cost of Living Council.

1. The first sentence of paragraph c of § 130.129 is amended to read as follows:

§ 130.129 Requirements for sellers of swine and sheep.

* * * * *

(c) *Recordkeeping requirements.* Each firm shall maintain comprehensive records of all price adjustments made pursuant to § 130.127 and § 130.128.

* * * * *

2. Section 140.14 is amended to read as follows:

§ 140.14 Imported commodities and services.

Notwithstanding the provisions of § 140.10, any person who imports and sells a commodity or service from outside the several States and the District of Columbia and each reseller of such a commodity or service may pass on increases in the landed cost for such imported commodity or service incurred after June 12, 1973, on a dollar-for-dollar basis so long as the commodity or service is neither physically transformed by the seller nor becomes a component of another product except that when the imported commodity is food, as defined in subpart I of this Part, increases in the landed cost of the commodity may be passed on without regard to the commodity's physical transformation or inclusion as a component of another product. However, this section shall not apply to commodities or services which were originally purchased in the United States but exported and subsequently imported in any form.

3. Section 140.93(d)(1) is amended to read as follows:

§ 140.93 Special price rules.

* * * * *

(d) *Adjustment for items sold at a loss.* * * *

(1) In the case of wholesalers and retailers which purchase directly from a producer for resale raw agricultural products sold for ultimate consumption in their original physical form and manufacturers and processors which purchase raw agricultural products for processing, if the average cost of a food item purchased during the freeze base period exceeds the freeze price of a food item, the seller may charge a price in excess of the freeze price for that food item to reflect on a dollar-for-dollar basis increases in raw agricultural product costs incurred between January 10, 1973, and the freeze base period with respect to that food item which are not otherwise reflected in the freeze price. However, a price charged pursuant to this paragraph may not exceed the average cost of the food item during the freeze base period except to the extent that it reflects allowable cost increases.

[FR Doc.73–18158 Filed 8–23–73;10:27 am]

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER A—GENERAL

PART 1—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT AND THE FAIR PACKAGING AND LABELING ACT

Nutrition Labeling; Notice of Extension of Effective Date

In the FEDERAL REGISTER of March 14, 1973 (38 FR 6951), the Commissioner of Food and Drugs promulgated a new regulation, § 1.17 (21 CFR 1.17). The regulation requires that all labeling ordered after December 31, 1973, must comply with its provisions. In paragraph 34 of the preamble of the March 14, 1973, order, the Commissioner gave notice that temporary extensions from the December 31, 1973, compliance date will be considered, upon a showing of good cause, based upon an ongoing program of nutrition research.

The Milk Industry Foundation, 910 Seventeenth St. NW., Washington, D.C. 20006, the American Dry Milk Institute, Inc., 130 North Franklin St., Chicago, Ill. 60606, and the Evaporated Milk Association, 910 Seventeenth St. NW., Washington, D.C. 20006 have joined in requesting an extension of the December 31, 1973, label printing requirement for the labeling of milk, lowfat milk, skim milk, evaporated milk, evaporated skim milk, nonfat dry milk, cottage cheese, lowfat cottage cheese, and dry curd cottage cheese. The extension is needed to allow time for completion of studies now being carried out to obtain nutritional data on which to base nutrition labeling for these foods. These studies will not be completed in time to permit manufacturers to develop labels to meet the December 31, 1973, effective date.

The Commissioner has reviewed this program and fully supports it. Notice is hereby given that the requested extension is granted until December 31, 1974, at which time all labeling used for products shipped in interstate commerce shall comply with § 1.17.

Dated August 16, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73–17928 Filed 8–23–73;8:45 am]

SUBCHAPTER C—DRUGS

PART 135b—NEW ANIMAL DRUGS FOR IMPLANTATION OR INJECTION

Sodium Thiopental, Sodium Pentobarbital

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (10–346V) filed by Amdal Co., Division of Abbott Laboratories, North Chicago, Ill. 60064, pro-

V38-164 AUG 24 73 XUM

posing revised labeling regarding the safe and effective use of sodium thiopental with sodium pentobarbital as an anesthetic for use in cats and dogs. The supplemental application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), part 135b is amended by adding the following new section:

§ 135b.54 Sodium thiopental, sodium pentobarbital for injection, veterinary.

(a) *Specifications.*—Each gram of the drug contains 750 milligrams of sodium thiopental and 250 milligrams of sodium pentobarbital sterile powder for dilution with sterile water for injection.

(b) *Sponsor.*—See code No. 003 in § 135.501(c) of this chapter.

(c) *Conditions of use.*—(1) It is used as an anesthetic for intravenous administration to dogs and cats during short to moderately long surgical procedures.

(2) It is administered as follows:

(i) For total anesthesia, it is given at approximately 10 to 12 milligrams per pound of body weight over a period of 3.5 to 5 minutes.

(ii) When preanesthetic medication is used, it is important to wait at least an hour before administering thiopental and sodium pentobarbital for injection, and the dosage necessary for anesthesia is reduced. Usually ½ to ⅔ the normal amount is adequate.

(3) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Effective date.—This order shall be effective August 24, 1973.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i).)

Dated August 17, 1973.

FRED J. KINGMA,
Acting Director,
Bureau of Veterinary Medicine.

[FR Doc.73-17927 Filed 8-23-73;8:45 am]

CHLORAMPHENICOL INJECTION AND SOLUTION FOR VETERINARY USE

The Commissioner of Food and Drugs has evaluated supplemental new animal drug applications No. 55-002V and 55-003V filed by Tevcon Industries, Inc., 8904 J St., Omaha, Nebr. 68127, covering use of chloramphenicol for administration orally or by injection to dogs. The supplemental applications are approved.

Said drug was approved under section 507 of the Federal Food, Drug, and Cosmetic Act prior to the effective date of the New Animal Drug Amendments of 1968 and has been subject to batch release under sec. 507(a) of the act. Since the drug is now to be certified under the provisions of sec. 512(n) of the act, this order provides for an appropriate amendment to the antibiotic certification regulations.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i) and (n), 82 Stat. 347; 350-351; 21 U.S.C. 360b (i) and (n)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 135b, 135c, and 151c are amended as follows:

PART 135b—NEW ANIMAL DRUGS FOR IMPLANTATION OR INJECTION

1. Part 135b is amended by adding a new section as follows:

§ 135b.77 Chloramphenicol injection, veterinary.

(a) *Specifications.*—The product complies with the requirements of § 151c.19 of this chapter.

(b) *Sponsor.*—See code No. 076 in § 135.501(c) of this chapter.

(c) *Conditions of use.*—(1) It is used in dogs for the treatment of infections of the respiratory tract, the urinary tract, and enteritis and tonsillitis caused by organisms susceptible to chloramphenicol.

(2) It is administered intramuscularly or intravenously at a dosage level of 5 to 15 milligrams per pound of body weight every 6 hours. In severe infections, 4 to 6 hour treatment intervals may be desirable the first day of treatment. If no response to treatment is obtained in 3 to 5 days, use should be discontinued and the diagnosis reviewed.

(3) The label bears a statement that the product is not to be used in animals which are raised for food production.

(4) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

2. Part 135c is amended by adding a new section as follows:

§ 135c.99 Chloramphenicol oral solution, veterinary.

(a) *Specifications and special considerations.*—The product complies with the requirements of § 151c.20 of this chapter.

(b) *Sponsor.*—See code No. 076 in § 135.501(c) of this chapter.

(c) *Conditions of use.*—(1) It is used in dogs for the treatment of infections of the respiratory tract, the urinary tract, and enteritis and tonsillitis caused by organisms susceptible to chloramphenicol.

(2) It is administered orally to dogs at a dosage level of 25 milligrams per pound of body weight every 6 hours. In severe infections, 4 to 6 hour treatment intervals may be desirable the first day of treatment. If no response is obtained in 3 to 5 days, discontinue use of the drug and review the diagnosis.

(3) The label bears a statement that this produce is not to be used in animals which are raised for food production.

(4) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

PART 151c—CHLORAMPHENICOL

3. Part 151c is amended by adding two sections as follows:

Sec.
151c.19 Chloramphenicol injection, veterinary.
151c.20 Chloramphenicol oral solution, veterinary.

§ 151c.19 Chloramphenicol injection, veterinary.

(a) *Requirements for certification.*—(1) *Standards of identity, strength, quality, and purity.*—Chloramphenicol injection, veterinary is a solution containing chloramphenicol and one or more suitable and harmless buffers and preservatives in ethyl alcohol and propylene glycol base. Each milliliter contains 100 milligrams of chloramphenicol. The chloramphenicol content is satisfactory if it is not less than 90 percent and not more than 115 percent of the number of milligrams of chloramphenicol that it is represented to contain. It is sterile. It is nonpyrogenic. It passes the safety test. It contains no histamine or histaminelike substances. Its pH is not less than 6.5 and not more than 8.5. The chloramphenicol used conforms to the standards prescribed by § 151c.1(a)(1).

(2) *Packaging.*—It shall be packaged in accordance with the requirements of § 148.2 of this chapter.

(3) *Labeling.*—It shall be labeled in accordance with the requirements of § 148.3 and 135b.77 of this chapter.

(4) *Requests for certification; samples.*—In addition to the requirements of § 146.2 of this chapter, each such request shall contain:

(i) Results of tests and assays on:

(*a*) The chloramphenicol used in making the batch for potency, pH, specific rotation, melting point, absorptivity, and crystallinity.

(*b*) The batch for potency, sterility, pyrogens, safety, histamine content, and pH.

(ii) Samples required:

(*a*) The chloramphenicol used in making the batch: 10 packages each containing approximately 300 milligrams.

(*b*) The batch:

(*1*) For all tests except sterility: A minimum of 8 immediate containers.

(*2*) For sterility testing: 20 immediate containers collected at regular intervals throughout each filling operation.

(b) *Tests and methods of assay.*—(1) *Potency.*—Proceed as directed in § 141.-111 of this chapter, preparing the sample for assay as follows: Transfer an accurately measured portion of the sample into a volumetric flask and dilute to volume with 1 percent potassium phosphate buffer, pH 6.0 (solution 1). Further dilute with solution 1 to the reference concentration of 2.5 micrograms of chloramphenicol per milliliter (estimated).

(2) *Sterility.*—Proceed as directed in § 141.2 of this chapter, using the method described in paragraph (e)(1) of that section, except transfer 1 milliliter from each container directly to the dry filter, thus eliminating the preliminary solubilization step.

(3) *Pyrogens.*—Proceed as directed in § 141.4(a) of this chapter.

(4) *Safety.*—Proceed as directed in § 141.5 of this chapter.

(5) *Histamine.*—Proceed as directed in § 141.7 of this chapter, omitting the application of heat.

(6) *pH.*—Proceed as directed in § 141.503 of this chapter, diluting the sample with an equal volume of distilled water.

§ 151c.20 Chloramphenicol oral solution, veterinary.

(a) *Requirements for certification.*—(1) *Standards of identity, strength, quality, and purity.*—Chloramphenicol oral solution, veterinary is a solution containing chloramphenicol and one or more suitable and harmless buffers and preservatives in a suitable and harmless solvent. Each milliliter contains 100 milligrams of chloramphenicol. The chloramphenicol content is satisfactory if it not less than 90 percent and not more than 120 percent of the number of milligrams of chloramphenicol that it is represented to contain. The pH is not less than 6.5 and not more than 8.5. The chloramphenicol used conforms to the standards prescribed in § 151c.2(a)(1) of this chapter.

(2) *Packaging.*—It shall be packaged in accordance with the requirements of § 148.2 of this chapter.

(3) *Labeling.*—It shall be labeled in accordance with the requirements of § 148.3 and 135c.99 of this chapter.

(4) *Requests for certification; samples.*—In addition to the requirements of § 146.2 of this chapter, each such request shall contain:

(i) Results of tests and assays on:

(*a*) The chloramphenicol used in making the batch for potency, safety, pH, specific rotation, melting point, absorptivity, and crystallinity.

(*b*) The batch for potency and pH.

(ii) Samples required:

(*a*) The chloramphenicol used in making the batch: 10 packages, each containing approximately 300 milligrams.

(*b*) The batch: A minimum of 6 immediate containers.

(5) *Tests and methods of assay.*—(1) *Potency.*—Proceed as directed in § 141.111 of this chapter, preparing the sample for assay as follows: Transfer an accurately measured portion of the sample into a volumetric flask and dilute to volume with 1 percent potassium phosphate buffer, pH 6.0 (solution 1). Further dilute with solution #1 to the reference concentration of 2.5 micrograms of chloramphenicol per milliliter (estimated).

(2) *pH.*—Proceed as directed in § 141.503 of this chapter, diluting the sample with an equal volume of distilled water.

Effective date.—This order shall be effective August 24, 1973.

(Sec. 512 (i) and (n), 82 Stat. 347, 350-351; 21 U.S.C. 360b (i) and (n).)

Dated August 17, 1973.

FRED J. KINGMA,
Acting Director,
Bureau of Veterinary Medicine.

[FR Doc.73-17926 Filed 8-23-73;8:45 am]

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

PART 151c—CHLORAMPHENICOL

Chloramphenicol Tablets, Veterinary

The Commissioner of Food and Drugs has evaluated a new animal drug application (55-052V) filed by EVSCO Pharmaceutical Corp., 3345 Royal Ave., Oceanside, N.Y. 11572, covering the use of chloramphenicol tablets for the oral treatment of dogs. The application is approved.

As said drug is subject to batch certification under the provisions of sec. 512 (n) of the Federal Food, Drug, and Cosmetic Act, this order provides for an appropriate amendment to the antibiotic certification regulations.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i) and (n), 82 Stat. 347; 350-351; 21 U.S.C. 360b(i) and (n)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 135c and 151c are amended as follows:

1. Part 135c is amended by adding a new section as follows:

§ 135c.102 Chloramphenicol tablets, veterinary.

(a) *Specifications.*—Chloramphenicol tablets, veterinary contain 100 milligrams of chloramphenicol and conform to the certification requirements of § 151c.21 of this chapter.

(b) *Sponsor.*—See code No. 053 in § 135.501(c) of this chapter.

(c) *Conditions of use.*—(1) The drug is administered to dogs for oral treatment of bacterial pulmonary infections, bacterial infections of the urinary tract, bacterial enteritis, and bacterial infections associated with canine distemper caused by susceptible organisms.

(2) The drug is administered at 25 milligrams per pound of body weight every 6 hours.

(3) Laboratory tests should be conducted including in-vitro culturing and susceptibility tests on samples collected prior to treatment. If no response to chloramphenicol therapy is obtained in 3 to 5 days, discontinue its use and review diagnosis.

(4) The label bears a statement that the product is not to be used in animals which are raised for food production.

(5) Chloramphenicol products must not be used in meat, egg, or milk-producing animals. The length of time that residues persist in milk or tissues has not been determined. Because of potential antagonism, chloramphenicol should not be administered simultaneously with penicillin or streptomycin.

(6) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

2. Part 151c is amended by adding a new section as follows:

§ 151c.21 Chloramphenicol tablets, veterinary.

(a) *Requirements for certification.*—(1) *Standards of identity, strength, quality, and purity.*—Chloramphenicol tablets, veterinary are composed of chloramphenicol with or without one or more suitable diluents, lubricants, binders, colorings and coating substances Each tablet contains 100 milligrams of chloramphenicol. Its potency is satisfactory if it is not less than 90 percent and not more than 120 percent of the number of milligrams of chloramphenicol that it is represented to contain. Tablets shall disintegrate within 1 hour. The chloramphenicol used conforms to the standards prescribed by § 151c.2(a)(1).

(2) *Labeling.*—It shall be labeled in accordance with the requirements of §§ 148.3 and 135c.102 of this chapter.

(3) *Requests for certification; samples.*—In addition to complying with the requirements of § 146.2 of this chapter, each such request shall contain:

(i) Results of tests and assays on:

(*a*) The chloramphenicol used in making the batch for potency, safety, pH, specific rotation, melting range, absorptivity, and crystallinity.

(*b*) The batch for potency and disintegration time.

(ii) Samples required.

(*a*) The chloramphenicol used in making the batch: 10 packages each containing approximately 300 milligrams.

(*b*) The batch: A minimum of 30 tablets.

(b) *Tests and methods of assay.*—(1) *Potency.*—Use either of the following methods; however, the results obtained from the microbiological turbidimetric assay shall be conclusive.

(i) *Microbiological turbidimetric assay.*—Proceed as directed in § 141.111 of this chapter, preparing the sample for assay as follows: Place a representative number of tablets into a high-speed glass blender jar containing 100 milliliters of 95 percent ethyl alcohol. Blend for 2 minutes. Add 400 milliliters of 1 percent potassium phosphate buffer, pH 6.0 (solution 1), and blend again for 2 minutes. Remove an aliquot and further dilute with solution 1 to the reference concentration of 2.5 micrograms of chloramphenicol per milliliter (estimated).

(ii) *Spectrophotometric assay.*—(*a*) *Preparation of working standard solution.*—Dissolve approximately 50 milligrams of the working standard in 100 milliliters of distilled water. Warm if necessary to hasten dissolution. Transfer 10 milliliters into a 250-milliliter volumetric flask and fill to volume with distilled water.

(*b*) *Procedure.*—Weigh accurately a counted number of not less than 10 tablets and determine the average weight per tablet. Reduce 10 tablets to a fine powder in a mortar and transfer an

V 38 164 AUG 24 73 XUM

amount of powder containing 500 milligrams (estimated) of chloramphenicol to a 1,000-milliliter glass-stoppered volumetric flask. Add 50 milliliters of redistilled methanol to the flask and shake for at least 1 minute. Fill to volume with distilled water and mix thoroughly. Transfer exactly 10 milliliters of this solution into a 250-milliliter glass-stoppered volumetric flask. Fill to volume with distilled water and mix thoroughly. Determine the absorbance of this solution on a suitable spectrophotometer in a 1-centimeter quartz cell at 278 nanometers against a blank of distilled water. Calculate the potency of the sample as follows:

$$\text{Milligrams of chloramphenicol per tablet} = \frac{\text{Absorbance of sample}}{\text{Absorbance of standard}} \times \frac{\text{Average weight of the tablet}}{\text{Weight of powder tested in milligrams}} \times 250{,}000$$

(2) *Disintegration time.*—Proceed as directed in § 141.540.

Effective date.—This order shall be effective August 24, 1973.

(Sec. 512(i) and (n), 82 Stat. 347, 350–351; 21 U.S.C. 360b(i) and (n))

Dated: August 17, 1973.

FRED J. KINGMA,
Acting Director, Bureau of Veterinary Medicine.

[FR Doc.73–17925 Filed 8–23–73;8:45 am]

PART 121—FOOD ADDITIVES

PART 122—UNAVOIDABLE CONTAMINANTS IN FOOD AND FOOD-PACKAGING MATERIAL

Polychlorinated Biphenyls; Notice of Partial Confirmation of Effective Date and Stay of a Provision of the Final Order

In the FEDERAL REGISTER of July 6, 1973 (38 FR 18096), a final order was published limiting the sources by which polychlorinated biphenyls (PCB's) may contaminate animal feed, food, and food-packaging materials during manufacturing, handling, and storage and limiting the levels of PCB's that may be present in animal feed, food, and food-packaging materials as a result of unavoidable, environmental contamination. The order provided for the filing of objections to §§ 121.2546 and 122.10 within 30 days after the date of publication.

No objections to the amendment of § 121.2546 and to the provisions of § 122.10(a) (1) through (8) were filed. Therefore, this amendment and these provisions of the final order will become effective for paper food packaging materials, foods, and feeds initially shipped in interstate commerce after September 4, 1973.

Objections to § 122.10(a)(9), which establishes a temporary tolerance of 10 parts per million for PCB's in paper food-packaging material, were filed by eleven paperboard manufacturers, three paper industry trade associations, and one food manufacturer. The paperboard manufacturers and paper industry trade associations also requested a public hearing on their objections. Pursuant to sec. 701(e) of the Federal Food, Drug, and Cosmetic Act, § 122.10(a)(9) is hereby stayed pending full review of the objections and requests for hearing. This review will be the subject of a future FEDERAL REGISTER notice.

In the interim, as stated in the final order, the Food and Drug Administration will enforce the temporary tolerance level established by § 122.10(a)(9) by seizing any paper food-packaging material shipped in interstate commerce after September 4, 1973 containing higher than the specified level of PCB's as adulterated in violation of sec. 402 of the Act.

(Secs. 402(a), 406, 409, 701, 52 Stat. 1046 as amended, 1049, 1055–1056 as amended by 70 Stat. 919 and 72 Stat. 948, 72 Stat. 1785–1788 as amended; 21 U.S.C. 342(a), 346, 348, 371).

Dated: August 22, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

Title 19—Customs Duties

CHAPTER I—U.S. CUSTOMS SERVICE

[T.D. 73–233]

PART 153—ANTIDUMPING

Determination on Printed Vinyl Film From Argentina

Section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), gives the Secretary of the Treasury responsibility for determination of sales at less than fair value. Pursuant to this authority the Secretary of the Treasury has determined that printed vinyl film from Argentina is being, or is likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)). (Published in the FEDERAL REGISTER of April 19, 1973 (38 FR 9677).)

Section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), gives the United States Tariff Commission responsibility for determination of injury or likelihood of injury. The United States Tariff Commission has determined, and on July 18, 1973, it notified the Secretary of the Treasury that an industry in the United States is likely to be injured by reason of the importation of printed vinyl film from Argentina sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended. (Published in the FEDERAL REGISTER of July 24, 1973 (38 FR 19878).)

On behalf of the Secretary of the Treasury, I hereby make public these determinations, which constitute a finding of dumping with respect to printed vinyl film from Argentina.

Section 153.43 of the Customs Regulations is amended by adding the following to the list of findings of dumping currently in effect:

Merchandise	Country	T.D.
Printed vinyl film	Argentina	73–233

(Secs. 201, 407, 42 Stat. 11, as amended, 18; 19 U.S.C. 160, 173.)

[SEAL] EDWARD L. MORGAN,
Assistant Secretary of the Treasury.

[FR Doc.73–18082 Filed 8–23–73;8:45 am]

PART 153—ANTIDUMPING

[T.D. 73–232]

Determination on Printed Vinyl Film From Brazil

Section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), gives the Secretary of the Treasury responsibility for determination of sales at less than fair value. Pursuant to this authority the Secretary of the Treasury has determined that printed vinyl film from Brazil is being, or is likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)). (Published in the FEDERAL REGISTER of April 19, 1973 (38 FR 9678).)

Section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), gives the United States Tariff Commission responsibility for determination of injury or likelihood of injury. The United States Tariff Commission has determined, and on July 18, 1973, it notified the Secretary of the Treasury that an industry in the United States is likely to be injured by reason of the importation of printed vinyl film from Brazil sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended. (Published in the FEDERAL REGISTER of July 24, 1973 (38 FR 19878).)

On behalf of the Secretary of the Treasury, I hereby make public these determinations, which constitute a finding of dumping with respect to printed vinyl film from Brazil.

Section 153.43 of the Customs Regulations is amended by adding the following to the list of findings of dumping currently in effect:

Merchandise	Country	T.D.
Printed vinyl film	Brazil	73–232

(Secs. 201, 407, 42 Stat. 11, as amended, 18; 19 U.S.C. 160, 173.)

[SEAL] EDWARD L. MORGAN,
Assistant Secretary of the Treasury.

[FR Doc.73–18081 Filed 8–23–73;8:45 am]

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 1]

DEPRECIATION ALLOWANCE FOR PROPERTY OF CERTAIN PUBLIC UTILITIES

Notice of Public Hearing on Proposed Regulations

Proposed regulations under section 167(l) of the Internal Revenue Code of 1954, relating to depreciation allowance for property of certain public utilities, appear in the FEDERAL REGISTER for May 31, 1973 (38 FR 14287).

A public hearing on the provisions of such proposed regulations will be held on September 25, 1973, beginning at 10 a.m., e.d.s.t., in the George S. Boutwell Auditorium, Seventh Floor, 7400 Corridor, Internal Revenue Building, 1111 Constitution Avenue NW., Washington, D.C. 20224.

The rules of § 601.601(a)(3) of the "Statement of Procedural Rules" (26 CFR Part 601) shall apply with respect to such public hearing. Copies of these rules may be obtained by a request directed to the Commissioner of Internal Revenue, attention: CC:LR:T, Washington, D.C. 20224, or by telephoning (Washington, D.C.) 202–964–3935. Under such § 601.601(a)(3) persons who have submitted written comments or suggestions within the time prescribed in the notice of proposed rule making, and who desire to present oral comments at the hearing on such proposed regulations, should submit an outline of the comments to be presented at the hearing and the time they wish to devote to each subject by September 11, 1973. Such outlines should be submitted to the Commissioner of Internal Revenue, attention: CC:LR:T, Washington, D.C. 20224. Under § 601.601(a)(3) (26 CFR Part 601) each speaker will be limited to 10 minutes for an oral presentation exclusive of time consumed by questions from the panel for the Government and answers thereto.

Persons who desire a copy of such written comments or suggestions or outlines and who desire to be assured of their availability on or before the beginning of such hearing should notify the Commissioner, in writing, at the above address by September 18, 1973. In such a case, unless time and circumstances permit otherwise, the desired copies are deliverable only at the above address. The charge for copies is ten cents ($0.10) per page, subject to a minimum charge of $1.00.

An agenda showing the order of the hearing on the proposed regulations and the scheduling of the speakers will be made after outlines are received from the speakers. Copies of this agenda will be available free of charge at the hearing, and information with respect to its contents may be obtained on September 24, 1973, by telephoning (Washington, D.C.) 202–964–3935.

LAWRENCE B. GIBBS,
Acting Chief Counsel.

[FR Doc.73–18110 Filed 8–23–73;8:45 am]

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 110]

[CGD 73–180P]

ANCHORAGE GROUNDS, PUGET SOUND AREA, WASHINGTON

Termination of Blake Island Explosives Anchorage

The Coast Guard is considering terminating the Blake Island Explosives Anchorage in Puget Sound, Washington. To effect the termination, Part 110 of Title 33 of the Code of Federal Regulations would be amended by revoking § 110.230(a)(12). The reason for terminating this anchorage is that it no longer meets the Department of Defense ammunition and explosives safety standards because of the construction of a public marina nearby at State Park on Blake Island.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander, Thirteenth Coast Guard District, 618 Second Avenue, Seattle, Washington 98104. Each person submitting comments should include his name and address, identify the notice (CGD 73–180P) and give any reasons in support of the comments made. Copies of all submissions received will be available for examination by interested persons at the Office of the Commander, Thirteenth Coast Guard District.

The Commander, Thirteenth Coast Guard District will forward any comments received before September 28, 1973, and his recommendations to the Chief, Office of Marine Environment and Systems, U.S. Coast Guard Headquarters, who will evaluate all communications received and take final action on this proposal.

This amendment is being considered under the authority contained in Sec. 7, 38 Stat. 1053, as amended, sec. 6(g)(1)(A), 80 Stat. 937; 33 U.S.C. 471, 49 U.S.C. 1655(g)(1)(A); 49 CFR 1.46(c)(1), 33 CFR 1.05–1(c)(1).

Dated: August 21, 1973.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard Chief, Office of Marine Environment and Systems.

[FR Doc.73–17972 Filed 8–23–73;8:45 am]

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 73–RM–23]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations which would alter the control zone and transition area at Kalispell, Mont.

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Federal Aviation Administration, Park Hill Station P.O. Box 7213, Denver, Colorado 80207. All communications received on or before September 19, 1973, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 10455 E. 25th Avenue, Aurora, Colorado 80010.

An instrument landing system serving Runway 01 at Glacier Park International Airport, Kalispell, Mont., will be commissioned in December 1973. Concurrent with the ILS, the FAA will provide an NDB which will be used in conjunction with the instrument approach procedure to be developed. Alteration of the existing control zone and transition areas is necessary to provide airspace protection for aircraft executing a VOR

V38-164 AUG 24 73 XUM

Runway 29 approach or an ILS Runway 01 approach to Glacier Park Airport.

In consideration of the foregoing, the FAA proposes the following airspace action:

In § 71.171 (38 FR 390), the description of the Kalispell control zone is amended to read:

Within a 5-mile radius of the Glacier Park International Airport (latitude 48°18'49" N., longitude 114°15'16" W.); within 2 miles each side of the 035° bearing from the Smith Lake NDB (latitude 48°06'26" N., longitude 114°27'37"); extending from the 5-mile radius zone to 4 miles northeast of the NDB (12.5 miles southwest of the airport).

In § 71.181 (38 FR 510), the description of the transition area is amended to read:

That airspace extending upward from 700 feet above the surface within an 8-mile radius of the Glacier Park International Airport (latitude 48°18'49" N., longitude 114°15'16" W.); within 5.5 miles each side of the 035° and 215° bearings from the Smith Lake NDB (latitude 48°06'26" N., longitude 114°27'37" W.); extending from the 8-mile radius area to 12 miles southwest of the NDB. That airspace extending upward from 1200 feet above the surface within 5.5 miles east and 9.5 miles west of the Kalispell VOR 166° radial extending from the 700-foot transition area to 18.5 miles south of the VOR; within 5.5 miles southeast and 9.5 miles southwest of the 035° and 215° bearings from the Smith Lake NDB extending from 7.5 miles northeast of the NDB to 18.5 miles southwest of the NDB excluding the 700-foot transition area.

These amendments are proposed under authority of section 307(a), of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Aurora, Colorado, on August 15, 1973.

I. H. HOOVER,
Acting Director,
Rocky Mountain Region.

[FR Doc.73-17938 Filed 8-23-73;8:45 am]

ATOMIC ENERGY COMMISSION

[10 CFR Parts 50, 115]

LICENSING OF PRODUCTION AND UTILIZATION FACILITIES; PROCEDURES FOR REVIEW OF CERTAIN NUCLEAR REACTORS EXEMPTED FROM LICENSING REQUIREMENTS

Amendments for Facility Licenses and Authorizations

The Atomic Energy Commission has under consideration certain amendments to its regulations, 10 CFR Part 50, Licensing of Production and Utilization Facilities, and 10 CFR Part 115, Procedures for Review of Certain Nuclear Reactors Exempted from Licensing Requirements, which would simplify the procedural process for AEC authorization of changes in production and utilization facilities and technical specifications relating to such facilities.

Section 189 of the Atomic Energy Act of 1954, as amended (the Act), provides that in cases where a construction permit for a facility under secs. 103 or 104b. of the Act, or a testing facility under sec. 104c. of the Act, has been issued following a hearing, the Commission may, in the absence of a request therefor by any person whose interest may be affected, issue an amendment to the operating license without a hearing, upon thirty days' notice and publication of its intent to do so in the FEDERAL REGISTER. Such notice may be dispensed with, however, upon a determination that the amendment does not involve a significant hazards consideration.

Under existing provisions of § 50.59 of Part 50, changes may be made in a facility and in the procedures described in the safety analysis report, and tests and experiments not described in the safety analysis report may be conducted, without prior Commission approval, unless the proposed change, test or experiment involves a change in the technical specifications or an unreviewed safety question. A change which involves a change in technical specifications or an unreviewed safety question must be authorized by the Commission, and the Commission may authorize such a change, test or experiment, upon finding that there is reasonable assurance that the health and safety of the public will not be endangered. If a proposed change in a facility of a type described in §§ 50.21(b) or 50.22 or a testing facility (i.e., a power or test reactor or a fuel reprocessing plant), presents a significant hazards consideration, the Commission may refer the request to the Advisory Committee on Reactor Safeguards. Part 115 contains similar provisions with respect to operating authorizations for power reactors subject to that part.

Part 2 contains provisions which state that a notice of proposed action on an amendment to a facility license which "involves a significant hazards consideration" will be published in the FEDERAL REGISTER, and will provide that, by September 24, 1973, or such lesser period authorized by law as the Commission may specify, the applicant may request a hearing or any person whose interest may be affected by the proceeding may file a petition for leave to intervene (§ 2.105). Section 2.106 provides for FEDERAL REGISTER notice, after issuance, of amendments to facility licenses.

The Commission believes that the separate procedures now in effect for "amendments" and "changes" can be simplified by the establishment of a uniform system for authorization of such actions.

The proposed amendments to Part 50 which follow would continue to permit facility licensees to make changes and perform tests and experiments not described in the safety analysis report without prior Commission approval unless the change, test or experiment involves an unreviewed safety question or a change in the technical specifications. For proposed changes, tests or experiments which involve an unreviewed safety question or a change in technical specifications, an amendment to the operating license would be required, pursuant to § 50.90. With respect to an application for amendment of a license which involves a significant hazards consideration, the Commission would act upon the application for the amendment after giving notice of its proposed action, pursuant to the applicable provisions of 10 CFR Part 2. Similar changes would be made in the pertinent provisions of Part 115.

Section 50.58 would be amended to reflect the discretion given the Commission in sec. 182 of the Atomic Energy Act to refer applications for license amendments to the Advisory Committee on Reactor Safeguards.

Pursuant to the Atomic Energy Act of 1954, as amended, and sec. 553 of Title 5 of the United States Code, notice is hereby given that adoption of the following amendments to 10 CFR Parts 50 and 115 is contemplated. All interested persons who desire to submit written comments or suggestions for consideration in connection with the proposed amendments should send them to the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff, by September 24, 1973.

Copies of comments received may be examined at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C.

1. Paragraph (a) of § 50.58 would be revised to read as follows:

§ 50.58 Hearings and report of the Advisory Committee on Reactor Safeguards.

(a) Each application for a construction permit or an operating license for a facility which is of a type described in § 50.21(b) or § 50.22, or for a testing facility, shall be referred to the Advisory Committee on Reactor Safeguards for a review and report. An application for an amendment to such a construction permit or operating license may be referred to the Advisory Committee on Reactor Safeguards for review and report. Any report shall be made part of the record of the application and available to the public, except to the extent that security classification prevents disclosure.

* * * * *

2. Section 50.59 would be revised to read as follows:

§ 50.59 Changes, tests and experiments.

(a) (1) The holder of a license authorizing operation of a production or utilization facility may (i) make changes in the facility as described in the safety analysis report, (ii) make changes in the procedures as described in the safety analysis report, and (iii) conduct tests or experiments not described in the safety analysis report, without prior Commission approval, unless the proposed change, test or experiment involves a change in the technical specifications incorporated in the license or an unreviewed safety question.

(2) A proposed change, test, or experiment shall be deemed to involve an unreviewed safety question (i) if the probability of occurrence or the consequences of an accident or malfunction of equipment important to safety previously evaluated in the safety analysis report may be increased; or (ii) if a possibility for an accident or malfunction of a different type than any evaluated previously in the safety analysis report may be created; or (iii) if the margin of safety as defined in the basis for any technical specification is reduced.

(b) The licensee shall maintain records of changes in the facility and of changes in procedures made pursuant to this section, to the extent that such changes constitute changes in the facility as described in the safety analysis report or constitute changes in procedures as described in the safety analysis report. The licensee shall also maintain records of tests and experiments carried out pursuant to paragraph (a) of this section. These records shall include a written safety evaluation which provides the bases for the determination that the change, test or experiment does not involve an unreviewed safety question. The licensee shall furnish to the Commission, annually or at such shorter intervals as may be specified in the license, a report containing a brief description of such changes, tests and experiments, including a summary of the safety evaluation of each. Any report submitted by a licensee pursuant to this paragraph will be made a part of the public record of the licensing proceeding. In addition to a signed original, 39 copies of each report of changes in a facility of the type described in §§ 50.21(b) or 50.22 or a testing facility, and 12 copies of each report of changes in any other facility, shall be filed.

(c) The holder of a license authorizing operation of a production or utilization facility who desires (1) a change in technical specifications or (2) to make a change in the facility or the procedures described in the safety analysis report or to conduct tests or experiments not described in the safety analysis report, which involve an unreviewed safety question or a change in technical specifications, shall submit an application for amendment of his license pursuant to § 50.90.

3. A sentence would be added at the end of § 50.91 to read as follows:

§ 50.91 Issuance of amendment.

* * * In determining whether an amendment to a license or construction permit will be issued to the applicant, the Commission will be guided by the considerations which govern the issuance of initial licenses or construction permits, to the extent applicable and appropriate. If the application involves the material alteration of a licensed facility, a construction permit will be issued prior to the issuance of the amendment to the license. If the amendment involves a significant hazards consideration, the Commission will give notice of its proposed action pursuant to § 2.105 of this chapter before acting thereon. The notice will be issued as soon as practicable after the application has been docketed.

4. Paragraph (a) of § 115.46 would be amended to read as follows:

§ 115.46 Hearings and report of the Advisory Committee on Reactor Safeguards.

(a) Each application for an authorization to construct or operate a nuclear reactor subject to this part shall be referred to the Advisory Committee on Reactor Safeguards for a review and report. An application for an amendment to such a construction authorization or operating authorization may be referred to the Advisory Committee on Reactor Safeguards for review and report. Any report shall be made part of the record of the application and available to the public, except to the extent that security classification prevents disclosure.

* * * * *

5. Section 115.47 would be revised to read as follows:

§ 115.47 Changes, tests and experiments.

(a) (1) The holder of an operating authorization may (i) make changes in the facility as described in the safety analysis report, (ii) make changes in the procedures as described in the safety analysis report, and (iii) conduct tests and experiments not described in the safety analysis report, without prior Commission approval, unless the proposed change, test or experiment involves a change in the technical specifications incorporated in the license or an unreviewed safety question.

(2) A proposed change, test, or experiment shall be deemed to involve an unreviewed safety question (i) if the probability of occurrence or the consequences of an accident or malfunction of equipment important to safety previously evaluated in the safety analysis report may be increased; or (ii) if a possibility for an accident or malfunction of a different type than any evaluated previously in the safety analysis report may be created; or (iii) if the margin of safety as defined in the basis for any technical specification is reduced.

(b) The holder of the authorization shall maintain records of changes in the facility and of changes in procedures made pursuant to paragraph (a) of this section, to the extent that such changes constitute changes in the facility as described in the safety analysis report or constitute changes in procedures described in the safety analysis report. The holder of the authorization shall also maintain records of tests and experiments carried out pursuant to paragraph (a) of this section. These records shall include a written safety evaluation which provides the bases for the determination that the change, test or experiment does not involve an unreviewed safety question. The holder of the authorization shall furnish to the Commission, annually or at such shorter intervals as may be specified in the authorization, a report containing a brief description of such changes, tests and experiments, including a summary of the safety evaluation of each. Any report submitted by a holder of an authorization pursuant to this paragraph will be made a part of the public record of the authorization proceeding. In addition to a signed original 39 copies of each report shall be filed.

(c) The holder of an authorization who desires a change in technical specifications or who desires to make a change in the facility or the procedures described in the safety analysis report, or conduct tests or experiments not described in the safety analysis report, which involve an unreviewed safety question or a change in technical specifications, shall submit an application for amendment of his authorization pursuant to § 115.60.

6. Section 115.61 would be revised to read as follows:

§ 115.61 Issuance of amendment.

In determining whether an amendment to an authorization will be issued to the applicant, the Commission will be guided by the considerations which govern the issuance of authorizations, to the extent applicable and appropriate. If the application involves the material alteration of a nuclear reactor, a construction authorization will be issued prior to issuance of the amendment to the authorization. If the amendment involves a significant hazards consideration, the Commission will give notice of its proposed action pursuant to § 2.105 of this chapter before acting thereon. The notice will be issued as soon as practicable after the application has been docketed.

(Sec. 161, Pub. Law 83-703, 68 Stat. 948; 42 U.S.C. 2201. Interpret or apply secs. 2, 3, Pub. Law 87-615, 79 Stat. 409; 42 U.S.C. 2232, 2239.)

Dated at Germantown, Maryland this 16th day of August 1973.

For the Atomic Energy Commission.

PAUL C. BENDER,
Secretary of the Commission.

COST OF LIVING COUNCIL

[6 CFR Part 150]

STAGE B FOR FOOD

Notice of Proposed Rulemaking

INTRODUCTION

In Executive Order 11730, July 18, 1973, President Nixon directed that the freeze on food prices be removed in a two-stage process which would re-establish a flexible controls system. Stage A, which became effective on July 18, 1973, and which continues in effect until September 12, 1973, provides a means by which the food industry can charge prices above the general freeze or meat ceiling price levels in order to pass through on a dollar-for-dollar basis increases in costs of agricultural products.

V 38 - 164 AUG 24 73 XUM

Stage B, which is to become effective on September 12, 1973, will complete the transition of the food industry from Phase III to Phase IV of the Economic Stabilization Program. The freeze on beef prices also ends on September 12, 1973.

The purpose of this notice of proposed rulemaking is to elicit public comment on the Cost of Living Council's proposed "Stage B" price rules for the food industry. These are set forth in a proposed Subpart Q to the Phase IV regulations. Interested persons are invited to participate by submitting written data, views, or comments with respect to the proposed regulations set forth in this notice to the Executive Secretariat, Cost of Living Council, 2000 M Street, NW., Washington, D.C. 20508. Submissions should be identified with the designation "Stage B Food Regulations" and comments should be organized either on a section-by-section or issue-by-issue basis, with only one section or issue discussed on a page. At least 10 copies should be submitted. All comments received by noon on September 4, 1973, will be considered by the Council before taking final action on the proposed regulations, and the proposed regulations may be changed in light of the comments received. All comments received in response to this notice will be available for examination and copying by interested persons during the hours 9:00 a.m. to 5:00 p.m., Monday through Friday, at the Council's Press Room at the above address.

In promulgating the "Stage A" food regulations, the Council stated that on September 12, 1973, the food industry will become subject to regulations similar to the Phase IV controls applied to the wholesale, retail, service and industrial sectors. The proposed "Stage B" food regulations as set forth herein are essentially the same as the Phase IV regulations now in effect, except that a gross margin rule is proposed for the food manufacturing sector. This rule and other significant differences are outlined below.

Food Wholesaling and Retailing

With respect to food wholesaling and food retailing, the proposed regulations adopt the Phase IV, Subpart K regulations applicable to wholesaling and retailing. (Subpart K essentially permits a firm to apply the customary initial percentage markup (category basis) to cost of goods sold, or to realize a percentage gross margin (category basis) on cost of goods sold, which does not exceed the base period markup or margin. The profit margin rules apply if a price above the adjusted freeze price is charged.) However, firms engaged in food retailing are provided the option under the proposed regulations of choosing either one of the last two fiscal years which ended prior to February 5, 1973, for purposes of establishing a pricing base period. The Subpart K option with respect to the pricing base period is restricted to the last fiscal year ending prior to February 5, 1973, or the last four fiscal quarters ending prior to February 5, 1973. This modification is proposed in view of the exceptionally low level of profitability which prevailed in 1972 among food retailers.

In addition, the proposed regulations redefine "adjusted freeze price" for purposes of food wholesaling and food retailing to take into account prices charged in excess of the freeze price pursuant to the "Stage A" rules.

Food Service Activities

Food service activities are made subject to Subpart E of the Phase IV regulations ("Manufacturing and Service Activities"). This will permit dollar-for-dollar passthrough of all net allowable cost increases, including not only increases in cost of raw agricultural products but also increases in cost of labor and other costs.

Firms engaged in food service activities are permitted under the proposed regulations to compute an "adjusted freeze price" which takes into account prices charged in excess of the freeze price pursuant to the "Stage A" rules.

The proposed regulations waive the prenotification requirement with respect to food service activities. There are only a handful of price category I food service organizations, and the Phase IV rules (unlike those in Phase II) require all price category I firms to report their price increases on a quarterly basis. Moreover, the large restaurant and "fast food" chains, although classified as food service organizations, have some of the characteristics of a retail business, and retail activities have never been subject to prenotification requirements.

Food Manufacturing

Food manufacturing activities are subject under the proposed regulations to a gross margin rule with respect to food raw materials on a product line basis. This is similar to the gross margin rule to which firms engaged in the slaughtering and processing of livestock or the manufacturing of meat items were subject under § 130.57(d) of the Phase III rules prior to July 18, 1973. Cost increases with respect to costs other than food raw material costs are subject to prenotification and cost-justification.

Under the gross margin rule, increases and decreases in food raw material costs (costs which often fluctuate more than others) can be passed through on a dollar-for-dollar basis without the need for prenotification and "volatile" pricing authorization. Pricing is controlled not on the basis of the base price of a unit plus cost but on the basis of total revenues for the product line concerned in the current month. Total revenues may not exceed an amount derived under a formula which takes into account (1) the food raw material costs during the current month, (2) the base period gross margin rate (revenues less food raw material costs divided by volume) at the volume of food raw material units during the current month, and (3) the net allowable cost increases with respect to costs other than food raw material costs during the current month on a dollar-for-dollar basis.

The base period for gross margin purposes remains the same for meat manufacturers as in Phase III—any four consecutive fiscal quarters which began after May 25, 1970, and which ended prior to May 11, 1973. For other food manufacturers, the base period is any four consecutive fiscal quarters of the eight fiscal quarters which ended prior to September 12, 1973. However, for purposes of measuring net increases in allowable costs other than food raw material costs the base cost period is the quarter which next follows the four consecutive quarters selected by the firm concerned for gross margin purposes.

Increases in costs other than food raw materials costs are subject to prenotification (price category I firms only) and the rules contained in Subpart E of the Phase IV regulations. The profit margin rule applies when any price is charged which exceeds the adjusted freeze price, but the adjusted freeze price is computed in such a way as to take into account prices charged in excess of the freeze price pursuant to the "Stage A" rules.

Compliance with the gross margin rule is tested on a monthly basis after submission of an initial report which determines the base period gross margin for each product line involved, whether an input or output basis was used, which four consecutive fiscal quarters were selected for the base period and other information.

The maximum permissible sales revenues under the gross margin formula may be exceeded only if the firm concerned can demonstrate, to the satisfaction of the Council, that the excess is justified on the basis of seasonal patterns or is attributable to revenues derived from the sale of exempt items or from allowable prices under certain contracts as provided in § 150.76 of the Phase IV regulations. An exception may be requested if an excess results from unforseen change in product mix.

A firm which derives both less than 20 percent of its annual sales or revenues from food manufacturing and less than $50 million of annual sales or revenues from food manufacturing may elect to price with respect to food manufacturing activities entirely in accordance with the Subpart E rules or under the proposed gross margin rule.

The proposed regulations also republish the Phase II rules respecting regulated milk and milk products. Those rules are modified, however, to apply the gross margin concept of control. Similarly, the rules for marketing cooperatives and market risk-sharing transactions are made subject to the gross margin control under the proposed regulations.

In consideration of the foregoing, it is proposed to amend Part 150 of Title 6, Code of Federal Regulations, as set forth below, effective 11:59 p.m., e.s.t., September 11, 1973.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92–210, 85 Stat. 743; Pub. L. 93–28, 87 Stat. 27; E.O. 11695, 38 FR 1473; E.O. 11730, 38 FR 19345; Cost of Living Council Order No. 14; 38 FR 1489)

Issued in Washington, D.C., on August 22, 1973.

JOHN T. DUNLOP,
Director, Cost of Living Council.

1. The table of sections is amended by adding the following items regarding Subpart Q:

Subpart Q—Food Industry

Sec.
150.601 Purpose and scope.
150.602 Applicability.
150.603 Definitions.
150.604 Food wholesaling and retailing.
150.605 Food service activities.
150.606 Food manufacturing: Gross margin for food raw materials.
150.607 Food manufacturing: Other pricing rules.
150.608 Regulated milk and milk products.
150.609 Marketing cooperatives and market risk-sharing transactions.

2. The part is amended by adding a new Subpart Q to read as follows:

Subpart Q—Food Industry

§ 150.601 Purpose and scope.

This subpart provides the "Stage B" price rules whereby the food industry completes the transition from Phase III to Phase IV of the Economic Stabilization Program. This subpart supersedes Subparts F and M of Part 130 and Subpart I of Part 140 of this title effective 11:59 p.m., e.s.t., September 11, 1973. To the extent that this subpart may be inconsistent with any other provisions of this part, the provisions of this subpart govern.

§ 150.602 Applicability.

This subpart applies to all firms engaged in food manufacturing, food service activities, food wholesaling and food retailing.

§ 150.603 Definitions.

For purposes of this subpart—

"Adjusted freeze price" means:

(1) With respect to food subject to Subpart I of Part 140, the adjusted freeze price as defined in Subpart E of this part, except that in the case of an item priced in excess of the freeze price of that item pursuant to the Stage A rules for food provided in Part 140 of this chapter, the adjusted freeze price of that item is the last price lawfully charged for that item prior to the effective date of this subpart; or

(2) With respect to meat subject to Subpart M of Part 130:

(a) The ceiling price as defined in § 130.123 of this chapter;

(b) In the case of an imported meat item priced in accordance with § 130.121 (b) of this chapter, the highest price lawfully charged for that item before September 12, 1973;

(c) In the case of a meat item priced in accordance with § 130.127 or § 130.128 of this chapter, the highest price lawfully charged for that item before September 12, 1973; and

(d) In the case of a meat item priced in accordance with an exception granted pursuant to the provisions of Part 130 of this chapter, the highest price lawfully charged for that item before September 12, 1973.

"Base period" means:

(1) With respect to the slaughtering and processing of livestock or the manufacturing of meat products, any four consecutive fiscal quarters, at the option of the firm concerned, which began after May 25, 1970, and which ended prior to May 11, 1973; and

(2) With respect to all other food manufacturing activities, any four consecutive fiscal quarters, at the option of the firm concerned, of the eight fiscal quarters which ended prior to September 12, 1973.

"Base period conversion cost rate" means the difference between (1) total sales revenues for a product line during the base period and (2) the total food raw material costs plus the operating profit for that product lined during the base period, divided by the volume of food raw material units for that product line during the base period. This computation is illustrated by the following equation:

$$B = \frac{R - (P + M)}{V}$$

Where
B = base period conversion cost rate.
R = total sales revenues during the base period.
M = food raw material costs during the base period.
P = operating profit during the base period.
V = volume of food raw material units during the base period.

"Base period gross margin rate" means the total operating profit for the product line concerned during the base period divided by the volume of food raw material units during the base period.

"Conversion costs" means total sales revenues less the sum of operating profit and food raw material costs.

"Conversion cost increase" means the difference between the conversion costs during the base cost period (as defined in § 150.607(b)(2)) and the conversion costs in the current cost period (as defined in Subpart G of this part), expressed as a percentage of the conversion costs in the base cost period.

"Food" means (1) items which are manufactured for human or animal ingestion except alcoholic beverages, tobacco products, or drugs, and

(2) Items which are not manufactured for human or animal ingestion but which as byproducts of food raw materials are required by this section to be treated as food for purposes of this section.

"Food manufacturing" means the trade or business of preparing, processing, making, fabricating or assembling a food item by manual labor or machinery for sale and includes the slaughtering and processing of livestock.

"Food raw material" means, in the form in which they are received, raw, semi-processed or processed agricultural and marine products, including crops, livestock, poultry and catch from fresh water and the sea, and other edible products such as flavorings and preservatives, which are incorporated into the food item concerned.

"Food raw material costs" means the dollar amount, calculated in accordance with the customary accounting practice of the firm with respect to the product line concerned, derived from adding the total cost of inventory of food raw material on the first day of the period concerned and the total cost of food raw material purchased during that period, and subtracting from that sum the total cost of food raw material remaining in inventory of the first day after the period concerned.

"Food raw material units" means, at the option of the firm concerned and calculated in accordance with its customary accounting practice, either:

(1) The total units of food raw material in inventory on the first day of the period concerned, plus the total units of food raw material purchased during the period concerned, less the total units of food raw material remaining in inventory on the first day after the period concerned (input basis); or

(2) The total units of food sold during the period concerned (output basis).

"Meat" means food of the following description:

(1) Any "Meat", as defined in 9 CFR 301.2(tt); and

(2) Any "Meat byproduct", as defined in 9 CFR 301.2(uu); and

(3) Any "Meat food product", as defined in 9 CFR 301.2(vv).

"Product line" means (1) with respect to the slaughtering and processing of livestock or the manufacturing of meat products, (i) a product or (ii) an aggregation of products categorized by a four-digit Standard Industrial Classification (SIC) code if that is the customary pricing unit (e.g., cost or profit center) with respect to that aggregation of products. An aggregation of products which includes more than one four-digit SIC code or an aggregation of products of less than one four-digit SIC code may be used provided the level of aggregation reflects the entity's customary pricing unit (e.g., cost or profit center) with respect to that level of aggregation chosen.

(2) With respect to all other food manufacturing activities (i) a product or (ii) an aggregation of products categorized by a four-digit Standard Industrial Classification (SIC) code if that is the customary pricing unit (e.g., cost or profit center) with respect to that aggregation of products. An aggregation of products of less than one four-digit SIC code (but not more than one four-digit SIC code) may be used provided the level of aggregation reflects the customary pricing unit (e.g., cost or profit center) with respect to that level of aggregation chosen.

"Total sales revenues" means the aggregate revenue from the sale of food.

V 38 - 164
AUG 24 73
XUM

§ 150.604 Food wholesaling and retailing.

(a) *General Rule.*—Except as provided in paragraph (b) of this section, Subpart K of this part applies to the wholesaling and retailing activities of firms subject to this subpart.

(b) *Subpart K modifications.*—(1) A firm engaged in food retailing and which derives 75 percent or more of its annual sales or revenues from retail food sales may, at its option, use as a pricing base period either one of the last two fiscal years which ended prior to February 5, 1973, and may apply the pricing base period chosen to both its food and nonfood retail activities.

(2) "Adjusted freeze price" means adjusted freeze price as defined in § 150.603.

§ 150.605 Food service activities.

(a) *General rule.*—Except as provided in paragraph (b) of this section, Subpart E of this part applies to the food service activities of firms subject to this subpart.

(b) *Subpart E modifications.*—"Adjusted freeze price" means adjusted freeze price as defined in § 150.603 of this subpart.

(c) *Prenotification.*—Section 150.151 does not apply with respect to the food service activities of firms subject to this subpart.

§ 150.606 Food manufacturing: Gross margin for food raw materials.

(a) *Purpose and scope.*—The purpose of this section is to apply to food manufacturing activities, on a product line basis, a gross margin rule of the type previously applicable only to firms engaged in the slaughtering and processing of livestock or the manufacturing of meat items. Except as provided in paragraph (b) of this section, the gross margin rule is applicable with respect to all food manufacturing activities. Under the gross margin rule, increases and decreases in food raw material costs (costs which generally fluctuate significantly) can be passed through on a dollar-for-dollar basis without prenotification and without "volatile" pricing authorization. Price increases to recover net allowable increases in costs other than food raw material costs are subject to Subpart E of this part as modified by § 150.607.

(b) *Applicability.*—This section applies to the food manufacturing activities of all firms, except that a firm which both derives less than 20 percent of its annual sales or revenues from food manufacturing and less than $50 million of annual sales or revenue from food manufacturing may elect to price with respect to its food manufacturing activities in accordance with this section or in accordance with Subpart E of this part. A firm engaged in food manufacturing which also produces non-food by-products of food raw materials, such as leather, tallow, and industrial oils, shall treat those by-products as food items for purposes of this section.

(c) *Gross margin rules.*—(1) Except as provided in paragraph (c)(2) of this section, any price may be charged with respect to any item as long as total sales revenues for a product line for any accounting month ending after September 11, 1973, do not exceed the amount derived by (i) multiplying the base period conversion cost rate for that product line by the volume of food raw material units for that product line in the accounting month concerned; (ii) multiplying the product in (i) by the conversion cost increase for that product line plus 100 percent and (iii) adding to the product in (ii) the food raw material costs for that product line in the accounting month concerned plus the base period gross margin rate for that product line times the volume of food raw material units for that product line in the accounting month concerned. This computation is illustrated by the following equation:

$$R=(B\times V)\ (C+100\%)+M+(P\times V)$$

Where

R = total sales revenues for the accounting month concerned
B = base period conversion cost rate
V = volume of food raw material units during the accounting month concerned
C = conversion cost increase
M = food raw material costs during the accounting month concerned
P = base period gross margin rate

(2)(i) Sales revenues for any accounting month may exceed the total sales revenues calculated in accordance with paragraph (c)(1) of this section only if the firm concerned demonstrates, to the satisfaction of the Council, that the excess is justified on the basis of seasonal patterns or is attributable to revenues derived from the sale of exempt items or from allowable prices pursuant to § 150.76.

(ii) Total sales revenues in any product line in the accounting month which includes September 11, 1973, may exceed the amount specified in paragraph (c)(1) of this section. However, total sales revenues in any product line in the next succeeding accounting month may not exceed the amount specified in paragraph (c)(1) of this section less the amount of revenue excess experienced in the accounting month which includes September 11, 1973, which is not justifiable on the basis of seasonal patterns or attributable to revenues derived from the sale of exempt items or from allowable prices pursuant to § 150.76.

(3)(i) Notwithstanding paragraph (c)(1) and (2) of this section, a firm subject to this section which charges a price for any item in excess of the adjusted freeze price for that item may not, for the fiscal year in which that price in excess of the adjusted freeze price is charged, exceed its base period profit margin as defined in § 150.31.

(ii) The Council shall excuse a profit margin excess for any fiscal year to the extent that the firm concerned demonstrates, to the satisfaction of the Council, that the excess is attributable to the sale of exempt items or to the charging of allowable prices pursuant to § 150.76.

(4)(i) Food raw material purchased and resold without change in form may be excluded in computing the base period conversion cost rate. Food raw material purchased and resold without change in form shall be excluded in computing food raw material units and food raw material costs for any accounting month ending after September 11, 1973.

(ii) The cost of freight and insurance in connection with the purchase of food raw material ("freight-in") may either be included in or excluded from food raw material costs during the base period but the treatment of "freight-in" shall be consistent as between the base period and each accounting month ending after September 11, 1973. The cost of freight and insurance in connection with food sales ("freight-out") may either be included in or excluded from food sales revenues during the base period but the treatment of "freight-out" shall be consistent as between the base period and each accounting month ending after September 11, 1973.

(iii) A firm which uses the futures markets in a non-speculative manner to hedge against price risks may include as a food raw material cost during the base period any net loss as a result of non-speculative hedging activities with respect to the food raw material concerned during the base period, and may include as an offset to food raw material costs any net gain as a result of non-speculative hedging activities with respect to the food raw material concerned during the base period. Similarly, any net hedging losses by that firm with respect to food markets during the base period may be included as an offset to total sales revenues during the base period and any net hedging gains by that firm with respect to food markets during the base period may be included in total sales revenues during the base period. However, a firm which includes any net loss pursuant to the preceding two sentences shall include as an offset any net gain as a result of non-speculative hedging activities in accordance with the preceding two sentences. Any net hedging losses with respect to the food raw material concerned during the accounting month concerned may be included as a food raw material cost for the fiscal quarter concerned and any net hedging gains with respect to the food raw material concerned during the accounting month concerned shall be included as an offset to food raw material costs for the fiscal quarter concerned. Any net hedging losses with respect to the food market concerned during the accounting month concerned may be included as a food raw material cost for the accounting month concerned and any net hedging gains with respect to the food market concerned during the accounting month concerned shall be included as an offset to food raw material costs for the accounting month concerned.

(5) For purposes of the gross margin rule, the base period with respect to a new product line shall be the accounting month following the month in which the first sale occurs. The gross margin rules of this section apply with respect to that new product line beginning with the first day after the base period. However, if a firm acquires another firm, the base period conversion cost rate established by the acquired firm with respect to each of its product lines shall remain the base period conversion cost rate of each of those product lines and the gross margin rules of paragraph (c) of this section apply with respect to each of those product lines immediately upon acquisition.

(d) *Options and business practices.*—(1) The exercise of the options with regard to the use of the gross margin rule, the determination of the base period, the exclusion of certain food raw materials in the computation of the base period conversion cost rate, and the method of calculating food raw material units shall be made as follows:

(i) In the case of a price category I or II firm, the option selected in each case shall be set forth in the initial report submitted to the Council pursuant to paragraph (e) of this section; and

(ii) In the case of a price category III firm, the option selected in each case shall be recorded in a document placed among the firm's records.

No change in the exercise of any of these options may be made without the prior written approval of the Council or the Internal Revenue Service.

(2) Any calculations made pursuant to this section must be reconciled with any change in customary business practices adopted and implemented by the firm.

(e) *Reporting and recordkeeping.* (1) *Initial report.*—Each price category I and II firm to which this section applies shall submit to the Cost of Living Council within 15 days of the effective date of this section an initial report which provides the following information:

(i) A description of the product lines of the firm and related four-digit SIC codes;

(ii) Information which demonstrates how the gross margin was calculated for each product line;

(iii) A statement as to whether an input or output basis was used in calculating food raw material costs;

(iv) The nature of the food raw materials included in the computation of each base period conversion cost rate;

(v) The four consecutive fiscal quarters selected for the base period;

(vi) A statement as to whether certain food raw materials were excluded from the computation of each base period conversion cost rate pursuant to paragraph (c)(4)(i) of this section.

(2) *Monthly report.*—Each price category I and II firm to which this section applies shall submit monthly reports with information on costs, sales and profits in accordance with forms and instructions issued by the Council. A monthly report shall be submitted within 30 days after the close of each accounting month.

(3) *Recordkeeping.*—Each price category III firm to which this section applies shall prepare and maintain at its principal place of business sufficient records to determine compliance with this section.

§ 150.607 Food manufacturing: Other pricing rules.

(a) *General rule.*—Except as provided in paragraphs (b) and (c) of this section and in § 150.606, Subpart E of this part applies to the manufacturing activities of firms subject to this section.

(b) *Subpart E modifications for firms using gross margin rules.*—(1) Food raw materials may not be used as allowable costs for purposes of price adjustments pursuant to Subpart E of this part.

(2) The base cost period is the next succeeding fiscal quarter following the base period as defined in § 150.603 in which costs other than food raw materials costs were incurred with respect to the product line concerned. The base cost period with respect to a new product is the fiscal quarter for which the new product concerned was first sold in arms-length trading between unrelated persons.

(3) Calculation of costs other than food raw material costs shall be made on the same basis (input or output) used in calculating food raw material units pursuant to § 150.603.

(4) "Product" is a product line as defined in § 150.603.

(5) The price of an item which qualifies as a "new product" pursuant to § 150.103, or as "custom product" pursuant to § 150.104, shall be determined in accordance with the rules for determining base price provided in those sections, subject to the limitation that the total sales revenues for the product line within which the new product or custom product falls may not, for any accounting month, exceed the amount prescribed under the gross margin rules in § 150.606(c).

(6) "Adjusted freeze price" means adjusted freeze price as defined in § 150.603.

(c) *Subpart E modifications for other firms.*—Subpart E of this title applies with respect to the food manufacturing activities of firms which elect pursuant to § 150.606(b) to price in accordance with that subpart, except that "adjusted freeze price" means adjusted freeze price as defined in § 150.603.

§ 150.608 Regulated milk and milk products.

(a) *Definitions.*—For purposes of this section:

"Regulated milk and milk products" means milk and milk products with respect to which the minimum price is established or the minimum and maximum prices are established by a regulatory agency.

"Regulatory agency" means any commission, board, or other legal body established in any State or the District of Columbia, which has jurisdiction to order increases, or reductions, or both, in the prices charged for fluid milk and milk products.

"Milk and milk products" includes fluid milk (other than raw milk), low-fat milk, nonfat (skim) milk, buttermilk, cream, half-and-half, chocolate milk, and cottage cheese.

"Regulated seller of milk and milk products" means any seller of milk and milk products whose minimum selling prices are fixed by a regulatory agency and includes a firm engaged in processing, distributing, wholesaling, or retailing.

(b) *General rule.*—Notwithstanding any other provision of this part, but subject to paragraph (c) of this section, a regulated seller of milk and milk products may charge any price with respect to any item if that price has been approved as a minimum price by a regulatory agency. A regulated seller of a fluid milk and milk products which is a prenotification firm, whose minimum prices for such products to its customers are established by that regulatory agency, may sell milk and milk products at the minimums so established without prenotifying.

(c) *Report by regulatory agency.*—A regulatory agency which establishes minimum prices for sellers of milk and milk products must furnish to the Council at least 15 days before the proposed increases are to be effective—

(1) A statement of the types of price increases subject to its jurisdiction and generally describing the method used for establishing prices;

(2) A certification as to each price increase it approves (in the order granting the increase or in a separate document) of the following:

(i) The former price, the date is was established, the new price, the percentage increase, and the proposed effective date of the new price;

(ii) That the increase is the minimum required to assure a continued, adequate supply of pure and wholesome milk and milk products; and

(iii) That, excluding price increases paid for raw milk (which is exempt from this title) and partially processed products made therefrom, the increases established by the regulatory agency will not result in total sales revenues which exceed the amount permitted under § 150.606(c).

(d) *Industry averages.*—If a price increase by the regulatory agency is premised on cost or other data compiled on the basis of industry averages or samples of the industry which it regulates, compliance with § 150.606(c) may be based on that industry data. However, the Council reserves the right to require the regulatory agency to submit, or to require any regulated seller of milk and milk products to provide, any additional information that the Council considers relevant, including requesting the regulatory agency to obtain from the industry or the same sample on which its increases were predicated, the following information:

(1) For processors—the base period profit margin and the profit margin in a period reflecting the new prices; or

(2) For wholesalers or retailers—the customary initial percentage markup applied during the pricing base period; the percentage markup reflected by the allowed price increases; the gross margin realized during the pricing base period; the gross margin realized by the allowed price increases; the profit margin in the

V 38 - 164 AUG 24 73 XUM

base period, and the profit margin in the period reflecting the new prices.

(e) *Effective date of price increases.*—At any time within 10 days after receiving a report under paragraph (c) of this section the Council may take any action provided in paragraph (f) of this section, or it may take no action in which case the price increases permitted by this section may become effective on the date specified in the regulatory agency order.

(f) *Council actions.*—With respect to any price increase permitted by this section, the Council may—

(1) Require the regulatory agency to furnish additional information concerning the increase;

(2) Delay the effective date of the increase pending further Council action, but not for longer than 15 days after receiving the additional information requested under paragraph (f)(1) of this section;

(3) Suspend all or part of the increase pending further action by the Council or the regulatory agency; or

(4) Approve, reject, limit, rescind, reduce, or modify the increase.

§ 150.609 Marketing cooperatives and market risk-sharing transactions.

(a) A marketing cooperative as defined in § 150.204(b) is subject to the operations of the gross margin rule in § 150.605 with respect to its food manufacturing activities. For purposes of computing food raw material costs, marketing cooperatives shall use the imputed allowable costs determined in accordance with § 150.204(d).

(b) Firms which are engaged in market risksharing transactions as defined in § 150.204(b), and which are not otherwise marketing cooperatives as defined in § 150.204(b) shall treat such transactions as a separate product line. For purposes of computing raw material costs, such firms shall use the imputed allowable costs determined in accordance with § 150.204(d).

FEDERAL RESERVE SYSTEM

[12 CFR Part 225]

[Reg. Y]

BANK HOLDING COMPANIES

Application To Acquire Company Engaged in the Operation of a Savings and Loan Association and Possible Rulemaking With Respect Thereto

The Board of Governors has received the following application filed pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)) for prior approval to acquire shares of a company engaged in the operation of a savings and loan association:

American Fletcher Corporation, Indianapolis, Indiana, has applied to acquire voting shares of Southwest Savings and Loan Association, Phoenix, Arizona.

The activity of operating a savings and loan association has not heretofore been found by the Board to be closely related to banking. Applicant states that the proposed activity essentially involves the receipt of deposits and extension of credit, and is, in Applicant's opinion, closely related to banking. The Board therefore publishes this notice pursuant to § 225.4(a) of Regulation Y.

In connection with this application, the Board will also consider possible rulemaking to add the proposed activity to the list of activities the Board has previously determined to be closely related to banking. In its deliberations on the activity proposed in the present application and the proposed rulemaking related thereto, the Board will also consider possible imposition of certain restrictions and requirements upon bank holding company entry into the proposed activity. Among the possible restrictions and requirements the Board will consider are that: (1) the proposed subsidiary may not operate in any geographic market in which any banking subsidiary of the holding company system of which it would be a member operates and (2) a bank holding company would not be permitted to operate more than one savings and loan association.

Interested persons may express their views on the question of whether the operation of a savings and loan association is so closely related to banking or managing or controlling banks as to be a proper incident thereto, and on the restrictions which are being considered in connection with the proposed activity and on any other appropriate restrictions.

Interested persons may also express their views on the question of whether consummation of the subject proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices."

In order to explore these issues, the Board has directed that an oral presentation be held before available members of the Board in the Board Room of its building on 20th Street and Constitution Avenue, NW., Washington, D.C. commencing at 10:00 a.m. on October 30, 1973. Interested persons are invited to participate by presenting their views on all issues raised by the pending proposal. Interested persons need not participate in the oral presentation to have their views considered, and may do so by written comment. Written comments as they are received will be made available for inspection and copying in Room 1020 of the Board's building, 20th Street and Constitution Avenue, NW., Washington, D.C. The application may be inspected and copied at the offices of the Board of Governors or at any of the Federal Reserve Banks.

Any requests to participate orally in the hearing should be submitted in writing accompanied, if possible, by a brief summary of the proposed testimony, and should be received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than October 1, 1973. Each person orally participating in the hearing would normally be expected to limit their presentation to thirty minutes. Anyone wishing to submit written comments on this matter, on testimony received at the oral presentation, or on other comments received by the Board may do so at any time before the close of business November 30, 1973.

By order of the Board of Governors, effective August 20, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

SMALL BUSINESS ADMINISTRATION

[13 CFR Part 121]

SMALL BUSINESS SIZE STANDARDS

Definitions of Small Business for Services Including Services Requiring Use of Helicopters or Fixed Wing Aircraft

In the following notice, the Small Business Administration proposes to revise the definitions of a small business applicable to services for which no specific definition is provided, so as to make such definitions applicable to any service not elsewhere defined, rather than being applicable only to services set forth in Division I, *Services*, of the Standard Industrial Classification Manual. It also proposes to establish a $1.5 million average annual receipts size standard for the purpose of Government procurements for services requiring the utilization of helicopters or fixed wing aircraft.

For several years the definition, in § 121.3-8(e) of the Small Business Size Standards Regulation (Part 121 of Chapter I of Title 13 of the Code of Federal Regulations), of a small business for the purpose of bidding on a Government contract for services not elsewhere defined in § 121.3-8(e), was considered to apply to any type of service for which no specific definition was set forth in the regulation. However, several months ago, the Small Business Size Appeals Board determined that the term "services" as used in § 121.3-8(e), applies only to services set forth in Division I, *Services*, of the Standard Industrial Classification Manual, prepared and published by the Office of Management and Budget, Executive Office of the President.

Many kinds of services procured by the Government are not classified in Division I. For example, agricultural, forestry and fishing services are classified in Division A, *Agriculture, Forestry and Fishing*, and transportation, communications, electric, gas and sanitary services are classified in Division E, *Transportation, Communications, Electric, Gas and Sanitary Services*. Since the Small Business Administration has no specific definition for most of these services, they are subject to the catch-all 500-employee size standard set forth in the first paragraph of § 121.3-8.

On May 20, 1971 the Small Business Administration published a notice in the FEDERAL REGISTER (36 FR 9144), that it proposed to establish a $1 million annual receipts procurement size standard for *SIC Industry No. 0851, Forestry Services*. During the period allowed for public comment, it was argued that $1 million in annual receipts was too low at least for the purpose of forestry services requiring the use of helicopters and fixed wing aircraft. Because of difficulty in obtaining data, we have had that issue under study for some time, but now have concluded that the proposed $1 million is too low for the purpose of forestry services requiring the use of helicopter or fixed wing aircraft. Further, we have concluded that procurement and SBA loan size standards also should be adopted for all the other services not presently covered by § 121.3-8(e) or elsewhere in § 121.3-8.

In view of the above, the notice published on May 30, 1971 is hereby rescinded and the following proposal made in lieu therefor:

It is hereby proposed to:

(1) Revise the first paragraph of § 121.3-8(e) of Part 121 of Chapter I of Title 13 of the Code of Federal Regulations to read as follows:

§ 121.3-8 Definition of small business for Government procurement.

* * * * *

(e) *Services.*—Any concern bidding on a contract for services (including but not limited to services set forth in Division I, *Services*, of the Standard Industrial Classification Manual) not elsewhere defined in this section, is classified as small if its average annual receipts for its preceding three (3) fiscal years do not exceed $1 million.

(2) Revise the first clause of § 121.3-10(d) to read as follows:

§ 121.3-10 Definition of small business for SBA loans.

* * * * *

(d) *Services.*—Any concern primarily engaged in a service industry (including but not limited to service industries set forth in Division I, *Services* of the Standard Industrial Classification Manual) is classified: * * *

(3) Adding new § 121.3-8(h) to read as follows:

§ 121.3-8 Definition of small business for Government procurement.

* * * * *

(h) *Services.*—Any concern bidding on a contract for services requiring the use of one or more helicopters or fixed wing aircraft is classified as small if its average annual receipts for its preceding three (3) fiscal years do not exceed $1.5 million.

Interested persons may file with the Small Business Administration by September 24, 1973, written statements of facts, opinions, or arguments concerning the proposal.

All correspondence shall be addressed to:

William L. Pellington, Director, Office of Industry Studies and Size Standards, Small Business Administration, 1441 L Street, NW., Washington, D.C. 20416.

Dated: July 11, 1973.

THOMAS S. KLEPPE,
Administrator.

DEPARTMENT OF AGRICULTURE

Rural Electrification Administration

[7 CFR Part 1701]

RURAL ELECTRIFICATION PROGRAM

Estimates of Borrowers Power Requirements

Notice is hereby given that, pursuant to the Rural Electrification Act as amended (7 U.S.C. 901 et seq.), REA proposes to revise REA Bulletin 120-1, Estimates of Consumption and Power Requirements. A general revision of this bulletin is contemplated to provide that all REA electrification borrowers shall be responsible for preparing and updating estimates of their future power requirements used for system planning and financing purposes. The bulletin will be retitled as "Development, Approval and Use of Power Requirement Studies."

Persons interested in the proposed revision of REA Bulletin 120-1 may submit written data, views or comments to the Power Survey Officer, Office of Assistant Administrator-Electric, Room 3861, South Building, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250, not later than September 24, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Power Survey Officer during regular business hours.

A copy of the proposed revision of REA Bulletin 120-1 may be secured in person or by mail from the Office of the Power Survey Officer.

A summary of the principal changes planned to be made in REA Bulletin 120-1 are as follows:

1. All REA electric borrowers and power-type groups are to be responsible for developing and maintaining up-to-date forecasts of estimated power requirements for their systems to be used for system planning and financing purposes. The estimates would be subject to REA approval.

2. Certifications of future kWh consumption for individual distribution borrowers will no longer be made by REA.

3. The borrowers' forecasts are to be revised and updated at least every three years instead of every two years.

4. Specific provision is made for coordination between the power-type organizations and their member distribution systems in the preparation of power requirements studies.

5. Specific guidelines and instructions for preparation and coordination of the power requirements studies by borrowers are included as part of the bulletin.

Dated: August 16, 1973.

GEORGE P. HERZOG,
Acting Administrator.

V 38-164 AUG 24 73 XUM

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Colony Hotel, 7730 Bonhomme Avenue, Clayton, Missouri, beginning at 9:00 a.m., central daylight time, on August 28, 1973, with respect to proposed amendments to the tentative marketing agreements and to the orders regulating the handling of milk in the aforelisted marketing areas to reflect appropriate Class I prices in light of economic and marketing conditions anticipated in the forthcoming fall and winter months.

The public hearing is for the purpose of receiving evidence with respect to the economic and emergency marketing conditions that relate to the appropriate level of Class I price to be established for the forthcoming fall and winter months under each of the aforesaid orders. Proponents of various price proposals, within the price range indicated by the proposals set forth below, point out that production throughout the country generally is progressively decreasing below the level of last year and, unless appropriate price adjustments are immediately initiated to provide assurance of returns sufficient to offset spiraling production costs, severe shortage in milk supplies will result.

Relevant to consideration of proposals for price increases at this time is the propriety of the operation of Class I base plans and other quota plans. Accordingly, evidence also will be received with respect to the need for discontinuance, at least temporarily, of: (1) the existing Class I base plans now provided under the Georgia order (No. 7) and Puget Sound order (No. 125), and (2) any base or quota plan, including any operated outside of the orders, that may limit milk production by individual dairy farmers.

In addition, evidence will be received with respect to prospective "premium" (overorder) pricing arrangements during the forthcoming fall and winter months in each of the markets being considered as they might affect market price levels in conjunction with any amendments that might result from this hearing.

Evidence also will be received on the question of whether the due and timely execution of the functions of the Secretary imperatively and unavoidably requires the omission of a recommended decision in conjunction with any emergency amendatory actions that may result with respect to any of the aforesaid orders.

Proposal No. 1 contemplates price adjustments for each of the markets effective with respect to September deliveries. Since the remaining time obviously does not allow for consummation of amendatory action by September 1, evidence will be received with respect to the propriety of suspension action to establish Class I prices on and after September 1 on a more current basis relative to advancing manufacturing milk prices.

The proposed amendments set forth below have not received the approval of the Secretary of Agriculture.

All orders.

Proposal No. 1.—Amend each of the respective orders to provide that prices currently being generated by the Minnesota-Wisconsin series shall be immediately applicable in determination of Class I prices.

Proposal No. 2.—Amend each of the respective orders to provide that the "late fall" basic formula price (Minnesota-Wisconsin pay price) shall be the minimum basic formula price for the period November 1973 through June 1974.

Proposal No. 3.—Amend each of the respective orders to increase the Class I price level within the range of $2.00 a hundredweight.

Proposal No. 4.—Delete during the period of any emergency price adjustment effected, Class I base plans now provided under the Georgia order (No. 7) and Puget Sound order (No. 125).

Proposal No. 5.—Make such changes as may be necessary to make the entire marketing agreements and the orders conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the orders may be procured from the Market Administrators of the respective orders, or from the Hearing Clerk, Room 112-A, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250, or may be there inspected.

Signed at Washington, D.C., on: August 23, 1973.

E. L. PETERSON,
Administrator,
Agricultural Marketing Service.

Notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF STATE

Agency for International Development

HOUSING GUARANTY PROGRAM FOR MOROCCO

Information for Investors

The Agency for International Development (AID) has advised the Government of Morocco (the Borrower), that upon execution by an eligible U.S. investor acceptable to AID of an agreement to loan the Borrower an amount not to exceed $10 million, and subject to the satisfaction of certain further terms and conditions by the Borrower, AID will guaranty repayment to the investor of the principal and interest on such loan. The guaranty will be backed by the full faith and credit of the United States of America and will be issued pursuant to authority contained in section 221 of the Foreign Assistance Act of 1961, as amended (the Act). Proceeds of the loan will be used to construct housing projects in Morocco.

Eligible investors interested in extending a guaranteed loan to the Borrower should communicate promptly with:

Mr. Abdelkrim Belkora
Economic Counselor
Embassy of Morocco
1601 21st St. NW.
Washington, D.C. 20009

Investors eligible to receive a guaranty are those specified in section 238(c) of the Act. They are: (1) U.S. citizens; (2) domestic corporations, partnerships, or associations substantially beneficially owned by U.S. citizens; (3) foreign corporations whose share capital is at least 95 percent owned by U.S. citizens; and (4) foreign partnerships or associations wholly owned by U.S. citizens.

The loan will be disbursed in approximately 36 months beginning on or about January 1, 1974. This disbursement schedule is approximate and will depend upon the progress of the housing projects.

To be eligible for a guaranty, the loan must be repayable in full no later than the 28th anniversary of the first disbursement of the principal amount thereof and the interest rate may be no higher than the maximum rate to be established by AID. AID will charge a guaranty fee equal to one-half of 1 percent per annum on the outstanding guaranteed principal amount of the loan.

Information as to eligibility of investors and other aspects of the AID housing guaranty program can be obtained from:

Director, Office of Housing, Agency for International Development, room 300E, SA-2, Washington, D.C. 20523.

This notice is not an offer by AID or by the Borrower. The Borrower and not AID will select a lender and negotiate the terms of the proposed loan.

Dated August 17, 1973.

DONALD A. GARDNER,
Acting Director of Housing,
Agency for International Development.

HOUSING GUARANTY PROGRAM FOR REPUBLIC OF NICARAGUA

Information for Investors

The Agency for International Development (AID) has advised Banco de la Vivienda de Nicaragua (the Borrower), an instrumentality of the Government of Nicaragua, that upon execution by an eligible U.S. investor acceptable to AID of an agreement to loan the Borrower an amount not to exceed $15 million, and subject to the satisfaction of certain further terms and conditions by the Borrower, AID will guaranty repayment to the investor of the principal and interest on such loan. The guaranty will be backed by the full faith and credit of the United States of America and will be issued pursuant to authority, contained in section 222 of the Foreign Assistance Act of 1961, as amended (the Act). Proceeds of the loan will be used to construct housing projects in Nicaragua.

Eligible investors interested in extending a guaranteed loan to the Borrower should communicate promptly with:

Mr. Fausto Zelaya
Presidente
Banco de la Vivienda de Nicaragua
Apartado No. 553
Managua, Nicaragua

Investors eligible to receive a guaranty are those specified in section 238(c) of the Act. They are: (1) U.S. citizens; (2) domestic corporations, partnerships, or associations substantially beneficially owned by U.S. citizens; (3) foreign corporations whose share capital is at least 95 percent owned by U.S. citizens; and (4) foreign partnerships or associations wholly owned by U.S. citizens.

The loan will be disbursed in approximately 30 months beginning on or about January 1, 1974. This disbursement schedule is approximate and will depend upon the progress of the housing projects.

To be eligible for a guaranty, the loan must be repayable in full no later than the 28th anniversary of the first disbursement of the principal amount thereof and the interest rate may be no higher than the maximum rate to be established by AID. AID will charge a guaranty fee equal to one-half of 1 percent per annum on the outstanding guaranteed principal amount of the loan.

Information as to eligibility of investors and other aspects of the AID housing guaranty program can be obtained from:

Director, Office of Housing, Agency for International Development, room 300E, SA-2, Washington, D.C. 20523.

This notice is not an offer by AID or by the Borrower. The Borrower and not AID will select a lender and negotiate the terms of the proposed loan.

Dated August 17, 1973.

PETER M. KIMM,
Director of Housing,
Agency for International Development.

Delegation of Authority

Pursuant to Delegation of Authority, No. 5, dated December 29, 1961, as amended by Delegation of Authority, No. 94, dated February 1, 1972, I hereby delegate to the individuals listed above with respect to the country of Indonesia the authority to review and approve documents and other evidence submitted by borrowers in satisfaction of conditions precedent to financing under loan agreements for Commodity Import Programs.

This Delegation of Authority is effective immediately and includes ratification of all acts taken prior hereto by the officials which are consistent with the terms and scope of this Delegation of Authority.

Dated July 31, 1973.

PAPERMAKING MACHINERY AND PARTS THEREOF FROM CANADA

Antidumping Proceeding Notice

On March 5, 1973, information was received in proper form pursuant to the provisions of §§ 153.26 and 153.27 of the Customs Regulations [19 CFR 153.26, 153.27] indicating a possibility that papermaking machinery and parts thereof from Canada, manufactured by or sold through a Canadian firm, are being, or

V 38 - 164 AUG 24 73 XUM

are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended [19 U.S.C. 160 *et seq.*].

For the purpose of this notice, the term "papermaking machinery and parts thereof" means an entire papermaking machine and the constituent components of a papermaking machine from and including the headbox to and including the reels. It refers to papermaking machinery and parts thereof purchased or agreed to be purchased as an entire papermaking machine.

There is evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Having conducted a summary investigation as required by § 153.29 of the Customs Regulations [19 CFR 153.29] and having determined as a result thereof that there are grounds for so doing, the U.S. Customs Service is instituting an inquiry to verify the information submitted and to obtain the facts necessary to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

A summary of information received from all sources is as follows:

The information received tends to indicate that the prices of the merchandise sold for exportation to the United States will be less than the home market prices or the constructed value as appropriate.

This notice is published pursuant to § 153.30 of the Customs Regulations [19 CFR 153.30].

[SEAL] EDWARD L. MORGAN,
Assistant Secretary of the Treasury.

8⅜ PERCENT TREASURY NOTES OF SERIES G–1975

Supplement to Department Circular

AUGUST 22, 1973.

In the matter of 8⅜ percent Treasury Notes of Series G–1975, dated and bearing interest from September 4, 1973 and due September 30, 1975.

Pursuant to the provision in Sec. I of Department Circular—Public Debt Series—No. 7–73, dated August 20, 1973, the Secretary of the Treasury announced on August 22, 1973, that the interest rate on the notes described in the circular will be 8⅜ percent per annum. Accordingly, the notes are hereby redesignated 8⅜ percent Treasury Notes of Series G–1975. Interest on the notes will be payable at the rate of 8⅜ percent per annum.

[SEAL] DAVID MOSSO,
Deputy Fiscal Assistant Secretary.

USAF SCIENTIFIC ADVISORY BOARD GUIDANCE AND CONTROL PANEL

Notice of Meeting

AUGUST 22, 1973.

The Scientific Advisory Board Guidance and Control Panel will hold closed meetings on August 29 and 30, 1973, from 9 a.m. until 9 p.m. The meeting on August 29 will be held at Trans World Airlines, Kansas City, Missouri. The meeting on August 30 will be held at American Airlines, Tulsa, Oklahoma.

The Panel will receive competition-sensitive information from the airlines on their experience with aircraft inertial systems.

For further information, contact the Scientific Advisory Board Secretariat at 202–697–4648.

ADVISORY GROUP ON ELECTRON DEVICES

Notice of Meetings

The Department of Defense Advisory Group on Electron Devices, and various working groups thereof, will meet in closed sessions at 201 Varick Street, New York, New York, on dates indicated below:

Advisory Group on Electron Devices	Sept. 11, 1973
Working Group on Special Devices	Sept. 11, 1973
Working Group on Passive Devices	Sept. 18, 1973
Working Group on Low Power Devices	Sept. 21, 1973
Working Group on High Power Devices	Sept. 26–27, 1973

The purpose of the DoD Advisory Group on Electron Devices is to provide the Director of Defense Research and Engineering and the Military Departments with advice and recommendations on the conduct of economical and effective research and development programs in the field of electron devices, e.g., lasers, radar tubes, transistors, infrared sensors, etc. The group is also the vehicle for interservice coordination of planned R&D efforts.

In accordance with Public Law 92–463, section 10d, the Director of Defense Research and Engineering has determined, on 28 Feb 1973, that the meetings of the Advisory Group are matters which fall within policies analogous to those recognized in section 552(b) of Title 5 of the United States Code and that the public interest requires such activities to be withheld from disclosure insofar as the requirements of subsection (a) (1) and subsection (b) of section 10, Public Law 92–463 are concerned.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD (Comptroller).

DEPARTMENT OF DEFENSE WAGE COMMITTEE

Notice of Closed Meetings

Pursuant to the provisions of section 10 of Public Law 92–463, effective January 5, 1973, notice is hereby given that meetings of the Department of Defense Wage Committee will be held on:

Tuesday, September 4, 1973
Tuesday, September 11, 1973
Tuesday, September 18, 1973
Tuesday, September 25, 1973

These meetings will convene at 9:30 a.m. and will be held in Room 1E–801, The Pentagon, Washington, D.C.

The Committee's primary responsibility is to consider and make recommendations to the Assistant Secretary of Defense (Manpower and Reserve Affairs) on all matters involved in the development and authorization of wage schedules for Federal prevailing rate employees pursuant to Public Law 92–392.

At these scheduled meetings, the Committee will consider wage survey specifications, wage survey data, local reports and recommendations, statistical analyses and proposed pay schedules derived therefrom.

Under the provisions of section 10(d) of Public Law 92–463 and 5 U.S.C. 552 (b) (2) and (4), the Assistant Secretary of Defense (Manpower and Reserve Affairs) has determined that these meetings will be closed to the public.

However, members of the public who may wish to do so, are invited to submit material in writing to the Chairman concerning matters felt to be deserving of the Committee's attention. Additional information concerning these meetings may be obtained by contacting the Chairman, Department of Defense Wage Committee, Room 3D–281, The Pentagon, Washington, D.C.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD (Comptroller).

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

PROPOSED CURECANTI-SHIPROCK NO. 2 230-KV TRANSMISSION LINE, COLORADO RIVER STORAGE PROJECT

Notice of Public Hearing Regarding Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, a draft environmental statement has been prepared for the proposed Curecanti-Shiprock No. 2 230-kv transmission line—a feature of the Colorado River Storage Project to be located in southwestern Colorado and northwestern New Mexico. The statement was filed with the Council on Environmental Quality on August 15, 1973, and is available to the public.

The draft environmental statement is available for public review in the Regional Office of the Bureau of Reclamation, Room 7223, Federal Building, 125 South State (P.O. Box 11568), Salt Lake City, Utah 84111; or at the CRSP Power Operations office, 1200 South Rio Grande (P.O. Box 1069), Montrose, Colorado 81401. Individual copies of the statement may also be obtained without charge by writing to the above offices.

The proposed transmission line would be approximately 152 miles in length, would have steel tower construction, and would essentially parallel the existing No. 1 line between the Curecanti and Shiprock Substations. It would provide additional electrical transmission facilities between these two substations when proposed generating plants at Hayden and Craig, Colorado, are completed.

A public hearing will be held in Montrose, Colorado, to receive comments relating to the draft environmental statement. The hearing will be held in the auditorium of the Colorado-Ute Electric Association on Woodgate Road (U.S. 550 South) beginning at 2:00 p.m. on September 25, 1973. The hearing will continue until all applicants have been heard that evening.

Interested individuals, representatives of organizations, and public officials desiring to testify at the hearing are requested to contact the Regional Director, Bureau of Reclamation, at the above address, or telephone 801–524–5592 before 4:30 p.m. September 21, 1973. Written comments from those unable to attend the hearing or those wishing to supplement their oral presentation at the hearing may be submitted to the Regional Director until October 8, 1973. Statements submitted in connection with the hearing will be included with the hearing transcript, but will not be included with comments submitted in direct review of the draft environmental statement and which are made a part of the environmental statement.

Oral testimony at the hearing will be limited to 10 minutes. Any person desiring additional time must secure prior approval. An oral statement, however, may be supplemented by a written statement which may be submitted to the hearing officer at the time of presentation of the oral statement or may be mailed to the Bureau of Reclamation as provided above. Each organization wishing to present testimony will be limited to one individual unless prior approval is obtained. Approval for additional time or witnesses must be obtained from the Regional Director. All such requests must be received prior to 4:30 p.m. September 21, 1973. To the extent that time is available after presentation of oral statements by those who have given advance notice, the hearing officer will give others present an opportunity to be heard.

After all the testimony and comments have been received and analyzed a final environmental statement will be prepared.

Dated August 21, 1973.

WARREN D. FAIRCHILD,
Acting Commissioner of Reclamation.

Office of the Secretary

[INT DES 73–45]

OUTER CONTINENTAL SHELF OFFSHORE CALIFORNIA

Public Hearings Regarding Proposed Development of the Santa Ynez Unit, Santa Barbara Channel

The public hearing which was announced in the FEDERAL REGISTER July 27, 1973, for 9 a.m. p.d.t. on August 28, 1973, in Santa Barbara for the purpose of receiving comments and suggestions relating to the proposed plan of development of the Santa Ynez Unit has been rescheduled by the Department of the Interior. The hearing as rescheduled will begin at 9 a.m. p.d.t. on October 2, 1973, in the Lobero Theater, 33 East Cannon Perdido, Santa Barbara, California. The hearing is now scheduled to extend through October 4, if necessary. Interested individuals, representatives of organizations, and public officials who wish to testify at the hearing are requested to so inform, in writing, the Area Oil and Gas Supervisor, U.S. Geological Survey, 7744 Federal Building, 300 North Los Angeles Street, Los Angeles, California 90012, by 4 p.m. p.d.t., September 21, 1973.

Time limitations make it necessary to limit the length of oral presentations to 10 minutes. Exceptions to this time limitation may be authorized for the proponent of the plan of development (for the purpose of fully explaining the proposal) and to other persons presenting testimony who represent more than one group or organization if a formal request is presented to the Area Oil and Gas Supervisor prior to 4 p.m. p.d.t., September 21, 1973. Oral testimony may be supplemented by a more complete written statement which may be submitted to the hearing officer at the time of presentation of the oral testimony. Written statements presented in person at the hearing and supplemental materials submitted by October 19, 1973, to the Director, U.S. Geological Survey, U.S. Department of the Interior, Washington, D.C. 20244, will be considered for inclusion in the hearing record. To the extent that time is available after presentation of oral testimony by those who have given advance notice, the hearing officer will give others present an opportunity to be heard.

Written comments from those unable to attend the hearing should be addressed to the Director, U.S. Geological Survey, U.S. Department of the Interior, Washington, D.C. 20244. The Department will accept written comments on the draft environmental impact statement until October 19, 1973. This will allow ample time for those unable to testify at the hearing to make their views known. Written comments on the draft environmental impact statement will be considered for inclusion in the final statement.

The hearing will provide the Department with additional information from both the public and private sectors to help evaluate fully the potential effects of the proposed development on the total environment, aquatic resources, aesthetics, recreation and other resources in the Santa Barbara Channel Area. The hearing will also provide the Department, under section 102(2)(C) of the National Environmental Policy Act of 1969, the opportunity to receive additional comments and views of interested State and local agencies.

After all testimony and comments have been received and analyzed, a final environmental statement will be prepared. The draft environmental statement, issued July 23, 1973, is available for public review in the following U.S. Geological Survey Public Inquiries Offices: Room 7638, Federal Building, 300 North Los Angeles Street, Los Angeles, California 90012; Room 504, Customs House, 555 Battery Street, San Francisco, California 94111; U.S. Geological Survey Library, 345 Middlefield Road, Menlo Park, California 94025; Room 1012, Federal Building, Denver, Colorado 80202; and U.S. Geological Survey, Map Information Office, Room 1040, GSA Building, 1800 F Street NW., Washington, D.C. 20244. The draft statement will also be available for public review at the Santa Barbara City library, Anapamu and Anacapa Streets, Santa Barbara, California.

Copies of the three-volume statement are available for purchase from the Los Angeles and Washington, D.C. offices at $5.00 per set.

Dated: August 22, 1973.

JOHN B. RIGG,
Deputy Assistant Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

[Amdt. 1]

SALES OF CERTAIN COMMODITIES

Monthly Sales List (Fiscal Year Ending June 30, 1974)

The CCC Monthly Sales List for the fiscal year ending June 30, 1974, published in 38 FR 19259, is amended as follows:

1. The second sentence of section 25 entitled "Rice, Rough—unrestricted use sales—FOB warehouse" is revised to read as follows:

The formula price for August 1973 is the 1973 loan rate plus 5 percent plus 12 cents per hundredweight.

2. The last sentence of section 1(b) entitled "General" is revised to read as follows:

Interest at 9 percent will be charged for delinquent payments on consignment and track grain sales from the date of sale to the date payment is received.

3. The fifth sentence of section 1(c) entitled "General" is revised to read as follows:

Interest to date of payment will be at 9 percent.

4. Sales items 1, 2, 3A, 3B, and 3C of section 32 entitled "Peanuts, shelled or farmers stock—restricted use sales" are revised and merged into two sales items which read as follows:

1. Shelled graded peanuts equal to or exceeding requirements of U.S. grades may be purchased for export without limitations on their use.

2. Farmers Stock: Segregation 1 may be purchased and milled to produce U.S. No. 1 or better grade shelled peanuts to be exported and the balance crushed domestically.

Effective date.—2:30 p.m., e.d.t., July 31, 1973.

Signed at Washington, D.C., on August 20, 1973.

GLENN A. WEIR,
Acting Executive Vice President, Commodity Credit Corporation.

[FR Doc.73-17967 Filed 8-23-73;8:45 am]

Rural Electrification Administration

ARKANSAS ELECTRIC COOPERATIVE CORPORATION

Negative Determination on Environmental Statement

Notice is hereby given that the Rural Electrification Administration (REA), in connection with the release of loan funds to Arkansas Electric Cooperative Corporation, 8000 Scott Hamilton Drive, Little Rock, Arkansas 72209, has determined that it will not be necessary to publish an environmental statement in accordance with section 102(2)(C) of the National Environmental Policy Act of 1969.

The release of loan funds will allow the borrower to install equipment at its existing Bailey Plant (Augusta, Arkansas) which consists of one 125 MW unit, necessary to store No. 6 fuel oil and burn such fuel oil during periods of curtailment of deliveries of natural gas. Arkansas Electric Cooperative Corporation has facilities to store and burn lighter grades of fuel oil and, due to recent efforts to conserve natural gas for domestic consumption, is utilizing fuel oil when its gas supply is curtailed. Availability and price differentials of No. 6 fuel oil, as compared to the lighter oil, necessitates the installation of equipment suitable for No. 6 fuel oil.

The Environmental Protection Agency has notified Arkansas Electric Cooperative Corporation by letter that the addition of equipment required to burn No. 6 oil will be considered a modification of an existing source. The Arkansas Pollution Control Commission has notified AECC that its plan is acceptable.

REA has concluded that its approval of the proposed action will not constitute a major Federal action having a significant effect upon the environment, and has determined that an Environmental Impact Statement is not required. Available loan funds for the necessary equipment will be released from Conditional Agreement on or after September 7, 1973.

Detailed information concerning this action is available for examination at the office of REA in the South Agriculture Building, 12th Street and Independence Avenue SW., Washington, D.C., in Room 4312.

Dated at Washington, D.C., August 10, 1973.

DAVID A. HAMIL,
Administrator, Rural Electrification Administration.

Domestic and International Business Administration

NATIONAL CANCER INSTITUTE, ET AL.

Consolidated Decision on Applications for Duty-Free Entry of Electron Microscopes

The following is a consolidated decision on applications for duty-free entry of electron microscopes pursuant to sec. 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.). (See especially § 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 73-00529-33-46040. APPLICANT: National Cancer Institute, NIH, Frederick Cancer Research Center, Fort Detrick, Frederick, Md. 21701. ARTICLE: Electron microscope, model HU-12A. MANUFACTURER: Hitachi, Ltd., Japan. INTENDED USE OF ARTICLE: The article is intended to be used in a study of the attachment of virus particles to specific site locations on the surface of cells. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: May 16, 1973. ADVICE SUBMITTED BY DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE ON: August 9, 1973.

Docket number: 73-00538-33-46040. APPLICANT: Veterans Administration, 109 Bee Street, Charleston, S.C. 29403. ARTICLE: Electron microscope, model HU-12A. MANUFACTURER: Hitachi, Ltd., Japan. INTENDED USE OF ARTICLE: The article is intended to be used in the study of renal fine structure in patients with acute glomerulonephritis, chronic sclerosing glomerulonephritis, membranous glomerulonephritis, lipid nephrosis, lupus erythematosus, diabetic glomerulosclerosis, amyloidosis and arteriolar nephrosclerosis. Liver tissue from patients who would normally be candidates for diagnostic biopsy will be studied by electron microscopy to determine the ultrastructural alterations in such diseases as cirrhosis, hepatitis, iron storage and hepatomas. These studies will also be compared to the light microscopic and physiological findings. In addition, the article will be used in the graduate level course Introduction to Electron Microscopy to teach the theory of electron optics, electron diffraction, use of bright and dark field electron microscopy, and high resolution electron microscopy. Cell Biology is the title of an undergraduate course that will be taught using this article in demonstration and laboratory practice. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: May 30, 1973. ADVICE SUBMITTED BY DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE ON: August 9, 1973.

Docket number: 73-00537-33-46040. APPLICANT: University of Iowa, Department of Ophthalmology, University Hospitals, Iowa City, Iowa 52242. ARTICLE: Electron microscope, model JEM 100B. MANUFACTURER: JEOL Ltd., Japan. INTENDED USE OF ARTICLE: The article is intended to be used in diversified studies of the ultrastructure of the eye and ocular adnexa. The interests are varied and include: anatomy (embryology, neuroanatomy), experimental and clinical pathology and microbiology (virology, mycology, immunology and bacteriology). The article will also be used by both faculty and residents in the department as well as qualified graduate and medical students engaged in research. Residents in ophthalmology wishing to obtain M. S. Degrees in ophthalmology will be instructed in the use of the electron microscope if their projects require this knowledge. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: May 25, 1973. ADVICE SUBMITTED BY DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE ON: August 9, 1973.

Docket number: 73-00539-33-46040. APPLICANT: University of Southern California, School of Medicine, 2025 Zonal Avenue, Los Angeles, Calif. 90033. ARTICLE: Electron microscope, model EM 301. MANUFACTURER: Philips Electronic Instruments NVD, The Netherlands. INTENDED USE OF ARTICLE: The article is intended to be used to investigate the ultrastructure of the liver cell intranuclear virus-like particles, the morphologic changes in the liver and the possible replication of the particles in both liver explants and tissue cultures of other cell lines. It will also be used to study the particles which can be isolated from serum and which we shall use for immunological studies.

In addition the article will be used to study tissues, both surgical and autopsy submitted to the histopathology laboratory for pathologic diagnosis. The article will also be used in the training of faculty, other staff members and graduate students in Applied Electron Microscopy. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: May 29, 1973. ADVICE SUBMITTED BY DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE ON: August 9, 1973. COMMENTS: No comments have been received in regard to any of the foregoing applications. DECISION: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for the purposes for which the articles are intended to be used, is being manufactured in the United States. REASONS: Each foreign article has a specified resolving capability of 3.0 Angstroms. The most closely comparable domestic instrument is the Model EMU-4C electron microscope which is manufactured by the Forgflo Corporation (Forgflo). The Model EMU-4C has a specified resolving capability of five Angstroms. (Resolving capability bears an inverse relationship to its numerical rating in Angstrom units, i.e., the lower the rating, the better the resolving capability.) We are advised by the Department of Health, Education, and Welfare in the respectively cited memoranda, that the additional resolving capability of the foreign articles is pertinent to the purposes for which each of the foreign articles to which the foregoing applications relate is intended to be used. We, therefore, find that the Forgflo Model EMU-4C is not of equivalent scientific value to any of the articles to which the foregoing applications relate, for such purposes as these articles are intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director, Special Import Programs Division.

[FR Doc.73-17975 Filed 8-23-73;8:45 am]

SUNY-DOWNSTATE MEDICAL CENTER

Decision on Application

The following is a decision on an application for duty-free entry of a scientific article pursuant to sec. 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 73-00456-33-46040. APPLICANT: State University of New York, Downstate Medical Center, 450 Clarkson Avenue, Brooklyn, N.Y. 11203. ARTICLE: Electron microscope, model HS-9. MANUFACTURER: Hitachi Perkin-Elmer, Japan. INTENDED USE OF ARTICLE: The article is intended to be used to teach medical students, interns and residents, faculty and research associates the principles of electron microscopy in biological research. The research interests include examination of tumor cells of blood; tumor cells of lung, bone-forming cells; embryonic development of the pancreas; secretion of insulin from specialized cells of the pancreas; and human biopsy tissue from a variety of sources. The article will also be used in formal courses in Electron Microscopy to medical students and graduate students and in the training of post-doctoral research associates and technicians in the use of techniques of electron microscopy.

COMMENTS: No comments have been received with respect to this application. DECISION: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article for such purposes as this article is intended to be used, is being manufactured in the United States.

REASONS: The applicant requires an electron microscope which is suitable for instruction in the basic principles of electron microscopy. The foreign article is a relatively simple, medium resolution electron microscope designed for confident use by beginning students with a minimum of detailed programing. The most closely comparable domestic instrument is the Model EMU-4C electron microscope manufactured by the Forgflo Corporation. The Model EMU-4C electron microscope is a relatively complex instrument designed for research, which requires a skilled electron microscopist for its operation. We are advised by the Department of Health, Education, and Welfare in its memorandum dated August 9, 1973, that the relative simplicity of design and ease of operation of the foreign article is pertinent to the applicant's educational purposes. We, therefore, find that the Model EMU-4C electron microscope is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

A. H. STUART,
Director, Special Import Programs Division.

UNIVERSITY OF CONNECTICUT HEALTH CENTER

Decision on Application

The following is a decision on an application for duty-free entry of a scientific article pursuant to sec. 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 73-00462-33-46040. APPLICANT: University of Connecticut Health Center, Route 4, Farmington, Conn. 06032. ARTICLE: Electron Microscope, Model EM-10. MANUFACTURER: Carl Zeiss, West Germany. INTENDED USE OF ARTICLE: The article is intended to be used for study of sections of biological materials, macromolecular aggregates isolated from cells or synthesized in cell free systems and freeze-etched material. Studies of the development of teeth, as well as the synthesis of collagen by cells both abnormal and normal in culture, and the structure of isolated bone cells are being conducted. In addition, the article is to be used for educational purposes by undergraduate students pursuing research during their free summers and on a limited basis during the school year, graduate students pursuing fulltime research, and in a course in electron microscope techniques offered to undergraduate students in medicine and dental medicine.

COMMENTS: No comments have been received with respect to this application. DECISION: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. REASONS: The foreign article has a specified resolving capability of 3.5 Angstroms. The most closely comparable domestic instrument is the Model EMU-4C electron microscope manufactured by the Forgflo Corporation. The Model EMU-4C has a specified resolving capability of 5 Angstroms. (The lower the numerical rating in terms of Angstrom units, the better the resolving capability.) We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated August 9, 1973 that the additional resolving capability of the foreign article is pertinent to the purposes for which the foreign article is intended to be used. We, therefore, find that the Model EMU-4C is not of equivalent scientific value to

V 38 ▪ 164 AUG 24 73 XUM

the foreign article for such purposes as the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director, Special Import Programs Divisions.

UNIVERSITY OF CONNECTICUT HEALTH CENTER

Decision on Application

The following is a decision on an application for duty-free entry of a scientific article pursuant to sec. 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 73-00548-33-46500. APPLICANT: University of Connecticut Health Center, School of Dental Medicine, Farmington, Connecticut 06032. ARTICLE: Ultramicrotome, Model Om U3. MANUFACTURER: C. Reichert Optische Werke AG, Austria. INTENDED USE OF ARTICLE: The article is intended to be used to prepare animal and human tissue for electron microscopic study of naturally occurring pathology and of the biologic effects of methods and materials used in the oral cavity including bacterial plaque, soft tissue, teeth, and bone. The experiments consist of a number of clinical procedures involved in the treatment of caries, the dental pulp, and the periapical tissue. The article will also be used in the course Oral Pathobiology to teach students the biological aspects of naturally occurring pathology and that of iatrogenic etiology.

COMMENTS: No comments have been received with respect to this application. DECISION: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

REASONS: Examination of the applicant's thin sections under the electron miscroscope will provide optimal information when such sections are uniform in thickness and have smoothly cut surfaces. Conditions for obtaining high quality sections depend to a large extent on the properties of the specimen being sectioned (e.g., hardness, consistency, toughness, etc.), the properties of the embedding media and the geometry of the block. In connection with a prior case (Docket No. 69-00118-33-46500) which relates to the duty-free entry of a similar foreign article, the Department of Health, Education, and Welfare (HEW) advised that "Smooth cuts are obtained when the speed of cutting (among such [other] obvious factors as knife edge condition and angle), is adjusted to the characteristics of the material being sectioned." In connection with another prior case (Docket No. 69-00665-33-46500) relating to the duty-free entry of a similar foreign article, HEW advised that "The range of cutting speeds and a capability for the higher cutting speeds is . . . a pertinent characteristic of the ultramicrotome to be used for sectioning materials that experience has shown difficult to section." In connection with still another prior case (Docket No. 70-00077-33-46500) relating to the duty-free entry of a similar foreign article, HEW advised that "ultrathin sectioning of a variety of tissues having a wide range in density, hardness, etc." requires a maximum range in cutting speed and, further, that "The production of ultrathin serial sections of specimens that have great variation in physical properties is very difficult." The foreign article has a cutting speed range of 0.5 to 10 millimeters/second (mm/sec). The most closely comparable domestic instrument is the Model MT-2B ultramicrotome manufactured by Ivan Sorvall, Inc. (Sorvall). The Sorvall Model MT-2B ultramicrotome has a cutting speed range of 0.09 to 3.2 mm/sec. We are advised by HEW in its memorandum of August 9, 1973 that cutting speeds in the excess of 4 mm/sec. are pertinent to the applicant's research studies. We, therefore, find that the Model MT-2B ultramicrotome is not of equivalent scientific valuc to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director, Special Import Programs Division.

UNIVERSITY OF IOWA, ET AL.

Consolidated Decision on Applications for Duty-Free Entry of Ultramicrotomes

The following is a consolidated decision on applications for duty-free entry of ultramicrotomes pursuant to sec. 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.). (See especially § 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 73-00527-33-46500. APPLICANT: University of Iowa, Department of Urology, University Hospitals, Newton Road, Iowa City, Iowa 52242. ARTICLE: Ultramicrotome, Model LKB 8800A. MANUFACTURER: LKB Produkter AB, Sweden. INTENDED USE OF ARTICLE: The article is intended for experiments to evaluate the localization of the radioisotopes within prostatic cancer cells. The studies also include an evaluation of dose-related response within cancer cells and an investigation of the relationship of time to the effects of the antineoplastic agents. The article will allow the consistent attainment of serial sections so that sections are comparable when different techniques of investigation, including the anatomic studies and autoradiographic studies can be compared from section to section. The article will also be used as part of pathologic research studies in urology to familiarize senior medical students with subcellular investigations in urology, to demonstrate the tools and techniques necessary for these investigations, and to allow the student to obtain quality sections for electron microscopy. A second course is a research fellowship in urology for residents which represents a program of research experience and demonstrations involving subcellular investigations into a variety of disease processes, notably carcinoma of the prostate, carcinoma of the bladder and smooth muscle physiology in the ureter and bladder. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: May 16, 1973. ADVICE SUBMITTED BY DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE ON: August 9, 1973.

DOCKET NUMBER: 73-00528-33-46500. APPLICANT: Hamilton College, Clinton, N.Y. 13323. ARTICLE: Ultramicrotome, Model LKB 8800A and accessories, MANUFACTURER: LKB Produkter AB, Sweden. INTENDED USE OF ARTICLE: The article is intended to be used to study the fine structural relations between germ cells and somatic cells in different classes of vertebrates, at different times in the life cycle of the animal, and under different environmental conditions, particularly in relation to the endocrine system. The emphasis of the studies will be an attempt to correlate the changes in the fine structure of the germ cells (primordial germ cells, spermatocytes, oocytes) with that of the immediately adjacent somatic cells (mesenchymal cells, sertoli cells, follicular cells) and of both cell types as they are influenced by hormones, and other pharmacological agents. The article will also be used in the course "Biology 35F Cellular Ultrastructure," with emphasis on the preparation and interpretation of electron micrographs in the understanding of the cellular level of biological organization. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: May 16, 1973. ADVICE SUBMITTED BY DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE ON: August 9, 1973.

COMMENTS: No comments have been received with respect to any of the foregoing applications. DECISION: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles for such purposes as these articles are intended to be used, is being manufactured in the United States. REASONS: Each of the foreign articles provides a range of cutting speeds from 0.1 to 20 millimeters per second. The most closely comparable domestic instrument is the Model MT-2B ultramicrotome which is manufactured by Ivan Sorvall, Inc. (Sorvall). The Model MT-2B has a range of cutting speeds from 0.09 to 3.2 millimeters per second. The conditions for obtaining high-quality sections that are uniform in thickness, depend to a large extent on the hardness, consistency, toughness and other properties of the specimen materials, the properties of the embedding materials, and geometry of the block. In connection with a prior application (Docket No. 69-00665-33-46500), which relates to the duty-free entry of an article that is identical to those to which the foregoing applications relate, the Department of Health, Education, and Welfare (HEW) advised that "Smooth cuts are obtained when the speed of cutting, (among such [other] factors as knife edge condition and angle), is adjusted to the characteristics of the material being sectioned. The range of cutting speeds and a capability for the higher cutting speeds is, therefore, a pertinent characteristic of the ultramicrotome to be used for sectioning materials that experience has shown difficult to section." In connection with another prior application (Docket No. 70-00077-33-46500) which also relates to an article that is identical to those described above, HEW advised that "ultrathin sectioning of a variety of tissues having a wide range in density, hardness etc." requires a maximum range in cutting speed and, further, that the "production of ultrathin serial sections of specimens that have a great variation in physical properties is very difficult." Accordingly, HEW advises in its respectively cited memoranda, that cutting speeds in excess of 4 millimeters per second are pertinent to the satisfactory sectioning of the specimen materials and the relevant embedding materials that will be used by the applicants in their respective experiments.

For these reasons, we find that the Sorvall Model MT-2B ultramicrotome is not of equivalent scientific value to the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director, Special Import Programs Division.

V.A. HOSPITAL—IOWA CITY

Decision on Application

The following is a decision on an application for duty-free entry of a scientific article pursuant to sec. 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 73-00543-33-46500. APPLICANT: Veterans Administration Hospital, Chief, Supply Service, Highway 6 West, Iowa City, Iowa 52240. ARTICLE: Ultramicrotome, model Om U2. MANUFACTURER: C. Reichert Optische Werke AG, Austria. INTENDED USE OF ARTICLE: The article is intended to be used to prepare sections of calcifying human and rodent tooth (dentin and enamel) for electron microscopic examination in studies of mineralizing dental tissues to obtain basic knowledge concerning its ultrastructure in its normal form, which shall be used to characterize the changes which occur during the destructive process of dental caries.

COMMENTS: No comments have been received with respect to this application. DECISION: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. REASONS: Examination of the applicant's thin sections under the electron microscope will provide optimal information when such sections are uniform in thickness and have smoothly cut surfaces. Conditions for obtaining high quality sections depend to a large extent on the properties of the specimen being sectioned (e.g., hardness, consistency, toughness etc.), the properties of the embedding media and the geometry of the block. In connection with a prior case (Docket No. 69-00118-33-46500) which relates to the duty-free entry of an identical foreign article, the Department of Health, Education, and Welfare (HEW) advised that "Smooth cuts are obtained when the speed of cutting, (among such [other] obvious factors as knife edge condition and angle), is adjusted to the characteristics of the material being sectioned." In connection with another prior case (Docket No. 69-00665-33-46500) relating to the duty-free entry of a similar foreign article, HEW advised that "The range of cutting speeds and a capability for the higher cutting speeds is . . . a pertinent characteristic of the ultramicrotome to be used for sectioning materials that experience has shown difficult to section." In connection with still another prior case (Docket No. 70-00077-33-46500) relating to the duty-free entry of a similar foreign article, HEW advised that "ultrathin sectioning of a variety of tissues having a wide range in density, hardness etc." requires a maximum range in cutting speed and, further, that "The production of ultrathin serial sections of specimens that have great variation in physical properties is very difficult." The foreign article has a cutting speed range of 0.5 to 10 millimeters/second (mm/sec). The most closely comparable domestic instrument is the Model MT-2B ultramicrotome manufactured by Ivan Sorvall, Inc. (Sorvall). The Sorvall Model MT-2B ultramicrotome has a cutting speed range of 0.09 to 3.2 mm/sec. We are advised by HEW in its memorandum of August 9, 1973 that cutting speeds in the excess of 4 mm/sec. are pertinent to the applicant's research studies. We, therefore, find that the Model MT-2B ultramicrotome is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director, Special Import Programs Division.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

ADVISORY COMMITTEES

Notice of Meetings

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Public Law 92-463, 86 Stat. 770-776), the Food and Drug Administration announces the following public advisory committee meetings and other required information in accordance with provisions set forth in section 10(a) (1) and (2) of the act:

Committee name	Date, time, place	Type of meeting and contact person
1. Panel on Review of Hemorrhoidal Drugs.	Sept. 6 and 7, 9 a.m., Conference Room B, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open Sept. 6, 9 a.m. to 10 a.m., closed Sept. 6 after 10 a.m., closed Sept. 7, Thomas DeCillis, Room 10B-05, 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

Purpose. Reviews and evaluates available information concerning safety and effectiveness of active ingredients of currently marketed nonprescription drug products for hemorrhoidal application.

Agenda. Continuing review of over-the-counter drug products under investigation.

V 38 N 164 AUG 24 73 XUM

Committee name	Date, time, place	Type of meeting and contact person
2. Radiological Health Research and Training Grants Review Committee.	Sept. 7 and 8, 9 a.m., Room 400, 12720 Twinbrook Parkway, Rockville, Md.	Open Sept. 7, 9 a.m. to noon, closed Sept. 7 after noon, closed Sept. 8. Norman C. Telles, Room 7-67, 5600 Fishers Lane, Rockville, Md. 20852, 301-443-1357

Purpose.—Provides scientific and technical review of all research and training-grant applications in the areas of individual and public health hazards which may be associated with exposure to radiation; makes recommendations concerning scientific merit of grant applications.

Agenda.—Status report on BRH activities, report on radiation health directors meeting, subcommittee report on technologists training, and review of grant applications.

Committee name	Date, time, place	Type of meeting and contact person
3. Panel on Review of Ophthalmic Drugs.	Sept. 10, 9 a.m., Conference Room A, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open 9 a.m. to 11 a.m., closed after 11 a.m. Gary L. Yingling, Room 10B-05, 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960

Purpose.—Reviews and evaluates available information concerning safety and effectiveness of active ingredients of currently marketed nonprescription drug products for ophthalmic application.

Agenda.—Organizational meeting, orientation of members and distribution of material on over-the-counter drug products under investigation.

Committee name	Date, time, place	Type of meeting and contact person
4. Medical Radiation Advisory Committee.	Sept. 13 and 14, 9 a.m., Room 400, 12720 Twinbrook Parkway, Rockville, Md.	Open—William S. Cole, M.D., (RH-4), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-6220.

Purpose.—Advises and consults with the Bureau of Radiological Health in the formulation of policy and the development of a coordinated program related to application of ionizing radiation in the healing arts.

Agenda.—Chairman's report, Bureau of Radiological Health report, proposed survey of nuclear medicine uses, status of XES 1964 and 1970 Data Analysis, diagnostic X-ray equipment standard, evaluation of educational efforts, X-ray technology program emphasis, and guidelines for X-ray procedures.

Committee name	Date, time, place	Type of meeting and contact person
5. Panel on Review of Bacterial Vaccines and Bacterial Antigens.	Sept. 14 and 15, 9 a.m., Room 121, Bldg. 29, National Institutes of Health, 9000 Rockville Pike, Bethesda, Md.	Open Sept. 14, 9 a.m. to 11 a.m., closed Sept. 14 after 11 a.m., closed Sept. 15. Jack Gertzog (BI-5), 5600 Fishers Lane, Rockville, Md. 20852, 301-496-1676.

Purpose.—Advises the Commissioner of Food and Drugs on the safety and effectiveness of bacterial vaccines and bacterial antigens and of combinations thereof whose labels are required to state "No U.S. Standard of Potency."

Agenda.—Continuing review of bacterial vaccines and bacterial antigens under investigation.

Committee name	Date, time, place	Type of meeting and contact person
6. Drug Experience Advisory Committee.	Sept. 17 and 18, 8:30 a.m., Conference Room F, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open—Allen C. Rossi, D.D.S., Room 16B-17, 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4580.

Purpose.—Advises the Commissioner of Food and Drugs on methods currently in use or on proposed methods for the collection of data on adverse drug reactions, recommends changes as appropriate, and evaluates the significance of information received in the system.

Agenda.—An in-depth review of spontaneous reporting programs, further consideration of intensive surveillance programs with particular reference to inpatient systems, and consideration of appropriate drug experience feedback from ongoing program efforts.

Committee name	Date, time, place	Type of meeting and contact person
7. Panel on Review of Dental Devices.	Sept. 17 and 18, 9 a.m., Room 6821, 200 C St. SW., Washington, D.C.	Open Sept. 17, 9 a.m. to 10 a.m., closed Sept. 17 after 10 a.m., closed Sept. 18. Robert S. Kennedy, Ph. D. (CM-100), 5600 Fishers Lane, Rockville, Md 20852, 301-443-2376.

Purpose.—Reviews and evaluates available data concerning safety, effectiveness, and reliability of dental devices currently in use.

Agenda.—Consideration of multiple-use materials, prosthetic, surgical, and "other use" devices which come into physical contact with the patient and are used for dental treatment procedures; classification of operative materials and devices, prosthetic material, endodontic and operative devices which are used in the dental laboratory as an adjunct to dental treatment.

Committee name	Date, time, place	Type of meeting and contact person
8. Panel on Review of Sedative, Tranquilizer, and Sleep Aid Drugs.	Sept. 17 and 18, 9 a.m., Room 4137, HEW Bldg., 330 Independence Ave. SW., Washington, D.C.	Open Sept. 17, 9 a.m. to 10 a.m., closed Sept. 17 after 10 a.m., closed Sept. 18. Michael D. Kennedy, Room 10B-05, 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

Purpose.—Reviews and evaluates available information concerning safety and effectiveness of active ingredients of currently marketed nonprescription drug products containing sedative, tranquilizer, or sleep aid drugs.

Agenda.—Continuing review of over-the-counter drug products under investigation.

Committee name	Date, time, place	Type of meeting and contact person
9. Cardiovascular and Renal Advisory Committee.	Sept. 20 and 21, 1 p.m., Conference Room E, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open Sept. 20, 1 p.m. to 2 p.m., closed Sept. 20 after 2 p.m., closed Sept. 21. John B. MacGregor, M.D., Room 16B-20, 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4731.

Purpose.—Advises the Commissioner of Food and Drugs regarding the safety and efficacy of drugs employed in the field of cardiovascular and renal disorders.

Agenda.—Bretylium, assessment as anti-arrhythmic agent and pros and cons in the use of atropine in the early phases of acute myocardial infarction.

Committee name	Date, time, place	Type of meeting and contact person
10. Panel on Review of Laxative, Antidiarrheal, Emetic, and Antiemetic Drug Products.	Sept. 21 and 22, 9 a.m., Conference Room J, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open Sept. 21, 9 a.m. to 10 a.m., closed Sept. 21 after 10 a.m., closed Sept. 22. Gary L. Yingling, Room 10B-05, 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

Purpose.—Reviews and evaluates available information concerning safety and effectiveness of active ingredients of currently marketed nonprescription drug products containing laxative, antidiarrheal, emetic, and antiemetic drug products.

Agenda.—Continuing review of over-the-counter drug products under investigation.

Committee name	Date, time, place	Type of meeting and contact person
11. Panel on Review of Bacterial Vaccines and Toxoids.	Sept. 24 and 25, 9 a.m., Room 121, Bldg. 29, Natl. Inst. of Health, 9000 Rockville Pike, Bethesda, Md.	Open Sept. 24, 9 a.m. to 11 a.m., closed Sept. 24 after 11 a.m., closed Sept. 25. Jack Gertzog (BI-5), 5600 Fishers Lane, Rockville, Md. 20852, 301-496-1676.

Purpose.—Advises the Commissioner of Food and Drugs on the safety and effectiveness of bacterial vaccines and toxoids with standards of potency.

Agenda.—Continuing review of bacterial vaccines and toxoids under investigation.

Committee name	Date, time, place	Type of meeting and contact person
12. Panel on Review of Cold, Cough, Allergy, Bronchodilator, and Antiasthmatic Drugs.	Sept. 25 and 26, 9 a.m., Room 4173, HEW Bldg., 330 Independence Ave. SW., Washington, D.C.	Open Sept. 25, 9 a.m. to 10 a.m., closed Sept. 25 after 10 a.m., closed Sept. 26. Thomas DeGillis, Room 10B-05, 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

Purpose.—Reviews and evaluates available information concerning safety and effectiveness of active ingredients of currently marketed nonprescription drug products containing cold, cough, allergy, bronchodilator, and antiasthmatic drug products.

Agenda.—Continuing review of over-the-counter drug products under investigation.

Committee name	Date, time, place	Type of meeting and contact person
13. Panel on Review of Internal Analgesic Including Antirheumatic Drugs.	Sept. 25 and 26, 9 a.m., Conference Room M, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open Sept. 25, 9 a.m. to 10 a.m., closed Sept. 25 after 10 a.m., closed Sept. 26. Lee Geismar, Room 10B-05, 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

Purpose.—Reviews and evaluates available information concerning safety and effectiveness of active ingredients of currently marketed nonprescription drug products containing internal analgesic including antirheumatic drugs.

Agenda.—Continuing review of over-the-counter drug products under investigation.

Committee name	Date, time, place	Type of meeting and contact person
14. Skeletal Muscle Relaxant Subcommittee Neuropharmacology Advisory Committee.	Sept. 26, 9:30 a.m., Conference Room B, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open 9:30 a.m. to 10:30 a.m., closed after 10:30 a.m. Frederick Jordon, Room 10B-30, 5600 Fishers Lane, Rockville, Md. 20852, 301-443-3870.

Purpose.—Advises the Commissioner of Food and Drugs regarding safety and efficacy of drugs employed in the field of neuropharmacology.

Agenda.—Discussion of NAS/NRC evaluation of these drugs as less than effective and discussion regarding suitable protocols for evaluating this class of drugs.

Committee name	Date, time, place	Type of meeting and contact person
15. Panel on Review of Topical Analgesics.	Sept. 27 and 28, 9 a.m., Conference Room C, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open Sept. 27, 9 a.m. to 10 a.m., closed Sept. 27 after 10 a.m., closed Sept. 28. Lee Geismar, Room 10B-05, 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

Purpose.—Reviews and evaluates available information concerning safety and effectiveness of active ingredients of currently marketed nonprescription drug products containing topical analgesic agents.

Agenda.—Continuing review of over-the-counter drug products under investigation.

Committee name	Date, time, place	Type of meeting and contact person
16. Panel on Review of Antimicrobial Agents.	Sept. 27-29, 9 a.m., Conference Room B, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open Sept. 27, 9 a.m. to 10 a.m., closed Sept. 27 after 10 a.m., closed Sept. 28 and 29. Michael D. Kennedy, Room 10B-05, 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

Purpose.—Reviews and evaluates available information concerning safety and effectiveness of active ingredients of currently marketed nonprescription drug products containing antimicrobial agents.

Agenda.—Continuing review of over-the-counter drug products under investigation.

Committee name	Date, time, place	Type of meeting and contact person
17. Panel on Review of Contraceptives and Other Vaginal Drug Products.	Sept. 28 and 29, 9 a.m., Conference Room K, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open Sept. 28, 9 a.m., to 10 a.m., closed Sept. 28 after 10 a.m., closed Sept. 29. Armond M. Welch, Room 10B-05, 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

Purpose.—Reviews and evaluates available information concerning safety and effectiveness of active ingredients of currently marketed nonprescription drug products containing contraceptives and other vaginal drug products.

Agenda.—Continuing review of over-the-counter drug products under investigation.

Agenda items are subject to change as priorities dictate.

During the open sessions shown above, interested persons may present relevant information or views orally to any committee for its consideration. Information or views submitted to any committee in writing before or during a meeting shall also be considered by the committee.

A list of committee members and summary minutes of meetings may be obtained from the contact person for the committee both for meetings open to the public and those meetings closed to the public in accordance with section 10(d) of the Federal Advisory Committee Act.

Most Food and Drug Administration advisory committees are created to advise the Commissioner of Food and Drugs on pending regulatory matters. Recommendations made by the committees on these matters are intended to result in action under the Federal Food, Drug, and Cosmetic Act, and these committees thus necessarily participate with the Commissioner in exercising his law enforcement responsibilities.

The Freedom of Information Act recognized that the premature disclosure of regulatory plans, or indeed internal discussions of alternative regulatory approaches to a specific problem, could have adverse effects upon both public and private interests. Congress recognized that such plans, even when finalized, may not be made fully available in advance of the effective date without damage to such interests, and therefore provided that this type of discussion would remain confidential. Thus, law enforcement activities have long been recognized as a legitimate subject for confidential consideration.

These committees often must consider trade secrets and other confidential information submitted by particular manufacturers which the Food and Drug Administration by law may not disclose, and which Congress has included within the exemptions from the Freedom of Information Act. Such information includes safety and effectiveness information, product formulation, and manufacturing methods and procedures, all of which are of substantial competitive importance.

In addition, to operate most effectively, the evaluattion of specific drug or device products requires that members of committees considering such regulatory matters be free to engage in full and frank discussion. Members of committees have frequently agreed to serve and to provide their most candid advice on the understanding that the discussion would be private in nature. Many experts would be unwilling to engage in candid public discussion advocating regulatory action against a specific product. If the committees were not to engage in the deliberative portions of their work on a confidential basis, the consequent loss of frank and full discussion among committee members would severely hamper the value of these committees.

The Food and Drug Administration is relying heavily on the use of outside experts to assist in regulatory decisions. The Agency's regulatory actions uniquely affect the health and safety of every citizen, and it is imperative that the best advice be made available to it on a continuing basis in order that it may most effectively carry out its mission.

A determination to close part of an advisory committee meeting does not mean that the public should not have ready access to these advisory committees considering regulatory issues. A determination to close the meeting is subject to the following conditions: First any interested person may submit written data or information to any committee, for its consideration. This information will be accepted and will be considered by the committee. Second, a portion of every committee meeting will be open to the public, so that interested persons may present any relevant information or views orally to the committee. The period for open discussion will be designated in any announcement of a committee meeting. Third, only the deliberative portion of a committee meeting, and the portion dealing with trade secret and confidential information, will be closed to the public. The portion of any meeting during which non-confiden-

V 38-164 AUG 24 73 XUM

tial information is made available to the committee will be open for public participation. Fourth, after the committee makes its recommendations and the Commissioner either accepts or rejects them, the public and the individuals affected by the regulatory decision involved will have an opportunity to express their views on the decision. If the decision results in promulgation of a regulation, for example, the proposed regulation will be published for public comment. Closing a committee meeting for deliberations on regulatory matters will therefore in no way preclude public access to the committee itself or full public comment with respect to the decisions made based upon the committee's recommendation.

The Commissioner has been delegated the authority under section 10(d) of the Federal Advisory Committee Act to issue a determination in writing, containing the reasons therefor, that any advisory committee meeting is concerned with matters listed in 5 U.S.C. 552(b), which contains the exemptions from the public disclosure requirements of the Freedom of Information Act. Pursuant to this authority, the Commissioner hereby determines, for the reasons set out above, that the portions of the advisory committee meetings designated in this notice as closed to the public involve discussion of existing documents falling within one of the exemptions set forth in 5 U.S.C. 552(b), or matters that, if in writing, would fall within 5 U.S.C. 552(b), and that it is essential to close such portions of such meetings to protect the free exchange of internal views and to avoid undue interference with Agency and committee operations. This determination shall apply only to the designated portions of such meetings which relate to trade secrets and confidential information or to committee deliberations.

Dated: August 21, 1973.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

Health Resources Administration

ANNOUNCEMENT OF RENEWALS

Correction

In FEDERAL REGISTER Document 73-16580 appearing at page 21681 in the issue for Friday, August 10, 1973, the last paragraph concerning the date of authority for the expiration of the U.S. National Committee on Vital and Health Statistics and the Health Services Research Training Committee should be changed from "Authority for these committees will expire June 30, 1975, unless the Secretary, DHEW, with the concurrence of the Office of Management and Budget Committee Management Secretariat, formally determines that continuance is in the public interest." to "Authority for the U.S. National Committee on Vital and Health Statistics will expire June 30, 1975, and authority for the Health Services Research Training Committee will expire June 30, 1974, unless the Secretary, DHEW, with the concurrence of the Office of Management and Budget Committee Management Secretariat, formally determines that continuance is in the public interest."

Dated August 20, 1973.

KENNETH M. ENDICOTT,
Administrator, Health Resources Administration.

NATIONAL ADVISORY COMMITTEES

Notice of Public Meetings

The Administrator, Health Resources Administration, announces the meeting dates and other required information for the following National Advisory bodies scheduled to assemble the month of September 1973:

Committee Name	Date, time, place	Type of meeting and/or contact person
Long-Term Care for the Elderly Research Review and Advisory Committee.	September 13-14, 9 a.m., Conference Room L, Parklawn Bldg., 5600 Fishers Lane Rockville, Md.	Closed on September 13. Open on September 14. Contact Elliott Lesser, Ph.D., Room 15-29, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. Code 301-443-2350 or Julius Pellegrino, Jr., Room 15A-35, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. Code 301-443-2840.

Purpose: The Committee is charged with the review of research grant applications for Federal assistance in the program areas administered by the National Center for Health Services Research and Development relating to research on long-term care, including research approaches for studying and improving the delivery of care in nursing homes and other long-term care facilities and for identifying alternatives to institutional care.

Agenda: The Committee will be performing a review of grant applications for Federal assistance on September 13 and will not be open to the public in accordance with the determination by the Administrator, Health Resources Administration, pursuant to Public Law 92-463, Section 10(d). On September 14 the Committee will consult with Federal employees concerned with preparation of issue papers in the areas of quality care, alternatives to institutionalization, and baseline data production and collection. The Committee will be functioning in its advisory role on this day.

Committee name	Date, time, place	Type of meeting and/or contact person
Health Service Research Study Section.	September 18-20; 9 a.m., Conference Room M, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open September 18, 9 a.m. to 3 p.m. Closed—remainder of meeting. Contact Dr. Alan E. Mayers, Room 15-19, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. Code 301-443-2920.

Purpose: The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Center for Health Services Research and Development and makes recommendations to the National Advisory Councils for final review.

Agenda: The morning of September 18 will be devoted to a business meeting, remarks of the Acting Director of the Bureau, and a discussion of the program of the Social and Economic Analysis Division. The first half of the afternoon will be devoted to a discussion of recurrent issues in the review of grant applications. The remainder of the meeting will be devoted to a review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Administrator, Health Resources Administration, pursuant to the provisions of Public Law 92-463, section 10(d).

Committee Name	Date, time, place	Type of meeting and/or contact person
National Advisory Council on Comprehensive Health Planning Programs.	September 19-20, 9:30 a.m. Quality Inn-Capitol Hill, 415 New Jersey Ave., N.W., Washington, D.C.	Open—Contact Robert E. Griffiths, Room 7-31, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. Code 301-443-2390.

Purpose: The Council advises and assists the Secretary, Department of Health, Education, and Welfare in the preparation of general regulations for, and as to policy matters arising with respect to the administration of Section 314 of the Public Health Service Act; and the relationship between the improved organization and delivery of health services and financing of such services. The Council advises the Secretary on matters related to section 1122 of the Social Security Act.

Agenda: Agenda items include a discussion with the Seventh Annual Conference of State Comprehensive Health Planning Agencies; a presentation by Under Secretary Frank Carlucci; an explanation of regulations for Section 1122 under the Social Security Act; and a discussion of the role of the National Advisory Council on Comprehensive Health Planning Programs relevant to section 1122.

Committee Name	Date, time, place	Type of meeting and/or contact person
Dental Health Research and Education Advisory Committee.	September 20-21, 8:30 a.m. Holiday Inn, 8120 Wisconsin Ave., Bethesda, Md.	Open September 20, 8:30 a.m. to 9:15 a.m. Closed—remainder of meeting. Contact Solomon Levy, Room 308, Federal Bldg., 7550 Wisconsin Ave., Bethesda, Md. Code 301-496-4535.

Purpose: The Committee is charged with the initial review of grant applications for the support of special dental student training programs; and advises the Director, Division of Dental Health, on matters of dental public health and education and related matters.

Agenda: Agenda items will include (a) discussion of the new Health Resources Administration reorganization and (b) initial review of grant applications, which will not be open to the public in accordance with the determination by the Administrator, Health Resources Administration, pursuant to the provisions of Public Law 92-463, section 10(d).

Committee Name	Date, time, place	Type of meeting and/or contact person
Health Services Developmental Grants Study Section.	September 20-21, 8:30 a.m. Conference Room K, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Closed—Contact David McFall, Room 15-29, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. Code 301-443-2930.

Purpose: The Study Section is charged with the initial review of developmental grant applications for Federal assistance in the program areas administered by the National Center for Health Services Research and Development.

Agenda: The Study Section will be performing initial review of grant applications for Federal assistance and will not be open to the public, in accordance with the determination by the Administrator, Health Resources Administration, pursuant to Public Law 92-463, section 10(d).

Committee Name	Date, time, place	Type of meeting and/or contact person
Health Care Technology Study Section.	September 24-25, 9 a.m. Conference Room G, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open September 24, 9 a.m. to 11:30 a.m. Closed—remainder of meeting. Contact John R. Hall, Room 15-19, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md., Code 301-443-2920.

Purpose: The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Center for Health Services Research and Development which relate to the use of systems analysis, operations research and computer sciences in the broad fields of community health services, hospital medicine, and patient care. It makes recommendations to the National Advisory Councils on the scientific merits of such applications.

Agenda: During the open session the Study Section will conduct necessary administrative and informational business. During the closed sessions the study section will review grant applications for Federal assistance, in accordance with the determination by the Administrator, Health Resources Administration, pursuant to provisions of Public Law 92-463, section 10(d).

Committee name	Date, time, place	Type of meeting and/or contact person
Emergency Medical Services Administrator's Advisory Committee.	September 17-18, 1 p.m., Conference Room B, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open September 17, 1 to 5 p.m. and September 18, 9 a.m. to 4 p.m. Contact John Reardon, Room 10-15, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. Code 301-443-2030.

Purpose: Advises and makes recommendations to the Administrator, Health Resources Administration, on the basic design and implementation of the Initiative on Emergency Medical Services and the evaluation of the results on new initiatives of emergency health services.

Agenda: September 17 will be devoted to a discussion of progress made by the Emergency Medical Service (EMS) staff on inquiries and recommendations made by the Committee in June. There will be a staff presentation and discussion of process and impact evaluation for EMS demonstrations. September 18 will begin with a presentation and discussion of the EMS demonstration in Northeast Florida. The remainder of the day will be devoted to developing Committee recommendations for EMS problems and demonstrations of national interest during 1975-1979.

Agenda items are subject to change as priorities dictate.

A roster of members and other relevant information regarding the open/closed sessions may be obtained from the contact persons listed above.

Dated: August 20, 1973.

KENNETH M. ENDICOTT,
Administrator, Health Resources Administration.

Office of Education

LIBRARY RESEARCH AND DEMONSTRATION PROGRAM

Notice of Closing Date for Proposals

The United States Office of Education invites proposals for library research and demonstration projects under the authority contained in Part B of Title II of the Higher Education Act of 1965, as amended, by Public Law 92-318, 86 Stat. 238 (20 U.S.C. 1031-1033).

Period.—Proposals with completed application forms will be eligible for receipt from the date of this issue of the Federal Register to the close of business on the 30th calendar day thereafter.

Funding.—The total sum available for grants is $114,000. This amount must be obligated by September 30, 1973.

Purpose of the program.—The purpose of financial assistance to eligible institutions is to sponsor and support research and demonstration projects relating to the improvement of libraries or the improvement of training in librarianship, including the development of new techniques, systems, and equipment for processing, storing, and distributing information and for the dissemination of information derived from such research and demonstration. For this purpose programs of Federal assistance are provided to institutions of higher education and other public or private agencies, institutions, and organizations for research and demonstration projects relating to the improvement of training in librarianship.

Eligible parties.—An eligible party is a university or college or other public or private agency, institution, or organization provided that no private agency, or organization, or institution other than a non-profit one may receive a grant.

Priorities.—Funding priorities will be given to proposals dealing with:

(a) *Libraries.*—Activities supported will be designed to bring together the total information, educational and cultural resources of communities and organizations into new and effective patterns of service. The activities will center on more efficient use of resources, innovative techniques, and fulfillment of comprehensive information needs of the users: As a basis for the development of new services and delivery systems or concurrent with it, a limited number of needs assessment studies will be supported. Emphasis is on special target groups such as the underemployed, undereducated, culturally or geographically isolated groups, and others who have been minimally served in the past.

(b) *Information science.*—To support the total system efforts in paragraph (a) above a limited number of studies could be funded to develop new techniques and technological innovations and services and new applications of existing ones.

(c) *Training of library personnel.*—Investigation of training needs and design of training programs can be performed to support the activities outlined in paragraph (a) above.

Types of activities supported.—Activities assisted may include projects for research, dissemination, demonstration, and library curriculum development.

Review of proposals.—The Commissioner will not approve any application for a grant unless and until such application has been reviewed by a panel of experts who are competent to evaluate various types of research or demonstration projects, and the Commissioner has

V 38 I 164 AUG 24 73 XUM

secured the advice and recommendations of such panel.

Cost sharing.—No recipient of a grant under this part may receive the entire cost of the program or project assisted under such grant. However, the amount of the potential grantee's contribution to the cost of such program or project will not affect the disposition of such grantee's application for assistance under this part.

Applications.—Proposal should be accompanied by completed application forms. Prospective applicants should insure that their requests be in order by writing for application forms and proposal instructions from:

Mr. Paul Janaske, Library Research and Demonstration Program, Bureau of Libraries and Learning Resources, U.S. Office of Education, Washington, D. C. 20202.

JOHN OTTINA,
Acting U.S. Commissioner of Education.

AUGUST 8, 1973.

NATIONAL PROFESSIONAL STANDARDS REVIEW COUNCIL, SUBCOMMITTEE ON POLICY DEVELOPMENT

Notice of Meeting

The National Professional Standards Review Council Subcommittee on Policy Development will meet on Sunday, August 26. This Subcommittee was formed to review issues of importance in the implementation of Title XI, Part B, Social Security Act with respect to the policy ramifications of the PSRO program. The meeting will be held at 8:45 p.m. in the Holiday Inn, Bethesda, Maryland. Professional standards review is the procedure to assure that the services for which payment may be made under the Social Security Act are medically necessary and conform to appropriate professional standards for the provision of quality care. The Subcommittee's agenda will consist of a review of the minutes of August 15 meeting and discussion of long range concerns of Policy Development Subcommittee. The meeting is open to the public.

Dated August 17, 1973.

WILLIAM I. BAUER,
Executive Secretary, National Professional Standards Review Council.

[FR Doc.73-18060 Filed 8-23-73;8:45 am]

Office of the Secretary

NATIONAL PROFESSIONAL STANDARDS REVIEW COUNCIL, SUBCOMMITTEE ON EVALUATION

Notice of Meeting

The National Professional Standards Review Council Subcommittee on Evaluation will meet on August 26. This Subcommittee was formed to review issues of importance in the implementation of Title XI, Part B, Social Security Act with respect to program evaluation of PSROs. The meeting will be held in Library No. 5 at 8:30 p.m. on August 26, 1973, at the Holiday Inn, Bethesda, Maryland. Professional standards review is the procedure to assure that the services for which payment may be made under the Social Security Act are medically necessary and conform to appropriate professional standards for the provision of quality care. The Subcommittee's agenda will consist of discussion of Preliminary Evaluation Plan and Subcommittee function. The meeting is open to the public.

Dated August 17, 1973.

WILLIAM I. BAUER,
Executive Secretary, National Professional Standards Review Council.

[Docket Nos. 50-438 and 50-439]

TENNESSEE VALLEY AUTHORITY

Notice of Receipt of Application for Construction Permits and Facility Licenses and Availability of Applicant's Draft Environmental Statement; Time for Submission of Views on Antitrust Matter

The Tennessee Valley Authority (the applicant), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, has filed an application, which was docketed June 21, 1973, for authorization to construct and operate two generating units utilizing pressurized water nuclear reactors. The application was tendered on May 14, 1973. Following a preliminary review for completeness, it was accepted on June 14, 1973 for docketing.

The proposed nuclear facility, designated by the applicant as the Bellefonte Nuclear Plant, Units 1 and 2, is located at the Bellefonte site in Jackson County, Alabama, approximately six miles northeast of Scottsboro, Alabama. Each unit is designed for initial operation at a core power level of 3413 megawatts (thermal), and a gross electrical output of 1329 megawatts.

A Notice of Hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust aspects of the application presented to the Attorney General for consideration shall submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before September 4, 1973. The request should be filed in connection with Docket Nos. 50-438-A and 50-439-A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20545, and at the Scottsboro Public Library, 1002 South Broad Street, Scottsboro, Alabama 35768.

The applicant has also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in Appendix D to 10 CFR Part 50, a Draft Environmental Statement (in lieu of an environmental report) since TVA like other Federal agencies is subject to the requirements of Section 102 of the National Environmental Policy Act of 1969. The Statement (report) has been made available for public inspection at the aforementioned locations. The Statement, which discusses environmental considerations related to the proposed construction of the Bellefonte Nuclear Plant, Units 1 and 2, is also being made available at the Alabama Development Office, State Office Building, Montgomery, Alabama 36104 and Top of Alabama Regional Council of Governments, P.O. Box 308, City Hall 6th Floor, Huntsville, Alabama 35801.

After TVA's Statement has been analyzed by the Commission's Director of Regulation or his designee, an AEC Draft Environmental Statement will be prepared in accordance with the Commission's procedures in Appendix D to 10 CFR Part 50. Upon preparation of the AEC Statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of its availability requesting comments from interested persons. The summary notice will also state that comments of Federal agencies and State and local officials on the AEC Statement will be made available when received.

Dated at Bethesda, Maryland, this 23rd day of July 1973.

For the Atomic Energy Commission.

A. SCHWENCER,
Chief, Pressurized Water Reactors Branch No. 4 Directorate of Licensing.

[FR Doc.73-15782 Filed 8-22-73;8:45 am]

CIVIL AERONAUTICS BOARD

[Docket 24421]

SERVICE TO SAIPAN CASE

Notice of Postponement of Oral Argument

Due to a conflict in the Board's calendar, the oral argument in this proceeding, previously set for September 12, 1973 (38 FR 20116, July 27, 1973), is postponed. It is planned that the argument will be reset for a time in November to be announced in a future notice.

Dated at Washington, D.C., August 20, 1973.

[SEAL] RALPH L. WISER,
Chief Administrative Law Judge.

[FR Doc.73-18006 Filed 8-23-73;8:45 am]

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STATEMENTS

Public Availability

Environmental impact statements received by the Council on Environmental Quality from August 13 through August 17, 1973.

NOTE: At the head of the listing of statements received from each agency is the name of an individual who can answer questions regarding those statements.

DEPARTMENT OF AGRICULTURE

Contact: Dr. Fred H. Tschirley, Acting Coordinator, Environmental Quality Activities, Office of the Secretary, U.S. Department of Agriculture, Room 331-E, Administration Building, Washington, D.C. 20250, 202-447-3965.

FOREST SERVICE

Draft

West Fork Ranger District, Bitterroot N. F., Ravalli County, Montana, August 15: The statement refers to a proposed revised management plan for 157,075 acres of the West Fork Ranger District of the Forest. The planning unit has been subdivided into eight smaller units which will be managed for such values as timber production, wildlife habitat enhancement, and recreational values. Of the 157,075 acres in the unit, 111,240 are inventoried as roadless. Implementation of the plan will result in management keyed to road development of 75,946 acres. The remaining 81,129 acres will continue to be managed in a roadless condition. (ELR order No. 31344) (NTIS order No. EIS 73 1344D).

Final

Vegetation Manipulation with Herbicides, Yavapai and Apache Counties, Arizona, August 13: The proposal is for the use of the chemical herbicide 2,4-D on lands of the Apache and Coconino National Forests, in order to control the spread of snakeweed, iris, and rabbitbrush. There may be adverse effects on water organisms, and the air. The White Mountain Reservoir lies within one-half mile of one spot which is proposed for treatment (101 pages) Comments made by: DOI, HEW and State and local agencies, and concerned citizens (ELR order No. 31325) (NTIS order No. EIS 73 1325F).

SOIL CONSERVATION SERVICE

Final

Baker Lake Watershed, Falcon County, Montana, August 13: The proposal is for a watershed protection project on the 4,128 acre Baker Lake Watershed. Project measures include one flood water retarding structure and land treatment. One hundred and twenty-two acres of rangeland and six acres of wetland will be permanently inundated; 82 acres will be periodically inundated. Because of active oil and gas exploration in the area, the possibility of oil waste pollution in the floodwater retarding basins will be increased by the project. (45 pages) Comments made by: USA, EPA, and DOI, State agencies (ELR Order No. 31327) (NTIS Order No. EIS 73 1327F).

ATOMIC ENERGY COMMISSION

Contact: For Non-Regulatory Matters: Mr. Robert J. Catlin, Director, Division of Environmental Affairs, Washington, D.C. 20545, 202-973-5391. For Regulatory Matters: Mr. A. Giambusso, Deputy Director for Reactor Projects, Directorate of Licensing, 202-973-7373, Washington, D.C. 20545.

Draft

Limerick Generating Station, Units 1 and 2 (2), Montgomery County, Pennsylvania, August 15: The statement refers to the proposed issuance of construction permits to the Philadelphia Electric Co. for the Station. Each of the units will employ a boiling water reactor to produce 3,293 MWt and 1,055 MWe (net). Future outputs of 3,440 MWt and 1,100 MWe each are anticipated. The cooling system will utilize two natural-draft towers, with water being drawn from the Schuylkill River and Perkiomen Creek at a consumptive maximum rate of 65 cfs. An earlier statement was issued by AEC in December, 1972. The second statement adds information on the consumptive use of Delaware River water. (ELR Order No. 31343) (NTIS Order No. EIS 73 1343D).

GENERAL SERVICES ADMINISTRATION

Contact: Mr. Andrew E. Kauders, Executive Director of Environmental Affairs, General Services Administration, 18th and F Streets NW., Washington, D.C. 20405, 202-343-4161.

Final

Courthouse and Federal Office Building, Winston-Salem, North Carolina, August 13: The proposed project consists of the construction of a new courthouse and Federal office building in Winston-Salem. Gross area, which includes a basement, sub-basement, eight stories and a penthouse is 322,686 sq. ft.; total land site area is 67,636 sq. ft. The facility will house approximately 740 employees, and provide 210 interior parking spaces. Increased air and noise pollution levels will occur during construction. (80 pages) Comments made by: AEC, USDA, FPC, COE, HEW, HUD, AHP, EPA, DOI, and DOT (ELR Order No. 31332) (NTIS Order No. EIS 73 1332F).

DEPARTMENT OF HEW

Contact: Mr. Paul Cromwell, Acting Director, Office of Environmental Affairs, Office of the Assistant Secretary for Administration and Management, Room 3718, HEW-North, Washington, D.C. 20202, 202-963-4456.

Draft

Lister Hill National Center for Biomedical Communications, Montgomery County, Maryland, August 14: The statement refers to the proposed construction of an additional facility adjacent to the NLM building at the National Institutes of Health. The facility will consist of offices, conference rooms, computer and communications apparatus, an electronic laboratory, and related measures. There will be construction disruption. (33 pages) (ELR Order No. 31340) (NTIS Order No. EIS 73 1340D).

Draft

Urban Renewal Project, Iowa City, Iowa, August 14: The statement refers to a conventional urban renewal project which is intended to eliminate present environmental deficiencies, replan and rebuild a vital section

V 38 - 164 AUG 24 73 XUM

of the City, reinforce the central business district, and permit the University of Iowa to expand. Concern is focused on automobile circulation, and the boundary of a historic site. (109 pages)
(ELR Order No. 31339) (NTIS Order No. EIS 73 1339D).

DEPARTMENT OF DEFENSE,

ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attn: DAEN-PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314, 202-693-7168.

Draft

Savannah Harbor, Georgia, August 15: The project provides for additional improvements to Savannah Harbor, by widening and deepening the existing channel from deep water to the Savannah Sugar Refinery, providing wideners at the bends, and providing turning basins within the harbor. Twenty-four million cubic yards of spoil will be dredged. There will be adverse impact to marine biota. (Savannah District) (67 pages) (ELR Order No. 31347) (NTIS Order No. EIS 73 1347D).

Kaskaskia Valley Flood Control, Clinton, Fayette and Bond Counties Illinois, August 15: The statement refers to the proposed continuation of operation and maintenance measures of a multi-purpose reservoir which provides flood control for the Kaskaskia Valley. Adverse impact results from water level fluctuations. (St. Louis District) (53 pages) (ELR Order No. 31352) (NTIS Order No. EIS 73 1352D).

Peg's Eye Coal Terminal, St. Paul, Ramsey County, Minnesota, August 13: The project involves the construction by the St. Paul Port Authority, of a terminal to receive low-sulfur coal by unit train from Montana to reship to public utilities in the Upper Mississippi Valley. Disturbance to, or loss of 221 acres of terrestrial floodplain will disturb wildlife habitat. Discharge from the storage area will increase water pollution. Other adverse impacts of the action are loss of open space and recreational use of the Peg's Eye Area; and increased barge traffic on the river and rail service. Social effects consist of a degradation of aesthetics and a shift of coal mining from the east to the west. (110 pages) (ELR Order No. 31326) (NTIS Order No. EIS 73 1326D).

Town Creek Small Navigation Project, South Carolina, August 10: Proposed is a navigation project which will involve the deepening of the natural channel in Town Creek, and the construction of an entrance channel in the Atlantic Ocean. Adverse impact will include the temporary disruption of benthic communities and oyster banks, and the conversion of irregularly flooded marsh to a terrestial environment. (Charleston District), (14 pages). (ELR Order No. 31317) (NTIS Order No. EIS 73 1317D).

Final

New Haven Harbor, Connecticut, August 16: The proposed navigational maintenance project consists of dredging the main channel from Long Island Sound to the Tomlinson Bridge to its authorized depth of 35 feet and disposal of an estimated 800,000 cubic yards of spoil material. Spoil will be deposited in the New Haven Dump Grounds. Adverse environmental effects include alteration of pelagic and benthic habitats, temporary increases in turbidity and siltation, and resuspension of non-biodegradable chemical pollutants. (210 pages) Comments made by: DOC, DOI, HEW, HUD, USCG, (ELR Order No. 31337) (NTIS Order No. EIS 73 1357F).

New Bedford Barrier, Massachusetts, August 15: The proposed project involves the operation and maintenance of the main harbor barrier and dike in order to protect residential and commercial areas from tidal flooding (Waltham District) (34 pages) Comments made by: EPA, DOI, DOC, HUD, USCG, and State and loacl agencies. (ELR Order No. 31333) (NTIS Order No. EIS 73 1353F).

Bronx River, Bronx County, New York, August 15: The navigation project involves the dredging of the Federal channel of the Bronx River to its authorized dimensions. Spoil (83,000 cu. yds.) will be dumped in the New York Bight, with adverse impact to marine biota. (New York District) (33 pages) Comments made by: USDA, DOC, USN, DOT, HEW, EPA, and one regional agency. (ELR Order No. 31349) (NTIS Order No. EIS 73 1349F).

Mamaroneck Harbor, New York, August 15: The statement considers the maintenance dredging of the Federal channel of the harbor. Spoil would be disposed of in approved dumping grounds in the New York Bight. Temporary turbidity will damage marine ecosystems. (New York District) (38 pages) Comments made by: DOI, USN, DOT, EPA, USCG, 2DOC, and State and local agencies. (ELR Order No. 31350) (NTIS Order No. EIS 73 1350F).

Port Chester Harbor, Westchester County, New York, August 15: The statement refers to the proposed maintenance dredging of the harbor and Byram River, for navigational purposes. Approximately 60,000 cu. yds. of dredged material will be dumped in the New York Bight. (New York District) (44 pages) Comments made by: USDA, DOC, USN, HEW, DOI, and agencies of Connecticut and New York. (ELR Order No. 31351) (NTIS Order No. EIS 73 1351F).

DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, D.C. 20240, 202-343-3891.

BUREAU OF SPORTS FISHERIES AND WILDLIFE

Final

Anaho Island Wilderness Area, Washoe County, Nevada, August 16: The statement refers to the proposed legislative designation of the 247 acre Anaho Island National Wildlife Refuge (located in Pyramid Lake) as wilderness within the National Wilderness Preservation System. The island is of special significance as one of only a few known white pelican colonies in North America. Other birds of the island include the California gull, the double-crested cormorant, the great blue heron, and the Caspian Tern. (41 pages) Comments made by: USDA, DOD, DOI. (ELR Order No. 31360) (NTIS Order No. EIS 73 1360F).

NATIONAL PARK SERVICE

Final

Guadalupe National Park, Texas, August 13: The statement refers to the proposed designation of 46,850 acres of the Park as wilderness within the National Wilderness Preservation System. The statement discusses social, scientific, cultural, and economic aspects of the action. (89 pages) Comments made by: USDA, COE, DOI, DOT, EPA, FPC, and State agencies. (ELR Order No. 31324) (NTIS Order No. EIS 73 1324F).

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Quality, 400 7th Street, SW., Washington, D.C. 20590, 202-466-4357.

FEDERAL AVIATION ADMINISTRATION

Draft

DuPage County Airport, DuPage County, Illinois, August 15: Proposed is the extension of the existing 4000' E/W runway (10-28) by 1000' x 75' on the east end, and constructing connecting taxiways to the northside of the E/W runway. Adverse impacts include increased noise and air pollution and loss of wildlife habitat. (67 pages). (ELR Order No. 31345) (NTIS Order No. EIS 73 1345D).

Boston-Logan International Airport, Suffolk County, Massachusetts, August 13: The proposed project entails the construction of a new runway 15-33, 100' x 3,830'; extension of runway 9, 150' x 1,855'; extension of runway 4L, 150' x 2,020', with associated taxiways, lighting and marking. The improvements will be located on the existing Bird Island Flats. Increases in air and noise pollution will occur. (Approximately 300 pages). (ELR Order No. 31330) (NTIS Order No. EIS 73 1330D).

Poplarville-Pearl River County Airport, Pearl River County, Mississippi, August 13: Proposed is the development of a new general aviation airport which will accommodate substantially all propeller aircraft of less than 12,500 pounds. Development will consist of acquiring leasehold interest in 123.1 acres of land and easement interest in 48.10 acres; constructing a 4,000' x 100' runway with aircraft parking apron and connecting taxiway; constructing an access road; installing a medium intensity lighting system including a lighted wind cone, a segmented circle, rotating beacon and visual approach slope indicator. Increased noise and air pollution levels due to aircraft operations and construction disruption will occur. (26 pages). (ELR Order No. 03132) (NTIS Order No. EIS 73 1328D).

Alma Municipal Airport, Harlan County, Nebraska, August 13: The proposed project is the acquisition of 308 acres-fee and 8 acres-easement to construct a turf landing strip (4100' x 150'), connecting taxiway (30' x 150'), including grading, seeding and drainage structures; construction of vehicle parking area (100' x 200') and access road (25' x 500'); installation of segment circle, wind cone, and perimeter and safety fencing. Adverse impacts stemming from the project include the taking of private land and the introduction of high air and noise pollution levels into a new area. (33 pages). (ELR Order No. 31329) (NTIS Order No. EIS 73 1329D).

Eppley Airfield, Omaha, Douglas County, Nebraska, August 13: Proposed is the relocation of approximately 22,100 lineal feet of the Missouri River Levee and construction of a fire/rescue training facility. Construction of the levee will allow approximately 610 acres to be reclaimed for future airport expansion and development. Adverse impacts include temporary construction dust and noise. (75 pages). (ELR Order No. 31331) (NTIS Order No. EIS 73 1331D).

FEDERAL HIGHWAY ADMINISTRATION

Draft

U.S. 81, Kansas, Sedgwick County, Kansas, August 15: Proposed is the improvement of three miles of U.S. 81, including right-of-way acquisition, drainage, grading, bridge construction, and landscaping. Adverse impacts include temporary air and surface water pollution; displacement of families and businesses; and loss of natural growth (60 pages). (ELR Order No. 31348) (NTIS Order No. EIS 73 1348D).

Route 9—Speen Street Interchange, Middlesex County, Massachusetts, August 14:

Proposed is the construction of a grade separated highway interchange to replace the existing at-grade intersection at State Route 9 (FAP Route 47) and Speen Street in the Town of Natick. Route 9 will be depressed and Speen Street will be relocated at existing grade. Adverse impacts include possible degradation of water quality in adjacent Lake Cochituate by increased deposition of salts and nutrients; and displacement of 20 businesses and four families. (234 pages). (ELR Order No. 31337) (NTIS Order No. EIS 73 1337D).

U.S. 95, Nevada 08/14

Nevada

County: Esmeralda Nye

Proposed is the construction and partial relocation of a 24-mile section of U.S. 95 between the Cities of Goldfield and Tonopah. The existing two-lane facility will be reconstructed for the southbound lanes of the ultimate four-lane rural freeway. Adverse impacts include the removal of approximately 100 acres of land from the tax rolls; scarring of the desert landscape; creation of dust during construction; loss of vegetation and minor disturbance of underground water flows. (93 pages)

(ELR ORDER # 31341) (NTIS ORDER # EIS 73 1341D)

State Route 800, Ohio 08/13

Ohio

County: Monroe Belmont

Proposed is the relocation and improvement of a portion of State Route 800 between Barnesville and Woodsfield. The project consists of a two-lane highway, approximately 16.5 miles in length. Adverse effects of the action are the loss of farmland; loss of a small amount of woodland; and the taking of 22 residences, 7 farm operations, and 1 business. Five acres of Section 4(f) land are required from the Monroe Lake State Wildlife Area. (33 pages)

(ELR ORDER # 31336) (NTIS ORDER # EIS 73 1336D)

TIMOTHY ATKESON,
General Counsel.

COST OF LIVING COUNCIL

FOOD INDUSTRY WAGE AND SALARY COMMITTEE

Notice of Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770) notice is hereby given that the Food Industry Wage and Salary Committee, established under the authority of section 212(f) of the Economic Stabilization Act, as amended, section 4(a)(iv) of Executive Order 11695, and Cost of Living Council Order No. 14, will meet at 10:00 a.m., Wednesday, August 29, 1973, at 2025 M Street NW., Washington, D.C.

The agenda will consist of discussions leading to recommendations on specific Phase II and Phase III wage cases in the food area, and future wage policy.

Since the above stated meeting will consist of discussions of future food wage policy and Phase II and III cases for decision, pursuant to authority granted me by Cost of Living Council Order 25, I have determined that the meeting would fall within exemption (5) of 5 U.S.C. 552(b) and that it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with the operation of the Committee.

Issued in Washington, D.C. on August 22, 1973.

HENRY H. PERRITT, Jr.,
Executive Secretary.

Notice of Filing of Pesticide and Food Additive Petitions

Correction

In FR Doc. 73-16747 appearing on page 21812 in the issue for Monday, August 13, 1973, the petition number "(PP 3F410)" in the fifth line should read "(PP 3F1410)".

UNION CARBIDE CORP.

Notice of Filing of Petition Regarding Pesticide Chemical

Correction

In FR Doc. 73-16748 appearing on page 21813 in the issue for Monday, August 13, 1973, the signature reading "Henry J. Korn" should read "Henry J. Korp".

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 662]

COMMON CARRIER SERVICES INFORMATION [1]

Domestic Public Radio Services Applications Accepted for Filing [2]

AUGUST 20, 1973.

Pursuant to §§ 1.227(b)(3) and 21.30 (b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) the close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cutoff dates are set forth in the alternative—applications will be entitled to consideration with those listed in the appendix if filed by the end of the 60 day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to §§ 21.27 of the Commission's Rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Acting Secretary.

APPLICATIONS ACCEPTED FOR FILING

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

20147-C2-P-(2)-74—Answerite Professional Answering Service (New), C. P. for a new 2-way station to operate on 454.075 and 454.175 MHz at 10612 Tanner Road, Tampa, Florida.

20148-C2-P-(2)-74—W. L. & R. L. Meadow d/b/as Jacksonville Radio Dispatch Service (KIB388), C. P. to change antenna system and additional facilities to operate on 152.15 and 152.18 MHz at 1510 Montana Avenue, Jacksonville, Florida.

20149-C2-P-74—Vernon H. Johnson (New), C. P. for a new 1-way signaling station to operate on 152.24 MHz at 0.33 Mile North of Gallup, New Mexico.

20150-C2-P-74—Vernon H. Johnson (New), C. P. for a new 2-way station to operate on 152.06 MHz at 0.33 mile N. of Gallup, New Mexico.

20151-C2-P-74—Southern Radio-Phone, Inc. (New), C. P. for a new 2-way station to operate on 152.09 MHz at 0.6 miles N.E. of mile marker 86 westside of U.S. No. 1, Plantation Key, Florida.

20152-C2-P-74—Southwestern Communications Service (New), C. P. for a new 2-way station to operate on 152.12 MHz at 0.5 mile S. of Uvalde on Batesville Hwy., Uvalde, Texas.

20153-C2-P-(5)-74—WUI/TAS of Las Vegas, Nevada, Inc. (KOK344), C. P. for additional facilities to operate on 152.09, 152.12, 152.15, 152.18, and 152.21 MHz at First National Bank Bldg., 300 E. Carson Street, Las Vegas, Nevada. (Loc. No. 2.)

20154-C2-P-(3)-74—James L. Adams, Jr. (New), C. P. for a new 2-way, repeater, and control stations. Base and repeater stations to be located at City water tank, Altha, Florida, operating on 454.200 (Base) and 459.025 MHz (repeater), and the control station will be located at RFD 1, Box 287, 2 miles N. Bountstown, Florida operating on 454.025 MHz.

20156-C2-P-(3)-74—Airsignal International, Inc. (KKG561), C. P. to add antenna locations No. 2: 2901 Frick Road, Houston, Texas, Loc. No. 3: 401 Mayo Shell Road, Houston, Texas and Loc. No. 4: East Hampton Circle, Houston, Texas and operating

[1] All applications listed in the appendix are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations and other requirements.

[2] The above alternative cut-off rules apply to those applications listed in the appendix as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio and Local Television Transmission Services (Part 21 of the Rules).

V38-164 AUG 24 73 XUM

on 35.22 MHz at each location. (1-way signaling.)

20157–C2–P–74—General Telephone Co. of the Southwest (KKO996), C. P. to change antenna system, location and power. Also to relocate Loc. No. 1 to Location No. 2 operating on 152.51 MHz at 301 South Amherst Street, Perryton, Texas.

Renewal of License expiring July 1, 1973. TERM: July 1, 1973 to July 1, 1978.

Licensee	*Call Sign*
Millington Telephone Co., Inc.	KIY442

CORRECTION

5401–C2–P–(2)–73—Auto Phone Service (KIB384). Correct to read: Major Amendment to 1766–C2–P–72. All other particulars are to remain as reported on PN No. 633 dated January 29, 1973.

RURAL RADIO SERVICE

60026–C6–P–74—Southern Radio-Phone, Inc. (New), C.P. for a new rural subscriber station to operate on 158.55 MHz at a temporary-fixed location.

60038–C6–P/L–74—RCA Alaska Communications, Inc. (New), C.P. and License for a new rural subscriber station to operate on 459.45 MHz at Bristol Bay, Borough Bay, Naknek, Alaska.

60039–C6–P/L–74—RCA Alaska Communications, Inc. (New), C.P. and License for a new central office station to operate on 454.45 MHz at King Salmon, King Salmon (RCA), Alaska.

60040–C6–P–74—Continental Telephone Company of California (New), C.P. for a new rural subscriber station to operate on 157.80 MHz at No. 10 Waver Place, Lucerne Valley, California.

60041–C6–P–74—Bruce Graham (New), C.P. for a new rural subscriber station to operate on 158.55 MHz at a temporary-fixed location.

POINT TO POINT MICROWAVE RADIO SERVICE

401–C1–P–74—United Video, Inc. (New), 3.0 Miles SW. of Taylorville, Illinois (Lat. 39°30'43" N., Long. 89°15'02" W.), C.P. to add (reinstate) frequency 6152.8V MHz toward Springfield, Illinois, on azimuth 313°37'. (NOTE: A waiver of Section 21.701 (i) is requested by United.)

402–C1–P–74—General Telephone Company of the Southwest (New), 249 South Houston Street, Aransas Pass, Texas. Lat. 27°-54'14" N., Long. 97°08'45" W., C.P. for new station on frequency: 6197.2V MHz toward Port Aransas, Texas on azimuth 135°6'.

403–C1–P–74—Same. (New), 219 Avenue C, Port Aransas, Texas. Lat. 27°49'48" N., Long. 97°03'47" W., C.P. for new station on frequency: 5945.2V MHz toward Aransas Pass, Texas on azimuth 315°9'.

404–C1–P–74 (KNK45)—Frank K. Spain d/b/a Microwave Service Company, Edom Hill, 4 miles NW. of Thousand Palms, California. Lat. 33°51'58" N., Long. 116°26'03" W., C.P. to change frequency 6512.5V MHz to 10875H MHz toward Palm Springs, Calif. (KMIR Studio) Part 21.100(d) waived.

7944–C1–P–73 (KNK45)—Frank K. Spain d/b/a Microwave Service Company, Edom Hill, 4 Miles NW. of Thousand Palms, California. Lat. 33°51'58" N., Long. 116°26'03" W., C.P. to change frequency 6475.0H MHz to 10955V MHz toward Palm Springs, Calif. (KPLM Studio) Part 21.100 (d) waived.

405–C1–R–74—Michigan Bell Telephone Company (KQM40), State of Michigan. Application for Renewal of Radio Station for Term: September 28, 1973 to September 28, 1974.

407–C1–P–74—Southern Bell Telephone and Telegraph Company (KIV59), 111 East 5th Street, Panama City, Fla. Lat. 30°09'26" N., Long. 85°39'34" W., C.P. to change antenna system, add pts, of communication, transmitter and frequency 3710V MHz toward Lullwater Beach, Fla. on azimuth 288°28'.

408–C1–P–74—Same. (New), Junction of S. Rd. 30–A and St. Rd. S–30–F, NW. of Panama City Beach, Fla. Lat. 30°12'56" N., Long. 85°51'40" W., C.P. for a new station on frequencies: 3750V MHz toward Panama City, Fla. on azimuth 108°22'; 3750V, 3830V MHz toward Bruce, Fla. on azimuth 325°34'; 6152.8V toward San Blas, Fla. on azimuth 120°06'.

409–C1–P–74—Continental Telephone Company of California. (KNL62), Orleans, Calif. Lat. 41°18'03" N., Long. 123°32'34" W., C.P. to replace transmitter and change freq. 6215H MHz to 6197.2H MHz toward Orleans Passive Reflector on azimuth 65°49'.

410–C1–P–74—Same. (KMZ75), Horse Mountain, SW. of Willow Creek, California. Lat. 40°52'29" N., Long. 123°43'55" W., C.P. to replace transmitter and change freq. 6095H MHz to 6093.5H MHz toward Orleans Passive Reflector on azimuth 22°25'.

411–C1–P–74—Northwestern Bell Telephone Company. (KAJ75), 16th Avenue and 7th Street SW., Minot, North Dakota, C.P. to add frequency: 5974.8V toward Benedict, N.D. on azimuth 152°47' and change antenna location to Lat. 48°13'07" N., Long. 101°18'13" W.

412–C1–P–74—Same. (KAM33), 1823 16th Street North, Bismarck, North Dakota. Lat. 46°49'32" N., Long. 100°46'00" W., C.P. to add frequency 3990H MHz toward Wilton, North Dakota on azimuth 355°43'.

413–C1–P–74—Same. (KAX41), 1.5 Miles SW. of Wilton, North Dakota, Lat. 47°08'32" N., Long. 100°48'05" W., C.P. to add frequencies: 3950H MHz toward Underwood, North Dakota on azimuth 329°02'; 3870H MHz toward Bismarck, North Dakota on azimuth 175°42'.

414–C1–P–74—Same. (KAX42), 2 Miles NE. of Underwood, North Dakota, Lat. 47°28'43" N., Long. 101°05'58" W., C.P. to add frequencies: 3990H MHz toward Benedict, North Dakota on azimuth 1°57'; 3910H MHz toward Wilton, North Dakota on azimuth 148°49'.

415–C1–P–74—Same. (KAX43), 6.5 Miles N. of Benedict, North Dakota, Lat. 47°55'20" N., Long. 101°04'37" W., C.P. to add frequencies: 3870H MHz toward Underwood, North Dakota on azimuth 181°58'; 63.5.9H MHz toward Minot, North Dakota on azimuth 332°57' and relocation of antenna.

416–C1–P–74—Eastern Microwave, Inc. (KEM58), Helderberg Mtn., 1.75 Miles NW of New Salem, New York. Lat. 42°38'12" N., Long. 73°59'35" W., C.P. to add frequencies 11625.0H MHz and 11305.0H MHz toward Schenectady, New York, via Passive Reflector at Schenectady, New York on azimuth 50°101'.

417–C1–P–74—TelePrompter Transmission of Oregon, Inc. (KPC73), Roman Nose, 6.75 Miles SSW. of Richardson, Oregon. Lat. 43°54'44" N., Long. 123°44'14" W., C.P. to add frequencies: 5997.1V MHz and 6056.4V MHz toward Baldy Butte, Ore., on azimuth 210°53'; make changes in antenna system.

418–C1–P–74—Same. (KPC72), Baldy Butte, 7 miles NE. of North Bend, Oregon, Lat. 43°28'42" N., Long. 124°06'24" W., C.P. to add frequencies: 6204.7H MHz and 6382.6H MHz toward Reservoir Hill, Oregon, on azimuth 221°19'. (NOTE: A waiver of Section 21.701(1) is requested by TelePrompter.)

Corrections

311–C1–P–74—American Telephone and Telegraph Company. (KKN22). Correct to read C.P. to add frequency 3870H toward Star, Mississippi. (All other particulars same as reported in Public Notice No. 660, dated August 6, 1973.)

ARKANSAS LOUISIANA GAS CO.

Notice of Application

AUGUST 14, 1973.

Take notice that on August 8, 1973, Arkansas Louisiana Gas Company (Applicant), P.O. Box 1734, Shreveport, Louisiana 71151, filed in Docket No. CP74–36 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange of natural gas with Mississippi River Transmission Corporation (Mississippi), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that Mississippi is currently authorized to sell approximately 3,480 Mcf of gas per day to it at an existing delivery point near Crossett, Ashley County, Arkansas. Pursuant to a contract dated August 8, 1972, Mississippi will deliver up to an additional 500 Mcf of gas per day to Applicant at the Crossett delivery point and Applicant proposes simultaneously to redeliver thermally equivalent volumes to Mississippi at an existing point of interconnection between Applicant's and Mississippi's pipelines near Sherrill, Jefferson County, Arkansas.

The purpose of the proposed exchange of gas is to permit Applicant to render additional gas distribution to Crossett, Arkansas, pursuant to the order issued May 29, 1973, by the Arkansas Public Service Commission directing said additional service.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 10, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Project No. 2534]

BANGOR HYDRO-ELECTRIC CO.

Notice of Application for Amendment of License

AUGUST 15, 1973.

Public notice is hereby given that application for amendment of license was filed March 13, 1973, supplemented May 15, 1973, under the Federal Power Act (16 U.S.C. 791a–825r) by Bangor Hydro-Electric Company (Correspondence to: Mr. Earle R. Webster, Executive Vice President, Bangor Hydro-Electric Company, 33 State Street, Bangor, Maine 04401), for its Milford Project No. 2534, located on the Penobscot River, a navigable waterway of the United States, in the City of Old Town and Town of Milford, Penobscot County, Maine.

Applicant proposes to convey in fee to the State of Maine, Department of Transportation, and exclude from the project 0.17 acre of project lands to widen a State highway right-of-way (Gilman Falls Road). The land involved is part of the Gilman Falls Damsite at the Milford Project and is presently used as a roadside ditch. In addition, Applicant proposes to grant a slope easement of 0.16 acre and grading rights of 408 square feet (.0025 acre) on adjacent project property.

The roadway would be 40 feet wide comprising two 12' wide bituminous travel lanes with an 8' wide gravel shoulder on each side.

Any person desiring to be heard or to make protest with reference to said application should on or before October 1, 1973, file with the Federal Power Commission, Washington, DC 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP72–113]

COLORADO INTERSTATE GAS CO.

Notice of Filing of Gas Tariff

AUGUST 16, 1973.

Take notice that Colorado Interstate Gas Company, a division of Colorado Interstate Corporation (CIG), on August 3, 1973, tendered for filing proposed changes in its FPC Gas Tariff, Second Revised Volume No. 1. CIG states that Substitute Original Sheet Nos. 5, 6, and 66, replacing Original Sheet Nos. 5, 6, and 66, were filed pursuant to the Commission's Order Approving Settlement Agreement with a Condition and Rejecting a Protest which was issued July 5, 1973. In accordance with Ordering Paragraph E of the Commission's July 5, 1973 Order, the substitute sheets reflect rates which exclude the jurisdictional portion of coal option payments totaling $200,000, according to CIG's statement.

The Company states that revenues collected in excess of the adjusted settlement rates since October 1, 1972, will be refunded, with interest at 7 percent, to its jurisdictional customers.

CIG further states that copies of the filing were served upon the Company's jurisdictional customers and certain public bodies.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 30, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Dockets Nos. RP71–16, RP71–56, RP72–3 and RP 72–52]

MIDWESTERN GAS TRANSMISSION CO.

Notice of Extension of Time and Postponement of Hearing

AUGUST 15, 1973.

On August 2, 1973, Midwestern Gas Transmission Company filed a request for a change in the procedural dates fixed by order issued July 24, 1973, in the above designated matter. The request states that the proposed schedule is concurred in by staff counsel and the customer interveners.

Upon consideration, notice is hereby given that the procedural dates are modified as follows:

Service of Midwestern's Case-In-Chief, October 1, 1973.
Service of Staff's Case, October 29, 1973.
Service of Interveners' Cases, November 5, 1973.
Service of Midwestern's Rebuttal Case, December 3, 1973.
Hearing, December 18, 1973 (10:00 a.m., est).

[Docket No. RP71–107 Phase I]

NORTHERN NATURAL GAS CO.

Notice of Petition for Declaratory Order

AUGUST 16, 1973.

Take notice that on August 8, 1973, Northwestern Public Service Company (Northwestern) filed in the above-entitled proceeding pursuant to section 1.7(c) of the Commission's Rules of Practice and Procedure a petition for a declaratory order requiring the inclusion in the "Directory of Communities Served" of Northern Natural Gas Company (Northern) of two industrial customers of Northwestern, each of whom is currently entitled to receive from Northwestern maximum daily firm gas of 199.9 Mcf (in addition to certain interruptible volumes). Northwestern states that such order would assure that these firm sales will not be treated as interruptible sales under the curtailment provisions of section 9 of the General Terms and Conditions of Northern's FPC Gas Tariff.

In connection with the Commission's March 30, 1973, order herein stating that the intent of its October 2, 1972, order

V 38 - 164 AUG 24 73 XUM

approving Northern's settlement agreement regarding curtailment provisions was to preclude any shifting of interruptible loads to firm loads and directing implementation of Northern's curtailment on the basis of certified firm service set forth in Northern's "Directory of Communities Served," Northwestern states that without the same understanding of the Commission's October 2, 1972, order as stated in the aforesaid March 30, 1973, order, it contracted with two industrial customers for firm gas service. Northwestern further states that it did not understand the October 2, 1972, order as affecting its contracts for retail service if Northwestern's contract demand from Northern was not changed, which is here the case.

According to Northwestern, it consummated a contract on October 6, 1972, for a maximum daily firm gas sale of 199.9 Mcf (in addition to interruptible volumes) to the Peavey Company for its plant at De Smet, South Dakota. The contract was agreed upon in principle in September 1972, when service commenced, but the formal contract was not executed until October 6, 1972. On December 20, 1972, Northwestern contracted to sell an identical maximum daily volume of firm gas to the 3M Company for its medical products plant at Brookings, South Dakota. The December 20, 1972, contract superseded a 1970 contract and reflected an increase in the daily firm gas volumes. Northwestern states that Northern has refused to include the firm service to these two customers in its "Directory of Communities Served" because the contract dates are after the October 2, 1972, deadline prescribed by the March 30, 1973, order.

Northwestern asserts that it undertook the above-mentioned firm services from its contract demand in effect on October 2, 1972, and that the firm service provided to these two customers does not affect the "delicate balance of the equities and economics" of Northern's curtailment program with which the Commission was concerned in its March 30, 1973, order when it fixed the October 2, 1972, deadline.

Any person desiring to be heard or to make any protest with reference to said filing of Petition for Declaratory Order should on or before August 31, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The filing which was made with the Commission is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP74-38]

TEXAS EASTERN TRANSMISSION CO.

Notice of Application

AUGUST 16, 1973.

Take notice that on August 9, 1973, Texas Eastern Transmission Corporation (Applicant), P.O. Box 2521, Houston, Texas 77001, filed in Docket No. CP74-38 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of an additional point in Westmoreland County, Pennsylvania, for the delivery of natural gas in interstate commerce to T. W. Phillips Gas and Oil Company (Phillips), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it is presently authorized to deliver up to 7,000 Mcf of gas per day to Phillips at two existing delivery points in Westmoreland County. Applicant proposes to construct and operate an additional delivery point consisting of two taps, valves, and measuring and regulating stations. It is stated that deliveries through the existing and proposed delivery points will not exceed the total volume presently authorized nor will the volumes of gas delivered exceed Phillips' quantity under Applicant's currently effective curtailment plan.

The total cost of the proposed facilities is $54,000 which will be initially financed by Applicants with reimbursement by Phillips.

The purpose of the proposed facilities is to enable Phillips to implement its storage project by which gas purchased from Applicant will be injected in Phillips' storage well in Westmoreland County and withdrawn to meet winter peak demands on Phillips' system.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 10, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission in this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-17949 Filed 8-23-73;8:45 am]

[Project No. 2722]

UTAH POWER AND LIGHT CO.

Notice of Application for License for Constructed Project

AUGUST 16, 1973.

Public notice is hereby given that application for a major license was filed May 3, 1972, under the Federal Power Act (16 U.S.C. 791a–825r) by Utah Power and Light Company (Correspondence to: Mr. Sidney G. Baucom, P.O. Box 899, Salt Lake City, Utah 84110) for Pioneer Project No. 2722, located in the City of Ogden, Weber County, Utah, on the Ogden River.

The Pioneer Project is operated by diverting water from the impoundment of the U.S. Reclamation Bureau's Pineview Dam through a wood stave pipeline to a surge tank. The pipeline, which is 6¼ feet in diameter and approximately 5.5 miles long, is jointly owned by Applicant and the U.S. Bureau of Reclamation.

The project, which has an installed capacity of 5,000 kw, consists of: (1) a surge tank at the mouth of Ogden Canyon where the power water enters the penstock; (2) a riveted steel penstock 6 feet in diameter and 4,000 feet long, which bifurcates near the powerhouse; (3) a concrete and brick powerhouse containing two 2,500 kw units; (4) transformer facilities located within the powerhouse; (5) a tailrace canal approximately 3,000 feet long; and (6) all other facilities appurtenant to the operation of the project.

Applicant states that, because of its limited property ownership, there are no plans for recreational facilities at the Pioneer plant. Applicant further submits that there is no way in which recreational use could be made of project waters. Two upstream reservoirs owned by the U.S. Bureau of Reclamation feature a variety of recreational uses and serve as fishery resources.

The power generated at the Pioneer Project is distributed by Applicant to customers in Idaho, Utah, and Wyoming.

Any person desiring to be heard or to make protest with reference to said application should on or before October 29, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. R-405]

RELIABILITY OF ELECTRIC AND GAS SERVICE

Order Updating Nationwide Investigation; Correction

AUGUST 14, 1973.

Attached is a page from Appendix B-8 which was inadvertently omitted from the order issued August 1, 1973, in Docket No. R-405.

KENNETH F. PLUMB,
Secretary.

APPENDIX B-8

Consistent with procedures of the Committee on Natural Gas Reserves of the American Gas Association, Proved Reserves do not include the "portions of the reservoir hydrocarbon gas recovered in liquid form in surface separators or plant facilities."

Proved Natural Gas Reserves Available for Sale shall be reported as the reporting company's working interest including royalty. The volumes held "available for sale" are those which are not covered by gas purchase contracts and are not reserved for direct industrial contracts, company use-warranty gas or company use-fuel and feedstock.

[2] Arkansas is divided between North and South by base line separating townships North and South.

[3] Offshore areas shall be measured from the coastline seaward.

[4] Oklahoma is divided between Eastern and Western Oklahoma by the central Oklahoma Indian Meridian separating Ranges E and W. Western Oklahoma is further divided between Hugoton and Anadarko by the Panhandle Meridian separating Ranges E and W.

[5] Includes Alabama, Arizona, Florida, Iowa, Maryland, Minnesota, Missouri, South Dakota, Tennessee, and Washington.

[FR Doc.73-17940 Filed 8-23-73;8:45 am]

FEDERAL RESERVE SYSTEM

FORT WORTH NATIONAL CORP.

Order Approving Acquisition of Bank

The Fort Worth National Corporation, Fort Worth, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 per cent all of the voting shares (less directors' qualifying shares) of The First State Bank of Stratford, Stratford, Texas.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received.

Applicant controls six banks[1] with aggregate deposits of about $878 million, representing 2.5 per cent of the total deposits of commercial banks in the State. Applicant ranks as the fifth largest bank holding company and the sixth largest

[1] Bank of Fort Worth, Riverside State Bank, and Tarrant State Bank, all located in Fort Worth, are deemed subsidiaries for purposes of the Bank Holding Company Act by virtue of Applicant's fiduciary holdings in said banks and Section 2(a)(5)(A) of the Act.

V 38 - 164
AUG 24 73
XUM

banking organization in Texas and the largest in the Fort Worth Banking market, where it controls approximately 31 per cent of the total commercial bank deposits in that market. (All banking data are as of December 31, 1972, and reflect bank holding company formations and acquisitions approved by the Board through July 15, 1973.) In addition, Applicant controls between 24.4 per cent and 24.9 per cent of the voting shares of two other banks located in the Fort Worth market, holding aggregate deposits of $74.1 million. Applicant also owns in excess of 5 per cent of the shares of the First National Bank, Paducah, Texas. Upon consummation of the acquisition of Bank ($21.6 million in deposits), Applicant's share of commercial bank deposits in the State would increase by 0.06 per cent and its rank would remain unchanged.

Bank is the sole banking organization in its market, which is approximated by Sherman County with a population of 3,657. Applicant's closest subsidiary is located approximately 80 miles south of Bank in Amarillo, Texas. Due to the distances involved, it appears that no meaningful competition exists between any of Applicant's subsidiary banks and Bank.

In view of Applicant's intention to expand into banking markets across the State, and since Bank is the only bank in the market, it would appear that conditions are attractive for *de novo* entry by Applicant. The attractiveness is diminished, however, by the fact that the ratio of population to banking offices in the Sherman County market is only 3,657, well below the Statewide average of 9,052, despite a 40 per cent increase in population from 1960 to 1970. In addition, Applicant is only one of a number of potential entrants into Bank's market and consummation of the proposal herein would have no adverse effect on the development of competition in this market in the future. On the basis of the record before it, the Board concludes that consummation of the proposed transaction will not have an adverse effect on competition in any relevant area.

The financial and managerial resources and future prospects of Applicant and its subsidiaries appear satisfactory. The financial condition and managerial resources of Bank are fair; as a subsidiary of Applicant, Bank's prospects for future growth and service would be enhanced. Applicant has the financial and managerial resources to assist Bank in meeting the financial requirements of the larger businesses in Bank's market, such as those engaged in the cattle industry. The convenience and needs considerations of the community served by Bank are consistent with and lend some support for approval of this application. It is the judgment of the Board that the proposed transaction is in the public interest and that the application should be approved.

On the basis of the record as summarized above, the Board approves the application, provided that the transaction shall not be consummated (a) before the thirtieth calendar day following the date of this Order or (b) later than three months after the date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,[3] effective August 16, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-17953 Filed 8-23-73;8:45 am]

GENERAL FINANCIAL SYSTEMS

Order Approving Retention of Bank

General Financial Systems, Riviera Beach, Florida, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to retain[1] 12,450 (24.9 per cent) of the voting shares of Tri-City Bank, Palm Beach Gardens, Florida (Bank).[2]

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls one bank, First Marine Bank & Trust Company (Riviera Bank), with deposits of about $58 million, which represents approximately 6.5 per cent of total deposits in commercial banks in the West Palm Beach County banking market[3] and only about three-tenths of 1 per cent of all such deposits in commercial banks in Florida. In addition, Applicant owns between 15 per cent and 24.9 per cent of the voting shares of each of eight other banks, with aggregate deposits of $152 million, including four which are located in the West Palm Beach County banking market. In addition to the 12,450 shares of Bank which Applicant is applying to retain, two of Applicant's directors each own 100 shares (.2 per cent) of the outstanding voting shares of Bank.

Bank, with deposits of about $7 million, is the 22nd largest of 27 commercial banks in the West Palm Beach County banking market. Although some service overlap exists between Bank and the other West Palm Beach County banks in which Applicant owns voting shares, such overlap involves chiefly commercial loans and real estate loans and apparently results, in large measure, from loan participations between Bank and such other banks. Riviera Bank and Bank are situated more than five miles apart, and there is but minimal competition between these two banks. Moreover, Bank, due to its size and location, does not appear to be an attractive vehicle for entry into the West Palm Beach County banking market, nor does it preempt an attractive entry site. Retention by Applicant of shares of Bank will not alter Applicant's market standing or enable Applicant to dominate any relevant market area.

The Board is advised that Applicant has previously engaged in certain nonbanking activities through corporate interests which were spun off to its shareholders on September 30, 1972. However, certain director interlocks and indebtedness relationships continue to exist, with respect to the transferee of such interests. Under section 2(g)(3) of the Bank Holding Company Act, such relationships give rise to a presumption of control of the transferee by Applicant unless the Board, after opportunity for hearing, determines that Applicant is not, in fact, capable of controlling the transferee. Applicant has expressed a willingness to terminate those interlocks, and no significant competitive factors arise in relation to such nonbanking activities and Applicant's banking interests through the instant application. Accordingly, the Board believes that the instant application may be approved without first determining the section 2(g)(3) control issue; such determination shall be made at a later date.

The financial and managerial resources of Applicant, Riviera Bank, and Bank are generally satisfactory. Considerations relating to the convenience and needs of the community are consistent with approval. It is the Board's judgment that retention is in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above.

[3] Voting for this action: Chairman Burns and Governors Brimmer, Sheehan, Bucher, and Holland. Absent and not voting: Governors Mitchell and Daane.

[1] Applicant acquired subject shares on August 9, 1971, without prior Board approval. On June 30, 1971, the Board, in order to avoid impositions of undue hardship, published notice that any company which acquired a bank between December 31, 1970, and June 22, 1971, without first securing prior Board approval because of lack of knowledge of that requirement might file for such approval by August 31, 1971. Applicant, which became a bank holding company on December 31, 1970, apparently lacked knowledge of the Act's requirements at the time it acquired the shares of bank. Accordingly, the application was accepted and appropriate notice was published in the FEDERAL REGISTER.

[2] Applicant first submitted this application in June 1972. On December 14, 1972, the Board permitted withdrawal of the application on condition that an updated application be resubmitted by March 22, 1973 (subsequently extended to May 22, 1973).

[3] Approximated by the upper two-thirds of Palm Beach County. Banking data are as of June 30, 1972, unless otherwise indicated.

By order of the Board of Governors,[4] effective August 16, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

SOUTH CAROLINA NATIONAL CORP.

Order Approving Acquisition of Provident Financial Corporation

South Carolina National Corporation, Columbia, South Carolina, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and section 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of the successor by merger to Provident Financial Corporation, Sanford, North Carolina, (Company) a company that engages in the activities of (1) consumer finance activities through wholly owned subsidiaries licensed in North Carolina and South Carolina, and in connection therewith acting as agent or broker in (a) the sale of credit life and credit accident and health insurance and (b) the sale of casualty insurance protecting property securing the subsidiaries' extensions of credit; (2) reinsuring credit life and credit accident and health insurance sold by the operating subsidiaries as agent or broker; (3) financing second mortgages and sale of monthly reducing term life insurance related thereto; and (4) financing insurance premiums for individuals on policies issued by unaffiliated insurance companies. Such activities have been determined by the Board to be closely related to banking (12 CFR 225.4(a)(1), (9) and (10)). The company into which Company is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Company. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Company.

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (38 FR 10512). The time for filing comments and views has expired, and none has been timely received.

Applicant controls one bank with aggregate deposits of $664.6 million, representing 20.7 per cent of the total South Carolina commercial bank deposits. (All banking data are as of December 31, 1972). Applicant also controls one nonbanking subsidiary, South Carolina Mortgage Corporation which makes second mortgage real estate loans.

Company has total assets of $17 million. Its principal active subsidiary is First Provident Company, Inc. (First Provident) which engages in consumer finance activities through 25 subsidiaries located in North and South Carolina and had total loans outstanding of about $13 million as of June 30, 1972. Two other subsidiaries of Company, both of which operate in North Carolina only, are Provident Mortgage Company, Inc., a second mortgage real estate lender that makes loans to individuals only up to $7,500, and Motor Credit Company of Dunn, Inc., which is licensed to make loans up to $5,000 secured by motor vehicles. In addition, Company is engaged, through Premium Acceptance Company (a single office company located in Richmond, Virginia), in financing insurance premiums in Virginia for individuals on policies issued by unaffiliated agents and unaffiliated insurance companies. Company, through Southern Provident Life Insurance Company, Phoenix, Arizona, also reinsures credit life and credit accident and health insurance policies issued by unaffiliated companies to customers of Provident's lending subsidiaries. The insurance agency activities of all of Company's subsidiaries are as follows: First Provident, Motor Credit Company of Dunn, and Provident Mortgage Company all act as agents in the sale of credit life insurance in connection with their extensions of credit; the former two sell credit accident and health insurance, and First Provident also sells casualty insurance on pledged collateral.

Applicant is not engaged in consumer finance lending activities in North Carolina. In South Carolina, Applicant's banking subsidiary has offices in four counties in which First Provident also has offices. (In those counties, one office of First Provident opened in October 1972 and the other three offices had total approximate outstanding loans ranging from $190,000 to $270,000.) It appears that First Provident is engaged in making small, high risk, personal loans.[1] Consummation of the proposal would not appear to eliminate significant, existing competition or affect adversely the competitive situation in any relevant area. In view of First Provident's relatively small amount of total receivables, the number and size of intervening finance companies, and banks, and ease of entry in the consumer finance field, it appears that consummation will not likely have a significantly adverse effect on future competition, even though Applicant appears to possess resources to enter the market *de novo*. Nor does it appear that consummation will adversely affect the availability of funds to other consumer finance companies. Accordingly, the Board concludes that approval of the application insofar as it relates to the finance company subsidiaries of Company would not appear to have any significant adverse effect on existing or future competition.

There is no existing competition between Applicant and any of Company's subsidiaries engaged in insurance premium financing, reinsurance activities, and second mortgage real estate lending. Applicant does not appear to be a likely *de novo* entrant into these activities and, in any event, the share of business held by the subsidiaries is very small and significant future competition apparently will not develop. Accordingly, the Board concludes that approval of the application insofar as it relates to the reinsurance, premium financing, and second mortgage subsidiaries of Company would appear to have no significant adverse effect on existing or future competition.

Applicant's greater access to financial resources may assure Company of more ready access to funds and enable it to become a more effective competitor, and thus increase public convenience and stimulate competition with affiliates of larger regional and national financial organizations active in both the finance company and mortgage company industries in the relevant markets. Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable with respect to the proposed finance company, mortgage company and insurance agency activities.

As in past cases where credit life and credit accident and health insurance underwriting activities were acquired, the Board must be satisfied that the public interest is met. Applicant has stated that the reinsurance subsidiary and the direct insurer, will (1) reduce the rates charged and (2) eliminate certain exclusions,[2] so as to achieve combined actuarily perceived benefits amounting to 20 per cent. It is the Board's judgment that these benefits to the public are consistent with approval of the application.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof. This transaction shall not be consummated later than three months after the effective date of this Order, unless such period is extended for good cause by the Board.

[4] Voting for this action: Chairman Burns and Governors Brimmer, Sheehan, Bucher, and Holland. Absent and not voting: Governors Mitchell and Daane.

[1] The maximum permissible interest charge in South Carolina for small loan companies apparently starts at a 36 per cent add-on rate for a $100 loan, and drops steadily until the loan size reaches $1,000. The effective add-on rate remains constant at 12 per cent for any loan up to $4,000. For a 24-month installment loan, the annual percentage rate of interest is roughly 1¾ times the add-on rate.

[2] Applicant will: (1) increase the age limit or remove it; (2) remove restrictions and exceptions on geographical limitations, military service, or intentionally self-inflicted injury, air travel, and use of narcotics and alcohol; (3) reduce or remove the incontestability clause; and (4) modify or remove the policy provisions relating to preexisting conditions.

V 38 164 AUG 24 73 XUM

By order of the Board of Governors,[2] effective August 16, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-17954 Filed 8-23-73;8:45 am]

UNITED BANKS OF COLORADO, INC.

Order Approving Acquisition of Bank

United Banks of Colorado, Inc., Denver, Colorado, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 80 per cent or more of the voting shares of United Bank of Skyline, National Association, Denver, Colorado (Bank).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls 13 banks with aggregate deposits of $880.5 million representing about 14.5 per cent of deposits of commercial banks in Colorado and is the second largest banking organization in the State.[1] Acquisition of Bank (deposits of $4.5 million) would not significantly increase the concentration of banking resources in Colorado.[2]

Applicant has four banking subsidiaries including its lead bank in the relevant banking market.[3] However, existing competition between Applicant's banking subsidiaries and Bank is not substantial.

Bank was chartered on March 30, 1973, by the Comptroller of the Currency under emergency conditions as a successor organization to Skyline National Bank (Skyline) which had experienced financial difficulties and was closed on March 26, 1973. The present management of Bank was brought in from other subsidiary banks of Applicant in contemplation of the acquisition of Bank by Applicant. Bank is located in the Skyline urban renewal area of Denver where extensive construction is already under way or planned, and as this area develops there will be increased need for Bank's services. On the other hand, during an interim period, it is important that Bank be supported by a strong organization such as Applicant since its growth potential is limited.

For all practical purposes, Bank may be considered a *de novo* bank; its deposits were $6 million as of April 1973, but they declined to $4.5 million in two months' time. Even this deposit figure may be overstated since a large part of this deposit base is made up of public funds and there is no certainty of renewal. Applicant controls about 18.5 per cent of the deposits in the relevant market, and the acquisition of Bank's deposits would add less than one-half of 1 per cent of market share to Applicant's control. Applicant would not be obtaining a dominant position in the market through acquisition of Bank since it would remain as the second largest banking organization in a market which has several other banking organizations of moderate size. Moreover, numerous independent banks would remain available in the market for acquisition by holding companies located outside the Denver area. The Board concludes that competitive considerations are consistent with approval of the acquisition.

The financial condition, managerial resources, and future prospects of Applicant and its subsidiary banks are regarded as satisfactory. Bank is entirely dependent upon the financial and managerial support of Applicant and with this support its prospects are favorable. This factor lends strong weight in support of approval. Factors related to the convenience and needs of the community to be served lend weight for approval of the acquisition since Applicant's acquisition of Bank will ensure that Bank will be able to provide continued service in a developing area of Denver. It is the Board's judgment that consummation of the proposed transaction would be in the public interest and the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Board of Governors,[4] effective August 16, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-17955 Filed 8-23-73;8:45 am]

BARNETT BANKS OF FLORIDA, INC.

Acquisition of Bank

Barnett Banks of Florida, Inc., Jacksonville, Florida, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 90 per cent or more of the voting shares of Barnett Bank of North Pensacola, Pensacola, Florida, a proposed new bank. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than September 13, 1973.

Board of Governors of the Federal Reserve System, August 17, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.73-17991 Filed 8-23-73;8:45 am]

Proposed Acquisition of Ison Finance Corp.

CITIZENS AND SOUTHERN NATIONAL BANK AND CITIZENS AND SOUTHERN HOLDING CO.

The Citizens and Southern National Bank and Citizens and Southern Holding Company, both of Atlanta, Georgia, have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Ison Finance Corporation, Atlanta, Georgia. Ison Finance Corporation does business, through various subsidiaries, as State Mortgage Company, Local Finance Company, Motor Credit Company, Employees Finance Company, Advance Loan and Finance Corporation, Dawson Loan Company, Bay Loan Corporation, Modern Credit Company, Alabama Industrial Finance Company, Central Finance Company, and Delta Loan Company, or variations of the foregoing. Notice of the applications was published on May 3, 4, 5, 6, 7, 8, or 17 respectively in the Daily Sentinel, a newspaper circulated in Scottsboro, Alabama;

The Florida Times-Union	Jacksonville, Florida.
The Sentinel Star	Orlando, Florida.
The Huntsville News	Huntsville, Alabama.
The Palm Beach Post	West Palm Beach, Florida.

Ison Finance Corporation's subsidiaries operate in each of the foregoing communities.

Applicant states that the proposed subsidiary would engage in the activities of making consumer loans and purchasing retail installment sales contracts from dealers in consumer goods. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or grains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The applications may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Atlanta.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than September 13, 1973.

Board of Governors of the Federal Reserve System, August 17, 1973.

DAWSON CORP.

Revised Proposal for Formation of Bank Holding Company

Dawson Corporation, Lexington, Nebraska, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 83.3 per cent or more of the voting shares of The Farmers State Bank, Lexington, Nebraska. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Dawson Corporation has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act, 12 U.S.C. 1843(c)(8) and § 225.4(b)(1) of the Board's Regulation Y for permission to engage *de novo* in certain insurance activities to be conducted at the office of Applicant's proposed subsidiary, The Farmers State Bank, Lexington, Nebraska. Notice of such proposed activities was published in the May 14, 1973 edition of the *Dawson County Herald*, Lexington, Nebraska.

Applicant states that it will act as agent or broker with respect to insurance for itself and its subsidiaries and will engage in the sale of credit life and credit accident and health insurance and hail insurance directly related to extensions of credit by, or to other financial services of, Applicant's proposed banking subsidiary. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question of whether consummation of the proposal filed pursuant to section 4(c)(8) of the Act can "reasonably be expected to produce benefits to the public such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such an undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence which the requesting party proposes to submit or elicit at the hearing and a statement of the reasons why the matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than August 29, 1973.

Board of Governors of the Federal Reserve System, August 17, 1973.

DOMINION BANKSHARES CORP.

Acquisition of Bank

Dominion Bankshares Corporation, Roanoke, Virginia, a bank holding company within the meaning of the Bank Holding Company Act, has applied for approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all the voting shares (less directors' qualifying shares) of The First National Exchange Bank of Montgomery County, Blacksburg, Virginia (Bank), a proposed new bank. The application is to be acted upon by the Federal Reserve Bank of Richmond (Reserve Bank) under authority delegated by the Board of Governors (12 CFR 265).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act and the time for filing comments and views has expired. The Reserve Bank has considered the application and all comments received in the light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

As of December 31, 1972, Applicant controlled six banks operating 68 offices with aggregate deposits of $807 million or 7.5 percent of total commercial bank deposits in Virginia. It has since opened one *de novo* bank. Inasmuch as Bank is a proposed new bank, no existing competition would be eliminated, nor would concentration be increased in any relevant area. Bank would be located in the Town of Blacksburg, Montgomery County, Virginia. The latter includes the Town of Christiansburg, the City of Radford and constitutes the relevant geographic market. Seven banks operate in the area, including two branches of Applicant's lead bank, The First National Exchange Bank of Virginia. These branches are located in the Town of Blacksburg and enjoy approximately 13 percent of total market deposits. Applicant proposes to cause The First National Exchange Bank of Virginia to spin off the assets of its Blacksburg branches which Bank will then acquire. Bank would be permitted to branch throughout the market. The First National Exchange Bank of Virginia cannot now and

[2] Voting for this action: Chairman Burns and Governors Mitchell, Daane, Sheehan, and Bucher. Absent and not voting: Governors Brimmer and Holland.

[1] All banking data are as of December 31, 1972, except where otherwise noted, and represent bank holding company formations and acquisitions approved by the Board through June 30, 1973.

[2] Deposit figures for Bank are as of June 1, 1973.

[3] The relevant banking market is approximated by Denver, Adams, Arapahoe, and Jefferson Counties.

[4] Voting for this action: Chairman Burns and Governors Brimmer, Sheehan, Bucher, and Holland. Absent and not voting: Governors Mitchell and Daane.

V 38 - 164 AUG 24 73 XUM

will not be able to do so following the proposed transaction. Thus it appears that consummation of the proposal will not alter the competitive situation in the market nor the concentration of resources therein.

The financial and managerial resources and future prospects of Applicant and its subsidiary banks are regarded as generally satisfactory. Prospects for Bank appear favorable. While Bank will not immediately offer a local alternative banking source within the area, it will under State law be able to expand within the geographic market, for which significant future growth is forecast. Considerations relating to the convenience and needs of the area to be served are consistent with approval of the application. It is the Reserve Bank's judgment that the proposed acquisition would be in the public interest and that the application may be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order, or (b) later than three months after that date, and (c) The First National Exchange Bank of Montgomery County, Blacksburg, Montgomery County, Virginia, shall be opened for business not later than six months after the effective date of this Order. Each of the periods described in (b) and (c) may be extended for good cause by the Board of Governors of the Federal Reserve System or by the Federal Reserve Bank of Richmond pursuant to delegated authority.

By order of the Federal Reserve Bank of Richmond, acting pursuant to delegated authority for the Board of Governors of the Federal Reserve System, effective August 16, 1973.

[SEAL] ROBERT P. BLACK,
President.

[FR Doc.73-17981 Filed 8-23-73;8:45 am]

FIRST WYOMING BANCORP.

Order Approving Formation of Bank Holding Company

First Wyoming Bancorporation, Kemmerer, Wyoming, has applied for the Board's approval under Section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 80 percent or more of the voting shares of the First National Bank of Kemmerer, Kemmerer, Wyoming ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with Section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in Section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is a newly organized company formed for the express purpose of acquiring Bank ($20.7 million deposits). (Banking data are as of December 31, 1972.) Bank, located in Kemmerer, Wyoming (population approximately 2,200), is the only commercial bank within 50 miles of Kemmerer. Since the purpose of the proposed transaction is to effect corporate ownership of Bank, there would be no adverse effects on competition in any relevant area, and competitive considerations are consistent with approval of the application.

The financial condition, managerial resources and future prospects of Applicant are dependent upon those same conditions as they exist in Bank. Although the financial condition of Bank is regarded as generally satisfactory, Applicant plans to provide Bank with additional equity capital, which should strengthen Bank. Managerial resources and future prospects of Bank are regarded as satisfactory, and consistent with approval of the application. There is no evidence that the proposal would have any immediate effect on the convenience and needs of the area served by Bank. However, Applicant's injection of equity capital will enable Bank to make larger loans. Considerations relating to the convenience and needs of the community to be served are consistent with approval of the application. It is the Board's judgment that the transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Board of Governors,[1] effective August 17, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.73-17990 Filed 8-23-73;8:45 am]

KEMMERER CORP.

Order Approving Transaction Under Bank Holding Company Act

The Kemmerer Corporation, New York, New York ("Kemmerer"), a registered bank holding company owning 46.7 percent of the voting shares of The First National Bank of Kemmerer, Kemmerer, Wyoming ("Bank"), has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to exchange the interest it holds in Bank for 50 percent or more of the voting shares of First Wyoming Bancorporation ("First Wyoming").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Kemmerer and its subsidiaries apparently engage in impermissible nonbanking activities, not eligible for grandfather privileges under the Act. Kemmerer has indicated to the Board its intention to cease to be a bank holding company. Accordingly, on the basis of the record, the application is approved for the reasons summarized in the Board's Order of this date relating to the application of First Wyoming to become a bank holding company, provided that Kemmerer cease to be a bank holding company within one year from the date of this Order. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Board of Governors,[1] effective August 17, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.73-17988 Filed 8-23-73;8:45 am]

NBS FINANCIAL CORP.

Acquisition of Bank

NBS Financial Corporation of Southfield, Michigan, has applied for the Board's approval under Section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 90 per cent or more of the voting shares of National Bank of Royal Oak, Royal Oak, Michigan. The factors that are considered in acting on the application are set forth in Section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than September 13, 1973.

Board of Governors of the Federal Reserve System, August 17, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.73-17982 Filed 8-23-73;8:45 am]

NORTHWEST BANCORP.

Order Conditionally Approving Acquisition of T. G. Evensen & Associates, Inc.

Northwest Bancorporation, Minneapolis, Minnesota, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of T. G. Evensen & Associates, Inc., Minneapolis, Minnesota ("Evensen"), a company that engages in the activity of providing financial advice to State and local governmental units. Such activity has been determined by the Board to be closely related to banking (12 CFR 225.4(a)(5)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (37 F.R. 5775). The time for filing comments and views has expired, and the Board has considered all comments received, including those received at an oral presentation on the application, held at the Federal Reserve Bank of Minneapolis on October 17, 1972, in the light of the public interest factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)).

Applicant controls 79 banks[1] located in Minnesota, Montana, Nebraska, North Dakota, South Dakota, Wisconsin, and Iowa, with aggregate deposits of $4.8 billion. Forty-nine of the banks are located in the State of Minnesota and together hold total deposits amounting to $2.78 billion or approximately 24 percent of total commercial bank deposits in the State.[2] Applicant is the second largest banking organization in the State of Minnesota.

Evensen advises State and local governmental units in Minnesota, Wisconsin, North Dakota, South Dakota, Iowa, and Nebraska. More than 70 percent of its business derives from clients in the State of Minnesota, and, during 1971, Evensen advised on 20.8 percent of the bonds issued by State and local government units in Minnesota, based on the face amount of such bond issues. Evensen, with gross receipts of $315,000 for its fiscal year ended September 30, 1971, ranks as the largest such bond adviser in Minnesota.

Although subsidiaries of Applicant engage in the underwriting of certain State and local government bond issues and the provision of related services to issuers of such securities, neither Applicant nor any of its subsidiaries engage in the business of providing advice concerning bond issuance to State and local governments. Evensen does not engage in the underwriting of bond issues nor any other activity engaged in by Applicant. Accordingly, consummation of the proposed transaction would have no adverse effect on existing competition in any line of commerce. To the contrary, such consummation may have a beneficial effect on existing competition by foreclosing the possibility of a merger of Evensen with one of its existing competitors. Each of Evensen's principal competitors, prior to the making of this application, separately offered to acquire the shares that Applicant here seeks to acquire.

In the Board's opinion, Applicant is not a likely *de novo* entrant into State and local governmental bond issuance advising. The economic incentive for such entry is not great, as may be adduced from the fact that there are only six firms in the nation engaged solely in this line of commerce. Evensen itself has been in the business for forty-four years and is considered a major bond consultant in the Minneapolis area. Yet, its average annual earnings over the last five years approximate only $47,000. The barriers to entry into the bond consultant business are high, not in terms of capital and licenses, but rather in terms of the degree of highly specialized expertise necessary to properly advise State and local governmental units on the issuance of bonds. It appears that successful advising requires a combination of skills in the assessment of financial needs of clients, familiarity with public finance, and tax laws, and a thorough and current knowledge of bond markets. In brief, considerably more is required of a qualified bond adviser than is required of a bond salesman. The Board has no doubt that Applicant has the financial and managerial resources to eventually develop the required expertise within its own organization. However, absent the hiring away of qualified personnel from existing firms, it may take a considerable time to do so and significant losses may be expected to be incurred during the start-up period. Given the lack of significant profit potential described above, it is the Board's judgment that the likelihood that Applicant will pursue the *de novo* route is remote.

Three competitors of Evensen and one bank engaged in the underwriting of State and local governmental bond issues (hereinafter collectively referred to as "the protestants") have opposed the subject application asserting that consummation of the proposed transaction would have the possible adverse effects of conflicts of interests, misuse of confidential information, and unfair competition. However, the protestants have expressly indicated that they in no way question the ethics or integrity of either Applicant or Evensen, which are of the highest order. Rather, their concern, as is that of the Bank Holding Company Act, is with "possible adverse effects". Briefly stated, the protestants contend that any affiliation between a bond issuance adviser and a bank holding company creates conflicts of interests, primarily between the advisory role and the roles of subsidiaries of the holding company as potential underwriters, paying agents, depositories of bond proceeds, and investment outlets for bond proceeds. In the case of any such affiliation, they contend, an economic incentive is present for the affiliated adviser to falsify, distort or withhold information from, and color or frame advice to, State and local governmental units in such a way as to encourage those clients either to utilize the services of the affiliates of the adviser where independent advice and information would suggest otherwise or to take those services on terms or conditions less favorable to the client than might be obtainable by the client were it to receive objective advice. The protestants further contend that, as a result of the affiliation, Applicant's subsidiaries possibly would have access to confidential information, provided to Evensen by State and local governments, and that access to such information could give Applicant's subsidiaries unfair advantages over their competitors, particularly in the area of bidding on bond issues and the formation of underwriting syndicates. The consequence of such possibilities, should they come to fruition, would enable Applicant to subsidize the fees of Evensen with the revenues derived from such activities, according to the protestants, with the ultimate consequence of threatening the survival of the protestants that compete with Evensen. Thus, they contend, the affiliation creates a possibility for unfair competition.

Section 4(c)(8) of the Act directs the Board to consider "possible" adverse effects of proposed acquisitions. However, the amount of weight to be accorded to "possible" adverse effects in the balancing process that is contemplated by section 4(c)(8) depends directly upon the likelihood of the occurrence of such effects.[3] Presumably the business ethics of both Evensen and Applicant and the likelihood, attested to by both sides of the instant controversy, that, should an affiliated adviser engage in any of the questionable practices asserted by the protestants, its reputation would be so damaged as to bring into question its future business survival,[4] lessen the likelihood that possible conflicts of interest would be realized.

Of the more than 2,500 issues on which Evensen has advised over the past 43 years, 98 percent were sold on the basis of published invitation for competitive sealed bids. The competitors of Evensen that have objected to this application have admitted that they have had a similar experience. In fact, even where competitive bids are not required by law, it is Evensen's general practice, as well as that of the adviser industry generally, to recommend the use of competitive bid procedures in the case of all issues with general market appeal. Where such procedures are used, the ability of the adviser to unfairly influ-

[1] Voting for this action: Chairman Burns and Governors Brimmer, Sheehan, Bucher, and Holland. Absent and not voting: Governors Mitchell and Daane.

[1] Voting for this action: Chairman Burns and Governors Brimmer, Sheehan, Bucher, and Holland. Absent and not voting: Governors Mitchell and Daane.

[1] There is presently pending before the Board an application by Applicant to acquire one bank located in the State of Iowa, with aggregate deposits of approximately $75 million. Applicant recently received approval to acquire two other banks in Iowa with deposits of $43 million.

[2] Deposit data are as of December 31, 1972.

[3] Statement of Board accompanying Order Conditionally Approving Proposal of NCNB Corporation to Operate a Trust Company in South Carolina, 1973 *Fed. Res. Bulletin* 305, at 306 (March 9, 1973).

[4] This may account for the fact that, despite the provision of advice to tax-exempt bond issuers by many municipal bond underwriters, the protestants, under direct questioning at the oral presentation, cited no actual instance of the abuses alleged.

V 38-164 AUG 24 73 XUM

ence the issuer in the selection of an underwriter is therefore considerably diminished. However, where competitive bid procedures are not used, that is, where issues are sold by negotiation between the issuer and possible underwriters, the possibility of undue influence by the adviser is both obvious and real. The Board, therefore, in approving this application, conditions such action on Applicant and its subsidiaries refraining from participation in the sale of Evensen-advised issues that are not sold pursuant to competitive bids. In addition, in order to ensure the confidentiality of information in Evensen's possession, the Board conditions its approval on Evensen refraining from making any information with respect to its clients available to Applicant or its subsidiaries not available at the same time to others.

Conflicts of interests between Applicant's dual role as adviser-paying agent, adviser-depository, and adviser-investment outlet may arise if Evensen, as a subsidiary of Applicant, advises issuers as to the selection of paying agents, depositories, or investment outlets. However, it is Evensen's general practice and that of the adviser industry, generally, to recommend that the purchaser of the bonds, rather than the issuer, designate the paying agent. This being the case, it appears that Evensen has no influence over such designation. Similarly, it is Evensen's general practice to refrain from participation in the selection of depositories for the proceeds of bond issues, and, rather than recommend a particular interim investment for the proceeds of an issue until needed, to recommend that the issuer seek informal competitive bids for such proceeds and accept that bid providing the highest return. However, there is nothing to assure that Evensen's present practices in these regards would continue if the proposed transaction is consummated. Therefore, the Board conditions its approval of the instant application upon the continuation of these practices. Further, the Board believes that prospective clients should be alerted to the affiliation of Evensen and Applicant and also conditions its approval upon the requirement that such affiliation be clearly disclosed on all advertising and letterheads. In addition, in order to obviate any possibility that Evensen will compete unfairly with its other competitors, the Board conditions its approval upon the requirement that Evensen shall continue to offer its services on an explicit fee basis.

In accordance with the Congressional directive contained in section 4(c)(8), the Board has examined the public benefits that may be expected to result from approval of the application and finds that they outweigh any "possible adverse effects", especially in view of the conditions that the Board is imposing as part of its approval. In the Board's judgment, Applicant's acquisition of Evensen will enable Evensen to geographically expand into areas where issuers are not presently served by advisers. The benefit to the public from sound financial management of State and municipal finances is obvious, and needs no detailed explanation here; an expansion in the supply of competent financial advice to meet such needs is, therefore, a strong public benefit. Furthermore, consummation would make available to Evensen capital and other resources to maintain and increase Evensen's specialized staff, improve and expand its product market and, in some measure, provide an orderly solution to a management succession problem occasioned by the age of Evensen's founder and sole owner.

Before, during, and after the oral presentation held at the Federal Reserve Bank of Minneapolis, referred to above, protestants raised two procedural objections to the Board's processing of this application: (1) They contended the Board should have held a formal trial-type hearing with right to cross-examine and subpoena witnesses; and (2) that the Board's regulations (§ 225.4(a)(5) of Regulation Y) which permits bank holding companies, subject to the provisions of § 225.4(b), to provide financial advice to State and local governments, was improperly adopted and should be declared invalid. The Board believes that both of such contentions are without substance and, for the reasons hereinafter stated, protestants' requests that a formal hearing be held and for invalidation of § 225.4(a)(5) are denied.

Prior to 1970, section 4(c)(8) permitted the Board to act only "after due notice and hearing, and on the basis of the record made at such hearing by order • • •". That section was specifically amended by the Bank Holding Company Act Amendments of 1970 to delete the requirement that the Board act only after a hearing and "on the basis of the record" at such hearing. Accordingly, since the hearing requirements of the Administrative Procedure Act apply only to a "case of adjudication required by statute to be determined on the record" (5 U.S.C. 554(a)), the Board does not believe a formal trial-type hearing is required where protests are filed to an application under section 4(c)(8) of the Act. Further, a review of the 196-page transcript of the oral presentation that was held at the Federal Reserve Bank of Minneapolis and the voluminous additional exhibits and briefs submitted by participants leads the Board to conclude that the Board's procedures in this case met the Congressional intention of providing "opportunity for hearing" in section 4(c)(8) of the Act and did not deprive the protestants of their "due process of law" rights provided by the Fifth Amendment to the United States Constitution. *Commercial National Bank of Little Rock* v. *Board of Governors of the Federal Reserve System*, 451 F. 2d 86 (8th Cir. 1971); *Kirsch* v. *Board of Governors of the Federal Reserve System*, 353 F. 2d 353 (6th Cir. 1965); and *Northwest Bancorporation* v. *Board of Governors of the Federal Reserve System*, 303 F. 2d 832 (8th Cir. 1962). In addition, protestants misconstrue the Board's Rules of Practice for Formal Hearings (12 CFR 263) as authorizing subpoena of witnesses. Those Rules (12 CFR 263.7) authorize the subpoena of witnesses only where the statute, pursuant to which a formal hearing is held, authorizes subpoena of witnesses; the Bank Holding Company Act contains no such authorization.

The Board has also considered protestants' claim that they need the right of cross-examination to bring out certain information with respect to the application (transcript pages 157–59, and 172; protestants' Memorandum in Opposition to Application, pages 8, 13, and 19). The Board concluded that such issues are either immaterial to the Board's decision, are not susceptible to cross-examination, or have been rendered moot in light of the Board's conditional approval.

In sum, the Board concludes that protestants were given ample opportunity to be heard, that their views were fully considered and understood by the Board in reaching its decision, that they are not legally entitled to a formal trial-type hearing, and that it would have served no useful purpose to hold such a hearing in connection with this application.

In addition, protestants question the validity of the Board's action of June 6, 1972 (37 FR 11771) when it amended § 225.4(a)(5) of Regulation Y to, *inter alia*, specifically provide that bank holding companies may, subject to the procedures of § 225.4(b), "act as investment or financial adviser to the extent of . . . (v) providing financial advice to State and local governments, such as with respect to the issuance of their securities. Prior to the amendment, the Regulation was more generally worded and contained the word "including" after "acting as investment or financial adviser" rather than the more limiting term "to the extent of". At the time of the 1972 amendment, the Board stated that its purpose was "to indicate in more precise terms [the Board's] intent in permitting bank holding companies to act 'as investment or financial adviser'" and that the Administrative Procedure Act requirements of notice and public participation "were not followed with respect to this matter because it clarifies rather than changes a substantive rule". A review of the history of this regulatory provision indicates that the requirements of the Administrative Procedure Act for notice and public comment and hearing were clearly followed by the Board with respect to the adoption of section 225.4(a) in 1971 and that the regulation, as then adopted, would have permitted the activity in question. Accordingly, and for other reasons, the Board is of the opinion that its 1972 action was within the exemption provided by section 553(b) of the Administrative Procedure Act for "interpretive rules" and that prior notice and public participation was unnecessary. *Continental Oil Co.* v. *Burns*, 317 F. Supp. 194 (D.C. Del 1970); *Garelick Mfg. Co.* v. *Dillon*, 313 F. 2d 899 (D.C.D.C. 1963); *Sav-On Drugs, Inc.* v. *Cunes*, 12 P & F Admin. Law 2d 848 (D.C.N.J. 1962). Furthermore, even assuming *arguendo* that the Board's 1972 action was invalid, protestants may not be heard

to complain because the Board has the authority to proceed with respect to applications under section 4(c)(8) "by order or regulation" and, as indicated above, protestants have had ample opportunity to participate in this proceeding.

Based upon the foregoing and other considerations reflected in the record,* the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved, provided: (1) Evensen shall not make available to Applicant or its other subsidiaries any information with respect to its clients not available at the same time to others; (2) the affiliation of Evensen and Applicant shall be clearly disclosed on all advertising and letterheads; (3) Evensen shall continue to offer its services on an explicit fee basis; (4) where Evensen-advised issues are not to be sold pursuant to competitive bids, Applicant and its other subsidiaries may not participate in their sale; and (5) Evensen shall continue its practices of (i) recommending that the purchaser of the bonds be authorized to name the paying agent; (ii) refraining from participation in the selection of a depository for the bond proceeds; and (iii) recommending that the issuer obtain bids before selecting an interim investment outlet for bond proceeds. This order is also subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof. The transaction shall not be consummated later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Minneapolis, pursuant to delegated authority granted herewith.

By order of the Board of Governors,[5] effective August 16, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

PALMER BANK CORP.

Acquisition of Bank

Palmer Bank Corporation, Sarasota, Florida, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent (less directors' qualifying shares) of the voting shares of the following banks all located in Florida: Bradenton Palmer National Bank, Bradenton; Fort Myers Palmer National Bank, Fort Myers Palmer National Bank, Fort Myers; and Naples Palmer Bank and Trust Company, N. A., Naples, all proposed new banks. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank, to be received not later than September 5, 1973.

Board of Governors of the Federal Reserve System, August 17, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.73-17983 Filed 8-23-73;8:45 am]

PAN AMERICAN BANCSHARES, INC.

Order Approving Acquisition of Atico Financial Corp.

Pan American Bancshares, Inc., Miami, Florida, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of Atico Financial Corporation, Miami, Florida ("Atico Financial"), and thereby to indirectly acquire shares of Atico Advisory Corporation ("Atico Advisory"), and Construction Supervisory Services ("Construction Supervisory"), wholly owned subsidiaries of Atico Financial.[1] Atico Advisory engages in the activity of acting as investment adviser to Atico Mortgage Investors, a publicly-owned real estate investment trust. Construction Supervisory engages in the activity of inspecting the progress of real estate construction projects and disbursing progress payments principally in connection with loans originated or serviced by bank or nonbank subsidiaries of Applicant. Such activities have been determined by the Board to be closely related to the business of banking. (12 CFR 225.4(a)(5), (1) and (3)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors has been duly published (38 FR 3013).[2]

Applicant controls eleven banks with aggregate deposits of approximately $437 million representing 2.2 percent of the total commercial bank deposits in Florida. Applicant's lead bank, Pan American Bank of Miami, holds $144 million in deposits. (All banking data are as of December 31, 1972.) One of Applicant's banking subsidiaries has a nonbanking subsidiary engaged in mortgage banking.

Atico Financial, which has total assets of $21.4 million, is primarily a holding company with its operating activities conducted through its four subsidiaries.

Atico Advisory, with its only office in Miami (Dade County), Florida, acts as the sole investment adviser to Atico Mortgage Investors ("Investors"), a publicly-owned, real estate investment trust primarily engaged in the business of making large construction and development loans for its own portfolio. Since Atico Advisory performs solely under an exclusive agreement with Investors, there is no competition from other investment advisory firms. However, Atico Advisory does compete with many other real estate investment trust advisory firms on a national scale in respect to the solicitation of mortgage loan applications and competes to a lesser extent with mortgage bankers and commercial banks with respect to the solicitation of real estate construction and development loans. Neither Applicant nor any of its subsidiaries are currently engaged in providing investment adviser services.

Construction Supervisory, with its only office located in Miami (Dade County), Florida, engages in the activity of inpecting the progress of real estate construction projects and disbursing progress payments principally in connection with loans originated or serviced by bank or nonbank subsidiaries of Applicant, for Atico Advisory, or for the public. Neither Applicant nor any of its subsidiaries are currently engaged in providing such services.

The relevant product market in which the Board analyzes the competitive aspects of the proposed transaction is construction and development lending

* Dissenting Statement of Governor Brimmer filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to the Federal Reserve Bank of Minneapolis.

[5] Voting for this action: Chairman Burns and Governors Daane, Sheehan, Bucher, and Holland. Voting against this action: Governor Brimmer. Absent and not voting: Governor Mitchell.

[1] Applicant has also submitted a section 4(c)(13) application for the acquisition of another subsidiary of Atico Financial, Aseguradora Suizo Americana, S.A., a general insurance underwriter in Guatemala City, Guatemala. By a separate letter of this date, Applicant was informed that if Atico is acquired, Applicant will be required to divest itself of this insurance company within one year from the date of consummation.

[2] The published notice of this application included notice of a related application to acquire Atico Insurance Agency, Inc. "(Atico Insurance"), another subsidiary of Atico Financial, and thereby to engage in certain insurance activities. However, in light of objections to these insurance activities, Applicant requested that the Board consider the applications separately. Atico Financial has arranged a divestiture to an independent purchaser with a repurchase agreement to become effective upon Board determination that the agency may be owned by Applicant. Applicant's request for Board approval to acquire Atico Insurance is pending the outcome of hearings ordered by the Board. Accordingly, the Board's Order herein deals only with the proposed acquisition of Atico Financial and two of its subsidiaries, Atico Advisory and Construction Supervisory.

V38-164 AUG 24 73 XUM

since both Investors[4] and several of Applicant's Subsidiaries make large construction loans on income property. Investors and Applicant's lead bank both originated large construction loans in Dade County in 1971. Approximately one-third of Investors' total commitments in 1971 were in Dade County. Investors' average loan commitment in Dade County in 1971 was more than $2.0 million; Applicant's lead bank's average commitment on similar types of loans was $1.2 million. Because the relevant market for those loans is broader than Dade County[4] and because many large organizations compete in that market,[4] consummation of the proposal would have no significantly adverse effect on competition. The proposed transaction would eliminate Investors as a competitor of Applicant in Dade County only; other than Dade County, Investors did not originate loans in areas where Applicant's subsidiaries operate.

Since Atico Financial is already closely related to Applicant and its subsidiaries,[4] its acquisition by Applicant is not likely to affect the services offered by Applicant's subsidiaries. Financial factors are consistent with and, in fact, lend some weight to approval in view of the beneficial effect Atico Financial's portfolio of high-grade marketable securities should have on the liquidity and earnings capacity of Applicant. As a result thereof Applicant's ability to provide contributions of capital to its subsidiaries to the extent needed will be strengthened. There is no evidence in the record indicating that consummation of the proposed acquisition would result in any undue concentration of resources, unfair competition, conflicts of interest, unsound banking practices or other adverse effects.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in section 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof. The transaction shall be consummated not later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[7] effective August 16, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.73-17989 Filed 8-23-73;8:45 am]

[4] Although Investors is not a subsidiary of Atico Financial, Atico Financial has considerable influence over Investors' decisions due to the fact that Investors' sole adviser, Atico Advisory, is a subsidiary of Atico Financial.

[4] The market for such loans is at least regional.

[4] Applicant's lead bank and Investors are both small in comparison with other construction and development lenders in the Nation. The combined total of Investors and Applicant's lead bank's commitments in Dade County in 1971 ($52.6 million) was only 11 percent of the total of approximately $500.8 million of construction contracts awarded for nonresidential and multifamily residential buildings.

[4] Applicant was organized in April 1968 as a wholly-owned subsidiary of Atico Financial. By order dated February 3, 1969, the Board approved Applicant's application to become a bank holding company through the acquisition of control of three Florida banks from Atico Financial. Atico Financial presently owns approximately 19 percent of the shares of Applicant and directors of Applicant own approximately 61 percent of the voting shares of Atico Financial. In addition, certain directors and officers of Atico Financial serve in similar capacities with Applicant and its lead bank.

[7] Voting for this action: Chairman Burns and Governors Brimmer, Sheehan, Bucher, and Holland. Absent and not voting: Governors Mitchell and Daane.

NATIONAL TRANSPORTATION SAFETY BOARD

[Docket No. SA-439]

AIRCRAFT ACCIDENT AT BOSTON, MASS.

Notice of Hearing

In the matter of investigation of accident involving Delta Air Lines, Inc., Douglas DC-9-31 of United States Registry N975NE at Boston, Massachusetts, July 31, 1973, Docket No. SA-439.

Notice is hereby given that an Accident Investigation Hearing on the above matter will be held commencing at 9 a.m. (local time), on September 18, 1973, in the Suburban Ballroom of the Holiday Inn, Peabody, Massachusetts.

Dated this 20th day of August 1973.

[License No. 05/05-5095]

MVC, INC.

Issuance of License To Operate as a Small Business Investment Company

On July 5, 1973, a notice was published in the FEDERAL REGISTER (38 FR 17887) stating that MVC, Inc., located at Suite 402, First Bank Building, 133 South Main, South Bend, Indiana 46601, had filed an application with the Small Business Administration, pursuant to 13 CFR 107.701 (1973) for a license to operate as a small business investment company under the provisions of sec. 301(d) of the Small Business Investment Act of 1958 (the Act).

The period for comment ended July 20, 1973.

Notice is hereby given that, having considered the application and all other pertinent information, SBA has issued License No. 05/05-5095 to MVC, Inc., pursuant to said Sec. 301(d) of the Act.

Dated: August 16, 1973.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

[FR Doc.73-17958 Filed 8-23-73;8:45 am]

WESTERN CAPITAL CORP.

[License No. 06/10-0075]

Notice of Filing of Application for Transfer of Control of Licensed Small Business Investment Company

Notice is hereby given that application has been filed with the Small Business Administration (SBA) pursuant to § 107.701 of the Regulations governing small business investment companies (13 CFR 107.701) (1973) for transfer of control of Western Capital Corporation (Western) 2123 First National Bank Tower, Dallas, Texas 75202, a Federal Licensee under the Small Business Act of 1958, as amended (the Act), (15 U.S.C. 661 et seq.).

Western which was licensed on October 9, 1961, will have paid-in capital and paid-in surplus from private sources of approximately $307,356. The transfer of control is being made pursuant to purchase and sales agreements between Western, acting as trustee for its stockholders and Harold L. Knop, 1319 Davis Building, 1309 Main Street, Dallas, Texas 75202.

The proposed transfer of control is subject to and contingent upon approval of SBA.

After the proposed transfer of control, the officers, directors and principal stockholders are as follows:

Harold L. Knop, 5110 Redbrook Place, Dallas, Texas 75220, Director, President, Treasurer.
Doris R. Knop, 5110 Redbrook Place, Dallas, Texas 75220, Director, Vice President, and Secretary.
William H. Hollweg, 4327 Bobbitt Drive, Dallas, Texas 75229, Director, Assistant Secretary.

Harold L. Knop will own 100% of the Licensee's stock.

It is contemplated that the Licensee's office will be transferred to 1319 Davis Building, 1309 Main Street, Dallas, Texas 75202.

Matters involved in SBA's consideration of the application include the general business reputation and character of the new owners, and the probability of successful operations of the company in accordance with the Act and Regulations.

Notice is further given that any interested person may, not later than September 10, 1973, submit to SBA, in writing, relevant comments on the proposed transfer of control. Any such communications should be addressed to: Associate Administrator for Finance and Investment, Small Business Administration, 1440 L Street NW., Washington, D.C. 20416.

A copy of this notice shall be published by the transferee in a newspaper of general circulation in Dallas, Texas.

Dated: August 16, 1973.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

TARIFF COMMISSION

REPORTS TO THE PRESIDENT ON BALL BEARINGS

Notice of Affirmative Determination

The U.S. Tariff Commission today reported to the President that it had made an affirmative determination in part in its investigation (TEA-I-27) of antifriction balls, ball bearings, and parts thereof under section 301(b)(1) of the Trade Expansion Act of 1962. The investigation was made in response to a petition filed in January 1973 by the Anti-Friction Bearing Manufacturers Association, Inc.

In the investigation the majority of the Commission (Chairman Bedell, Vice Chairman Parker, and Commissioner Moore) found (1) ball bearings (except radial ball bearings having an outside diameter of under 9 millimeters (the so-called miniature bearings) and except ball bearings imported from Canada under the duty-free entry provided by the Automotive Products Trade Act of 1965) are, as a result in major part of concessions granted thereon under trade agreements, being imported in such increased quantities as to cause serious injury to the domestic industry or industries producing like or directly competitive products; and (2) that, in order to prevent serious injury, the rates of duty must be increased on ball bearings with integral shafts provided for in item 680.33 of the Tariff Schedules of the United States (TSUS) to 12 percent ad valorem and on ball bearings (except radial ball bearings having an outside diameter of under 9 millimeters) provided for in item 680.35 of the TSUS to 3.4 cents per pound plus 15 percent ad valorem. The rates of duty found by the majority of the Commission to be necessary are those that were in effect before the Kennedy Round of trade-agreement negotiations under the General Agreement on Tariffs and Trade (GATT). The present rates are 6 percent ad valorem (item 680.33 and 1.7 cents per pound plus 7½ percent ad valorem (item 680.35).

The Commission majority also found that antifriction balls provided for in item 680.30 and ball bearings, radial, having an outside diameter of under 9 millimeters provided for in item 680.35 of the TSUS are not, as a result in major part of concessions granted thereon under trade agreements, being imported into the United States in such increased quantities as to cause, or threaten to cause, serious injury to the domestic industry or industries producing like or directly competitive products. They made no finding with respect to antifriction balls and ball bearings imported from Canada under the duty-free entry provided by the Automotive Products Trade Act of 1965, as provided for in items 680.31, 680.34, and 680.36 of the TSUS or parts provided for in 680.35 of the TSUS.

The findings of Commissioner Young differed in part from those of the majority of the Commission. He found that ball bearings and parts thereof provided for in item 680.35 of the TSUS and antifriction balls and ball bearings that enter duty-free from Canada as provided for in items 680.31, 680.34, and 680.36 are, as a result in major part of concessions granted thereon under trade agreements, being imported in such increased quantities as to cause serious injury to the domestic industry or industries producing like or directly competitive products. In order to prevent serious injury, Commissioner Young found (1) that a tariff quota must be imposed on imports of ball bearings and parts thereof classifiable under 680.35, providing for each of the pertinent 7-digit TSUS classes in item 680.35 that the present rate of duty shall be applicable to imports of articles each calendar year until a volume equivalent to that entered in 1970 is imported, and the statutory rate of duty shall be applicable to imports of articles entered in excess of that volume; (2) that the tariff quotas should be adjusted each subsequent calendar year to amounts that would be equivalent to the same share of current U.S. consumption as in 1970; and (3) that the rates of duty on antifriction balls and ball bearings that enter duty free from Canada must be increased to 4 cents per pound plus 12.5 percent ad valorem for such articles classified under item 680.31, 12

V 38-164 AUG 24 73 XUM

percent ad valorem for those classified under item 680.34, and 3.4 cents per pound plus 15 percent ad valorem for those classified under item 680.36.

Commissioner Young also found that antifriction balls provided for in item 680.30 and ball bearings with integral shafts provided for in item 680.33 of the Tariff Schedules of the United States are not, as a result in major part of concessions granted thereon under trade agreements, being imported into the United States in such increased quantities as to cause, or threaten to cause, serious injury to the domestic industry or industries producing like or directly competitive products.

Commissioners Leonard and Ablondi did not participate in the decision in this case.

Copies of the public report (TC Publication 597), which contains statements of the reasons for the Commissioners' findings, will be released as soon as possible. Copies will be available on request as long as the supply lasts. Requests should be addressed to the Secretary, U.S. Tariff Commission, 8th and E Sts., NW., Washington, D.C. 20436.

By order of the Commission.

Released July 30, 1973.

[SEAL] KENNETH R. MASON,
Secretary.

[AA1921-129]

POLYCHLOROPRENE RUBBER FROM JAPAN

Rescheduling of Hearing Date

Notice is hereby given that the hearing in Investigation No. AA1921-129, scheduled to be held in the Tariff Commission's Hearing Room, Tariff Commission Building, 8th and E Streets, NW., Washington, D.C., beginning at 10 a.m. e.d.t., on September 20, 1973, has been rescheduled for 10 a.m. e.d.t., on Friday, September 28, 1973. Requests to appear at the public hearing should be received by the Secretary of the Tariff Commission, in writing, at its offices in Washington, D.C., not later than noon, Friday, September 21, 1973.

The hearing is being held in connection with a Commission investigation under the provisions of section 201(a) of the Antidumping Act, 1921, as amended, to determine whether an industry in the United States is being or is likely to be injured, or is being prevented from being established, by reason of the importation of polychloroprene rubber from Japan which the Assistant Secretary of the Treasury has determined is being, or is likely to be, sold at less than fair value. Notice of the investigation was published in the FEDERAL REGISTER of Friday, August 17, 1973 (38 FR 22258).

By order of the Commission.

Issued August 21, 1973.

[SEAL] KENNETH R. MASON,
Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice No. 327]

ASSIGNMENT OF HEARINGS

AUGUST 21, 1973.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after August 24, 1973.

MC-113855 Sub 267, International Transport, Inc., now assigned September 17, 1973, will be held at the Los Angeles Hilton Hotel, 930 Wilshire Blvd., Los Angeles, Calif., instead of in Room 8544, 300 North Los Angeles Street.

MC 263 Sub 205, Garrett Freightlines, Inc., now assigned October 29, 1973, at Denver, Colo., is advanced to October 1, 1973, at Denver, Colo., in a hearing room to be later designated.

MC 136420 Sub 1, Oklahoma Border Express, Inc., now assigned September 24, 1973 (2 weeks), at Oklahoma City, Okla., will be held in Room 4212, U.S. Courthouse & Office Building, 4th & Robinson Streets.

MC 109172 Sub 10, National Transfer, Inc., now assigned September 19, 1973, at Olympia, Wash., is postponed indefinitely.

MC-F-11673, Reliance Truck Company—Purchase—Daigh & Stewart Truck Co., and MC 54567 Sub 12, Reliance Truck Company, now assigned September 17, 1973, at Phoenix, Arizona, will be held in Room 2, Arizona Corporation Commission, 1688 West Adams Street.

MC 136564 Sub 1, Shippers Leasing, Inc., now assigned September 24, 1973, at San Francisco, Calif., will be held in Room 15018, 15th Floor, 450 Golden Gate Avenue.

MC 127042 Sub 113, Hagen, Inc., now assigned September 26, 1973, at Seattle, Wash., will be held in Judge Wrights Court Room 815, U.S. Courthouse, 1010 5th Avenue.

MC-C-7866, Puget Sound Truck Line, Inc., Investigation and Revocation of Certificates, now assigned October 1, 1973, MC 117304 Sub 29, Don Paffile, Dba Paffile Truck Lines, Extension Buildings and Component Parts, now assigned October 3, 1973, MC 113855 Sub 272, International Transport, Inc., now assigned October 2, 1973, and MC 113678 Sub 480, Curtis, Inc., now assigned October 4, 1973, at Seattle, Wash., will be held in the U.S. Customs Court Room 1057, 909 First Avenue.

No. 35820, Big Mac Trucking Co., Thunderbird Cartage Corporation, and Thyssen Steel Corporation—Investigation of Operations and Practices, now assigned September 10, 1973 (2 days) at Houston, Texas, will be held in Room 7006, Federal Building & U.S. Courthouse, 515 Rusk Avenue.

I&S No. 8863, Switching and Minimum Carload Charges, Houston, Texas, now assigned September 12, 1973 (3 days), at Houston, Texas, will be held in Room 7006, Federal Building & U.S. Courthouse, 515 Rusk Avenue.

MC-F-11796, Canada Steamship Lines, Limited—Control — Strickland Transportation Co., Inc., now assigned September 17, 1973 (1 week), at Dallas, Texas, will be held in Room 310, Baker Hotel, 1400 Commerce Street.

MC-92633 Sub 22, Zirbel Transport, Inc., now assigned October 29, 1973, at Portland, Oreg., is postponed indefinitely.

MC 95876 Sub 135, Anderson Trucking Service, Inc., now being assigned hearing September 26, 1973 (3 days), at Court Room 2, Federal Bldg., 316 N. Robert Street, St. Paul, Minn.

MC 26396 Sub 51, Popelka Trucking Co., DBA The Waggoners, MC 26396 Sub 63, Popelka Trucking Co., DBA The Waggoners, now assigned continued hearing September 26, 1973, at Missoula, Mont., is postponed to October 15, 1973 (3 days), Missoula, Mont.

MC-C-7777, Allied Van Lines, Inc.—Investigation and Revocation of Certificates—, now being assigned October 9, 1973 (4 days), at Chicago, Ill., in a hearing room to be later designated.

MC 105045 Sub 40, R. L. Jeffries Trucking Co., Inc., now being assigned October 15, 1973 (1 day), at Chicago, Ill., in a hearing room to be later designated.

MC 22278 Sub 43, Takin Bros. Freight Line, Inc., now being assigned October 16, 1973 (1 day), at Chicago, Ill., in a hearing room to be later designated.

MC 107012 Sub 179, North American Van Lines, Inc., now being assigned October 17, 1973 (3 days), at Chicago, Ill., in a hearing room to be later designated.

[SEAL] ROBERT L. OSWALD,
Secretary.

FOURTH SECTION APPLICATION FOR RELIEF

AUGUST 21, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of sec. 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with rule 1100.40 of the general rules of practice (49 CFR 1100.40) and filed by September 10, 1973.

FSA No. 42735—*Asphalt (Asphaltum) to Points in Southern Territory.* Filed by Southwestern Freight Bureau, Agent, (No. B-430), for interested rail carriers. Rates on asphalt (asphaltum), natural byproduct of petroleum, other than paint, stain or varnish, in carloads, as described in the application, from points in Arkansas, Kansas, Louisiana, Missouri, Oklahoma and Texas, to points in southern territory.

Grounds for relief—Rate relationship and market competition.

Tariff—Supplement 72 to Southwestern Freight Bureau, Agent, tariff 126-L, ICC No. 4789. Rates are published to become effective on September 18, 1973.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

[Notice No. 340]

MOTOR CARRIER TRANSFER PROCEEDINGS

AUGUST 21, 1973.

Application filed for temporary authority under sec. 210a(b) in connection with transfer application under sec. 212 (b) and Transfer Rules, 49 CFR Part 1132:

No. MC-FC-74679. By application filed August 16, 1973, R. C. VAN LINES, INC., 1004 Northside Drive, NW., Atlanta, GA. 3318, seeks temporary authority to lease the operating rights of TRANS-WORLD MOVERS, INC., 1462 Elmira St., Aurora, CO, under section 210a(b). The transfer to R. C. VAN LINES, INC., of the operating rights of TRANS-WORLD MOVERS, INC., is presently pending.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON,
Acting Secretary.

INTERIM COMPLIANCE PANEL (COAL MINE HEALTH AND SAFETY)

EASTERN COAL CORP. AND KENTLAND-ELKHORN COAL CORP.

Applications for Renewal Permits; Notice of Opportunity for Public Hearing

Applications for Renewal Permits for Noncompliance with the Interim Mandatory Dust Standard (2.0 mg/m³) have been received as follows:

(1) ICP Docket No. 20018, Eastern Coal Corporation, F-1 Mine, USBM ID No. 15 03793 0, Stone, Kentucky, Section ID No. 001 (Mains).

(2) ICP Docket No. 20019, Eastern Coal Corporation, Stone No. 7 Mine, USBM ID No. 15 04315 0, Stone, Kentucky, Section ID No. 006 (Section No. 25).

(3) ICP Docket No. 20136, Kentland-Elkhorn Coal Corporation, Kentland No. 3 Mine, USBM ID No. 15 02104 0, Mouthcard, Kentucky, Section ID No. 002 (1 left).

In accordance with the provisions of section 202(b)(4) (30 U.S.C. 842(b)(4)) of the Federal Coal Mine Health and Safety Act of 1969 (83 Stat. 742, et seq., Public Law 91-173), notice is hereby given that requests for public hearing as to an application for renewal may be filed within 15 days after publication of this notice. Requests for public hearing must be filed in accordance with 30 CFR Part 505 (35 FR 11296, July 15, 1970), as amended, copies of which may be obtained from the Panel on request.

A copy of the application is available for inspection and requests for public hearing may be filed in the office of the Correspondence Control Officer, Interim Compliance Panel, Room 800, 1730 K Street NW., Washington, D.C. 20006.

GEORGE A. HORNBECK,
Chairman,
Interim Compliance Panel.

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determinations frequently and in large volume causes these procedures to be impractical and contrary to the public interest.

General wage determination decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and supersedeas decisions to general wage determination decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the modifications and supersedeas decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federation Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing general wage determination decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and supersedeas decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 C.F.R., Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original general wage determination decision.

NEW GENERAL WAGE DETERMINATION DECISIONS

New General Wage Determination Decision Nos. AQ–4003; AQ–4004; AQ–4005; and AQ–4006, for the State of Florida.

SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Supersedeas decisions to general wage determination decisions for the following States (the numbers of the decisions being superseded and their dates of publication in the FEDERAL REGISTER are listed with each State; supersedeas decision numbers are in parentheses following the number of the decision being superseded):

Iowa:	
AM–2452(AQ–20)	Aug. 25, 1971
AP–529(AQ–19)	May 4, 1973
Pennsylvania:	
AP–486(AQ–2018); AP–467 (AQ–2017)	Jan. 26, 1973
Rhode Island:	
AP–484(AQ–2007)	Mar. 16, 1973
AP–496(AQ–2009); AP–497 (AQ–2010)	Apr. 6, 1973

Signed at Washington, D.C. this 17th day of August 1973.

WARREN D. LANDIS,
Assistant Administrator,
Wage & Hour Division.

REMINDERS

NOTE: There were no items published after October 1, 1972, that are eligible for inclusion in the list of RULES GOING INTO EFFECT TODAY.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 3—The President

PROCLAMATION 4237

Citizenship Day and Constitution Week

By the President of the United States of America

A Proclamation

For nearly two centuries, generations of Americans have cherished the blessing of self-government under the Constitution of the United States—that great charter which William Gladstone called "the most wonderful work ever struck off at a given time by the brain and purpose of man."

Borrowing what seemed best from other representative democracies and devising other elements out of their own genius, the framers of our Constitution erected the balanced and durable system that has weathered so many national crises so well over the decades since. The wise principles they built on—including a federal union of States, a bill of individual rights, and a division of powers among three coequal and independent branches of government—remain as vital today as they were in 1787 for the vigorous pursuit of public purposes and the restraint of arbitrary rule.

Experience has also taught us that constitutional government and democratic citizenship must go hand in hand, for only an informed and active citizenry can breathe life into the institutions of government. It is fitting, then, that the Congress by joint resolutions of February 29, 1952, and August 2, 1956, has ordained that we honor the two together each September, by observing the anniversary of the signing of the Constitution as Citizenship Day and the week following that day as Constitution Week.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, call upon appropriate Government officials to display the flag of the United States on all Government buildings on Citizenship Day, September 17, 1973. I urge Federal, State, and local officials, as well as leaders of civic, educational and religious organizations to conduct appropriate ceremonies and programs on that day.

I also designate as Constitution Week the period beginning September 17 and ending September 23, 1973. I urge all Americans to observe

V 38 ■ 165 AUG 27 73 XUM

the week with such commemorative and educational activities as may foster a better understanding of, and deeper reverence for, the Constitution of the United States.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-third day of August, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-eighth.

Richard Nixon

[FR Doc.73-18244 Filed 8-24-73;10:15 am]

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER III—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

PART 301—DOMESTIC QUARANTINE NOTICES

Subpart—Imported Fire Ant

Correction

In FR Doc. 73-16573, appearing at page 21639 for the issue for Friday, August 10, 1973, make the following corrections:

1. In the first column on page 21640 under "Georgia", in the second line of the entry for Jasper County, "George Militia District", should read "Georgia Militia District".

2. The entry which now reads "Jackson County", should read "Johnson County".

3. The effective date which appears in the second paragraph from the bottom of the first column on page 21641, which now reads "August 9, 1973", should read "August 10, 1973".

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Bartlett Pear Reg. 8, Amdt. 1]

PART 931—FRESH BARTLETT PEARS GROWN IN OREGON AND WASHINGTON

Limitation of Shipments

This amendment extends during the period September 3, 1973, through August 31, 1974, the requirements that pears in several commonly used containers grade U.S. No. 1 and be 180 size, although U.S. No. 2 grade pears may be handled if at least 150 size. Bartlett pears in the western lug shall grade at least U.S. No. 2, and have a minimum size of 2¼ inches. Pears in 14 to 15 pound, net weight, containers shall grade at least U.S. No. 2 and have a minimum size of 2⅛ inches.

On August 7, 1973, notice of proposed rule-making was published in the FEDERAL REGISTER (38 FR 21271) regarding a proposed amendment of Bartlett Pear Regulation 8 which was issued pursuant to the marketing agreement and Order No. 931 (7 CFR, Part 931) regulating the handling of fresh Bartlett Pears grown in Oregon and Washington. This notice allowed interested persons until August 16, 1973, to submit written data, views, or arguments pertaining to this proposed amendment. None were submitted. The proposed amendment was recommended by the Northwest Fresh Bartlett Pear Marketing Committee established pursuant to the said marketing agreement and Order. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). It is hereby found that the amendment, as hereinafter set forth, would tend to effectuate the declared policy of the Act.

This action reflects the Department's appraisal of the need for continued regulation on and after September 3, 1973, based on current and prospective market conditions. The Washington-Oregon Bartlett Pear crop is estimated at 191,000 tons, compared with last season's production of 150,000. Total fresh shipments are expected to total 54,112 tons. Last season's fresh shipments totalled 53,600 tons. This amendment to Bartlett Pear Regulation 8 is designed to prevent the handling on and after September 3, 1973, of lower quality and smaller size Bartlett pears and provide orderly marketing of an adequate supply of acceptable quality Bartlett pears in the interest of producers and consumers, consistent with objectives of the act.

It is hereby further found that good cause exists for not postponing the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of such pears are expected to continue on and after September 3, 1973, when Bartlett Pear Regulation 8 would terminate without amendment and Bartlett Pear Regulation 8 should be applicable to all such shipments in order to effectuate the declared policy of the act; (2) notice of proposed rule making concerning this amendment to Bartlett Pear Regulation 8, with an effective date as hereinafter specified, was published in the FEDERAL REGISTER (38 FR 21271), and no objection to either this amendment or such effective date was received; and (3) compliance with this amendment will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

§ 931.308 Bartlett Pear Regulation 8.

(a) *Order.* During the period August 1, 1973, through August 31, 1974, no handler shall handle any lot of Bartlett pears unless such pears meet the following applicable requirements, or are handled in accordance with paragraphs (a)(4) or (5) of this section:

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674))

Dated: August 22, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-18101 Filed 8-24-73;8:45 am]

PART 946—IRISH POTATOES GROWN IN WASHINGTON

Expenses and Rate of Assessment

This document authorizes the State of Washington Potato Committee to spend not more than $10,050 for its operations during the fiscal period ending June 30, 1974, and to collect one-tenth cent per hundredweight on assessable potatoes handled by first handlers under the program.

The committee is the administrative agency established under Marketing Agreement No. 113 and Order No. 946, both as amended, regulating the handling of Irish potatoes grown in Washington. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

Notice was published in the August 10 FEDERAL REGISTER (38 FR 21648) regarding the proposals. It afforded interested persons an opportunity to file written data, views, or arguments pertaining thereto not later than August 19, 1973. None was filed.

After consideration of all relevant matters, including the proposals set forth in the notice, it is hereby found and determined that the following budget and rate of assessment should be issued:

§ 946.226 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred during the fiscal period ending June 30, 1974, by the State of Washington Potato Committee for its maintenance and functioning and for such other purposes as the Secretary may determine to be appropriate will amount to $10,050.

(b) The rate of assessment to be paid by each handler in accordance with this part shall be one-tenth cent ($0.001) per hundredweight, or equivalent quantity, of potatoes handled by him as the first handler thereof during the fiscal period, except potatoes for canning,

V 38 - 165 AUG 27 73 XUM

freezing, and "other processing" as defined in the act shall be exempt.

(c) Unexpended income in excess of expenses for the fiscal period may be carried over as a reserve.

(d) Terms used in this section have the same meaning as when used in the marketing agreement and this part.

It is hereby further found that good cause exists for not postponing the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) the relevant provisions of this part require that the rate of assessment fixed for a particular fiscal period shall be applicable to all assessable potatoes from the beginning of such period, and (2) the current fiscal period began July 1, 1973, and the rate of assessment herein will automatically apply to all assessable potatoes beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674))

Dated: August 22, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73–18102 Filed 8–24–73;8:45 am]

PART 989—RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

Change in List of Varietal Types

Notice was published in the August 3, 1973, issue of the FEDERAL REGISTER (38 FR 20898), regarding a proposal, pursuant to the marketing agreement, as amended, and Order No. 989, as amended (7 CFR, Part 989), hereinafter referred to collectively as the "order", regulating the handling of raisins produced from grapes grown in California, to change the list of varietal types of raisins set forth in § 989.10 of the order by deleting "Alicante Bouschet", "Cardinal", "Carignane", "Italia", "Malaga", and "Zinfandel" from the list. The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The changed list of varietal types would be set forth as a new § 989.110 in the Subpart—Administrative Rules and Regulations (7 CFR 989.101–989.176, 38 FR 10074, 13012, 14959, 20236).

The notice afforded interested persons an opportunity to submit written data, views, or arguments on the proposal. None were received.

Section 989.10 defines "varietal type" to mean raisins generally recognized as possessing characteristics differing from other raisins in a degree sufficient to make necessary or desirable separate identification and classification. In addition to listing the varietal types, that section also provides that the Raisin Administrative Committee may from time to time, subject to the approval of the Secretary, change this list of varietal types.

Cardinal, Italia, and Malaga grapes are primarily marketed fresh as table grapes and only limited quantities are made into raisins. It is not necessary to have separate identifications and classifications for raisins produced from these varieties of grapes because the raisins possess characteristics which are similar to Muscat (natural (sun-dried) Muscat or Layer Muscat) or Valencia (bleached Muscat) raisins. "Natural (sun-dried) Muscat", "Layer Muscat" and "Valencia" raisins are listed as varietal types in § 989.10. Hence, the Committee unanimously recommended that the list of varietal types of raisins be changed to delete "Cardinal", "Italia", and "Malaga" from the list and that raisins produced from these varieties of grapes be considered to be the applicable Muscat or Valencia raisins for purposes of regulation under the order.

Alicante Bouschet, Carignane, and Zinfandel grapes are wine variety grapes. There have been only insignificant quantities of these grapes dried to raisins since they were included in the order as varietal types of raisins (in 1960). It is not likely that production of raisins from these grape varieties will be in quantities expected to be of any commercial significance which would warrant separate identification and classification. Therefore, these three varietal types are being deleted from the list of varietal types of raisins in § 989.10.

After consideration of relevant matter presented, including that in the notice, the information and recommendation of the Committee, and other available information, the amendment of Subpart—Administrative Rules and Regulations (7 CFR 989.101–989.176, 38 FR 10074, 13012, 14959, 20236) as hereinafter set forth is approved.

It is found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) and for making this action effective September 1, 1973, in that: (1) Handlers are aware that this action has been proposed and require no additional time beyond September 1, 1973, to comply; (2) the 1973–74 crop year begins September 1, 1973, and the changed list of varietal types should be effective with the beginning of the crop year; and (3) no useful purpose would be served by postponing the effective time of this action.

Therefore, Subpart—Administrative Rules and Regulations (7 CFR 989.101–989.176, 38 FR 10074, 13012, 14959, 20236) is amended by adding a new § 989.110 reading as follows:

§ 989.110 Changed list of varietal types.

Pursuant to § 989.10, the list of varietal types of raisins contained in that section is changed to read: Natural (sun-dried) Thompson Seedless, natural (sun-dried) Muscat, natural (sun-dried) or artificially dehydrated Sultana, natural (sun-dried) or artificially dehydrated Zante Currant, Layer Muscat, Golden Seedless, Sulfur Bleached, Soda Dipped Valencia and Monukka.

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674))

Dated August 22, 1973, to become effective September 1, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division.

[FR Doc.73–18103 Filed 8–24–73;8:45 am]

PART 993—DRIED PRUNES PRODUCED IN CALIFORNIA

Non-French Prunes

Notice was published in the August 3, 1973, issue of the FEDERAL REGISTER (38 FR 20899) of a proposal to modify the definition of "non-French prunes" set forth in § 993.6 by adding "Moyer" to that definition. The definition, as so modified, would be set forth as a new § 993.109 in Subpart—Administrative Rules and Regulations (7 CFR 993.101–993.174).

The proposal was unanimously recommended by the Prune Administrative Committee pursuant to the marketing agreement, as amended, and Order No. 993, as amended (7 CFR Part 993), regulating the handling of dried prunes produced in California. The amended marketing agreement and order, hereinafter referred to as the "order", are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The notice afforded interested persons an opportunity to submit written data, views, or arguments on the proposal. None were received.

Section 993.6 of the order defines the term non-French prunes to mean prunes produced from varieties of plums listed in that definition. Section 993.6 also provides that this definition may be modified by the Committee with the approval of the Secretary.

Section 993.7 of the order defines "French prunes" to mean: (a) Prunes produced from plums of the following varieties of plums: French (Prune d'Agen, Petite Prune d'Agen), Coates (Cox, Double X, Saratoga); and (b) any other prunes which possess taste, flesh texture, and other characteristics similar to those of the prunes named in that section. Thus, any prunes which do not possess characteristics similar to French prunes would be considered non-French prunes.

Because prunes made from Moyer variety of plums do not possess characteristics similar to French prunes, the Committee recommended that "Moyer" be included in the definition of non-French prunes.

Under the order, certain regulations are applied to non-French prunes and French prunes, or by variety (i.e., French, Imperial, Sugar, Robe de Sargent, etc.). Minimum size requirements for non-French prunes are prescribed in § 993.50 (c), and for French prunes in § 993.50 (d). Whenever reserve control regulations are effective for a crop year, handlers' reserve obligations are based on their receipts of prunes from producers and dehydrators by variety, grade, and size categories.

After consideration of all relevant matter presented, including that in the notice, the information and recommendation of the Committee, and other available information, amendment of Subpart—Administrative Rules and Regulations (7 CFR 993.101—993.174) by adding a new § 993.109, as hereinafter set forth, is approved.

It is found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) and for making the effective time August 27, 1973, in that: (1) Handlers are aware that this action has been recommended by the Committee and need no additional time beyond August 27, 1973, to comply; (2) the 1973–74 crop year began August 1, 1973, and handlers will begin receiving prunes from 1973 production in volume in September, and therefore, in order to apply regulations to all non-French prunes uniformly and consistently, this change should become effective prior to such receipt; and (3) no useful purpose would be served by postponing the effective time of this action.

Therefore, Subpart—Administrative Rules and Regulations (7 CFR 993.101–993.174) is amended by adding a new § 993.109 reading as follows:

§ 993.109 Modified definition of non-French prunes.

The definition of non-French prunes set forth in § 993.6 is modified to read as follows: "Non-French Prunes" means prunes commonly known as Imperial, Sugar, Robe de Sargent, Burton, Standard, Jefferson, Fellenberg, Italian, President, Giant, Hungarian (Gross), and Moyer, produced from such varieties of plums.

(Sec. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674))

Dated August 21, 1973, to become effective August 27, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division.

[FR Doc.73–18063 Filed 8–24–73;8:45 am]

PART 993—DRIED PRUNES PRODUCED IN CALIFORNIA

Salable and Reserve Percentages for the 1973–74 Crop Year

Notice was published in the July 27, 1973, issue of the FEDERAL REGISTER (38 FR 20093) on establishment of salable and reserve percentages for California dried prunes of 100 percent and 0 percent, respectively, for the 1973–74 crop year beginning August 1, 1973.

These percentages were unanimously recommended by the Prune Administrative Committee pursuant to the marketing agreement, as amended, and Order No. 993, as amended (7 CFR Part 993), regulating the handling of dried prunes produced in California. The marketing agreement and order program are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The notice afforded interested persons an opportunity to submit written data, views, or arguments on the proposal. None were received.

The proposal was based on the Committee's estimate of 1973 California dried prune production of 160,000 tons, natural condition weight, and carryin of 6,000 tons, natural condition weight. This would result in an estimated supply of 166,000 tons.

The Committee also estimated 1973–74 domestic trade demand at 106,800 tons (natural condition weight) and foreign trade demand at 34,000 tons (natural condition weight), leaving a carryout on July 31, 1974, of 25,200 tons. A carryout of 25,000 tons is deemed desirable. Therefore, the Committee recommended that the salable and reserve percentages for the 1973–74 crop year be 100 percent and 0 percent, respectively.

California's 1973 prune production is now estimated at 170,000 tons. However, it is not expected that the additional 10,000 tons will prove burdensome in view of the supplies existing at all trade levels due to the very short 1972 production of California prunes.

After consideration of the Committee's recommendation and supporting information, and other available information, it is found that to establish the salable and reserve percentages as hereinafter set forth will tend to effectuate the declared policy of the act.

It is further found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) The relevant provisions of the marketing agreement and this part require that the salable and reserve percentages established for a crop year be applicable to all prunes received by handlers from producers and dehydrators during that crop year; (2) the current crop year began on August 1, 1973, and the percentages herein established will automatically apply to all such prunes beginning with that date; (3) this action places no restrictions on handlers; and (4) no useful purpose would be served by delaying this action.

Therefore, the salable and reserve percentages for prunes for the 1973–74 crop year are established as follows:

§ 993.209 Salable and reserve percentages for prunes for the 1973–74 crop year.

The salable and reserve percentages for the 1973–74 crop year shall be 100 percent and 0 percent, respectively.

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674))

Dated: August 20, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division.

[FR Doc.73–18064 Filed 8–24–73;8:45 am]

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[Amdt. 1]

PART 1446—PEANUTS

Subpart—1973–Crop Peanut Warehouse Storage Loans

The regulations issued by the Commodity Credit Corporation, and published in 38 FR 18453, which set forth specific requirements with respect to warehouse storage loans for the 1973 crop of peanuts are hereby amended to increase the support values for farmers stock peanuts. It is impracticable to follow the notice of proposed rule making procedure with respect to this amendment, because 1973 crop peanuts are being harvested and it is essential that the rates provided in this subpart be put into effect with respect to such peanuts on the earliest possible date.

1. Sections 1446.9 and 1446.10 are amended to read as follows:

§ 1446.9 National average support value.

The National average support value for 1973-crop peanuts is $328.50 per ton.

§ 1446.10 Average support values by type.

The support values by type per average grade ton of 1973-crop peanuts are:

Type	Dollars per ton
Virginia	$334.90
Runner	331.90
Southeast Spanish	322.94
Southwest Spanish	319.23
Valencia, in the Southwest area suitable for cleaning or roasting	334.90

The price for all Valencia type peanuts in the Southeast and Virginia-Carolina areas and those in the Southwest area which are not suitable for cleaning and roasting will be in the same as for Spanish type peanuts in the same area.

2. Subparagraph (a)(1) of § 1446.11 is amended to read as follows:

§ 1446.11 Calculation of support values.

* * * * * *

(a) *Kernel value per net ton excluding loose shelled kernels.* (1) Price for each percent of sound mature and sound split kernels shall be:

Type	Dollars per ton
Virginia	4.671
Runner	4.632
Southeast Spanish	4.632
Southwest Spanish	4.632
Valencia:	
Southwest area—suitable for cleaning and roasting	5.102
Southwest area—not suitable for cleaning and roasting	4.632
Areas other than Southwest	4.632

* * * * *

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 73-SW-32]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On July 20, 1973, FR Document No. 73-14876 was published as a final rule in the FEDERAL REGISTER (38 FR 19360). This document designated the Stratford, Tex., 700-foot transition area effective 0901 G.m.t., September 13, 1973.

A review by the National Ocean Survey indicated that the airport coordinates provided for the Stratford Municipal Airport, i.e., latitude 36°21'32" N., longitude 102 02'55" W., needed to be changed to latitude 36°20'45" N., longitude 102°02' 50" W. Necessary action is taken hereby to effect this change.

As this correction is considered minor in nature and will not impose an additional burden on person or persons, notice and public procedures are not considered necessary.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Fort Worth, Tex., on August 16, 1973.

ALBERT H. THURBURN,
Acting Director,
Southwest Region.

[FR Doc.73-18018 Filed 8-24-73;8:45 am]

[Airspace Docket No. 73-SW-37]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation regulations is to designate a 700-foot transition area at Port Isabel, Tex.

On June 27, 1973, a notice of proposed rulemaking was published in the FEDERAL REGISTER (38 FR 16914) stating the Federal Aviation Administration proposed to designate the Port Isabel, Tex., transition area.

Interested persons were afforded an opportunity to participate in the rulemaking through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation regulations is amended, effective 0901 G.m.t., November 8, 1973, as hereinafter set forth.

In § 71.181 (38 FR 435), the following transition area is added:

PORT ISABEL, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Port Isabel, Cameron County Airport (Latitude 26°10'00" N., longitude 97°-20'45" W.) and within 2 miles each side of the Brownsville, Tex., VORTAC 006° radial extending from the 5-mile radius area to 10 miles north of the Brownsville VORTAC.

(Sec 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))

Issued in Forth Worth, Tex., on August 16, 1973.

ALBERT H. THURBURN,
Acting Director,
Southwest Region.

[FR Doc.73-18019 Filed 8-24-73;8:45 am]

[Airspace Docket No. 73-SW-2]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Change of Effective Date

On June 19, 1973, FR Doc. 73-12108 was published in the FEDERAL REGISTER (38 FR 15943). This docket amended Part 71 of the Federal Aviation regulations and contained the deletion of the Fort Worth, Tex. (Greater Southwest International Dallas-Fort Worth Field), control zone; designation of the Dallas-Fort Worth, Tex. (Regional Airport), control zone; and alteration of the Dallas, Tex. (Love Field), (NAS Dallas), (Redbird Airport), and (Addison Airport), control zones and was to be effective September 30, 1973, which was concurrent with the opening date of the new Dallas-Fort Worth Regional Airport. Subsequent to publication of the effective date, the opening of the new Dallas-Fort Worth Regional Airport has been delayed until October 28, 1973. This will delay the effective date of the amendments to Part 71 of the Federal Aviation regulations. Action is taken herein to amend the effective date.

Since this amendment will impose no undue burden on any person, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, FR Doc. No. 73-12108 is amended to change the effective date of Airspace Docket No. 73-SW-2 from 0901 G.m.t., September 30, 1973, to 0901 G.m.t., October 28, 1973.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))

Issued in Fort Worth, Tex., on August 16, 1973.

ALBERT H. THURBURN,
Acting Director,
Southwest Region.

[FR Doc.73-18020 Filed 8-24-73;8:45 am]

[Airspace Docket No. 72-CE-28]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On Page 3525 of the FEDERAL REGISTER dated February 7, 1973, the Federal Aviation Administration published a notice of proposed rulemaking which would amend §§ 71.171 and 71.181 of Part 71 of the Federal Aviation regulations so as to alter the control zone and transition area at Emporia, Kansas. The reason for the proposal was to provide airspace protection for aircraft that would use two RNAV public use instrument approach procedures being established at the Emporia, Kansas, Municipal Airport.

Interested persons were given 30 days to submit written comments, suggestions and objections regarding the proposed amendments. Two comments were received. The Air Transport Association concurred with the proposal. The Department of the Air Force objected to the proposal in that the proposed RNAV instrument approach procedure from the south conflicted with a Military High Speed Low Level Route. Subsequent to the issuance of the proposal the agency has re-evaluated the situation and determined that the establishment of only one RNAV instrument approach procedure at the Emporia Municipal Airport is appropriate rather than the two as originally proposed. That procedure being deleted is the one that would have conflicted with military operations. Accordingly, a final rule is being issued to alter the Emporia, Kansas, control zone and transition area to reflect this change.

Since the alterations will in part reduce the amount of designated airspace in the Emporia, Kansas, terminal area from that originally proposed, no additional burden will be imposed on any person. Consequently, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation regulations is amended effective 0901 G.m.t., November 8, 1973, as hereinafter set forth:

In § 71.171 (38 FR 351), the following control zone is amended to read:

EMPORIA, KANSAS

Within a 5-mile radius of the Emporia, Kansas Municipal Airport (latitude 38°20'00" N., longitude 96°11'15" W.); and 1.5 miles either side of the 010° bearing from the airport extending from the 5-mile radius to 6 miles north.

In § 71.181 (38 FR 435), the following transition area is amended to read:

EMPORIA, KANSAS

That airspace extending upward from 700' above the surface within 2 miles either side of the Emporia VORTAC 134° radial, extending from the 5-mile radius of the airport (latitude 38°20'00" N., longitude 96°11'15" W.); to 8 miles southeast of the VORTAC and 5 miles either side of the 010° bearing from the airport extending from the 5-mile radius to 12.5 miles north, and that airspace extending upwards from 1,200' above the surface within 5 miles southwest and 8 miles northeast of the Emporia VORTAC 134° radial, extending from the VORTAC to 18.5 miles southeast of the VORTAC.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Kansas City, Missouri, on August 9, 1973.

JOHN M. CYROCKI,
Director, Central Region.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 27—CANNED FRUITS AND FRUIT JUICES

Canned Apricots, Prunes, Seedless Grapes, Cherries, Berries, Plums and Figs; Confirmation of Effective Date of Order Amending Standards of Identity

In the matter of amending the definitions and standards of identity for canned apricots, canned prunes, canned seedless grapes, canned cherries, canned berries, canned plums, and canned figs (21 CFR 27.10, 27.15, 27.25, 27.30, 27.35, 27.45 and 27.70) to provide for the optional use of packing media prepared from a single fruit juice that is fresh, canned, frozen, or concentrated or a blend of two or more such juices, one of which may be the juice of the fruit being packed or all of which may be juices from different fruits and to provide for slightly sweetened water or an optional packing medium in canned prunes (21 CFR 27.15):

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055–1057 as amended by 70 Stat. 919 and 72 Stat. 948; 21 U.S.C. 341, 371) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), notice is given that no objections were filed to the order in the above-identified matter published in the FEDERAL REGISTER of May 31, 1973 (38 FR 14252). Accordingly, the amendments promulgated by that order became effective July 30, 1973.

Dated: August 20, 1973.

SAM D. FINE,
Associate Commissioner
for Compliance.

[FR Doc.73-18076 Filed 8-24-73;8:45 am]

PART 121—FOOD ADDITIVES

Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

SURFACE LUBRICANTS USED IN THE MANUFACTURE OF METALLIC ARTICLES

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 2B2778) filed by Shell Chemical Co., 1700 K St. NW., Washington, D.C. 20006, and other relevant material, concludes that the food additive regulations should be amended, as set forth below, to provide for the safe use of an additional synthetic primary alcohol mixture of straight- and branched-chain alcohols for use as a component of surface lubricants used in the manufacture of metallic articles.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.2531(a)(2) is amended by alphabetically inserting in the list of substances the following new item:

§ 121.2531 **Surface lubricants used in the manufacture of metallic articles.**

* * * * * *

(a) * * *

(2) * * *

List of Substances	*Limitations*
* * *	* * *
Synthetic primary alcohol mixture of straight- and branched-chain alcohols that contain at least 99 percent primary alcohols consisting of the following: not less than 70 percent normal alcohols; not less than 96.5 percent C_{12}—C_{15} alcohols; and not more than 2.5 percent alpha, omega C_{12}—C_{15} diols. The alcohols are prepared from linear olefins from a purified kerosene fraction, carbon monoxide and hydrogen using a modified oxo process, such that the finished primary alcohol mixture meets the following specifications: Molecular weight, 207±4; hydroxyl number, 266–276.	For use at a level not to exceed 8 percent by weight of the finished lubricant formulation.
* * *	* * *

Any person who will be adversely affected by the foregoing order may at any time on or before September 26, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–86, 5600 Fishers Lane, Rockville, Md. 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date.—This order shall become effective on August 27, 1973.

(Sec. 409(c)(1), 72 Stat. 1786; (21 U.S.C. 348(c)(1)))

Dated: August 20, 1973.

SAM D. FINE,
Associate Commissioner
for Compliance.

[FR Doc.73-18079 Filed 8-24-73;8:45 am]

PART 121—FOOD ADDITIVES

Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

FILTERS, RESIN-BONDED

Notice was given in the FEDERAL REGISTER of April 4, 1972 (37 FR 6773), that a petition (FAP 2B2773) had been filed by Celanese Fibers Marketing Co., Post Office Box 1414, Charlotte, N.C. 28201, proposing that § 121.2536 (21 CFR 121.2536) be amended to provide for the safe use of polyethylene terephthalate fibers in the manufacture of resin-bonded filters. Notice was also given in the FEDERAL REGISTER of April 12, 1973 (38 FR 9256) that the petition had been amended to propose additionally the safe use of 4-ethyl-4-hexadecyl morpholinium ethyl sulfate as a lubricant employed during the fiber finishing of polyethylene terephthalate.

The Commissioner of Food and Drugs having evaluated the data in the petition, and other relevant material, concludes that the food additive regulations should be amended, as set forth below, to provide for the safe use of polyethylene terephthalate as fibers, and 4-ethyl-4-hexadecyl morpholinium ethyl sulfate as a lubricant employed during the finishing of such fibers, in the manufacture of resin-bonded filters.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.2536(d) (1) and (2) are amended by alphabetically adding to the List of Substances and limitations the following new items:

§ 121.2536 **Filters, resin-bonded.**

* * * * * *

(d) * * *

List of substances and limitations

(1) *Fibers:*

* * * * * *

Polyethylene terephthalate complying in composition with the provisions of § 121.2524; for use in inline filtration only as provided for in paragraphs (e) and (f) of this section.

* * * * * *

(2) *Substances employed in fiber finishing:*

* * * * * *

4-ethyl-4-hexadecyl morpholinium ethyl sulfate for use only as a lubricant in the manufacture of polyethylene terephthalate fibers specified in paragraph (d)(1) of this section at a level not to exceed 0.03 percent by weight of the finished fibers.

* * * * * *

V38-165 AUG 27 73 XUM

Any person who will be adversely affected by the foregoing order may at any time on or before September 26, 1973 file with the Hearing Clerk, Food and Drug Administration, Department of Health, Education, and Welfare, Rm. 6-86, 5600 Fishers Lane, Rockville, Md. 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date.—This order shall become effective on August 27, 1973.

(Sec. 409(c)(1), 72 Stat. 1786; (21 U.S.C. 348(c)(1)))

Dated: August 20, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

PART 121—FOOD ADDITIVES

Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

FILTERS, RESIN-BONDED

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 3B2819) filed by American Cyanamid Co., Wayne, N.J. 07470, and other relevant material, concludes that the food additive regulations (21 CFR Part 121) should be amended to provide for the safe use of melamine-formaldehyde chemically modified with methyl alcohol as a component of resin-bonded filters in food-contact use.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under the authority delegated to the Commissioner (21 CFR 2.120), § 121.2536(d)(3) is amended by alphabetically inserting in the list of substances a new item, as follows:

§ 121.2536 Filters, resin-bonded.

* * * * * *

(d) * * *

(3) *Resins:*

* * * * * *

Melamine-formaldehyde chemically modified with methyl alcohol.

* * * * * *

Any person who will be adversely affected by the foregoing order may at any time on or before September 26, 1973, file with the Hearing Clerk, Food and Drug Administration, Rm. 6-88, 5600 Fishers Lane, Rockville, Md. 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date.—This order shall become effective on August 27, 1973.

(Sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1))

Dated: August 20, 1973.

Associate Commissioner for Compliance.

[FR Doc.73-18078 Filed 8-24-73;8:45 am]

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

LUBRICANTS WITH INCIDENTAL FOOD CONTACT

Notice was given in the FEDERAL REGISTER of August 3, 1971 (36 FR 14279), that a petition (FAP 2B2707) was filed by Standard Oil Company of California, 225 Bush St., San Francisco, Calif. 94120, proposing that § 121.2553 *Lubricants with incidental food contact* (21 CFR 121.2553) be amended to provide for the safe use of magnesium ricinoleate, sodium metaborate, and polyurea (produced by reacting tolylene diisocyanate and amines) as components of lubricants with incidental food contact.

Subsequently, the petitioner amended the petition by withdrawing the requests for use of the compounds magnesium ricinoleate and sodium metaborate.

Having considered the data submitted in the petition, and other relevant material, the Commissioner of Food and Drugs concludes that the food additive regulations (21 CFR Part 121) should be amended to provide for the safe use of polyurea, as set forth below, as a component of lubricants with incidental food contact.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.2553(a)(3) is amended by alphabetically inserting in the list of substances a new item, as follows:

§ 121.2553 Lubricants with incidental food contact.

* * * * *

(a) * * *

(3) * * *

Substances	*Limitations*
* * *	* * *
Polyurea, having a nitrogen content of 9–14 percent based on the dry polyurea weight, produced by reacting tolylene diisocyanate with tall oil fatty acid (C_{18} and C_{18}) amine and ethylene diamine in a 2:2:1 molar ratio.	For use only as an adjuvant in mineral oil lubricants at a level not to exceed 10 percent by weight of the mineral oil.
* * *	* * *

Any person who will be adversely affected by the foregoing order may at any time on or before September 26, 1973, file with the Hearing Clerk, Food and Drug Administration, Rm. 6-86, 5600 Fishers Lane, Rockville, Md. 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Objections may be accompanied by a memorandum or brief in support thereof. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date.—This order shall become effective on August 27, 1973.

(Sec. 409(c)(1), 72 Stat. 1786; (21 U.S.C. 348(c)(1)))

Dated: August 20, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73-18075 Filed 8-24-73;8:45 am]

PART 121—FOOD ADDITIVES

2,4-Dinitro-6-Octylphenyl Crotonate and 2,6-Dinitro-4-Octylphenyl Crotonate

A petition (FAP 3H5019) was filed by Rohm and Haas Co., Independence Mall West, Philadelphia, PA 19105, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 348), proposing establishment of a food additive tolerance (21 CFR Part 121) of 0.3 part per million for residues of the fungicide and insecticide that is a mixture of 2,4-dinitro-6-octylphenyl crotonate and 2,6-dinitro-4-octylphenyl crotonate in apple pomace resulting from application of the fungicide and insecticide to growing apples.

Subsequently, the petitioner amended the petition by changing the request to read "dried apple pomace" instead of "apple pomace". (For a related document, see this issue of the FEDERAL REGISTER, page 22893.)

The Reorganization Plan No. 3 of 1970, published in the FEDERAL REGISTER of October 6, 1970 (35 FR 15623), transferred (effective December 2, 1970) to the Administrator of the Environmental Protection Agency the functions vested in the Secretary of Health, Education, and Welfare for establishing tolerances for pesticide chemicals under section 406, 408, and 409 of the Federal Food, Drug, and Cosmetic Act, as amended (21 U.S.C. 346, 346a, 348).

Having evaluated the data in the petition and other relevant material, it is concluded that the tolerance should be established.

Therefore pursuant to provisions of the act (sec. 409(c)(1), (4), 72 Stat. 1786; 21 U.S.C. 348(c)(1), (4)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 FR 9038), Part 121 is amended by adding a new section to Subpart C, as follows:

§ 121.347 2,4-Dinitro-6-octylphenyl crotonate and 2,6-dinitro-4-octylphenyl crotonate.

A tolerance of 0.3 part per million is established for combined residues of the fungicide and insecticide that is a mixture consisting of 2,4-dinitro-6-octylphenyl crotonate and 2,6 - dinitro - 4-octylphenyl crotonate and related nitro-octylphenols (principally dinitro, calculated as the ester) in dried apple pomace when present as a result of application of the fungicide and insecticide to the growing crop apples.

Any person who will be adversely affected by the foregoing order may at any time on or before Sept. 26, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 3902A, 4th & M Streets SW., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date.—This order shall become effective on Aug. 27, 1973.

(Sec. 409(c)(1), (4), 72 Stat. 1786; (21 U.S.C. 348(c)(1), (4)).)

Dated August 21, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticides Programs.

Title 24—Housing and Urban Development

CHAPTER II—OFFICE OF ASSISTANT SECRETARY FOR HOUSING PRODUCTION AND MORTGAGE CREDIT-FEDERAL HOUSING COMMISSIONER (FEDERAL HOUSING ADMINISTRATION)

[Docket No. R-73-234]

INTEREST RATES

Notice of Increase

The following amendments are being made to this chapter to change the maximum interest rate which may be charged on a mortgage insured by this Department from 7 percent to 7¾ percent. The Secretary has determined that such change is necessary to meet the mortgage market, in accordance with his authority contained in 12 U.S.C. 1709-1, as amended. The Secretary has, therefore, determined that advance notice and public procedure are unnecessary and that said cause exists for making this amendment effective August 10, 1973.

Accordingly, Chapter II is amended as follows:

PART 203—MUTUAL MORTGAGE INSURANCE AND INSURED HOME IMPROVEMENT LOANS

1. In § 203.20 paragraph (a) is revised to read as follows:

§ 203.20 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 7¾ percent per annum with respect to mortgages insured on or after August 10, 1973.

* * * * *

(Sec. 211, 52 Stat. 23; (12 U.S.C. 1715b); Interpret or apply Sec. 203, 52 Stat. 10, as amended; 12 U.S.C. 1709)

2. In § 203.74 paragraph (a) is revised to read as follows:

§ 203.74 Maximum interest rate.

(a) The loan shall bear interest at the rate agreed upon by the lender and the borrower, which rate shall not exceed 7¾ percent per annum with respect to loans insured on or after August 10, 1973.

* * * * *

(Sec. 211, 52 Stat. 23; (12 U.S.C. 1715b). Interpret or apply Sec. 203, 52 Stat. 10, as amended; (12 U.S.C. 1709).)

PART 207—MULTIFAMILY HOUSING MORTGAGE INSURANCE

In § 207.7 paragraph (a) is revised to read as follows:

§ 207.7 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 7¾ percent per annum with respect to mortgages receiving initial endorsement (or endorsement in cases involving insurance upon completion) on or after August 10, 1973.

* * * * *

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies Sec. 207, 52 Stat. 16, as amended; 12 U.S.C. 1713)

PART 213—COOPERATIVE HOUSING MORTGAGE INSURANCE

1. In § 213.10 paragraph (a) is revised to read as follows:

§ 213.10 Maximum interest rate.

(a) The mortgage or a supplementary loan shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, or the lender and the borrower, which rate shall not exceed 7¾ percent per annum with respect to mortgages or supplementary loans receiving initial endorsement (or endorsement in cases involving insurance upon completion) on or after August 10, 1973.

* * * * *

2. In § 213.511 paragraph (a) is revised to read as follows:

§ 213.511 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 7¾ percent per annum with respect to mortgages insured on or after August 10, 1973.

* * * * *

(Sec. 211, 52 Stat. 23 (12 U.S.C. 1715b); Interpret or apply sec. 213, 64 Stat. 54, as amended (12 U.S.C. 1715e))

PART 220—URBAN RENEWAL MORTGAGE INSURANCE AND INSURED IMPROVEMENT LOANS

In § 220.576 paragraph (a) is revised to read as follows:

§ 220.576 Maximum interest rate.

(a) The loan shall bear interest at the rate agreed upon by the lender and the borrower, which rate shall not exceed 7¾ percent per annum with respect to loans receiving initial endorsement (or endorsement in cases involving insurance upon completion) on or after August 10, 1973.

* * * * *

(Sec. 211, 52 Stat. 23; (12 U.S.C. 1715b); Interpret or apply sec. 220, 68 Stat. 596, as amended (12 U.S.C. 1715k))

PART 221—LOW COST AND MODERATE INCOME MORTGAGE INSURANCE

In § 221.518 paragraph (a) is revised to read as follows:

§ 221.518 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 7¾ percent per annum with respect to mortgages receiving initial endorsement (or endorsement in cases in-

V38-165 AUG 27 73 XUM

volving insurance upon completion) on or after August 10, 1973. Interest shall be payable in monthly installments on the principal amount of the mortgage outstanding on the due date of each installment.

. . . . .

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies Sec. 221, 68 Stat. 599, as amended; 12 U.S.C. 17151)

PART 232—NURSING HOMES AND INTERMEDIATE CARE FACILITIES MORTGAGE INSURANCE

In § 232.29 paragraph (a) is revised to read as follows:

§ 232.29 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 7¾ percent per annum with respect to mortgages receiving initial endorsement (or endorsement in cases involving insurance upon completion) on or after August 10, 1973.

. . . . .

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies sec. 232, 73 Stat. 663; 12 U.S.C. 1715w)

PART 234—CONDOMINIUM OWNERSHIP MORTGAGE INSURANCE

In § 234.29 paragraph (a) is revised to read as follows:

§ 234.29 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 7¾ percent per annum with respect to mortgages insured on or after August 10, 1973.

. . . . .

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies Sec. 234, 75 Stat. 160; 12 U.S.C. 1715y)

PART 235—MORTGAGE INSURANCE AND ASSISTANCE PAYMENTS FOR HOME OWNERSHIP AND PROJECT REHABILITATION

Section 235.540 is revised to read as follows:

§ 235.540 Maximum interest rate.

The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 7¾ percent per annum with respect to mortgages insured on or after August 10, 1973.

(Sec. 211, 52 Stat. 23; (12 U.S.C. 1715b). Interprets or applies Sec. 235, 82 Stat. 477; (12 U.S.C. 1715z))

PART 236—MORTGAGE INSURANCE AND INTEREST REDUCTION PAYMENTS

Section 236.15 is revised to read as follows:

§ 236.15 Maximum interest rate.

The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 7¾ percent per annum with respect to mortgages receiving initial endorsement (or endorsement in cases involving insurance upon completion) on or after August 10, 1973.

(Sec. 211, 52 Stat. 23; (12 U.S.C. 1715b). Interprets or applies Sec. 236 52 Stat. 498; (12 U.S.C. 1715z-1))

PART 241—SUPPLEMENTARY FINANCING FOR FHA PROJECT MORTGAGES

Section 241.75 is revised to read as follows:

§ 241.75 Maximum interest rate.

The loan shall bear interest at the rate agreed upon by the lender and the borrower, which rate shall not exceed 7¾ percent per annum with respect to loans insured on or after August 10, 1973. Interest shall be payable in monthly installments on the principal then outstanding.

(Sec. 211, 52 Stat. 23; (12 U.S.C. 1715b). Interprets or applies Sec. 241, 82 Stat. 508; (12 U.S.C. 1715z-b))

PART 242—NONPROFIT HOSPITALS

Section 242.33 is revised to read as follows:

§ 242.33 Maximum interest rate.

The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 7¾ percent per annum with respect to mortgages receiving initial endorsement (or endorsement in cases involving insurance upon completion) on or after August 10, 1973. Interest shall be payable in monthly installments on the principal then outstanding.

(Sec. 211, 52 Stat. 23; 12 U.S.C. 1715b. Interprets or applies Sec. 242, 82 Stat. 5999; 12 U.S.C. 1715z-7)

PART 1000—MORTGAGE INSURANCE FOR LAND DEVELOPMENT

Section 1000.50 is amended to read as follows:

§ 1000.50 Maximum interest rate.

The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 7¾ percent per annum with respect to mortgages receiving initial endorsement (or endorsement in cases involving insurance upon completion) on or after August 10, 1973.

(Sec. 1011, formerly Sec. 1010, 79 Stat. 464 (12 U.S.C. 1749jj); renumbered P.L. 89–754; sec. 401(a), 80 Stat. 1271)

PART 1100—MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES

In § 1100.45 paragraph (a) is amended to read as follows:

§ 1100.45 Maximum interest rate.

(a) The mortgage shall bear interest at the rate agreed upon by the mortgagee and the mortgagor, which rate shall not exceed 7¾ percent per annum with respect to mortgages receiving initial endorsement (or endorsement in cases involving insurance upon completion) on or after August 10, 1973.

(Sec. 1104, 80 Stat. 1275; 12 U.S.C. 1749aaa–3)

Effective date.—These amendments are effective as of August 10, 1973.

SHELDON B. LUBAR,
Assistant Secretary-Commissioner for Housing Production and Mortgage Credit.

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI–196]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

. . . . . .

State	County	Location	Map No.	State map repository	Local map repository	Effective date of authorization of sale of flood insurance for area
.	.	.	.	.	.	.
Michigan	Alpena	Alpena, City of				Aug. 28, 1973, Emergency.
Do.	Genesee	Flint, City of				Do.
Do.	Grand Haven	Ottawa				Do.
Mississippi	Le Flore	Unincorporated areas.				Do.

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968), effective Jan. 28, 1969 (33 FR 17804, Nov. 28, 1968), as amended (secs. 408–410, Public Law 91–152, Dec. 24, 1969), (42 U.S.C. 4001–4127); and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, Feb. 27, 1969)

Issued: August 20, 1973.

GEORGE K. BERNSTEIN,
Federal Insurance Administrator.

[FR Doc.73–18069 Filed 8–24–73;8:45 am]

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

[Directive 73–1, Supp. No. 1]

PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE

Redelegation of Functions

By virtue of the authority vested in me by the Attorney General in Order 520–73 and Subpart R, Directive 73–1 is hereby supplemented by providing that in addition to Regional Administrators and the Acting Chief Counsel, the authority to sign and issue subpoenas under 21 U.S.C. 875 and 876 is granted to Deputy Regional Administrators in the absence of the Regional Administrators, and Special-Agents-In-Charge of district offices with the concurrence of the Regional Administrator or the Deputy Regional Administrator.

Dated August 21, 1973.

JOHN R. BARTELS, JR.,
Acting Administrator, Drug Enforcement Administration.

[FR Doc.73–18046 Filed 8–24–73;8:45 am]

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

PART 122—REVISION OF WATER QUALITY STANDARDS

Notice of Revocation

Regulations, codified in 40 CFR Part 122, were promulgated on November 25, 1971, by the Administrator of the Environmental Protection Agency establishing procedures required by the Federal Water Pollution Control Act as in effect prior to October 18, 1972, for the revision of water quality standards. Section 303 of the Federal Water Pollution Control Act, as amended by the Federal Water Pollution Control Act Amendments of 1972, establishes new procedures for the revision of water quality standards which supersede the procedures in Part 122. However, section 4(b) of the Amendments, which provides that all regulations under the former law will continue in full force until modified or rescinded in accordance with the new Amendments, requires that these regulations be formally rescinded.

Part 122 established procedures for hearings which were required under the old law. Under the Amendments, no hearings are required in connection with revisions of water quality standards, and the procedures for revision are set forth in considerable detail in the statute. Thus, it is not considered that new procedural regulations are required.

Because of the purely technical nature of this action, the Administrator finds that notice and consideration of public comments would be unnecessary. In order for the Agency to comply with statutory deadlines for approval of water quality standards, it is necessary that these regulations be made effective immediately. Accordingly, part 122 of Chapter 40 of the Code of Federal Regulations is revoked, effective August 27, 1973.

Dated August 20, 1973.

JOHN QUARLES,
Acting Administrator.

[FR Doc.73–18084 Filed 8–24–73;8:45 am]

SUBCHAPTER E—PESTICIDE PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

2,4-Dinitro-6-Octylphenyl Crotonate and 2,6-Dinitro-4-Octylphenyl Crotonate

A. A petition (PP 9F0847) was filed by Rohm and Haas Co., Independence Mall West, Philadelphia, Pa. 19105, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing establishment of tolerances for combined negligible residues of the fungicide and insecticide that is a mixture of 2,4-dinitro-6-octylphenyl crotonate and 2,6-dinitro-4-octylphenyl crotonate in or on the raw agricultural commodity groups cucurbits, pome fruits, small fruits, and stone fruits and in or on the raw agricultural commodity strawberries at 0.05 part per million.

Subsequently, the petitioner amended the petition by (1) withdrawing the tolerances requested for negligible residues of the fungicide and insecticide in or on the aforementioned commodity groups and (2) proposing tolerances for negligible residues of the fungicide and insecticide that is a mixture of 2,4-dinitro-6-octylphenyl crotonate and 2,6-dinitro-4-octylphenyl crotonate and the related nitrooctylphenols (principally dinitro, calculated as the ester) in or on the raw agricultural commodities apples, pears, apricots, nectarines, peaches, cucumbers, grapes, summer and winter squash, cantaloupe, honeydew melons, muskmelons, pumpkins, watermelons at 0.1 part per million. (For a related document, see this issue of the FEDERAL REGISTER, page 22891.)

V 38 ■ 165 AUG 27 73 XUM

Based on consideration given the data submitted in the petition and other relevant material, it is concluded that:

1. The fungicide and insecticide is useful for the purposes for which the tolerances are being established.

2. There is no reasonable expectation of residues in eggs, meat, milk, or poultry, and § 180.6(a)(3) applies.

3. The tolerances established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 FR 9038), Part 180 is amended by adding the following new section to Subpart C:

§ 180.341 2,4-Dinitro-6-octylphenyl crotonate and 2,6-dinitro-4-octylphenyl crotonate; tolerances for residues.

Tolerances are established for combined negligible residues of a fungicide and insecticide that is a mixture consisting of 2,4-dinitro-6-octylphenyl crotonate and 2,6-dinitro-4-octylphenyl crotonate and related nitrooctylphenols (principally dinitro, calculated as the ester) in or on the raw agricultural commodities apples, apricots, cantaloupes, cucumbers, grapes, honeydew melons, muskmelons, nectarines, peaches, pears, pumpkins, summer squash, watermelons, and winter squash at 0.1 part per million.

B. In the FEDERAL REGISTER of August 30, 1972 (37 FR 17554), interim tolerances were established for residues of the fungicide and insecticide that is a mixture of 2,4-dinitro-6-octylphenyl crotonate and 2,6-dinitro-4-octylphenyl crotonate in or on apples, apricots, cucurbits, grapes, peaches, and pears at 0.1 part per million. These interim tolerances were established pending final review and evaluation of the data on the subject pesticide.

§ 180.319 [Amended]

Since the review and evaluation on the subject pesticide have been completed and permanent tolerances are being established by this order on apples, apricots, cucurbits, grapes, peaches, and pears; the listing of interim tolerances for the subject pesticide on these raw agricultural commodities is no longer necessary, and § 180.319 *Interim tolerances* is amended by deleting the item: "2,4-Dinitro-6-octylphenyl crotonate and 2,6-dinitro-4-octylphenyl crotonate, mixture of * * *" from the list of items in the table.

NOTE.—Not all the raw agricultural commodities that constitute the group cucurbits are included in this order. Nevertheless, it is concluded that the item cucurbits be deleted since the petitioner has not proposed the establishment of tolerances on any of the remaining commodities in the group.

Any person who will be adversely affected by the foregoing order may at any time on or before Sept. 26, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 3902A, 4th & M Streets SW., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date.—This order shall become effective on Aug. 27, 1973.

(Sec. 408(d)(2), 68 Stat. 512; (21 U.S.C. 346a(d)(2)))

Dated August 21, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticide Programs.

[FR Doc.73-18145 Filed 8-24-73;8:45 am]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Silvex

In response to a petition (PP 3E1339) submitted by Dr. C. C. Compton, Coordinator, Interregional Research Project No. 4, State Agricultural Experiment Station, Rutgers University, New Brunswick, N.J. 08903, on behalf of the IR-4 Technical Committee and the Agricultural Experiment Station of Washington, a notice was published by the Environmental Protection Agency in the FEDERAL REGISTER of July 3, 1973 (38 FR 17511), proposing establishment of a tolerance for residues of the plant regulator silvex (2-(2,4,5-trichlorophenoxy) propionic acid) in or on the raw agricultural commodity pears at 0.05 part per million resulting from postharvest application of the triethanolamine salt of silvex to pear trees. No comments or requests for referral to an advisory committee were received.

It is concluded that the proposal should be adopted.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 FR 9038), Part 180 is amended by adding the following new section to Subpart C:

§ 180.340 Silvex; tolerances for residues.

A tolerance of 0.05 part per million is established for residues of the plant regulator silvex (2-(2,4,5-trichlorophenoxy) propionic acid) in or on the raw agricultural commodity pears resulting from postharvest application of the triethanolamine salt of silvex to pear trees.

Any person who will be adversely affected by the foregoing order may at any time on or before September 26, 1973 file with the Hearing Clerk, Environmental Protection Agency, Room 3902A, 4th & M Streets SW., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date.—This order shall become effective on August 27, 1973.

(Sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e).)

Dated AUGUST 21, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticide Programs.

[FR Doc.73-18085 Filed 8-24-73;8:45 am]

Title 41—Public Contracts and Property Management

[Departmental Reg. 108.692]

CHAPTER 6—DEPARTMENT OF STATE FOREIGN PURCHASES AND CONTRACT CLAUSES

Miscellaneous Amendments

Parts 6-1, 6-6, and 6-7 of Title 41 of the Code of Federal Regulations are amended and revised to reflect certain organizational changes within the Department and to redesignate contract clauses to conform with Amendment 112 of the Federal Procurement Regulations.

PART 6-1—GENERAL

1. In Subpart 6-1.4, § 6-1.404-2 is amended by revising paragraphs (c)(6) and (c)(7) to read as follows:

§ 6-1.404-2 Designation.

* * * * *

(c) * * *

(6) *Language Services Division.*—The authority to enter into and administer contracts (except grants) for translating, interpreting, and related linguistic and escort services is delegated to the Chief, Assistant Chief, and Staff Assistant.

(7) *Office of Communications.*—The authority to enter into and administer contracts (except grants) for leasing wire service circuits is delegated to the Executive Officer and the Chief, Networks Staff.

* * * * *

PART 6-6—FOREIGN PURCHASES

2. In subpart 6-6.10, § 6-6.1000 is revised to read as follows:

§ 6-6.1000 Scope.

The Examination of records by Comptroller General clause, referred to in § 6-7.103-3 of this chapter, and set forth in § 1-7.103-3 of this title, shall be omitted from negotiated contracts only in accordance with the provisions set forth in this subpart and subpart 1-6.10 of this title.

PART 6-7—CONTRACT CLAUSES

3. In Part 6-7, section headings and text for § 6-7.100 through § 6-7.101-28 are revised to read as follows:

Sec.
6-7.000 Scope of part.

Subpart 6-7.1—Fixed-Price Supply Contracts

6-7.100 Scope of subpart.
6-7.101 Applicability.
6-7.102 Required clauses.
6-7.102-1 Definitions.
6-7.102-8 Assignment of claims.
6-7.102-10 Federal, State and local taxes.
6-7.102-12 Disputes.
6-7.102-18 Covenant against contingent fees.
6-7.102-19 Termination for convenience of the Government.
6-7.103 Clauses to use when applicable.
6-7.103-3 Examination of records by Comptroller General.
6-7.104 Additional clauses.
6-7.104-1 Liquidated damages.

AUTHORITY: Sec. 205(c), 63 Stat. 390, as amended (40 U.S.C. 486(c)); sec. 4, 63 Stat. 111, (22 U.S.C. 2658).

§ 6-7.000 Scope of part.

This part sets forth contract clauses for use in connection with the procurement of personal property and nonpersonal services (excluding construction).

Subpart 6-7.1—Fixed-Price Supply Contracts

§ 6-7.100 Scope of subpart.

This subpart sets forth or refers to contract clauses and clause alterations for use, in addition to those set forth or referred to in subpart 1-7.1 of this title, in fixed-price supply and nonpersonal service contracts entered into and performed outside the United States.

§ 6-7.101 Applicability.

(a) The use of clauses set forth or referred to in §§ 6-7.102 and 6-7.150 is mandatory, in addition to or, where specified in this subpart, in lieu of those set forth or referred to in § 1-7.102 of this title under conditions described; *Provided*, That except as otherwise specified in this subpart, any such clause need not be used if:

(1) Its use is prohibited by or inconsistant with local laws; or

(2) The supplies or services could not be obtained if the clause were included.

(b) Justification for the exclusion of clauses shall be included in the contract file.

§ 6-7.102 Required clauses.

§ 6-7.102-1 Definitions.

The following definition shall be added to those contained in § 1-7.102-1 of this title:

The term "Government" means the Government of the United States of America.

§ 6-7.102-8 Assignment of claims.

A Contracting Officer may in no event authorize a transfer or assignment prohibited by 31 U.S.C. 203 or 41 U.S.C. 15.

The following clause may be used in lieu of the clause set forth in § 1-30.703 of this title, when it is desirable to provide explicitly against an attempted transfer or performance responsibility.

ASSIGNMENT OF CLAIMS AND DELEGATIONS OF RESPONSIBILITY

The Contractor shall not assign, transfer, pledge, nor make other disposition of this contract, or any part thereof, or of any rights, claims, or obligations of the Contractor arising from this contract, nor shall the Contractor transfer or otherwise delegate the performance of any functions hereunder except with the prior written approval of the Contracting Officer.

§ 6-7.102-10 Federal, State, and local taxes.

The following clause is applicable in lieu of the clauses referred to in § 1.7-102-10 of this title. The Contracting Officer shall obtain and make a part of the contract file detailed information concerning the specific taxes, normally applicable to the transaction, for which there is an exemption.

TAXES, DUTIES, AND CHARGES FOR DOING BUSINESS

(a) As used throughout this clause, the words and terms defined in this paragraph shall have the meanings set forth herein.

(i) The term "country concerned" means any country in which expenditures under this contract are made.

(ii) The words "tax" and "taxes" include fees and charges for doing business that are levied by the government of the country concerned or by political subdivisions thereof.

(iii) The term "contract date" means the date of this contract or, if this is a formally advertised contract, the date set for bid opening; as to additional supplies or services procured by modification to this contract, the term means the date of the modification.

(b) Except as may be otherwise provided in this contract, the contract price includes all taxes and duties in effect and applicable to this contract on the contract date, except taxes and duties (1) from which the Government of the United States, the Contractor, any subcontractor, or the transactions or property covered by this contract are exempt under the laws of the country concerned or political subdivision thereof, or (ii) which the Government of the United States and the government of the country concerned have agreed shall not be applicable to expenditures in such country by or on behalf of the United States.

(c) (1) If the Contractor is required to pay or bear the burden—

(i) of any tax or duty which either was not to be included in the contract price pursuant to the requirements of paragraph (b) hereof, or was specifically excluded from the contract price by a provision of this contract; or

(ii) of an increase in rate of any tax or duty, whether or not such tax or duty was excluded from the contract price; or

(iii) of any interest or penalty on any tax or duty referred to in (i) or (ii) above, the contract price shall be correspondingly increased; provided that the Contractor warrants in writing that no amount of such tax, duty, or increase therein was included in the contract price as a contingency reserve or otherwise; and provided further, that liability for such tax, duty, increase therein, interest or penalty was not incurred through the fault or negligence of the Contractor or his failure to follow instructions of the Contracting Officer or to comply with the provisions of subparagraph (d)(1) below.

(2) If the Contractor is not required to pay or bear the burden, or obtains a refund or drawback, in whole or in part, of any tax, duty, increase therein, interest or penalty which (i) was to be included in the contract price pursuant to the requirements of paragraph (b), (ii) was included in the Contract price, or (iii) was the basis of an increase in the contract price, the contract price shall be correspondingly decreased or the amount of such relief, refund, or drawback shall be paid to the Government of the United States, as directed by the Contracting Officer. The contract price also shall be correspondingly decreased if the Contractor, through his fault or negligence or his failure to follow instructions of the Contracting Officer or to comply with the provisions of subparagraph (d)(1) below, is required to pay or bear the burden, or does not obtain a refund or drawback of any such tax, duty, increase therein, interest or penalty. Interest paid or credited to the Contractor incident to a refund of tax or duties shall inure to the benefit of the Government of the United States to the extent that such interest was earned after the Contractor was paid or reimbursed by the Government of the United States for such taxes or duties.

(3) If the Contractor obtains a reduction in his tax liability under the United States Internal Revenue Code of 1954, as amended (Title 26, U.S. Code), on account of the payment of any tax or duty which either (i) was to be included in the contract price pursuant to the requirement of paragraph (b) of this clause, (ii) was included in the contract price, or (iii) was the basis of an increase in the contract price, the amount of the reduction shall be paid or credited to the Government of the United States as the Contracting Officer directs.

(4) Invoices or vouchers covering any adjustment of the contract price pursuant to this paragraph (c) shall set forth the amount thereof as a separate item and shall identify the particular tax or duty involved.

(5) No adjustment in the contract price or payment or credit to the United States is required pursuant to this paragraph (c) if the total amount thereof for the contract period will be less than one hundred dollars ($100).

(6) Subparagraphs (1) and (2) of this paragraph (c) shall not be applicable to social security taxes; income and franchise taxes, other than those levied on or measured by (i) sales or receipts from sales, or (ii) the Contractor's possession of, interest in, or use of property, title to which is in the Government; excess profits taxes; capital stock taxes; transportation taxes; unemployment compensation taxes; or property taxes, other than such property taxes, allocable to this contract, as are assessed either on completed supplies covered by this contract, or on the Contractor's possession of, interest in, or use of property, title to which is in the Government.

(d) (1) The Contractor shall take all reasonable action to obtain exemption from or refund of any taxes or duties, including interest or penalty, from which the United States Government, the Contractor, any subcontractor, or the transactions or property covered by this contract are exempt under the laws of the country concerned or political subdivisions thereof, or which the

V 38 ■ 165
AUG 27 73
XUM

Government of the United States and the government of the country concerned have agreed shall not be applicable to expenditures in such country by or on behalf of the United States.

(2) The Contractor shall promptly notify the Contracting Officer of all matters pertaining to taxes or duties which reasonably may be expected to result in either an increase or decrease in the contract price.

(3) Whenever an increase or decrease in the contract price may be required under this clause, the Contractor shall take action as directed by the Contracting Officer, and the contract price shall be equitably adjusted to cover the cost of such action, including any interest, penalty, and reasonable attorney's fees.

§ 6–7.102–12 Disputes.

The following clause shall be used in lieu of the clause set forth in § 1–7.102–12 of this title:

DISPUTES

(a) Except as otherwise provided in this contract, any dispute concerning a question of fact arising under this contract which is not disposed of by agreement shall be decided by the Contracting Officer, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the Contractor. The decision of the Contracting Officer shall be final and conclusive unless, within 30 days from the date of receipt of such copy, the Contractor mails or otherwise furnishes to Contracting Officer a written appeal addressed to the Secretary. The decision of the Secretary or his duly authorized representative for the determination of such appeals shall be final and conclusive to the extent permitted by United States law. In connection with any appeal proceeding under this clause, the Contractor shall be afforded an opportunity to be heard and to offer evidence in support of his appeal. Pending final decision of a dispute hereunder, the Contractor shall proceed diligently with the performance of the contract and in accordance with the Contracting Officer's decision.

(b) This "Disputes" clause does not preclude consideration of law questions in connection with decisions provided for in paragraph (a) above: *Provided*, That nothing in this contract shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

§ 6–7.102.18 Covenant against contingent fees.

The clause set forth in § 1–1.503 of this title shall not be excluded from any contract.

§ 6–7.102.19 Termination for convenience of the Government.

The following clause shall be inserted in lieu of that referred to in § 1–7.102.19 of this title for all contracts for "commercial items" as defined in § 1–3.807–1 (b) (2) (B) of this title:

TERMINATION FOR CONVENIENCE OF THE GOVERNMENT

The Government shall have the right to terminate this contract at any time by giving written notice to the Contractor not less than 10 days prior to the effective date of termination. Should this contract be terminated pursuant to this clause prior to the date it would otherwise expire, the following shall apply:

(a) The Government shall complete all payments which shall then be due;

(b) The Contractor shall deliver to the Government all work in process under this contract requested by the Government;

(c) The Government shall pay to the Contractor any sum which is determined by the Contracting Officer as equitable for any work in process, which sum shall include any costs incurred by the Contractor in terminating any subcontract.

(d) Should the Contractor be unwilling to accept the sum so determined by the Contracting Officer the matter shall be treated as a dispute concerning a question of fact within the meaning of the clause entitled "Disputes" in the General Provisions of this contract.

§ 6–7.103 Clauses to be used when applicable.

§ 6–7.103–3 Examination of Records by Comptroller General.

The clause set forth in § 1–7.103–3 of this title may be excluded from negotiated contracts only in accordance with procedures provided in subpart 1–6.10 of this title and subpart 6–6.10 of Part 6–6 of this chapter.

§ 6–7.104 Additional clauses.

§ 6–7.104–1 Liquidated damages.

The clause set forth in § 1–1.315–3 of this title shall be inserted under the conditions and in the manner prescribed in § 1–1.315 of this title. The clause shall be altered to refer to FS–565 rather than Standard Form 32.

4. In section 6–7.150, § 6–7.150–1 is revised to read as follows:

§ 6–7.150–1 Prohibition against items from certain areas.

PROHIBITION AGAINST ITEMS FROM CERTAIN AREAS

(a) No supplies, however processed, which are or were located in or transported from or through North Vietnam, North Korea, or Cuba may be used in the performance of this contract.

(b) The Contractor agrees to insert the provisions of this clause, including this paragraph (b) in all subcontracts hereunder.

CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 20—MIGRATORY BIRD HUNTING

Miscellaneous Amendments

Correction

In FR Doc. 73–16914 appearing at page 22015 in the issue of Wednesday, August 15, 1973, on page 22022, immediately after the third line of § 20.21(e), insert "has been completely shut off and/or the sails furled, and its progress therefrom".

PART 32—HUNTING

Muscatatuck National Wildlife Refuge, Ind.

The following special regulation is issued and is effective on August 27, 1973.

§ 32.22 Special regulations: upland game; for individual wildlife refuge areas.

INDIANA

MUSCATATUCK NATIONAL WILDLIFE REFUGE

Public hunting of upland game (rabbit and quail only) on the Muscatatuck National Wildlife Refuge, Indiana, is permitted only on the area designated by signs as open to hunting on the southeast corner of the refuge. This area, comprising 1,320 acres, is delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111. Hunting shall be in accordance with all applicable State regulations concerning the hunting of rabbit and quail.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 31, 1974.

AUGUST 20, 1973.

ROBERT E. NAGEL,
Acting Refuge Manager, Muscatatuck National Wildlife Refuge, Seymour, Indiana.

SURVEYS

Mineral Surveyors

The purpose of this amendment is to conform the regulations to existing delegations of authority and procedures relating to the appointment of mineral surveyors and to remove provisions of the regulations which limit surveyors to performing surveys in specified States only.

In §§ 3861.5–1 and 9185.1–3(b) of 43 CFR the references to "State Director" are changed to "Director or his delegate." Current regulations provide that State Directors of the Bureau of Land Management appoint mineral surveyors. In addition, § 3861.5–1 sets forth procedures which limit eligibility of appointed surveyors to the region where they were appointed. This amendment removes that restriction and provides for the maintenance of a list of all eligible mineral surveyors in each State office of the Bureau of Land Managment.

In accordance with the Department's policy on public participation in rulemaking (36 FR 8336), interested parties may submit written comments, suggestions, or objections with respect to the proposed rules to the Director (210), Bureau of Land Management, Washington, D.C. 20240 until September 24, 1973.

Copies of comments, suggestions, or objections made pursuant to this notice will be available for public inspection in the Office of Information, Bureau of Land Management, Room 5643, Interior Building, Washington, D.C., during regular business hours (7:45 a.m.–4:15 p.m.).

Chapter II of Title 43 of the Code of Federal Regulations is amended as follows:

1. Section 3861.5–1 of Subpart 3861 of 43 CFR Part 3860 is revised to read:

§ 3861.5–1 Appointment.

Pursuant to section 2334 of the Revised Statutes (30 U.S.C. 39), the Director or his delegate will appoint only a sufficient number of surveyors for the survey of mining claims to meet the demand for that class of work. Each appointee shall qualify as prescribed by the Director or his delegate. Applications for appointment as a mineral surveyor may be made at any office of the Bureau of Land Management listed in § 1821.2–1 of these regulations. A roster of appointed mineral surveyors will be available at these offices. Each appointee may execute mineral surveys in any State where mineral surveys are authorized.

2. Paragraph (b) of § 9185.1–3 of Subpart 9185 of 43 CFR Part 9180 is revised to read:

§ 9185.1–3 Mining claims.

* * * * *

(b) *Mineral surveyors.*—See §3861.5–1 for the appointment of mineral surveyors pursuant to section 2334 of the Revised Statutes (30 U.S.C. 39).

August 20, 1973.

JACK O. HORTON,
Assistant Secretary of the Interior.

CANNED GRAPEFRUIT

Proposed United States Standards for Identity

Correction

In FR Doc. 73–16508 appearing at page 21785 of the issue for Monday, August 13, 1973, make the following changes:

1. The second line of § 52.1149(b), reading "canned grapefruit that consist of less", should read "canned grapefruit that consist of not".

2. In Table IV, the entry under "Defects" reading "Albedo and Touch Membrane" should read "Albedo and Tough Membrane"; and the second entry to the right of this, reading "3/ square inch" should read "¾ square inch".

[7 CFR Part 930]

CHERRIES GROWN IN MICHIGAN, NEW YORK, WISCONSIN, PENNSYLVANIA, OHIO, VIRGINIA, WEST VIRGINIA AND MARYLAND

Proposed Revision of Percentages and Release Period

This notice invites written comments relative to a change in the 10-day restricted percentage adjustment and reserve pool release period from September 15–25 to November 1–11. The proposal was submitted by the Cherry Administrative Board, established pursuant to Marketing Order No. 930, regulating the handling of cherries grown in Michigan, New York, Wisconsin, Pennsylvania, Ohio, Virginia, West Virginia and Maryland. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The board, in proposing such amendment, reports that currently the time between the completion of the cherry harvest and when the recommendation must be made to the Secretary for an adjustment or release is insufficient for the compilation and verification of crop data and marketing information.

The proposal is to amend the rules and regulations of the order to establish a new 10-day revision of percentages and release period—November 1–11. Changing this 10-day period is authorized in § 930.53 of the order. This would supersede the currently provided period of September 15–25.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed amendment shall file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than September 5, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

As proposed a new § 930.110 will read as follows:

§ 930.110 After harvest adjustment and release period.

The 10-day period provided in § 930.53 paragraphs (a) and (b)(1) for the revision of percentages and release of reserve pool cherries shall be November 1–11, of the fiscal period.

Dated: August 21, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 180]

SODIUM CHLORATE

Proposed Exemption From Requirement of a Tolerance

The California Department of Agriculture, 1220 N Street, Sacramento, CA 95814, submitted a petition (PP 2E1286) proposing establishment of an

V38-165 AUG 27 73 XUM

exemption from the requirement of a tolerance for residues of sodium chlorate in or on the raw agricultural commodity chili peppers.

Based on consideration given the data submitted in the petition and other relevant material, it is concluded that:

1. The pesticide is useful for the purpose for which the exemption is proposed.

2. There is no reasonable expectation of residues in eggs, meat, milk, or poultry and § 180.6(a)(3) applies.

3. The proposed exemption will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 FR 9038), it is proposed that § 180.1020 be revised to read as follows:

§ 180.1020 Sodium chlorate; exemption from the requirement of a tolerance.

Sodium chlorate is exempted from the requirement of a tolerance for residues in or on cottonseed and chili peppers when used in accordance with good agricultural practice as a defoliant, desiccant, or fungicide on cotton and as a defoliant on chili peppers.

Any person who has registered or submitted an application for the registration of an economic poison under the Federal Insecticide, Fungicide, and Rodenticide Act containing any of the ingredients listed herein may request, on or before September 26, 1973, that this proposal be referred to an advisory committee in accordance with section 408(e) of the act.

Interested persons may, on or before September 26, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 3902A, 4th & M Streets SW., Waterside Mall, Washington, D.C. 20460, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. All written submissions made pursuant to this proposal will be made available for public inspection at the office of the Hearing Clerk.

Dated: August 21, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticide Programs.

[18 CFR Parts 2, 154]

[Docket No. R-478]

NATURAL GAS PRODUCED FROM WELLS COMMENCED BEFORE JANUARY 1, 1973

Just and Reasonable Rates; Order Prescribing Further Procedure

AUGUST 17, 1973.

By notice issued May 23, 1973 (38 FR 14295), in the above-entitled proceeding, the Commission proposed to amend Parts 2 and 154, Subchapter E, Chapter I, Title 18 of the Code of Federal Regulations by issuing rules fixing the just and reasonable rate for jurisdictional sales by producers of natural gas in the United States (excluding Alaska and Hawaii) from wells commenced prior to January 1, 1973, except for those sales certificated under Order Nos. 428, 431, or 455.

Data collection forms prepared by the Commission's staff were appended to the May 23 notice, and interested parties were given an opportunity to file comments as to the sufficiency of these forms. Comments were filed by the Major Producer Group (consisting of 32 major producers), 20 individual producers, 27 pipeline companies and one gas distributors group. We have reviewed these comments, and as a result, have made some modifications to the original forms. The forms, as modified, are attached to this order.[1]

We shall require that Schedules 1, 2, 3, 4, and 4-A of the data collection forms be filed by all respondents set forth in Appendix A and also by the pipeline respondents in Appendix B of the May 23 notice on or before October 12, 1973, and that Schedule 5 of the data collection forms be filed by these respondents on or before November 9, 1973.[2] The Commission's staff shall reconcile and composite the data from Schedules 1, 2, 3, 4, and 4-A, and on or before November 23, 1973, shall make copies of its composite available to any party hereto.

Further orders shall issue with respect to the procedures for the submission of further evidence in this rulemaking proceeding.

The Commission orders:

Each respondent listed in Appendix A and Appendix B of the notice issued herein on May 23, 1973, is hereby ordered and directed to complete, verify, and file with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, three copies of Schedules 1, 2, 3, 4, and 4-A of the data collection forms attached to this order on or before October 12, 1973, and three copies of Schedule 5 of the data collection forms attached to this order on or before November 9, 1973. The Commission's staff shall reconcile and composite the data submitted by the respondents in Schedules 1, 2, 3, 4, and 4-A and shall make copies of its composite available to any party hereto on or before November 23, 1973.

By the Commission.[3]

[SEAL] KENNETH F. PLUMB,
Secretary.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 73-CE-26]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation regulations so as to designate a transition area at Pocahontas, Iowa.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106. All communications received on or before September 26, 1973 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief.

Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106.

A new public use instrument approach procedure is being developed for the Pocahontas, Iowa, Municipal Airport. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this new approach procedure by designating a transition area at Pocahontas, Iowa.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation regulations as hereinafter set forth:

In § 71.181 (38 F.R. 435), the following transition area is added:

POCAHONTAS, IOWA

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Pocahontas Municipal Airport (latitude 42°44'45'' N., longitude 94°38'45'' W.); within 3 miles each side of the 280° bearing from the Pocahontas Municipal Airport, extending from the 5-mile radius to 8 miles west of the airport; within 2 miles each side of the 116° bearing from the Pocahontas Municipal Airport; extending from the 5-mile radius to 6 miles southeast of the airport; and that airspace extending upward from 1,200 feet above the surface within a 41-mile arc of the Fort Dodge VORTAC (latitude 42°38'40'' N., longitude 94°17'41'' W.); starting at the 268° radial of the Fort Dodge VORTAC and extending clockwise to the 315° radial of the Fort Dodge VORTAC, excluding that portion which overlies the Fort Dodge, Iowa, Spencer, Iowa and Storm Lake, Iowa transition areas.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Kansas City, Missouri, on August 9, 1973.

JOHN M. CYROCKI,
Director, Central Region.

[FR Doc 73-18022 Filed 8-24-73; 8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 73-SW-54]

CONTROL ZONE

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation regulations to alter the Tulsa, Okla. (Riverside Airport), control zone.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before September 26, 1973, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

A new TVOR is proposed to be installed at latitude 35°57'44'' N., longitude 95°58'21'' W., to serve the Tulsa, Okla., Riverside Airport. Alteration of the control zone is necessary to provide controlled airspace for instrument approach procedures in conformance with Standard Terminal Instrument Procedures (TERPs) criteria predicated on the new TVOR.

It is proposed to amend Part 71 of the Federal Aviation regulations as hereinafter set forth.

In § 71.171 (38 FR 351), the Tulsa, Okla. (Riverside Airport), control zone is amended to read:

TULSA, OKLA. (RIVERSIDE AIRPORT)

Within a 3-mile radius of Riverside Airport (latitude 36°02'19'' N., longitude 95°59'00'' W.) within 2.5 miles each side of the Tulsa VORTAC 223° T (215° M) radial extending from the 3-mile radius zone to 21 miles southwest of the VORTAC and within 2 miles each side of the Riverside TVOR 350° T (342° M) radial extending from the 3-mile radius zone to 4 miles south of the Riverside Airport. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Fort Worth, Tex., on August 16, 1973.

ALBERT H. THURBURN,
Acting Director, Southwest Region.

[FR Doc.73-18023 Filed 8-24-73;8:45 am]

[14 CFR Part 71]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation regulations so as to designate a transition area at Chillicothe, Missouri.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106. All communications received on or before September 26, 1973 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief.

Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106.

A new public use instrument approach procedure is being developed for the Chillicothe Municipal Airport, Chillicothe, Missouri. Consequently it is necessary to provide controlled airspace protection for aircraft executing this new approach procedure by designating a transition area at Chillicothe, Missouri.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation regulations as hereinafter set forth:

In § 71.181 (38 FR 435), the following transition area is added:

CHILLICOTHE, MISSOURI

That airspace extending upwards from 700' above the surface within a 5-mile radius of the Chillicothe Municipal Airport (latitude 39°46'45'' N., longitude 93°30'00'' W.); and within 3 miles either side of the 337° bearing from the MHW facility extending from the 5-mile radius to 8.5 miles northwest, and that airspace extending upwards from 1,200' above the surface 5 miles southwest and 9.5 miles northeast of the 337° bearing from the Chillicothe MHW facility extending from 6.5 miles southeast to 18.5 miles northwest of the Chillicothe MHW facility, excluding that portion which overlies the Trenton, Missouri, transition area.

(Sec. 307(a) Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Kansas City, Missouri, on August 10, 1973.

JOHN M. CYROCKI,
Director, Central Region.

[FR Doc.73-18024 Filed 8-24-73;8:45 am]

Hazardous Materials Regulations Board

[49 CFR Parts 173, 177]

[Docket No. HM-110; Notice No. 73-5]

HANDLING OF HAZARDOUS MATERIALS ON MOTOR VEHICLES

Miscellaneous Amendments

The Hazardous Materials Regulations Board is considering amendment of several sections of the Department's Hazardous Materials regulations. Commenters need only identify the particular proposal on which they wish to comment when responding. The proposals covered in this document are:

A. Emergency discharge controls on MC 330 cargo tanks.

B. Cargo tank certificate retention.

C. Hydrostatic and pneumatic testing of cargo tanks.

D. Cargo heaters with explosives and flammable commodities.

E. Attendance of tank vehicles during loading and unloading.

F. Openings on cargo tank to be closed during transportation.

G. Repairs and maintenance to vehicles in closed garages.

H. Warning devices on vehicles containing hazardous materials.

PROPOSAL A

EMERGENCY DISCHARGE CONTROLS ON MC 330 CARGO TANKS

The Hazardous Materials Regulations Board is considering amendment of § 173.33 of the Department's Hazardous Materials regulations to require that all Specification MC 330 cargo tanks used for the transportation of flammable compressed gases and anhydrous ammonia be equipped with emergency discharge controls as is now required on Specification MC 331 cargo tanks. At the time Specification MC 331 cargo tank specification was adopted, the Interstate Commerce Commission decided not to require an updating of the standards for Specification MC 330 cargo tanks.

The Board believes that it is now necessary to require that these tanks conform to the same emergency discharge control standards as are required for MC 331 cargo tanks to assure the same degree of safety. A recent accident involving an MC 330 cargo tank has demonstrated the need to require that these tanks be retrofitted with remote controlled internal shutoff valves. In this accident, the propane from an MC 330 cargo tank provided fuel to a fire which resulted from the accidental rupture of a manifolded storage tank intake line into which the cargo tank was unloading. The escaping propane from the cargo tank was not discharging at a rate high enough to activate the excess flow valve. The fire was directed to another cargo tank that eventually exploded. As a result of the fire and explosion, one person was killed and over $200,000 in property damage occurred. There is little doubt that if an internal valve, as specified in section 178.337-11(c) had been installed on the cargo tank, the flow of propane could have been shutoff by manual means, if not automatically by the melting of the fusible element.

In order not to impose an undue burden on tank owners, the Board is proposing that the emergency discharge controls may be installed when the cargo tanks are scheduled for the 5-year retest required in § 173.33.

In consideration of the foregoing, it is proposed to amend 49 CFR Part 173 as follows:

In § 173.33, paragraph (l) would be added as follows:

§ 173.33 Cargo tank use authorization.

* * * * * *

(l) MC 330 cargo tanks used for flammable compressed gas or anhydrous ammonia must be equipped with an emergency discharge control that conforms to the requirements of § 178.337-11(c) of this subchapter at each liquid or vapor discharge opening. The control must be installed not later than the date the tests prescribed by paragraph (e) of this section are required.

PROPOSAL B

CARGO TANK CERTIFICATE RETENTION

The Hazardous Materials Regulations Board is considering an amendment to clarify the requirement for retention of the manufacturer's certificate for specification cargo tanks.

The Board has found that many motor carriers are not aware of a requirement that the manufacturer's certificate for a specification cargo tank must be retained by the motor carrier for as long as the tank is in service and for 1 year thereafter. The confusion may be caused by the fact that the certificate-retention requirements are presently contained in the cargo tank specifications in Part 178, and many of the specifications no longer appear in the published codification of the regulations, although the tanks may be continued in use. The Board believes that a general retention provision is needed in Part 177 to resolve this problem. In addition, the Board is proposing to require carriers to retain all retest and inspection reports in the same file with the manufacturer's certificate.

In consideration of the foregoing, it is proposed to amend 49 CFR Part 177 as follows:

(A) In Part 177 Table of Contents, § 177.814 would be added to read as follows:

Sec.
177.814 Retention of manufacturer's certificate

V38-165 AUG 27 73 XUM

(B) Section 177.814 would be added to read as follows:

§ 177.814 Retention of manufacturer's certificate.

(a) Each motor carrier who uses a cargo tank vehicle shall have in his files a certificate signed by a responsible official of the manufacturer or fabricator of the cargo tank, or a competent testing agency, certifying that the cargo tank has been designed, constructed, and tested in accordance with, and complies with, the requirements contained in the specification for the tank set forth in this subchapter. The certificate and any other data furnished as required by the specification must be retained at the principal office of the carrier during the time that the cargo tank is used by the carrier and for 1 year thereafter. However, the motor carrier may himself perform the tests and inspections to determine whether the tank meets the requirements of the specification. If the motor carrier does so and determines that the tank conforms to the specification, he may use the tank if he retains the test data, in place of a certificate in his files at his principal office for as long as he uses the tank and 1 year thereafter. Each motor carrier who uses a specification cargo tank which he does not own and has not tested or inspected shall obtain a copy of the certificate and retain it in his files at his principal office during the time he uses the tank and for 1 year thereafter.

(b) Upon a written request to, and with the approval of, the Director, Regional Motor Carrier Safety Office, for the region in which a motor carrier has his principal place of business, a motor carrier may retain the certificate and other data specified in paragraph (a) of this section at a regional or terminal office. The address and jurisdictions of the Directors of Regional Motor Carrier Safety Offices are shown in § 390.40 of Chapter III of this title.

(c) *Withdrawal of certification.*—See § 177.824(i).

(d) A copy of retest and inspection reports required by §§ 173.33 and 177.824 and all records of repairs to each cargo tank must be retained in the same file with the manufacturer's certificate for that tank as specified in paragraph (a) of this section.

PROPOSAL C

HYDROSTATIC AND PNEUMATIC TESTING OF CARGO TANKS

The Hazardous Materials Regulations Board is considering amendment of § 177.824 of the Department's Hazardous Materials Regulations to clarify the hydrostatic and pneumatic testing procedures for cargo tanks.

Present requirements specify hydrostatic or pneumatic testing of cargo tanks under certain conditions. But the procedures for pneumatic testing are not contained in the regulations. Therefore, the Board is proposing that these procedures be incorporated into the regulations.

In consideration of the foregoing, it is proposed to amend 49 CFR Part 177 as follows:

In § 177.824, subparagraph (d)(2) would be revised to read as follows:

§ 177.824 Retesting and inspection of cargo tanks.

* * * * *

(d) * * *

(2) For hydrostatic testing, the tank (including its domes, if any) must be completely filled with water or a liquid having a viscosity similar to water and the pressure must be gaged at the top of the tank. Pressure must be applied in accordance with the following chart and increased for pneumatic testing by a pressure equivalent to the static head in the tank when fully loaded with the heaviest lading authorized to be transported or water, whichever is heavier. The tank must hold the prescribed pressure for at least 10 minutes. All tank valves, piping, and other accessories in communication with the lading must be pressure tested and proved tight at the tank design pressure. During the pneumatic test the entire surface of all joints under pressure must be coated with a solution of soap and water, heavy oil, or other materials suitable for the purpose of foaming or bubbling to indicate the presence of leaks. Other methods equally sensitive for determining leaks may be used.

* * * * *

PROPOSAL D

CARGO HEATERS WITH EXPLOSIVES AND FLAMMABLE COMMODITIES

The Hazardous Materials Regulations Board is considering amendment of § 177.834 of the Department's Hazardous Materials regulations, to clarify the prohibition against the use of certain heaters in a transport vehicle which is loaded with explosives or flammable commodities.

There has been much confusion concerning the use of catalytic cargo heaters in vehicles transporting flammable liquids and flammable gases. The Federal Highway Administration has taken the position that, for the purposes of these regulations, a catalytic heater is a combustion heater. This proposal would specifically state that catalytic heaters are considered as such, and not permitted in vehicles transporting flammable materials. However, commenters are invited to submit test data and other evidence in support of the use of catalytic heaters as a safe means of heating the cargo spaces of motor vehicles.

The Board also feels that the precautions against the loading of explosives into transport vehicles containing a heater should be the same as that pertaining to flammables, and that the specific provision should be included under general requirements.

In consideration of the foregoing, it is proposed to amend 49 CFR Part 177 as follows:

(A) In § 177.834, paragraph (l) would be amended to read as follows:

§ 177.834 General requirements.

* * * * *

(l) *Use of cargo heaters with explosives and flammable commodities.*—(1) *Flammable liquids and flammable gases.*— Except as provided in paragraph (l)(2) of this section, a flammable liquid or a flammable gas must not be loaded into a truck body or a trailer containing a combustion heater or equipped with operable automatic temperature control equipment. For purposes of this section, a catalytic heater is a combustion heater. Fuel tanks for automatic temperature control equipment must be empty or removed from the vehicle, except that liquefied petroleum gas fuel tanks exterior to the vehicle body may have their valves closed and disconnected from the fuel feed lines instead of being emptied or removed.

(2) *Exception for certain automatic temperature control equipment.*—A flammable liquid or a flammable gas may be transported in a vehicle equipped with automatic temperature control equipment, if (i) the lading space is equipped with no electrical apparatus or electrical apparatus of the nonsparking or explosion-proof type, (ii) no combustion apparatus is in the lading space; and (iii) there is no connection for return of air from the lading space to any combustion apparatus. The heating system must prevent heating of any part of the lading to a temperature of more than 130°F. and must conform to the requirements of § 393.77, of this title.

(3) *Explosives.*—An explosive must not be loaded into a truck body or trailer which contains a combustion heater or is equipped with operable automatic temperature control equipment. For the purposes of this paragraph, catalytic heaters are combustion heaters. All fuel tanks for a heater or automatic temperature control equipment with which a truck body or trailer is equipped must be drained. All automatic heating or refrigeration machinery must be rendered inoperative by disconnection of the automatic controls and sources of power for its operation.

(B) In § 177.835, paragraph (e)(1) would be deleted as follows:

§ 177.835 Explosives.

* * * * *

(e) * * *

(1) [deleted].

* * * * *

PROPOSAL E

ATTENDANCE OF TANK MOTOR VEHICLES DURING LOADING AND UNLOADING OPERATIONS

The Hazardous Materials Regulations Board is considering amendment of § 177.834 to clarify the meaning of "attendance" as it pertains to a tank motor vehicle being loaded or unloaded.

The Board has found that several dangerous incidents have occurred during the loading or unloading of tank motor vehicles which could have been avoided, if there had been someone near the cargo tank to take corrective or precautionary action. The Board feels that there may be some confusion as to the intent of the term "attendance" as it is used in § 177.834(l).

In consideration of the foregoing, it is proposed to amend 49 CFR Part 177 as follows:

In § 177.834, paragraph (i) would be revised as follows:

§ 177.834 General requirements.

* * * * *

(i) *Tank motor vehicles must be attended during loading and unloading.*— Each tank motor vehicle must be attended at all times by its driver or a qualified representative of the motor carrier that operates it during the loading or unloading of the tank motor vehicle. For the purposes of this subsection—

(1) A tank motor vehicle is attended when the person in charge of the vehicle is awake and not in a sleeper berth, and is within 25 feet of the tank motor vehicle and has it within his unobstructed field of view;

(2) A "qualified representative" of a motor carrier is a person who has been designated by the carrier to attend the vehicle, is aware of the nature of the hazardous material contained in the tank motor vehicle he attends, has been instructed on the procedures he must follow in emergencies, is authorized to move the vehicle, and has the means to do so; and

(3) The delivery hose, when attached to the tank motor vehicle, is a part of the vehicle.

* * * * *

PROPOSAL F

OPENINGS ON CARGO TANKS TO BE CLOSED DURING TRANSPORTATION

The Hazardous Materials Regulations Board is considering amendment of § 177.839 by adding a requirement that internal valves and manholes be in a closed and secured position during transportation. A similar provision was added during recent rule making pertaining to the transportation of compressed gases, and the Board now proposes to add similar requirements for the transportation of flammable liquids, poisons and corrosive materials in cargo tanks. In consideration of the foregoing, it is proposed to amend 49 CFR Part 177 as follows:

(A) In § 177.837, paragraph (e) would be added to read as follows:

§ 177.837 Flammable liquids.

* * * * *

(e) *Manholes and valves closed.*—A person shall not drive a tank motor vehicle and a motor carrier shall not require or permit a person to drive a tank motor vehicle containing a flammable liquid unless—

(1) All manhole closures on the cargo tank are closed and secured; and

(2) All valves and other closures on liquid discharge openings are closed and free of leaks.

(B) In § 177.839, paragraph (d) would be added to read as follows:

§ 177.839 Corrosive liquids.

* * * * *

(d) *Cargo Tanks.*—A person shall not drive a tank motor vehicle and a motor carrier shall not require or permit a person to drive a tank motor vehicle containing a corrosive liquid unless—

(1) All manhole closures on the cargo tank are closed and secured; and

(2) All valves and other closures on liquid discharge openings are closed and free of leaks.

(C) In § 177.841, paragraph (d) would be added to read as follows:

§ 177.841 Poisons.

* * * * *

(d) *Poisons in cargo tanks.*—A person shall not drive a tank motor vehicle and a motor carrier shall not require or permit a person to drive a tank motor vehicle containing poisons unless—

(1) All manhole closures on the cargo tank are closed and secured; and

(2) All valves and other closures on liquid discharge openings are closed and free of leaks.

PROPOSAL G

REPAIRS AND MAINTENANCE TO MOTOR VEHICLES CONTAINING HAZARDOUS MATERIALS

The Hazardous Materials Regulations Board is considering amendment of § 177.854 of the Department's Hazardous Materials Regulations to authorize repairs to a motor vehicle containing hazardous materials in a closed garage.

This proposal is based, in part, on a petition from Consolidated Freightways Corp. of Delaware. Petitioner states that "* * * minor repairs as adjustment of brakes, changing of tires, replacing burned out lamps, etc., would necessarily have to be made in the open or under a shed-type building * * * this rule causes undue hardship on our, or any motor carrier's operation, especially during the hours of darkness and also inclement weather.

The Board has concluded that the petitioner's request may have merit. A carrier faced with the prohibition in § 177.854(g) might well choose to delay making necessary, though perhaps minor, repairs until after the vehicle has reached its destination and has been emptied. By doing so, a greater hazard may exist than the potential hazard posed by the making of repairs in a garage, especially since many repairs do not involve any particular risk of explosion or fire.

However, the Board believes that the prohibition should be removed only if adequate safeguards against explosion are maintained. The safeguards proposed include protecting the vehicle from open flames or welding devices in use, and requiring every vehicle to have a means of motive power while it is in the garage.

In consideration of the foregoing, it is proposed to amend 49 CFR Part 177 as follows:

In § 177.854, paragraph (g) would be revised to read as follows:

§ 177.854 Disabled vehicles and broken or leaking packages; repairs.

* * * * *

(g) *Repairs and maintenance to vehicles.*—(1) No maintenance or repair using open flame or any type of welding may be performed on vehicles containing hazardous materials.

(2) When a vehicle containing hazardous materials is inside a building for repairs or other reasons—

(i) There must be no flame-producing or welding devices in operation within the same enclosed area of the building; and

(ii) The vehicle must have an operable means of motive power or must be connected to an operable truck or truck tractor to facilitate its quick removal from the building.

* * * * *

PROPOSAL H

WARNING DEVICES FOR STOPPED VEHICLES

The Hazardous Materials Regulations Board is considering editorial changes to §§ 177.854, 177.856, and 177.859 to reflect recent changes to the Motor Carrier Safety regulations (49 CFR Parts 390–397) pertaining to warning devices for stopped vehicles.

In consideration of the foregoing, it is proposed to amend 49 CFR Part 177 as follows:

(A) In § 177.854, the last sentence in paragraph (a) and the entire subparagraph (f)(1) would be amended to read as follows:

§ 177.854 Disabled vehicles and broken or leaking packages; repairs.

(a) * * * Sections 392.22, 392.24, and 392.25 of this title for signals required to be displayed on the highway.

* * * * *

(f) * * *

(1) For motor vehicles other than cargo tank motor vehicles used for the transportation of flammable liquids or flammable compressed gases and not transporting explosives, Class A, or Class B, flares (pot torches), fusees, red electric lanterns, red emergency reflectors, red emergency reflective triangles, or red flags must be set out in the manner prescribed by §§ 392.22, 392.24, and 392.25 of this title.

* * * * *

(B) In § 177.865, the second sentence in paragraph (d) would be amended to read as follows:

§ 177.856 Accidents; flammable liquids.

* * * * *

(d) * * * In such cases red electric lanterns, red emergency reflectors, red emergency reflective triangles, or red flags must be set out in the manner prescribed by §§ 392.22, 392.24, and 392.25 of this title. * * *

* * * * *

(C) In § 177.859, the third sentence in paragraph (b) would be amended to read as follows:

V38-165
AUG 27 73
XUM

§ 177.859 Accidents; compressed gases.

• • • • • •

(b) • • • Red electric lanterns, red emergency reflectors, red emergency reflective triangles, or red flags must be set out in the manner prescribed in §§ 392.22, 392.24, and 392.25 of Chapter III of this title. • • •

• • • • • •

Interested persons are invited to give their views on these proposals. Communications should identify the docket number and be submitted in duplicate to the Secretary, Hazardous Materials Regulations Board, Department of Transportation, Washington, D.C. 20590. Communications received on or before October 30, 1973, will be considered before final action is taken on these proposals. All comments received will be available for examination by interested persons at the Office of the Secretary, Hazardous Materials Regulations Board, Room 6215, Buzzards Point Building, Second and V Streets SW., Washington, D.C., both before and after the closing date for comments.

This proposal is made under the authority of sections 831–835 of title 18, United States Code, and section 9 of the Department of Transportation Act (49 U.S.C. 1657).

Issued in Washington, D.C., on August 21, 1973.

ROBERT A. KAYE,
Board Member for the
Federal Highway Administration.

[FR Doc.73-18142 Filed 8-24-73;8:45 am]

National Highway Traffic Safety Administration

[49 CFR Part 571]

[Docket No. 4–2; Notice 9]

WARNING DEVICES

Optional Labeling With Manufacturer or Distributor Name

This notice proposes to amend Standard 125, Warning Devices, 49 CFR 571.125, to permit the use of the manufacturer's or distributor's name on the device to satisfy identification requirements.

The standard (effective date January 1, 1974) presently requires marking with the manufacturer's name. A recent proposal (38 FR 14968, June 7, 1973) would also require the use of manufacturer codes on all regulated vehicles and equipment other than tires, including warning devices. A manufacturer of warning devices, Miro-Flex Co. of Wichita, Kansas, has proposed the use of such a code instead of the manufacturer's name to permit merchandizing of its device through private label programs.

The NHTSA has determined that this petition for rulemaking should be granted in part. The use of a code would aid in distinguishing manufacturers with nearly identical names and permit rapid retrieval of identification information in the event of notification and recall. At the same time, notification and recall would be further aided by a manufacturer or distributor's brand name which the purchaser would be likely to remember and recognize as the source of his warning device. Because the code has already been proposed elsewhere and should be evaluated as one part of a uniform labeling system (NHTSA Docket 73–14; No. 1, comment closing date September 7, 1973), this notice only proposes that the manufacturer be permitted the option of marking the device with his name or a distributor's name.

Accordingly, it is proposed that Standard No. 125, Warning devices, 49 CFR 571.125, be amended by changing subparagraph S5.1.4(a) to read:

(a) Name of manufacturer or distributor;

Interested persons are invited to submit comments on the proposal. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5221, 400 Seventh Street SW., Washington, D.C. 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered by the Administration. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The Administration will continue to file relevant material, as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Comment closing date: November 22, 1973.

Proposed effective date: January 1, 1974.

(Secs. 103, 112, 119, Pub. L. 89–563, 80 Stat. 718, (15 U.S.C. 1392, 1401, 1407); delegations of authority at 49 CFR 1.51 and 49 CFR 501.8)

Issued on August 21, 1973.

ROBERT L. CARTER,
Associate Administrator,
Motor Vehicle Prpgrams.

[FR Doc.73–18097 Filed 8–24–73;8:45 am]

VETERANS ADMINISTRATION

[38 CFR Parts 1, 17]

NATIONAL CEMETERY SYSTEM

Eligibility for Interment; Memorial Services

Public Law 93–43 (87 Stat. 75), enacted June 18, 1973, established a National Cemetery System within the Veterans Administration. This system will have jurisdiction over cemeteries under jurisdiction of the Veterans Administration as well as certain cemeteries to be transferred from the Department of the Army. Accordingly, §§ 17.200, 17.205, and 17.206 are revoked and is is proposed to add §§ 1.600 and 1.606 to provide for eligibility for interment and memorial services conducted in national cemeteries.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposal to the Administrator of Veterans' Affairs (232H), Veterans Administration, Central Office, 810 Vermont Avenue NW., Washington, D.C. 20420. All relevant material received before September 26, 1973, will be considered. All written comments received will be available for public inspection at the above address only between the hours of 8 a.m. and 4:30 p.m., Monday through Friday (except holidays), during the mentioned 30-day period and for 10 days thereafter. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Assistance Unit in room 132. Such visitors to any VA field station will be informed that the records are available for inspection only in Central Office and will be furnished the address of the above room number.

The provisions relating to interment in the former Veterans Administration cemeteries (now a part of the National Cemetery System) will be effective June 18, 1973. Eligibility for interments in those cemeteries of the Department of the Army being transferred to the Veterans Administration on September 1, 1973, will be effective on that date. The effective date of § 1.606 relating to memorial services conducted in national cemeteries will be effective June 18, 1973.

1. In 38 CFR Part 1, a center title and §§ 1.600 and 1.606 are added to read as follows:

NATIONAL CEMETERIES

§ 1.600 Interment in national cemeteries.

The National Cemetery System established by Public Law 93–43, the National Cemeteries Act of 1973 (87 Stat. 75) consists of all cemeteries under the jurisdiction of the Veterans Administration on June 18, 1973, and the national cemeteries transferred on September 1, 1973, from the Department of the Army to the Veterans Administration. The following rules of eligibility for interment in national cemeteries apply to all former Veterans Administration cemeteries as of June 18, 1973. These rules of eligibility for interment also apply to all cemeteries transferred on September 1, 1973, from the Department of the Army to the Veterans Administration, and to any other cemetery later acquired or developed by the Veterans Administration. Burial is authorized in national cemeteries of the remains of the following:

(a) Any person who served in the active military, naval, or air service who was discharged or released therefrom under conditions other than dishonorable.

(b) Any member of the Armed Forces who died in the active military, naval, or air service.

(c) Any member of a Reserve component of the Armed Forces, the Army National Guard or the Air National Guard, whose death occurs under honorable conditions while he is hospitalized or undergoing treatment, at the expense of the United States, for injury or disease contracted or incurred under honorable conditions while he is performing active duty for training, inactive duty training, or undergoing that hospitalization or treatment at the expense of the United States.

(d) Any member of the Reserve Officers' Training Corps of the Army, Navy, or Air Force whose death occurs under honorable conditions while he is

(1) Attending an authorized training camp or on an authorized practice cruise,

(2) Performing authorized travel to or from that camp or cruise, or

(3) Hospitalized or undergoing treatment, at the expense of the United States, for injury or disease contracted or incurred under honorable conditions while he is

(i) Attending that camp or on that cruise,

(ii) Performing that travel, or

(iii) Undergoing that hospitalization or treatment at the expense of the United States.

(e) Any citizen of the United States who, during any war in which the United States is or has been engaged, served in the Armed Forces of any government allied with the United States during that war, and whose last such service terminated honorably.

(f) The wife or husband of any person listed in paragraph (a) through (e) of this section, and any interred veteran's unremarried widow, unremarried widower, minor child or unmarried adult child who was physically or mentally disabled and incapable of self-support, in the same grave with the veteran.

(g) Such other persons or classes of persons as may be designated by the Administrator.

§ 1.606 Memorial services in national cemeteries.

(a) Memorial services conducted in national cemeteries are subject to the following limitations:

(1) Services and all activities connected therewith in a national cemetery must be conducted with proper decorum. Organizations must provide assurance that their members will obey all rules in effect in the cemetery and act in a dignified and proper manner at all times while within the cemetery grounds.

(2) Services must be purely memorial in purpose and dedicated to the memory of those interred in the cemetery, or to all those dying in the military service of the United States or its allies.

(3) Partisan activiites are inappropriate in national cemeteries, and all services or any activities inside the cemetery connected therewith must be nonpartisan in nature. A service will be considered partisan and therefore inappropriate if it includes commentary in support of, or in opposition to, or attempts to influence, any current policy of the Government of the United States or any State of the United States. If the service, although itself purely memorial, is closely related to partisan activities being conducted outside the cemetery, it will be considered partisan and therefore inapproriate.

(b) Requests for permission to hold memorial services will be addressed to the Director, National Cemetery System, or the superintendent of the national cemetery involved. Such applications will describe the proposed ceremony in sufficient detail to enable a determination as to whether the proposed service meets the standards set forth in paragraph (a) of this section. If permission is granted, the Director or superintendent will assign an appropriate time and render assistance where appropriate. No organization will be given exclusive permission to use any cemetery on any particular occasion. Where several requests are received for separate services, the Director or superintendent will schedule each so as to avoid overlapping or interference, or require appropriate modifications in the scope or timing of the services.

§§ 17.200, 17.205, 17.206 [Revoked]

2. In 38 CFR Part 17, the center title "VETERANS ADMINISTRATION CEMETERIES" is deleted and §§ 17.200, 17.205 and 17.206 are revoked.

Approved: August 14, 1973.

By direction of the Administrator.

[SEAL] FRED B. RHODES,
Deputy Administrator.

SHIPPING COORDINATING COMMITTEE SUBCOMMITTEE ON CODE OF CONDUCT FOR LINER CONFERENCES

Notice of Meeting

A meeting of the Subcommittee on the Code of Conduct for Liner Conferences will be held at 10:00 a.m. on Thursday, September 6, 1973, in Room 1207, Department of State, to discuss provisions of the draft consolidated text of the Code, developed at the 2nd session of the United Nations Conference on Trade and Development (UNCTAD) Preparatory Committee of the Code of Conduct for Liner Conferences held in Geneva, June 4–29, 1973.

The meeting will be closed to the public, under a determination to do so, made under the provisions of section 10(d) of Public Law 92–463 in that the above meeting will necessarily involve discussion of matters concerned with those recognized as not subject to public disclosure under 5 U.S.C. 552(b)(1).

For information regarding the meeting, contact Mr. Richard K. Bank, Secretary, Shipping Coordinating Committee, Department of State, Washington, D.C. 20520, telephone (area code 202) 632–0704.

Dated August 7, 1973.

RICHARD K. BANK,
Executive Secretary,
Shipping Coordinating Committee.

STUDY GROUP 5 OF THE U.S. NATIONAL COMMITTEE FOR THE INTERNATIONAL RADIO CONSULTATIVE COMMITTEE (CCIR)

Notice of Meeting

The Department of State announces that Study Group 5 of the U.S. National Committee for the International Radio Consultative Committee (CCIR) will meet on September 6, 1973, at 10 a.m. in Conference Room D, Department of Commerce Main Building, 14th Street (between E Street and Constitution Avenue NW.), Washington, D.C.

Study Group 5 deals with matters relating to the propagation of radio waves (including radio noise) at the surface of the earth, through the nonionized regions of the earth's atmosphere, and in space where the effect of ionization is negligible. The meeting on September 6 will consider new draft texts which are proposed as U.S. contributions to the international meeting of Study Group 5 in 1974.

Members of the general public who desire to attend the meeting on September 6 will be admitted up to the limits of the capacity of the meeting room.

Dated August 23, 1973.

GORDON L. HUFFCUTT,
Chairman,
U.S. CCIR National Committee.

STUDY GROUP 1 OF THE U.S. NATIONAL COMMITTEE FOR THE INTERNATIONAL TELEGRAPH AND TELEPHONE CONSULTATIVE COMMITTEE (CCITT)

Notice of Meeting

The Department of State announces a scheduled meeting of the United States Study Group on U.S. Government Regulatory Problems concerned with preparation for meetings of Study Groups of the International Telegraph and Telephone Consultative Committee of the International Telecommunication Union. The meeting will take place on Thursday, October 4, 1973, at 10 a.m. in Room 502 of the Federal Communications Commission, 1919 M Street NW., Washington, D.C.

The agenda of this second preparatory meeting will include plans for the development of U.S. Contributions on questions assigned for study during the 1973–1976 period to CCITT Study Group III, "General tariff principles: lease of telecommunication circuits," and the development of U.S. positions on questions where it is decided not to submit U.S. Contributions.

Members of the general public who desire to attend the meeting on October 4 will be admitted up to the limit of the capacity of the meeting room.

Dated August 9, 1973.

RICHARD T. BLACK,
Chairman,
U.S. National Committee.

STUDY GROUP 5 OF THE U.S. NATIONAL COMMITTEE FOR THE INTERNATIONAL TELEGRAPH AND TELEPHONE CONSULTATIVE COMMITTEE (CCITT)

Notice of Meeting

The Department of State announces a scheduled meeting of the United States Study Group on Data Transmission concerned with preparation for meetings of Study Groups of the International Telegraph and Telephone Consultative Committee of the International Telecommunication Union. The meeting will take place on Thursday, September 6, 1973, at 10 a.m. in Room A–110 of the Federal Communications Commission Annex, 1229 20th Street NW., Washington, D.C.

U.S. CCITT Study Group 5 deals with matters in telecommunications relating to the development of the international digital data transmission service. The agenda for the meeting on September 6 will include consideration of the following:

(1) modem above 2400 bps for switched network
(2) modem above 4800 bps for leased lines
(3) 64 kbps or 48 kHz and synchronous 600 bps full-duplex on switched network
(4) a new interface compatible with LSI
(5) error control
(6) comparative tests of modems
(7) maintenance methods
(8) user requirements
(9) functional interface between network and terminals
(10) synchronous networks
(11) packet switching
(12) transmission quality

Members of the general public who desire to attend the meeting on September 6 will be admitted up to the limit of the capacity of the meeting room.

Dated August 9, 1973.

RICHARD T. BLACK,
Chairman,
U.S. National Committee.

HAYDEN-AULT 345-KV TRANSMISSION LINE AND AULT SUBSTATION; COLORADO RIVER STORAGE PROJECT, COLO.

Availability of Draft Environmental Statement

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a Draft Environmental Statement for the proposed Hayden-Ault 345-kv Transmission Line and the Ault Substation. This Environmental Statement concerns the recommended corridor for the line; its construction and operation and the construction of the substation. The function of the joint-use line is to transmit power from hydro resources in the Colorado River Basin and thermal resources from the western Colorado coal fields to municipal and rural loads in eastern Colorado. A 45-day review period is requested.

Copies are available from:

Office of Ecology, Room 7620, Bureau of Reclamation, Department of the Interior, Washington, D.C. 20240. Telephone (202) 343-4991.
Division of Engineering Support, Technical Services Branch, E&R Center, Denver Federal Center, Denver, Colorado 80225. Telephone (303) 234-3007.
Office of the Regional Director, Bureau of Reclamation, Building 20, Denver Federal Center, Denver, Colorado 80225. Telephone (303) 234-4441.
Construction Engineer, Cheyenne Construction Office, P.O. Box 507, Cheyenne, Wyoming 82001. Telephone (307) 778-2465.

Single copies of the Draft Environmental Statement may be obtained on request to the Commissioner of Reclamation or the Regional Director. In addition, copies may be purchased from the National Technical Information Service, Department of Commerce, Springfield, Virginia 22151.

Please refer to the Statement number above.

Dated: August 21, 1973.

NATIONAL MOTOR VEHICLE SAFETY ADVISORY COUNCIL

Notice of Public Meeting

On September 12 and 13, 1973, the National Motor Vehicle Safety Advisory Council will hold open meetings in the DOT Headquarters Building, 400 Seventh Street SW., Washington, D.C. The Advisory Council is composed of 22 members, a majority of whom are representatives of the general public, including representatives of State and local governments, with the remainder including representatives of motor vehicle manufacturers, motor vehicle equipment manufacturers, and motor vehicle dealers. The Secretary of Transportation consults with the Advisory Council on motor vehicle safety standards promulgated under the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1381 et seq.).

The following meetings are subject to the approval of the Secretary of Transportation.

On September 12 at 9 a.m. in room 4238 the Ad Hoc Committee on Research Funding will meet with the following agenda:

Ad Hoc Committee Goals and Objectives
Review of NHTSA Research Goals, Priorities, Policies, and Budgets

On September 12 at 9 a.m. in room 2232 the Awards Committee will meet with the following agenda:

Guidelines for Excalibur Award and Review of Speno Award

At 1:30 p.m. on September 12 in room 2232 the Accident Avoidance and Operating Systems Committee will meet with the following agenda:

Recommendations on Visibility Proposals for Council's Consideration
Review of Status of FMVSS 108-A (Lighting)
Future Activities of Committee
New Business

The Executive Committee will meet with the following agenda on September 12 at 4 p.m. in room 4238:

Plans for Third International Congress on Automotive Safety
New Business

On September 13 at 9 a.m. to 12 noon the full Council will meet in room 4238 with the following agenda:

Remarks by Dr. Gregory, NHTSA Administrator
Status Report on ESV Program
Executive Committee Report
Accident Avoidance and Operating Systems Committee Report
Ad Hoc Committee on Research Funding Report
Awards Committee Report
New Business

This notice is given pursuant to section 10(a)(2) of Public Law 92-463, Federal Advisory Committee Act (FACA) effective January 5, 1973.

COST OF LIVING COUNCIL

[Cost of Living Council Order 40]

ADMINISTRATOR FOR PAY BOARD MATTERS, ET AL.

Delegations of Authority

Pursuant to the authority vested in me as Director of the Cost of Living Council by Cost of Living Council Order No. 14, it is hereby ordered as follows:

1. (a) There is hereby delegated to the Administrator for Pay Board Matters authority to:

(i) Process, consider, decide and issue decisions and orders with respect to actions pending before the Pay Board on February 28, 1973, including exception requests, pay challenges, executive compensation submissions, appeals from Internal Revenue Service adverse actions, and related matters, which were filed with the Pay Board or its delegate on or before January 10, 1973, and which involve pay adjustments, or other matters appropriate for Pay Board action, to be effective on or before January 10, 1973; and

(ii) Rule on any request for review or reconsideration of a decision issued by the Pay Board prior to January 11, 1973, or pursuant to the interim authority delegated to the Chairman of the Pay Board by Cost of Living Council Order No. 17.

(b) The actions referred to in subparagraph (a) of this paragraph shall be processed, acted on, and decided in accordance with Pay Board procedures, policies, rulings, and regulations in effect on January 10, 1973. Actions pursuant to this delegation shall be taken in the name of the Administrator for Pay Board Matters and shall be reviewable only by the Administrator for Pay Board Matters under the procedures provided by Pay Board regulations in effect on January 10, 1973, with respect to actions taken in the name of the Chairman of the Pay Board.

2.(a) There is hereby delegated to the Administrator for Phase III Matters authority to:

(i) Process, consider, decide, and issue decisions and orders with respect to individual cases involving pay adjustments presented to the Cost of Living Council under the policies, rulings, and regulations of the Council in effect from January 11, 1973, through July 11, 1973; and

(ii) Rule on requests for review or reconsideration of initial decisions made pursuant to this subparagraph.

(b) The authority delegated pursuant to this paragraph shall extend only to matters in which a submission was received by the Council or its delegate prior to July 12, 1973, relating to a pay adjustment to be effective on or before July 11, 1973. For purposes of this subparagraph, the furnishing of information concerning a proposed or negotiated pay adjustment, in response to a request by the Council, shall not be considered a submission to the Council if a challenge to such pay adjustment was not issued by the Council prior to July 12, 1973.

3. There is hereby delegated to the Counselor to the Director authority to:

(a) Process, consider, decide, and issue decisions and orders with respect to individual cases involving pay adjustments affecting employees of State or local governments, presented to the Cost of Living Council under the policies, rulings, and regulations of the Council in effect on and after January 11, 1973; and

(b) Rule on requests for review or reconsideration of initial decisions made pursuant to subparagraph (a) of this paragraph.

4.(a) There is delegated to the Administrator, Office of Wage Stabilization, authority to:

(i) Issue challenges with respect to pay adjustments as provided in Cost of Living Council Regulations;

(ii) Process, consider, decide, and issue decisions and orders with respect to individual cases involving pay adjustments presented to the Cost of Living Council under the policies, rulings, and regulations of the Council in effect on and after July 12, 1973;

(iii) Rule on requests for review or reconsideration of initial decisions made pursuant to this paragraph;

(iv) Monitor pay adjustments.

(b) The authority delegated pursuant to this paragraph does not include any authority which has been delegated to the Administrator for Pay Board Matters, the Administrator for Phase III Matters, or the Counselor to the Director pursuant to paragraph (1), (2), or (3) of this Order.

(c) In the consideration of any pay adjustment under this paragraph, the Administrator, Office of Wage Stabilization, shall, except as otherwise directed by the Director or his delegate, take final action only after consulting with and receiving recommendations as to disposition from the appropriate tripartite industry wage and salary committee as heretofore or hereafter may be established by the Council.

5. An official of the Cost of Living Council exercising authority pursuant to this Order may solicit and receive the advice and recommendations of any appropriate individual, group, panel, or committee.

6. An official of the Cost of Living Council exercising authority pursuant to this Order may request information and conduct hearings with respect to functions delegated in this Order.

7. The authority delegated in this Order does not include any authority which has been delegated to the Construction Industry Stabilization Committee pursuant to Cost of Living Council Orders No. 16 and 20, or which may subsequently be delegated to the Construction Industry Stabilization Committee.

8. Each official to whom authority is delegated by this Order may redelegate that authority.

9. In exercising the authority delegated by this Order or redelegated pursuant thereto, officials of the Cost of Living Council shall be governed by the regulations and rulings of the Cost of Living Council and by the policies, procedures, and controls prescribed by the Director or his delegate.

10. Actions taken by officials of the Cost of Living Council on review or reconsideration pursuant to this Order are administratively final. Review of these actions may be sought in the appropriate Federal district court pursuant to section 211 of the Economic Stabilization Act of 1970, as amended.

11. Cost of Living Council Order No. 21 and paragraph (4) of Cost of Living Council Order No. 25 are hereby superseded.

12. This Order is effective July 12, 1973.

JOHN T. DUNLOP,
Director, Cost of Living Council.

[Cost of Living Council Order 39]

DIRECTOR, ENERGY POLICY OFFICE

Delegation of Authority

Pursuant to the authority vested in me by Executive Order No. 11695, it is hereby ordered as follows:

1. The authority with respect to petroleum products under section 203(a)(3) of the Economic Stabilization Act of 1970, as added by section 2(b) of the Economic Stabilization Act Amendments of 1973 is delegated to the Director of the Energy Policy Office established by Executive Order 11726, including, without limitation, the power and duty to make the determinations and take the actions required or permitted by the Act and the power to redelegate any of the authority thereunder.

2. Nothing herein shall be deemed to to delegate any authority with respect to the stabilization of prices under section 203(a)(1) of the Act.

V 38 - 165 AUG 27 73 XUM

3. Cost of Living Council Order No. 33 is hereby rescinded.

4. This Order shall be effective immediately.

Date: August 21, 1973.

GEORGE P. SHULTZ,
Chairman, Cost of Living Council.

FEDERAL POWER COMMISSION

[Docket No. CI67-248]

BEACON GASOLINE CO.

Notice of Petition to Amend

AUGUST 21, 1973.

Take notice that on August 13, 1973, Beacon Gasoline Company (Petitioner), P.O. Box 396, Minden, Louisiana 71055, filed in Docket No. CI67-248 a petition to amend the order heretofore issued in said docket pursuant to section 7(c) of the Natural Gas Act by authorizing Petitioner to gather and transport natural gas produced by Oliver M. Clegg, Trustee, in the Walker Creek Field, Columbia County, Arkansas, for processing and delivery to the gas purchaser, Texas Gas Transmission Corporation (Texas Gas), in Columbia County, Arkansas, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner proposes to transport, process and deliver gas to Texas Gas for two years or until the gas is used in cycling operations in the Walker Creek Field. Oliver M. Clegg, Trustee, has filed an application for a certificate of public convenience and necessity in Docket No. CI74-98 authorizing the sale for resale of natural gas in interstate commerce to Texas Gas within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70) and the delivery of said gas to Petitioner for transportation and processing. Petitioner proposes to charge 1.5 cents per Mcf for processing the gas, which will be reduced to 0.25 cent per Mcf when the initial gathering system costs are recovered, plus a 0.25 cent per Mcf gathering charge.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before September 17, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI74-101]

C & K PETROLEUM, INC.

Notice of Application

AUGUST 21, 1973.

Take notice that on August 13, 1973, C & K Petroleum, Inc. (Applicant), 608 First City National Bank Building, Houston, Texas 77002, filed in Docket No. CI74-101 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Transcontinental Gas Pipe Line Corporation from the Lake des Allemands Field, St. Charles Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas on August 1, 1973, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for three years from the end of the sixty-day emergency period within the contemplation of section 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant proposes to sell approximately 3,000 Mcf of gas per day at 50.0 cents per Mcf at 15.025 p.s.i.a. plus tax reimbursement to the seller for ¾ of any additional gas severance taxes levied one year after the proposed sales commence.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before September 4, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI74-98]

OLIVER M. CLEGG, TRUSTEE

Notice of Application

AUGUST 21, 1973.

Take notice that on August 14, 1973, Oliver M. Clegg, Trustee (Applicant), P.O. Drawer A, Magnolia, Arkansas 71753, filed in Docket No. CI74-98 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Texas Gas Transmission Corporation from the Walker Creek Field, Columbia County, Arkansas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell for two years or until the gas is used in the cycling of the Walker Creek Field, all the available gas, estimated to be approximately 21,000 Mcf per month at 35.0 cents per Mcf at 15.025 p.s.i.a., subject to downward Btu adjustment, within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before September 4, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Secretary.

[FR Doc.73-18117 Filed 8-24-73;8:45 am]

[Docket No. CP74-39]

COLUMBIA GULF TRANSMISSION CO. AND MICHIGAN WISCONSIN PIPE LINE CO.

Notice of Application

AUGUST 20, 1973.

Take notice that on August 10, 1973, Columbia Gulf Transmission Company, P.O. Box 638, Houston, Texas 77001, and Michigan Wisconsin Pipe Line Company, One Woodward Avenue, Detroit, Michigan 48226, filed in Docket No. CP74-39 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange of gas between them, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicants propose to exchange unspecified volumes of natural gas whenever a shortage exists on one Applicant's system which can be alleviated by deliveries of gas from the system of the other Applicant. Such exchanges would be effected at an existing point of interconnection in the Eugene Island Block 250, offshore Louisiana; an existing point of interconnection near Calumet, St. Mary Parish, Louisiana; producing fields, natural gas processing plants and other common points where Applicants take delivery of gas from others; producing fields, natural gas processing plants and other common points where Applicants and/or one or more other pipeline companies take delivery of natural gas, so that gas can be exchanged by Applicants in whole or in part via the facilities of other companies; and such additional points of interconnection between the pipeline systems of Applicants as may be established in the future pursuant to Commission authorization. It is stated that exchange gas will be delivered only when in the judgment of the delivering party it can make them without impairment of its service to its customers and redeliveries will be made as soon as feasible and in any event within 60 days unless a longer period is mutually agreed to.

Any person desiring to be heard or to make any protests with reference to said application should on or before September 14, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8350]

DUKE POWER CO.

Supplement to Agreement

AUGUST 20, 1973.

Take notice that on August 8, 1973, Duke Power Company (Company) tendered for filing a Supplement to the Company's Electric Power Contract (designated as FPC No. 201) with the City of Seneca, South Carolina (City).

The Company states that the new contract, dated April 28, 1971, to become effective September 20, 1973, provides for an increase in contract demand from 7,000 KW to 12,000 KW.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8, 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 10, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Project 2336]

GEORGIA POWER CO.

Application for Change in Land Rights

AUGUST 17, 1973.

Public notice is hereby given that application was filed June 22, 1973, under the Federal Power Act (16 U.S.C. 791a-825r) by the Georgia Power Company (Correspondence to: Mr. I. S. Mitchell III, Vice President and Secretary, Georgia Power Company, P. O. Box 4545, Atlanta, Georgia 30302) for change in land rights for Lloyd Shoals Project No. 2336, located near the Towns of Monticello and Jackson in Jasper, Butts, and Newton Counties, Georgia, on the Ocmulgee River.

Applicant requests Commission approval of a 22-year lease of project lands to the Turtle Cove Property Owners Association, Inc. The land is a discontinuous strip extending for about 13 miles along the Jasper County shoreline of Jackson Lake from a point about a mile upstream of the project dam to a point about one-half mile upstream of Waters Bridge (Georgia Highway No. 212). The strip, which varies in width from zero to fifty feet, lies between the normal high water line (elevation 530 feet M.S.L.) and the project boundary.

The proposed lease provides that owners of lots contiguous to the strip may build docks, piers and swimming floats thereon subject to the approval of Georgia Power Company. Applicant submits that boathouses, lifts, and cribs, as well as sewage releases to the reservoir, will be prohibited.

Any person desiring to be heard or to make protest with reference to said application should on or before October 8, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. RP72-118 and RP73-14]

MICHIGAN WISCONSIN PIPE LINE CO.

Tariff Changes Pursuant to Order Approving Rate Settlement

AUGUST 17, 1973.

Take notice that on August 3, 1973, Michigan Wisconsin Pipe Line Company (Michigan Wisconsin) tendered for filing revised tariff sheets to its F.P.C. Gas Tariffs, Second Revised Volume No. 1 and First Revised Volume No. 2 as follows:

Volume No. 1 Tariff:
Substitute Third Revised Sheet No. 27F
Fourth Revised Sheet No. 27F
Substitute Fourth Revised Sheet No. 27F
Fourth Revised Sheet No. 8
First Revised Sheet No. 9K

Volume No. 2 Tariff:
Substitute Fourth Revised Sheet No. 92
Substitute Fourth Revised Sheet No.110
Substitute Fourth Revised Sheet No. 129
Substitute Fourth Revised Sheet No. 130
Substitute Third Revised Sheet No. 141
Substitute Third Revised Sheet No. 142
Substitute Third Revised Sheet No. 171
Substitute First Revised Sheet No. 214
Substitute First Revised Sheet No. 215
Substitute Original Sheet No. 231
Substitute Original Sheet No. 232

Michigan Wisconsin states that the above revised tariff sheets and the rates and tariff changes therein contained are being filed in compliance with the Commission's Order Approving Rate Settlement issued July 24, 1973.

Michigan Wisconsin further states that copies of the filing have been mailed

to its customers and all interested parties in Docket Nos. RP72-118 and RP73-14.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 29, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Project 346]

MINNESOTA POWER AND LIGHT CO.

Issuance of Annual License

AUGUST 21, 1973.

On August 13, 1970, Minnesota Power and Light Company, Licensee for Blanchard Project No. 346 located on the Mississippi River below Pike Rapids in Morrison County, Minnesota, filed an application for a new license under section 15 of the Federal Power Act and Commission regulations thereunder (§§ 16.1-16.6).

The license for Project No. 346 was issued effective August 25, 1923, for a period ending August 24, 1973. In order to authorize the continued operation of the project pursuant to section 15 of the Act pending completion of Licensee's application and Commission action thereon it is appropriate and in the public interest to issue an annual License to Minnesota Power and Light Company for continued operation maintenance of Blanchard Project No. 346.

Take notice that an annual license is to Minnesota Power and Light Company (Licensee) under section 15 of the Federal Power Act for the period August 25, 1973, to August 24, 1974, or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Blanchard Project No. 346 subject to the terms and conditions of its license.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8349]

NIAGARA MOHAWK POWER CORP.

Amendment to Agreements

AUGUST 17, 1973.

Take notice that Niagara Mohawk Power Corporation (Niagara) on August 8, 1973, tendered for filing an amendment (Third Amendment) to its Export Rate Schedule FPC No. 12 as supplemented.

According to Niagara, the supplement constitutes the Third Amendment to an agreement of July 1, 1954, between Niagara and the Hydro-Electric Power Commission of Ontario (Ontario).

Niagara states that, "the agreement of May 11, 1973, incorporates a change in the rate for emergency power and energy delivered by one party in the case of an emergency by the other party." Niagara further states that, "the existing rate for emergency power and energy is no longer adequate in relation to current costs and conditions and is not consistent with rates charged for equivalent sales by (Ontario) to other parties in the United States.

Niagara, in its letter of transmittal, requests a waiver of notice requirement contained in section 35.3 of regulations under the Federal Power Act.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 10, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-18039 Filed 8-24-73;8:45 am]

[Docket No. CI74-91]

NORRIS OIL CO. ET AL.

Notice of Application

AUGUST 20, 1973.

Take notice that on August 9, 1973, Norris Oil Company (Applicant), P.O. Box A-1, Ventura, California 93001, filed in Docket No. CI74-91 an application pursuant to section 7(c) of the Natural Gas Act and § 2.75 of the Commission's general policy and interpretations (18 CFR 2.75) for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Company from the Logansport Field, DeSoto Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes under the optional gas pricing procedure to sell all the available gas at 50.0 cents per Mcf at 15.025 p.s.i.a., subject to downward Btu adjustments, pursuant to a contract dated June 8, 1973. Said contract provides for a 1.0-cent per Mcf price escalation each year, for reimbursement to the seller for ⅞ of all taxes in excess of 3.3 cents per Mcf, and for a term ending January 1, 1992. The quantity of gas available for sale is presently unknown as Applicant has not completed any wells on the acreage covered by the instant application.

Applicant states that the gas offered for certification has not been previously sold in the interstate market and that no applications have been previously filed with the Commission for certification for the sales of such gas.

Applicant asserts that the sale of gas at the proposed prices with escalations is reasonable as it encourages the development of new domestic gas reserves. Applicant states that recently negotiated intrastate sales in Louisiana call for prices in excess of those proposed in the instant sale. Applicant further asserts that the instant contract prices will be less costly to consumers than other alternative fuel sources. It is noted that rates for imported liquefied natural gas are between 77.0 and 83.0 cents per million Btu, that rates for synthetic gas from liquid hydrocarbons or coal are between 77.0 cents and $1.50 per Mcf, and that rates for delivered Alaskan gas are estimated at $1.00 per Mcf.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 14, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a pro-

V 38 - 165 AUG 27 73 XUM

test in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

NORTHERN NATURAL GAS CO.

Proposed Changes in FPC Gas Tariff

AUGUST 17, 1973.

Take notice that on August 8, 1973, Northern Natural Gas Company (Northern) tendered for filing as part of its FPC Gas Tariff, Third Revised Volume No. 1, Second Revised Sheet No. 59a, First Revised Sheet No. 59b, and Original Sheet No. 59f. An effective date of September 10, 1973, is requested.

Tariff Sheets 59a and 59b contain revisions to Paragraph 9.5 of the General Terms and Conditions of Northern's FPC Gas Tariff to conform it to the clarification of the Commission's October 2, 1972 order as set forth in the Commission's Order Denying Rehearing issued November 27, 1972, Docket No. RP71-107 (Phase I).

Original Sheet No. 59f contains Northern's proposed procedures to meet emergency situations (including environmental emergencies) that may occur during periods of curtailment. This tariff sheet is being filed in compliance with Commission Order No. 467-A, Docket No. R-469.

Copies of the filing have been served upon all gas utility customers and upon interested State Commissions.

It appears reasonable and consistent with the public interest in this proceeding to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with the requirements of §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10) on or before August 27, 1973. All protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. This filing which was made with the Commission is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8346]

NORTHERN STATES POWER CO.

Supplement to Interconnection Coordinating Agreement

AUGUST 20, 1973.

Take notice that on August 6, 1973, Northern States Power Company (Northern) tendered for filing on behalf of Interstate Power Company (Interstate), Iowa Public Service Company (Iowa), St. Joseph Light and Power Company (St. Joseph), and Kansas City Power and Light Company (Kansas) Supplement No. I to the Twin Cities-Iowa-Omaha-Kansas City Interconnection Coordinating Agreement, dated January 22, 1968, and designated as FPC No. 351, 87, 43, 11, and 67 respectively.

According to Northern the Certificate of Concurrence, enclosed with the letter of transmittal, is filed by Northern on behalf of all parties.

Supplement No. 1, dated August 1, 1973, according to Northern, terminates the Service Schedules and replaces them with First Revised Service Schedules. Northern states that, "the service schedules providing for Emergency Energy, Scheduled Outage Energy and Short Term Power were changed to facilitate transactions under the subject agreement by making the rates comparable to the rates provided under other agreements between power suppliers in the area".

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 10, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-18135 Filed 8-24-73;8:45 am]

[Docket No. RP73-82]

PACIFIC GAS TRANSMISSION CO.

Stipulation and Agreement In Settlement of Proceeding

AUGUST 17, 1973.

Take notice that on August 10, 1973, Pacific Gas Transmission Company (PGT) tendered for filing a stipulation and agreement in settlement of the proceedings in Docket No. RP73-82. PGT states that the purpose of the filing is to make clear that its January 22, 1973, tariff should be accepted upon the condition, and with the express understanding, that the introduction into PGT's facilities of natural gas from any domestic source and/or sale by PGT of the natural gas from any such source shall in all cases be preceded by appropriate proceedings under section 7 of the Natural Gas Act in order to provide the Commission with an opportunity to consider whether such introduction and/or sale of domestic natural gas is consistent with the public convenience and necessity.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 3, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP74-40]

PANHANDLE EASTERN PIPE LINE CO.

Notice of Application

AUGUST 21, 1973.

Take notice that on August 13, 1973, Panhandle Eastern Pipe Line Company (Applicant), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. CP74-40 an application pursuant to section 7(c) of the Natural Gas Act and § 157.7(b) of the regulations thereunder (18 CFR 157.7(b)) for a certificate of public convenience and necessity authorizing the construction, during a twelve-month period commencing the date of authorization, and operation of facilities to take into its certificated pipeline system additional natural gas supplies to be purchased from producers thereof in the general area of its existing system, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the purpose of this "budget-type" application is to augment Applicant's ability to act with reasonable dispatch in contracting for and connecting to its pipeline system supplies of natural gas in the various producing areas coextensive with said system.

The total cost of the facilities proposed herein is not to exceed $7,000,000, with no single project costing in excess of $1,000,000. These costs will be financed through funds on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 14, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-18129 Filed 8-24-73;8:45 am]

[Docket No. RP74-6]

SOUTHERN NATURAL GAS CO.

Filing of Tariff Revisions Containing Proposed Curtailment Plan

AUGUST 17, 1973.

Take notice that on August 2, 1973, Southern Natural Gas Company (Southern) tendered for filing, pursuant to section 4 of the Natural Gas Act, Seventh Revised Sheet No. 40, Third Revised Sheet No. 40A, Second Revised Sheet No. 40B, Second Revised Sheet No. 40C, Second Revised Sheet No. 40D, Second Revised Sheet No. 40E, and First Revised Sheet No. 40F to its FPC Gas Tariff, Sixth Revised Volume No. 1, relating to proposed curtailment procedures. Southern proposes that the aforesaid tariff sheets become effective October 1, 1973. Southern asserts that the revised tariff sheets modify Southern's existing curtailment plan in Docket No. RP72-74 to provide for curtailments pursuant to the nine priority-of-service categories established by the Commission in Order Nos. 467, 467-A, and 467-B.

The curtailment plan provides for the full curtailment of the lower priority category volumes before curtailment of any higher priority volumes is commenced; that curtailments within each priority category shall be made on a pro-rata basis; and that both the direct and indirect customers of Southern that use gas for similar purposes shall be placed in the same category of priority.

The plan provides that, during the period commencing on April 1 of each year and ending on the next ensuing October 31, curtailment orders issued under the plan shall be on an individual delivery point basis; and that, during the period commencing on November 1 and ending on the next ensuing March 31, curtailment orders issued under the plan shall be on a group basis where a purchaser has more than one delivery point and such delivery points have been grouped in an Exhibit A to an executed service agreement. The plan further provides, however, that on days when the forecast mean temperature at Birmingham, Alabama, is 35° Fahrenheit or lower, curtailment orders issued to multidelivery point customers whose delivery points have been grouped shall be issued on a companywide basis.

The plan states that gas taken under any rate schedule in excess of curtailment orders shall be deemed unauthorized overrun gas, and that a purchaser taking unauthorized overrun gas shall pay for such gas in accordance with the penalty provisions of Southern's respective rate schedules. The plan further provides that variations in the curtailment procedure provided in the plan may be permitted when necessary to respond to emergency situations (including environmental emergencies) where supplemental deliveries are required to forestall irreparable injury to life or property.

The plan states that there will be no adjustment in Demand Charges should Southern be unable to deliver a customer's Contract Demand or Maximum Delivery Obligation as a result of curtailments made pursuant to the plan.

The plan provides that Southern will maintain an Index of Requirements which will specify for each customer at each delivery point the requirements specified in the nine priority-of-service categories established by Order Nos. 467, 467-A and 467-B. Such Index of Requirements will be filed with the Commission as part of Southern's FPC Gas Tariff.

Southern states that copies of the tariff filing have been served upon all jurisdictional customers and upon interested state commissions.

Any person desiring to be heard or to make any protest with reference to said filing should, on or before August 31, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The filing which was made with the Commission is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-18040 Filed 8-24-73;8:45 am]

[Docket No. CP74-42]

SOUTHERN NATURAL GAS CO. AND COLUMBIA GULF TRANSMISSION CO.

Notice of Application

AUGUST 20, 1973.

Take notice that on August 13, 1973, Southern Natural Gas Company (Southern), P.O. Box 2563, Birmingham, Alabama 35202, and Columbia Gulf Transmission Company (Columbia Gulf), P.O. Box 683, Houston, Texas 77001, filed in Docket No. CP74-42 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange of natural gas in interstate commerce, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is stated that Southern purchases gas well gas from Amoco Production Company (Amoco) and that Columbia Gulf purchases gas well and oil well gas from Exxon Company, USA (Exxon), and oil well gas from Amoco, all from West Delta Block 73 Field, offshore Louisiana. The gas purchased by Columbia Gulf was transported from the Block 73 Field to shore by a pipeline owned by Exxon and delivered to Columbia Gulf at the tailgate of Exxon's Grand Isle Plant in Grand Isle, Louisiana. Due to the necessity of replacing portions of this system, Exxon's transportation service has been interrupted. In addition, Exxon's pipe replacement has reduced oil production efficiency in this field which has resulted in the flaring of oil well gas.

To prevent the flaring of gas and to receive gas well gas deliveries, Columbia Gulf entered into an emergency exchange of gas arrangement with South-

V 38 - 165 AUG 27 73 XUM

ern on June 22, 1973, with regard to the Amoco gas and on July 15, 1973, with regard to the Exxon gas. Applicants propose that Southern receive at its delivery point in the Block 73 Field such volumes of gas for the account of Columbia Gulf that it has available capacity to take, and that Columbia Gulf receive equivalent daily volumes of gas in exchange for the Amoco gas from Sea Robin Pipeline Company (Sea Robin) at or near the terminus of its facilities near Erath, Louisiana, that Southern may direct Sea Robin to deliver. Furthermore, Columbia Gulf will receive equivalent volumes of gas in exchange for the Exxon gas from the tailgate of Exxon's Delta Plant near Venice, Louisiana, that Southern may direct Exxon to deliver. The exchange arrangements are to continue until Exxon's system has been returned to full service. Any imbalances in deliveries are to be corrected monthly, if possible.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 14, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-18134 Filed 8-24-73;8:45 am]

[Docket No. CP74-37]

TENNESSEE GAS PIPELINE CO.

Notice of Application

AUGUST 17, 1973.

Take notice that on August 9, 1973, Tennessee Gas Pipeline Company, a Division of Tenneco, Inc. (Applicant), P.O. Box 2511, Houston, Texas 77001, filed in Docket No. CP74-37 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Consolidated Edison Company of New York, Inc. (Con Ed), and Lowell Gas Company (Lowell), both present customers of Applicant, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to husband and subsequently to sell and deliver approximately 10,000 Mcf of gas per day, up to 50,000 Mcf of gas for the term ending November 1, 1973, which Con Ed is entitled to receive during that period. It is stated that Con Ed will release such volumes of gas for Lowell's account, but Con Ed will be charged for the gas at Applicant's CD-5 commodity rate. From November 1, 1973, to April 1, 1974, Applicant proposes, if operationally feasible, to deliver up to 10,000 Mcf per day of the "banked gas" in addition to the gas Con Ed is presently entitled to receive from Applicant. Should Applicant be unable to deliver the total daily volume of "banked gas" requested by Lowell and Con Ed, the request by Con Ed will be first honored. Should Con Ed be unable to receive its total volume of "banked gas" Lowell will "back off" its takes from Applicant for redelivery of the supplemental volumes to Con Ed. Lowell will pay Applicant's G-6 commodity rate for the "back off" gas delivered to Con Ed. The total volume of "banked" or "backed off gas" delivered to Con Ed will not exceed 334,000 Mcf, nor will the total deliveries of "banked gas" to Lowell and Con Ed exceed the total volume of gas husbanded for Con Ed prior to November 1, 1973. In addition, Applicant proposes to charge Lowell 96.16 cents per Mcf of the "banked gas" delivered to it and/or Con Ed and 25.0 cents per Mcf of the "back off gas" delivered to Con Ed. If any "banked gas" remains undelivered as of April 1, 1974, Applicant proposes to sell and deliver until November 1, 1974, up to 10,000 Mcf of gas per day to Lowell at 96.16 cents per Mcf.

The purpose of these proposals is to augment Lowell's and Con Ed's ability to avoid curtailments of deliveries to their high priority customers during the 1973-1974 winter season by conserving gas which otherwise would be sold and delivered prior to that period to lower priority customers.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-18041 Filed 8-24-73;8:45 am]

[Docket No. E-7929]

TOLEDO EDISON CO.

Further Extension of Time and Postponement of Prehearing Conference and Hearing

AUGUST 21, 1973.

On August 13, 1973, Commission Staff Counsel filed a motion to extend the service and hearing dates fixed by notice issued April 13, 1973, in the above-designated matter. By letter dated August 16, 1973, Staff Counsel advised that the parties had been contacted and that she had received no objection.

Upon consideration, notice is hereby given that the procedural dates are further modified as follows:

Staff Service, August 28, 1973.
Prehearing Conference, September 7, 1973.
Intervener Service, September 21, 1973.
Company Rebuttal, October 2, 1973.
Hearing, October 16, 1973 (10:00 a.m., e.d.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.73 18128 Filed 8-24-73;8:45 am]

[Docket No. E-7929]

TOLEDO EDISON CO.

Filing of Revised Fuel Clause

AUGUST 17, 1973.

Take notice that Toledo Edison filed a revised Fuel Clause on April 30, 1973, which purports to comply with Docket No. E-7541, Opinion No. 633, holding that fuel adjustment clauses are lawful under the Federal Power Act, and sound as a matter of regulatory policy.

Toledo Edison proposes service to 15 municipalities at wholesale under two rate schedules: Municipal Resale Service Rate—Small applicable to 11 small municipalities, and Municipal Resale Service Rate—Large, applicable to four municipalities. The proposed revised fuel cost adjustment clause is applicable to Municipal Resale Service Rate—Large. It is proposed that this clause should supersede the clause shown on Original Sheet Nos. 5 and 6 of Toledo Edison Company's Electric Tariff, original volume No. 1.

Any person desiring to be heard or to make any protest with reference to said filing should on or before August 30, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to protest or comment in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. The revised fuel clause is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-18042 Filed 8-24-73;8:45 am]

[Docket No. E-7929]

TOLEDO EDISON CO.

Service Agreements

AUGUST 21, 1973.

Take notice that Toledo Edison Company (Toledo) on July 30, 1973, tendered for filing unexecuted service agreements dated July 23, 1973, between Toledo and the City of Bowling Green, Ohio, the Village of Montpelier, Ohio, and the City of Napoleon, Ohio. Toledo states that the aforementioned service agreements supercede the individual expired contracts with those three municipal wholesale customers which were designated as Rate Schedule Nos. 5, 14, and 15, respectively. An effective date of August 12, 1973, is requested.

Any person desiring to be heard or to protest said unexecuted service agreements should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol St., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure be filed on or before August 31, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of these unexecuted service agreements are on file with the Commission and are available for public inspection.

[Docket Nos. RP71-29, RP71-120]

UNITED GAS PIPE LINE CO.

Proposed Changes in FPC Gas Tariff

AUGUST 20, 1973.

Take notice that on June 29, 1973, United Gas Pipe Line Company (United) tendered for filing revised tariff sheets to its FPC Gas Tariff, First Revised Volume No. 1 in purported compliance with the Commission's Opinion No. 647-A issued in these proceedings on May 30, 1973.

United asserts that the tendered tariff sheets are designed to effectuate the amended priorities and procedures set forth in Opinion No. 647-A and are to supercede the tariff sheets tendered by United on March 13, 1973. No effective date is proposed by United for its tender of June 29, 1973. Instead, United requests the Commission to postpone the effectiveness of those sheets "until sometime after the questionnaire data have been assembled, collated, and incorporated into a concrete curtailment program which all interested parties will at least have an opportunity to examine and comment on."

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 or 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All such petitions or protests should be filed on or before September 14, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. RP71-29, RP71-120]

UNITED GAS PIPE LINE CO.

Proposed Changes in FPC Gas Tariff

AUGUST 20, 1973.

Take notice that on August 3, 1973, United Gas Pipe Line Company (United) tendered for filing revised tariff sheets to its FPC Gas Tariff, First Revised Volume No. 1, in purported compliance to Commission order issued in the above-entitled proceedings on July 20, 1973.

United asserts that the tendered tariff sheets are designed to effectuate the amended Priorities 3 and 5-B and the changed definitions of "Interruptible Service" and "Feedstock Gas" set forth in the July 20 order.

Take further notice that these amended tariff sheets are to be substituted for the corresponding sheets included in its filing of June 29, 1973.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 or 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All such petitions or protests should be filed on or before September 14, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-18131 Filed 8-24-73;8:45 am]

UNITED GAS PIPE LINE CO.

Filing Cancellation of Tariff Sheet

AUGUST 17, 1973.

Take notice that on August 9, 1973, United Gas Pipe Line Company tendered for filing First Revised Sheet No. 513 to its FPC Gas Tariff. This sheet is the cancellation of an exchange agreement between United Gas Pipe Line Company and Trunkline Gas Company which terminates by its own terms, and it is proposed that this tariff sheet become effective September 2, 1973.

The company states that a copy of the tariff sheet has been mailed to Trunkline Gas Company.

Protests or petitions to intervene are due to be filed with the Federal Power Commission on or before September 3, 1973.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-18043 Filed 8-24-73;8:45 am]

[Docket No. E-8312]

UTAH POWER AND LIGHT CO.

Service Agreement

AUGUST 20, 1973.

Take notice that on July 11, 1973, Utah Power and Light (Utah) tendered for filing a letter agreement between Utah and Nevada Power Company (Nevada) providing for sale of up to 50Mw of power by Utah to Nevada. The agreement is to be effective from June 1, 1973, to September 15, 1973. Revenues resulting from the agreement amount to $853,690.

Utah states that delivery of the power and energy sold under the agreement will be made at various points on its

FEDERAL REGISTER, VOL. 38, NO. 165—MONDAY, AUGUST 27, 1973

V 38-165 AUG 27 73 XUM

interconnection with the U.S. Bureau of Reclamation.

Utah requests waiver of the notice requirements of § 35.3 of the Commission's regulations. Since service has been rendered by Utah under the agreement since June 1, 1973, that is the requested effective date.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 29, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the tender are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-18137 Filed 8-24-73;8:45 am]

[Docket No. E-8344]

COLUMBUS AND SOUTHERN OHIO ELECTRIC CO.

Amendment to Agreement

AUGUST 21, 1973.

Take notice that Columbus and Southern Ohio Electric Company (Company) on August 2, 1973, tendered for filing an amendment (Second Amendment) to its Rate Schedule FPC No. 14 as supplemented. The Company states that the supplement constitutes the Second Amendment to an agreement of May 15, 1964, between the Company and the City of Westerville, Ohio (City).

According to the company, the Second Amendment amends the supplemented rate schedule by increasing the capacity from 10,000 KW to 20,000 KW and inserts for the first time a fuel cost adjustment clause.

The proposed fuel cost adjustment clause provides "that the energy charge shall be increased .0056¢ per KWH for each .5¢ increase above 40¢ in the average cost per million Btu of fuel consumed at the Company's generating stations during the second calendar month preceding the billing date".

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 4, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP72-6]

EL PASO NATURAL GAS CO.

Notice of Joint Petition for Extraordinary Relief

AUGUST 21, 1973.

Take notice that on August 2, 1973, the Department of Water and Power of the City of Los Angeles and Southern California Edison Company (Petitioners) filed their joint petition for extraordinary relief from the impact of curtailment plan in effect on the Southern Division System of El Paso Natural Gas Company during 1974.[1]

Petitioners, electric generating agencies servicing central and southern California, allege that they have been unable to contract for sufficient fuel oil to meet their combined requirements in 1974, 1975, and 1976. They state that their combined deficiency for 1974 amounts to 23.1 million barrels of fuel oil. For 1975 and 1976, the estimated deficiencies amount to 44.5 and 44.0 million barrels respectively.

Petitioners state that the 1974 deficiency aproximately corresponds to their anticipated curtailment in gas supplies. They therefore request relief from curtailment to the extent necessary to offset their fuel oil deficiencies. Petitioners state that the Department of Water and Power has on hand or under contract sufficient fuel oil supplies to last until late February or early March, 1974. Thereafter, it would be necessary to curtail its electrical load an average of 35 percent unless additional fuel supplies can be found. Southern California Edison anticipates that it will face a similar situation in October, 1974.

Petitioners allege that their situation is unique in that they have been deprived of the opportunity to obtain additional natural gas supplies from both the existing supplier and other suppliers. They further allege that these unique circumstances expose the electrical energy markets served by petitioners to curtailments which would have a tremendous, adverse effect on the health and welfare of a large segment of the national population as well as a staggering effect on the economy of their service areas.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 17, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-18123 Filed 8-24-73;8:45 am]

[Docket No. CI74-102]

EXXON CORP.

Notice of Application

AUGUST 21, 1973.

Take notice that on August 13, 1973, Exxon Corporation (Applicant), P.O. Box 2180, Houston, Texas 77001, filed in Docket No. CI74-102 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to El Paso Natural Gas Company from the South Carlsbad Field, Eddy County, New Mexico, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell for one year approximately 210,000 Mcf of gas per month at 55.0 cents per Mcf at 14.65 p.s.i.a., subject to upward and downward Btu adjustment, within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Estimated initial downward Btu adjustment is 0.27 cent per Mcf of gas. Upward adjustment is limited to 1,175 Btu per cubic foot.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before September 4, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the

[1] Petitioners allege that extraordinary relief will be necessary under either the existing interim curtailment plan or the recommended permanent curtailment plan (See Presiding Judge's Decision on Curtailment Plan, Docket No. RP72-6, issued June 5, 1973).

Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Dockets Nos. CP72-26, CP72-184, CP73-282]

MICHIGAN WISCONSIN PIPE LINE CO.

Notice of Tariff Changes

AUGUST 21, 1973.

Take notice that on August 13, 1973, Michigan Wisconsin Pipe Line Company (Michigan Wisconsin) tendered for filing revised and new tariff sheets to its F.P.C. Gas Tariff, First Revised Volume No. 2 as follows:

Second Revised Sheet Nos. 212 and 213.
First Revised Sheet Nos. 229 and 230.
Original Sheet Nos. 336 through 343.

Michigan Wisconsin states that the above revised and new tariff sheets are being filed in compliance with the Commission's Orders Issuing Certificates of Public Convenience and Necessity in Docket Nos. CP72-26, issued July 26, 1973, CP72-184, issued July 26, 1973 and CP73-282 issued July 24, 1973.

Michigan Wisconsin further states that copies of this filing have been mailed to Central Indiana Gas Company, Inc., Wisconsin Southern Gas Company and North Central Public Service Company.

Michigan Wisconsin has requested that the Commission waive its applicable rules and regulations to the extent necessary, under Part 154 of the Natural Gas Act, to permit the proposed tariff sheets to become effective on the date the respective orders issuing certificates of public convenience and necessity were issued.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 31, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI74-99]

INVESTORS ROYALTY CO., INC.

Notice of Application

AUGUST 21, 1973.

Take notice that on August 13, 1973, Investors Royalty Company, Inc. (Applicant), 1309 Thompson Building, Tulsa, Oklahoma 74103, filed in Docket No. CI74-99 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Transcontinental Gas Pipe Line Corporation from the Karon Field, Live Oak County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it intends to commence the sale of natural gas within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for twelve months from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell approximately 1,000 Mcf of gas per day at 55.0 cents per Mcf at 14.65 p.s.i.a. during the sixty-day emergency period and 50.0 cents per Mcf at 14.65 p.s.i.a. during the twelve-month period.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. There, any person desiring to be heard or to make any protest with reference to said application should on or before September 4, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by §§ 7 and 15 of

V38-165 AUG 27 73 XUM

the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. CP74-41]

NATURAL GAS PIPELINE CO. OF AMERICA

Notice of Application

AUGUST 21, 1973.

Take notice that on August 13, 1973, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP74-41 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange of natural gas in interstate commerce with Mississippi River Transmission Company (Mississippi River), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that pursuant to a contract dated July 9, 1973, it will take, for two years, up to 90,000 Mcf of gas per day from reserves dedicated to Mississippi River in the Mills Ranch Field, Wheeler County, Texas, with delivery at a point of interconnection in Wheeler County. It is stated that ⅓ of this volume of gas will be purchased by Applicant at 45.0 cents per Mcf at 14.65 p.s.i.a. during the first year, and at 46.0 cents per Mcf at 14.65 p.s.i.a. during the second year, all subject to upward and downward Btu adjustment. Applicant proposes to exchange with Mississippi River volumes of gas equivalent to ⅔ of the quantity of gas delivered to Applicant, with redelivery to Mississippi River at an existing sales point in Clinton County, Illinois. It is stated that the redelivered volumes will be adjusted for Btu content and that any imbalances will be balanced after each twelve-month period. Deliveries of the exchange gas are to be made primarily during the months from April through November. It is stated that the necessary gas purchase facilities in Wheeler County will be constructed pursuant to Applicant's effective budget-type certificate. Mississippi filed on August 3, 1973, in Docket No. CP74-29 an application requesting authorization to sell gas to and exchange gas with Applicant.

The stated purpose of this proposal is to provide additional gas to augment Applicant's overall gas reserves and to provide Mississippi River with gas for injection into its storage facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 14, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[FR Doc.73-18127 Filed 8-24-73;8:45 am]

[Docket No. CI74-95]

J. G. STONE

Notice of Application

AUGUST 21, 1973.

Take notice that on August 8, 1973, J. G. Stone (Applicant), P.O. Box 178, Lolita, Texas 77971, filed in Docket No. CI74-95 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Texas Eastern Transmission Corporation from the Little Kentucky Field Area, Jackson County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that he commenced the sale of gas on July 21, 1973, within the contemplation of § 157.29 of the regulation under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for one year from the end of the sixty-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant proposes to sell approximately 1,000 Mcf of gas per day at 45.0 cents per Mcf at 14.65 p.s.i.a., subject to downward Btu adjustment. Deliveries are estimated to be 30,000 Mcf of gas per month.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before September 4, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rule.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or to be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[812-3479]

EBERSTADT FUND, INC., AND F. EBERSTADT & CO.

Order Exempting Applicants

AUGUST 22, 1973.

Notice is hereby given that The Eberstadt Fund, Inc. (Eberstadt), a Maryland corporation registered as a diversified, open-end management investment company under the Investment Company Act of 1940 (Act), and F. Eberstadt & Co., Managers & Distributors, Inc., 61 Broadway, New York, New York 10006 (Eberstadt M&D), a Delaware corporation registered as an investment adviser under the Investment Advisers Act of 1940 (collectively "Applicants"), have filed an application in connection with the merger of Surveyor Fund, Inc. (Surveyor), a Delaware corporation registered under the Act as a diversified, closed-end management company, with and into Eberstadt. All interested persons are referred to the application, as amended, on file with the Commission for a statement of the representations contained therein, which are summarized below.

Eberstadt and Surveyor propose to enter into an Agreement and Articles of Merger (Agreement), which will provide for the merger of Surveyor into Eberstadt. Currently Eberstadt has issued 2,649,907 shares of its capital stock and has total net assets of $25,146,565. Shares of Eberstadt are offered to the public at the net asset value per share plus varying sales charges as described in Eberstadt's prospectus. Surveyor has issued 5,668,657 shares of its common stock, including 421,883 treasury shares, and has total net assets of $128,821,812. Surveyor does not have an investment adviser, and its shares are currently traded at a discount from net asset value. Under the terms of the Agreement, the outstanding shares of Surveyor will be converted into shares of Eberstadt according to a ratio based upon the net asset values of the two funds at the time of the merger with a minor adjustment to take account of certain future tax effects. Eberstadt will change its name to Surveyor Fund, Inc. ("surviving fund") and will operate as an open-end, diversified investment company of the management type as defined by the Act. The merger will substantially increase the size of Eberstadt and will eliminate for Surveyor the disadvantage of its shares selling in the market at a discount from net asset value.

Debentures.—As of May 31, 1973, Surveyor had outstanding $20,000,000 principal amount of its 5 percent Convertible Debentures, Series A, due February 1, 1984 (Debentures), which were issued pursuant to an Indenture dated January 1, 1969 (Indenture) between Surveyor and Manufacturers Hanover Trust Company, as Trustee (Trustee). The Debentures, convertible into shares of Surveyor common stock, are redeemable prior to maturity at the option of Surveyor at specified redemption prices and, in addition, are redeemable commencing in 1980 at the principal amount through the operation of a sinking fund. The present conversion ratio is 32.971 shares for each $1,000 principal amount of Debentures, which is equivalent to a conversion price of $30.33 per share; the optional redemption price during the twelve month period ending February 1, 1974 is 105.50 percent of the principal amount. Redeeming Debenture holders are entitled to this amount plus accrued interest to the date of redemption.

Eberstadt and Surveyor have agreed that the Debentures should be called for redemption rather than continued as an obligation of the surviving fund. The Indenture requires that notice be given to Debenture holders not less than 30 days prior to the redemption date. Surveyor does not want the Debentures called prior to the merger because of the loss to that company and its shareholders which would occur if the Debentures were called for redemption but the merger were not effected. In that situation, Surveyor would be obligated to pay a redemption premium of $1,100,000 and would lose the benefit of having outstanding Debentures carrying a 5 percent interest rate. An agreement has been reached, therefore, that the Debentures will be called upon the merger for redemption 30 days after the effective date of the merger.

Surveyor's net assets, for purposes of the merger, will be reduced by an amount equal to the sum of the redemption price of the Debentures and accrued interest to the date of the call, and Eberstadt will enter into a supplemental indenture with the Trustee to assume the obligations of Surveyor under the Indenture and to provide for the issuance of shares of capital stock of the surviving company to Debenture holders upon any conversion of the Debentures on or prior to the redemption date. Any conversion will be at a rate expressed in numbers of Eberstadt shares per $1,000 principal amount of Debentures, determined by multiplying the number of Surveyor shares into which that principal amount of Debentures is convertible on the effective date of the merger by the number of shares of capital stock of Eberstadt into which each share of Surveyor stock is convertible upon the merger. If the merger had occurred on May 31, 1973, for example, 2.483 shares of the surviving fund would have been issued per share of Surveyor. Each $1,000 principal amount of Surveyor Debentures would then have been convertible into 81.867 shares of the surviving fund equivalent to a conversion cost for Debenture holders of approximately $9.63 per share. Thus, the conversion price on that date would have exceeded the net asset value per share of the shares to be received upon conversion by approximately 27 percent. Applicants contend, therefore, that on May 31, 1973, Debenture holders would have preferred to receive the redemption price of $1,055, plus the accrued interest for each $1,000 principal amount of Debentures, rather than to convert such Debentures into shares of the surviving fund having a net asset value of approximately $788. It is not possible to determine what the exchange ratio of shares will be on the effective date of the merger, or to estimate what percentage the conversion price will be of the net asset value per share on that date. However, applicants contend that the conversion of Debentures is not likely to be economically attractive to Debenture holders in the absence of an approximately one-third appreciation in the value of the stock receivable upon conversion between now and a date 30 days after the merger (tentatively scheduled for September 10, 1973).

The agreement of the surviving fund, as successor to Surveyor, to either pay the redemption price or convert the Debentures within 30 days of the effective date of the merger may be considered the issuance of a "senior security" by the surviving fund. Since the surviving fund will be an open-end investment company, it will be prohibited by section 18(f) of the Act from issuing any senior securities, and an exemption from that section pursuant to section 6(c) of the Act is necessary. Moreover, since any conversion of Debentures during the 30 day period would be at a price per share other than the current offering price of the surviving fund, an exemption from section 22(d) of the Act pursuant to section 6(c) is also necessary as section 22(d) requires that the securities of a registered investment company be sold to the public only at the current offering price described in the prospectus of the company.

Sublease.—Upon the effectiveness of the merger and pursuant to an Assignment and Assumption Agreement (Assignment) between Surveyor and Eberstadt M&D, Surveyor will assign to Eberstadt M&D its rights, and Eberstadt M&D will assume the obligations of Surveyor, under the Indenture of Sublease dated August 23, 1972 ("Sublease") between Surveyor and Control Data Corporation. The Sublease provides for the rental of a portion of the twelfth floor of One State Street Plaza, New York, New York for a sixteen-year term.

V 38 ■ 165 AUG 27 73 XUM

The basic annual rent is approximately $84,000 with rental payments beginning August 1, 1973. Since the space is unnecessary for the operation of the surviving fund, it was determined that the sublease should not be included as a part of the merger transaction. Under the Assignment, Eberstadt M&D will assume liability for the rent and other obligations of Surveyor under the Sublease. The surviving fund will remain contingently liable to pay such rentals and perform such obligations in the event of a default by Eberstadt M&D. It is anticipated that Eberstadt M&D will sublease the offices to an unaffiliated third party or parties. Pursuant to an agreement to be entered into between Eberstadt and Eberstadt M&D, Eberstadt M&D will bear all losses resulting from any such arrangements; any profits realized by Eberstadt M&D will be paid over to the surviving fund.

Eberstadt M&D presently acts as investment adviser of and distributor for Eberstadt, and therefore, is an affiliated person of, and principal underwriter for Eberstadt within the meaning of the Act. Eberstadt M&D may be deemed to be participating, as principal, in the merger transaction with Eberstadt, because the assignment to Eberstadt M&D of the rights of Surveyor, and the assumption by Eberstadt M&D of the liabilities of Surveyor under the sublease are subject to the effectiveness of the merger and become operative simultaneously with the merger. Section 17(d) of the Act and Rule 17d–1 thereunder, in the absence of Commission approval, prohibit an affiliated person of a registered investment company, or an affiliated person of such person, from participating in a transaction in connection with a joint enterprise or other joint arrangement in which such registered company is also a participant unless the Commission has granted an application filed pursuant to Rule 17d–1 regarding such participation.

Shares issued in merger.—The exchange ratio to be applied in the proposed merger is similar to that employed in numerous combinations of investment companies. The adjustment to be made in the net asset values of Surveyor and Eberstadt is based on a practice which has evolved over a period of years in connection with the combination of investment companies and is designed to recognize the potential tax effect of the disproportion in realized and unrealized taxable capital gains and losses of the combining companies as well as other tax effects. The method of adjustment customarily used in connection with mergers of investment companies provides for an adjustment solely to the net assets of the non-surviving company. However, the exchange ratio in the proposed merger represents the average of the ratios derived by adjusting the net assets of Surveyor and Eberstadt separately since application of the customary method produces different results depending on which fund survives the merger. The adjustment utilized for the proposed merger more nearly reflects the fact that, although Eberstadt will be the surviving legal entity, Surveyor will be the surviving accounting entity. According to Applicants, the proposed exchange ratio, including the tax adjustment, was arrived at by the parties after arms-length negotiations. The Boards of Directors of the two funds have determined that the exchange ratio is fair and that the granting of this exemption will facilitate the merger, with the resulting benefits to the stockholders of Eberstadt and Surveyor.

The shares of Eberstadt are currently offered to the public at prices consisting of the net asset value per share plus sales charges as described in Eberstadt's prospectus. Therefore, in order to effectuate the proposed merger, an exemption from section 22(d) of the Act pursuant to section 6(c) is necessary.

Applicants represent that the following factors support the granting of the requested exemptions described above:

In determining whether to grant the requested exemptions from sections 18(f) and 22(d) pursuant to section 6(c) of the Act, the Commission must decide if and to what extent such exemptions are necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Eberstadt and Surveyor have agreed that the Debentures should be redeemed to facilitate the proposed merger and in recognition of the prohibition of section 18(f) of the Act against a registered open-end company issuing senior securities, except in connection with bank borrowings. The Board of Directors of Eberstadt has determined that the leverage represented by the Debentures would be contrary to the existing investment policies of Eberstadt. They have also determined that the existence of such leverage would require the surviving fund, whose investment objective will be long-term growth of capital, to invest in income-producing securities or otherwise make investment decisions based on the necessity of covering the interest on the Debentures rather than on the overall investment goals of its stockholders. The Indenture requires that Debenture holders be given notice 30 days before the redemption date. Because of the economic losses which Surveyor would incur if the Debentures were redeemed but the merger was not consummated, Surveyor has requested the Debentures be called upon the merger for redemption at a date 30 days after the effective date of the merger. Applicants contend that it is unlikely that the value of the stock receivable upon conversion of the Debentures will appreciate the one-third necessary to make such conversion economically attractive and equally unlikely, therefore, that any dilution will occur as to shares of the surviving fund due to Debenture holders converting their Debentures before the redemption date. The Eberstadt directors have concluded that the benefits of the proposed merger to that company's stockholders, particularly the anticipated lower expense ratio and the greater economic viability of the surviving fund, outweigh the possibility of dilution resulting from the conversion of Debentures.

Under section 17(d) of the Act and Rule 17d–1 thereunder, the Commission, in passing upon an application to permit an affiliated person of a registered investment company to participate in a joint enterprise or joint arrangement in which such registered company is a participant, considers whether such participation is consistent with the provisions, policies and purposes of the Act and the extent to which such participation is on a basis different from, or less advantageous than, that of other participants. Applicants represent that the Board of Directors of Eberstadt has concluded that the surviving fund will have no use for the space at One State Street in New York and that the Sublease should not be included as a part of the liabilities being transferred to the surviving fund as a result of the merger. Moreover, it is represented that the subleasing of such property to third parties by the surviving fund may be deemed inconsistent with its stated investment objectives and policies, and that any rentals received from such subleasing would not be considered "qualifying income" under Section 851 of the Internal Revenue Code of 1954 ("Code") and might, in future years, jeopardize the status of the surviving fund as a "registered investment company" under the Code. The assumption by Eberstadt M&D of the obligation to pay rentals under the Sublease will relieve the surviving fund of a substantial primary liability, and thus facilitate the merger, with the consequent benefits to the stockholders of Surveyor and Eberstadt. Moreover, the terms of the assignment are, in effect, the same terms that Surveyor negotiated with Control Data Corporation in 1972 for the office space covered by the Sublease. Applicants contend that the terms upon which Eberstadt will participate in the merger are not less advantageous than those upon which Eberstadt M&D will participate. First, the Sublease is an unnecessary liability to the surviving fund. Second, the consideration to be paid by Eberstadt in connection with the merger—the shares to be issued for the assets to be acquired—will be determined by the relative net asset values of the funds pursuant to a formula based on the practice which has evolved over a period of years in connection with the combination of investment companies. Thus, the value given by Eberstadt for the assets to be acquired in the merger will not reflect the positive or negative value, if any, of the Sublease. Third, Eberstadt M&D will bear fully any losses arising from the assignment and will pay over any profits to the surviving fund.

Notice is further given, that any interested person may, not later than September 5, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the Applicants at the addresses stated above. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

The aforementioned notice period has been determined to be fair and reasonable in view of the fact that special meetings of the shareholders of Surveyor and Eberstadt have been called for September 7, 1973, for the purpose of voting upon the proposed merger which is scheduled to take effect on September 10, 1973.

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

[70-5370]

GEORGIA POWER CO.

Notice of Proposed Agreement

AUGUST 20, 1973.

Notice is hereby given that Georgia Power Company (Georgia), 270 Peachtree Street NW., Atlanta, Georgia 30303, an electric utility subsidiary company of The Southern Company, a registered holding company, has filed an application-declaration with this Commission designating sections 6, 7, 9(a), and 12(d) of the Public Utility Holding Company Act of 1935 (Act), and Rules 44(b)(3) and 50(a)(5) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transaction.

Georgia states that in order to comply with prescribed air and water quality control standards of the State of Georgia it has been and will be necessary to construct certain pollution control facilities. By resolution of September 22, 1972, the Development Authority of Bartow County, Georgia (Authority), authorized a proposal to the Company to provide pollution control facilities (Project) for Units Nos. 2, 3, and 4 of Georgia's Bowen electric generating plant located in Bartow County.

Georgia proposes to enter into an agreement of sale (Agreement) with the Authority whereby the Authority will construct and equip the Project. To finance construction, the Authority will issue, pursuant to an indenture (Indenture) to be entered into between the Authority and an indenture trustee (Trustee), pollution control revenue bonds (Revenue Bonds) in a principal amount presently estimated not to exceed $41,000,000. The proceeds from the sale of the Revenue Bonds will be deposited by the Authority with the Trustee and will be applied to the payment of the cost of construction (as defined in the Agreement) of the Project. Under the Agreement, Georgia will complete construction of the Project; to the extent, if any, that the proceeds from the sale of the Revenue Bonds are insufficient to complete construction, Georgia will supply the deficiency.

The Agreement also will provide for the sale of the Project to Georgia at a price payable in semiannual installments over a period of 30 years sufficient to pay the principal of and interest on the Revenue Bonds as they become due and payable. The Agreement further provides that Georgia may prepay the purchase price (a) at any time on or after 10 years from the date of issuance of the Revenue Bonds in whole or in part at the option of Georgia, such payments to be sufficient to redeem or purchase outstanding Revenue Bonds, including applicable premiums, and (b) in whole, without premium, at the option of Georgia, in certain other specified contingencies.

In order to obtain the benefit of a rating for the Revenue Bonds equivalent to the rating enjoyed by the first mortgage bonds outstanding under Georgia's bond indenture (Mortgage), Georgia proposes to issue a series of such first mortgage bonds (Collateral Bonds) under the Mortgage, pursuant to a supplemental indenture (Supplemental Mortgage). The Collateral Bonds, to be issued in a principal amount (not exceeding $41,000,000) equal to the principal amount of the Revenue Bonds, will be deposited with the Trustee as Security for Georgia's obligations under the Agreement. The Collateral Bonds will have a stated interest rate equal to the interest rate per annum to be borne by the Revenue Bonds, will mature on the maturity date of such Revenue Bonds, and will be non-transferrable. The Supplemental Mortgage will provide, however, that until the Trustee shall have demanded mandatory redemption of the Collateral Bonds, no interest in respect of the Collateral Bonds shall accrue or become payable, but that upon accelerations by the Trustee of payments under the Agreement, he may demand the mandatory redemption of the Collateral Bonds at a price equal to the principal amount thereof plus accrued interest, if any, to the date fixed for redemption.

The Indenture will provide that, upon deposit of funds with or direction to the Trustee by Georgia to apply available funds, or upon delivery of outstanding Revenue Bonds sufficient to pay or redeem all or any part of the Revenue Bonds, the Trustee will be obligated to deliver to Georgia Collateral Bonds in an aggregate principal amount equal to that amount of Revenue Bonds for the payment or redemption of which such funds have been deposited or applied or which shall have been so delivered.

In order to comply with applicable statutes of the State of Georgia, it will be necessary for Georgia to sell to the Authority such portions of the Project which have been constructed and are now owned by Georgia (Existing Facilities), relating principally to Unit No. 2 of the Bowen plant which is now in operation. The Agreement states that Georgia will receive, out of the proceeds of the Revenue Bonds, an amount equal to Georgia's original cost (approximately $30,592,000 as of June 30, 1973) for the Existing Facilities at the time of the sale. The Existing Facilities will become a part of the Project which Georgia proposes to purchase as provided in the Agreement. The proceeds to be received by Georgia for the Existing Facilities will be applied initially to obtain their release from the lien of the Mortgage, but may be withdrawn by Georgia in accordance with applicable provisions of the Mortgage.

It is contemplated that the Revenue Bonds will be sold by the Authority pursuant to arrangements with a group of underwriters represented by Blyth Eastman Dillon & Co., Incorporated, and The First Boston Corporation. In accordance with the laws of the State of Georgia, the interest rate to be borne by the Revenue Bonds will be fixed by the board of directors of the Authority. While Georgia will not be a party to the underwriting arrangement for the Revenue Bonds, the Agreement will provide that the terms of the Revenue Bonds and their sale by the Authority shall be satisfactory to Georgia. Application has been made on behalf of Georgia and the Authority to the Internal Revenue Service for its ruling that interest on the Revenue Bonds will be exempt from Federal income taxation, and the transactions proposed are contingent upon receipt of a favorable ruling to such effect. The proposed method of financing the Project will be pursued to the extent permissable under such ruling.

The management of Georgia believes the acceptance of the Authority's proposal and the consummation of the transactions herein proposed to be in the best interest of Georgia's consumers and investors and consistent with sound and prudent financial policy. Georgia has been advised that the annual interest rate on obligations, interest on which is tax exempt, historically have been and can be expected at the time of issue of the Revenue Bonds to be, 1½ percent to 2½ percent lower than the rates on obligations of like tenor and comparable

V 38 - 165 AUG 27 73 XUM

quality, interest on which is fully subject to Federal income tax.

The application-declaration states that the fees incident to be proposed disposition of the Existing Facilities and the acquisition of the Project (as distinguished from and excluding fees and expenses incident to the sale of the Revenue Bonds by the Authority payable out of the proceeds of such sale) are estimated to be $76,500, including legal fees of $20,000 and trustee fees of $15,000. It is stated that the issuance of the Collateral Bonds is subject to the jurisdiction of the Georgia Public Service Commission, and that no other State commission and no Federal commission, other than this Commission, has jurisdiction in respect thereof. Georgia states further that the competitive bidding requirements of Rule 50 in respect of the issuance of the Collateral Bonds are inappropriate under the circumstances described herein, inasmuch as the Collateral Bonds are to be issued and pledged solely to secure Georgia's obligations to the Authority and no public offering of the Collateral Bonds is to be made. It is stated that no other aspect of the proposed transactions is subject to the jurisdiction of any State commission or Federal commission, other than this Commission.

Notice is further given that any interested person may, not later than September 11, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant-declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

MASSACHUSETTS MUTUAL LIFE INSURANCE CO. AND MASSACHUSETTS MUTUAL VARIABLE ANNUITY FUND 2

Notice of Application

AUGUST 20, 1973.

Notice is hereby given that Massachusetts Mutual Life Insurance Company (Mass Mutual) and Massachusetts Mutual Variable Annuity Fund 2 (Fund), 1295 State Street, Springfield, Massachusetts 01111 (herein collectively called Applicants) have filed an application pursuant to section 6(c) of the Investment Company Act of 1940 (Act), for an order exempting Applicants from the provisions of section 22(c), 22(d), 26(a), and 27(c)(2) of the Act and Rule 22c-1 promulgated thereunder. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

On May 12, 1971, Mass Mutual established Fund pursuant to Chapter 175 of the Massachusetts General Laws as a separate account to offer variable annuity contracts to individuals not entitled to special tax treatment with respect thereto (Contracts). Payments made under the Contracts will be invested in shares of MML Investment Company, Inc. (MML Investment), an open-end diversified investment company registered under the Act and managed by Mass Mutual. Fund has registered under the Act as a unit investment trust.

Applicants have previously been granted exemption from sections 22(c), 22(d), and 26(a) of the Act and Rule 22c-1 thereunder with respect to single payment immediate Contracts. Applicants now request comparable exemptions in connection with periodic and single payment deferred Contracts, for the offering of which a registration statement under the Securities Act of 1933 has been filed.

Rule 22c-1.—Rule 22c-1, promulgated pursuant to section 22(c), prohibits a registered investment company issuing a redeemable security, a person designated in such company's prospectus as authorized to consummate transactions in any such security, and a principal underwriter of, or dealer in, any such security, from selling, redeeming or repurchasing any such security except at a price based on the current net asset value of such security which is next computed after receipt of a tender of such security for redemption or of an order to purchase or sell such security. The current net asset value must be computed not less frequently than once daily on each day that the New York Stock Exchange is open for trading as of the time of the close of trading on such Exchange.

Applicants request an exemption from Rule 22c-1 so as to permit the application of purchase payments received, and the determination of death benefits and redemption values, to be based on valuations as of the close of the New York Stock Exchange on the date the purchase payment, notice of death or request for redemption is received, regardless of the time of receipt, except to the extent such payment is made in person or such notice or request is delivered in person at the home office of Mass Mutual. Applicants represent that in almost all instances purchase payments, death notices, and redemption requests will be received by mail and that, therefore, it will be fortuitous whether such receipt is prior or subsequent to the close of the New York Stock Exchange.

Section 22(d).—Section 22(d) provides, in pertinent part, that no registered investment company shall sell any redeemable security issued by it to any person except at a current offering price described in the prospectus.

Applicants request an exemption from section 22(d) to permit Contracts which depend in whole or in part on the investment performance of the Fund to be sold without a deduction for sales expenses upon the receipt of proceeds payable under fixed-dollar life insurance or annuity contracts previously issued by Mass Mutual. Applicants represent that sales expenses will be lower with this class of Contract Owners; that such other contracts have already been subject to sales expenses; and that no unfair discrimination between variable annuity Contract Owners would result from the requested exemption.

Section 26(a) and 27(c)(2).—Sections 26(a) and 27(c)(2) of the Act prohibit a depositor of or principal underwriter for a registered unit investment trust from selling any periodic payment plan ceritificate issued by such a trust unless the certificate is issued pursuant to a trust indenture, agreement of custodianship, or other instrument which provides (i) that the securities and other property of the trust shall be held by a custodian or trustee which is a qualified bank; (ii) that the custodian or trustee may collect from income and, if necessary, the corpus of the trust, fees for services theretofore performed and reimbursement for expenses theretofore incurred, except that no payment to the depositor or principal underwriter shall be allowed the custodian or trustee as an expense except as a fee, not exceeding such reasonable amount as the Commission may prescribe, for performing bookkeeping or other administrative services; (iii) that the custodian or trustee shall not resign until either the trust has been liquidated or a qualified successor custodian or trustee has been appointed; and (iv) that certain records be kept.

In support of the requested exemption Applicants stated that as a regulated insurance company Mass Mutual's obligations to the Contract Owners provide substantially the same protections envisioned by the requirements of those sections. Mass Mutual, which had an unassigned surplus of $190,696,000, as of December 31, 1972, is subject to regulation by the Department of Banking and Insurance of the Commonwealth of Massachusetts and the National Association of Insurance Commissioners. Its officers and employees are covered by a fidelity bond in the amount of $2,000,000. The assets of the Fund, equal to the reserves and other liabilities for variable benefits which depend upon the Fund's investment performance, are not chargeable with liabilities arising out of any other business Mass Mutual may conduct.

Applicants also state that while the assets of the Fund will be invested in shares of the MML Investment Company, Inc. (MML Investment) which will be held by the Fund in an open account on the books and records of the Fund and MML Investment without the issuance of transferable stock certificates which might require safekeeping, the portfolio securities and other assets of MML Investment itself will be held in the custody of a qualified bank. They add that there is no substantial risk of abandonment of Contract Owners by Mass Mutual as sponsor of the Fund because of the binding obligation of Mass Mutual under the Contracts to provide lifetime benefits to Contract Owners. they also state that substitution by the Fund of other securities for MML Investment shares is subject to the vote of the Contract Owners.

Applicants have consented that this requested exemption be subject to the conditions that the deductions under the Contracts for administrative services shall not exceed such reasonable amounts as the Commission shall prescribe; that the Commission shall reserve jurisdiction for such purpose; and that the payment of sums and charges out of the assets of the Fund shall not be deemed to be exempted from regulation by the Commission by reason of the requested order, provided that the consent of Applicants to this condition shall not be deemed to be a concession to the Commission of authority to regulate the payment of sums and charges out of such assets other than charges for administrative services. Applicants reserve the right in any proceeding before the Commission or in any suit or action in any court to assert that the Commission has no authority to regulate the payment of such other sums or charges.

Section 6(c) authorizes the Commission to exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from the provisions of the Act and Rules promulgated thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, no later than September 12, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. Any time after said date, as provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for a hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered), and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

[FR Doc.73-18095 Filed 8-24-73;8:45 am]

[70-5259]

MIDDLE SOUTH UTILITIES, INC. ET AL.

Notice of Post-Effective Amendment

AUGUST 20, 1973.

In the Matter of: Middle South Utilities, Inc., 280 Park Avenue, New York, New York 10017; System Fuels, Inc., 225 Baronne Street, New Orleans, La. 70112; Arkansas Power & Light Company, Ninth and Louisiana Streets, Little Rock, Ark. 72203; Louisiana Power & Light Company, 142 Delaronde Street, New Orleans, La 70174; Mississippi Power & Light Company, Electric Building, Jackson, Miss. 39205; New Orleans Public Service Inc., P.O. Box 60340, New Orleans, La. 70160.

Notice is hereby given that Middle South Utilities, Inc. ("MSU"), a registered holding company, its public utility subsidiary companies, Arkansas Power & Light Company ("Arkansas"), Louisiana Power & Light Company ("Louisiana"), Mississippi Power & Light Company ("Mississippi") and New Orleans Public Service Inc. ("NOPSI") (collectively referred to as "Operating Companies"), and System Fuels, Inc. ("SFI") a joint non-utility subsidiary company and System Fuels, Inc. ("SFI") a joint non-utility subsidiary company of Operating Companies, have filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), (7), 12(b) and 12(f) and Rules 45 and 50(a)(2) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

The Commission has heretofore by order authorized SFI to issue and sell its unsecured promissory notes ("Notes"), in an aggregate amount not exceeding $12,000,000 outstanding at any one time, to The Hibernia National Bank in New Orleans ("Hibernia") from time to time for a period of two years from the date of an agreement ("Loan Agreement") among Hibernia, SFI, Operating Companies and MSU. Under the Loan Agreement, nine banks ("Participating Banks") are participating to the extent of 80 percent of borrowings made. (See Holding Company Act Release No. 17797, dated December 8, 1972.)

By mutual agreement, the parties to the Loan Agreement now propose to amend said Loan Agreement to effect an increase in the amount of borrowings by SFI under the line of credit with Hibernia from $12,000,000 to $25,090,000 at any one time outstanding. The same Participating Banks specified in the aforesaid declaration, as amended, will continue to participate in the increased borrowings by SFI from Bank, and the percentage of their participation in the increased borrowings at any one time will be increased from 80 percent to 86.1 percent up to a maximum of $21,590,000. The participation of each Participating Bank in the maximum borrowings under the Loan Agreement will be as follows:

Participating bank	Participation in total $25,090,000 borrowing	
	Percent	Amount
Whitney National Bank of New Orleans	31.9	$8,000,000
First National Bank of Commerce New Orleans, La.	15.9	4,000,000
National American Bank of New Orleans	7.4	1,850,000
Deposit Guaranty National Bank, Jackson, Miss.	4.8	1,200,000
First National Bank of Jackson, Miss.	4.8	1,200,000
First National Bank in Little Rock, Ark.	6.0	1,500,000
Commercial National Bank, Little Rock, Ark.	2.4	600,000
Simmons First National Bank of Pine Bluff, Ark.	11.9	3,000,000
Mississippi Bank and Trust Company, Jackson, Miss.	1.0	240,000
	86.1	21,590,000

Hibernia's participation in the total borrowings will be the balance of 13.9 percent, or up to a maximum of $3,500,000. All other terms and conditions of the Loan Agreement and Participation Agreement are to remain unchanged.

As of July 31, 1973, SFI had made borrowings from Hibernia under the line of credit in the aggregate principal sum of $12,000,000, the proceeds of which were applied by SFI toward the purchase of oil for use as fuel by Arkansas, Louisiana, Mississippi, NOPSI, and Arkansas-Missouri Power Company. The declarants state that as a result of curtailments of natural gas deliveries it is necessary to increase the supply of oil as an alternative fuel. Therefore, SFI proposes to use the proceeds from the herein requested additional borrowings to finance

V 38 - 165 AUG 27 73 XUM

a larger fuel oil inventory presently estimated to range from 5,000,000 to 9,000,000 bbls.

Pursuant to an order of the Commission, dated December 17, 1971, SFI may borrow from Operating Companies, from time to time through 1973, an aggregate amount not to exceed $30,000,000 outstanding at any one time, for terms of not more than ten years. SFI has represented it will at all times, unless the Commission shall otherwise expressly authorize, maintain the aggregate of its capital stock, surplus, and principal amount of its indebtedness to Operating Companies, at an amount equal to at least 35 percent of SFI's total capitalization.

Declarants state that no special or separate expenses are anticipated in connection with the additional borrowings referred to herein. It is further stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than September 14, 1973, request in writing that a hearing be held in respect of such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law which he desires to controvert; or he may request that he be notified should the Commission order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarants at the above-stated address, and proof of service (by affidavit, or in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective in the manner provided by Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof, or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[FR Doc.73-18089 Filed 8-24-73;8:45 am]

[70-5344]

NATIONAL FUEL GAS CO. ET AL.

Notice of Termination

AUGUST 21, 1973.

Notice is hereby given that National Fuel Gas Company ("National Fuel"), 30 Rockefeller Plaza, New York, New York 10020, a registered holding company, and its subsidiary companies, Iroquois Gas Corporation, Pennsylvania Gas Company, United Natural Gas Company, and NFG Gas Corporation, filed a joint application-declaration with this Commission designating sections 2(a)(4), 2(a)(7), 5(d), 6(a), 7, 9(a), 10, and 12 of the Public Utility Holding Company Act of 1935 ("Act"), and Rules 42, 43, 62, 63, 64 and 65 promulgated thereunder as applicable to the proposed transactions. The application-declaration proposes a series of intra-system transactions ("the Plan") whereby National Fuel will cease to be a holding company, and its successor by merger, NFG Gas Corporation ("NFG"), will acquire all of the System's gas utility distribution properties and related assets, and will have three subsidiary companies that are non-utility companies within the meaning of the Act. All interested persons are referred to said joint application-declaration for a complete statement of the transactions therein proposed, which are summarized below.

National Fuel, a New Jersey corporation, is solely a holding company. It owns all of the outstanding capital stocks of Iroquois Gas Corporation ("Iroquois"), Pennsylvania Gas Company ("Penn Gas") and United Natural Gas Company ("United"); and of two other subsidiary companies, The Mars Company ("Mars") and The Sylvania Corporation ("Sylvania"). It also owns all of the outstanding long-term debt of these companies. On a corporate basis, at December 31, 1972, National Fuel had total assets of $260,074,675, consisting almost entirely of notes payable to its subsidiary companies and of their outstanding capital stocks. Its outstanding long-term securies, all publicly-held, consisted of $167,170,000 principal amount of debentures maturing on various dates through 1997, and 5,122,515 shares of common stock, par value $10 per share.

Iroquois, Penn Gas, and United are engaged in the distribution of natural and mixed gas at retail, and by reason thereof each is a gas utility company as defined in section 2(a)(4) of the Act. They are also engaged in the production, purchase, storage, and transmission of natural and manufactured gas and in the sale of gas-burning equipment and appliances. Mars and Sylvania are nonutility companies engaged in production of oil and gas.

Over 90 percent of the System gas requirements are purchased from a number of non-affiliated pipeline suppliers connected at various points to the System pipeline. The companies coordinate certain of their functions for economy of operations and for long-range planning of gas supply. National Fuel performs administrative functions on behalf of its subsidiary companies, and permanent financing for its subsidiary companies is provided by National Fuel through the public sale of its common stock and debentures.

Iroquois, Penn Gas, and United are interconnected through a System-owned pipeline network extending from southwestern Pennsylvania to the New York-Canadian border at the Niagara River and serve approximately 465 communities located in substantially contiguous areas in northwestern Pennsylvania, western New York and a small section of eastern Ohio bordering on the Pennsylvania service area. These service areas have a combined estimated population of approximately 2,362,000. About 465,000 customers are served in New York State, 181,000 in Pennsylvania, and 4,000 in Ohio.

Iroquois, a New York corporation, operates solely in western New York. The principal communities served by it are Buffalo, Niagara Falls and Batavia. Penn Gas, a Pennsylvania corporation, serves five counties in northwestern Pennsylvania, including the cities of Erie and Warren, and two counties in western New York. United, a Pennsylvania corporation, serves 13 counties in northwestern Pennsylvania, including the cities of Sharon, Oil City, and Bradford, and two counties in Ohio.

Under the Plan, National Fuel will be merged into the newly organized NFG, a New York corporation having its principal office in Buffalo, New York. NFG will be the surviving corporation with powers appropriate to conduct the business of a public-utility company. It will acquire all the assets of National Fuel and assume all its liabilities, and will execute and deliver to the Trustees under National Fuel's Debenture Indentures, supplemental indentures satisfactory to the Trustees whereby NFG will assume the due and punctual payment of principal and interest on the debentures, and the performance of all other obligations and covenants of National Fuel under said Indentures. Holders of common stock of National Fuel may surrender their shares for an equal number of shares of NFG; shares not surrendered will be deemed for all corporate purposes to evidence the ownership of shares of NFG. Shares of NFG common stock will have rights and privileges not less favorable than those attaching to the present shares of National Fuel common stock. The common stock of NFG, like that of National Fuel, will be listed on the New York Stock Exchange.

After all necessary regulatory approvals have been obtained National Fuel proposes to solicit proxies from its shareholders, at a special stockholders' meeting called for that purpose, to vote on the proposed merger into NFG. The proxy material will include a description of the Plan and the transactions related thereto. It is stated that, under New Jersey law, the merger requires the affirmative vote of at least two-thirds of National Fuel's outstanding common stock, and that dissenting stockholders, if any, have no appraisal rights.

Concurrently with the merger, Iroquois, Penn Gas and United will transfer to NFG all of their gas distribution properties, franchises, and other related assets, at the underlying book values thereof on the date of transfer. NFG will thus become a gas utility company, as defined in section 2(a)(4) of the Act, with all rights, privileges and obligations of a public-utility company theretofore vested in the three subsidiary companies. As consideration for these property transfers, NFG will (i) cancel a portion of the debt owed it by each of the three subsidiary companies; (ii) assume a portion of their other liabilities; and (iii) surrender for cancellation part of their outstanding shares of common stocks. Based on data as of December 31, 1971, an engineering study prepared by National Fuel indicates that the proposed property transfers to NFG and the related consideration therefor would have been as shown below, had the transactions been effected on that date.

	Per books at December 31, 1971	Portion (distribution properties) transferred to NFG	(c) Consideration
Iroquois:			
Total assets (a)	$207,922,971	$162,545,503	
Total liabilities:			
Long-term debt (b)	95,263,000		$80,220,500
Other liabilities	27,841,825		11,223,971
Common equity (b)	84,818,146		71,101,032
	207,922,971		162,545,503
United:			
Total assets (a)	88,305,588	38,245,499	
Total liabilities:			
Long-term debt (b)	22,661,000		368,000
Other liabilities	14,443,353		3,022,418
Common equity (b)	51,201,235		34,855,081
	88,305,588		38,245,499
Penn gas:			
Total assets (a)	55,552,533	30,253,494	
Total liabilities:			
Long-term debt (b)	18,102,925		8,167,000
Other liabilities	8,726,939		3,300,772
Common equity (b)	28,722,669		18,785,722
	55,552,533		30,253,494
Combined:			
Total assets (a)	351,781,092	231,044,496	
Total liabilities:			
Long-term debt (b)	136,026,925		88,775,500
Other liabilities	51,012,117		17,547,161
Common equity (b)	164,742,050		124,721,835
	351,781,092		231,044,496

(a) Net of valuation reserves.
(b) All owned by National Fuel.
(c) Represents portions of debt and common stock to be cancelled and other liabilities to be assumed.

The amounts shown in the foregoing table will be adjusted to the extent necessary as of the date of consummation of the transactions reflected therein.

It is further proposed that upon such transfer to NFG of their respective distribution properties, Iroquois, United and Penn Gas will merge. United will be the surviving company, with a change of name to National Fuel Gas Supply Corporation ("Supply Corp."). All of the assets of the three constituent companies will be vested in, and their liabilities will be assumed by, Supply Corp. The then outstanding shares of common stock of Iroquois and Penn Gas will be converted into an equal aggregate par value amount of Supply Corp. common shares, and NFG will own all of the outstanding pro forma common stock of Supply Corp. This merger will consolidate into Supply Corp. all of the gas storage, interstate gas transmission, and related properties of the present National Fuel System.

Upon consummation of the foregoing, NFG will be a public-utility company with two operating divisions—one for New York, and the other for Pennsylvania and the small number of customers in Ohio. Besides Supply Corp., NFG will retain Mars and Sylvania as subsidiary companies without change. After giving effect to all the proposed transactions, the pro forma consolidated assets and liabilities of NFG and its subsidiaries will be the same as those of the present National Fuel Sytem (adjusted for fees and expenses to be incurred in connection with the Plan); all of the long-term debt of the three subsidiary companies will be held by NFG; and the outstanding consolidated long-term debt will consist solely of the present debentures of National Fuel to be assumed by NFG. It is represented that on a consolidated basis as of the date of consummation of the Plan, the long-term debt will not exceed 60 percent of total capitalization and surplus and that, for the 12-month period ending on that date, interest requirements will be earned not less than 2.6 times.

It is stated that the realignment proposed by the Plan will simplify the structure of the National Fuel System and that economies in the future cost of service may be anticipated. It is further stated that the proposed realignment will simplify local regulation as well as future proceedings and filings at the Federal Power Commission in respect of the interstate pipeline operations which will be conducted by Supply Corp.

National Fuel states that, when the Plan is consummated, neither it nor NFG will be a holding company as defined in section 2(a)(7)(A) of the Act. NFG, a gas distribution company, will have three subsidiary companies—Supply Corp., Mars and Sylvania—which will be nonutility companies within the meaning of the Act. It is requested that upon consummation of the Plan, NFG be declared not to be a holding company and that National Fuel's registration as such be terminated pursuant to section 5(d) of the Act.

It is stated that the New York Public Service Commission and the Public Utilities Commission of Ohio have jurisdiction over the transfers of the properties in those respective States to NFG; that the Pennsylvania Public Utility Commission has jurisdiction over the transfer of Pennsylvania properties to NFG and must approve the commencement of utility operations in that State by NFG; and that the Federal Power Commission has jurisdiction over the abandonment of pipeline facilities and related services and the acquisition and operation thereof by Supply Corp. Applications therefor have been filed and the related orders of those commissions will be supplied herein by amendment.

Fees and expenses to be incurred in connection with the proposed Plan are estimated at $382,000, including counsel fees of $150,000 and expenses of $30,000 for the proposed proxy solicitation. In addition, certain State taxes and fees, as well as fees relating to applications filed with the above-mentioned regulatory bodies, are expected to be incurred; a statement of the amounts thereof will be supplied by amendment.

Notice is further given that any interested person may, not later than September 21, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and (100) thereof or take such other action as it may deem appropriate. Persons who re-

NEW ISSUES FUND, INC.

Proposal To Terminate Registration Pursuant to Section 8(f) of the Act

AUGUST 21, 1973.

Notice is hereby given that the Commission proposes, pursuant to section 8 (f) of the Investment Company Act of 1940 (Act), to declare by order upon its own motion that New Issues Fund, Inc. (Fund) % Donald F. French, Esquire, Valicenti, Leighton Reid & Pine, 70 Pine Street, New York, New York 10005, registered under the Act as an open-end, diversified management investment company, has ceased to be an investment company as defined in the Act.

Fund was organized as a Maryland corporation on February 5, 1970, and filed a Notification of Registration on Form N-8A on February 18, 1970. Neither a Registration Statement on Form N-8B-1 nor a registration statement under the Securities Act of 1933 was ever filed, no shares were ever issued, and Fund has no assets or liabilities.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, on its own motion or upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and, upon the effectiveness of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than September 17, 1973, at 5:30 p.m., submit to the Commissioin in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the Fund at the address set forth above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the matter may be issued by the Commission upon the basis of the information stated herein, unless an order for a hearing shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

STATE STREET INVESTMENT CORP.

Notice of Filing of Application

AUGUST 21, 1973.

Notice is hereby given that State Street Investment Corporation (Applicants), 225 Franklin Street, Boston, Massachusetts 02110, a Massachusetts corporation registered under the Investment Company Act of 1940 (Act) as a diversified, open-end management investment company, has filed an application pursuant to section 6(c) of the Act requesting an order of the Commission exempting Applicant from the provisions of section 22(d) of the Act which, in pertinent part, prohibit a registered investment company from selling any redeemable security issued by it to any person except either to or through a principal underwriter for distribution or at a current public offering price described in the prospectus. Section 22(d) of the Act would prevent Applicant, which does not have a prospectus describing a current public offering price, from acquiring the assets of North American Realty Corporation (North American) in exchange for the shares of Applicant. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant states that North American, a New York corporation, was incorporated in 1939 and has, since organization, operated as a family private investment company investing and reinvesting its assets in a diversified portfolio of securities. Substantially all of North American's assets are in the form of investments in marketable securities, cash and cash items. At present North American has 24 stockholders and is a personal holding company for Federal income tax purposes. Applicant asserts that North American is excepted from the definition of an investment company by reason of section 3(c)(1) of the Act.

On July 20, 1973, Applicant and North American entered into an Agreement and Plan or Reorganization (Agreement) whereby substantially all of the assets of North American are to be transferred to Applicant in exchange for shares of Applicant's common stock and the assumption by Applicant of North American's liability to pay to any of its stockholders who dissent from the reorganization the value of their holdings of North American stock. Pursuant to the Agreement, the number of Applicant's shares to be delivered to North American shall be determined by dividing the aggregate value (subject to a possible adjustment described below) of the assets of North American to be transferred to Applicant (less the amount of any liability of North American to its stockholders that is assumed by the Applicant) by the net asset value per share of Applicant. In determining the number of Applicant's shares to be delivered to North American, the aggregate value of the assets of North American will be reduced by the amount, if any, which is determined by the application of a formula (set forth in the Agreement) designed to compensate Applicant for any potential tax liability resulting from any excess in the proportion of the net asset value of North American represented by realized and unrealized appreciation over the proportion of the net asset value of Applicant represented by realized and unrealized appreciation. The amount of any liability to North American's dissenting stockholders that may be assumed by Applicant will be fixed by agreement between North American and such stockholders but may not exceed an amount equal to the net asset value, on the valuation date, of that number of Applicant's shares which such stockholders would have been entitled to receive on the closing date had they not objected to the reorganization. It is a condition precedent to the consummation of the reorganization that the holders of no more than 20 percent of North American's outstanding stock object to the reorganization.

Applicant and North American have applied for a ruling from the Internal Revenue Service (the receipt of which is a condition precedent to the consummation of the proposed transaction, waivable by North American) to the effect that: the contemplated transaction will constitute a tax-free reorganization and consequently, among other things, no gain or loss will be recognized by Applicant as the result of the exchange of its shares for the assets of North American, and the Federal tax basis to Applicant of the assets acquired from North American will be the same basis those assets had in the hands of North American.

As of May 31, 1973, the market value of the assets of North American less the amount of a possible liability to North American's dissenting stockholders (assuming for these purposes a dissent of 20 percent of North American's outstanding stock) was approximately $6,642,000. Prior to the consummation of the transaction, North American intends to sell assets with a market value of $2,703,622. The proceeds of such sales will be either transferred to Applicant as cash or reinvested in securities appropriate for Applicant's portfolio and transferred to Applicant at the closing. Following consummation of the transaction, Applicant intends to sell certain securities transferred to it by North American having a market value up to, and not in excess of, 25 percent of the value of the assets of North American at the closing date. The remainder of the assets received will be retained in Applicant's portfolio. Applicant has been advised that the stockholders of North American have no present intention of redeeming any substantial number of, or otherwise transferring, any of Applicant's shares and that in no event will an amount greater in the aggregate than 20 percent of such shares be redeemed in the first year following the proposed transaction.

Assuming that the closing under the Agreement had taken place on May 31, 1973, when the net asset value of the shares of Applicant was $46.04, 144,282 shares of Applicant would have been transferred to North American, or approximately 1.62 percent of the number of Applicant's shares outstanding immediately after such transfer.

Applicant represents that neither North American nor any shareholder, director or officer of North American is either an "affiliated person" of Applicant, or an "affiliated person" of any "affiliated person" of Applicant. The Agreement was negotiated at arms-length by the principals of North American and Applicant.

Section 6(c) of the Act permits the Commission, upon application, to exempt a transaction if it finds that such an exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. Applicant contends that the proposed transaction will increase its assets and thus reduce its costs per share.

Notice is further given that any interested person may, not later than September 14, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in the case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

DEPARTMENT OF LABOR

Manpower Administration

FEDERAL ADVISORY COUNCIL ON UNEMPLOYMENT INSURANCE

Notice of Meeting

A meeting of the Federal Advisory Council on Unemployment Insurance will be held at 9 a.m. on Friday, September 14, 1973, in Conference Room 107A, Main Labor Building, 14th and Constitution Avenue, NW., Washington, D.C. This meeting will be open to the public.

The agenda of the meeting is as follows:

Morning

9:00 Opening of Meeting.
Swearing in of new Member.
9:15 Developments in the Manpower Administration:
Mr. William H. Kolberg, Council Chairman and Assistant Secretary for Manpower.
10:15 Status Report: Unemployment Insurance Federal Legislative Developments:
Mr. Robert C. Goodwin, Council Vice Chairman and Associate Manpower Administrator for Unemployment Insurance.
10:45 Presentation on Unemployment Insurance Program Administration Concerns.
11:30 Lunch

Afternoon

12:45 Presentation and discussion continues on program administration concerns.
3:30 Summary and Council recommendations.
Adjournment

Any inquiries concerning this meeting should be directed to: Mrs. Sally Ehrle, Executive Secretary, Federal Advisory Council on Unemployment Insurance, Room 5102, Main Labor Building, Washington, D.C. 20210. Mrs. Ehrle's telephone number is Area Code 202, number 961-4097.

Signed at Washington, D.C. this 20th day of August 1973.

WILLIAM H. KOLBERG,
Council Chairman and Assistant Secretary for Manpower.

Wage and Hour Division

CERTIFICATES AUTHORIZING THE EMPLOYMENT OF FULL-TIME STUDENTS WORKING OUTSIDE OF SCHOOL HOURS AT SPECIAL MINIMUM WAGES IN RETAIL OR SERVICE ESTABLISHMENTS OR IN AGRICULTURE

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), the regulation on employment of full-time students (29 CFR Part 519), and Administrative Order No. 621 (36 FR 12819), the establishments listed in this notice have been issued special certificates authorizing the employment of full-time students working outside of school hours at hourly rates lower than the minimum wage rates otherwise applicable under section 6 of the Act. While effective and expiration dates are shown for those certificates issued for less than a year, only the expiration dates are shown for certificates issued for a year. The minimum certificate rates are not less than 85 percent of the applicable statutory minimum.

The following certificates were issued to variety-department stores and provide for an allowance not to exceed the proportion of the total hours worked by full-time students at rates below $1 an hour to the total number of hours worked by all employees in the establishment during the base period in occupations of the same general classes in which the establishment employed full-time students at wages below $1 an hour in the base year; or provide the same standards authorized in certificates previously issued to the establishment.

Terry Farris, No. 5430, San Antonio, Tex., 9–4–74.

The following certificates issued to variety-department stores permitted to rely on the base-year employment experience of others were either the first full-time student certificates issued to the establishment, or provide standards different from those previously authorized. The certificates permit the employment of full-time students at rates of not less than 85 percent of the applicable statutory minimum in the classes of occupation listed, and provide for the indicated monthly limitations on the percentage of full-time student hours of employment at rates below the applicable statutory minimum to total hours of employment of all employees.

G. McNew Stores: No. 10, North Little Rock, Ark., salesclerk, 4 to 12 percent, 7–15–74; No. 6815, Fort Collins, Colo., salesclerk, stock clerk, 28 to 59 percent, 7–4–74; No. 29, Dade City, Fla., salesclerk, office clerk, stock clerk, porter, 11 to 32 percent, 7–11–74; No. 17, East Brunswick, N.J., salesclerk, stock clerk, office clerk, 19 to 37 percent, 7–16–74; No. 6, Concord, N.C., salesclerk, 9 to 39 percent, 7–11–74; No. 12, Tamaqua, Pa., salesclerk, office clerk, stock clerk, 15 to 32 percent, 7–1–74; No. 430, Jackson, Tenn., salesclerk, stock clerk, office clerk, 4 to 17 percent, 7–5–74.

G. C. Murphy Co., for the occupations of salesclerk, office clerk, stock clerk, janitorial: No. 357, Auburn, Ala., 9 to 15 percent, 6–12–74; No. 354, Franklin, Va., 11 to 20 percent, 7–5–74; No. 340, Fond du Lac, Wis., 9 to 20 percent, 7–10–74.

Rose's Stores Inc.: No. 244, Eustis, Fla., stock clerk, salesclerk, checker, window trimmer, merchandise marker, order writer, 13 to 32 percent, 7–4–74; No. 239, Hammond, La., salesclerk, stock clerk, checker, window trimmer, merchandise marker, order writer, 13 to 32 percent, 6–27–74; No. 242, Chapel Hill, N.C., salesclerk, stock clerk, 13 to 28 percent, 6–17–74.

T. G. & Y. Stores Co.: 1802 East 66 Avenue, Gallup, N.M., salesclerk, stock clerk, office clerk, 13 to 24 percent, 7–15–74; No. 1903, Santa Fe, N.M., salesclerk, stock clerk, office clerk, 14 to 24 percent, 7–31–74.

Each certificate has been issued upon the representations of the employer, which, among other things, were that employment of full-time students at special minimum rates is necessary to prevent curtailment of opportunities for employment, and the hiring of full-time students at special minimum rates will not create a substantial probability of reducing the full-time employment opportunities of persons other than those employed under a certificate. The certificate may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof on or before September 26, 1973.

Signed at Washington, D.C. this 20th day of August 1973.

DONALD T. CRUMBACK,
Authorized Representative of the Administrator.

NATIONAL ADVISORY COUNCIL FOR DRUG ABUSE PREVENTION

EVALUATION OF DRUG ABUSE PREVENTION PROGRAMS

Notice of Meeting

Pursuant to Public Law 92–463, notice is hereby given of a meeting of the National Advisory Council for Drug Abuse Prevention on September 13 and 14, 1973, at the Indianapolis Museum of Art, Indianapolis, Indiana. The principal purposes of the meeting will be to continue development of projects on evaluation of drug abuse prevention programs and jobs for ex-addicts; to review Council input to Drug Abuse Prevention Week, to the FY 75 Federal Budget and to the revised Federal Drug Strategy document; and to further explore polydrug abuse.

This meeting is open to the public. Any member of the public wishing to attend the Council, V. Rodger Digilio, at 726 Jackson Place NW., Washington, D.C. 20506, telephone (202) 456–6772.

V. RODGER DIGILIO,
Executive Director.

AUGUST 21, 1973.

RAILROAD RETIREMENT BOARD

RAILROAD RETIREMENT SUPPLEMENTAL ANNUITY PROGRAM

Determination of Quarterly Rate of Excise Tax

In accordance with directions in section 3221(c) of the Railroad Retirement Tax Act (26 U.S.C. § 3221(c)) as amended by section 5(a) of Public Law 91–215, the Railroad Retirement Board has determined that the excise tax imposed by such section 3221(c) on every employer, with respect to having individuals in his employ, for each man-hour for which compensation is paid by such employer for services rendered to him during the quarter beginning October 1, 1973, shall be at the rate of seven and one-half cents.

Dated: August 20, 1973.

By Authority of the Board.

[SEAL] R. F. BUTLER,
Secretary of the Board.

[FR Doc.73–18053 Filed 8–24–73;8:45 am]

INTERSTATE COMMERCE COMMISSION

[I.C.C. Order 109; Rev. S.O. 994]

ANN ARBOR RAILROAD CO.

Rerouting or Diversion of Traffic

In the opinion of Lewis R. Teeple, Agent, The Ann Arbor Railroad Company is unable to transport traffic over its car ferry between Frankfort, Michigan, and Manitowoc, Wisconsin, because of a broken crankshaft on its boat Arthur K. Atkinson.

It is ordered, That:

(a) The Ann Arbor Railroad Company being unable to transport traffic over its car ferry between Frankfort, Michigan, and Manitowoc, Wisconsin, because of a broken crankshaft on its boat Arthur K. Atkinson, that line is hereby authorized to reroute or divert such traffic via any available route to expedite the movement. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) *Concurrence of receiving roads to be obtained.* The railroad desiring to divert or reroute traffic under this order shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted, before the rerouting or diversion is ordered.

(c) *Notification to shippers.* Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order

(d) Inasmuch as the diversion or rerouting of traffic is deemed to be due to carrier disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic. Divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) *Effective date.* This order shall become effective at 9:00 a.m., August 17, 1973.

(g) *Expiration date.* This order shall expire at 11:59 p.m., August 24, 1973, unless otherwise modified, changed, or suspended.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., August 17, 1973.

INTERSTATE COMMERCE COMMISSION,
[SEAL] LEWIS R. TEEPLE,
Agent.

[Notice 341]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before September 17, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–74506. By order of August 20, 1973, the Motor Carrier Board approved the transfer of a portion of the operating rights in Certificate No. MC–21135 to Rico Transportation Co., Inc., South River, N.J., issued to M. L. Kester Transportation, Inc., Phila., Pa., authorizing the transportation of: General commodities, usual exceptions, between points in Philadelphia, Pa.—Alan Kahn, Attorney, 1920 Two Penn Center Plaza, Phila., Pa. 19102; Robert B. Pepper, Practitioner, 168 Woodbridge Ave., Highland Park, N.J. 08904.

No. MC–FC–74507. By order of August 20, 1973, the Motor Carrier Board approved the transfer to Donahue Trucking Co., Inc., Milwaukee, Wis., of Certificate No. MC–134167 issued to Mary Agnes Donahue, d.b.a. Konahue Trucking Co., Butler, Wis., authorizing the transportation of: Hospital materials and supplies, between Milwaukee, Wis., on the one hand, and, on the other, Jackson, Ocomnomowoc, and Lake Geneva, Wis.—Martin J. Leavitt, Attorney, 22375 Hagerty Road, Northville, Mich. 48167.

No. MC–FC–74630. By order of August 20, 1973, the Motor Carrier Board approved the transfer to Jerome R. Coughran, doing business as Holton Truck Line, Holton, Kansas, of Certificate of Registration No. MC–9735 (Sub-No. 2), issued on June 10, 1964, to Cecil W. Leep, doing business as Holton Truck Line, Holton, Kansas, evidencing the authority to perform a transportation service in interstate or foreign commerce corresponding in scope to the intrastate authority granted in certificates issued in Dockets Nos. 8,375 M and 35,669 M by The State Corporation Commission of the State of Kansas—Mr. James E. Parmiter, Attorney at Law, 101 West Fourth Street, Holton, Kansas 66436.

No. MC–FC–74636. By order of August 16, 1973, the Motor Carrier Board approved the transfer to Clarence C. Hatcher and Richard L. Hatcher, a partnership, doing business as C. C. and R. L. Hatcher, Alsey, Ill., of the operating rights in Permit No. MC–128351 (Sub-No. 2) issued June 14, 1967, to William Ross, Winchester, Ill., authorizing the transportation of brick, tile, clay products, and refractory cements between Alsey, Ill., on the one hand, and, on the other, points in Iowa, Indiana, Kentucky, Michigan, Missouri, Nebraska and Wisconsin—Robert T. Lawley, 300 Reisch

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 17, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

V 38-165 AUG 27 73 XUM

[Ex Parte 241; Rule 19, Exemption 47]

SEABOARD COAST LINE RAILROAD CO.

Exemption Under Mandatory Car Service Rules

It appearing, that there is an emergency movement of military impedimenta from Fort Stewart, Georgia, to Fort Hood, Texas; that the originating carrier has insufficient system cars of suitable dimensions immediately available for loading with this traffic; that sufficient cars of other ownerships having suitable dimensions are available on the lines of the originating carrier and on its connections; and that compliance with Car Service Rules 1 and 2 would prevent the timely assembly and use of such cars.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, the Car Service Division of the Association of American Railroads is authorized to direct the movement to the Seaboard Coast Line Railroad Company, the railroads designated by the Car Service Division are authorized to move to, and the Seaboard Coast Line Railroad Company is authorized to accept, assemble, and load not to exceed fifty-three (53) empty cars with military impedimenta from Fort Stewart, Georgia, to Fort Hood, Texas, regardless of the provisions of Car Service Rules 1(b), 2(c), 2(d), or 2(e).

Effective August 20, 1973.

Expires August 31, 1973.

Issued at Washington, D.C., August 20, 1973.

INTERSTATE COMMERCE COMMISSION,
[SEAL] LEWIS R. TEEPLE,
Agent.

AUTOMOBILE FUEL ECONOMY

Voluntary Labeling Program

V 38 - 165 AUG 27 73 XUM

ENVIRONMENTAL PROTECTION AGENCY

AUTOMOBILE FUEL ECONOMY

Voluntary Labeling Program

Notice is hereby given that the Environmental Protection Agency is issuing procedures for a voluntary fuel economy labeling program for automobiles.

In his Energy Message to Congress on April 18, 1973, President Nixon assigned the Environmental Protection Agency, in cooperation with the Department of Commerce and the Council on Environmental Quality, the responsibility to develop a program for informing the public as to the fuel economy characteristics of automobiles. The program calls for voluntary support from automobile manufacturers in labeling each vehicle for fuel economy and providing other useful information in the dealer showroom. This notice sets forth the procedures for participation in the program.

The procedures set forth in this notice shall govern the program. However, with a view toward possible revision, interested persons are invited to express their views on the program by submitting written comments in triplicate to the Director, Technical Support and Special Projects, Office of Air and Water Programs, Room 737, East Tower, U.S. Environmental Protection Agency, Washington, D.C. 20460. The Environmental Protection Agency is particularly interested in receiving comments on the effectiveness of the recommended vehicle label.

Comments received will be available for public inspection and copying at the Freedom of Information Center, Room 227 West Tower, Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460, during normal working hours.

Purpose and goals.—The purpose of this notice is to establish procedures for the Agency's program for fuel economy labeling of new automobiles. This program is being implemented in response to the direction of President Nixon in his 1973 Energy Message, that the Environmental Protection Agency, in cooperation with the Department of Commerce and the Council on Environmental Quality, develop a voluntary labeling program applicable to automobiles.

The fundamental objective of the program is to reduce energy usage in the transportation sector. The following goals are intermediate to this principal aim: (1) increase public awareness of factors which influence fuel economy; (2) influence consumers to purchase vehicles with good fuel economy; and (3) influence manufacturers to produce vehicles with improved fuel economy.

Definitions.—(a) As used herein, all terms not defined below shall have the meaning given them in the Clean Air Act or in 40 CFR Part 85, Control of Air Pollution from New Motor Vehicles and New Motor Vehicle Engines.

(b) "Fuel Economy" means the miles a motor vehicle can be driven on a specified driving cycle per gallon of fuel.

(c) "Federal Emission Test Procedure" refers to the dynamometer driving schedule, dynamometer procedure, and sampling and analytical procedures described in 40 CFR Part 85 for the applicable model years.

(d) "Durability Driving Schedule" means the mileage accumulation procedure specified in Appendix IV to 40 CFR Part 85.

(e) "Vehicle Configuration" means a unique combination of engine configuration, inertia weight, transmission type and axle ratio.

(f) "Fuel Economy Data Car" means a vehicle which is selected from a specific vehicle configuration for fuel economy testing for the purpose of this program.

Scope of the program. Automobiles which will be included in the fuel economy labeling program are light duty gasoline fuel vehicles, light duty diesel vehicles, and light duty trucks. Additional types of motor vehicles may be included in the program by the Administrator at a later date. Automobiles which are manufactured to be sold outside the United States are not included in this program.

Program provisions—A. *General.*—The program employs two complementary mechanisms for disseminating vehicle fuel economy data to the consumer: an EPA sponsored public information program and a manufacturers voluntary vehicle labeling program. The public information program is addressed in the section entitled "Consumer Education".

The manufacturers' voluntary program will involve both individual vehicle labels and dealer showroom information. Each participating manufacturer will place a sticker on each automobile. In the 1974 model year, manufacturers may choose whether to label their vehicles with specific or comparative information. Data illustrating the effects of optional equipment on fuel economy, the variation in fuel costs with different vehicles and options, and other explanatory information will be available for display in the dealer showroom.

B. *Schedule.* All aspects of the labeling program will be implemented during the 1974 automotive model year. Initially EPA will bear the primary responsibility for data collection, data dissemination, and program operation. However, there will be a transference of this basic program responsibility to the automobile manufacturers in subsequent years. At program maturity the EPA function will be in certifying test results, performing confirmatory tests, and compiling comparative data on all vehicles tested.

C. *The fuel economy label.*—All manufacturers who participate in the labeling program must provide prospective purchasers with written information describing the fuel economy of their vehicles. This information will be presented on a purchaser-removable label in the form indicated below. The label must be of a reasonable size and must be prominently displayed on the same window as the price sticker. Any alternative location must be approved by EPA. The fuel economy sticker will contain a table which will group automobiles into weight categories and show comparative fuel economy and fuel cost for each category. The format for this label is illustrated in Figure 1. The data necessary for this label will be provided to the participating manufacturers by EPA at the beginning of the model year.

The miles per gallon averages for a given weight category listed on the comparative table will be calculated as a harmonic average of the fuel economy data from emissions certification vehicles of the applicable model year, which are tested by EPA. These miles per gallon averages will serve as a basis for calculation of the comparative fuel costs. The miles driven and per gallon fuel costs used in this calculation will be noted on the label.

A participating manufacturer may also elect to present specific fuel economy results on his vehicle. In addition to comparative data this fuel economy sticker will contain EPA-approved information describing the fuel economy representative of the specific vehicle for the test procedure specified below. The format for this label is illustrated in Figure 2. It is intended that all labels include vehicle-specific information after the 1974 model year.

FIGURE 1

ILLUSTRATIVE LABEL FOR 1974 VEHICLES--COMPARATIVE INFORMATION

The fuel economy values listed below were determined from tests conducted by the U.S. Environmental Protection Agency.

The table shows miles per gallon (MPG) performance and fuel costs for vehicles in different weight categories. These results were developed using a test procedure which simulates commuter-type driving. They are not indicative of highway-type driving.

The fuel economy numbers for the weight category in which this vehicle falls are circled.

Vehicle Test Weight (lbs.)	Range of MPG	Average MPG	Fuel Costs (10,000 mi. and 40¢/gal.)
2,000	22-27	25	$160
2,250	19-23	21	$190
2,500	18-23	20	$200
2,750	14-21	18	$220
3,000	13-18	15.5	$260
3,500	10-18	14	$285
4,000	8-13	11	$365
4,500	8-14	10	$400
5,000	8-11	9.5	$420
5,500	7-10	8.5	$470

The actual fuel economy of this vehicle will depend on factors such as individual driving habits, the maintenance conditions of the vehicle, and the optional equipment chosen. Additional fuel economy information is available from your dealer and from the U.S. Environmental Protection Agency, Washington, D.C.

Vehicle-specific information will be derived from either EPA certification tests or additional manufacturer testing. All testing must be carried out in accordance with procedures set forth in this notice. A manufacturer will not be held liable, under warranty provisions, for information presented on the fuel economy label.

D. *Test procedure.*—The Environmental Protection Agency and the participating manufacturers shall follow a specified test procedure in determining fuel economy for the purpose of the program. For the 1974 model year the 1972 Federal Emissions Test Procedure shall be used. Each vehicle must be driven 4,000 miles according to the Durability Driving Schedule and tested according to the Federal Emissions Test Procedure at that point as set out in 40 CFR 85.073-7. The expression used to calculate fuel economy based upon analyses of the exhaust gas derived from the 1972 Federal Test Procedure is as follows:

$$\text{Fuel economy} = \frac{2423}{(0.866)(\text{HC}) + (0.429)(\text{CO}) + (0.273)(\text{CO}_2)}$$

V38-165 AUG 27 73 XUM

FIGURE 2

ILLUSTRATIVE LABEL FOR 1974 VEHICLES--SPECIFIC INFORMATION

Based on the results of tests conducted or certified by the U.S. Environmental Protection Agency, the fuel consumption of this vehicle is estimated to be:

13.5 Miles Per Gallon

on an EPA test cycle which simulates commuter-type driving.

The table below shows miles per gallon (MPG) performance and fuel costs for vehicles in different weight categories. The test weight and the measured fuel economy of this vehicle are circled. These figures are not indicative of performance during highway driving.

Vehicle Test Weight (lbs.)	Range of MPG	Average MPG	Fuel Costs (10,000 mi. & 40¢/gal.)
2,000	22-27	25	$160
2,250	19-23	21	$190
2,500	18-23	20	$200
2,750	14-21	18	$220
3,000 3100	13-18	15.5 13.5	$260 $295
3,500	10-18	14	$285
4,000	8-13	11	$365
4,500	8-14	10	$400
5,000	8-11	9.5	$420
5,500	7-10	8.5	$470

The actual fuel economy of this vehicle will depend on factors such as individual driving habits, the maintenance condition of the vehicle, and the optional equipment chosen. Additional fuel economy information is available from your dealer and from the U.S. Environmental Protection Agency, Washington, D.C.

where

Fuel economy = Fuel economy in miles per gallon.
HC = Hydrocarbon mass emissions expressed in grams per mile.
CO = Carbon monoxide mass emissions expressed in grams per mile.
CO_2 = Carbon dioxide mass emissions expressed in grams per mile.

E. *Test vehicle requirements.*—The EPA records fuel economy measurements made on all emission data vehicles tested at its facility. The manufacturers may use these fuel economy test results to label vehicles of the applicable vehicle configuration. If two vehicles of the same vehicle configuration are tested by EPA, the applicable fuel economy figure shall be the harmonic average of the results for the vehicles involved.

In order that data can be made available for vehicle configurations other than those represented by vehicles tested by EPA, participating manufacturers may elect to test fuel economy data cars representative of other vehicle configurations. Fuel economy results derived from tests on a fuel economy data car will be applicable only to production vehicles of the same vehicle configuration as that represented by the fuel economy data car. However, in conducting these tests, a fuel economy data car which has accumulated at least 4,000 miles but not more than 10,000 miles may, for example, be used to represent other vehicle configurations with the same engine configuration and same transmission type by changing axle ratios and varying inertia weight loadings.

For the purpose of mileage accumulation, emissions testing, and fuel economy testing, manufacturers' fuel economy data cars will be treated to the extent possible, as emission data cars in 40 CFR Part 85. Each configuration of a fuel economy data car must meet the same emission requirements as an emission data vehicle with the same engine/system combination at the time of the fuel economy test, taking into account the deterioration factor established for that engine family as per 40 CFR 85.074-28. Fuel economy data will not be accepted by EPA for the purposes of this program unless accompanying emission data demonstrates that the test vehicle meets applicable emission standards.

F. *Certification of vehicle specific fuel economy results.*—In those situations where a manufacturer elects to provide vehicle specific fuel economy results, such results must be certified by the EPA prior to use on a vehicle label. The information required to be submitted in an application for such certification is specified below. All information should be submitted to the Division of Certification and Surveillance, Ann Arbor, Michigan.

(1) All information furnished for emission data vehicles where not already submitted to EPA for the applicable model year.

(2) Fuel economy and emissions results as measured on the specified test procedure whether derived from EPA emission certification tests or manufacturer conducted tests.

(3) A description of the tests performed and calculations made in order to ascertain compliance with specified procedures.

(4) A listing of all vehicles to which each separate fuel economy test result is applicable.

(5) A statement that the fuel economy data cars with respect to which data are submitted have been tested in accordance with applicable test procedures, that they are representative of the vehicle configuration listed, and that they are in compliance with applicable Federal emission standards.

The EPA will examine fuel economy data submitted as they compare to data on vehicles in the same engine family or of the same inertia weight. The fuel economy results will be examined by the EPA using statistical methods. If in the Administrator's judgment the data are accurate, obtained in accordance with required procedures, and representative of the particular vehicle, the test results will be certified by the EPA and will be available for use describing all vehicles of that vehicle configuration. If the data fail to meet the above criteria, the EPA reserves the right to reject the data or require a confirmatory test.

The EPA fuel economy data certification shall extend for the duration of the model year. In the event of running changes, where such changes require the performance of an emission test, the fuel economy results from such emissions test shall be used on vehicles incorporating that running change. Where running changes are made for which EPA does not require an emissions test, the fuel economy results originally attained shall continue to apply. In a situation where a manufacturer feels these fuel economy results are not representative of the vehicle's fuel economy after the running change he may carry out testing at his own facility and submit the results for EPA's approval.

G. *Provisions for retest.*—A manufacturer may request that EPA retest a vehicle only if the first test is invalid under the provisions of 40 CFR Part 85 for the purpose of emissions performance. If a manufacturer feels the fuel economy results derived from a valid emissions test are not representative he may conduct a retest at his own facility. The results of this retest are subject to the same review and approval process as is specified above for testing of vehicles which EPA does not test. If the fuel economy results meet the criteria outlined, these results will be used in lieu of previous EPA results. If the data do not meet these requirements, the EPA fuel economy results will be utilized. EPA reserves the right to do confirmatory testing on these retests.

H. *Showroom information.*—Participating manufacturers will be asked to encourage their dealers to make certain information available in their dealer showrooms. This information will include but will not be limited to the following:

(1) A description of the fuel economy labeling program;

(2) A general discussion of fuel economy and the factors that influence fuel economy;

(3) A characterization of the effects of optional equipment on vehicle fuel economy;

(4) A calculation of comparative fuel costs for vehicles with different fuel economies;

(5) An explanation of the fuel economy test procedure and an interpretation of results therefrom; and

(6) A listing of sources for additional, more detailed information.

EPA will provide a pamphlet for the showroom in the initial year of the program. Any showroom information on fuel economy should be conveniently located and accessible to consumers.

I. *Consumer education.*—The Environmental Protection Agency, in cooperation with interested government agencies and other public, private, and industry groups, will initiate a program to inform consumers about the labeling program and the fuel economy issue in general.

J. *Participation by manufacturers.*—(1) *Voluntary Participation.*—Manufacturers desiring to participate in the fuel economy program should notify the Administrator of the Environmental Protection Agency. This notification should state that the manufacturer is aware of the responsibilities of participation and will abide by all the conditions specified.

(2) *Conditions for participation.*—The conditions for participation of a manufacturer in the program include the following:

(a) The manufacturer will arrange to display a fuel economy label on the same window as the price sticker or in another location approved by EPA, (See Program Provisions, Section C) on every light duty vehicle and light duty truck which is manufactured by him for sale in the United States.

(b) The manufacturer will include only EPA-approved test results on the vehicle label.

(c) The manufacturer will encourage his dealers to make the appropriate information available in each dealer showroom.

(d) In performing his own testing for the purposes of this program each manufacturer will use only the specified test procedure and will submit both emissions and fuel economy results to EPA for certification.

(e) The manufacturer agrees, at his expense, to comply with any reasonable request of the Environmental Protection Agency to conduct confirmatory tests on a vehicle for which he is submitting fuel economy data. Alternatively, the manufacturer may withdraw the test results from consideration.

K. *Termination of participation.*—(1) *EPA termination.*—The Environmental Protection Agency, upon finding that the manufacturer is not complying with the conditions of participation, may terminate the participation of any manufacturer. The manufacturer will first be given an opportunity to show cause why participation should not be terminated.

(2) *Manufacturer termination.* A manufacturer may terminate his participation and responsibilities under this program at any time by giving written notice to the Administrator.

L. *Amendment or revision of voluntary fuel economy labeling program.*—The Administrator will amend or revise any section above as the need arises. Such amendment or revisions shall take into consideration the automobile manufacturers' lead time which is required to implement the revisions.

Dated August 17, 1973.

JOHN QUARLES,
Acting Administrator.

PART I

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

PHASE IV—CLC amends pre-notification and reporting requirements of pay adjustments affecting low wage employees in food industry; effective 8–28–73 22961

WILDLIFE—Interior Department proposals to control airborne hunting; comments by 10–19–73 22959

ADP PROGRAMS AND SYSTEMS—Commerce Department proposes Federal information processing standards; comments by 10–29–73 22991

LIFESAVING EQUIPMENT—CG proposes to amend buoyant vest specification; comments by 9–28–73 22980

AUTO SAFETY—DoT amends requirements for seat belt assemblies; effective 8–28–73 22958

SMALL BUSINESS ASSISTANCE—SBA revises loan policy to State and local development companies; comments by 9–17–73 22983

DRUG ABUSE PREVENTION—HEW proposes regulations governing formula grants to States; comments by 9–27–73 22995

VETERANS BENEFITS—VA proposes to exclude from income payments, compensation received from Volunteer programs; comments by 9–27–73 22986

VIETNAM VETERANS EMPLOYMENT—Treasury Department proposes to revise depository contract provisions; comments by 9–27–73 22963

NEW DRUGS—
FDA proposes withdrawal of approval of certain drugs (3 documents) 22994, 22996
FDA reevaluates bethanechal chloride 22993

NEW ANIMAL DRUGS—FDA approves use of solutions for treatment of dogs and cats; effective 8–28–73 22958

(Continued inside)

PART II:

TELECOMMUNICATIONS SERVICES—Labor Dept. proposes safety and health standards; comments by 10–12–73 23037

PART III:

NATIONAL DEFENSE STUDENT LOAN PROGRAM—HEW lists school having high concentration of students from low income families for 1972–1974 school years 23171

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Department of Agriculture

SUBTITLE A—OFFICE OF THE SECRETARY OF AGRICULTURE

PART 2—DELEGATIONS OF AUTHORITY BY THE SECRETARY OF AGRICULTURE AND GENERAL OFFICERS OF THE DEPARTMENT

Administration of Agreements Regarding the Handling of Wool, Mohair, Sheep, Goats and Products

Part 2, Subtitle A of Title 7, Code of Federal Regulations is amended to transfer the authority, from the Assistant Secretary for International Affairs and Commodity Programs to the Assistant Secretary for Marketing and Consumer Services, for administering agreements under section 708 of the National Wool Act of 1954, as amended (7 U.S.C. 1787), between the Secretary and marketing cooperatives, trade associations, and others engaged or whose members are engaged in the handling of wool, mohair, sheep, or goats or the products thereof, and to redelegate such authority from the Assistant Secretary for Marketing and Consumer Services to the Administrator, Agricultural Marketing Service, as follows:

Subpart C—Delegations of Authority to the Under Secretary, Assistant Secretaries and Directors

§ 2.17 Delegations of authority to the Assistant Secretary for Marketing and Consumer Services.

• • • • •

(a) • • •

(3) • • •

(xxix) Administer section 708 of the National Wool Act of 1954, as amended (7 U.S.C. 1787), except as delegated to the Assistant Secretary for International Affairs and Commodity Programs in § 2.21(a)(30).

• • • • •

§ 2.21 Delegations of authority to the Assistant Secretary for International Affairs and Commodity Programs.

• • • • •

(a) • • •

(30) Under the authority of Section 708 of the National Wool Act of 1954, as amended (7 U.S.C. 1787), conduct producer referendums, withhold funds, from payments made to producers under Section 704 of that Act (7 U.S.C. 1783), for promotion and advertising, and transfer such funds to the person or agency designated by the Assistant Secretary for Marketing and Consumer Services.

• • • • •

§ 2.22 Reservations of authority.

(a) • • •

(4) [Deleted]

• • • • •

Subpart F—Delegations of Authority by the Assistant Secretary for Marketing and Consumer Services

§ 2.50 Administrator, Agricultural Marketing Service.

(a) • • •

(3) • • •

(xxix) Administer section 708 of the National Wool Act of 1954, as amended (7 U.S.C. 1787), except as specified in § 2.21(a)(30).

• • • • •

Subpart H—Delegations of Authority by the Assistant Secretary for International Affairs and Commodity Programs

§ 2.65 Administrator, Agricultural Stabilization and Conservation Service.

(a) • • •

(30) Under the authority of section 708 of the National Wool Act of 1954, as amended (7 U.S.C. 1787), conduct producer referendums, withhold funds from payments, made to producers under section 704 of that Act (7 U.S.C. 1783), for advertising and promotion, and transfer such funs to the person or agency designated by the Assistant Secretary for Marketing and Consumer Services.

• • • • •

((5 U.S.C. 301) and Reorganization Plan No. 2 of 1953)

Effective date.—August 28, 1973.

Signed at Washington, D.C. on August 20, 1973.

EARL L. BUTZ,
Secretary of Agriculture.

JAMES H. LAKE,
Acting Assistant Secretary for Marketing and Consumer Services.

RICHARD E. BELL,
Acting Assistant Secretary for International Affairs and Commodity Programs.

Title 12—Banks and Banking

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

[No. 73-1160]

SUBCHAPTER D—FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

PART 561—DEFINITIONS

PART 563—OPERATIONS

Insurance Premiums

AUGUST 15, 1973.

Amendments to section 404 of the National Housing Act, as amended (12 U.S.C. 1727) have been adopted by Congress and signed into law by the President (Pub. L. No. 93-100, section 6). Said section 404 governs the payment of insurance premiums to the Federal Savings and Loan Insurance Corporation by savings and loan associations and other savings institutions whose accounts are insured by the Corporation pursuant to section 403 of the National Housing Act, as amended (12 U.S.C. 1726). A major objective of these amendments is to gradually eliminate the Corporation's secondary reserve. Two techniques are used to accomplish this objective. First, further prepayments of premiums by insured institutions to the secondary reserve are discontinued. Second, the amendments require the Board, under certain conditions, to authorize that a portion of the regular annual insurance premium of each insured institution for a given year be paid from the pro rata share of such institution, if any, in the secondary reserve. The Board is given the authority to determine such portion provided that such portion is between 30 percent and 70 percent of the premium due from each insured institution. Both the discontinuance of premium prepayments and the authorization concerning the regular annual insurance premiums necessitate that the Federal Home Loan Bank Board amend several sections of Parts 561 and 563 of the rules and regulations for Insurance of Accounts (12 CFR Parts 561, 563).

Section 561.9 is amended by revoking the first sentence thereof which defines the term "premium prepayment".

Section 563.15 sets forth the conditions under which insured institutions shall pay their regular annual insurance premiums to the Corporation. Paragraph (b) of said § 563.15 states that no insured institution shall be required to pay an annual insurance premium with respect to its premium year commencing on the May 1 next succeeding any December 31 as of the close of which the Corporation's primary reserve equalled or exceeded the percentage set forth in paragraph (2) of subsection (b) of section 404 of the National Housing Act, as amended. Paragraph (b) of said § 563.15 is amended by inserting the percentage mentioned in said paragraph (2) of subsection (b) of section 404 of the National Housing Act, as amended, (2 percent) and by redesignating said paragraph (b) as subparagraph (1) thereof. Paragraph (b) of said § 563.15 is further amended by adding a new subparagraph (2) thereto. Said new subparagraph (2) states that each insured institution's pro rata share of the Corporation's secondary reserve shall be used, to the extent available, to discharge a percentage, to be determined by the Corporation, of such institution's regular

V 38 ■ 166 AUG 28 73 XUM

annual insurance premium for its premium year beginning after the May 1 next succeeding any December 31 (beginning with December 31, 1972) as of the close of which (1) the aggregate of the Corporation's primary and secondary reserves equalled or exceeded 1¼ percent of the total amount of all accounts of insured members of all insured institutions, and (2) the primary reserve did not equal or exceed 2 percent of such base. Said new subparagraph (2) also states that the percentage to be determined by the Corporation shall be the same for all insured institutions and shall be not more than 70 percent and not less than 30 percent of each insured institution's premium obligation.

Section 563.16–1 sets forth the manner in which premium prepayments must be made. Said § 563.16–1 is revoked in its entirety. The first sentence of § 563.16–2 requires that premium prepayments be credited to the secondary reserve. Said § 563.16–2 is amended by revoking the first sentence thereof.

In addition to the above described amendments necessitated by the amendments to section 404, the Board also considers it desirable to amend paragraph (a) of § 563.15 and to further amend § 563.16–2 in order to clarify existing regulatory provisions and to set forth the Board's practices with respect to particular situations.

An introductory clause is added to paragraph (a) of said § 563.15 to make it clear that the provisions set forth in amended paragraph (b) of that section are exceptions to said paragraph (a). The first sentence of said paragraph (a) presently provides that each institution whose application for insurance is approved by the Corporation shall pay a premium charge for such insurance at the rate fixed by statute. Said paragraph (a) is amended by setting forth the statutory rate presently referred to. Said rate is one-twelfth of one percent of the total amount of all accounts of the insured members of such institution. The present second and third sentences of said paragraph (a) are combined; the term "anniversary year" is also substituted for the phrase "at the beginning of each insurance year." The first sentence of said paragraph (a) presently provides that an institution's initial premium charge shall be determined from "the latest report of the insured institution filed with the Corporation." The fourth sentence thereof now provides that all annual premiums following the above mentioned initial premium shall be determined from "the latest report of the insured institution filed with the Corporation or, if the institution has failed to file such report within 60 days prior to any date upon which its annual premium becomes due, from the latest report of the institution made or published pursuant to the requirements of law or regulations." These two provisions concerning the basis for determining the premium payable by an insured institution are combined in amended paragraph (a) into the following single provision: "[t]he amount of each premium to be paid by an insured institution shall be determined on the basis of the most recent report filed by such institution with the Corporation, except that any insured institution which has not filed such a report within 60 days of any premium anniversary date shall provide more recent information if requested to do so by the Corporation." All of the above mentioned amendments are intended to clarify said paragraph (a) of § 563.15.

As was previously mentioned, the deletion of the first sentence of § 563.16–2 was necessitated by the recent amendments to section 404 of the National Housing Act, as amended. Subparagraph (1) of new paragraph (a) of said § 563.16–2, which paragraph is captioned "Annual credit to secondary reserve," contains the amended versions of the present second and third sentences of said § 563.16–2; however, the order of said sentences is changed. The present third sentence provides that the Corporation shall credit a return to the secondary reserve as of the close of each calendar year; such return shall be "as determined by the Corporation in accordance with subsection (e) of section 404 of the National Housing Act, as amended." Said sentence, which is amended for the purpose of clarification by incorporating therein the text of said subsection (e), now provides that the Corporation's annual credit to the secondary reserve shall be "as determined by the Corporation, at a rate equal to the average annual rate of return to the Corporation during the year ending at the close of November 30 of such calendar year, as determined by the Corporation, on investments held by the Corporation in obligations of, or guaranteed as to principal and interest by, the United States." (This provision of subsection (e) is unchanged by the amendments to section 404.) The present second sentence of said § 563.16–2 is amended by adding an additional provision thereto. Said provision states that the Corporation shall apportion its annual credit to the secondary reserve among all insured institutions on the basis of the average of the daily balances of their respective pro rata shares of the secondary reserve during the calendar year just closed. It has been the Board's practice to apportion the annual credit to the secondary reserve on this basis.

Subsection (e) of section 404 of the National Housing Act, as amended (the substance of which is unchanged by the instant statutory amendments) requires the Corporation to credit a return to the secondary reserve "as of the close of each calendar year." However, the amendments to said section 404 intend that insured institutions' pro rata shares of the secondary reserve will decrease and eventually be exhausted due to the use of such institutions' pro rata shares to discharge a percentage of their regular annual insurance premium obligations. Therefore, the pro rata share of a given insured institution will be exhausted during some future calendar year. Subparagraph (2) of new paragraph (a) of § 563.16–2, which subparagraph is captioned "Exhaustion of pro rata shares of secondary reserve," provides that such an institution, whose accounts are still insured by the Corporation as of the close of the calendar year in which its pro rata share of the secondary reserve is exhausted, is entitled to share in the apportionment of the secondary reserve credit at the end of such calendar year for the period between the date on which such insured institution's pro rata share was exhausted and the previous December 31. An insured institution entitled to a credit pursuant to said subparagraph (2) will be paid such credit in cash as soon as possible after the amount of such credit is determined by the Corporation. This provision is consistent with the intent of the amendments to section 404 to eliminate the secondary reserve and the expectation that insured institutions will exhaust their pro rata shares of such reserve during future calendar years.

Subparagraph (3) of new paragraph (a) of § 563.16–2, which subparagraph is captioned "Termination of insurance," provides that an institution will not be entitled to share in the calendar year end apportionment of this required annual credit, pursuant to subparagraph (1) of said paragraph (a), for any calendar year during which (1) such institution's insurance is terminated prior to the end of such calendar year, and (2) such institution's pro rata share of the secondary reserve is paid out of such reserve. The Board has consistently followed this procedure with respect to terminating institutions since Congress created the secondary reserve in 1961.

The last sentence of present § 563.16–2 is redesignated as paragraph (b) of said section.

Accordingly, the Federal Home Loan Bank Board hereby amends said Parts 561 and 563 by revising §§ 561.9, 563.15 and 563.16–2 thereof to read as set forth below and by revoking § 563.16–1 thereof, effective August 28, 1973.

Since all of the amendments to §§ 561.9, 563.15, 563.16–1 and 563.16–2 are either required by the amendments to section 404 of the National Housing Act, as amended, are for the purpose of clarification, or set forth existing Board policy in regulatory form, the Board hereby finds that notice and public procedure thereon are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553 (b). The Board hereby finds that publication of said amendments for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date thereof is also unnecessary for the same reasons and the Board hereby provides that said amendments shall become effective as hereinbefore set forth.

§ 561.9 Premium.

The term "premium" means the premium provided for by subsection (b) of section 404 of the National Housing Act, as amended. It does not includes or refer to additional premiums provided for by subsection (c) of said section 404.

§ 563.15 Insurance premiums.

(a) *General provisions.*—Except as provided in paragraph (b) of this section, each institution whose application for insurance is approved by the Corporation shall pay to the Corporation a premium charge for such insurance equal to one-twelfth of one percent of the total amount of all accounts of the insured members of such institution. Each insured institution shall pay such premium at the time its certificate of insurance is issued by the Corporation and thereafter annually on the anniversary of the issuance of such certificate. The amount of each premium to be paid by an insured institution shall be determined on the basis of the most recent report filed by such institution with the Corporation, except that any insured institution which has not filed such a report within 60 days of any premium anniversary date shall provide more recent information if requested to do so by the Corporation. Any amount contained in any such report covering interest accrued, but not due and payable, or dividends declared but not due and distributable, upon an account of an insured member will not be inluded by the Corporation in the computation of premiums.

(b) *Exceptions.* (1) *Primary reserve equals or exceeds 2 percent.*—If, at the close of any December 31, the primary reserve of the Corporation equals or exceeds 2 percent of the total amount of all accounts of insured members of all insured institutions as of such close, no premium required to be paid by paragraph (a) of this section shall be payable by any insured institution with respect to its premium year beginning during the year commencing on the May 1 next succeeding such December 31. The foregoing exception shall not be applicable to any insured institution with respect to any of the twenty premium years beginning with the premium year commencing on the date on which such insured institution was issued a certificate of insurance by the Corporation.

(2) *Primary reserve less than 2 percent.*—If, at the close of December 31, 1972 or any subsequent December 31, the aggregate of the primary reserve of the Corporation (established pursuant to section 404(a)(1) of the National Housing Act, as amended) and its secondary reserve (established pursuant to the former provisions of sections 404(c) and 404(d)(1) of that Act) equals or exceeds 1¼ percent of the total amount of all accounts of insured members of all insured institutions but the primary reserve does not equal or exceed 2 percent of such base, each insured institution's pro rata share of the secondary reserve shall, during the year beginning with the May 1 next succeeding such close, be used, to the extent available, to discharge a percentage, to be determined by the Corporation, of such institution's obligation for its premium under paragraph (a) of this section for the premium year beginning in such year. The percentage to be determined by the Corporation referred to in the next preceding sentence shall be the same for all insured institutions and shall not be more than 70 percent nor less than 30 percent of each insured institution's premium obligation.

§ 563.16–2 Secondary reserve.

(a) *Annual credit to secondary reserve.* (1) *General provisions.*—The Corporation shall credit to the secondary reserve, as of the close of each calendar year, a return on the outstanding balances of the secondary reserve, as determined by the Corporation, at a rate equal to the average annual rate of return to the Corporation during the year ending at the close of November 30 of such calendar year, as determined by the Corporation, on investments held by the Corporation in obligations of, or guaranteed as to principal and interest by the United States. The Corporation shall maintain records showing each insured institution's pro rata share of the secondary reserve and shall apportion the credit mentioned in the next previous sentence among all insured institutions on the basis of the average of the daily balances of their respective pro rata shares of the secondary reserve during the calendar year just closed, except as otherwise provided in this section.

(2) *Exhaustion of pro rata shares of secondary reserve.*—In the event that the remainder of an insured institution's pro rata share of the secondary reserve is used to discharge a percentage of such insured institution's annual insurance premium pursuant to § 563.15(b)(2), such insured institution shall be entitled to share in the credit apportioned pursuant to subparagraph (1) of this paragraph for the period between the date on which the remainder of such insured institution's pro rata share was used to discharge a percentage of that insured institution's annual insurance premium and the December 31 immediately preceding such date. Insured institutions entitled to credit pursuant to this subparagraph (2) shall be paid such credit in cash as soon as possible after the amount of such credit is determined by the Corporation.

(3) *Termination of insurance.*—If, prior to the close of any calendar year, (i) an institution's insurance is terminated, and (ii) such institution's pro rata share of the secondary reserve is paid out of such reserve, such institution shall not receive a return on such pro rata share for such calendar year.

(b) *Transfer of interest in secondary reserve.*—Except as provided in the next following sentence or by action of the Corporation pursuant to the last sentence of subsection (e) of section 404 of the National Housing Act, as amended, no right, title, or interest of any institution in or with respect to its pro rata share of the secondary reserve shall be assignable or transferable, whether by operation of law or otherwise. In the event that an insured institution (hereinafter in this sentence called the merging institution) is merged into another insured institution (hereinafter in this sentence called the surviving institution), the merging institution's pro rata share of the secondary reserve, if any, shall automatically be transferred to the surviving institution.

(Secs. 402, 403, Stat. 1256, 1257, as amended (12 U.S.C. 1725, 1726). Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] EUGENE M. HERRIN,
Assistant Secretary.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION

[Airspace Docket No. 73–SO–41]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On July 9, 1973, a notice of proposed rulemaking was published in the FEDERAL REGISTER (38 FR 18255), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Anniston, Ala., transition area.

Interested persons were afforded an opportunity to participate in the rulemaking through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 g.m.t., November 8, 1973, as hereinafter set forth.

In § 71.181 (38 FR 435), the Anniston, Ala., transition area is amended as follows:

• • • longitude 86°03'36" W.) . . ." is deleted and ". . . longitude 86°03'36" W.); within 9.5 miles southeast and 4.5 miles northwest of Talladega VORTAC 223° radial, extending from the 12-mile radius area to 18.5 miles southwest of the VORTAC; within 9.5 miles south and 4.5 miles north of the Talladega VORTAC 252° radial, extending from the 12-mile radius area to 18.5 miles west of the VORTAC . . ." is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on August 16, 1973.

PHILLIP M. SWATEK,
Director, Southern Region.

[Airspace Docket No. 73–SO–25]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Redesignation of Control Zone and Alteration of Transition Area

On July 9, 1973, a notice of proposed rulemaking was published in the FEDERAL

V 38 - 166 AUG 28 73 XUM

REGISTER (38 FR 18255), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would redesignate the Biloxi, Miss., control zone and alter the Gulfport, Miss., transition area.

Interested persons were afforded an opportunity to participate in the rule-making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., November 8, 1973, as hereinafter set forth.

In § 71.171 (38 FR 351), the Biloxi, Miss., control zone is amended as follows:

"• • • This control zone is effective from 0600 to 2200 hours, local time, daily . . ." is deleted.

In § 71.181 (38 FR 435), the Gulfport, Miss., transition area is amended as follows:

"• • • within 3 miles each side of the 036° bearing from Keesler RBN, extending from the 8.5-mile radius area to 8.5 miles northeast of the RBN . . ." is deleted.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on August 17, 1973.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc.73-18155 Filed 8-27-73;8:45 am]

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER C—DRUGS

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

Meglumine Diatrizoate and Sodium Diatrizoate Oral Solution

The Commissioner of Food and Drugs has evaluated a new animal drug application (91-327V) filed by E. R. Squibb & Sons, Inc., New Brunswick, NJ 08903, proposing the safe and effective use of meglumine diatrizoate and sodium diatrizoate oral solution for the treatment of dogs and cats. The application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135c is amended by adding a new section as follows:

§ 135c.108 Meglumine diatrizoate and sodium diatrizoate oral solution.

(a) *Specifications.*—Meglumine diatrizoate oral solution is a water soluble radiopaque medium containing 66 percent meglumine diatrizoate and 10 percent sodium diatrizoate.

(b) *Sponsor.*—See code No. 035 in § 135.501(c) of this chapter.

(c) *Conditions of use.*—(1) It is indicated for radiography of the gastrointestinal tract in dogs and cats.

(2) It is administered orally at a dosage level of 0.5 to 1.0 milliliter per pound of body weight by gavage or stomach tube. It is administered rectally at a dosage level of 0.5 to 1.0 milliliter per pound of body weight diluted with 1 part of the drug to 5 parts of water.

(3) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Effective date.—This order shall be effective August 28, 1973.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)))

Dated August 22, 1973.

FRED J. KINGMA,
Acting Director, Bureau of Veterinary Medicine.

[FR Doc.73-18154 Filed 8-27-73;8:45 am]

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

PART 83—STATIONS ON SHIPBOARD IN THE MARITIME SERVICE

Frequency Available; Correction

Editorial amendment of § 83.351(a) of the Commission's rules and regulations.

This is to clarify the Order released June 6, 1973, and published in the FEDERAL REGISTER of June 13, 1973, at 38 FR 15510. With respect to the correction cited in the Order, § 83.351(a) is correct as printed in the Code of Federal Regulations. The correction applies only to the loose-leaf edition of the rules issued by the Federal Communications Commission through the Superintendent of Documents and should not have been published.

Released August 23, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Acting Secretary.

[FR Doc.73-18210 Filed 8-27-73;8:45 am]

Title 49—Transportation

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 73-16; Notice 2]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Seatbelt Assemblies; Webbing Width; Retractors

The purpose of this notice is to amend certain requirements of Motor Vehicle Safety Standard No. 209 (49 CFR 571.209), *Seatbelt assemblies*, relating to the width of belt webbing and to the performance of seat belt retractors. The amendments were proposed in a notice published June 20, 1973 (38 FR 16084).

In the June 20 notice, the agency proposed to allow the width of those portions of a combination lap and shoulder belt that do not touch the occupant to be less than the 1.8 inches formerly required by the standard. The Chrysler Corporation, in its comment, suggested that narrower webbing should also be permitted for the type of lapbelt that is used by itself. The agency agrees that a lapbelt in combination with a shoulder belt (known as Type 2 assembly) is indistinguishable from an independent lapbelt (Type 1 assembly), as far as the width of its webbing is concerned, and is therefore amending the standard to permit narrower webbing for noncontract portions of Type 1 belts as well as Type 2 belts.

Chrysler also requested narrower webbing for noncontact portions of children's harnesses (Type 3 assemblies). In view of the close-fitting design of Type 3 assemblies, the agency has not found a benefit to be gained from the use of narrower webbing in the few areas of noncontact. The Type 3 requirements are not being amended at this time. The American Safety Equipment Corporation requested that the contactability of the webbing with occupants be determined with a range of occupants. The agency remains persuaded that the use of a 95th percentile adult male occupant will be sufficient to insure that the narrower webbing will not touch any occupant who uses the seat. The agency therefore declines to adopt American Safety's suggestion.

The proposed amendment of the emergency-locking retractor requirements of S4.3 drew several comments, not all of them relating to the parts of S4.3 that were proposed to be changed. Mercedes Benz requested revision of the requirement of S4.3(j)(2) that the retractor must not lock before the webbing extends 2 inches under an acceleration of 0.3g or less. The 0.3g requirement had been carried over without change from the previous version of S4.3 and was thought to be a reasonable means of preventing retractors from being inconveniently sensitive. The NHTSA does not find sufficient cause at this time to alter its conclusion concerning the most appropriate minimum level and is therefore retaining the minimum level of 0.3g.

A second issue raised by Mercedes Benz concerns the treatment under section S4.3(j) of a retractor having both vehicle sensitive and webbing sensitive features. It has been the NHTSA's position that with respect to the maximum permissible locking level, a dual-action retractor would conform if it met either of the applicable requirements. Thus, a dual-action retractor whose webbing-sensitive mechanism locks within 1 inch at an acceleration of 0.7g will conform, even though its vehicle-sensitive mechanism is not capable of locking at its required level. With respect to the minimum locking level, however, different considerations apply. The agency's intent in providing a minimum level below which the retractor must not lock is to enhance the convenience of the system. The webbing-sensitive mechanism that locks below 0.3g would be no less inconvenient if coupled with a vehicle sensitive mechanism than it would be if used by itself. The agency has therefore concluded that a dual-action retractor may conform to the maximum locking acceleration level of 0.7g (S4.3(j)(1)) with either mechanism, but that it must conform to both minimum locking level requirements (S4.3(j)(2) and (3)).

The tilt angle of 17° proposed as the minimum locking level for vehicle sensitive retractors was stated by several comments to be too high. Although there was general agreement as to the advisability of using a tilt test rather than an acceleration test, lower tilt angles were suggested, ranging downward to 11°. After considering the comments, the NHTSA has concluded that a moderate downward revision to 15° will prevent retractor lockup in normal road operation and has adopted that angle in S4.3(j)(3). The suggestion by Ford and American Motors that the "retractor drum's central axis" may be difficult to determine in complicated mechanisms has been found to have merit and the requirement as adopted refers to the orientation at which the retractor is installed in the vehicle.

The proposed revisions to the minimum retraction force requirements for retractors attached to upper torso restraints encountered several objections, the principal one being that no one was certain about the meaning of the proposed requirement that the retractor should "retract the webbing fully." The quoted language had been proposed in response to a petition by General Motors requesting amendment of the requirement that the retractor exert a retractive force of not less than 0.45 pound. The GM petition had requested a force of 0.2 pound, but the agency's initial intent, as reflected in the notice, was to grant a potentially greater relief by deleting reference to a specific minimum force. It appears from the confusion in the comments that a contrary result might be produced in some cases, and the agency has therefore concluded that a simple reduction in the force level to the level requested by GM is the least complicated and most readily enforceable means of lowering the minimum force level. The suggestion by Ford, that the ability to retract is implicit in the definition of retractor and that no minimum force level is required, has some merit, but the agency prefers to retain a measurable minimum level.

There were several questions of interpretation concerning the point at which the retraction force is to be measured. The test procedures of S5.2 provide that the webbing is to be fully extended, passing over any hardware or other material specified for use with the webbing, and that it is then to be retracted and the retraction force measured as the lowest force within plus or minus 2 inches of 75 percent extension. The procedure is intended to measure the ability of the retractor to retract the webbing as installed in the vehicle, and the point of measurement most consistent with this intent is the most distant point of the webbing from the retractor. The NHTSA intends to conduct its measurements in this fashion.

The proposed amendment to S5.2 that would amend the test procedures to reflect the limitation of the 0.3g acceleration level to webbing-sensitive retractors was not objected to and is adopted as proposed.

In consideration of the foregoing, S4.2(a), S4.3(j), and S5.2(j) of Motor Vehicle Safety Standard No. 209, 49 CFR 571.209, are amended as follows:

1. S4.2(a) is amended to read:

§ 571.209 Standard No. 209; seatbelt assemblies.

• • • • •

S4.2 Requirements for webbing.

(a) *Width.*—The width of the webbing in a seatbelt assembly shall be not less than the following when measured under the conditions prescribed in S5.1(a):

(1) Type 1 and Type 2 assemblies—1.8 inches, except for portions that do not touch a 95th percentile adult male with the seat in any adjustment position and the seat back in the manufacturer's nominal design riding position.

(2) Type 3 seatbelt assembly—0.9 inch.

2. S4.3(j) is amended to read:

S4.3 Requirements for hardware.

• • • • •

(j) *Emergency-locking retractor.*—An emergency-locking retractor of a Type 1 or Type 2 seatbelt assembly, when tested in accordance with the procedures specified in paragraph S5.2(j)—

(1) Shall lock before the webbing extends 1 inch when the retractor is subjected to an acceleration of 0.7g;

(2) Shall not lock, if the retractor is sensitive to webbing withdrawal, before the webbing extends 2 inches when the retractor is subjected to an acceleration of 0.3g or less;

(3) Shall not lock, if the retractor is sensitive to vehicle acceleration, when the retractor is rotated in any direction to any angle of 15° or less from its orientation in the vehicle;

(4) Shall exert a retractive force of at least 1.5 pounds under zero acceleration when attached only to the pelvic restraint;

(5) Shall exert a retractive force of not less than 0.2 pound and not more than 1.1 pounds under zero acceleration when attached only to an upper torso restraint;

(6) Shall exert a retractive force of not less than 0.2 pound and not more than 1.5 pounds under zero acceleration when attached to a strap or webbing that restrains both the upper torso and the pelvis.

3. The fourth sentence of S5.2(j) is amended to read:

S5.2 Hardware.

• • • • •

(j) • • • A retractor that is sensitive to webbing withdrawal shall be subjected to an acceleration of 0.3g within a period of 50 ms. while the webbing is at 75 percent extension, to determine compliance with S4.3(j)(2).

The NHTSA finds it desirable to allow manufacturers to produce seatbelt assemblies under the requirements as hereby amended (which generally are relaxed relative to previous requirements) prior to the effective date of the next phase of Standard No. 208 (49 CFR 571.208). It is therefore found for good cause shown that the amendments contained herein shall become effective on August 28, 1973.

(Sec. 103, 119, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1392, 1407) delegation of authority at 49 CFR 1.51)

Issued on August 23, 1973.

JAMES B. GREGORY,
Administrator.

Title 50—Wildlife and Fisheries

CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

PART 33—SPORT FISHING

Upper Mississippi River Wild Life and Fish Refuge, Illinois and Certain Other States

The following special regulations are issued and are effective on August 28, 1973.

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

ILLINOIS, IOWA, MINNESOTA, AND WISCONSIN

UPPER MISSISSIPPI RIVER WILD LIFE AND FISH REFUGE

The public hunting of migratory game birds on the Upper Mississippi River Wild Life and Fish Refuge, Illinois, Iowa, Minnesota, and Wisconsin is permitted on the areas designated by signs as "open" to hunting. Hunting of migratory game birds is NOT permitted on the areas designated by signs as "closed" to hunting. The "open" areas comprising 153,000 acres are delineated on maps available at the refuge headquarters, Winona, Minnesota 55987, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111.

Hunting shall be subject to the following conditions:

(1) The hunting of migratory game birds shall be in accordance with all applicable State and Federal regulations and seasons which are adopted herein and made a part of this regulation.

(2) No person shall hunt migratory game birds on the Upper Mississippi River Wild Life and Fish Refuge during any period that person's migratory game bird hunting privileges are suspended or under revocation in any state or Canadian province for game law infractions.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas

V38-166 AUG 28 73 XUM

generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective until June 30, 1974.

§ 32.22 Special regulations, upland game, for individual wildlife refuge areas.

ILLINOIS, IOWA, MINNESOTA, AND WISCONSIN

UPPER MISSISSIPPI RIVER WILD LIFE AND FISH REFUGE

The public hunting of upland game birds, upland game animals, and raccoon, groundhogs, foxes, and crows on the Upper Mississippi River Wild Life and Fish Refuge, Illinois, Iowa, Minnesota, and Wisconsin is permitted on the areas designated by signs as "open" to hunting. Restricted hunting of these species is also permitted on the areas designated by signs as "closed" to hunting, except that the Goose Island Closed Area in Pool 8 is closed at all times to hunting and the discharge of guns is prohibited thereon. The "open" areas comprising 153,000 acres, and the "closed" areas comprising 41,000 acres are delineated on maps available at the refuge headquarters, Winona, Minnesota 55987, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111.

Hunting shall be subject to the following special conditions:

(1) Hunting on designated "open" areas concurrent with applicable State seasons is permitted, but only during the period from the first day of the earliest fall State GAME bird or GAME animal season applicable to the geographic area concerned, until the end of the applicable State seasons, or until the next succeeding March 1, whichever occurs first.

(2) Except for the Goose Island Closed Area which is closed to hunting at all times, hunting on designated "closed" areas concurrent with applicable State seasons is permitted, but only during the period from the first day after the close of the last hunting season for ducks applicable to the geographic area concerned, until the end of the applicable State seasons, or until the next succeeding March 1, whichever occurs first.

(3) The hunting of upland game birds, upland game animals, and raccoon, groundhogs, fox, and crows shall be in accordance with all applicable state regulations which are adopted herein and make a part of this regulation.

(4) No person shall hunt upland game birds or animals on the Upper Mississippi River Wild Life and Fish Refuge during any period that person's small game hunting privileges are suspended or under revocation in any state or Canadian province for game law infractions.

(5) Except with permission in writing obtained from the Refuge Manager, the discharge of guns of all types is prohibited on all lands and waters of the Upper Mississippi River Wild Life and Fish Refuge during the period from March 1 until the first day of the earliest fall state game bird or game animal season applicable to the geographic area concerned.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective until June 30, 1974.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

ILLINOIS, IOWA MINNESOTA, AND WISCONSIN

UPPER MISSISSIPPI RIVER WILD LIFE AND FISH REFUGE

The public hunting of deer on the Upper Mississippi River Wild Life and Fish Refuge, Illinois, Iowa, Minnesota, and Wisconsin is permitted on the areas designated by signs as "open" to hunting. Restricted hunting of deer is also permitted on the areas designated by signs as "closed" to hunting, except that the Goose Island Closed Area in Pool 8 is closed to all hunting at all times. The "open" areas comprising 153,000 acres, and the "closed" areas comprising 41,000 acres are delineated on maps available at the refuge headquarters, Winona, Minnesota 55987, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111.

Hunting shall be subject to the following conditions:

(1) Bow and gun deer hunting on designated "open" areas is permitted concurrent with applicable State seasons.

(2) Except for the Goose Island Closed Area which is closed to hunting at all times, bow and gun deer hunting on designated "closed" areas concurrent with applicable State seasons is permitted, but only during the period from the first day AFTER the close of the last hunting season for DUCKS applicable to the geographic area concerned, until the end of the applicable State seasons, or until the next succeeding March 1, whichever occurs first.

(3) The hunting of white-tailed deer shall be in accordance with all applicable State regulations which are adopted herein and made a part of this regulation.

(4) No person shall hunt deer on the Upper Mississippi River Wild Life and Fish Refuge during any period that person's big game hunting privileges are suspended or under revocation in any state or Canadian province for game law infractions.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective until June 30, 1974.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

ILLINOIS, IOWA, MINNESOTA, AND WISCONSIN

UPPER MISSISSIPPI RIVER WILD LIFE AND FISH REFUGE

Sport fishing, commercial fishing, and the taking of frogs, turtles, crayfish, and clams on the Upper Mississippi River Wild Life and Fish Refuge, Illinois, Iowa, Minnesota, and Wisconsin, is permitted on all water areas of the refuge. The refuge water areas comprising 125,000 acres are delineated on maps available at the refuge headquarters, Winona, Minnesota 55987, and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111. All fishing is subject to the following conditions:

(1) Unless further restrictions are imposed by this regulation, all fish, frogs, turtles, crayfish, and clams shall be taken in accordance with all applicable state regulations and seasons which are adopted herein and made a part hereof.

(2) All sport and commercial fishing and all travel by boat or any other means across, through, or on the Spring Lake Closed Area of the Upper Mississippi River Wild Life and Fish Refuge in Carroll Co., Illinois is prohibited from October 1 through December 20.

(3) All persons, including their helpers, exercising the privilege of commercial fishing on the Spring Lake Closed Area must possess a valid commercial fishing permit issued by the Refuge Manager authorizing such commercial fishing, and must comply with all conditions as prescribed by the Refuge Manager which are set forth in the permit.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective until June 30, 1974.

Dated August 20, 1973.

CHARLES A. HUGHLETT,
Acting Regional Director.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 771—EMPLOYEE GRIEVANCES AND ADMINISTRATIVE APPEALS

Employee Grievances

Subpart C is amended by revising § 771.302(a) to clarify the coverage of agency grievance systems.

§ 771.302 Grievance Coverage.

(a) Except as provided in paragraphs (b) and (c) of this section, this subpart applies to any matter of concern or dissatisfaction to an employee which is subject to the control of agency management or any matter in which an employee alleges that coercion, reprisal, or retaliation has been practiced against him.

• • • • • •

(5 U.S.C. sec. 3301, 3302)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.73-18225 Filed 8-27-73;8:45 am]

Title 6—Economic Stabilization

CHAPTER I—COST OF LIVING COUNCIL

PART 130—COST OF LIVING COUNCIL PHASE IV REGULATIONS

Miscellaneous Amendments Relating to the Food Industry

The purpose of the amendments set forth below is to provide specific rules with respect to the prenotification and reporting of pay adjustments involving low wage employees in the food industry. In addition, an amendment to § 130.58a (a)(3) prescribes that all submissions to the Council relating to pay adjustments affecting employees in the food industry are to be sent to P.O. Box 6185, Washington, D.C. 20044 rather than the former P.O. Box 19100, Washington, D.C. 20508.

In the case of appropriate employee units containing low wage employees, new paragraph (h) of § 130.58a requires that a prenotification or report on the Council's Form PB–3 or Form PB–3A (optional for units containing fewer than 1,000 employees), must include a base compensation rate computed on the basis of wages and salaries actually in effect on the base date and all increases in such rate actually put into effect or proposed to be put into effect for all employees in the unit. This necessarily includes those employees who earn $3.50 or less on the base date. In addition, the prenotification or report is required to include another Form PB–3 or PB–3A, as appropriate, covering separately the base compensation rate and increases thereon for those employees in the unit earning on the base date a straight-time hourly rate of $3.50 per hour or more.

A conforming change is also made to § 130.36(d).

Because the purpose of the publication of these amendments is to provide immediate guidance as to Cost of Living Council decisions, the Council finds that publication in accordance with normal rulemaking procedures is impracticable and that good cause exists for making these amendments effective in less than 30 days. Interested persons may submit comments regarding these regulations. Communications should be addressed to the Office of General Counsel, Cost of Living Council, Washington, D.C. 20508.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92-210, 85 Stat. 743; Pub L. 93-28, 87 Stat. 27; E.O. 11695, 38 FR 1473; E.O. 11730, 38 FR 19345; Cost of Living Council Order No. 14, 38 FR 1489)

In consideration of the foregoing, Part 130 of Title 6 of the Code of Federal Regulations is amended as set forth herein, effective August 28, 1973.

Issued in Washington, D.C. on August 24, 1973.

WILLIAM N. WALKER,
Acting Deputy Director, Cost of Living Council.

Paragraph 1. In § 130.36, paragraph (d)(2) is revised and paragraph (d)(3) is added. The revised and added provisions read as follows:

§ 130.36 Low wage employees.

• • • • • •

(d) *Employees earning more than $3.50.* • • •

(2) *Food industry.*—For rules with respect to pay adjustments affecting employees in the food industry see § 130.58 a(h).

(3) *Health services industry.*—The Tripartite Health Industry Wage and Salary Committee shall develop one or more methods for reporting and evaluating wage and salary increases paid to employees who are paid straight-time hourly rates in excess of $3.50 and who are members of an appropriate employee unit in which low wage employees are paid wage or salary increases which are exempt under the provisions of paragraph (b) of this section.

• • • • • •

Par. 2. In § 130.58a, the introductory material in paragraph (a)(3) is revised and a new paragraph (h) is added. The revised and added provisions read as follows:

§ 130.58a Prenotification and reporting requirements for pay adjustments made after 9 p.m., e.s.t., March 29, 1973.

(a) *General rule.* • • •

(3) *Content of prenotification and reports.*—Prenotification and reports shall be submitted on forms prescribed by and pursuant to instructions issued by the Council. All forms must be sent to Office of Wage Stabilization, P.O. Box 6185, Washington, D.C. 20044. In addition—

• • • • • •

(h) *Low wage employees.*—If an appropriate employee unit includes an employee earning a straight-time hourly rate on the base date that is equal to or less than $3.50, and a prenotification or report is submitted with respect to such unit pursuant to the provisions of this subpart, then such prenotification or report shall include—

(1) A Form PB–3 or PB–3A (as appropriate) that covers all employees in the appropriate employee unit, and that reflects—

(i) A base compensation rate computed on the basis of wages and salaries actually in effect on the base date; and

(ii) All increases in the base compensation rate actually put into effect or proposed to be put into effect; and

(2) A Form PB–3 or PB–3A (as appropriate) that covers separately those employees whose straight-time hourly rates on the base date (determined individually) are equal to or in excess of $3.50.

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE

[T.D. 73-243]

PART 153—ANTIDUMPING

Stainless Steel Wire Rods From France

AUGUST 24, 1973.

Section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), gives the Secretary of the Treasury responsibility for determination of sales at less than fair value. Pursuant to this authority the Secretary of the Treasury has determined that stainless steel wire rods from France are being, or are likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)). (Published in the FEDERAL REGISTER of April 10, 1973 (38 FR 9094).)

Section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), gives the United States Tariff Commission responsibility for determination of injury or likelihood of injury. The United States Tariff Commission has determined, and on July 24, 1973, it notified the Secretary of the Treasury that an industry in the United States is being injured by reason of imports of stainless steel wire rods from France sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended. (Published in the FEDERAL REGISTER of July 31, 1973 (38 FR 20382).)

V38-166 AUG 28 73 XUM

On behalf of the Secretary of the Treasury, I hereby make public these determinations, which constitute a finding of dumping with respect to stainless steel wire rods from France.

Stainless steel wire rods produced by Creusot-Loire of Paris, France, are excluded from this finding of dumping for reasons given in the sales at less than fair value determination.

Section 153.43 of the Customs regulations is amended by adding the following to the list of findings of dumping currently in effect:

Merchandise	Country	T.D.
Stainless steel wire rods, except those produced by Creusot-Loire of Paris, France.	France	73-243

(Secs. 201, 407, 42 Stat. 11, as amended, 18 (19 U.S.C. 160, 173))

[SEAL] EDWARD L. MORGAN,
Assistant Secretary of the Treasury.

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF STATE

Bureau of Security and Consular Affairs

[22 CFR Part 42]

[Docket No. SD—103]

DOCUMENTATION OF IMMIGRANTS UNDER THE IMMIGRATION AND NATIONALITY ACT, AS AMENDED

Notice of Proposed Rulemaking

In view of questions raised by the decision of July 5, 1973, in the case of Hou Ching Chow v. The Attorney General (Civil Action 2418–72, United States District Court for the District of Columbia) concerning the validity of the revocation of § 42.91(a)(14)(ii)(*f*) of Title 22, Code of Federal Regulations, on July 22, 1972, (37 FR 14693), notice is hereby given of the proposed issuance of the following rule pertaining to the bases upon which an alien seeking to immigrate to the United States may satisfy the requirements of section 212(a)(14) of the Immigration and Nationality Act, as amended, by establishing that he does not seek to enter the United States for the purpose of performing skilled or unskilled services of labor.

This notice is given solely for the purpose of removing any question of the validity of the action taken on July 22, 1972, and is without prejudice to this Department's position with respect to the applicability of section 553(a)(1) of Title 5 of the United States Code (80 Stat. 383) to the publication of rules pertaining to Parts 41, 42, or 46 of Title 22, Code of Federal Regulations.

Interested persons may submit to the Administrator of the Bureau of Security and Consular Affairs, Room 6811, Department of State, Washington, D.C., 20520, written data, views, or arguments, in duplicate, relative to this proposed rule. Submission of such material may not be made orally. All relevant material received on or before September 18, 1973 will be considered.

Section 42.91(a)(14)(ii)(*f*) of Title 22 Code of Federal Regulations Part 42, as it read prior to July 22, 1972, is revoked.

Dated August 23, 1973.

For the Secretary of State.

[SEAL] BARBARA M. WATSON,
Administrator, Bureau of Security and Consular Affairs, Department of State.

DEPARTMENT OF THE TREASURY

Fiscal Service

[31 CFR Parts 202, 203, and 214]

AMENDMENT OF DEPOSITARY CONTRACT PROVISIONS

Notice of Proposed Rule Making

Notice is hereby given that the Department of the Treasury proposes to revise the depositary contract provisions in 31 CFR Parts 202 and 203 in order to implement the provisions of Public Law 92–540, 38 U.S.C. 2012, Executive Order 11701 of January 24, 1973, 38 FR 2675, and the Labor Department regulations published January 31, 1973, 38 FR 2968. Under the provisions cited there is to be included in every contract for $2,500 or more for nonpersonal services a provision that the contractor, in order to provide special emphasis to the employment of qualified disabled veterans and veterans of the Vietnam era, list at an appropriate local office of the state employment service system all suitable employment openings.

The Department of the Treasury is also proposing to utilize this amendatory action to amend the depositary contract provisions in 31 CFR Parts 202, 203 and 214 to include specific reference to the amendment of the Equal Employment Opportunity Executive Order 11246 by Executive Order 11375, October 13, 1967, 32 FR 14303, which prohibits discrimination in employment on grounds of sex.

The specific amendments proposed to be made in 31 CFR are as follows:

PART 202—DEPOSITARIES AND FINANCIAL AGENTS OF THE GOVERNMENT

I. Section 202.4 is amended by revising the final sentence to read:

§ 202.4 Contract of deposit.

* * * * *

The terms of the contract include all the provisions of this part and the provisions prescribed in section 202 of Executive Order 11246, entitled "Equal Employment Opportunity," as amended by Executive Order 11375, and the provisions of the Department of Labor regulations for the promotion of employment of disabled and Vietnam era veterans, 41 CFR Part 50–250, except that depositaries which notify the Department of the Treasury that the gross annual earning value on their Federal deposits is less than $2,500 are exempt from the application of the Department of Labor regulations.

PART 203—SPECIAL DEPOSITARIES OF PUBLIC MONEY

II. Section 203.4 is amended by revising the final sentence to read:

§ 203.4 Contract of deposit.

* * * * *

The terms of the contract include all the provisions of this part and the provisions prescribed in section 202 of Executive Order 11246, entitled "Equal Employment Opportunity," as amended by Executive Order 11375, and the provisions of the Department of Labor regulations for the promotion of employment of disabled and Vietnam era veterans, 41 CFR Part 50–250, except that depositaries which notify the Department of the Treasury that the gross annual earning value on their Federal deposits is less than $2,500 are exempt from the application of the Department of Labor regulations.

PART 214—DEPOSITARIES FOR FEDERAL TAXES

III. Section 214.5(c) is amended to read:

§ 214.5 Qualification.

* * * * *

(c) *Agreement.*—Receipt by a depositary of notice of approval of its application by the Federal Reserve Bank completes the depositary's qualification and creates an agreement between it and the Treasury Department under which the depositary agrees to be bound by all the terms and provisions of this part and the provisions prescribed in section 202 of Executive Order 11246, entitled "Equal Employment Opportunity," as amended by Executive Order 11375.

IV. § 214.5(d) is amended by revising the final sentence to read:

§ 214.5 Qualification.

* * * * *

(d) *Existing agreements.*

* * * * *

A depositary which accepts a deposit of Federal taxes under an existing agreement thereby agrees to be bound by all the terms and provisions of this part and the provisions prescribed in section 202 of Executive Order 11246, entitled "Equal Employment Opportunity," as amended by Executive Order 11375.

V 38 - 166
AUG 28 73
XUM

Interested persons are invited to submit written comments, suggestions or objections regarding the aforesaid revisions and amendments to the Fiscal Service, Department of the Treasury, Washington, D.C. 20226, on or before September 27, 1973. In accordance with 31 CFR 1.4(b), 36 FR 13835, comments submitted in response to this notice of proposed rule making are available to the public upon request therefor unless confidential status of the submission has been requested and approved.

Dated August 22, 1973.

[SEAL] JOHN K. CARLOCK,
Fiscal Assistant Secretary.

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

[8 CFR Part 212]

LABOR CERTIFICATION EXEMPTION

Notice of Proposed Rule Making

In view of the questions raised by the decision of July 5, 1973 in the case of Hou Ching Chow v. The Attorney General (Civil Action No. 2418–72, United States District Court for the District of Columbia), concerning the validity of the deletion of § 212.8(b) (5) of Title 8, Code of Federal Regulations, on August 2, 1972 (37 FR 15419), pursuant to section 553 of Title 5 of the United States Code (80 Stat. 383), notice is hereby given of the proposed issuance of the following rule pertaining to the bases upon which an alien seeking to immigrate to the United States may satisfy the requirements of section 212(a) (14) of the Immigration and Nationality Act, as amended, by establishing that he does not seek to enter the United States for the purpose of performing skilled or unskilled services or labor. The proposed amendment deletes the exemption for certain students from the labor certification requirement as it read prior to August 2, 1972.

This notice is published solely for the purpose of removing any question of the validity of the action taken on August 2, 1972, and is without prejudice with respect to the applicability of section 553 (a) (1) of Title 5 of the United States Code (80 Stat. 383) to the publication of that rule or any other rules, conforming to regulations of the Department of State, adopted for the purpose of securing uniform interpretations of the law in accordance with section 104(e) of the Immigration and Nationality Act.

In accordance with section 553 of Title 5 of the United States Code (80 Stat. 383), interested persons may submit to the Acting Commissioner of Immigration and Naturalization, Room 757, 119 D Street, NE, Washington, D.C. 20536, written data, views, or arguments, in duplicate, relative to the proposed rule. Such representations may not be presented orally in any manner. All relevant material received on or before September 18, 1973, will be considered.

In § 212.8 *Certification requirement of section 212(a) (14)*, paragraph (b) *Aliens not required to obtain labor certifications* is amended by deleting therefrom item (5) as it read immediately prior to August 2, 1972.

(Sec. 103, 66 Stat. 173; (8 U.S.C. 1103))

Dated August 23, 1973.

JAMES F. GREENE,
Acting Commissioner of Immigration and Naturalization.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 948]

IRISH POTATOES GROWN IN COLORADO—AREA NO. 2

Notice of Proposed Handling Regulation

This proposal, designed to promote orderly marketing of Colorado Area No. 2 potatoes, would impose minimum quality standards and would require inspection of fresh shipments to keep undesirable, low quality potatoes from being shipped to consumers.

Consideration is being given to issuing a handling regulation which was recommended by the Colorado Area No. 2 Committee. It is established under Marketing Agreement No. 97 and Order No. 948, both as amended (7 CFR Part 948). This marketing order program regulates the handling of Irish potatoes grown in the State of Colorado and is issued under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

The recommendations of the committee reflect its appraisal of the composition of the 1973 crop in Area No. 2 and of the marketing prospects for this season. Shipments are expected to be in significant volume by mid-September so the regulation should become effective by that period. The grade, size, and maturity requirements provided herein are necessary to prevent potatoes of lesser maturities, undesirable sizes, or low quality from being distributed in fresh market channels. They will also provide consumers with good quality potatoes consistent with the overall quality of the crop.

Exceptions are provided to certain of these requirements to recognize special situations in which such requirements would be inappropriate or unreasonable.

Shipments may be made to certain special purpose outlets without regard to the grade, size, maturity, and inspection requirements, provided that safeguards are met to prevent such potatoes from reaching unauthorized outlets. Seed is so exempted because requirements for this outlet differ greatly from those for fresh market. Shipments for use as livestock feed are likewise exempt. Since no purpose would be served by regulating potatoes used for charity purposes, such shipments are exempt. Exemption of potatoes for most processing uses is mandatory under the legislative authority for this part and therefore shipments to processing outlets are unregulated.

All persons who desire to submit written data, views, or arguments in connection with this proposal may file the same, in four copies, with the Hearing Clerk, Room 112–A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than September 4, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)). The proposed regulation is as follows:

§ 948.370 Handling regulation.

During the period September 17, 1973, through June 30, 1974, no person shall handle any lot of potatoes grown in Area No. 2 unless such potatoes meet the requirements of paragraphs (a), (b), and (c) of this section, or unless such potatoes are handled in accordance with paragraphs (d), (e), or (f) of this section. The maturity requirements specified in paragraph (b) shall terminate October 31, 1973, at 11:59 p.m. m.s.t.

(a) *Minimum grade and size requirements.* (1) *Round varieties.*—U.S. No. 2, or better grade, 2 inches minimum diameter.

(2) *Long varieties.*—U.S. No. 2, or better grade, 2 inches minimum diameter or 4 ounces minimum weight.

(3) *All varieties.* Size B, if U.S. No. 1, or better, grade.

(b) *Maturity (skinning) requirements.* (1) *Russet Burbank and Red McClure varieties.*—For U.S. No. 2 grade not more than "moderately skinned" and for other grades not more than "slightly skinned."

(2) *All other varieties.*—Not more than "moderately skinned."

(c) *Inspection.*—(1) No handler shall handle any potatoes for which inspection is required unless an appropriate inspection certificate has been issued with respect thereto and the certificate is valid at the time of shipment. For purposes of operation under this part it is hereby determined pursuant to paragraph (d) of § 948.40, that each inspection certificate shall be valid for a period not to exceed 5 days following the date of inspection as shown on the inspection certificate.

(2) No handler may transport or cause the transportation by motor vehicle of any shipment of potatoes for which an inspection certificate is required unless each shipment is accompanied by a copy of the inspection certificate applicable thereto and the copy is made available for examination at any time upon request.

(d) *Special purpose shipments.*—(1) The grade, size, maturity, and inspection requirements of paragraphs (a), (b), and (c) of this section and the assessment requirements of this part shall not be applicable to shipments of potatoes for:

(i) Livestock feed;

(ii) Relief or charity; or

(iii) Canning, freezing, and "other processing" as hereinafter defined.

(2) The grade, size, maturity and inspection requirements of paragraphs (a), (b) and (c) of this section shall not be applicable to shipments of seed pursuant to § 948.6 but such shipments shall be subject to assessments.

(e) *Safeguards.*—Each handler of potatoes which do not meet the grade, size, and maturity requirements of paragraphs (a) and (b) of this section and which are handled pursuant to paragraph (d) for any of the special purposes set forth therein shall,

(1) Prior to handling, apply for and obtain a Certificate of Privilege from the committee.

(2) Furnish the committee such reports and documents as requested, including certification by the buyer or receiver as to the use of such potatoes, and

(3) Bill each shipment directly to the applicable processor or receiver.

(f) *Minimum quantity.*—For purposes of regulation under this part, each person may handle up to but not to exceed 1,000 pounds of potatoes without regard to the requirements of paragraphs (a), (b) and (c) of this section, but this exception shall not apply to any shipment which exceeds 1,000 pounds of potatoes.

(g) *Definitions.*—The terms "U.S. No. 1," "U.S. No. 2," "slightly skinned," and "moderately skinned" shall have the same meaning as when used in the U.S. Standards for Potatoes (§§ 51.1540–51.1566 of this title, effective September 1, 1971, as amended), including the tolerances set forth therein. The term "other processing" has the same meaning as the term appearing in the act and includes, but is not restricted to, potatoes for dehydration, chips, shoestrings, starch, and flour. It includes only that preparation of potatoes for market which involves the application of heat or cold to such an extent that the natural form or stability of the commodity undergoes a substantial change. The act of peeling, cooling, slicing, or dicing, or the application of material to prevent oxidation does not contsitute "other processing." Other terms used in this section shall have the same meaning as when used in Marketing Agreement No. 97, as amended, and this part.

(h) *Applicablity to imports.*—Pursuant to section 8e of the act and § 980.1, *Import regulations* (7 CFR 980.1), Irish potatoes of the red skinned round type, except certified seed potatoes, imported into the United States during the period September 17, 1973, through June 30, 1974, shall meet the grade, size, and quality requirements specified in paragraph (a) of this section, and during the period September 17, 1973, through October 31, 1973, shall be not more than "moderately skinned."

Dated August 22, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[7 CFR Part 981]

ALMONDS GROWN IN CALIFORNIA

Proposed Expenses of the Control Board and Rate of Assessment for the 1973–74 Crop Year

Notice is given of proposed expenses of the Almond Control Board, and rate of assessment, for the 1973–74 crop year. The proposal is pursuant to §§ 981.80 and 981.81 of the marketing agreement, as amended, and Order No. 981, as amended (7 CFR Part 981). The amended marketing agreement and order regulate the handling of almonds grown in California, and are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The proposal is based on the unanimous recommendation of the Almond Control Board. Proposed expenses of the Board for the 1973–74 marketing year, beginning July 1, 1973, total $1,945,481. The proposed rate of assessment is 1.250 cent per pound of almonds (kernel weight basis).

All persons who desire to submit written data, views, or arguments on this proposal should file the same, in quadruplicate, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, to be received not later than September 7, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposal is as follows:

§ 981.323 Expenses of the Control Board and rate of assessment for the 1973–74 crop year.

(a) *Expenses.*—Expenses in the amount of $1,945,481 are reasonable and likely to be incurred by the Control Board during the crop year beginning July 1, 1973, for its maintenance and functioning and for such purposes as the Secretary may, pursuant to the provisions of this part, determine to be appropriate.

(b) *Rate of assessment.* The rate of assessment for said crop year, payable by each handler in accordance with § 981.81, less any amount credited pursuant to § 981.41 but not to exceed 1 cent per pound of almonds (kernel weight basis), is fixed at 1.250 cent per pound of almonds (kernal weight basis).

Dated August 22, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division.

[Docket Nos. AO–355–A14, AO–105–A37]

MILK IN THE CENTRAL ILLINOIS AND QUAD CITIES-DUBUQUE MARKETING AREAS

Notice of Hearing on Proposed Amendments to Tentative Marketing Agreements and Orders

Notice is hereby given of a public hearing to be held at the Holiday Inn, Airport Junction Highways 150, 6, 92, and I–280, Moline, Illinois 61265, beginning at 10:00 a.m., local time, on September 5, 1973, with respect to proposed amendments to the tentative marketing agreements and to the orders, regulating the handling of milk in the Central Illinois and Quad Cities-Dubuque marketing areas.

The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

The purpose of the hearing is to receive evidence with respect to the economic and marketing conditions in each of the aforesaid specified marketing areas which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreements and to the orders.

Evidence also will be taken to determine whether emergency marketing conditions exist that would warrant omission of a recommended decision under the rules of practice and procedure (7 CFR 900.12(d)) with respect to any or all of the proposals.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

PROPOSED BY MISSISSIPPI VALLEY MILK PRODUCERS ASSOCIATION, INC.

PROPOSALS TO AMEND THE CENTRAL ILLINOIS ORDER

Proposal No. 1.

In § 1050.61, amend paragraph (a) to read as follows:

§ 1050.61 Plants subject to other Federal orders.

* * * * *

(a) A distributing plant qualified pursuant to § 1050.12(a) which meets the requirements of a fully regulated plant pursuant to the provisions of another order issued pursuant to the Act and from which a greater quantity of fluid milk products, except filled milk, is disposed of during the month from such plant as Class I in the marketing area regulated by the other order than as Class I in the Central Illinois marketing area: *Provided*, That such a distributing plant which was a pool plant under this

V 38-166 AUG 28 73 XUM

order in the immediately preceding month shall continue to be subject to all of the provisions of this part until the third consecutive month in which a greater proportion of such Class I disposition is made in such other marketing area, unless the other order requires regulation of the plant without regard to its qualifying as a pool plant under this order subject to the proviso of this paragraph;

• • • • •

PROPOSALS TO AMEND THE QUAD CITIES-DUBUQUE ORDER

Proposal No. 2.

Revise § 1063.10(a) (1) and (2) to read as follows:

§ 1063.10 Pool plant.

• • • • •

(a) • • •

(1) The volume of Class I packaged fluid milk products, except filled milk, disposed of during the month either on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets or moved to other plants, less receipts of packaged fluid milk products other than filled milk from other pool distributing plants, is not less than (a) 45 percent during each of the months of September through January and (b) 40 percent during each other month, of the total Grade A fluid milk products, except filled milk, received at such plant, exclusive of receipts of packaged fluid milk products from other order plants which are assigned pursuant to § 1063.46(a)(4)(ii) and the corresponding step of § 1063.46(b); and

(2) Not less than 15 percent of net receipts specified in subparagraph (1) of this paragraph, is so disposed of in the marketing area on routes: *Provided*, That a handler who has disposed of not less than 15 percent of such receipts during each of the preceding months of September through January shall continue to be a pool plant if not less than 10 percent of such receipts are disposed of in the marketing area.

• • • • •

Proposal No. 3

Revise § 1063.14 to read as follows:

§ 1063.14 Producer milk.

"Producer milk" means the skim milk and butterfat contained in Grade A milk received at a pool plant directly from a dairy farmer, except that milk received by diversion from other order plants which are assigned pursuant to § 1063.46(a)(4)(ii) and the corresponding step of § 1063.46(b). Milk normally received from a dairy farmer at a pool plant which is diverted from such pool plant by the operator of the plant or a cooperative association handler pursuant to § 1063.12(c) to a nonpool plant that is not an other order plant or to a nonpool plant that is an other order plant if diverted as Class II milk shall also be producer milk and shall be deemed to have been received by the diverting handler at the plant from which diverted, except that milk diverted from a plant located in the Central Illinois marketing areas as defined in Part 1050 shall be priced at the location of the plant to which diverted: *Provided*, That in any of the months of September through January milk diverted from the farm of a producer on more than the number of days that milk was delivered to a pool plant from such farm during the month shall not be deemed to have been received by the diverting handlers.

• • • • •

Proposal No. 4.

Add a new subparagraph (4) to § 1063.52(a) as follows:

§ 1063.52 Location adjustments to handlers.

(a) • • •

(4) At a plant located in that territory beyond 70 miles from the nearer of the City Hall, Rock Island, Illinois, or the Post Office, West Liberty, Iowa, and South of U.S. Highway No. 80, or within the Central Illinois marketing area as specified in Part 1050, add any amount by which the price specified in § 1063.50(b) is exceeded by the applicable Class I price at the same location pursuant to Part 1050 regulating the handling of milk in the Central Illinois marketing area,

• • • • •

Notice of Hearing—Central Illinois and Quad Cities-Dubuque

PROPOSED BY THE DAIRY DIVISION, AGRICULTURAL MARKETING SERVICE

Proposal No. 5

Make such changes as may be necessary to make the entire marketing agreements and the orders conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the Market Administrators Fred L. Shipley, P.O. Box 1485, Maryland Heights, Missouri 63043, John B. Rosenbury, 909 Sixth Street NW., Rochester, Minnesota 55901, or from the Hearing Clerk, Room 112-A, Administration Building, United States Department of Agriculture, Washington, D.C. 20250, or may be there inspected.

Signed at Washington, D.C., on August 22, 1973.

E. L. PETERSON,
Administrator,
Agricultural Marketing Service.

[FR Doc.73-18177 Filed 8-27-73;8:45 am]

[7 CFR Part 981]

HANDLING OF ALMONDS GROWN IN CALIFORNIA

Notice of Proposed Salable and Reserve Percentages for the 1973-74 Crop Year

Notice is given of proposed salable and reserve percentages of 100 and 0 percent, respectively, for California almonds, for the 1973-74 crop year, which began July 1, 1973. The proposal is in accordance with the provisions of the marketing agreement, as amended, and Order No. 981, as amended (7 CFR Part 981), regulating the handling of almonds grown in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The proposal was unanimously recommended by the Almond Control Board. No export percentage for reserve almonds was recommended by the Board, because of its recommendation for a reserve percentage of 0 percent.

All persons who desire to file written data, views, or arguments in connection with the aforesaid proposal should file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, to be received not later than September 10, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during official hours of business (7 CFR 1.27(b)).

In determining the percentages, the Board considered the following estimates (kernel weight basis) for the crop year beginning July 1, 1973;

(1) Production of 155 million pounds;
(2) Trade demand for domestic almonds of 75 million pounds;
(3) Handler carryover of 16 million pounds on July 1, 1973;
(4) Desirable handler carryover of 21 million pounds on June 30, 1974;
(5) Trade demand and desirable handler carryover requirements for 1973 crop almonds of 80 million pounds (item 2 plus 4 minus 3); and
(6) Export requirements of 75.0 million pounds.

In arriving at its recommendation, the Board also took into consideration the strong world demand for almonds and the estimated shortage in available world supplies to meet this demand. Because of this supply and demand situation, demand for California almonds in all markets is very strong, and buyers are actively bidding for California almonds. The Board concluded that handlers may therefore experience difficulty in meeting the needs of all their customers. In order to provide handlers maximum flexibility in disposition of their tonnage, the Board recommended that the percentages for the 1973-74 crop year be established at 100 percent salable and 0 percent reserve.

In view of these circumstances, it is likely that the estimated season average price to producers for 1973 crop almonds will exceed parity. Trade information indicates that much of the 1973 crop has been sold in advance at f.o.b. California prices which would return to growers prices well in excess of the parity level.

The proposal is as follows:

§ 981.223 Salable and reserve percentages for almonds during the crop year beginning July 1, 1973.

The salable and reserve percentages during the crop year beginning July 1, 1973, shall be 100 and 0 percent, respectively.

Dated August 22, 1973.

CHARLES R. BRADER,
Acting Deputy Director,
Fruit and Vegetable Division.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[29 CFR Part 1910]

EXPOSURE OF EMPLOYEES TO ORGANOPHOSPHOROUS PESTICIDES

Consideration of EPA Hearings

On June 29, 1973, the Occupational Safety and Health Administration (OSHA) published a notice of proposed rulemaking concerning exposure to organophosphorous pesticides (38 FR 17245-46). The notice invited interested persons to submit written comments and present oral testimony at hearings in four different cities. On July 31, 1973, the Environmental Protection Agency (EPA) also published a notice of hearings on pesticides (38 FR 20362-65) which schedules hearings in seven different cities and includes, among others, the same issues as those noted in the OSHA proposal. The notice refers to the OSHA June 29 notice of proposed rulemaking and announces the intention of EPA to base its action on the combined record of both agencies.

This document supplements the OSHA June 29 notice of proposed rulemaking by giving notice that OSHA will also consider, in connection with its rulemaking, the record of the EPA hearings which are scheduled in the EPA notice of July 31, 1973.

It is desirable to consider the records of both the OSHA and the EPA hearings for three reasons: (1) It will provide more relevant information upon which to base a decision; (2) it will minimize the possibility of reaching conflicting conclusions; and, above all, (3) it will afford more persons interested in the regulation of pesticides a greater opportunity to participate in the OSHA rulemaking proceeding through an appearance at any one of the hearings scheduled by OSHA or EPA.

Signed at Washington, D.C., this 22nd day of August, 1973.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.73-18200 Filed 8-27-73;8:45 am]

DEPARTMENT OF THE INTERIOR

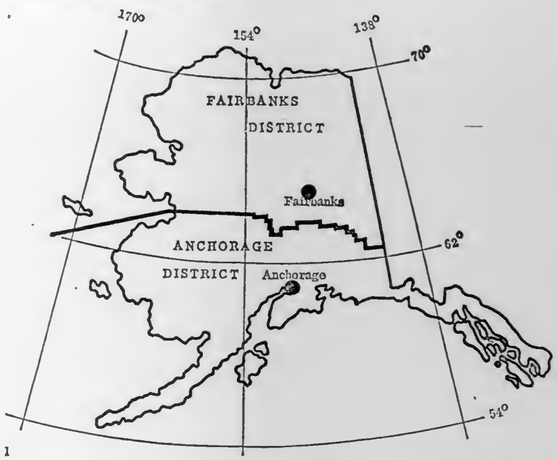
Bureau of Land Management

[43 CFR Part 1820]

EXECUTION AND FILING OF FORMS

Place for Filing—Alaska

The purpose of this amendment is to make the boundaries of the Bureau of Land Management land districts in Alaska identical with the BLM's administrative districts. The administrative boundaries conform to natural topographic features which influence the travel and trade patterns of Alaskans. The administrative boundaries have been found to correspond closer to these patterns than the land district boundaries. The change will therefore better serve the convenience of the Alaskan public as well as promote administrative efficiency.



In accordance with the Department's policy on public participation in rulemaking (36 FR 8336), interested parties may submit written comments, suggestions, or objections with respect to the proposed rules to the Director (210), Bureau of Land Management, Washington, D.C. 20240, until September 25, 1973.

Copies of comments, suggestions, or objections made pursuant to this notice will be available for public inspection in the Office of Information, Bureau of Land Management, Room 5643, Interior Building, Washington, D.C., during regular business hours (7:45 a.m.-4:15 p.m.)

Section 1821.2-1 would be amended by inserting a revised map of the Alaska Land District boundaries in paragraph (d).

§ 1821.2-1 Office hours of land offices; place for filing.

(d) • • •

Footnote 1

August 21, 1973.

JACK O. HORTON,
Assistant Secretary of the Interior.

Fish and Wildlife Service

[50 CFR Part 18]

MARINE MAMMALS

Extension of Comment Period

This notice extends the period for comments on the notice published August 16, 1973, (38 FR 22143) proposing amendments to 50 CFR Part 18, Marine Mammals.

This extension of the period for comments is made to coincide with that established by the Department of Commerce (NOAA) in their proposed amendments to 50 CFR Part 216 which relate to those marine mammals under their jurisdiction, also published on August 16, 1973 (38 FR 22133).

Accordingly, the period for receiving comments with respect to the notice of proposed rulemaking to amend 50 CFR Part 18, published on August 16, 1973, is extended from September 24 to October 1, 1973.

CHARLES M. LOVELESS,
Acting Director, Bureau of Sport Fisheries and Wildlife.

[50 CFR Part 19]

AIRBORNE HUNTING

Notice of Proposed Rulemaking

Notice is given that the Fish and Wildlife Service proposes to amend its regulations by adding a new Part 19—Airborne Hunting to subchapter B of Chapter 1 of 50 CFR. These regulations would implement the Fish and Wildlife Act of 1956 as amended by Pub. L. 92-159 and Pub. L. 92-502. A new Part 19 is proposed as follows:

PART 19—AIRBORNE HUNTING

Subpart A—Introduction

Sec.
19.1 Purpose of regulations.
19.2 Scope of regulations.
19.3 Conflict with other laws.
19.4 Definitions.

V38-166 AUG 28 73 XUM

Subpart B—Prohibitions

19.11 General prohibition.
19.12 Exceptions to general prohibition.

Subpart C—Federal Permits

19.21 Limitation on Federal permits.

Subpart D—State Permits and Annual Report Requirements

19.31 State permits.
19.32 Annual reporting requirements.

AUTHORITY. Fish and Wildlife Act of 1956, 85 Stat. 480, as amended, 86 Stat. 905.

Subpart A—Introduction

§ 19.1 Purpose of regulations.

The regulations contained in this part provide rules for the shooting or harassing of wildlife from any aircraft, provide the requirements for the contents and filing of annual reports by the States regarding permits issued for such shooting or harassing, and provide regulations necessary for effective enforcement of the Fish and Wildlife Act of 1956 as amended (16 U.S.C. 742a–j–1).

§ 19.2 Scope of regulations.

The regulations contained in this part apply to all persons within the territorial jurisdiction of the United States, to all United States citizens whether within the territorial jurisdiction of the United States or on the high seas or on board aircraft in flight over the high seas, and to all persons on board aircraft belonging in whole or in part to any United States citizen, firm, or partnership, or corporation created by or under the laws of the United States, or any State, territory or possession thereof.

§ 19.3 Conflict with other laws.

Nothing in this part nor in the terms of any permit shall be construed to authorize any person to shoot or shoot at from an aircraft or use an aircraft to harass any bald or golden eagle, polar bear, sea otter, manatee, walrus, or migratory bird, except that persons acting under a Federal permit to scare or herd migratory birds issued pursuant to § 12.41 of this subchapter, may use aircraft if authorized in the permit.

§ 19.4 Definitions.

For the purposes of this part:

Harass means to disturb, worry, molest, rally, concentrate, harry, chase, drive, herd or torment.

Subpart B—Prohibitions

§ 19.11 General prohibition.

(a) Except as otherwise authorized by the Fish and Wildlife Act of 1956 as amended, no person shall:

(1) While airborne in any aircraft shoot or attempt to shoot for the purpose of capturing or killing any wildlife;

(2) Use an aircraft to harass any wildlife; or

(3) Knowingly participate in using an aircraft whether in the aircraft or on the ground for any purpose referred to in paragraphs (1) or (2);

(b) The acts prohibited in this section include, but are not limited to, any person who—

(1) Pilots or assists in the operation of an aircraft from which another person shoots or shoots at wildlife while airborne, or

(2) While on the ground takes or attempts to take any wildlife by means, aid, or use of an aircraft.

§ 19.12 Exceptions to general prohibitions.

The prohibitions of the preceding section shall not apply to any person who—

(1) Is acting within the scope of his official duties as an employee or authorized agent of a State or the United States to administer or protect or aid in the administration or protection of land, water, wildlife, livestock, domesticated animals, human life or crops; or

(2) Is acting within the limitations of a permit issued pursuant to §§ 19.21 or 19.31 of this part.

Subpart C—Federal Permits

§ 19.21 Limitation on Federal permits.

No Federal permits will be issued to authorize any individual to hunt, shoot, or harass any wildlife from an aircraft, except that Federal permits to scare or herd migratory birds issued pursuant to § 21.41 of this subchapter may authorize such activities.

Subpart D—State Permits and Annual Report Requirements

§ 19.31 State permits.

(a) Except as provided in § 19.3, States may issue permits to individuals to engage in airborne hunting or harassing of wildlife for purposes of administering or protecting land, water, wildlife, livestock, domestic animals, human life or crops. States may not issue permits for the purpose of sport hunting.

(b) Upon issuance of a permit by a State to an individual pursuant to this section, the issuing authority will provide immediate notification to the Special Agent in Charge having jurisdiction according to § 10.22.

§ 19.32 Annual reporting requirements.

(a) Any State issuing permits to individuals to engage in airborne hunting or harassing of wildlife or whose employees or agents participate in airborne hunting or harassing of wildlife for purposes of administering or protecting land, water, wildlife, livestock, domestic animals, human life or crops shall file with the Director, an annual report on or before July 1 for the preceding calendar year ending December 31.

(b) The annual report required by this section shall contain the following information as to each such permit issued:

(1) The name and address of each person to whom a permit was issued.

(2) Permit number and inclusive dates during which permit was valid.

(3) The aircraft number of the aircraft used and the location where such aircraft was based.

(4) Common name and number of the wildlife for which authorization to take was given and a description of the area from which the wildlife were authorized to be taken.

(5) The purpose for which the permit was issued, specifically identifying whether the permit was issued to protect land, water, wildlife, livestock, domestic animals, crops, or human life.

(6) The common name and number of wildlife taken by permittees and State employees or agents.

(c) A compilation of all annual reports required by this section shall be made by the Director and furnished to any State filing such annual report.

Interested persons are invited to submit written comments, suggestions, or objections concerning this proposed new Part 19—Airborne Hunting, to the Director, Bureau of Sport Fisheries and Wildlife, U.S. Department of the Interior, Washington, D.C. 20240. Comments received by October 19, 1973, will be considered.

CHARLES M. LOVELESS,
Acting Director, Bureau of Sport Fisheries and Wildlife.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Public Health Service

[42 CFR Part 54b]

GRANTS FOR DRUG ABUSE PREVENTION, TREATMENT AND REHABILITATION

Notice of Proposed Rulemaking

Notice is hereby given that the Administrator, Health Services and Mental Health Administration, with the approval of the Secretary of Health, Education, and Welfare, proposes to revise Part 54b of Title 42, Code of Federal Regulations, currently entitled "Grants to States for Drug Abuse Prevention Functions."

Part 54b now establishes only the formula for allotting the sums appropriated under section 409 of the Drug Abuse Office and Treatment Act of 1972 (86 Stat. 80, 21 U.S.C. 1176) to the States (42 CFR 54b.102). The provisions appearing in the current Part 54b and the provisions to be added by this proposed revision which govern formula grants to States would constitute Subpart A of the revised Part 54b. This proposed revision reserves Subpart B of Part 54b for regulations governing project grants authorized by section 410 of the Drug Abuse Office and Treatment Act of 1972.

The principal purpose of the revision is to establish requirements for grants to States under section 409 of the Drug Abuse Office and Treatment Act of 1972 for: (1) The preparation of State plans for planning, establishing, conducting, and coordinating projects for the development of more effective drug abuse prevention functions in the State and for evaluating the conduct of such functions; (2) the expenses of carrying out projects under and otherwise implementing State plans approved by the Secretary and evaluating the results of such implementation; and (3) State administrative expenses for carrying out approved State plans.

Section 54b.105 of the proposed regulations establishes procedures for applying for grants for preparation of the State plan. This section provides that a State may apply for a preparation grant through the single State agency designated by the State as the sole agency for the preparation and administration of the State plan or for supervising such administration and preparation or, if such agency has not been designated, through an agency designated by the State to apply for the grant and begin preparation of the State plan pending designation of the single State agency.

As provided in § 54b.106 a State must submit to and have approved by the Secretary a State plan which meets the statutory and regulatory requirements in order to receive funds for implementing the State plan, evaluating the results of such implementation and meeting the administrative costs of carrying out the plan.

The proposed regulation also includes the uniform administrative requirements for grants-in-aid to State and local governments required by Office of Management and Budget Circular No. A–102. The Department of Health, Education, and Welfare is currently preparing a Department-wide regulation to implement the OMB requirements. Such regulation may contain deviations from the requirements of these proposed regulations. In that event, these proposed regulations will be revised to conform with the applicable provisions of the Department-wide regulation.

These proposed regulations have been developed in consultation with the Special Action Office for Drug Abuse Prevention.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed revision of 42 CFR Part 54b to the National Institute of Mental Health, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20852, on or before September 28, 1973: *Provided*, That comments are not invited with regard to § 54b.101 and paragraph (a) of § 54b.103 of the proposed regulations. These provisions are now in effect, respectively, as §§ 54b.101 and 54b.102 of the current Part 54b. These provisions are included in the notice of proposed rule making only for the sake of completeness.

Comments received will be available for public inspection at Room 17–99, Parklawn Building, between the hours of 8:30 a.m. and 5:00 p.m., Monday through Friday.

It is, therefore, proposed to revise Part 54b of Title 42 CFR in the manner set forth below.

Dated June 4, 1973.

HAROLD O. BUZZELL,
Administrator, Health Services and Mental Health Administration.

Approved August 20, 1973.

CASPAR W. WEINBERGER,
Secretary.

Part 54b is revised to read as follows:

PART 54b—GRANTS FOR DRUG ABUSE PREVENTION TREATMENT AND REHABILITATION

Subpart A—Grants to States for Drug Abuse Prevention Functions

Sec.
54b.101 Applicability.
54b.102 Definitions.
54b.103 Allotments.
54b.104 Transfer of allotments.
54b.105 Grants for preparation of State plans.
54b.106 State plan; submission and review.
54b.107 State plan, purpose; consistency with other plans.
54b.108 State plan; coordination.
54b.109 State plan; single State agency.
54b.110 State plan; State advisory council.
54b.111 State plan; survey of need; resource allocation plan.
54b.112 State plan; monitoring and reporting of program performance.
54b.113 State plan; administration.
54b.114 State plan; financial management systems; program income.
54b.115 Property management.
54b.116 State plan; subgrants.
54b.117 Contract procurement standards; States and subgrantees.
54b.118 Records.
54b.119 Reports.
54b.120 Assurances.
54b.121 Nondiscrimination on account of race, color, or national origin.
54b.122 Grant suspension and termination.

Subpart B [Reserved]

AUTHORITY: Sec. 409; 86 Stat. 80; (21 U.S.C. 1176).

Subpart A—Grants to States for Drug Abuse Prevention Functions

§ 54b.101 Applicability.

The regulations of this subpart apply only to grants under section 409 of the Act to assist the States in the preparation of plans for planning, establishing, conducting, and coordinating projects for the development of more effective drug abuse prevention functions in each State; in carrying out projects under and otherwise implementing such plans; in evaluating the results of such plans as implemented; and in paying the administrative expenses of carrying out such plans.

§ 54b.102 Definitions.

All terms not defined herein shall have the same meanings as given them in the Act. As used in this subpart:

(a) "Act" means the Drug Abuse Office and Treatment Act of 1972 (86 Stat. 65; 21 U.S.C. 1101 et seq.).

(b) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority has been delegated.

(c) "State" means the 50 states, the District of Columbia, the Virgin Islands, the Commonwealth of Puerto Rico, Guam, American Samoa, and the Trust Territory of the Pacific Islands.

(d) "State plan" means the plan for planning, establishing, conducting, and coordinating projects for the development of more effective drug abuse prevention functions in the State and for evaluating the conduct of such functions which contains the information, proposals, and assurances required by section 409 of the Act and the regulations of this subpart.

(e) "State agency" means the single State agency, which may be an individual agency or an interdepartmental agency, designated by the State as the sole agency for the preparation and administration of the State plan or for supervising the preparation and administration of the State plan.

(f) "Population", with respect to any State or area thereof, means the latest figures of total population certified by the United States Department of Commerce.

§ 54b.103 Allotments.

(a) *Allotments to States.*—The allotments to the several States under section 409 of the Act will be computed by the Secretary as follows:

(1) One-third weight on the basis of total population weighted by financial need, as determined by the relative per capita income for each State for the three most recent consecutive years for which data is available from the Department of Commerce.

(2) One-third weight on the basis of the need for more effective conduct of drug abuse prevention functions as measured by an estimate of chronic drug abusers in each State relative to the total number of chronic drug abusers in the United States, based upon the latest statistical data available to the Secretary.

(3) One-third weight on the basis of the relative additional need for more effective conduct of drug abuse prevention functions as measured by the relative difference between each State's percentage share of the total population of the United States and such State's percentage share of Federal funds which had been obligated for the support of drug abuse prevention functions within all the States as of October 18, 1972, as determined by the Secretary.

Example: A State which has 10 percent of the total population and which had re-

V38-166
AUG 28 73
XUM

ceived 5 percent of the total Federal funds obligated for the support of drug abuse prevention functions within all the States as of October 18, 1972, would be allotted, from the one-third of the appropriation distributed pursuant to this factor, an amount equal to twice as much as a State which has 10 percent of the total population and which had received 7½ percent of the total Federal funds obligated for such purposes as of October 18, 1972. A State which had received a percentage of such funds equal to or greater than its percentage share of the total population of the United States would be allotted zero funds under this factor.

(b) If, after determining the amount of the allotment for each State in accordance with paragraph (a) of this section, it appears that any State (with the exception of the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands) would receive less than the minimum allotment prescribed by section 409(c)(1) of the Act, the Secretary shall reduce the shares of each State which would receive more than such minimum allotment by an equal percentage and reallocate such sums as required to assure that every State (other than the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands) will receive at least the prescribed minimum allotment.

§ 54b.104 Transfer of allotments.

(a) *Allotments to the 50 States, the District of Columbia and the Commonwealth of Puerto Rico.*—Any amount allotted to any of the 50 States, the District of Columbia, or the Commonwealth of Puerto Rico for a fiscal year which remains unobligated at the end of such fiscal year shall remain available to such State, for the purposes for which made, for the next fiscal year and any such amount shall be in addition to the amounts allotted to such State for such next fiscal year; Provided, that any amount remaining unobligated at the end of the sixth month following the end of the fiscal year for which such amount was allotted may be reallotted by the Secretary to any other of the States having need therefor, on such basis as the Secretary deems equitable and consistent with the purposes of the Act, if the Secretary determines that such amounts will remain unobligated at the end of the next fiscal year following the fiscal year for which such amounts were allotted. Funds thus reallotted to any of the States shall be available for the purposes for which made until the close of such next fiscal year. Any amount so reallotted shall be in addition to the amounts allotted and available for the same period.

(b) *Allotments to the Virgin Islands, American Samoa, Guam, and the Trust Territory of the Pacific Islands.*—Any amount allotted to the Virgin Islands, American Samoa, Guam, or the Trust Territory of the Pacific Islands for a fiscal year which remains unobligated at the end of such year shall remain available for the purposes for which made for the next two fiscal years, and any such amount shall be in addition to the amounts allotted for each of such next two fiscal years; *Provided*, That any amount remaining unobligated at the close of the first of such next two years, which the Secretary determines will remain unobligated at the close of the second of such next two years, may be reallotted by the Secretary to any other of the foregoing four States which has a need therefor, on such basis as the Secretary deems equitable and consistent with the purposes of the Act, to be available until the close of the second of such next two fiscal years. Any amount so reallotted shall be in addition to the amounts allotted and available for the same period.

(c) *Reallotment determination.*—In determining whether a reallotment of funds to a particular State would be equitable and consistent with the purposes of the Act, the Secretary will consider:

(1) The extent to which the proposed recipient State has demonstrated a high incidence of drug abuse problems in its general population;

(2) The extent to which the proposed recipient State has demonstrated an urgent need for drug abuse services for a specific target population group;

(3) The extent to which the proposed recipient State is effectively implementing its State plan provisions for drug abuse services; and

(4) Such other factors as the Secretary may find to be relevant.

(d) *Reports.*—In order to assist the Secretary in making the reallotments authorized by the Act and this section each State shall, with respect to each fiscal year for which it receives an allotment, submit a report to the Secretary describing in detail how it plans to obligate funds from the allotment which have not been obligated by the date of the report and what funds, if any, it does not plan to obligate during the period in which such funds are available for obligation.

(1) Each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico shall file such report not later than the end of the sixth month following the end of the fiscal year for which the allotment was made.

(2) The Virgin Islands, American Samoa, Guam, and the Trust Territory of the Pacific Islands shall each submit such report not later than the end of the first fiscal year following the fiscal year for which the allotment was made.

§ 54b.105 Grants for preparation of State plans.

In order to receive funds from its allotment for the preparation of a State plan a State must submit an application to the Secretary in accordance with the requirements of this section.

(a) *Eligible applicants.*—An application for a grant under this section shall be submitted by the State agency or, if no State agency has been designated or established, by an agency designated and authorized by the State to apply for funds for the preparation of the State plan and to begin preparation of the State plan pending designation of the State agency.

(b) *Application.*—An application for a grant for the preparation of a State plan shall be in such form and shall be submitted at such time and in such manner as the Secretary may prescribe. Each application shall contain:

(1) Evidence that the applicant has been duly designated and authorized to apply for a grant and to prepare the State plan;

(2) A statement of the amount of the State's allotment which is requested for preparation of the State plan;

(3) An assurance that the funds requested will be used for the preparation of a State plan which is intended to meet the requirements of section 409(e) of the Act and the regulations of this subpart and only for payment of the costs incurred in such preparation, and a proposed budget for the expenditure of such funds;

(4) An assurance that the grant funds will be so used as to supplement and increase, to the extent feasible and practical, the level of State, local, and other non-Federal funds that would, in the absence of the grant, be made available to prepare a State plan and will in no event supplant such State, local, and other non-Federal funds; and

(5) An assurance that the views of representatives of State and local governments, public and private agencies or organizations concerned with drug abuse problems, and of the general public will be sought and considered in the development of the State plan.

(c) *Grant award.*—(1) All grant awards under this section shall be in writing and shall, subject to the limitation in paragraph (c)(2) of this section, set forth the amount of funds granted and the period for which such funds will be available for obligation by the State.

(2) No grant award under this section shall exceed $100,000: *Provided, however*, That the Secretary may make a supplemental grant award upon the written request of the applicant if he finds that all funds available under the initial grant award have been obligated, and that the proposed expenditure for planning purposes of the requested additional funds is justified and consistent with the Act and the regulations of this subpart and that sufficient funds are available from the State's allotment.

(d) *Payments.*—The Secretary will from time to time make payments to the State of all or a portion of the grant award, either in advance or by way of reimbursement.

(e) *Expenditure of funds.*—Grant funds awarded under this section may be expended only for the purpose of preparing a State plan which is intended to meet the requirements of section 409(e) of the Act and the regulations of this subpart. Allowability of costs incurred in such preparation shall be determined in accordance with the principles set forth in Chapter 5-60 of the Department of Health, Education, and Welfare Grants Administration Manual.[1]

(1) Examples of allowable costs under this section include costs incurred for conducting demographic and statistical surveys, including salaries for key punch operators and computer time and costs incurred by citizen committees convened to provide advice with respect to the preparation of the State plan.

(2) Examples of costs which are not allowable under this section include general administrative costs not related to the development of the State plan and costs arising from the implementation of an approved State plan such as travel and per diem costs of members of the State Advisory Council incurred in connection with such implementation.

(f) *Participation by other agencies.*—Funds from the grant award may be made available, in accordance with the requirements of § 54b.116, to sub-State regional, county, city, or other planning groups or agencies for input into the overall State plan and for development of a local drug abuse prevention and treatment plan which, upon approval by the chief executive officer of the locality and the applicant, shall be incorporated by reference in the State plan.

(g) *Records and reports.*—(1) All payments made by the Secretary under this section shall be recorded by the State on accounting records separate from the records of all other funds including funds made available from the State's allotment for other purposes. Such records shall conform to the standards set forth in § 54b.114 and shall be retained and subject to inspection as required by § 54b.118.

(2) Each grant awarded pursuant to this section shall be subject to the condition that the State shall file performance and fiscal reports with the Secretary in accordance with the provisions of, respectively, §§ 54b.112(b) and 54b.119.

(h) *Grant closeout.*—Closeouts of grants awarded pursuant to this section shall be made in accordance with the following procedures:

(1) When all work under the grant is completed or upon the date specified in the grant award or any supplement or amendment thereto as the date on which Federal assistance ends, all unobligated balances of cash advanced to the State shall be immediately refunded to the Secretary or otherwise disposed of in accordance with his instructions.

(2) Upon request, the Secretary shall, within the limits of the grant award, make, or arrange for, prompt payment to the State for allowable reimbursable costs not covered by previous payments.

(3) The provisions of § 54b.115 shall be observed by the applicant in accounting for any property acquired with Federal funds or received from the Federal Government in connection with the grant.

(4) Within 90 days of the date of completion of all work under the grant or the end of the grant period, whichever is earlier, the applicant shall furnish all financial, performance, and other reports required by the regulations of this subpart or otherwise required by the Secretary. The Secretary may grant extensions when requested by the applicant. After receipt of these reports, the Secretary shall make a settlement for any upward or downward adjustment of the Federal share of costs, to the extent called for by the terms of the grant.

(5) In the event a final audit has not been performed prior to the closeout of the grant, the Secretary shall retain the right to recover an appropriate amount after fully considering the recommendations on disallowed costs resulting from the final audit.

(i) *Grant suspension and termination.*—Grants awarded pursuant to this section may be suspended and terminated by the Secretary in accordance with § 54b.122.

§ 54b.106 State plan; submission and review.

(a) *Submission.*—In order to receive funds from its allotment for the purposes authorized by sections (b)(2) and (b)(3) of section 409 of the Act, a State must submit to and have approved by the Secretary a State plan which meets the requirements specified in the Act and the regulations of this subpart. The initial State plan submitted by each of the States shall contain all of the information, proposals and assurances requires by these regulations. As prescribed in paragraph (b) of this section, changes in the information and proposals contained in the initial State plan shall be incorporated by reference in modifications of the State plan submitted to the Secretary for his approval. Documents incorporated by reference in such modifications become a part of the State plan as though fully set forth therein. Such documents must be:

(1) Clearly identified as to subject, date and location,

(2) Officially adopted and disseminated in accordance with applicable procedures, and

(3) Made available to the Secretary and to the public for inspection.

(b) *Review.*—The State agency shall from time to time, but not less often than annually, review its State plan and submit to the Secretary for approval modifications thereof which shall:

(1) Contain budgetary requirements for the new fiscal year and such updates of the assurances contained in the State plan as may be prescribed by the Secretary; and

(2) Incorporate by reference such changes in the proposals and information contained in the State plan as may be prescribed by the Secretary and such additional changes as the State agency may consider to be necessary.

(c) *Review and comment by the Governor.*—Prior to submission to the Secretary of the State plan or any modification thereof the Governor of the State shall be afforded a reasonable opportunity to review and comment upon such plan or modification. The comments of the Governor, if any, must be submitted to the Secretary with such plan or modification.

(d) *Publicizing the State plan.*—Concurrently with submission to the Secretary of the State plan or any modification thereof, the State agency shall publicize a general description of the proposed plan or modification. The State plan and modifications thereof shall be readily available and accessible for examination and comment by interested persons both prior to and after submission of such plan or modification to the Secretary.

§ 54b.107 State plan; purpose, consistency with other plans.

(a) *Purpose.*—The purpose of the State plan is to provide a rational and more effective basis for the utilization of Federal, State, and all other available resources in establishing, conducting, maintaining, and evaluating all drug abuse prevention activities within the State, and for ongoing planning for improvement or expansion of such activities, as necessary.

(b) The State plan must demonstrate:

(1) That it is, to the extent practicable, consistent with the drug abuse component of the State plan for comprehensive health or mental health planning developed pursuant to section 314(a) of the Public Health Service Act (42 U.S.C. 246(a)), if such a drug abuse component exists, and that cognizance has been taken of other Statewide and local plans for drug abuse planning in the State;

(2) That cognizance has been taken of area-wide or sub-State regional planning in such areas as comprehensive health, vocational rehabilitation, urban development, alcoholism, corrections, and welfare services, including any pertinent plans developed pursuant to section 314(b) of the Public Health Service Act;

(3) That in cases where services or activities are to be provided across State lines, such services or activities are consistent with the drug abuse plan or plans of the State or States concerned; and

(4) That there has been, to the maximum extent practicable coordination with city, metropolitan area, sub-State regional, or interstate planning agencies to achieve consistency in planning for drug abuse prevention activities and other health, vocational rehabilitation, welfare, and physical development plans.

(c) In order to supplement, broaden, and complement State health plans developed under section 314(d)(2) of the Public Health Service Act (42 U.S.C. 246(d)(2)), the State plan shall contain:

(1) Provisions for the licensing or accreditation of treatment and rehabilitation facilities for persons with drug abuse and drug dependence problems required under section 314(d)(2)(K)(i) of the Public Health Service Act (42 U.S.C. 246(d)(2)(K)(i)). Such provisions shall include:

[1] The Department Grants Administration Manual is available for inspection at the Public Information Office of the several Department Regional Offices and available for purchase at the Government Printing Office, GPO Document No. 894-523.

V38-166 AUG 28 73 XUM

(i) Minimum standards for maintenance and operation of each type of drug abuse treatment and rehabilitation facility which each such facility must meet in order to qualify for licensure or accreditation;

(ii) A description of the specific methods for licensing or accrediting the facilities which qualify under the standards and identification of the persons or agencies responsible for carrying out such methods; and

(iii) A description of the sanctions or penalties imposed for noncompliance, and the incentives, if any, offered for compliance; and

(2) Provisions for expansion of State mental health programs in the field of drug abuse and drug dependence as required by section 314(d)(2)(K)(ii) of the Public Health Service Act (42 U.S.C. (d)(2)(K)(ii)) which shall be consistent with the action plan required under § 54b.111(d).

§ 54b.108 State plan; coordination.

The State plan must contain policies and procedures for coordinating all drug abuse prevention activities and programs planned or implemented by governmental and nongovernmental agencies, organizations, groups, or individuals within the State to assure that all such efforts are nonduplicative and are consistent with the State plan, including policies and procedures under which the State agency will:

(a) Provide consultation to, and consult with, other State and local agencies concerned with health, vocational rehabilitation, law enforcement, education, and other related planning activities which affect or are related to the State plan, with particular emphasis on assisting the State agencies which administer, respectively, the Comprehensive Health Services Plan (authorized by section 314(d) of the Public Health Service Act) and the Community Mental Health Centers Plan (authorized by section 204 of the Community Mental Health Centers Act) in carrying out the requirements, respectively, of section 314(d)(2)(K) of the Public Health Service Act (42 U.S.C. 246(d)(2)(K)) and section 204(c) of the Community Mental Health Centers Act (42 U.S.C. 2684(c));

(b) Review applications for assistance under section 410 of the Act; *Provided*, That the State plan may contain a written waiver of the right of review with respect to all or certain categories of applications for assistance under section 410. If the State plan does not include a waiver of all such review rights, it must describe policies and procedures for review which shall provide that the State agency will:

(1) Prepare a written evaluation of the project described in the application which shall include comments on the relationship of the project to other projects pending and approved and to the State plan;

(2) Submit such evaluation to the Secretary within 30 days of the date upon which the State agency received the application for assistance; and

(3) Furnish a copy of the evaluation to the applicant;

(c) Review applications for assistance under section 256 of the Community Mental Health Centers Act (42 U.S.C. 2688n-1) and submit to the Secretary within 30 days of the date the State agency received the application either such comments as it deems necessary or a written notification that it has no comments;

(d) Review and comment upon other proposals for drug abuse prevention, treatment, and rehabilitation activities to be conducted within the State which are submitted to it for this purpose by other agencies or organizations;

(e) Ensure that agencies or authorities which have interests or responsibilities related to the project and program proposals developed or reviewed by the State agency have been afforded a reasonable opportunity to review such proposals;

(f) Obtain such data and information from other organizations and individuals as may be necessary to implement and modify the State plan and incorporate such data and information into a management information system at the State level, which shall be, to the extent practicable, consistent with Federal information systems;

(g) Inform interested agencies and organizations and the general public about the agency's activities and recommendations, including information about scientific, technological, and programmatic advances in drug abuse prevention and treatment; and

(h) Provide advice and guidance to State and local governmental officials and legislators in the development of laws, regulations, or policy on all matters pertaining to drug abuse prevention functions.

§ 54b.109 State plan; single State agency.

(a) The State plan must contain documentary evidence of the designation or establishment of a single State agency. Such documentation shall include:

(1) The Executive Order, Statute, resolution, motion or similar action by the State authority which designated or established the State agency; and

(2) Evidence that the State agency has legal authority to apply on behalf of the State for the grants authorized by section 409 of the Act and to carry out all duties and responsibilities required by the Act and by the regulations of this subpart.

(b) The State agency may have designated responsibilities for State alcohol abuse and alcoholism programs as well as State drug abuse programs; *Provided, however*, That the State plan must include documents which identify the officials who will head each area of responsibility, and establish policies and procedures for ensuring that separate records are maintained with respect to the alcohol abuse and drug abuse programs and that all other Federal requirements applicable to each such program are met.

(c) If part or all of the responsibility for preparing or administering the State plan has been or is to be delegated to one or more agencies (under the supervision of the State agency), the State plan must include documents which identify such other agency or agencies, including local governmental agencies, and set forth the responsibilities of each such agency.

§ 54b.110 State plan; State advisory council.

(a) *Establishment; scope of authority.*—The State plan must provide for the establishment of a State Drug Abuse Advisory Council to consult with and advise the State agency in carrying out the State plan.

(b) *Membership; selection.*—The State Advisory Council shall, as a minimum, include representatives of public and nongovernmental organizations or groups, and of agencies concerned with drug abuse prevention functions from different geographical areas of the State.

(1) Representatives of nongovernmental organizations and groups and of public agencies which are in frequent contact with drug abusers are eligible for membership on the Council even though such organizations, groups, or agencies are not engaged in the direct provision of drug abuse prevention, treatment or rehabilitation services. For example, representatives of welfare agencies, vocational rehabilitation agencies, police, schools, courts, citizen groups, employee groups, and employers' organizations would be eligible for Council membership.

(2) The State plan shall contain the policies and procedures for selection of Advisory Council members, and a list of members for the current fiscal year, their names, addresses, occupations, and affiliations.

(c) *Multi-purpose councils.*—The State plan may establish a new Council or designate an existing Council established for some other purpose (for example a planning advisory Council or joint drug abuse and alcoholism council) to perform the duties of the Drug Abuse Advisory Council, provided that the membership, when sitting as a Drug Abuse Advisory Council, must meet the requirements of this section.

(d) *Meetings; recommendations.*—(1) The State plan shall contain guidelines and instructions establishing the time, place, and frequency of meetings of the Council which shall provide, as a minimum, for annual meetings of the Council.

(2) The State agency shall maintain, on an annual basis, records of the recommendations made to it by the State Drug Abuse Advisory Council and, if such recommendations are not adopted, the reasons therefor. Such records shall be retained and subject to inspection in accordance with § 54b.118. Copies of the records for the pertinent year shall be included in the annual report to the Secretary required by § 54b.112.

§ 54b.111 State plan; survey of need; resource allocation plan.

(a) *Need.*—The State plan must contain an assessment of the need for drug abuse programs throughout the State. Such assessment shall include:

(1) An assessment of the extent of the problem of drug abuse and drug dependency in various geographic areas and subareas of the State, including estimates (and the basis for these estimates) of the number of drug abusers as measured by the best available set of drug abuse indicators in the area under consideration. In connection with this assessment each State shall initiate a survey to determine the total number of chronic drug abusers in the State through an unduplicated count.

(2) A description of factors which may relate to the extent and severity of the drug abuse or drug dependence problem including economic factors, special health, vocational, or social problems, special problems of urban and suburban settings, drug abuse in the context of law enforcement and criminal justice, and ethnic and geographic factors.

(3) A description of the special needs of specific high risk or target population groups in the State.

(4) A description of financial support currently provided for drug abuse treatment, vocational rehabilitation, prevention, education, and training, including third party payments, charitable contributions, county bond issues, grants for law eforcement and criminal justice, and all other Federal, State, and local public or private funds provided for drug abuse programs within the State.

(b) *Current Resources.*—The State plan shall contain a description of the present availability and accessibility of all public and private health and related resources and programs for serving the needs of drug abusers and drug dependent individuals within the State, which shall include:

(1) Resources available from and services currently provided by: (i) State and local governments; (ii) Public and private employers for their employees; (iii) Self-help groups; and (iv) Public and private health care facilities such as hospitals, community mental health centers, and neighborhood health centers; and

(2) An estimate of the number of available personnel who are qualified to provide such services and a description of their training and experience.

(c) *Additional resources needed.*—The State plan must contain a description of the additional resources, including facilities and personnel, training, technical assistance, and funds necessary to meet those needs identified pursuant to paragraph (a) of this section which are not being met by the existing resources described pursuant to paragraph (b) of this section.

(d) *Action plan.*—The State plan must contain an action plan which:

(1) Describes the steps necessary to secure and develop the necessary resources described in paragraph (c) of this section;

(2) Establishes priorities for distribution of facilities and services in all geographic areas and subareas of the State;

(3) Sets forth, in order of such priority, the additional projects and programs required to meet the unmet need, the estimated costs of each and the source of financial and other resources expected to support each project or program, including those drug abuse prevention functions to be supported with funds made available under section 409 of the Act and the regulations of this subpart;

(4) Includes a timetable for completing all such projects and programs; and

(5) Includes a long-term plan for expansion or diminution of existing resources or development of new resources in accordance with projected estimates of future needs.

§ 54b.112 State plan; monitoring and reporting of program performance.

(a) *Review; monitoring of performance.*—The State plan shall contain policies and procedures under which the State agency will:

(1) From time to time, but not less often than annually, review its State plan and submit modifications thereof to the Secretary as required by § 54b.106(b); and

(2) Constantly monitor and review the performance of all programs and activities receiving support from the State's allotment in order to assure that time schedules are being met, project work units by time periods are being accomplished, and other performance goals are being achieved and submit, not later than 90 days after the end of each fiscal year (The Secretary may approve a request for an extension of such due date if he determines that the request is justified.), a performance report which shall analyze and evaluate the effectiveness of the prevention and treatment programs and activities carried out under the plan. Copies of the performance report shall be furnished to the agency or agencies having direct responsibility for enforcing the State standards for maintenance and operation of prevention, treatment, and rehabilitation facilities and programs.

(b) *Contents of performance report.*—The performance report shall contain the following information with respect to each program, function, or activity carried out under the State plan:

(1) A comparison of actual accomplishments to the goals established for the fiscal year. Where the output of a particular activity or program can be readily quantified, such quantitative data shall be related to cost data for computation of unit costs;

(2) Reasons for failure to attain established goals; and

(3) Such other pertinent information as the Secretary may prescribe including, when appropriate, analysis and explanation of cost overruns or high unit costs.

(c) *Interim reporting.*—States shall promptly inform the Secretary in writing of events occurring between the scheduled performance reporting dates which have significant impact upon the program or activity supported with funds from the State allotment. The following types of conditions are subject to this prompt reporting requirement:

(1) Problems, delays, or adverse conditions which will materially affect the ability to attain program objectives, prevent the meeting of time schedules and goals, or preclude the attainment of project work units by established time periods. This disclosure shall be accompanied by a statement of the action taken, or contemplated, and any additional Federal assistance needed to resolve the situation; and

(2) Favorable developments or events which enable meeting time schedules and goals sooner than anticipated or producing more work units than originally projected.

(d) *Site visits by the Secretary.*—Site visits will be made by representatives of the Secretary as frequently as practicable to:

(1) Review program accomplishments and management control systems; and

(2) Provide such technical assistance as may be required.

§ 54b.113 State plan; administration.

(a) Upon application by any State on such forms, at such time, and in such manner as the Secretary may prescribe, a portion of any allotment or allotments of such State may be made available in accordance with subsection (b)(3) of section 409 of the Act for payment of the State administrative expenses incurred in carrying out the approved State plan. Allowability of such administrative costs shall be determined in accordance with the principles set forth in Chapter 5-60 of the Department of Health, Education, and Welfare Grants Administration Manual.[1]

(1) *Allowable costs.*—Funds made available under this section may be used to pay costs incurred for the following purposes:

(i) Costs of compensation of personnel, including consultants, and other administrative expenses directly related to administering or supervising the administration of the State plan, in accordance with the applicable provisions of the Act and the regulations of this subpart.

(ii) Expenses of the State advisory council designated pursuant to section 409(e)(3) of the Act, including per diem and travel expenses incurred by council members at rates not exceeding those established under applicable State law.

(iii) Expenses of regional and local drug abuse and drug advisory groups to the extent that such groups provide advice or contractual services related to administering, or supervising the administration of, the State plan.

(2) *Nonallowable costs.*—Funds made available under this section may not be used to pay:

(i) Administrative costs exceeding 10 percent of the State allotment for the fiscal year or $50,000, whichever is less.

[1] The Department Grants Administration Manual is available for inspection at the Public Information Office of the Several Department Regional Offices and available for purchase at the Government Printing Office, GPO Document No. 894-523.

FEDERAL REGISTER, VOL. 38, NO. 166—TUESDAY, AUGUST 28, 1973

V 38 - 166 AUG 28 73 XUM

(ii) Expenses of central administrative departments of State and local governments other than those directly related to administration of the State plan.

(iii) Administrative costs of services which the State is required to provide at its own expense in order to satisfy the maintenance of effort requirement.

(iv) Acquisition of land or construction or acquisition of buildings.

(3) *Applications.*—Each application submitted under this section shall state the amount requested to be made available for expenditures under this section and shall set forth a budget statement which shall list proposed expenditures by general category.

(4) *Records.*—All payments made by the Secretary under this section shall be recorded by the State on accounting records separate from the records of all other funds including other funds made available from the State's allotment for other purposes. Such records shall conform to the standards set forth in § 54b.144 and shall be retained and subject to inspection as required by § 54b.118.

(5) *Reports.*—The State shall file performance and financial reports relating to the expenditure of funds made available under this section in accordance with the provisions of, respectively, §§ 54b.112 and 54b.119.

(b) *Personnel administration.* (1) *Merit system personnel.*—The State plan shall provide for the establishment and maintenance of personnel standards on a merit basis for persons employed by the State agency in the administration or supervision of the administration of the State plan. Conformity with Standards for a Merit System of Personnel Administration, 45 CFR Part 70, issued by the Secretary of Health, Education, and Welfare, including any amendments thereto, and any standards prescribed by the U.S. Civil Service Commission pursuant to section 208 of the Intergovernmental Personnel Act of 1970 (Public Law 91–648; 84 Stat. 1915) modifying or superseding such standards, will be deemed to meet this requirement as determined by said Commission. Laws, rules, regulations, and policy statements, and amendments thereto, effectuating such methods of personnel administration shall be included in the State plan.

(2) *Equal employment opportunity.*—Equal employment opportunity will be assured in the State merit system and affirmative action provided in its administration. Discrimination against any person in recruitment, examination, appointment, training, promotion, retention, discipline or any other aspect of personnel administration because of political or religious opinions or affiliations or because of race, national origin, or other nonmerit factors will be prohibited. Discrimination on the basis of age or sex or physical disability will be prohibited except where specific age, sex, or physical requirements constitute a bona fide occupational qualification necessary to proper and efficient administration. The State merit system must include procedures for appeals in cases of alleged discrimination to an impartial body whose determination shall be binding upon a finding of discrimination. The State must develop an affirmative action plan to assure such equal employment opportunity which shall be subject to inspection, comment and approval by the Secretary. Such plan shall contain such information and be completed on such date as the Secretary may prescribe.

(3) *Assurances.*—The State plan shall contain assurances that:

(i) The State agency will establish safeguards to prohibit employees from using their positions for a purpose that is or gives the appearance of being motivated by a desire for private gain for themselves or others, particularly those with whom they have family, business, or other ties.

(ii) The State will establish policies and procedures to assure that no qualified applicant for a position supported in whole or in part from funds made available from the State's allotment will be denied employment solely on the basis of a prior history of drug abuse or drug dependence.

(4) *Other personnel.*—The State plan must include professional standards to be followed in hiring individuals (other than employees under a governmental merit system) to carry out activities related to the implementation of the State plan. Such standards shall include schedules or other bases upon which the salaries of such personnel are determined and paid which shall be in accord with the usual and customary practices in the State.

§ 54b.114 State plan; financial management systems; program income.

(a) *Financial management.* — The State plan shall provide for the establishment of a State financial management system and describe policies and procedures under which subgrantees (public and nonprofit private agencies, institutions and organizations receiving funds from the State's allotment) will be required to establish financial management systems. The State and subgrantee financial management systems shall provide for:

(1) Accurate, current, and complete disclosure of the financial results of expenditures of funds from the State's allotment in accordance with financial reporting requirements prescribed by the Secretary.

(2) Records which identify adequately the source and application of funds for activities supported with funds from the State's allotment. These records shall contain information pertaining to allotments and authorizations, obligations, unobligated balances, assets, liabilities, outlays, and income.

(3) Effective control over and accountability for all funds, and property and other assets acquired with funds from the State's allotment. States and their subgrantees shall adequately safeguard all such assets and shall assure that they are used solely for authorized purposes.

(4) Comparison of actual with budgeted amounts for each of the grants from the State's allotment authorized respectively by subsections (b)(1), (b)(2), and (b)(3) of section 409 of the Act, and when specifically required by the Secretary, relation of financial information with performance of productivity data, including the production of unit cost information.

(5) Procedures to minimize the time elapsing between the transfer of funds from the U.S. Treasury and the disbursement by the State, whenever funds are advanced by the Federal Government. When advances are made by letter-of-credit method, the State shall make drawdowns from the U.S. Treasury through its commercial bank as close as possible to the time of making the disbursements. Subgrantees shall adopt analogous procedures when funds are advanced by the State.

(6) Procedures for determining the allowability and allocability of costs in accordance with the applicable cost principles set forth in Chapter 5–60 of the Department of Health, Education, and Welfare Grants Administration Manual.[1] Costs incurred in the preparation of the State plan and costs of administration of the State plan are allowable in accordance with, respectively, §§ 54b.105 and 54b.113. Funds made available to States under subsection (b)(2) of section 409 of the Act may be expended for the expenses of carrying out projects under and otherwise implementing an approved State plan and evaluating the results of such plan as actually implemented, except that the following costs shall not be included:

(i) Costs incurred in the acquisition of land or construction or acquisition of buildings; and

(ii) Such other costs as the Secretary may find to be inconsistent with the Act or the regulations of this subpart.

(7) Accounting records which are supported by source documentation.

(8)(i) Audits to be made by the State or at its discretion to determine, at a minimum, the fiscal integrity of financial transactions and reports, and compliance with laws, regulations, and administrative requirements applicable to the grant. The State will schedule such audits with reasonable frequency, usually annually, but not less frequently than once every two years, considering the nature, size, and complexity of the activity.

(ii) Subgrantees which are State or local governments shall, with respect to the subgrant, conduct or provide for audits which meet the requirements set forth in paragraph (a)(8)(i) of this section. Subgrantees other than State or local governments are encouraged but not required to comply with the standards set forth in paragraph (a)(8)(i) of this section.

[1] The Department Grants Administration Manual is available for inspection at the Public Information Office of the several Department Regional Offices and available for purchase at the Government Printing Office, GPO Document No. 984–523.

(9) A systematic method to assure timely and appropriate resolution of audit findings and recommendations.

(b) *Accounting for program income.* (1) *Interest.*—Pursuant to section 203 of the Intergovernmental Cooperation Act of 1968 (42 U.S.C. 4213) a State will not be held accountable for interest earned on grant funds pending their disbursement for grant purposes. A State, as defined in section 102 of the Intergovernmental Cooperation Act, means any one of the several States, the District of Columbia, Puerto Rico, any territory or possession of the United States, or any agency or instrumentality of a State, but does not include the governments of the political subdivisions of the State.

(2) *Meaning of "program income."*—As used in this paragraph, the term "program income" means earnings by the State realized from grant-supported activities as a result of a grant under this subpart. Such earnings exclude interest income and include, but are not limited to, income from service fees, sale of commodities, usage or rental fees, sale of assets purchased with funds from the State's allotment and royalties on patents and copyrights.

(3) *Sale of personal property.*—Proceeds from the sale of personal property, the acquisition cost of which was borne in whole or in part by funds from the State's allotment, shall be handled in accordance with § 54b.115.

(4) *Royalties.*—Royalties received by States from copyrights on publications developed with funds from the State's allotment and royalties received by States from patents or inventions conceived or first actually reduced to practice in the course of or under a grant to the State under this subpart shall be handled as follows:

(i) Royalties received during the grant period shall be retained by the State which may elect to use such royalties for purposes which further the objectives of section 409 of the Act or to deduct such royalties from total costs for the purpose of determining the net costs on which the Federal share of costs will be based, unless the terms and conditions of the grant specify that one of such alternatives is to be followed.

(ii) In the absence of a specific agreement between the Secretary and the State, the Federal share of copyright royalties in excess of $200 received annually after termination or completion of the grant period shall be paid to the Secretary. The Federal share of such royalties shall be computed on the same ratio basis as the percentage of Federal participation in the cost of the project or program.

(iii) Patents. Disposition of patent royalties received after termination or completion of the grant period shall be governed by agreements between the Secretary and the grantee, pursuant to the Department's patent regulations (Parts 6 and 8 of Title 45.)

(5) *Other program income.*—All program income earned during the grant period except royalties and proceeds from the sale of personal property shall be retained by the State which may elect to use such income for purposes which further the objectives of section 409 of the Act or to deduct such income from total costs for the purpose of determining the net costs on which the Federal share of costs will be based, unless the terms and conditions of the grant specify that one of such alternatives is to be followed.

§ 54b.115 Property management.

(a) *Definitions.*—As used in this section:

(1) "Real property" means land, land improvements, structures and appurtenances thereto, excluding movable machinery and equipment.

(2) "Personal property" means property of any kind except real property. It may be tangible—having physical existence, or intangible—having no physical existence.

(3) "Nonexpendable personal property" means tangible personal property having a useful life of more than one year and an acquisition cost of $300 or more per unit. A State may use its own definition of nonexpendable personal property provided that such definition includes all tangible personal property as defined by this subparagraph.

(4) "Expendable personal property" refers to all tangible personal property other than nonexpendable property.

(5) "Acquisition" means the obtaining of property through purchase, construction or fabrication.

(6) "Acquisition cost" when applied to the acquisition of nonexpendable personal property by purchase means the net invoice price of the property, including any attachments, accessories, or auxiliary apparatus necessary to make the property usable for the purpose for which it was acquired. Ancillary charges such as taxes, duty, in-transit insurance, freight, or installation shall be included in or excluded from acquisition cost in accordance with the State's regular accounting procedure.

(b) *Nonexpendable personal property.* (1) *Title.*—When nonexpendable personal property is acquired by a grantee wholly or in part with funds from the State's allotment, title shall be vested in the grantee.

(2) *Use.*—(i) The grantee shall retain such property in the grant-supported activity as long as there is a need for such property to accomplish the purpose of the activity, whether or not the activity continues to be supported by Federal funds.

(ii) When there is no longer a need for the property to accomplish the purpose of the original activity, the grantee shall use the property, as needed, in connection with other Federal awards it has received in the following order of priority:

(A) Other awards under Federal programs administered by the National Institute of Mental Health;

(B) Awards of other components of the Department of Health, Education, and Welfare and other Federal agencies.

(iii) When the grantee no longer has need for such property in any of its Federally financed activities, the property may be used for the grantee's own official activities in accordance with the following standards:

(A) If the property had an acquisition cost of less than $500 per unit and has been used for four years or more, the grantee may use the property without reimbursement to the Federal Government or sell the property and retain the proceeds;

(B) For all such property not covered under subdivision (A) of this subdivision, the grantee may retain the property for its own use provided that a fair compensation is made to the Federal Government for the Federal share of the property. The amount of such compensation shall be computed by applying the percentage of Federal participation in the total cost of the activity to the current fair market value of the property.

(3) *Disposition.*—If the grantee has no need for the property, disposition of the property shall be made as follows:

(i) If the property had an acquisition cost of $1,000 or less per unit (except for property covered under paragraph (b)(2)(iii)(A) of this section), the grantee shall sell the property and reimburse the Federal Government in accordance with paragraph (b)(2)(iii)(B) of this section.

(ii) If the property had an acquisition cost of over $1,000 per unit, the grantee shall request disposition instructions from the Secretary. The Secretary shall issue instructions to the grantee within 120 days following the receipt of such request and the following procedures shall govern:

(A) If the grantee is instructed to ship the property elsewhere, the grantee will be reimbursed by the Federal Government with an amount which is computed by applying the percentage of the grantee's participation in the grant supported activity to the current fair market value of the property.

(B) If the grantee is instructed to otherwise dispose of the property, the grantee will be reimbursed by the Federal Government for the costs incurred in such disposition.

(C) If disposition or other instructions are not issued within the 120-day period the grantee shall sell the property and reimburse the Federal Government with an amount which is computed by applying the percentage of Federal participation in the activity to the sales proceeds. The grantee may retain $100 or 10 percent of the proceeds, whichever is greater, for the grantee's selling and handling expenses.

(c) *Special property.*—Where the Secretary determines that nonexpendable personal property with an acquisition cost of $1,000 or more and financed solely with Federal funds is unique, difficult, or costly to replace, he may reserve the right to require the grantee to transfer title to the property to the Federal Government or to a third party named by the Secretary, subject to the following provisions:

V 38 - 166 AUG 28 73 XUM

(1) The right to require transfer of title may be reserved only by means of an express special condition in the grant award document.

(2) The property must be appropriately identified in the award document or otherwise made known to the grantee.

(3) The Secretary may not exercise the right until the grantee no longer needs the property in the activity for which it was acquired. Such need shall be presumed to end on the date of completion or termination of the grant unless the grantee continues to conduct the activity after that date and demonstrates to the Secretary a continued need for the property in such activity.

(4) In order to exercise the right the Secretary must issue dispositon instructions to the grantee not later than 120 days after the grantee no longer needs the property in the project for which it was acquired. If instructions are not issued within that time, the grantee shall act in accordance with paragraphs (b)(1), (b)(2)(ii), (b)(2)(iii), and (b)(3)(i) of this section.

(5) The grantee will be reimbursed for any shipping and interim storage costs it incurs pursuant to the Secretary's disposition instructions.

(d) *Property management standards.*—The State shall establish property management standards for nonexpendable personal property which shall include the following procedural requirements:

(1) Property records shall be maintained accurately and provide for:

(i) A description of the property;

(ii) Manufacturer's serial number or other identification number;

(iii) Acquisition date and cost;

(iv) Source of the property;

(v) Percentage of Federal funds used in the acquisition of the property;

(vi) Location, use, and condition of the property; and

(vii) Ultimate disposition data including sales price or the method used to determine current fair market value if the State reimburses the Federal Government for the Federal share.

(2) A physical inventory of property shall be taken and the results reconciled with the property records at least once every two years to verify the existence, current utilization, and continued need for the property.

(3) A control system shall be in effect to ensure adequate safeguards to prevent loss, damage, or theft to the property. Any loss, damage or theft of nonexpendable personal property shall be investigated and fully documented.

(4) Adequate maintenance procedures shall be implemented to keep the property in good condition.

(5) Proper sales procedures shall be established for unneeded property which will provide for competition to the extent practicable and result in the highest possible return.

(e) *Unused expendable personal property.*—If the total inventory value of any unused expendable personal property exceeds $500 and such property is not needed for any Federally sponsored activity, the grantee may retain or sell the property, but must compensate the Federal Government for its share of the cost. The amount of compensation shall be computed in accordance with paragraph (b)(2)(iii)(B) of this section.

(f) *Patents and inventions.*—(1) All inventions conceived or first actually reduced to practice in the course of or under a grant from a State's allotment are subject to the Patent Regulations promulgated by the Secretary (45 CFR Parts 6 and 8). Each such invention shall be promptly and fully reported to the Assistant Secretary for Health, Department of Health, Education, and Welfare.

(2) Determination as to ownership and disposition of rights to such inventions, including whether a patent application shall be filed, and if so, the manner of obtaining, administering, and disposing of rights under any patent which may be issued shall be made:

(i) By the Assistant Secretary for Health of the Department of Health, Education, and Welfare, whose decision will be final, or

(ii) Where the grantee has a separate, formal institutional agreement with the Secretary, by the grantee in accordance with such agreement.

(g) *Copyrights.*—When a book or other copyrightable material is developed under a grant from a State's allotment, the author or grantee is free to copyright the work, but the Secretary reserves a royalty free, nonexclusive and irrevocable license to reproduce, publish or otherwise use, and to authorize others to use the work for Government purposes.

(h) *Determining percentage of participation.*—(1) Under this section a determination of the Federal and grantee participation in the cost of the activity or project is required in order to compute the amount of compensation for the value of property or proceeds from the sale thereof. In determining the applicable percentage, there shall first be deducted from the gross cost incurred during the grant period any applicable credits such as purchase discounts, refund, or rebates, and any royalties or other income (except interest income and proceeds from the sale of property) earned by the grant supported activity or project during the grant period.

(2) The deduction of income required by paragraph (h)(1) of this section is independent of, and is not intended to control, the disposition of such income pursuant to § 54b.114(b).

§ 54b.116 State plan; subgrants.

(a) Subgrants of funds made available to the State for carrying out projects under and otherwise implementing its approved State plan and for evaluating the results of such implementation may be made to public and private nonprofit agencies, organizations and institutions. Subgrants of funds made available to the State for the preparation of a State plan may be made to the public agencies specified in § 54b.105. The State shall conform to the following requirements in making all such subgrants.

(1) Subgrants in excess of $10,000 shall include provisions for compliance with Exegutive Order No. 11246 entitled "Equal Employment Opportunity" as supplemented in Department of Labor Regulations (41 CFR Part 60). Each subgrantee shall be required to have an affirmative action plan which declares that it does not discriminate on the basis of race, color, religion, creed, national origin, sex, or age and which specifies goals and target dates to assure the implementation of that plan. The State shall establish procedures to assure compliance with this requirement and to assure that suspected or reported violations are promptly investigated.

(2) Subgrants for remodeling, alteration or repairs shall include a provision for compliance with the Copeland "Anti-Kick Back" Act (18 U.S.C. 874) as supplemented in Department of Labor regulations (29 CFR Part 3). This Act provides that each subgrantee shall be prohibited from inducing, by any means, any person employed in the repair of public work, to give up any part of the compensation to which he is otherwise entitled. The State shall report all suspected or reported violations to the Secretary.

(3) Subgrants for research or development shall contain a notice to the effect that rights to inventions conceived or first actually reduced to practice in the course of or under the subgrant shall be governed by the Department of Health, Education, and Welfare Patent Regulations (45 CFR Parts 6 and 8) any implementing terms and conditions of the grant to the State, and any pertinent regulations or other requirements issued by the State. The State shall assure that the performer of the research or development work either is given all necessary information regarding these matters, or is advised as to the source of such information. This subparagraph shall also apply to nonresearch and nondevelopment awards in fields of science or technology on which there has been little significant experience outside of work funded by the Federal Government.

(4) Subgrants in excess of $100,000 shall contain a provision which requires the recipient to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act of 1970 as amended (42 U.S.C. 1857b et seq.). Violations shall be reported to the Secretary and the regional office of the United States Environmental Protection Agency.

(5) The State shall require all subgrantees to comply with the applicable regulations of this subpart concerning accounting for Federal funds (§ 54b.114) and procurement (§ 54b.117).

(b) In addition to the requirements imposed by paragraph (a) of this section which are applicable to all subgrants, a State which intends to make subgrants of funds made available for implementing the State plan and evaluating the results of such implementation shall include in its State plan policies and procedures which:

(1) Establish criteria of eligibility for applicants for subgrants;

(2) Describe how potential applicants will be made aware of the availability of funds;

(3) Describe the methods established for submittal, evaluation, and approval of applications for subgrants; and

(4) Will ensure that the activities carried out by subgrantees will be:

(i) Carried out in accordance with standards and criteria which will assure that such activities are of no lower quality than those activities which the State undertakes to conduct directly, and

(ii) Evaluated by the State agency for the purpose of ascertaining compliance with such standards and criteria.

§ 54b.117 Contract procurement standards; States and subgrantees.

(a) *General.*—(1) This section provides standards for use by States in establishing procedures for the procurement by contract of supplies, equipment, and other services whose cost is borne in whole or in part by funds from the State's allotment. These standards are furnished to insure that such materials and services are obtained in an effective manner and in compliance with the provisions of applicable Federal law and Executive orders. The requirements of this section apply to contract procurements by States and, as specified, to procurements by public or nonprofit private agencies, institutions, and organizations to which funds from the State's allotment have been made available through subgrants. The requirements for making funds from the State's allotment available through subgrants are set forth in § 54b.116.

(2) Procurement policies which reflect applicable State and local law, rules, and regulations may be used, provided that procurements whose cost is borne in whole or in part by funds from the State's allotment shall adhere to the standards set forth in this section.

(3) The standards contained in this section do not relieve the State or its subgrantees of the responsibilities arising under their contracts. The State is the responsible authority regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurements entered into in support of a grant from the State's allotment. This includes but is not limited to: Disputes, claims, protests of award, source evaluation, or other matters of a contractual nature. Matters concerning violation of law are to be referred to such local, State, or Federal authority as may have proper jurisdiction.

(b) *Code of conduct.*—The State shall maintain a code or standards of conduct which shall govern the performance of its officers, employees, or agents in contracting with and expending Federal grant funds. The State's officers, employees or agents, shall neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or potential contractors. To the extent permissible by State or local law, rules, or regulations, such standards shall provide for penalties, sanctions, or other disciplinary actions to be applied for violations of such standards by either the State's officers, employees, or agents, or by contractors or their agents.

(c) *Free competition.*—All procurement transactions by the State which involve the expenditure of funds from the State's allotment regardless of whether negotiated or advertised and without regard to dollar value shall be conducted in a manner so as to provide maximum open and free competition. The State should be alert to organizational conflicts of interest or noncompetitive practices among contractors which may restrict or eliminate competition or otherwise restrain trade.

(d) *Procedural requirements.*—The State shall establish procurement procedures which provide for, as a minimum, the following:

(1) Proposed procurement actions shall be reviewed by high level State officials to avoid purchasing unnecessary or duplicative items. Where appropriate, an analysis shall be made of lease and purchase alternatives to determine which would be the most economical, practical procurement.

(2) Invitations for bids or requests for proposals shall be based upon a clear and accurate description of the technical requirements for the material, product, or services to be procured. Such description shall not, in competitive procurements, contain features which unduly restrict competition. "Brand name or equal" description may be used as a means to define the performance or other salient requirements of a procurement, and when so used, the specific features of the named brand which must be met by offerors should be clearly specified.

(3) Positive efforts shall be made by the State to utilize small business and minority-owned business sources of supplies and services. Such efforts should allow these sources the maximum feasible opportunity to compete for contracts to be performed under Federal grants.

(4) The type of procuring instruments used (i.e., fixed price contracts, cost reimbursable contracts, purchase orders, incentive contracts, etc.), shall be appropriate for the particular procurement and for promoting the purposes of the grant project or program involved. The "cost - plus - a - percentage - of - cost" method of contracting shall not be used.

(5) Formal advertising, with adequate purchase description, sealed bids, and public openings shall be the required method of procurement unless negotiation pursuant to paragraph (e) of this section is necessary to accomplish sound procurement. However, procurements of $2,500 or less need be so advertised unless otherwise required by State or local law or regulations, or by the procurement policies of the State.

(i) The awards shall be made to the responsible bidder whose bid is responsive to the invitiation and is most advantageous to the grantee, price and other factors considered. Factors such as discounts, transportation costs, and taxes may be considered in determining the lowest bid.

(ii) Invitations for bids shall clearly set forth all requirements which the bidder must fulfill in order for his bid to be evaluated by the State.

(iii) Any or all bids may be rejected when it is in the State's interest to do so, and such rejections are in accordance with applicable State and local law, rules, and regulations.

(e) *Negotiated procurement.*—Procurements may be negotiated if it is impracticable and unfeasible to use formal advertising; *Provided, however,* That competition shall be obtained to the maximum extent practicable where negotiation is justified. Generally, procurements may be negotiated by the State if one or more of the following conditions prevail:

(1) The public exigency will not permit the delay incident to advertising;

(2) The material or service to be procured is available from only one person or firm; provided that all contemplated sole source procurements where the aggregate expenditure is expected to exceed $5,000 shall be referred to the granting agency for prior approval;

(3) The aggregate amount involved does not exceed $2,500;

(4) The contract is for personal or professional services, or for any service to be rendered by a university, college, or other educational institution;

(5) The material or services are to be procured and used outside the limits of the United States and its possessions;

(6) No acceptable bids have been received after formal advertising;

(7) The purchases are for highly perishable materials or medical supplies, for material or services where the prices are established by law, for technical items or equipment requiring standardization and interchangeability of parts with existing equipment, for experimental, developmental or research work, for supplies purchased for authorized resale, and for technical or specialized supplies requiring substantial initial investment for manufacture; or

(8) Negotiation is otherwise authorized by law, rules or regulations.

(f) *Contractor responsibility.*—Contracts shall be made by States only with responsible contractors who possess the potential ability to perform successfully under the terms and conditions of a proposed procurement. Considerations shall be given to such matters as contractor integrity, record of past performance, financial and technical resources, or accessibility to other necessary resources.

(g) *Records.*—The State's procurements records or files for purchases in amounts in excess of $2,500 shall provide at least the following pertinent information: justification for the use of negotiation in lieu of advertising, contractor selection, and the basis for the cost or price negotiated.

(h) *Contract administration system.*—A system for contract administration shall be maintained by the State to as-

V 38 - 166 AUG 28 73 XUM

sure contractor conformance with terms, conditions, and specifications of the contract or order, and to assure adequate and timely follow-up of all purchases.

(l) *Contract provisions.*—The State shall establish policies which define a sound and complete agreement in all contracts which it awards when the contract costs are to be borne in whole or in part by funds from the State's allotment. In awarding such contracts, the State must comply with the following requirements:

(1) Contracts shall contain such contractual provisions or conditions which will allow for administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as may be appropriate.

(2) All contracts in excess of $2,500 shall contain suitable provisions for termination by the State including the manner by which it will be effected and the basis for settlement. In addition, such contracts shall describe the conditions under which the contract may be terminated for default as well as conditions where the contract may be terminated because of circumstances beyond the control of the contractor.

(3) All negotiated contracts (except those of $2,500 or less) shall include a provision to the effect that the State agency, the Secretary of Health, Education, and Welfare, the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers, and records of the contractor which are directly pertinent to a specific grant program for the purpose of making audit, examination, excerpts, and transcriptions.

(4) All contracts in excess of $10,000 shall include provisions for compliance with Executive Order No. 11246, entitled, "Equal Employment Opportunity," as supplemented in Department of Labor Regulations (41 CFR Part 60). Each contractor shall be required to have an affirmative action plan which declares that it does not discriminate on the basis of race, color, religion, creed, national origin, sex, or age and which specifies goals and target dates to assure the implementation of that plan. The State shall establish procedures to assure compliance with this requirement by contractors and to assure that suspected or reported violations are promptly investigated.

(5) All contracts for remodeling, alteration or repairs shall include a provision for compliance with the Copeland "Anti-Kick Back" Act (18 U.S.C. 874) as supplemented in Department of Labor regulations (29 CFR Part 3). This Act provides that each contractor shall be prohibited from inducing, by any means, any person employed in the repair of public work, to give up any part of the compensation to which he is otherwise entitled. The State shall report all suspected or reported violations to the Secretary.

(6) All research or development contracts shall contain a notice to the effect that rights to inventions conceived or first actually reduced to practice in the course of or under the agreement shall be governed by the Patent Regulations of the Department of Health, Education, and Welfare (45 CFR Parts 6 and 8), any implementing terms and conditions set forth in the grant from the State's allotment, and any pertinent regulations or other requirements consistent therewith issued by the State. The State shall assure that the performer of the research or development work either is given all necessary information regarding these matters, or is advised as to the source of such information. This subparagraph shall also apply to nonresearch and nondevelopment awards in fields of science or technology in which there has been little significant experience outside of work funded by the Federal Government.

(7) Each contract of an amount in excess of $2,500 awarded by the State or its subgrantees shall provide that the recipient will comply with applicable regulations and standards of the Cost of Living Council in establishing wages and prices. The provision shall advise the recipient that submission of a bid or offer or the submittal of an invoice or voucher for property, goods, or services furnished under a contract or agreement with the grantee or subgrantee shall constitute a certification by him that amounts to be paid do not exceed maximum allowable levels authorized by the Cost of Living Council regulations or standards. Violations shall be reported to the Secretary and the local Internal Revenue Service field office.

(8) Contracts in excess of $100,000 shall contain a provision which requires the recipient to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act of 1970 as amended (42 U.S.C. 1857b, et seq.). Violations shall be reported to the Secretary and the regional office of the United States Environmental Protection Agency.

§ 54b.118 Records.

(a) *Assurance.*—The State plan must contain an assurance that all records required by section 409 of the Act and the regulations of this subpart will be kept intact and accessible in accordance with the provisions of this section.

(b) *Retention.*—Except as otherwise provided in paragraphs (c) and (d)(1) of this section, records shall be retained as follows:

(1) Records supporting cost allocation plans of States shall be retained for 3 years after the date of submission of the cost allocation plan to the Secretary or, if such plan is not required to be submitted to the Secretary, for 3 years after the end of the fiscal year covered by the plan.

(2) Records for nonexpendable personal property whose acquisition cost was borne in whole or in part by funds made available under section 409 of the Act shall be retained for 3 years after final disposition of the property.

(3) All other records for each fiscal year shall be retained for 3 years after the date of the submission of the annual expenditure report for that year. The term "expenditure report" means the "Financial Status Report" (or other report equivalent thereto).

(c) *Audit questions.*—All records pertaining to audit questions which have arisen before the end of any such 3-year period shall be further retained until resolution of all such questions: *Provided, however,* That a State is not required to retain records relating to any funds with respect to which actions for recovery by the United States are barred by the statute of limitations (28 U.S.C. 2415(b)).

(d) The Secretary shall request transfer of certain records to his custody when he determines that the records possess long-term retention value. In order to avoid duplicate record-keeping the Secretary may arrange for States to retain for joint use any records which are continuously needed by the State. When records are transferred to or maintained by the Secretary the retention requirements set forth in paragraph (b) of this section are not applicable.

(e) *Microfilm copies.* States may substitute microfilm copies in lieu of original records in meeting the requirements of this section.

(f) *Audit and examination.* The Secretary and the Comptroller General of the United States or any of their duly authorized representatives shall have access to any books, documents, papers and records of the State or its subgrantees which are pertinent to the State plan and expenditures thereunder, for the purpose of making audit, examination, excerpts and transcripts.

(g) *Public access.*—All records required by section 409 of the Act and the regulations of this subpart shall be available and accessible to the public except when the records must remain confidential for any of the following reasons:

(1) To prevent a clearly unwarranted invasion of personal privacy;

(2) To comply with an Executive Order or statute which specifically requires the records to be kept secret;

(3) To protect commercial or financial information obtained from a person or firm on a privileged or confidential basis; or

(4) To protect information which can be improperly exploited for personal gains.

(h) *Confidentiality of patient records.* Attention is called to the provisions of section 408 of the Act (21 U.S.C. 1175) which provides that records of the identity, diagnosis, prognosis, or treatment of any patient which are maintained in connection with the performance of any drug abuse prevention function authorized or assisted under the Act or any Act amended thereby shall be confidential and may be disclosed only for the purposes and under the circumstances expressly authorized under section 408. Violations of section 408 of the Act are subject to a criminal penalty. A regulation implementing section 408, has been

issued by the Director of the Special Action Office for Drug Abuse Prevention (21 CFR Part 401). Grants made under this subpart are subject to the provisions of section 408 of the Act and said implementing regulations.

§ 54b.119 Reports.

(a) *Assurance.*—The State plan must contain an assurance that the State agency will make such reports, in such form, and containing such information as are required by the regulations of this subpart and such additional reports in such form and containing such information as the Secretary may from time to time reasonably require.

(b) *Financial reports.*—In addition to any other reports required by these regulations or which may reasonably be required by the Secretary under section 409 of the Act, the State agency shall submit the following reports to the Secretary:

(1) Reports of expenditures under grants for the preparation of the State plan which, as a minimum, shall be filed at the end of the grant period specified in the grant award and annually during such grant period.

(2) Reports of expenditures under grants for the costs of administration of an approved State plan which, as a minimum, are to be filed annually.

(3) Reports of expenditures under grants for carrying out projects under and otherwise implementing the State plan and for evaluating the results of such implementation. As a minimum such reports shall be filed annually.

(c) *Frequency of reports.*—The minimum frequency for filing the respective reports shall be as prescribed in paragraph (b) of this section; *Provided, however,* That the Secretary may, in consideration of the size and complexity of a particular program or activity require more frequent reports, but in no event will filing of the reports specified in paragraph (b) of this section be required more frequently than quarterly.

(d) *Due dates.*—When the reports specified in paragraph (b) of this section are required on a quarterly or semiannual basis, they shall be due 30 days after the end of the specified reporting period. When required on an annual basis, they shall be due 90 days after the end of the fiscal year. Final reports shall be due 90 days after the completion or termination of grant support. The Secretary may approve a request for an extension of a reporting due date upon a determination that such request is justified.

§ 54b.120 Assurances.

In addition to any other assurances required by law and the regulations of this subpart the State plan must contain the following assurances:

(a) *Maintenance of effort.*—An assurance that Federal funds made available under section 409 of the Act and the regulations of this subpart will be so used as to supplement and increase, to the extent feasible and practical, the level of State, local, and other non-Federal funds that would in the absence of such Federal funds be made available for the programs described in section 409 of the Act and will in no event supplant such State, local, and other non-Federal funds. Substantial compliance with such assurance will be deemed to have been met if the Secretary finds that:

(1) The aggregate level of State funds expended by the State (including State funds allocated to other public or nonprofit private agencies, institutions, and organizations) for drug abuse prevention functions carried out under the State plan with Federal assistance made available under section 409 of the Act is no lower for any fiscal year than the aggregate level of State funds expended by the State for such functions in the immediately preceding fiscal year, except that the Secretary may take into consideration the extent to which the level of such funds for any fiscal year may have included funds for an activity of a nonrecurring nature.

(2) The State plan contains written procedures, including implementation and enforcement mechanisms, for ensuring that the aggregate level of non-Federal funds (other than State funds allocated by the State) expended for drug abuse prevention functions carried out under the State plan with Federal assistance made available under section 409 of the Act by public or nonprofit private agencies, institutions, and organizations is no lower for any fiscal year than the aggregate level of non-Federal funds expended by each such agency, institution or organization for such functions in the immediately preceding fiscal year. Such procedures may provide for consideration of the extent to which the level of such funds for any fiscal year may have included funds for an activity of a nonrecurring nature.

(b) *Community Service.*—Assurances that all facilities, programs, and services supported in whole or in part with funds made available under section 409 of the Act and the regulations of this subpart will be:

(1) Made available without discrimination on the grounds of sex, creed, duration of residence, or ability or inability to pay for services;

(2) So publicized as to be generally known to the population to be served;

(3) Available to, and responsive to the needs of, all members of the population to be served; and

(4) So located as to be readily accessible to the population to be served.

(c) *Admission of drug abusers to hospitals for emergency treatment.*—An assurance that Federal funds made available to the State under section 409 of the Act and the regulations of this subpart will not be made available to public or private general hospitals which refuse admission or treatment to drug abusers suffering from emergency medical conditions solely on the basis of their drug abuse or drug dependence.

(d) *Relocation assistance.*—An assurance that the State agency will comply with the requirements of the provisions of the Uniform Relocation Assistance and Real Property Acquisitions Act of 1970 (P.L. 91-646) which provides for fair and equitable treatment of persons displaced as a result of Federal and Federally assisted programs and the applicable regulations issued thereunder (45 CFR Part 15, as added by 36 FR 18838, September 22, 1971).

§ 54b.121 Nondiscrimination on account of race, color, or national origin.

Attention is called to the requirements of Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d; 78 Stat. 252) which provides that no person in the United States shall, on the ground of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such Title VI has been issued by the Secretary of Health, Education, and Welfare with the approval of the President (45 CFR Part 80). Such regulation is applicable to the drug abuse prevention and treatment activities and programs receiving funds from the State's allotment under section 409 of the Act and requires receipt and acceptance by the Secretary of the applicable documentation set forth therein.

§ 54b.122 Grant suspension and termination.

(a) *Definitions.*—As used in this section:

(1) "Termination" means the cancellation of Federal assistance in whole or in part, under a grant at any time prior to the end of the period of grant support.

(2) "Suspension" means an action by the Secretary which temporarily suspends Federal assistance under the grant pending corrective action by the State or pending a decision to terminate the grant by the Secretary.

(3) "Applicant" means the State agency or such other unit of State government as may be designated in a grant award for preparation of the State plan.

(b) *Suspension.*—(1) When a State has materially failed to comply with the applicable requirements of the Act, the regulations of this subpart, or other terms and conditions applicable to the grant, the Secretary may, after reasonable notice to the applicant, suspend the grant. No obligations incurred by the State during the period of suspension shall be allowable under the suspended grant, except that the Secretary may at his discretion allow necessary and proper costs which the State could not reasonably avoid during the period of suspension provided that such costs would otherwise be allowable under the applicable cost principles set forth in the Department of Health, Education, and Welfare Grants Administration Manual. Appropriate adjustments to the payments under the suspended grant will be made, either by withholding the payments or by not allowing the State credit for disbursements which it may make in liquidation of unauthorized obligations it incurs during the period of suspension. Suspensions shall remain in effect until the State has taken corrective action to

V 38 • 166 AUG 28 73 XUM

the satisfaction of the Secretary, or given assurances satisfactory to the Secretary that corrective action will be taken, or until the Secretary terminates the grant.

(c) *Termination.* (1) *Termination for cause.*—The Secretary may terminate any grant in whole, or in part, at any time before the date of completion, whenever he determines that the State has materially failed to comply with applicable requirements of the Act, the regulations of this subpart or other terms and conditions applicable to the grant. The Secretary will promptly notify the applicant in writing of the determination and the reasons for the termination, together with the effective date. Payments made to States or recoveries by the Secretary under grants terminated for cause shall be in accordance with the legal rights and obligations of the parties.

(2) *Termination on other grounds.*—(i) Except as provided in paragraph (c) (1) of this section grants may be terminated in whole or in part only as follows:

(A) By the Secretary, with the consent of the State, or

(B) By the State, upon written notification to the Secretary, setting forth the reasons for such termination.

(ii) When a grant is terminated pursuant to paragraph (c) (2) (i) of this section, the two parties shall agree upon the termination conditions. The State shall not incur new obligations for the terminated portion after the effective date, and shall cancel as many outstanding obligations as possible. The Secretary will allow full credit to the State for the Federal share of noncancellable obligations properly incurred by the State prior to termination.

[Regs. No. 5]

FEDERAL HEALTH INSURANCE FOR THE AGED

Payment for Services of Physicians in Teaching Hospitals, for Physician Costs to Hospitals and Medical Schools, and for Volunteer Services; Extension of Comment Period

This notice extends the period for comments provided in the notice published July 19, 1973 (38 FR 19230), in which comments were solicited on proposed amendments to Part 405 (Regulations No. 5) relating to payment for services of teaching physicians and certain other related costs.

Comment on the proposed regulations was invited on or before August 20, 1973. Several concerned organizations have requested additional time to submit comments. The time period for comment is hereby extended to October 17, 1973.

Comments on the proposed regulations of the Social Security Administration (20 CFR Part 405) should be submitted in writing, in triplicate, to the Commissioner of Social Security, Department of Health, Education, and Welfare Building, Fourth and Independence Avenue SW., Washington, D.C. 20201 on or before October 17, 1973.

Copies of all comments received will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, Room 4146, 330 Independence Avenue SW., Washington, D.C. 20201.

DEPARTMENT OF TRANSPORTATION

COAST GUARD

[33 CFR Part 127]

[CGD 73-182P]

NEW LONDON HARBOR, CONNECTICUT

Proposed Establishment of Security Zones

The Coast Guard is considering amending Title 33 of the Code of Federal Regulations to establish two security zones on the Thames River at New London, Connecticut. These security zones are needed to safeguard U.S. Naval vessels under construction at the Electric Boat Division Shipyard and U.S. Naval vessels moored at or near the State Pier #1 from destruction, loss, or injury from sabotage or other subversive acts, accidents, or other causes of similar nature. The security zone regulations in 33 CFR 127.15 would not apply to public vessels operating in these two security zones, and they would not apply to vessels owned by, under hire to, or performing work for the Electric Boat Division operating in Security Zone B.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander (mps), Third Coast Guard District, Governors Islands, New York 10004. Each person submitting comments should include his name and address, identify the notice (CGD 73-182P), and give reasons for any recommended change in the proposal. Copies of all submissions received will be available for examination by interested persons at the Office of the Commander, Third Coast Guard District.

The Commander, Third Coast Guard District, will forward any comments received before September 28, 1973, and his recommendations to the Commandant (GW), U.S. Coast Guard, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in light of comments received.

In consideration of the foregoing, it is proposed to amend Part 127 of Title 33 of the Code of Federal Regulations by adding a new § 127.305 to read as follows:

§ 127.305 New London Harbor, Connecticut.

(a) *Security Zones.* (1) *Security Zone A.*—The waters of the Thames River off State Pier enclosed by a line beginning at the midpoint of the southeast face of State Pier thence to latitude 41°21'24" N., longitude 72°05'21.2" W.; thence to latitude 41°21'26.2" N., longitude 72°05'19.3" W.; thence to latitude 41°21'34" N., longitude 72°05'18.1" W.; thence to latitude 41°21'37.4" N., longitude 72°05'21" W. (Buoy C 15); thence to latitude 41°21'37" N., longitude 72°05'25.1" W. (Winthrop Point Anchorage Buoy A); thence westerly to the shoreline at latitude 41°21'37" N., longitude 72°05'28" W.; thence along the shoreline and pier to the point of beginning.

(2) *Security Zone B.*—The waters of the Thames River west of the Electric Boat Division Shipyard enclosed by a line beginning at a point on the shoreline at latitude 41°20'27" N., longitude 72°04'51.5" W.; thence due west to latitude 41°20'27" N., longitude 72°05'-02" W.; thence to latitude 41°21'03" N., longitude 72°05'06.7" W.; thence easterly to a point on the shoreline at latitude 41°21'103" N., longitude 72°05'00" D.; thence along the shoreline to the point of beginning.

(b) *Special regulations.*—Section 127.15 does not apply to public vessels when operating in Security Zones A or B, or to vessels owned by, under hire to, or performing work for the Electric Boat Division when operating in Security Zone B.

(46 Stat. 220, as amended, sec. 1, 63 Stat. 503, sec. 6(b), 80 Stat. 937 (50 U.S.C. 191, 14 U.S.C. 91, 49 U.S.C. 1655(b)(1)) E.O. 10173, as amended; 3 CFR 1949-1953 Comp. 356, 778, 873, 3 CFR 1964-1965 Comp. 349, 33 CFR Part 6, 49 CFR 1.46(b))

Dated August 21, 1973.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.73-18182 Filed 8-27-73;8:45 am]

[46 CFR Part 160]

[CGD 73-130P]

LIFESAVING EQUIPMENT

Proposed Specification

The Coast Guard is considering amending the lifesaving equipment specifications by adding an alternative test for a dee ring and snap hook assembly.

or an assembly of a similar device, that is consistent with the specification for a body strap assembly.

Any interested person may submit written data, views, or arguments concerning this notice to the Executive Secretary, Marine Safety Council (GCMC/82), Room 8234, 400 Seventh Street, SW., Washington, D.C. 20590. Each written comment should include the docket number of this notice (CGD 73-130P), the name and address of the person submitting the comment, the section number of the proposal to which the comment is addressed, any specific wording recommended, and the reason and supporting data for any recommended change.

Each comment received before September 28, 1973, will be fully considered and evaluated before final action is taken on this proposal. Copies of all written communications received will be available for examination in room 8234, 400 Seventh Street, SW., Washington, D.C., both before and after the closing date for the receipt of comments. The proposal may be changed in the light of the comments received.

The Coast Guard has received comments pointing out an inconsistency in the breaking strength requirements for body strap and dee ring and snap hook assemblies in the buoyant vest specifications. The specification requires a body strap assembly to withstand 150 pounds for an adult size and 115 pounds for a child size, but the same specification requires a dee ring and snap hook to withstand 300 pounds for an adult size and 230 pounds for a child size.

The higher requirement for a dee ring and snap hook assembly is to compensate for any loss of strength resulting from weathering while in service. The Coast Guard is considering an amendment to §§ 160.047-3, 160.052-3, and 160.060-3 which would allow an alternative assembly specification. This alternative would be an assembly with a lower breaking strength that has passed specified weathering tests and a weight test of 150 pounds for an adult size and 115 pounds for the child size.

In consideration of the foregoing, the Coast Guard proposes to amend 46 CFR Part 160 as follows:

1. By revising § 160.047-3(g) to read as follows:

§ 160.047-3 Materials.

* * * * *

(g) *Dee ring and snap hook assembly and similar assemblies*—(1) *Standards for dee ring and snap hook assemblies made of brass, bronze or stainless steel.* (i) The size of the opening must be consistent with the webbing.

(ii) The assembly may have decorative platings in any thickness.

(iii) The webbing opening of the snap hook must be a continuous ring.

(iv) The snap hook spring must be of phosphor bronze or other corrosion resistant material.

(v) A dee ring must be welded to form a continuous ring or be a one piece casting.

(2) *Standards for dee ring and snap hook assemblies and similar assemblies made of inherently corrosion resistant materials.*—(i) The size of the opening must be consistent with the webbing.

(ii) The assembly may have decorative platings in any thickness.

(3) *Tests.*—(i) An assembly consisting of dee ring and snap hook constructed to the standard contained in subparagraph (1) of this paragraph must pass one of the following tests:

(*a*) The assembly must be attached to a support for 10 minutes and bear 300 pounds for an adult size and 230 pounds for a child size, without breaking or distorting.

(*b*) The test contained in subparagraph (3) (ii) of this paragraph.

(ii) An assembly consisting of a dee ring and snap hook or a similar assembly, constructed to the standard contained in subparagraph (1) or (2) of this paragraph, must be attached to a support for 10 minutes and bear 150 pounds for an adult size and 115 pounds for a child size without breaking or distorting after being tested for weathering by one or more of the following tests selected by the Coast Guard:

(*a*) Application of a 20 percent sodium-chloride solution spray at a temperature of 95°F (35°C.) for a period of 240 hours, in accordance with the procedures contained in method 811 of the Federal Test Method Standard No. 151.

(*b*) Exposure to a carbon-arc weatherometer for a period of 100 hours.

(*c*) Submergence for a period of 100 hours in each of the following:

(*1*) Leaded gasoline.

(*2*) Gum turpentine.

* * * * *

§§ 160.052-3 and 160.060-3 [Amended]

2. By revising §§ 160.052-3(e) and 160.060-3(e) to read the same as the proposed § 160.047-3(g).

(Sec. 17, 54 Stat. 166, as amended, Sec. 5, 85 Stat. 215, sec. 6(b)(1), 80 Stat. 937 (46 U.S.C. 526p, 1454, 49 U.S.C. 1655(b)(1)) 49 CFR 1.46 (b), (o)(1))

Dated August 21, 1973.

W. F. REA, III,
Rear Admiral, U.S. Coast Guard, Chief, Office of Merchant Marine Safety.

[FR Doc.73-18183 Filed 8-27-73;8:45 am]

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 73-NE-25]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Concord, New Hampshire, control zone (38 FR 367) and 700-foot transition area (38 FR 467).

The establishment of two new Standard Instrument Approach Procedures at Concord Municipal Airport, Concord, New Hampshire, in accordance with the U.S. Standard for Terminal Instrument Procedures, requires the cancellation of the ADF and VOR approaches. These revised procedures will require the alteration of the Concord, New Hampshire, control zone and 700-foot transition area in order to provide controlled airspace protection for aircraft executing these procedures.

Interested persons may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, New England Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803. All communications received within thirty (30) days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Operations, Procedures and Airspace Branch, New England Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of Regional Counsel, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Concord, New Hampshire, proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Concord, New Hampshire, control zone and insert the following in lieu thereof:

"Within a 5-mile radius of the center, 43°12'16" N, 71°30'07" W, of Concord Municipal Airport, Concord, New Hampshire; within 1.5 miles each side of the 337° bearing from the Epping, New Hampshire, NDB, 43°07'05" N, 71°27'13" W, extending from the 5-mile radius zone to the Epping NDB."

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Concord, New Hampshire, 700-foot transition area and insert the following in lieu thereof:

"That airspace extending upward from 700 feet above the surface bounded by a line beginning at 43°23'00" N, 71°11'50" W, to 43°09'00" N, 71°11'50" W, to 42°58'50" N, 71°01'00" W, to 42°53'00", 71°11'30" W, to 42°47'00" N, 71°09'00" W, to 42°38'00" N, 71°20'00" W, to 42°40'00" N, 71°35'00" W, to 42°43'00" N, 71°36'00" W, to 42°45'00" N, 71°38'25" W, to 42°54'00" N, 71°57'00" W, to 43°06'00" N, 71°47'00" W, to 43°23'00" N, 71°47'00" W, to point of beginning. 1,200-foot Transition Area is unchanged.

NATIONAL CREDIT UNION ADMINISTRATION

[12 CFR Part 709]

DIVISION OF ASSETS, LIABILITIES, AND CAPITAL

Proposed Rulemaking

Notice is hereby given that the Administrator of the National Credit Union Administration, pursuant to the authority conferred by section 120, 73 Stat. 635, 12 U.S.C. 1766, proposes to revise the entire Part 709 (12 CFR Part 709) as set forth below.

The purpose of the proposed revision is to update Part 709 (12 CFR Part 709) in accordance with recent revisions relating to chartering policies and procedures contained in Part 701. (12 CFR Part 701.)

This part will enable separately identifiable groups of an existing Federal credit union to undertake an equitable division of the Federal Credit Union assets, liabilities and capital, and to charter a new Federal credit union.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed revision to the Administrator, National Credit Union Administration, 2025 M Street NW., Washington, D.C. 20456, to be received not later than October 30, 1973.

HERMAN NICKERSON, JR.,
Administrator.

Sec.
709.0 Scope.
709.1 When permissible.
709.2 Approval by board and appointment of committee.
709.3 Preparation of plan.
709.4 Notice of option to transfer.
709.5 Submittal of plan to Administration.
709.6 Investigation and charter and insurance application.
709.7 Approval of plan by Administrator.
709.8 Approval of plan by members of the existing Federal Credit Union.
709.9 Issuance of chapter to the new Federal Credit Union and completion of division.

Authority: Sec. 120, 73 Stat. 635 (12 U.S.C. 1766).

§ 709.0 Scope.

This part prescribes the procedures that will enable members of a Federal credit union who are a separately identifiable group to undertake an equitable division of their assets, liabilities and capital and charter a new Federal credit union.

§ 709.1 When permissible.

A Federal credit union may undertake an equitable division of its assets, liabilities and capital when:

(a) A group of persons within the field of membership of the Federal credit union constitutes a separately identifiable group which is eligible for a Federal credit union charter;

(b) A sufficient number of those in the separately identifiable group have authorized transfer of their share and loan accounts to justify the division; and

(c) The other requirements of the regulations in this part are met.

§ 709.2 Approval by board and appointment of committee.

Upon the board of directors approval of a proposition for the Federal credit union to divide its assets, liabilities and capital between itself and a Federal credit union to be organized to serve persons in a separately identifiable group with the existing Federal credit union's field of membership, the board shall:

(a) Appoint a committee of members of the said group to assist in the preparation and execution of a plan for division and to subscribe to an Organization Certificate for the proposed new Federal credit union; and

(b) Promptly notify the Regional Director of these actions.

§ 709.3 Preparation of plan.

The board of directors shall prepare a plan for division which shall provide that:

(a) The members within the separately identifiable group shall have the option to be exercised in writing by a specified date, of (1) authorizing the transfer of their accounts to the new Federal credit union upon approval of its charter by the Administrator, or (2) maintaining their accounts in the existing Federal credit union, provided, however, the Bylaws of the existing Federal credit union would permit such retention.

(b) The remaining assets, liabilities and capital will be equitably divided; and

(c) The records will be closed and the division effected by a specified date, subsequent to but no later than six months after the date set for members to exercise their options as specified in § 709.3 (a).

§ 709.4 Notice of Options.

The board of directors shall give written notice of the options set forth in § 709.3(a) to each person who would be eligible for membership in the proposed new credit union. The written notice shall contain a summary of the plan and a form for confirmation of account balances and authorization for transfer of accounts. If authorization is given to transfer an account, it shall be valid for six months from the date fixed for the exercise of the option.

§ 709.5 Submittal of Plan to Administration.

If a number of members, sufficient to make the division reasonable and feasible, have authorized the transfer of their accounts by the date fixed for exercising the option to transfer, the board of directors shall submit the following information to the Regional Director:

(a) A copy of the Plan for Division of Assets, Liabilities and Capital;

(b) A current financial and statistical report;

(c) A Certification of Acceptance of Option to Transfer Shares and Loans; summarizing the results of the Notice of Option to Transfer; and

(d) A schedule of the share and loan balances of all members who authorized the transfer of their accounts.

§ 709.6 Investigation and Charter and Insurance Application.

(a) An examiner will make the necessary investigation. If requirements are met and the plan appears acceptable, the examiner will assist in holding the charter-organization meeting and completing the required forms.

(b) The Regional Director will review the proposal and forward it, with his recommendation, to the Administrator for action.

§ 709.7 Approval of Plan by Administrator.

If the Administrator finds that the plan for division complies with this and other parts of these regulations, he will approve the plan and authorize the board of directors of the existing Federal credit union to present the proposal to the members for approval at an annual or special meeting as provided in § 709.8.

§ 709.8 Approval of Plan by Members of the Existing Federal Credit Union.

(a) If the Administrator approves the plan for division, it may be submitted to the members at an annual meeting, if one is to be held at a time which will assure the consummation of the plan within six months after the expiration of the option to transfer, or at a special meeting to be called as provided in the bylaws and held within the six-month period.

(b) The notice of the meeting shall:

(1) State that one of the purposes of the meeting is to vote on the proposed plan;

(2) Be given to each member of the credit union;

(3) Advise the members of the reasons for the proposal, the fact that the Administrator has given his approval, the number of eligible members who have authorized the transfer of their accounts, and the membership vote required for approval; and

(4) Be accompanied by a copy of the Plan for Division of Assets, Liabilities, and Capital.

(c) A majority of the members present and voting at the meeting must approve the plan in order for the board of directors to proceed with the division.

(d) The board of directors will promptly certify the results of the membership vote to the Regional Director.

§ 709.9 Issuance of Charter to the New Federal Credit Union and Completion of Division.

(a) If the plan was approved by the members of the existing Federal credit union as provided in § 709.8, the Administrator will issue the charter and insurance certificate to the new Federal credit union.

(b) The division will be completed as of the date specified in the plan. Upon completion of the division, the new Federal credit union will be vested with all assets received and will be responsible for all liabilities and capital assumed.

(c) The boards of directors for both Federal credit unions will promptly certify the completion of the division to the Regional Director. Financial and statistical reports for both Federal credit unions, before and after the division, will accompany the certification.

[FR Doc.73-18166 Filed 8-27-73;8:45 am]

SMALL BUSINESS ADMINISTRATION

[13 CFR Part 108]

LOANS TO STATE AND LOCAL DEVELOPMENT COMPANIES

Proposed Revision

Notice is hereby given that the Small Business Administration proposes to revise Part 108 (Revision 3) of Chapter I of Title 13 of the Code of Federal Regulations. Prior to adoption of Revision 4, consideration will be given to any comments, suggestions, or objections submitted in writing, in triplicate, to the Associate Administrator for Finance and Investment, Small Business Administration, 1441 L Street, NW., Washington, D.C. 20416, on or before September 17, 1973.

Proposed Revision 4 will consolidate Revision 3 and its several amendments, reducing text of some sections by referencing to "Loan Policy," Part 120 of this chapter and other minor changes. Elimination of paragraph (1), Amendment 3, Revision 3, will permit the use of blanket guarantees.

If adopted in final form, the new Revision 4 would read as follows:

GENERAL

Sec.
108.1 Policy.
108.2 Definitions.
108.3 Procedures for loan applications.

LOANS UNDER SECTION 501

Sec.
108.501 Statutory provision.
108.501-1 Section 501 loans.

LOANS UNDER SECTION 502

Sec.
108.502 Statutory provision.
108.502-1 Section 502 loans.

AUTHORITY: The provisions of this Part 108 issued under sec. 5, Pub. L. 85-536, secs. 201, 308, Pub. L. 85-690.

GENERAL

§ 108.1 Policy.

(a) As part of the congressional policy to improve and stimulate the national economy in general, and the small business segment thereof in particular, by establishing a program to stimulate the flow of private equity capital and long-term loans for the sound financing of the operations, growth, expansion, and modernization of small business concerns, the Small Business Administration is authorized to make loans to state and local development companies which will further that policy. This policy shall be carried out in such manner as to insure the maximum participation of private financing sources. No such loan shall be made if the effect thereof will be to cause a substantial increase of unemployment in any area of the country.

(b) The Government of the United States has declared that no person in the United States shall, on the grounds of race, color, religion, sex, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. (Title VI of the Civil Rights Act of 1964.) The President of the United States has also declared in Executive Orders No. 10925 of March 6, 1961 (26 FR 1977), No. 11114 of June 23, 1963 (28 FR 6485), and No. 11246 of September 24, 1965 as amended by No. 11375 of October 13, 1967 (32 FR 14303) that all qualified persons should be given equal employment opportunity without regard to race, color, religion, sex, or national origin, when employed or seeking employment with Government contractors or with contractors performing under Federally assisted construction contracts. Recipients of financial assistance under this part are subject to the nondiscrimination requirements of the laws and policies referred to in this section.

§ 108.2 Definitions.

For purposes of this part:

(a) "Administrator" means the Administrator of the Small Business Administration.

(b) "SBA" means the Small Business Administration.

(c) "Small business concern" means a business concern which would qualify as a small business under § 121.3-10 or § 121.3-11 of this chapter.

(d) "Development company" means an enterprise incorporated under the laws of one of the several states, formed for the purpose of furthering the economic development of its community and environs, and with authority to promote and assist the growth and development of small business concerns in the areas covered by their operations. Such corporation may be organized either as a profit or nonprofit enterprise.

(1) A state development company is a corporation organized under or pursuant to a special legislative act to operate on a statewide basis.

(2) A local development company is a corporation chartered under any applicable state corporation law to operate in a specified area within a state. A local development company shall be principally composed of and controlled by persons residing or doing business in the locality; such local persons shall ordinarily constitute not less than 75 percent of the voting control of the development company. No shareholder or member of the development company may own in excess of 25 percent of the voting control in the development company if he and his affiliated interest have direct pecuniary interest in the project involving the section 502 loan or in the small business concern which is to be assisted. The primary objective of the development company must be of benefit to the community as measured by increased employment, payroll, business volume, and corresponding factors rather than monetary profits to its shareholders or members; any monetary profits or other benefits which flow to the shareholders or members of the local development company must be merely incidental thereto.

(e) "Section 501 loan" means a loan authorized under section 501 of the Small Business Investment Act of 1958, as amended.

(f) "Section 502 loan" means a loan authorized under section 502 of the Small Business Investment Act of 1958, as amended.

(g) "Plant" means any physical facility, including land, buildings, machinery, and equipment owned or acquired by the development company or the small business concern and employed or to be employed by the small business concern in the conduct of its business, whether the business be of an industrial, commercial, or recreational nature.

(h) "Construction contract" as used herein means any contract entered into by the development company or the small business concern being assisted for the construction, rehabilitation, alteration, conversion, extension, or repair of buildings, highways, or other improvements to real property.

§ 108.3 Procedures for loan applications.

(a) *Relocation.*—No loan shall be made under this part that will result in a substantial increase of unemployment in any area of the country.

(1) In cases where the small business concern to be assisted is relocating its operations, said concern must submit and certify to evidence, prior to the filing of the application by the state or local development company for a section 502 loan or prior to disbursement by the state development company of the proceeds of a section 501 loan previously granted, that its relocation will not result in a substantial increase of unemployment in the area from which it is moving. Said evidence shall be submitted by the state or local development company to the SBA field office as designated in paragraph (c) of this section, and within 30 days SBA will notify the development company whether it may file a section 502 loan application or disburse section 501 loan proceeds.

(2) A substantial increase in unemployment shall be presumed to occur when (i) the relocation would result in the unemployment of one-third of the work force of the small business concern to be assisted, (ii) the unemployment

V 38-166 AUG 28 73 XUM

would result in making the area affected an area of substantial unemployment as designated by the Department of Labor, or (iii) the area affected is one of substantial unemployment as designated by the Department of Labor.

(b) *Form of application.*—An application for a section 501 loan shall be made upon SBA Form 501 and for a section 502 loan upon SBA Form 502, and shall include all other pertinent information required in supporting schedules and forms. The application and supporting materials shall be submitted in duplicate.

(c) *Place of filing.*—Application shall be made in the SBA field office serving the area in which the applicant is located if no bank participation in the loan is available. If participation is available, the application and supporting materials shall be submitted in duplicate to the lending institution which will submit one complete copy to SBA along with a letter confirming its willingness to participate.

(d) *Nondiscrimination.* — Applicants for section 501 and section 502 loans and identifiable small business concerns, beneficiaries of such loans, will be required to execute when appropriate the compliance forms furnished by SBA.

LOANS UNDER SECTION 501

§ 108.501 Statutory provision.

Section 501. (a) The Administration is authorized to make loans to State development companies to assist in carrying out the purposes of this Act. Any funds advanced under this subsection shall be in exchange for obligations of the development company which bear interest at such rate, and contain such other terms, as the Administration may fix, and funds may be so advanced without regard to the use and investment by the development company of funds secured by it from other sources.

(b) The total amount of obligations purchased and outstanding at any one time by the Administration under this section from any one State development company shall not exceed the total amount borrowed by it from all other sources. Funds advanced to the State development company under this section shall be treated on an equal basis with those funds borrowed by such company after the date of the enactment of this Act, regardless of source, which have the highest priority, except when this requirement is waived by the Administrator.

§ 108.501–1 Section 501 loans.

(a) *Participation.*—To insure participation of private financing sources, the state development company shall agree, unless otherwise notified by SBA, that within 30 days after disbursement of the loan and thereafter during the period in which the loan or any part thereof remains unpaid, it will maintain portfolio investments or loans, or both, meeting the requirements of paragraph (e) of this section, having a stated outstanding principal value equal to no less than 133⅓ percent of the unpaid principal of the loan. Deviation from this ratio will be permitted during intervals between repayment or other disposal of such investments or loans and the prompt reinvestment of funds resulting from such repayment or disposal.

(b) *Loan amount.*—Subject to the limitation contained in section 501(b) of the Small Business Investment Act of 1958, as amended, a loan authorized under this authority shall be in such amount as determined by SBA to be consistent with sound business practice.

(c) *Repayment of loan.*—A section 501 loan shall not be made for a term longer than 20 years. Payment of all or any part of a loan may be anticipated without penalty on any interest payment date. Except when the rate of repayment is waived by SBA, such rate shall be adjusted by SBA so that a section 501 loan shall be repaid at no lesser rate than the other debts of the development company which first become due; but in any event not less frequently than annually. *Provided, however,* That at no time will the outstanding amount of a section 501 loan to a development company exceed the limitation set forth in section 501(b) of the Small Business Investment Act of 1958, as amended.

(d) *Security.*—Except where this requirement is waived by SBA, funds advanced to a development company under a section 501 loan shall be secured on an equal basis with those funds borrowed by such company after August 21, 1958, regardless of source. Equal basis does not require that all SBA funds be secured in the highest degree that any other development company funds are secured; however, SBA funds shall be secured on a ratable basis.

(e) *Use of proceeds.*—(1) The proceeds of loans to state development companies shall be used only to provide equity capital or make long-term loans, or both, to small business concerns. For the purposes of this section, a long-term loan or any debt instrument through which equity may be acquired shall have a final maturity of not less than 5 years. State development companies may use section 501 loan proceeds to acquire capital stock or other equity instruments from, or to relend to, small business concerns in need of assistance to finance their operations, growth, expansion, or modernization: *Provided, however,* That the authority to acquire with such proceeds an equity or other proprietary interest in a borrower shall extend only to state development companies which are wholly owned and controlled by private interests.

(2) The proceeds of loans to state development companies may not be used for:

(i) Relending or reinvesting by the small business concern;

(ii) Purposed contrary to the public interest, including but not limited to gambling enterprises and activities;

(iii) Any purposes which would encourage monopoly or be inconsistent with accepted standards of free enterprise;

(iv) Use outside of the United States: *Provided, however,* That a state development company may provide funds to a small business concern which is subject to state or Federal jurisdiction, (a) for use in the domestic production of products for distribution abroad, or to acquire abroad materials for such operations, or (b) for use in its branch operations abroad or for transfer to its controlled foreign subsidiary in exchange for further equity interest in or the monetary obligation of such foreign subsidiary; so long as the major portion of the assets and activities of such concern, after funds are so employed, remains within the territorial jurisdiction of the United States.

(f) *Interest rate.*—The rate of interest on section 501 loans to state development companies shall be the same rate at which the state development company borrows funds from its members.

(g) *Firm commitment.*—A firm commitment may be given by SBA for a period of 1 year subject to the payment of a commitment fee computed on the basis of 1 percent per annum, beginning with the first day after the first 30 days following the date of the note.

(h) *Disposal of obligations.*—SBA may, in its discretion and upon such terms and conditions and for such consideration as shall be deemed to be reasonable, sell, assign, transfer or otherwise dispose of the note, and all other evidence of debt or security held in connection with the payment of any loan made under section 501 of the Small Business Investment Act of 1958, as amended.

LOANS UNDER SECTION 502

§ 108.502 Statutory provision.

Section 502. The Administration may, in addition to its authority under section 501, make loans for plant construction, conversion, or expansion, including the acquisition of land, to state and local development companies, and such loans may be made or effected either directly or in cooperation with banks or other lending institutions through agreements to participate on an immediate or deferred basis: *Provided, however,* That the foregoing powers shall be subject to the following restrictions and limitations:

(1) All loans made shall be so secured as reasonably to assure repayment. In agreements to participate in loans on a deferred basis under this subsection, such participation by the Administration shall not be in excess of 90 per centum of the balance of the loan outstanding at the time of disbursement.

(2) The proceeds of any such loan shall be used solely by such borrower to assist an identifiable small-business concern and for a sound business purpose approved by the Administration.

(3) Loans made by the Administration under this section shall be limited to $350,000 for each such identifiable small-business concern.

(4) Any development company assisted under this section must meet criteria established by the Administration, including the extent of participation to

be required or amount of paid-in capital to be used in each instance as is determined to be reasonable by the Administration.

(5) No loans, including extensions or renewals thereof, shall be made by the Administration for a period or periods exceeding 25 years plus such additional period as is estimated may be required to complete construction, conversion, or expansion, but the Administration may extend the maturity of or renew any loan made pursuant to this section beyond the period stated for additional periods, not to exceed 10 years, if such extension or renewal will aid in the orderly liquidation of such loan. Any such loan shall bear interest at a rate fixed by the Administration.

§ 108.502–1 Section 502 loans.

SBA is authorized to make loans to development companies to finance plant construction, conversion, or expansion, including the acquisition of land: *Provided, however,* That such loans will assist an identifiable small business concern in accomplishing a sound business purpose.

(a) *Sound business purpose.*—A loan will not be considered to be for a sound business purpose: (1) If, in any case where the relocation of a small business concern is involved, the relocation will result in the avoidance by such concern of obligations incurred in the location from which the move is to be made or if the primary incentive for such relocation is a local subsidy; (2) if the concern is being relocated from another area unless there is demonstrated to SBA a need to locate closer to the source of basic materials or to major consumers, or to consolidate operations in one location, or unless such relocation is justified by other reasons satisfactory to SBA; (3) if it is to accomplish an expansion or conversion which is unwarranted in the light of the small business concern's past experience and management ability; (4) if it will subsidize inferior management; (5) if it provides funds for speculation; or (6) if its effect will be to encourage monopolies or be inconsistent with accepted standards of the American system of free competitive enterprise.

(b) *Ineligible categories.*—A loan will not be made if the small business concern to be assisted does not qualify as an eligible small business under Part 120 of this chapter, except where inconsistent with specific provisions in this part.

(c) *Collateral.*—All loans made under this section shall be so secured as reasonable to assure repayment. SBA shall determine that all property and rights available as collateral security for such a loan are of a character and value as reasonably to assure repayment of the loan. Collateral shall be insured against such hazards and risks as SBA may require.

(d) *Loan amount.*—(1) Loans made by SBA under this section shall be limited to $350,000 for each identifiable small business concern. The total unpaid amount of any such SBA loan or loan in aid of a particular small business concern shall never exceed $350,000.

(2) Development companies may be eligible to be considered for such additional loans of not more thna $350,000 each, as there may be additional identifiable small business concerns to be assisted.

(e) *Participation by the development company.*—A development company may be required to furnish a reasonable part, as determined by SBA, of the funds necessary to accomplish the plant construction, conversion, or expansion, or the acquisition of land. For the purposes of this paragraph, the furnishing of not less than 20 percent of the necessary funds generally be considered a reasonable part. SBA may require that the funds to be furnished by the development company be derived from paid-in capital or surplus of the development company, as well as from other sources. The amount of paid-in capital to be required will depend in part upon the amount of the loan, the maturity of the loan, the extent to which other borrowings of the development company may be subordinated to the SBA loan and such other factors as the SBA may consider appropriate to the individual case. For the purpose of this section, "paid-in capital" is cash and property actually received in exchange for shares of stock issued by the development company, or cash and property contributed to the development company without obligation therefore, or cash and property for which the development company is indebted on a subordinated basis.

(f) *Other financing.*—(1) A loan will not be made unless the development company and the small business concern shall show to the satisfaction of SBA that the desired financial assistance is not available on reasonable terms.

(2) In the case of a development company, it shall be satisfactorily demonstrated that the desired financing is not available by means of sale of stock or debt securities, or both, in the development company; from funds agreed to be furnished by participating members of the development company; and by means of loans from not less than two lending institutions (where the population of the community exceeds 200,000) which have a sufficient legal and normal lending limit to cover the loan applied for.

(3) In the case of a small business concern, the demonstration of the unavailability of the desired financial assistance on reasonable terms shall be in accordance with Section 120.2(a) of this chapter. SBA will rely on the development company's certification as to the unavailability of such other financial assistance to the small business concern.

(g) *Participation by other financial institutions in loans to development companies.*—In order to stimulate and encourage loans by banks and other lending institutions, the SBA shall require that:

(1) An applicant for a loan show that a participation by another lending institution is not available. No financial assistance shall be extended in participation with another lending institution on an immediate basis unless the applicant shall show that a participation on a deferred basis is not available.

(2) SBA's share of immediate participation loans shall not exceed 75 percent of the loan. Exceptions may be made in cases when the participant's legal lending limit precludes a 25 percent participation. In such cases the participant will be required to share in the loan to the extent of its legal lending limit but in no event less than 10 percent. In guaranteed loans the exposure of SBA under the guaranty may not exceed 90 percent of the unpaid principal balance and accrued interest.

(3) Participation charges and service fees shall be in accordance with § 120.3 (b) (1) and (3), respectively, of this chapter.

(h) *Interest rate.*—The interest rate on a direct section 502 loan to a development company and on SBA's share of a section 502 loan made in participation with another lending institution shall be 5½ percent per annum: *Provided, however,* That where the interest on the share of the loan of the bank or other lending institution in a guaranteed or immediate participation loan is less than 5½ percent per annum, then the rate on SBA's share of the loan shall be at the same rate, but not less than 5 percent per annum. For the purposes of this paragraph, bank's share of the guaranteed participation shall be the entire amount of the loan until such time as SBA shall actually purchase its participation.

(i) *Loan maturity.*—The maturity of any loan under this section may not exceed 25 years plus such additional period as is estimated may be required to complete construction, conversion or expansion. It shall be the policy of SBA generally, in the case of a lease agreement between a local development company and an identifiable small business concern, to require that the term of the lease shall not be less than the term of the loan. It shall also be the policy of SBA generally to require repayment in equal periodic installments. Extensions or renewals of the loan for an additional period not to exceed 10 years beyond the stated maturity may be granted by SBA only if such extensions or renewals will aid in the orderly liquidation of such loans.

(j) *Use of proceeds.*—(1) As of the time of approval and the time of disbursement of a section 502 loan, the development company shall submit evidence satisfactory to SBA that the proceeds of such loan will be used for plant construction, conversion, expansion, or the acquisition of land, solely to assist an identifiable small business concern: *Provided, however,* That as of the time of disbursement, with respect to size, evidence need be submitted to show only the fact that the small business concern to be assisted has not adversely affected its status as an identifiable small business concern since the date of approval of loan by reason of any reorganization (including any reorganization under any Federal or state statute, sale of assets, merger, consolidation, purchase,

V 38 - 166 AUG 28 73 XUM

sale or exchange of securities, or long-term lease) or franchise agreement.

(2) The identifiable small business concern, under agreement existing at the time of such disbursement, shall be entitled or permitted to possess and use, as owner or tenant, the plant which is constructed, converted, or expanded, with the proceeds of said loan.

(3) Evidence, satisfactory to SBA, shall be submitted prior to approval and disbursement of said loan, that the identifiable small business concern intends or has the right to use the said plant during a period of time equal at least to the maximum contract term of the section 502 loan or 5 years after full disbursement of the section 502 loan, whichever is the longer period; and that use of said proceeds will assist only the identifiable small business concern. Evidence of such intent and purpose shall be deemed to exist where the proceeds of the section 502 loan will be used by the development company to (i) relend to the identifiable small business concern for construction, conversion, or expansion of a plant owned, occupied, and used by said concern; (ii) construct, convert, or expand a plant to be sold immediately to the identifiable small business concern for its occupancy and use; (iii) construct, convert, or expand a plant owned by the development company to be leased to the identifiable small business concern with the right in such concern to apply rentals, under a purchase option arrangement, on the purchase price of the plant; or (iv) construct, convert, or expand a plant owned by the development company to be leased to the identifiable small business concern without a purchase option arrangement, but with the right in such concern to occupy the plant during a period of time equal at least to the maximum contract term of the section 502 loan or 5 years after full disbursement of the section 502 loan, whichever is the longer period; upon terms between the development company and said concern intended to provide the development company with total funds not in excess of those necessary; to repay with interest the section 502 loan; for applicable taxes upon and maintenance of the plant; to recover administrative costs; to provide a reasonable sum as a reserve for contingencies to cover unusual costs or expenses; and to recover capital investments and expenditures of the development company's own funds in the project with a reasonable return on such as may be necessary to attract and maincapital investments and expenditures tain a broad base of ownership or membership and interest in continuing local development projects.

(k) *Compliance.*—(1) All complaints alleging discrimination in construction contracts involving the use of section 502 loan proceeds shall be investigated by SBA. Complaints alleging discrimination must be filed with SBA within 90 days of the alleged discrimination.

(2) SBA may hold informal hearings and make findings regarding the allegation of discrimination in accordance with the rules of the President's Committee on Equal Employment Opportunity. In the event that SBA finds discrimination to have occurred, it may cancel loans approved but not disbursed to an applicant, it may refuse to make further disbursement on account of the loan, or it may accelerate the maturity of the note between borrower and SBA, or it may take any action of a lesser nature. Failure of SBA to invoke or assert any of the aforesaid sanctions or any other sanctions shall not be construed to be a waiver of SBA's right to assert any of such sanctions. See also part 112 of this chapter.

Dated August 17, 1973.

VETERANS ADMINISTRATION

[38 CFR Part 3]

ANNUAL INCOME

Foster Grandparent Program; Older Americans Community Service Programs

Public Law 93-29 (87 Stat. 55), enacted May 3, 1973, amended the Older Americans Act of 1965. One of the amendments effected by this Act was an extension of the Foster Grandparents Program to provide person-to-person services to disadvantaged persons other than children. These programs utilize the services of volunteers 60 years or older who are out of the normal work force and who have low incomes. A specific provision added by Pub. L. 93-29 prescribes that, notwithstanding any other provision of law, compensation received for services rendered under these programs shall not be considered income for any purpose. To effectuate this provision of the Act, the Administrator of Veterans' Affairs proposes regulatory changes which would exclude compensation under these programs from computation as income of the recipient in determining entitlement to pension, compensation, or dependency and indemnity compensation payable by the Veterans Administration. It is proposed to amend Part 3, Title 38, Code of Federal Regulations, as set forth below.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposal to the Administrator of Veterans' Affairs (232H), Veterans Administration, Central Office, 810 Vermont Avenue NW., Washington, D.C. 20420. All relevant material received before Sept. 27, 1973 will be considered. All written comments received will be available for public inspection at the above address only between the hours of 8 a.m. and 4:30 p.m., Monday through Friday (except holidays), during the mentioned 30-day period and for 10 days thereafter. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Assistance Unit in room 132. Such visitors to any VA field station will be informed that the records are available for inspection only in Central Office and will be furnished the address of the above room number.

Notice is given that it is proposed to make these amendments effective May 3, 1973.

1. In § 3.261(a), subparagraph (33) is added to read as follows:

§ 3.261 **Character of income; exclusions and estates.**

	Dependency (parents)	Dependency and indemnity compensation (parents)	Pension protected (veterans, widows and children)	Pension; Public Law 86-211 (veterans, widows and children)	See—
(a) *Income:*					§3.262(q).
(33) Foster Grandparent Program and Older Americans Community Services Programs payments (Public Law 93-29).	Excluded	Excluded	Excluded	Excluded	

2. In § 3.262, paragraph (q) is added to read as follows:

§ 3.262 **Evaluation of income.**

(q) *Payments Under Foster Grandparent Program and Older Americans Community Service Programs.*—Effective May 3, 1973, compensation received under the Foster Grandparent Program and Older Americans Community Service Programs (42 U.S.C. 3044b) will be excluded from income in claims for compensation, pension and dependency and indemnity compensation. (Pub. L. 93-29; 87 Stat. 55)

Approved August 22, 1973.

[SEAL] FRED B. RHODES,
Deputy Administrator.

Notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

NOTICE OF GRANTING OF RELIEF

Notice is hereby given that pursuant to 18 U.S.C., section 925(c), the following named persons have been granted relief from disabilities imposed by Federal laws with respect to the acquisition, transfer, receipt, shipment, or possession of firearms incurred by reason of their convictions of crimes punishable by imprisonment for a term exceeding one year.

It has been established to my satisfaction that the circumstances regarding the convictions and each applicant's record and reputation are such that the applicants will not be likely to act in a manner dangerous to public safety, and that the granting of the relief will not be contrary to the public interest.

Baker, Howard Joseph, 59 Lund Street, Eugene, Oregon, convicted on January 14, 1966, and April 15, 1969, in the Circuit Court, County of Lane, State of Oregon.

Beck, Michael W., 2102 South Seventh Street, Temple, Texas, convicted on February 12, 1969, in the District Court, Bell County, Belton, Texas, and on October 15, 1970, in District Court, Bell County, 169th Judicial District of Texas.

Clark, James H., III, P.O. Box 813, Elizabethtown, North Carolina, convicted on November 13, 1967, in the Court of General Sessions, Chesterfield County, South Carolina.

Coleman, George Richard, 5805 S.W. 192nd, Aloha, Oregon, convicted on August 20, 1970, in United States District Court, Portland, Oregon.

Eichner, Leonard, Jr., 4499 Pardee, Dearborn Heights, Michigan, convicted on October 21, 1946, in the District Court, Keith County in Ogallala, Nebraska.

Foss, Clifford Everett, Wentworth, South Dakota, convicted on January 7, 1971, in the Circuit Court, Second Judicial Circuit, Sioux Falls, South Dakota.

Long, Albert Stanley, Peytonsburg, Kentucky, convicted on September 28, 1939 and November 19, 1953, in the United States District Court, Bowling Green, Western District of Kentucky.

Monell, Franklin, 156 Windsor Place, Brooklyn, New York, convicted on May 7, 1962, in Supreme Court, Kings County, New York.

Perry, Darrell Lee, 3117½ W. Maplewood, Bellingham, Washington, convicted on December 11, 1970, in Superior Court for the State of Washington, Bellingham, Whatcom County.

Reid, Irvine J., 2323 North Bond, Saginaw, Michigan, convicted on November 10, 1941, in Saginaw County Circuit Court, Saginaw, Michigan.

Rogers, Charles M., 244 Lansbury Drive, Danville, Virginia, convicted on March 19, 1952, in Corporation Court of Danville, Virginia, and on April 16, 1962, in the United States District Court for the Western District of Virginia.

Sheldon, Wilfred, Jr., Box 71 Brainard Station Road, Brainard, New York, convicted on June 1, 1967, in the Supreme Court, County of Albany, New York.

Signed at Washington, D.C. this 15th day of August, 1973.

[SEAL] REX B. DAVIS,
Director, Bureau of Alcohol, Tobacco and Firearms.

Office of the Secretary

REFORM OF THE INTERNATIONAL MONETARY SYSTEM

Establishment of Advisory Committee

Pursuant to Pub. L. 92-463, the Federal Advisory Committee Act, the Treasury Department has established the Advisory Committee on Reform of the International Monetary System. The Committee is composed of leading members of the United States international financial community and will be chaired by former Secretary of the Treasury Henry H. Fowler.

The Committee will consult with and advise the Secretary and his staff with respect to issues arising in the negotiations of international monetary reform and related issues. It has been determined that the function of this Committee could not be performed by an agency of the Government or an existing Committee.

The Under Secretary for Monetary Affairs has certified that the establishment of this Advisory Committee is in the public interest.

Dated August 22, 1973.

[SEAL] J. ELTON GREENLEE,
Acting Assistant Secretary for Administration and Departmental Advisory Committee Management Officer.

[FR Doc.73-18163 Filed 8-27-73;8:45 am]

U.S. Customs Service

[T.D. 73-234]

INSTRUMENTS OF INTERNATIONAL TRAFFIC

Steel Rack Skids, Wooden Shells, and Steel Bars

AUGUST 22, 1973.

It has been established to the satisfaction of the U.S. Customs Service that units composed of a steel rack skid, wooden shells, and steel bars, 65 inches in height by 42 inches by 65 inches, used for the transportation of wire tire cord fabric, are substantial, suitable for and capable of repeated use and will be used in significant numbers in international traffic.

Under the authority of § 10.41a(a)(1), Customs regulations (19 CFR 10.41a(a)(1)), I hereby designate the above-described units as "instruments of international traffic" within the meaning of section 322(a), Tariff Act of 1930, as amended. These units may be released under the procedures provided for in § 10.41a, Customs regulations.

[SEAL] VERNON D. ACREE,
Commissioner of Customs.

DEPARTMENT OF DEFENSE

Department of the Army

LAUREL RIVER LAKE, KENTUCKY

Joint Order Interchanging Administrative Jurisdiction of Department of the Army Lands and National Forest Lands

By virtue of the authority vested in the Secretary of the Army and the Secretary of Agriculture by the Act of July 26, 1956 (70 Stat. 656 (16 U.S.C. 505a, 505b)), it is ordered as follows:

(1) The lands under the jurisdiction of the Department of the Army described in Exhibit A, attached hereto and made a part hereof, which lands are within and adjacent to the exterior boundaries of the Daniel Boone National Forest, Kentucky, are hereby transferred from the jurisdiction of the Secretary of the Army to the jurisdiction of the Secretary of Agriculture, subject to outstanding rights or interest of record and to such continued use by the Corps of Engineers of all of these lands which are necessary for the construction, operation, and maintenance of the Laurel River Lake project for its intended purposes, other than for recreation and fish and wildlife, as presently authorized, or as may be authorized in the future, including, but not limited to the right to perform timber clearing, flooding of the area, to construct and maintain transmission lines and utilities, access roads, and to make improvements in the aid of navigation, and to a reservation by the Corps of Engineers of the privilege of outgranting rights-of-way for power and telephone lines, for roads and pipelines, etc., as necessary to accommodate such facilities as are relocated and reconstructed under certain relocation contracts between the Corps of Engineers and owners thereof. Administration of licenses, permits, and easements for such outgrants of rights-of-way will be transferred to the Secretary of Agriculture.

V 38 - 166 AUG 28 73 XUM

(2) The National Forest lands described in Exhibit B, attached hereto and made a part hereof, which are a part of the Daniel Boone National Forest, Kentucky, are hereby transferred from the jurisdiction of the Secretary of Agriculture to the jurisdiction of the Secretary of the Army, subject to outstanding rights or interests of record, and to a reservation for and on behalf of the United States Forest Service of the right of access and use necessary to provide for required other uses of National Forest lands, including the sale of timber therefrom prior to clearning actitvties of the Corps of Engineers and access for National Forest purposes.

Pursuant to section 2 of the aforesaid Act of July 26, 1956, the National Forest lands transferred to the Secretary of the Army by this order are hereafter subject only to the laws applicable to the Department of the Army lands comprising the Laurel River Lake project. The Department of the Army lands transferred to the Secretary of Agriculture by this order are hereafter subject to the laws applicable to lands acquired under the Act of March 1, 1911 (38 Stat. 961), as amended.

Effective Date.—This order will be effective August 28, 1973.

Dated July 9, 1973.

HOWARD H. CALLAWAY,
Secretary of the Army.

EARL L. BUTZ,
Secretary of Agriculture.

EXHIBIT A

Lands transferred from the Secretary of the Army to the Secretary of Agriculture.

The following listed tracts acquired by the Department of the Army for, or, in connection with the Laurel River Lake project in Whitley and Laurel Counties, Kentucky:

Segment 1—Tract 113.

Segment 2—Tracts 200, 201, 202, 203, 207.

Segment 3—Tracts 301, 302, 304, 305, 306, 307.

Segment 4—Tracts 400, 402, 403, 404, 405, 406, 410, 412.

Segment 5—Tracts 500, 501, 503, 506, 508.

Segment 6—Tracts 600, 602, 603, 605, 607, 608, 609, 611, 612, 613–1, 613–2, 613–3, 615, 616, 618, 619, 621.

Segment 7—Tracts 701, 702, 703, 704, 706, 708, 710, 712, 713, 715, 716, 717, 718, 725, 729, 730, 732, 733.

Segment 8—Tracts 800, 801, 802, 804, 805, 806, 808, 809, 810, 811, 812, 814.

Segment 9—Tracts 900, 901, 902, 903, 906, 908, 909, 910, 914, 915, 917, 918, 919, 920, 922, 823, 824, 825, 826, 928.

Segment 10—Tracts 1007, 1008, 1012–1, 1012–2, 1013, 1017, 1021, 1023, 1026, 1029, 1036, 1038, 1043, 1057, 1058, 1061–1, 1061–2, portion of Tract 1037.

The lands listed above consist of 6,337 acres, more or less. Legal descriptions of the transferred tracts and Real Estate Segment Maps depicting their location are on file in the office of the District Engineer, U.S. Army Corps of Engineers, Nashville District, Nashville, Tennessee; and the office of the Forest Supervisor, Daniel Boone National Forest, Winchester, Kentucky.

EXHIBIT B

Lands transferred from the Secretary of Agriculture to the Secretary of the Army.

Tract 1557, consisting of 107 acres, more or less.

Complete legal description of the transferred tract and survey plat depicting the location are on file in the office of the District Engineer, U.S. Army Corps of Engineers, Nashville District, Nashville, Tennessee; and the office of the Forest Supervisor, Daniel Boone National Forest, Winchester, Kentucky.

Department of the Navy

ADVISORY COMMITTEE FOR MINORITY AFFAIRS

Notice of Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463 (1972)), notice is hereby given that the Commandant of the Marine Corps Advisory Committee for Minority Affairs will have a closed meeting on September 14, 1973, at Headquarters, United States Marine Corps, Navy Annex, Arlington, Virginia.

The agenda of this meeting consists of matters determined by the Secretary of the Navy to be exempt from disclosure under the provisions of section 552(b) of title 5, United States Code.

MERLIN H. STARING,
Rear Admiral, JAGC, U.S. Navy, Judge Advocate General of the Navy.

AUGUST 20, 1973.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

NEW MEXICO

NEW MEXICO GRAZING DISTRICT ADVISORY BOARDS

Notice of Meetings

Notice is hereby given that four Bureau of Land Management grazing district advisory boards, chartered by the Taylor Grazing Act, will meet at separate locations in New Mexico during September 1973, as follows in chronological order:

Socorro, September 5, at 9 a.m., at the Bureau of Land Management District Office. The agenda contains but one item: Discussion of the regulations and interagency agreement pertaining to the protection and management of wild, free-roaming horses and burros on public lands.

Roswell, September 6, at 9 a.m., at the Bureau of Land Management District Office. The agenda contains but one item: Discussion of the regulations and interagency agreement pertaining to the protection and management of wild, free-roaming horses and burros on public lands.

Las Cruces, September 10, at 9 a.m., at the Bureau of Land Management District Office. The agenda contains but one item: Discussion of the regulations and interagency agreement pertaining to the protection and management of wild, free-roaming horses and burros on public lands.

Albuquerque, September 11, at 9 a.m., at the Bureau of Land Management District Office. The agenda contains two items: (1) Discussion of the regulations and interagency agreement pertaining to the protection and management of wild, free-roaming horses and burros on public lands and, (2) explanation of various aspects of the Bureau of Land Management's planning process and recommendations for the San Juan unit of the Farmington Resource Area. Wild horse regulations will be discussed, beginning at 9 a.m. The BLM planning process will be discussed, beginning at 1 p.m.

All meetings will be open to the public. Written and oral statements are welcome. Written statements should be addressed to advisory board chairmen, as follows:

Socorro—William M. Seis, P.O. Box 1456, Socorro, NM 87801.

Roswell—Carl Johnson, P.O. Box 1397, Roswell, NM 88201.

Las Cruces—Eldon P. Harvey, P.O. Box 1420, Las Cruces, NM 88001.

Albuquerque—Pablo Roybal, 3550 Pan American Freeway, Albuquerque, NM 87107.

MICHAEL T. SOLAN,
Acting State Director.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

CHILDRENS HOSPITAL

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 73-00463-33-46040. Applicant: Children's Hospital Research Foundation, Elland and Bethesda Avenues, Cincinnati, Ohio 45229. Article: Electron microscope, Model EM-10. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used in the study of lysosomal disease utilizing tissue cultures from patients with such diseases as Type II glycogenosis, Tay Sachs disease, mucopolysarcharidoses, mucosulfatidoses, etc. The morphologic alterations of lysosomes which cells in tissue culture from these diseases demonstrate will be investigated.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides a continuous magnification from 100 to 200,000 magnifications, without changing the pole-piece. The most closely comparable domestic instrument is the Model EMU-4C manufactured by the Forgflo Corporation. The Model EMU-4C, with its standard pole-piece, has a specified range from 1,400 to 240,000 magnifications. For survey and scanning, the lower end of this range can be reduced to 200 magnifications or less. But the continued reduction of magnification induces an increasingly greater distortion. The domestic manufacturer suggests in its literature on the Model EMU-4C that for highest quality, low magnification electron micrographs in the magnification range between 500 and 70,000 magnifications, an optional low magnification polepiece should be used. Changing the polepiece on the Model EMU-4C requires a break in the vacuum of the column. We are advised by the Department of Health, Education and Welfare (HEW) in its memorandum dated August 9, 1973, that the applicant requires the capability of taking high-quality micrographs at low magnifications in order to achieve the purposes for which the article is intended to be used.

HEW further advises that breaking the vacuum in the column induces the danger of contamination which would very likely lead to the failure of the experiment.

Therefore, the capability of moving from 100 to 200,000 magnifications without changing pole-pieces, while at the same time providing high-quality micrographs at low magnifications, is considered to be a pertinent characteristic. For these reasons, we find that the Model EMU-4C is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director,
Special Import Programs Division.

PHILADELPHIA GENERAL HOSPITAL, ET AL.

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before September 17, 1973.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket Number: 74-00041-33-46500. Applicant: Philadelphia General Hospital, 700 Civic Center Boulevard, Philadelphia, Pennsylvania 19104. Article: Ultramicrotome, Model LKB 8800A and 4806A Ultrotome Table. Manufacturer: LKB Produkter AB, Sweden. Intended Use of Article: The article is intended to be used in research on animal brain which has been innoculated with cells believed to contain a virus responsible for the pathogenesis of multiple sclerosis (MS). Objectives are (1) to explore the possibility that a virus is responsible for MS (2) to grow this virus in cell cultures and (3) to create MS lesions in the brains of monkeys and identify the virus. Application received by Commissioner of Customs: July 24, 1973.

Docket Number: 74-00042-33-46500. Applicant: Hospital of the Good Samaritan Medical Center, 1212 Shatto Street, Los Angeles, California 90017. Article: Ultramicrotome, Model LKB 8800A, 14800-1 CryoKit, and 4806A Ultrotome Table. Manufacturer: LKB Produkter AB, Sweden. Intended Use of Article: The article is to be used in studies of normal and pathological human tissue, specifically, normal and malignant cells taken from biopsies of human breast and urinary bladder. Application received by Commissioner of Customs: July 24, 1973.

Docket Number: 74-00043-01-07500. Applicant: Medical University of South Carolina, Biochemistry Department, 80 Barre Street, Charleston, South Carolina 29401. Article: LKB Batch Microcalorimeter, Model 10700-2. Manufacturer: LKB Produkter AB, Sweden. Intended Use of Article: The article is intended to be used for the study of proteins and other biologically important molecules. The protein systems include the enzymes: xanthine oxidase, synthetase, dihydrofolate reductase, serine tranhydroxymethylase, uricase, and ATPase. Whole cell studies will also be conducted. Thermal changes associated with biological reactions undergone by the above both in vitro will be investigated. Application received by Commissioner of Customs: July 23, 1973.

Docket Number: 74-00048-36-46070. Applicant: University of Wisconsin—Oshkosh, Oshkosh, Wisconsin 54901. Article: Scanning Electron Microscope, Model HHS-2R. Manufacturer: Hitachi Perkin-Elmer, Japan. Intended Use of Article: The foreign article is intended to be used in research on (1) The Taxonomy of the genus *chironomus: C: pallidivittatus* and its relationship to various European species (2) the morphology of the Army Cutworm, *Chorizagrotis auxiliaris* and (3) the structure of the Prophase I Nucleus in the mushroom Genus *Mycena*. The article will also be used in a regular undergraduate program in advanced courses in plant morphology, entomology, cytology and bactiology. Application received by Commissioner of Customs: July 27, 1973.

Docket Number: 74-00049-38-64700. Applicant: University of Hawaii, Department of Educational Psychology, 1776 University Avenue, Honolulu, Hawaii 96822. Article: 704 TKK Polygraph for Group Use. Manufacturer: Takei & Company, Ltd., Japan. Intended Use of Article: The article is intended to be used in research studies of psychophysiological changes as concommitants of small group process. Specifically it is intended to measure the psychophysiological aronsol as a function of (1) group leadership styles (2) group membership styles (3) inclusion stage in groups (4) affection stage in groups (5) control stage in groups (6) problem solving stage in groups (7) high verbal times vs. low verbal times for leaders and for members and (8) high ambiguity vs. low ambiguity times in the group. Application received by Commissioner of Customs: July 30, 1973.

Docket Number: 74-00050-75-77025. Applicant: University of California, Purchasing Department, P.O. Box 1500, Berkeley, California 94701. Article: ^{3}He Fast Neutron Spectrometer. Manufacturer: Seforad-Applied Radiation Ltd., Israel. Intended Use of Article: The foreign article will be used in research studies of delayed neutron spectra from decay of short-lived fission products. It is intended the studies will include as many spectra as are accessible under the available experimental conditions.

The article will also be used in teaching courses in Nuclear Engineering. Application received by Commissioner of Customs: July 30, 1973.

Docket Number: 74-00051-33-46040. Applicant: University of Maryland School of Medicine, Department of Anatomy, 29 South Greene Street, Baltimore, Maryland 21201. Article: Electron Microscope, Model EM 201. Manufacturer: Philips Electron Instruments NVD, The Netherlands. Intended Use of Article: The article is intended to be used in the following research projects of a biomedical nature:

(1) An intensive study of cellular content of peripheral or prenodal lymph—The overall objective of the project is to correlate the information obtained on the structure and function of these cells in postnodal lymph in an attempt to understand the role which these cells play in the defensive mechanism of the body in general and immune process in particular.

(2) The role of thyrocalcitonin in the induction of tumors—The objectives of the project are (a) to expand the preliminary experiments involving the administration of thyrocalcitonin to potentially leukemic mice to provide further information on the development of neoplastic disease, (b) to investigate the characteristics of any induced neoplasms to determine the site of origin, and (c) to determine by electron microscopy the presence or the absence of viral particles in induced tumors, and if present, to determine whether any apparent relationship exists between this virus and the preexisting virus in the bone cells.

(3) A comparative study of metastasizing and non-metastasizing murine tumors: The role of the Intracisternal. A-particle—The

V38-166 AUG 28 73 XUM

objective of this project is to determine if alteration of cellular properties plays a decisive role in malignancy.

In addition the article will be used in the courses: Techniques in Electron Microscopy, Histology for the Medical Students and Histology for graduate students, for training in electron microscopy and for providing the students with a basic knowledge and understanding of the microscopic structure of the human body.

Application received by Commissioner of Customs: August 2, 1973.

Docket Number: 74–00052–33–75300. Applicant: Mental Health Research Institute, University of Michigan, 205 N. Washtenaw, Ann Arbor, Michigan 48104. Article: Semiautomatic Radioautographic Coating Device. Manufacturer: V. Avarlaid, Canada. Intended Use of Article: The foreign article is intended to be used in research on the process of axonal flow (transport along nerve axons) in the goldfish visual system using the technique of electron microscopic radioautography.

The article will also be used in training postdoctoral students in the application of electron microscopic radioautography. Application received by Commissioner of Customs: August 3, 1973.

Docket Number: 74–00053–33–46040. Applicant: Papanicolaou Cancer Research Institute, 1155 N.W. 14th Street, Miami, Florida 33136. Article: Electron Microscope, Model EM 301. Manufacturer: Philips Electron Instruments NVD, The Netherlands. Intended Use of Article: The foreign article is intended to be used in research to study the lungs and blood vessels of laboratory animals, specifically, lung sections after perfusion with certain synthesized vasoactive polypeptides and electron microscope auto radiographs made after perfusion of the lung with radioactive analogs of these compounds. The article will also be used in teaching graduate students in cell biology and neurobiology and for training postdoctoral fellows in specialized techniques related to the study of the lungs. Application received by Commissioner of Customs: August 2, 1973.

Docket Number: 74–00054–39–41700. Applicant: University of Virginia Medical Center, Department of Plastic Surgery, P.O. Box 223, Charlottesville, Virginia 22901. Article: Medilase 791 CO, Surgical Laser. Manufacturer: Laser Industries Ltd., Israel. Intended Use of Article: The foreign article is intended to be used in research experiments designed to evaluate the effects of laser beam energy on normal, diseased, and wounded tissue. In addition, an evaluation will be made on the use of the article as a surgical scapel for the debridgement of severely burned patients, for making incisions in human and animal soft tissue and bone, for treatment of tumors and for making bloodless incisions. Application received by Commissioner of Customs: August 2, 1973.

Docket Number: 74–00055–33–46040. Applicant: University of Connecticut, Biobehavioral Sciences, Bldg. #1, Horsebarn Road, Box U–154, Storrs, Connecticut 06268. Article: Electron Microscope, Model EM 10 and accessories. Manufacturer: Carl Zeiss, West Germany. Intended Use of Article: The foreign article is intended to be used for research in high resolution studies of nerve tissue sections and will include: (1) Studies of the morphology of cells in the cerebellum and its related nuclei; (2) the mapping of synapses on the neuronal surface of determined cell types and their distribution in certain portions of tissue; (3) high resolution analysis of the fine structure of synaptic vesicles and synaptic membranes in adult and developing animals (embryos), in thin sections and in freeze-fractured specimens; (4) the fine alterations of synaptic contacts under degenerative phenomena such as those provoked by severance of the cell processes and; (5) studies on the molecular structure of purified enzymes from nervous tissue (such as, acetycholinesterase).

The article will also be used in teaching methods of high resolution electron microscopy to selected graduate students. Application received by Commissioner of Customs: August 2, 1973.

Docket Number: 74–00056–33–46500. Applicant: New York State Institute for Basic Research in Mental Retardation, 1050 Forest Hill Road, Staten Island, New York 10314. Article: Ultramicrotome, Model Om U3. Manufacturer: C. Reichert Optische Werke AG, Austria. Intended Use of Article: The foreign article is intended to be used in the study of human murine cytomegalovirus and suitable host cells infected with virions to determine the sequence of events which take place in both abortively and productively infected cells. The article will also be used in training research scientists in specimen preparation for electron microscope studies without the use of a specified course. Application received by Commissioner of Customs: July 5, 1973.

Docket Number: 74–00057–33–46040. Applicant: Baylor College of Medicine, 1200 Moursund Avenue, Houston, Texas 77025. Article: Electron Microscope, Model EM 201. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended Use of Article: The article is intended to be used by senior investigators and selected postdoctoral fellows to examine biological material in a broad-based study of normal and diseased mammalian myocardium. Studies of normal fine structure of mammalian fetal, neonatal and adult heart will be performed, as well as continuing investigation of animal models for myocardial disease. Application received by Commissioner of Customs: August 6, 1973.

Docket Number: 74–00058–33–46040. Applicant: Kansas State University, Division of Biology, Ackert Hall, Manhattan, Kansas 66506. Article: Electron Microscope, Model EM 201. Manufacturer: Philips Electronic Instruments, NVD, The Netherlands. Intended Use of Article: The article is intended to be used in studies of biological cells in stages of division, including both mitosis and meiosis; cultured cells in states of differentiation and specialization of function; cells secreting calcium for deposition in extracellular matrices, viruses and virus infected cells. The studies all relate to fundamental research of biological problems, many of which have medical orientation and implications. The article will also be used in the course: Special Topics in Developmental Biology to prepare students and faculty members for research applications of the electron microscope. Application received by Commissioner of Customs: August 4, 1973.

Docket Number: 74–00059–00–14200. Applicant: University of California, Facility for Advanced Instrumentation, Davis, California 95616. Article: Accessory Model Quantimet 720R (Pattern Recognition Unit) for Image Analysing Computer. Manufacturer: Metals Research Ltd., United Kingdom. Intended Use of Article: The foreign article is intended to be used in research on the predator-prey relationship between *Bdellovibrio bacteriovorus* and its bacterial host by detection of the change in shape of the host cell from a rod to a sphere when attacked successfully by *Bdellovibrio*. Detection of induced variations will determine the susceptibility of a given host and possibly determine whether such variations were genetically stable or simply controlled by ambient environmental conditions. Application received by Commissioner of Customs: August 6, 1973.

Docket Number: 74–00060–33–46040. Applicant: North Shore Hospital, 300 Community Drive, Manhasset, New York 11030. Article: Electron Microscope, Model JEM 100B. Manufacturer: JEOL Ltd., Japan. Intended Use of Article: The foreign article is intended to be used in research using animal and human material on these projects: (1) Alterations in ultrastructural and electron microscopic cytochemical characteristics of intestinal epithelial cells with carbohydrate malabsorption of infections and noninfectious (induced by hypoxia, epinephrine level modification, hypothermia, is chemical, or ischemia) origin; (2) Studies on cultural mammalian central nervous system tissue concerning the flow of membrane associated with synaptic vesicles and the presynaptic surface; (3) Detailed serial section studies on the possible connections between dense-cored catecholamine containing vesicles and the axonal reticulum; (4) Electron microscopic study of blood platelets and white blood cell myoproliferative disease.

The article will also be used in training a limited number of PH.D. and M.D. Students as a preliminary to research work. Application received by Commissioner of Customs: August 6, 1973.

A. H. STUART,
Director, Special
Import Programs Division.

Maritime Administration

[Docket No. S–384]

UNITED STATES LINES, INC.

Notice of Application

Notice is hereby given that United States Lines, Inc. has filed an application for operating-differential subsidy on four (4) proposed converted tankers of approximately 80,000 deadweight tons each. Said vessels will operate in worldwide tanker trades in the foreign commerce of the United States.

Any party having an interest in such application and who would contest a finding of the Board that the service now provided by vessels of United States registry for the worldwide carriage of liquid and dry bulk cargoes, not subject to the cargo preference statutes, moving in the foreign commerce of the United States or in any particular trade in the foreign commerce of the United States is inadequate, must on or before September 10, 1973, notify the Secretary in writing of his interest and of his position and file a petition for leave to intervene in accordance with the Boards Rules of Practice and Procedure (46 CFR Part 201). Each such statement of interest and petition to intervene shall state whether a hearing is requested under section 605(c) of the Merchant Marine Act, 1936, as amended, and with as much specificity as possible and facts that the intervenor would undertake to prove at such hearing.

In the event that a section 605(c) hearing is ordered to be held, the purpose of such hearing will be to receive evidence relevant to whether the service already provided by vessels of U.S. registry for the worldwide movement of liquid and dry bulk cargoes in the foreign oceanborne commerce of the United States is inadequate and whether in the accomplishment of the purposes and policy of the Act additional vessels should be operated in such service.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Maritime Subsidy Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing the Maritime Subsidy Board will take such action as may be deemed appropriate.

Dated August 22, 1973.

By Order of the Maritime Subsidy Board.

JAMES S. DAWSON, Jr.,
Secretary.

National Bureau of Standards

SOFTWARE SUMMARY FOR DESCRIBING COMPUTER PROGRAMS AND AUTOMATED DATA SYSTEMS

Proposed Federal Information Processing Standards

Under the provisions of Public Law 89–306, the Secretary of Commerce is authorized to make appropriate recommendations to the President relating to the establishment of uniform Federal automatic data processing standards. Effective May 9, 1973, Executive Order 11717 transferred to the Secretary of Commerce all functions being performed in the Office of Management and Budget relating to the establishment of government-wide automatic data processing standards, including the function of approving standards on behalf of the President pursuant to section 111(f)(2) of the Federal Property and Administrative Services Act of 1949, as amended.

A proposed Standard Software Summary for Describing Computer Programs and Automated Data Systems provides a standard software summary form for describing computer programs and automated data systems. These forms will be used to compile an information base for government-wide reference and dissemination and for agency and installation documentation requirements. This proposed standard, developed by Federal Information Processing Standards Task Group 14, Documentation, will be promulgated as a Federal Information Processing Standard at such time as it may be approved by the Secretary of Commerce, on behalf of the President.

Prior to the submission of the final endorsement of this proposal to the Secretary of Commerce, it is essential to assure that proper consideration is given the needs and views of manufacturers, the public, and state and local governments. The purpose of this notice is to solicit such views.

Proposed Federal Information Processing Standards contain two basic sections: (1) An announcement section which provides information concerning the applicability, implementation, and maintenance of the standard, and (2) a specification section which details the technical requirements of the standard. Both sections are provided in their entirety.

Interested parties may submit comments to the Associate Director for ADP Standards, Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, D.C. 20234, on or before Oct. 26, 1973.

Dated August 22, 1973.

RICHARD W. ROBERTS,
Director.

FEDERAL INFORMATION PROCESSING STANDARDS PUBLICATION

DATE ----------

ANNOUNCING THE STANDARD FOR

SOFTWARE SUMMARY FOR DESCRIBING COMPUTER PROGRAMS AND AUTOMATED DATA SYSTEMS

Federal Information Processing Standards Publications are issued by the National Bureau of Standards under the Provisions of Public Law 89–306 and Executive Order 11717.

Name of Standard.—Software Summary for Describing Computer Programs and Automated Data Systems.

Category of Standard.—Software Standard, Documentation.

Explanation.—This publication provides a standard software summary form for describing computer programs and automated data systems. These forms are to be used to compile an information base for government-wide reference and dissemination.

Background.—Software costs are the most expensive aspect of computer based systems. Software includes the computer programs, procedures and related documentation as distinguished from hardware components and data. Federal ADP users currently, for the most part, acquire separately their computer software. In most instances this is done without benefit of knowing what has been acquired or developed by other Government users. Accordingly, this has led to unnecessary duplications. A need has been identified for a central reference index of computer programs and automated data systems that have been developed or are in use by the Government.

Public Law 89–306 was enacted in 1965 to provide for the economic and effective purchase, lease, maintenance, operation and utilization of automatic data processing equipment by Federal departments and agencies. In implementing this law, the Institute for Computer Sciences and Technology of the National Bureau of Standards was charged with the responsibilities of providing advisory and consulting services to Federal agencies and of developing and maintaining uniform Federal ADP standards. Specifically, NBS is responsible for maintaining a reference index of computer programs to minimize the need for the development of programs already developed, tested and in use elsewhere.

This FIPS PUB establishes procedures and provides standard forms for recording and reporting summary information about computer programs and automated data systems by Federal ADP users.

The central index of programs will be promulgated by NBS. This, in addition to minimizing duplication, should provide new and improved communications among ADP users within the Federal community who are encountering similar system design or operational problems. NBS is also undertaking concurrent standards efforts to facilitate the transferability of programs and data among Federal users.

The successful implementation of this standard through the cooperation of all Federal ADP users and agencies is expected to result in reduced costs and in improved utilization of the Government's ADP resources.

Approving Authority.—Secretary of Commerce.

Maintenance Agency.—Institute for Computer Sciences and Technology, National Bureau of Standards.

Applicability.—The standard Software Summary Form, SF —, provided in the specifications section of this FIPS PUB will be used for describing all current and new computer programs and automated systems developed or revised by Federal Departments and Agencies. This standard also applies to all computer programs and automated data systems developed through Federal Government grant or contract. Excluded are com-

V38-166 AUG 28 73 XUM

puter programs or automated systems of a classified nature.

Implementation Schedule.—This standard becomes effective upon publication. New programs and systems will be recorded and reported quarterly to the NBS Institute for Computer Sciences and Technology. The recording and reporting of current programs will be time phased over a two-year period. Revisions and deletions will be recorded and reported as applicable.

Copies of all summaries should be maintained by the agency or installation as part of its program and system documentation.

NBS on a periodic basis will promulgate registries of software summaries for reference purposes for use of Federal departments and agencies.

Special Information.—All automated data systems and independent computer programs will be reported. However, when a computer program is a component of an automated data system, it should be reported only if it has potential use separate and apart from the system.

Specifications.—Federal Information Processing Standard —, Sofeware Summary for Describing Computer Programs and Automated Data Systems (Affixed).

Where to Obtain Copies of the Standard.—Copies of this publication are for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Refer to Federal Information Processing Standards Publication (FIPS PUB) —. Price — cents a copy.

Copies of Standard Form —, Federal Information Processing Standard Software Summary are available from established sources within each agency or from the Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, D.C. 20234. Price — a thousand.

FEDERAL INFORMATION PROCESSING STANDARD — SPECIFICATIONS FOR

SOFTWARE SUMMARY FOR DESCRIBING COMPUTER PROGRAMS AND AUTOMATED DATA SYSTEMS

1. *Name of Standard.*—Software Summary for Describing Computer Programs and Automated Data Systems.

2. *Category of Standard.*—Software Standard, Documentation.

3. *Explanation.*—This publication provides a standard software summary form for describing computer programs and automated data systems. These forms are to be used to compile an information base for government-wide reference and dissemination.

4. *Definitions.*

a. *Computer program.*—An identifiable series of instructions or statements, in a form acceptable to a computer prepared in order to achieve a certain result.

b. *Automated data system.*—An assembly of computer programs designed to accomplish specific objectives or functions.

c. *Software Summary.*—A short form or abstract of a computer program or automated data system.

5. *Specifications.*—The figures contained in the following pages are copies of the referenced Standard Form —, Federal Information Processing Standard Software Summary, together with instructions for completion. For the purpose of illustration in this FIPS PUB, the instructions for completing this form have been placed on the page opposite the form. However, the forms which you receive will have the instructions printed on the back of each.

SF ___ FEDERAL INFORMATION PROCESSING STANDARD SOFTWARE SUMMARY *

Instructions for Completing SF ___, Software Summary *

01. Date Summary Prepared: Indicate in YYMMDD format

02. Date Summary Completed or Last Updated: Indicate in YYMMDD format

03. Agency Code: Insert organization code from Appendix A of latest version of OMB Circular A-11

04. Software Type:
1=individual program
2=automated data system (assembly of computer programs)

05. Type of Submission:
1=initial
2=revision
3=deletion

09. Software Function: Classify software in one of the following categories:
A=systems support/utility applications
B=management/business applications
C=scientific applications
D=data/file handlers
E=bibliographic applications
F=other (specify category)

10. Software Identification: Submitting agency's identification number or code for software. If none assigned, indicate NONE.

11. Title: Software title should be made as descriptive as possible.

12. Acronym: Commonly used abbreviation identifying software. (optional)

13. Organization: Identify organization responsible for software as completely as possible, including Agency (Department), Office, Service, Bureau, Corporation, Commission, or Council.

14. Address: Complete mailing address for responsible organization including building name, street address, city, state, and ZIP code. Include mail stop number if applicable.

15. Technical Contact(s): Name of person(s) to be contacted for technical information. Provide organization name and mailing address if different from those indicated in items 13 and 14.

16. Telephone number(s): Telephone number of technical contact(s). Provide area code, seven-digit commercial number, and extension.

20. Computer Manufacturer and Model: Identify mainframe computer on which software is operational. Use manufacturer, model, and abbreviations and codes provided in OMB Circular A-11.

21. Computer Memory Requirements: Maximum memory required to execute software other than that required for operating system. Specify bytes or words and numbers of bits per word.

22. Computer Operating System: Name, version, and release under which software is operating. Identify any operating system enhancements.

23. Tape Drives: Identify number needed to operate software. Specify, if critical, additional requirements such as manufacturer, model, recording density, number of tracks, etc

24. Disk/Drum Units: Identify number needed to operate software. Specify manufacturer, model, etc., where critical.

25. Keyboard Terminals: Identify number of keyboard terminals used for inquiry and response, and/or remote operations. Specify manufacturer and model.

26. Programming Language(s): Identify programming language(s) used to generate software (include versions) e.g., ANSI COBOL, FORTRAN V, SIMSCRIPT II.5.

30. Other Operational Requirements: Identify other peripheral devices, support software, or related equipment used, but not indicated above, e.g., optical character readers, facsimile, computer-output-microfilm, graphic plotters.

35. Narrative: Describe concisely what the software functionally accomplishes, its design characteristics, specific areas of application, relationship to other software, and other significant features.

40. Keywords: List significant words or phrases which reflect the functions, applications, and features of the software. Separate entries with semicolons.

45. Status: Enter code best describing software status:
1=planned
2=under development
3=operational
4=post operational
5=other (explain in narrative)

46. Software Availability:
1=available
2=proprietary
3=classified
4=other (explain in narrative)

47. Documentation:
1=available
2=in preparation
3=unavailabl

* In this draft, elements are numbered in groups for identification purposes. In the final form, elements will be numbered sequentially.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[DESI 6536 Docket No. FDC-D-307; NDA 6-536]

BETHANECHOL CHLORIDE

Drugs for Human Use; Drug Efficacy Study Implementation; Followup Notice

In a notice (DESI 6536) published in the FEDERAL REGISTER of May 22, 1971 (36 FR 9341), the Commissioner of Food and Drugs announced his conclusions pursuant to the evaluation of reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following drugs:

NDA 6-536; Urecholine Chloride Tablets and Injection containing bethanechol chloride; Merck Sharp & Dohme, Division of Merck and Co., Inc., West Point, PA 19486.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed and are subject to this notice. See 21 CFR 130.40 (37 FR 23185, Oct. 31, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, MD 20852.

The notice stated that bethanechol injection was deemed effective for certain indications and the tablets probably effective for these indications and that the other labeled indications were possibly effective and lacking substantial evidence of effectiveness. The possibly effective indications have been reclassified as lacking substantial evidence of effectiveness in that no new evidence of effectiveness has been received pursuant to the notice.

Based upon reevaluation of available information, the indications previously considered as probably effective are now regarded as effective. Also, the requirement that bioavailability data be submitted has been deferred and abbreviated rather than full new drug applications and supplements may be submitted.

Accordingly, the previous announcement is amended to read as follows:

A. *Effectiveness classification.*—The Food and Drug Administration has considered the Academy's reports, as well as other available evidence, and concludes that:

1. Bethanechol chloride injection and tablets are effective for treatment of acute postoperative and postpartum nonobstructive (functional) urinary retention and for neurogenic atony of the urinary bladder with retention.

2. These drugs lack substantial evidence of effectiveness for all their other labeled indications.

B. *Conditions for approval and marketing.*—The Food and Drug Administration is prepared to approve abbreviated new drug applications and abbreviated supplements to previously approved new drug applications under conditions described herein.

1. *Form of drug.*—These preparations are in sterile aqueous solution or tablet form suitable for subcutaneous or oral administration, respectively.

2. *Labeling conditions.*—a. The labels bear the statement, "Caution: Federal law prohibits dispensing without prescription."

b. The drugs are labeled to comply with all requirements of the Act and regulations, and the labeling bears adequate information for safe and effective use of the drug(s). The "Indications" are as follows:

INDICATIONS

For the treatment of acute postoperative and postpartum nonobstructive (functional) urinary retention and for neurogenic atony of the urinary bladder with retention.

3. *Marketing status.*—Marketing of such drugs may be continued under the conditions described in the notice entitled *Conditions for Marketing New Drugs Evaluated in Drug Efficacy Study*, published in the FEDERAL REGISTER July 14, 1970 (35 FR 11273), as follows:

V 38 - 166 AUG 28 73 XUM

a. For holders of "deemed approved" new drug applications (i.e., an application which became effective on the basis of safety prior to October 10, 1962), the submission of a supplement for revised labeling and an abbreviated supplement for updating information as described in paragraphs (a)(1)(i) and (iii) of the notice of July 14, 1970.

b. For any person who does not hold an approved or effective new drug application, the submission of an abbreviated new drug application as described in paragraph (a)(3)(i) of that notice.

c. For any distributor of the drug, the use of labeling in accord with this announcement for any such drug shipped within the jurisdiction of the Act as described in paragraph (b) of that notice.

C. *Notice of opportunity for a hearing.*—Notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355 (e)) withdrawing approval of the listed new drug application(s) and all amendments and supplements thereto providing for indications lacking substantial evidence of effectiveness referred to in paragraph A.2. of this notice on the grounds that new information before him with respect to the drug(s), evaluated together with theevidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug(s) will have all the effects purported or represented to have under the conditions of use prescribed, recommended, or suggested in the labeling. An order withdrawing approval will not issue with respect to any application(s) supplemented, in accord with this notice, to delete the claim(s) lacking substantial evidence of effectiveness.

Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to his notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing.

In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner hereby gives the applicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug application(s) providing for the claim(s) involved should not be withdrawn.

On or before September 27, 1973 the applicant(s) and any other interested person may file with the Hearing Clerk, Food and Drug Administration, Room 6–86, 5600 Fishers Lane, Rockville, Maryland 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing. Failure of an applicant or any other interested person to file a written appearance of election within the specified time will constitute an election by him not to avail himself of the opportunity for a hearing. No extension of time may be granted.

If no person elects to avail himself of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing approval of the application(s) which have not been supplemented to delete the indication(s) lacking substantial evidence of effectiveness.

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, on or before September 27, 1973, a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14(b)).

If review of the data submitted by an applicant or any other interested person warrants the conclusion that there exists substantial evidence demonstrating the effectiveness of the product(s) for the labeling claim(s) involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the applicant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will enter an order making findings and conclusions on such data and withdrawing approval of application(s) not supplemented to delete the claim(s) involved.

If, upon the request of the new drug applicant(s) or any other interested person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after September 27, 1973, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Communications forwarded in response to this notice should be identified with the reference number DESI 6536, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852:

Supplements (identify with NDA number):
Office of Scientific Evaluation (BD–100), Bureau of Drugs.
Original abbreviated new drug applications (identify as such):
Generic Drug Staff (BD–69), Bureau of Drugs.
Requests for the Academy's report:
Drug Efficacy Study Information Control (BD–66), Bureau of Drugs.
Request for Hearing (identify with docket number):
Hearing Clerk, (CC–20), Room 6–86, Parklawn Building.
All other communications regarding this announcement:
Drug Efficacy Study Implementation Project Manager (BD–101), Bureau of Drugs.

Received requests for a hearing may be seen in the office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (Sec. 502, 505, 52 Stat. 1050–53, as amended; 21 U.S.C. 352, 355) and the Administrative Procedure Act (5 U.S.C. 554), and under the authority delegated to the Commisssioner of Food and Drugs (21 CFR 2.120).

Dated August 21, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73–18152 Filed 8–27–73;8:45 am]

[DESI 5773 Docket No. FDC–D–642; NDA No. 5–773]

HOLLAND-RANTOS CO., INC.

Nylmerate Jelly; Notice of Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Application

In a notice (DESI 5773) published in the FEDERAL REGISTER of July 27, 1972 (37 FR 15030) the Commissioner of Food and Drugs announced his conclusions pursuant to the evaluation of a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the drug described below stating that the drug was regarded as possibly effective and as lacking substantial evidence of effectiveness for the various labeled indications. The possibly effective indications have been reclassified as lacking substantial evidence of effective in that no data have been submitted pursuant to the notice.

Nylmerate Jelly containing nonoxynol 9 (previously listed as polyoxyethylenenonylphenol), phenylmercuric acetate, and boric acid; marketed by Holland-Rantos Co., Inc., Enterprise Avenue, Trenton, N.J. 08638 (NDA 5–773).

Therefore, notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of the listed new drug application(s) and all amendments and supplements thereto on the grounds that new information before him with respect to the drug(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug(s) will have all the effects purported or represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed. See 21 CFR 130.40 (37 FR 23185, October 31, 1972). Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to this notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing. Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD–300), 5600 Fishers Lane, Rockville, Maryland 20852.

In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner hereby gives the applicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn.

On or before September 27, 1973 the applicant(s) and any other interested person is required to file with the Hearing Clerk, Food and Drug Administration, Room 6–86, 5600 Fishers Lane, Rockville, Maryland 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing. Failure of an applicant or any other interested person to file a written appearance of election within the specified time will constitute an election by him not to avail himself of the opportunity for a hearing. No extension of time may be granted.

If no person elects to avail himself of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing approval of the application(s).

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, on or before September 27, 1973 a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14(b)).

If review of the data submitted by an applicant or any other interested person warrants the conclusion that there exists substantial evidence demonstrating the effectiveness of the product(s) for the labeling claims involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the applicant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will rescind this notice of opportunity for hearing.

If, upon the request of the new drug applicant(s) or any other interested person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after September 27, 1973, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Requests for a hearing and/or elections not to request a hearing may be seen in the Office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052–53, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), under authority delegated to the Commissioner (21 CFR 2.120).

Dated August 21, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

McGAW LABORATORIES

Intravenous Solution Containing 5 Percent Alcohol and 5 Percent Dextrose With Vitamins; Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Application

In a notice (DESI 4589) published in the FEDERAL REGISTER of July 28, 1972 (37 FR 15184), the Commissioner of Food and Drugs announced his conclusions pursuant to the evaluation of a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the drug described below stating that the drug was regarded as lacking substantial evidence of effectiveness for promoting water excretion in postoperative or other dilutional hyponatremias and as possibly effective for its other labeled indications. The possibly effective indications have been reclassified as lacking substantial evidence of effectiveness in that no data have been submitted pursuant to the notice.

That part of NDA 4–589 pertaining to 5 percent Alcohol, 5 percent Dextrose with Vitamins, containing alcohol, dextrose, niacinamide, riboflavin, and thiamine hydrochloride; McGaw Laboratories, Inc. (successor to Don Baxter, Inc.), 1016 Grandview Avenue, Glendale, CA 91201.

Therefore, notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355 (e)) withdrawing approval of pertinent parts of the listed new drug application(s) and all amendments and supplements thereto on the grounds that new information before him with respect to the drug(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug(s) will have all the effects purported or represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed. See 21 CFR 130.40 (37 FR 23185, October 31, 1972). Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to this notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing. Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD–300), 5600 Fishers Lane, Rockville, Maryland 20852.

In accordance with the provisions of section 505 of the Act (21 U.S.C. 355), and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner hereby gives the applicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn.

On or before September 27, 1973, the applicant(s) and any other interested person is required to file with the Hearing Clerk, Food and Drug Administration, Room 6–86, 5600 Fishers Lane, Rockville, Maryland 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing. Failure of an applicant or any other in-

V38-166 AUG 28 73 XUM

terested person to file a written appearance of election within the specified time will constitute an election by him not to avail himself of the opportunity for a hearing. No extension of time may be granted.

If no person elects to avail himself of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing approval of pertinent parts of the application(s).

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, on or before September 27, 1973, a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14(b)).

If review of the data submitted by an application or any other interested person warrants the conclusion that there exists substantial evidence demonstrating the effectiveness of the product(s) for the labeling claims involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the applicant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will enter an order of withdrawal making findings and conclusions on such data.

If, upon the request of the new drug applicant(s) or any other interested person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after September 27, 1973, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Requests for a hearing and/or elections not to request a hearing may be seen in the Office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052–53, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated August 21, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.
